## 29.302 Application of State and local taxes to the Government.

- (a) Generally, purchases and leases made by the Federal Government are immune from State and local taxation. Whether any specific purchase or lease is immune, how-ever, is a legal question requiring advice and assistance of the agency-designated counsel.
- (b) When it is economically feasible to do so, *executive agencies shall* take maximum advantage of all exemptions from State and local taxation that *may* be available. If appropriate, the *contracting officer shall* provide a <u>Standard Form 1094</u>, U.S. Tax Exemption Form (see <u>part 53</u>), or other evidence listed in <u>29.305(a)</u> to establish that the purchase is being made by the Government.
