

15-4. Payment Card Process Flow

The Army must follow all the necessary internal contracting procedures before starting the Payment Card Process. The CH has a GPC that is embossed and established for only "Contract Payments." The RM builds the managing account with Account Validation Control (AVC) "EDI CP GFEBS." Cardholder creates a manual purchase order for each contract. Cardholder provides the same card information to the contractor as they would for a purchase to the merchant. The person within the agency responsible for the payments is the BO who will certify the invoice "transaction(s)" for payment to the bank.
