5117.9001 Definitions.

As used in this subpart -

“JOC Price Book” (JOCPB) means the compilation of repair, maintenance, and minor construction tasks, associated units of measure and unit prices that are used in job order solicitations and a JOC. JOC unit prices include direct material, labor and equipment costs, but not indirect costs or profits which are addressed in the coefficient(s). The use of labor-only line items is appropriate for use when proper internal controls are in place and incidental to construction. Labor line items are not to provide services, typically performed under a separate service or requirements contract. The JOCPB reflects the current local costs in detail for construction tasks expected to be performed in the geographical area of the base contract with the primary use of developing a detailed line item price. For CONUS, the JOCPB shall be developed using commercially available pricing tools to ensure consistent and comprehensive pricing of tasks unless the Contracting officer determines the use of a commercially available pricing tool is not in the best interest of the government.

“Coefficient” means a numerical factor that represents costs (generally indirect costs) not included in JOCPB unit prices (e.g., general and administrative and other overhead costs, insurance costs, bonding and alternative payment protection costs, protective clothing,
