(j) The contracting officer shall insert the clause at 52.227-18, Rights in Data—Existing Works, in solicitations and contracts exclusively for the acquisition, without modification, of existing audiovisual and similar works of the type set forth in 27.405(b)(1). The contract may set forth limitations consistent with the purposes for which the work is being acquired. The clause at 52.227-17, Rights in Data—Special Works, shall be used if existing works are to be modified, as by editing, translation, addition of subject matter, etc.

(k) In accordance with 27.405(b)(2), when contracting (other than from GSA's Multiple Award Schedule contracts) for the acquisition of existing computer software, the clause at 52.227-19, Commercial Computer Software-Restricted Rights, may be used in the solicitation and contract. In any event, the contracting officer shall assure that the contract contains terms to obtain sufficient rights for the Government to fulfill the need for which the software is being acquired and is otherwise consistent with 27.405(b)(2).

(l) If the contract is a Small Business Innovation Research (SBIR) contract, the clause at 52.227-20, Rights in Data—SBIR Program shall be used in all Phase I and Phase II contracts awarded under the Small Business Innovation Research Program established pursuant to Pub. L. 97-219 (The Small Business Innovation Development Act of 1982).

(m) While no specific clause of this subpart is required to be included in contracts solely for the acquisition, without disclosure prohibitions, of books, publications and similar items in the exact form in which such items exist prior to the request for purchase (*i.e.*, the off-the-shelf purchase of such items), or in other contracts (*e.g.*, contracts resulting from sealed bidding) where only existing data available without disclosure prohibitions is to be furnished, if reproduction rights are to be acquired the contract shall include terms addressing such rights. (See 27.405(b)(3).)

(n) Agencies may prescribe in their procedures, as appropriate, a clause consistent with the policy of 27.402 in contracts to be performed outside the United States, its possessions, and Puerto Rico.

(o) Agencies may prescribe in their procedures the clause at 52.227-17, Rights in Data—Special Works, or prescribe, as appropriate, clauses consistent with the policy in 27.402 in contracts for architect-engineer services and construction work.

(p) Agencies may prescribe in their procedures, as appropriate, a clause consistent with the policy of 27.402 in contracts for management, operation, design, or construction of Government-owned research, development, or production facilities, and in contracts and subcontracts in support of programs being conducted at such facilities.

(q) In accordance with 27.406(d), the contracting officer shall insert the clause at 52.227-21, Technical Data Declaration, Revision, and Withholding of Payment—Major Systems, in contracts for major systems acquisitions or for support of major systems acquisitions. When used, this clause requires that the technical data to which it applies be specified in the contract. (See 27.406(d).)

(r) In the case of civilian agencies except NASA and the U.S. Coast Guard, the contracting officer shall insert the clause at 52.227-22, Major System—Minimum Rights, in contracts for major systems or contracts in support of major systems.

(s) In accordance with 27.407, if a contracting officer desires to acquire unlimited rights in technical data contained in a successful proposal upon which a contract award is based, the contracting officer shall insert the clause at 52.227-23, Rights to Proposed Data (Technical). Rights to technical data in a proposal are not acquired by mere incorporation by reference of the proposal in the contract, and if a proposal is incorporated by reference, Section 27.404 must be followed to assure that such rights are appropriately addressed.

**Subpart 27.5—[Reserved]**

**Subpart 27.6—Foreign License and Technical Assistance Agreements**

**27.601 General.**

Agencies shall provide all necessary rules and regulations as are required for the proper application of the laws and policies of the U.S. Government regarding—

(a) Elimination in agreements between domestic concerns and foreign governments or foreign concerns of charges for the use of patents in which the U.S. Government has a royalty-free license or of charges in agreements for the use of data that the U.S. Government has a right to use and disclose to others, that is in the public domain, or that was acquired

by the U.S. Government with the unrestricted right to use, duplicate, or disclose and to have or permit others to do so;

(b) Foreign license and technical assistance agreements between the U.S. Government and United States domestic concerns;

(c) Guidance on negotiating contract prices and terms concerning patents and data, including royalties, in contracts between the U.S. Government and a foreign government or foreign concern; and

(d) Regulations and guidance on controls on the exportation of data relating to certain designated items, such as arms or munitions of war, and guidance on reviews of agreements involving such data (see 22 CFR 124).

**FEDERAL ACQUISITION REGULATION**

**SUBCHAPTER E—GENERAL CONTRACTING  
REQUIREMENTS**

## PART 28—BONDS AND INSURANCE

*Sec.*

28.000 Scope of part.

28.001 Definitions.

### **Subpart 28.1—Bonds and Other Financial Protections**

28.100 Scope of subpart.

28.101 Bid guarantees.

28.101-1 Policy on use.

28.101-2 Solicitation provision or contract clause.

28.101-3 [Reserved]

28.101-4 Noncompliance with bid guarantee requirements.

28.102 Performance and payment bonds and alternative payment protections for construction contracts.

28.102-1 General.

28.102-2 Amount required.

28.102-3 Contract clauses.

28.103 Performance and payment bonds for other than construction contracts.

28.103-1 General.

28.103-2 Performance bonds.

28.103-3 Payment bonds.

28.103-4 Contract clause.

28.104 Annual performance bonds.

28.105 Other types of bonds.

28.105-1 Advance payment bonds.

28.105-2 Patent infringement bonds.

28.106 Administration.

28.106-1 Bonds and bond-related forms.

28.106-2 Substitution of surety bonds.

28.106-3 Additional bond and security.

28.106-4 Contract clause.

28.106-5 Consent of surety.

28.106-6 Furnishing information.

28.106-7 Withholding contract payments.

28.106-8 Payment to subcontractors or suppliers.

### **Subpart 28.2—Sureties and Other Security for Bonds**

28.200 Scope of subpart.

28.201 Requirements for security.

28.202 Acceptability of corporate sureties.

28.203 Acceptability of individual sureties.

28.203-1 Security interests by an individual surety.

28.203-2 Acceptability of assets.

28.203-3 Acceptance of real property.

28.203-4 Substitution of assets.

28.203-5 Release of lien.

28.203-6 Contract clause.

28.203-7 Exclusion of individual sureties.

28.204 Alternatives in lieu of corporate or individual sureties.

28.204-1 United States bonds or notes.

28.204-2 Certified or cashier's checks, bank drafts, money orders, or currency.

28.204-3 Irrevocable letter of credit (ILC).

28.204-4 Contract clause.

### **Subpart 28.3—Insurance**

28.301 Policy.

28.302 Notice of cancellation or change.

28.303 Insurance against loss of or damage to Government property.

28.304 Risk-pooling arrangements.

28.305 Overseas workers' compensation and war-hazard insurance.

28.306 Insurance under fixed-price contracts.

28.307 Insurance under cost-reimbursement contracts.

28.307-1 Group insurance plans.

28.307-2 Liability.

28.308 Self-insurance.

28.309 Contract clauses for workers' compensation insurance.

28.310 Contract clause for work on a Government installation.

28.311 Solicitation provision and contract clause on liability insurance under cost-reimbursement contracts.

28.311-1 Contract clause.

28.311-2 Agency solicitation provisions and contract clauses.

28.312 Contract clause for insurance of leased motor vehicles.

28.313 Contract clauses for insurance of transportation or transportation-related services.

This page intentionally left blank.

**28.000 Scope of part.**

This part prescribes requirements for obtaining financial protection against losses under sealed bid and negotiated contracts. It covers bid guarantees, bonds, alternative payment protections, security for bonds, and insurance. The terms “bid” and “bidders” include “proposal” and “offerors.”

**28.001 Definitions.**

As used in this part—

“Attorney-in-fact” means an agent, independent agent, underwriter, or any other company or individual holding a power of attorney granted by a surety (see also “power of attorney” at 2.101).

“Bid guarantee” means a form of security assuring that the bidder—

- (1) Will not withdraw a bid within the period specified for acceptance; and
- (2) Will execute a written contract and furnish required bonds, including any necessary coinsurance or reinsurance agreements, within the time specified in the bid, unless a longer time allowed, after receipt of the specified forms.

“Bond” means a written instrument executed by a bidder or contractor (the “principal”), and a second party (the “surety” or “sureties”) (except as provided in 28.204), to assure fulfillment of the principal’s obligations to a third party (the “obligee” or “Government”), identified in the bond. If the principal’s obligations are not met, the bond assures payment, to the extent stipulated, of any loss sustained by the obligee. The types of bonds and related documents are as follows:

- (1) An advance payment bond secures fulfillment of the contractor’s obligations under an advance payment provision.
- (2) An annual bid bond is a single bond furnished by a bidder, in lieu of separate bonds, which secure all bids (on other than construction contracts) requiring bonds submitted during a specific Government fiscal year.
- (3) An annual performance bond is a single bond furnished by a contractor, in lieu of separate performance bonds, to secure fulfillment of the contractor’s obligations under contracts (other than construction contracts) requiring bonds entered into during a specific Government fiscal year.
- (4) A patent infringement bond secures fulfillment of the contractor’s obligations under a patent provision.
- (5) A payment bond assures payments as required by law to all persons supplying labor or material in the prosecution of the work provided for in the contract.

(6) A performance bond secures performance and fulfillment of the contractor’s obligations under the contract.

“Consent of surety” means an acknowledgment by a surety that its bond given in connection with a contract continues to apply to the contract as modified.

“Penal sum” or “penal amount” means the amount of money specified in a bond (or a percentage of the bid price in a bid bond) as the maximum payment for which the surety is obligated or the amount of security required to be pledged to the Government in lieu of a corporate or individual surety for the bond.

“Reinsurance” means a transaction which provides that a surety, for a consideration, agrees to indemnify another surety against loss which the latter may sustain under a bond which it has issued.

## **Subpart 28.1—Bonds and Other Financial Protections**

**28.100 Scope of subpart.**

This subpart prescribes requirements and procedures for the use of bonds, alternative payment protections, and all types of bid guarantees.

**28.101 Bid guarantees.****28.101-1 Policy on use.**

(a) A contracting officer shall not require a bid guarantee unless a performance bond or a performance and payment bond is also required (see 28.102 and 28.103). Except as provided in paragraph (c) of this subsection, bid guarantees shall be required whenever a performance bond or a performance and payment bond is required.

(b) All types of bid guarantees are acceptable for supply or service contracts (see annual bid bonds and annual performance bonds coverage in 28.001). Only separate bid guarantees are acceptable in connection with construction contracts. Agencies may specify that only separate bid bonds are acceptable in connection with construction contracts.

(c) The chief of the contracting office may waive the requirement to obtain a bid guarantee when a performance bond or a performance and payment bond is required if it is determined that a bid guarantee is not in the best interest of the Government for a specific acquisition (e.g., overseas construction, emergency acquisitions, sole-source contracts). Class waivers may be authorized by the agency head or designee.

**28.101-2 Solicitation provision or contract clause.**

(a) The contracting officer shall insert a provision or clause substantially the same as the provision at 52.228-1, Bid Guarantee, in solicitations or contracts that require a bid guarantee or similar guarantee. For example, the contracting officer may modify this provision—

- (1) To set a period of time that is other than 10 days for the return of executed bonds;

(2) For use in connection with construction solicitations when the agency has specified that only separate bid bonds are acceptable in accordance with 28.101-1(b);

(3) For use in solicitations for negotiated contracts; or

(4) For use in service contracts containing options for extended performance.

(b) The contracting officer shall determine the amount of the bid guarantee for insertion in the provision at 52.228-1 (see 28.102-2(a)). The amount shall be adequate to protect the Government from loss should the successful bidder fail to execute further contractual documents and bonds as required. The bid guarantee amount shall be at least 20 percent of the bid price but shall not exceed \$3 million. When the penal sum is expressed as a percentage, a maximum dollar limitation may be stated.

### 28.101-3 [Reserved]

#### 28.101-4 Noncompliance with bid guarantee requirements.

(a) In sealed bidding, noncompliance with a solicitation requirement for a bid guarantee requires rejection of the bid, except in the situations described in paragraph (c) of this subsection when the noncompliance shall be waived.

(b) In negotiation, noncompliance with a solicitation requirement for a bid guarantee requires rejection of an initial proposal as unacceptable, if a determination is made to award the contract based on initial proposals without discussion, except in the situations described in paragraph (c) of this subsection when noncompliance shall be waived. (See 15.306(a)(2) for conditions regarding making awards based on initial proposals.) If the conditions for awarding based on initial proposals are not met, deficiencies in bid guarantees submitted by offerors determined to be in the competitive range shall be addressed during discussions and the offeror shall be given an opportunity to correct the deficiency.

(c) Noncompliance with a solicitation requirement for a bid guarantee shall be waived in the following circumstances unless the contracting officer determines in writing that acceptance of the bid would be detrimental to the Government's interest when—

(1) Only one offer is received. In this case, the contracting officer may require the furnishing of the bid guarantee before award;

(2) The amount of the bid guarantee submitted is less than required, but is equal to or greater than the difference between the offer price and the next higher acceptable offer;

(3) The amount of the bid guarantee submitted, although less than that required by the solicitation for the maximum quantity offered, is sufficient for a quantity for which the offeror is otherwise eligible for award. Any award to the offeror shall not exceed the quantity covered by the bid guarantee;

(4) The bid guarantee is received late, and late receipt is waived under 14.304;

(5) A bid guarantee becomes inadequate as a result of the correction of a mistake under 14.407 (but only if the bidder will increase the bid guarantee to the level required for the corrected bid);

(6) A telegraphic offer modification is received without corresponding modification of the bid guarantee, if the modification expressly refers to the previous offer and the offeror corrects any deficiency in bid guarantee;

(7) An otherwise acceptable bid bond was submitted with a signed offer, but the bid bond was not signed by the offeror;

(8) An otherwise acceptable bid bond is erroneously dated or bears no date at all; or

(9) A bid bond does not list the United States as obligee, but correctly identifies the offeror, the solicitation number, and the name and location of the project involved, so long as it is acceptable in all other respects.

### 28.102 Performance and payment bonds and alternative payment protections for construction contracts.

#### 28.102-1 General.

(a) The Miller Act (40 U.S.C. 270a-270f) requires performance and payment bonds for any construction contract exceeding \$100,000, except that this requirement may be waived—

(1) By the contracting officer for as much of the work as is to be performed in a foreign country upon finding that it is impracticable for the contractor to furnish such bond; or

(2) As otherwise authorized by the Miller Act or other law.

(b)(1) Pursuant to Section 4104(b)(2) of the Federal Acquisition Streamlining Act of 1994 (Public Law 103-355), for construction contracts greater than \$25,000, but not greater than \$100,000, the contracting officer shall select two or more of the following payment protections, giving particular consideration to inclusion of an irrevocable letter of credit as one of the selected alternatives:

(i) A payment bond.

(ii) An irrevocable letter of credit (ILC).

(iii) A *tripartite escrow agreement*. The prime contractor establishes an escrow account in a federally insured financial institution and enters into a tripartite escrow agreement with the financial institution, as escrow agent, and all of the suppliers of labor and material. The escrow agreement shall establish the terms of payment under the contract and of resolution of disputes among the parties. The Government makes payments to the contractor's escrow account, and the escrow agent distributes the payments in accordance with the agreement, or triggers the disputes resolution procedures if required.

(iv) *Certificates of deposit.* The contractor deposits certificates of deposit from a federally insured financial institution with the contracting officer, in an acceptable form, executable by the contracting officer.

(v) A deposit of the types of security listed in 28.204-1 and 28.204-2.

(2) The contractor shall submit to the Government one of the payment protections selected by the contracting officer.

(c) The contractor shall furnish all bonds or alternative payment protection, including any necessary reinsurance agreements, before receiving a notice to proceed with the work or being allowed to start work.

### 28.102-2 Amount required.

(a) *Definition.* As used in this subsection—

“Original contract price” means the award price of the contract; or, for requirements contracts, the price payable for the estimated total quantity; or, for indefinite-quantity contracts, the price payable for the specified minimum quantity. Original contract price does not include the price of any options, except those options exercised at the time of contract award.

(b) *Contracts exceeding \$100,000 (Miller Act)*—(1) *Performance bonds.* Unless the contracting officer determines that a lesser amount is adequate for the protection of the Government, the penal amount of performance bonds must equal—

- (i) 100 percent of the original contract price; and
- (ii) If the contract price increases, an additional amount equal to 100 percent of the increase.

(2) *Payment bonds.* (i) Unless the contracting officer makes a written determination supported by specific findings that a payment bond in this amount is impractical, the amount of the payment bond must equal—

- (A) 100 percent of the original contract price; and
- (B) If the contract price increases, an additional amount equal to 100 percent of the increase.

(ii) The amount of the payment bond must be no less than the amount of the performance bond.

(c) *Contracts exceeding \$25,000 but not exceeding \$100,000.* Unless the contracting officer determines that a lesser amount is adequate for the protection of the Government, the penal amount of the payment bond or the amount of alternative payment protection must equal—

- (1) 100 percent of the original contract price; and
- (2) If the contract price increases, an additional amount equal to 100 percent of the increase.

(d) *Securing additional payment protection.* If the contract price increases, the Government must secure any needed additional protection by directing the contractor to—

- (1) Increase the penal sum of the existing bond;

(2) Obtain an additional bond; or

(3) Furnish additional alternative payment protection.

(e) *Reducing amounts.* The contracting officer may reduce the amount of security to support a bond, subject to the conditions of 28.203-5(c) or 28.204(b).

### 28.102-3 Contract clauses.

(a) Insert a clause substantially the same as the clause at 52.228-15, Performance and Payment Bonds—Construction, in solicitations and contracts for construction that contain a requirement for performance and payment bonds if the resultant contract is expected to exceed \$100,000. The contracting officer may revise paragraphs (b)(1) and/or (b)(2) of the clause to establish a lower percentage in accordance with 28.102-2(b). If the provision at 52.228-1 is not included in the solicitation, the contracting officer must set a period of time for return of executed bonds.

(b) Insert the clause at 52.228-13, Alternative Payment Protections, in solicitations and contracts for construction, when the estimated or actual value exceeds \$25,000 but does not exceed \$100,000. Complete the clause by specifying the payment protections selected (see 28.102-1(b)(1)) and the deadline for submission. The contracting officer may revise paragraph (b) of the clause to establish a lower percentage in accordance with 28.102-2(c).

### 28.103 Performance and payment bonds for other than construction contracts.

#### 28.103-1 General.

(a) Generally, agencies shall not require performance and payment bonds for other than construction contracts. However, performance and payment bonds may be used as permitted in 28.103-2 and 28.103-3.

(b) The contractor shall furnish all bonds before receiving a notice to proceed with the work.

(c) No bond shall be required after the contract has been awarded if it was not specifically required in the contract, except as may be determined necessary for a contract modification.

#### 28.103-2 Performance bonds.

(a) Performance bonds may be required for contracts exceeding the simplified acquisition threshold when necessary to protect the Government's interest. The following situations may warrant a performance bond:

(1) Government property or funds are to be provided to the contractor for use in performing the contract or as partial compensation (as in retention of salvaged material).

(2) A contractor sells assets to or merges with another concern, and the Government, after recognizing the latter concern as the successor in interest, desires assurance that it is financially capable.

(3) Substantial progress payments are made before delivery of end items starts.

(4) Contracts are for dismantling, demolition, or removal of improvements.

(b) The Government may require additional performance bond protection when a contract price is increased.

(c) The contracting officer must determine the contractor's responsibility (see Subpart 9.1) even though a bond has been or can be obtained.

### **28.103-3 Payment bonds.**

(a) A payment bond is required only when a performance bond is required, and if the use of payment bond is in the Government's interest.

(b) When a contract price is increased, the Government may require additional bond protection in an amount adequate to protect suppliers of labor and material.

### **28.103-4 Contract clause.**

The contracting officer shall insert a clause substantially the same as the clause at 52.228-16, Performance and Payment Bonds—Other than Construction, in solicitations and contracts that contain a requirement for both payment and performance bonds. The contracting officer shall determine the amount of each bond for insertion in the clause. The amount shall be adequate to protect the interest of the Government. The contracting officer shall also set a period of time (normally 10 days) for return of executed bonds. Alternate I shall be used when only performance bonds are required.

### **28.104 Annual performance bonds.**

(a) Annual performance bonds only apply to nonconstruction contracts. They shall provide a gross penal sum applicable to the total amount of all covered contracts.

(b) When the penal sums obligated by contracts are approximately equal to or exceed the penal sum of the annual performance bond, an additional bond will be required to cover additional contracts.

### **28.105 Other types of bonds.**

The head of the contracting activity may approve using other types of bonds in connection with acquiring particular supplies or services. These types include advance payment bonds and patent infringement bonds.

### **28.105-1 Advance payment bonds.**

Advance payment bonds may be required only when the contract contains an advance payment provision and a performance bond is not furnished. The contracting officer shall determine the amount of the advance payment bond necessary to protect the Government.

### **28.105-2 Patent infringement bonds.**

(a) Contracts providing for patent indemnity may require these bonds only if—

(1) A performance bond is not furnished; and

(2) The financial responsibility of the contractor is unknown or doubtful.

(b) The contracting officer shall determine the penal sum.

### **28.106 Administration.**

#### **28.106-1 Bonds and bond-related forms.**

The following Standard Forms (SF's) and Optional Forms (OF's) shown in 53.301 and 53.302, shall be used, except in foreign countries, when a bid bond, performance or payment bond, or an individual surety is required. The bond forms shall be used as indicated in the instruction portion of each form:

(a) SF 24, Bid Bond (see 28.101).

(b) SF 25, Performance Bond (see 28.102-1 and 28.106-3(b)).

(c) SF 25-A, Payment Bond (see 28.102-1 and 28.106-3(b)).

(d) SF 25-B, Continuation Sheet (for SF's 24, 25, and 25-A).

(e) SF 28, Affidavit of Individual Surety (see 28.203).

(f) SF 34, Annual Bid Bond (see 28.001).

(g) SF 35, Annual Performance Bond (see 28.104).

(h) SF 273, Reinsurance Agreement for a Miller Act Performance Bond (see 28.202(a)(4)).

(i) SF 274, Reinsurance Agreement for a Miller Act Payment Bond (see 28.202(a)(4)).

(j) SF 275, Reinsurance Agreement in Favor of the United States (see 28.202(a)(4)).

(k) SF 1414, Consent of Surety (see 28.106-5).

(l) SF 1415, Consent of Surety and Increase of Penalty (see 28.106-3).

(m) SF 1416, Payment Bond for Other Than Construction Contracts (see 28.103-3 and 28.106-3(b)).

(n) SF 1418, Performance Bond for Other Than Construction Contracts (see 28.103-2 and 28.106-3(b)).

(o) OF 90, Release of Lien on Real Property (see 28.203-5).

(p) OF 91, Release of Personal Property from Escrow (see 28.203-5).

#### **28.106-2 Substitution of surety bonds.**

(a) A new surety bond covering all or part of the obligations on a bond previously approved may be substituted for the original bond if approved by the head of the contracting activity, or as otherwise specified in agency regulation.

(b) When a new surety bond is approved, the contracting officer shall notify the principal and surety of the original bond of the effective date of the new bond.

**28.106-3 Additional bond and security.**

(a) When additional bond coverage is required and is secured in whole or in part by the original surety or sureties, agencies shall use Standard Form 1415, Consent of Surety and Increase of Penalty. Standard Form 1415 is authorized for local reproduction, and a copy of the form is furnished for this purpose in Part 53 of the looseleaf edition of the FAR.

(b) When additional bond coverage is required and is secured in whole or in part by a new surety or by one of the alternatives described in 28.204 in lieu of corporate or individual surety, agencies shall use Standard Form 25, Performance Bond; Standard Form 1418, Performance Bond for Other Than Construction Contracts; Standard Form 25-A, Payment Bond; or Standard Form 1416, Payment Bond for Other Than Construction Contracts.

**28.106-4 Contract clause.**

(a) The contracting officer shall insert the clause at 52.228-2, Additional Bond Security, in solicitations and contracts when bonds are required.

(b) In accordance with Section 806(a)(3) of Pub. L. 102-190, as amended by Sections 2091 and 8105 of Pub. L. 103-355, the contracting officer shall insert the clause at 52.228-12, Prospective Subcontractor Requests for Bonds, in solicitations and contracts with respect to which a payment bond will be furnished pursuant to the Miller Act (see 28.102-1), except for contracts for the acquisition of commercial items as defined in Subpart 2.1.

**28.106-5 Consent of surety.**

(a) When any contract is modified, the contracting officer shall obtain the consent of surety if—

(1) An additional bond is obtained from other than the original surety;

(2) No additional bond is required and—

(i) The modification is for new work beyond the scope of the original contract; or

(ii) The modification does not change the contract scope but changes the contract price (upward or downward) by more than 25 percent or \$50,000; or

(3) Consent of surety is required for a novation agreement (see Subpart 42.12).

(b) When a contract for which performance or payment is secured by any of the types of security listed in 28.204 is modified as described in paragraph (a) of this subsection, no consent of surety is required.

(c) Agencies shall use Standard Form 1414, Consent of Surety, for all types of contracts.

**28.106-6 Furnishing information.**

(a) The surety on the bond, upon its written request, may be furnished information on the progress of the work, pay-

ments, and the estimated percentage of completion, concerning the contract for which the bond was furnished.

(b) When a payment bond has been provided, the contracting officer shall, upon request, furnish the name and address of the surety or sureties to any subcontractor or supplier who has furnished or been requested to furnish labor or material for the contract. In addition, general information concerning the work progress, payments, and the estimated percentage of completion may be furnished to persons who have provided labor or materials and have not been paid.

(c) When a payment bond has been provided for a contract, the head of the agency or designee shall furnish a certified copy of the bond and the contract for which it was given to any person who makes a request therefor and who furnishes an affidavit that the requestor has supplied labor or materials for such work and payment therefor has not been made or that the requestor is being sued on such bond. The person who makes the request shall be required to pay such costs of preparation as determined by the head of the agency or designee to be reasonable and appropriate (see 40 U.S.C. 270(c)).

(d) Section 806(a)(2) of Pub. L. 102-190, as amended by Sections 2091 and 8105 of Pub. L. 103-355, requires that the Federal Government provide information to subcontractors on payment bonds under contracts for other than commercial items as defined in Subpart 2.1. Upon the written or oral request of a subcontractor/supplier, or prospective subcontractor/supplier, under a contract with respect to which a payment bond has been furnished pursuant to the Miller Act, the contracting officer shall promptly provide to the requester, either orally or in writing, as appropriate, any of the following:

(1) Name and address of the surety or sureties on the payment bond.

(2) Penal amount of the payment bond.

(3) Copy of the payment bond. The contracting officer may impose reasonable fees to cover the cost of copying and providing a copy of the payment bond.

**28.106-7 Withholding contract payments.**

(a) During contract performance, agencies shall not withhold payments due contractors or assignees because subcontractors or suppliers have not been paid.

(b) If, after completion of the contract work, the Government receives written notice from the surety regarding the contractor's failure to meet its obligation to its subcontractors or suppliers, the contracting officer shall withhold final payment. However, the surety must agree to hold the Government harmless from any liability resulting from withholding the final payment. The contracting officer will authorize final payment upon agreement between the contractor and surety or upon a judicial determination of the rights of the parties.

(c) For any withholding incident to the labor standards provisions of the contract, see Part 22.

**28.106-8 Payment to subcontractors or suppliers.**

The contracting officer will only authorize payment to subcontractors or suppliers from an ILC (or any other cash equivalent security) upon a judicial determination of the

rights of the parties, a signed notarized statement by the contractor that the payment is due and owed, or a signed agreement between the parties as to amount due and owed.

## Subpart 28.2—Sureties and Other Security for Bonds

### 28.200 Scope of subpart.

This subpart prescribes procedures for the use of sureties and other security to protect the Government from financial losses.

### 28.201 Requirements for security.

(a) Agencies shall obtain adequate security for bonds (including coinsurance and reinsurance agreements) required or used with a contract for supplies or services (including construction). Acceptable forms of security include—

(1) Corporate or individual sureties; or

(2) Any of the types of security authorized in lieu of sureties by 28.204.

(b) Solicitations shall not preclude offerors from using the types of surety or other security permitted by this subpart, unless prohibited by law or regulation.

### 28.202 Acceptability of corporate sureties.

(a)(1) Corporate sureties offered for bonds furnished with contracts performed in the United States, its possessions, or Puerto Rico must appear on the list contained in the Department of Treasury Circular 570, “Companies Holding Certificates of Authority as Acceptable Sureties on Federal Bonds and Acceptable Reinsuring Companies.”

(2) The penal amount of the bond should not exceed the surety’s underwriting limit stated in the Department of the Treasury circular. If the penal amount exceeds the underwriting limit, the bond will be acceptable only if—

(i) The amount which exceeds the specified limit is coinsured or reinsured; and

(ii) The amount of coinsurance or reinsurance does not exceed the underwriting limit of each coinsurer or reinsurer.

(3) Coinsurance or reinsurance agreements shall conform to the Department of the Treasury regulations in 31 CFR 223.10 and 223.11. When reinsurance is contemplated, the contracting office generally shall require reinsurance agreements to be executed and submitted with the bonds before making a final determination on the bonds.

(4) When specified in the solicitation, the contracting officer may accept a bond from the direct writing company in satisfaction of the total bond requirement of the contract. This is permissible until necessary reinsurance agreements are executed, even though the total bond requirement may exceed the insurer’s underwriting limitation. The contractor shall execute and submit necessary reinsurance agreements to the contracting officer within the time specified on the bid form, which may not exceed 45 calendar days after the execution of the bond. The contractor shall use Standard Form 273, Reinsurance Agreement for a Miller Act Performance

Bond, and Standard Form 274, Reinsurance Agreement for a Miller Act Payment Bond, when reinsurance is furnished with Miller Act bonds. Standard Form 275, Reinsurance Agreement in Favor of the United States, is used when reinsurance is furnished with bonds for other purposes.

(b) For contracts performed in a foreign country, sureties not appearing on Treasury Department Circular 570 are acceptable if the contracting officer determines that it is impracticable for the contractor to use Treasury listed sureties.

(c) The Department of the Treasury issues supplements to Circular 570, notifying all Federal agencies of (1) new approved corporate surety companies and (2) the termination of the authority of any specific corporate surety to qualify as a surety on Federal bonds. Upon receipt of notification of termination of a company’s authority to qualify as a surety on Federal bonds, the contracting officer shall review the outstanding contracts and take action necessary to protect the Government, including, where appropriate, securing new bonds with acceptable sureties in lieu of outstanding bonds with the named company.

(d) The Department of the Treasury Circular 570 may be obtained from the—

U.S. Department of the Treasury  
Financial Management Service  
Surety Bond Branch  
401 14th St., SW, 2nd Floor—West Wing  
Washington, DC 20227.

### 28.203 Acceptability of individual sureties.

(a) An individual surety is acceptable for all types of bonds except position schedule bonds. The contracting officer shall determine the acceptability of individuals proposed as sureties, and shall ensure that the surety’s pledged assets are sufficient to cover the bond obligation. (See 28.203-7 for information on excluded individual sureties.)

(b) An individual surety must execute the bond, and the unencumbered value of the assets (exclusive of all outstanding pledges for other bond obligations) pledged by the individual surety, must equal or exceed the penal amount of each bond. The individual surety shall execute the Standard Form 28 and provide a security interest in accordance with 28.203-1. One individual surety is adequate support for a bond, provided the unencumbered value of the assets pledged by that individual surety equal or exceed the amount of the bond. An offeror may submit up to three individual sureties for each bond, in which case the pledged assets, when combined, must equal or exceed the penal amount of the bond. Each individual surety must accept both joint and several liability to the extent of the penal amount of the bond.

(c) If the contracting officer determines that no individual surety in support of a bid guarantee is acceptable, the offeror utilizing the individual surety shall be rejected as nonrespon-

sible, except as provided in 28.101-4. A finding of nonresponsibility based on unacceptability of an individual surety, need not be referred to the Small Business Administration for a competency review. (See 19.602-1(a)(2)(i) and 61 Comp. Gen. 456 (1982).)

(d) A contractor submitting an unacceptable individual surety in satisfaction of a performance or payment bond requirement may be permitted a reasonable time, as determined by the contracting officer, to substitute an acceptable surety for a surety previously determined to be unacceptable.

(e) When evaluating individual sureties, contracting officers may obtain assistance from the office identified in 28.202(d).

(f) Contracting officers shall obtain the opinion of legal counsel as to the adequacy of the documents pledging the assets prior to accepting the bid guarantee and payment and performance bonds.

(g) Evidence of possible criminal or fraudulent activities by an individual surety shall be referred to the appropriate agency official in accordance with agency procedures.

#### **28.203-1 Security interests by an individual surety.**

(a) An individual surety may be accepted only if a security interest in assets acceptable under 28.203-2 is provided to the Government by the individual surety. The security interest shall be furnished with the bond.

(b) The value at which the contracting officer accepts the assets pledged must be equal to or greater than the aggregate penal amounts of the bonds required by the solicitation and may be provided by one or a combination of the following methods:

(1) An escrow account with a federally insured financial institution in the name of the contracting agency. (See 28.203-2(b)(2) with respect to Government securities in book entry form.) Acceptable securities for deposit in escrow are discussed in 28.203-2. While the offeror is responsible for establishing the escrow account, the terms and conditions must be acceptable to the contracting officer. At a minimum, the escrow account shall provide for the following:

(i) The account must provide the contracting officer the sole and unrestricted right to draw upon all or any part of the funds deposited in the account. A written demand for withdrawal shall be sent to the financial institution, after obtaining the concurrence of legal counsel, by the contracting officer with a copy to the offeror/contractor and to the surety. Within the time period specified in the demand, the financial institution would pay the Government the amount demanded up to the amount on deposit. If any dispute should arise between the Government and the offeror/contractor, the surety, or the subcontractors or suppliers with respect to the offer or contract, the financial institution would be required,

unless precluded by order of a court of competent jurisdiction, to disburse monies to the Government as directed by the contracting officer.

(ii) The financial institution would be authorized to release to the individual surety all or part of the balance of the escrow account, including any accrued interest, upon receipt of written authorization from the contracting officer.

(iii) The Government would not be responsible for any costs attributable to the establishment, maintenance, administration, or any other aspect of the account.

(iv) The financial institution would not be liable or responsible for the interpretation of any provisions or terms and conditions of the solicitation or contract.

(v) The financial institution would provide periodic account statements to the contracting officer.

(vi) The terms of the escrow account could not be amended without the consent of the contracting officer.

(2) A lien on real property, subject to the restrictions in 28.203-2 and 28.203-3.

#### **28.203-2 Acceptability of assets.**

(a) The Government will accept only cash, readily marketable assets, or irrevocable letters of credit from a federally insured financial institution from individual sureties to satisfy the underlying bond obligations.

(b) Acceptable assets include—

(1) Cash, or certificates of deposit, or other cash equivalents with a federally insured financial institution;

(2) United States Government securities at market value. (An escrow account is not required if an individual surety offers Government securities held in book entry form at a depository institution. In lieu thereof, the individual shall provide evidence that the depository institution has—

(i) Placed a notation against the individual's book entry account indicating that the security has been pledged in favor of the respective agency;

(ii) Agreed to notify the agency prior to maturity of the security; and

(iii) Agreed to hold the proceeds of the security subject to the pledge in favor of the agency until a substitution of securities is made or the security interest is formally released by the agency.);

(3) Stocks and bonds actively traded on a national U.S. security exchange with certificates issued in the name of the individual surety. National security exchanges are—(i) the New York Stock Exchange; (ii) the American Stock Exchange; (iii) the Boston Stock Exchange; (iv) the Cincinnati Stock Exchange; (v) the Midwest Stock Exchange; (vi) the Philadelphia Stock Exchange; (vii) the Pacific Stock Exchange; and (viii) the Spokane Stock Exchange. These assets will be accepted at 90 percent of their 52-week low, as reflected at the time of submission of the bond. Stock

options and stocks on the over-the-counter (OTC) market or NASDQ Exchanges will not be accepted. Assistance in evaluating the acceptability of securities may be obtained from the—

Securities and Exchange Commission  
Division of Enforcement  
450 Fifth Street NW  
Washington, DC 20549.

(4) Real property owned in fee simple by the surety without any form of concurrent ownership, except as provided in subdivision (c)(3)(iii) of this subsection, and located within the 50 United States, its territories, or possessions. These assets will be accepted at 100 percent of the most current tax assessment value (exclusive of encumbrances) or 75 percent of the properties' unencumbered market value provided a current appraisal is furnished (see 28.203-3).

(5) Irrevocable letters of credit (ILC) issued by a federally insured financial institution in the name of the contracting agency and which identify the agency and solicitation or contract number for which the ILC is provided.

(c) Unacceptable assets include but are not limited to—

- (1) Notes or accounts receivable;
- (2) Foreign securities;
- (3) Real property as follows:

(i) Real property located outside the United States, its territories, or possessions.

(ii) Real property which is a principal residence of the surety.

(iii) Real property owned concurrently regardless of the form of co-tenancy (including joint tenancy, tenancy by the entirety, and tenancy in common) except where all co-tenants agree to act jointly.

(iv) Life estates, leasehold estates, or future interests in real property.

(4) Personal property other than that listed in paragraph (b) of this subsection (*e.g.*, jewelry, furs, antiques);

(5) Stocks and bonds of the individual surety in a controlled, affiliated, or closely held concern of the offeror/contractor;

(6) Corporate assets (*e.g.*, plant and equipment);

(7) Speculative assets (*e.g.*, mineral rights);

(8) Letters of credit, except as provided in 28.203-2(b)(5).

### 28.203-3 Acceptance of real property.

(a) Whenever a bond with a security interest in real property is submitted, the individual surety shall provide—

(1) Evidence of title in the form of a certificate of title prepared by a title insurance company approved by the United States Department of Justice. This list entitled List of Approved Attorneys, Abstracters, and Title Companies is available from the—

Title Unit, Land Acquisition Section  
Land and Natural Resource Division  
Department of Justice  
Washington, DC 20530.

This title evidence must show fee simple title vested in the surety along with any concurrent owners; whether any real estate taxes are due and payable; and any recorded encumbrances against the property, including the lien filed in favor of the Government under paragraph (d) of this subsection;

(2) Evidence of the amount due under any encumbrance shown in the evidence of title;

(3) A copy of the current real estate tax assessment of the property or a current appraisal dated no earlier than 6 months prior to the date of the bond, prepared by a professional appraiser who certifies that the appraisal has been conducted in accordance with the generally accepted appraisal standards as reflected in the Uniform Standards of Professional Appraisal Practice as promulgated by the—

Appraisal Foundation  
1029 Vermont Avenue, NW  
Washington, DC 20005.

(b) Failure to provide evidence that the lien has been properly recorded will render the offeror nonresponsible.

(c) The individual surety is liable for the payment of all administrative costs of the Government, including legal fees, associated with the liquidation of pledged real estate.

(d) The following format, or any document substantially the same, shall be used by the surety and recorded in the local recorder's office when a surety pledges real estate on Standard Form 28, Affidavit of Individual Surety.

#### LIEN ON REAL ESTATE

I/we agree that this instrument constitutes a lien in the amount of \$\_\_\_\_\_ on the property described in this lien. The rights of the United States Government shall take precedence over any subsequent lien or encumbrance until the lien is formally released by a duly authorized representative of the United States. I/we hereby grant the United States the power of sale of subject property, including the right to satisfy its reasonable administrative costs, including legal fees associated with any sale of subject property, in the event of contractor default if I/we otherwise fail to satisfy the underlying ( ) bid guarantee, ( ) performance bond, ( ) or payment bond obligations as an individual surety on solicitation/contract number \_\_\_\_\_. The lien is upon the real estate now owned by me/us described as follows:

(legal description, street address and other identifying description)

IN WITNESS WHEREOF, I/we have hereunto affixed my/our hand(s) and seal(s) this \_\_\_ Day of \_\_\_\_\_ 19 \_\_\_.

WITNESS:

\_\_\_\_\_ (Seal)

\_\_\_\_\_ (Seal)

I, \_\_\_\_\_, a Notary Public in and for the (City) \_\_\_\_\_, (State) \_\_\_\_\_, do hereby certify that \_\_\_\_\_, a party or parties to a certain Agreement bearing the date \_\_\_\_ day of \_\_\_\_\_ 19 \_\_, and hereunto annexed, personally appeared before me, the said \_\_\_\_\_ being personally well known to me as the person(s) who executed said lien, and acknowledged the same to be his/her heir act and deed.

GIVEN under my hand and seal this \_\_\_\_ day of \_\_\_\_ 19 \_\_.

\_\_\_\_\_  
Notary Public, State

MY COMMISSION EXPIRES:

### 28.203-4 Substitution of assets.

An individual surety may request the Government to accept a substitute asset for that currently pledged by submitting a written request to the responsible contracting officer. The contracting officer may agree to the substitution of assets upon determining, after consultation with legal counsel, that the substitute assets to be pledged are adequate to protect the outstanding bond or guarantee obligations. If acceptable, the substitute assets shall be pledged as provided for in Subpart 28.2.

### 28.203-5 Release of lien.

(a) After consultation with legal counsel, the contracting officer shall release the security interest on the individual surety's assets using the Optional Form 90, Release of Lien on Real Property, or Optional Form 91, Release of Personal Property from Escrow, or a similar release as soon as possible consistent with the conditions in paragraphs (a)(1) and (2) of this subsection. A surety's assets pledged in support of a payment bond may be released to a subcontractor or supplier upon Government receipt of a Federal district court judgment, or a sworn statement by the subcontractor or supplier that the claim is correct along with a notarized authorization of the release by the surety stating that it approves of such release.

(1) *Contracts subject to the Miller Act.* The security interest shall be maintained for the later of—

- (i) 1 year following final payment;
- (ii) Until completion of any warranty period (applicable only to performance bonds); or
- (iii) Pending resolution of all claims filed against the payment bond during the 1-year period following final payment.

(2) *Contracts subject to alternative payment protection (28.102-1(b)(1)).* The security interest shall be maintained for the full contract performance period plus one year.

(3) *Other contracts not subject to the Miller Act.* The security interest shall be maintained for 90 days following final payment or until completion of any warranty period (applicable only to performance bonds), whichever is later.

(b) Upon written request, the contracting officer may release the security interest on the individual surety's assets in support of a bid guarantee based upon evidence that the offer supported by the individual surety will not result in contract award.

(c) Upon written request by the individual surety, the contracting officer may release a portion of the security interest on the individual surety's assets based upon substantial performance of the contractor's obligations under its performance bond. Release of the security interest in support of a payment bond must comply with the paragraphs (a)(1) through (3) of this subsection. In making this determination, the contracting officer will give consideration as to whether the unreleased portion of the lien is sufficient to cover the remaining contract obligations, including payments to subcontractors and other potential liabilities. The individual surety shall, as a condition of the partial release, furnish an affidavit agreeing that the release of such assets does not relieve the individual surety of its obligations under the bond(s).

### 28.203-6 Contract clause.

Insert the clause at 52.228-11 in solicitations and contracts which require the submission of bid guarantees, performance, or payment bonds.

### 28.203-7 Exclusion of individual sureties.

(a) An individual may be excluded from acting as a surety on bonds submitted by offerors on procurement by the executive branch of the Federal Government, by the acquiring agency's head or designee utilizing the procedures in Subpart 9.4. The exclusion shall be for the purpose of protecting the Government.

(b) An individual may be excluded for any of the following causes:

- (1) Failure to fulfill the obligations under any bond.
- (2) Failure to disclose all bond obligations.
- (3) Misrepresentation of the value of available assets or outstanding liabilities.
- (4) Any false or misleading statement, signature or representation on a bond or affidavit of individual suretyship.
- (5) Any other cause affecting responsibility as a surety of such serious and compelling nature as may be determined to warrant exclusion.

(c) An individual surety excluded pursuant to this subsection shall be included on the List of Parties Excluded from Federal Procurement and Nonprocurement Programs. (See 9.404.)

(d) Contracting officers shall not accept the bonds of individual sureties whose names appear on the List of Parties Excluded from Federal Procurement and Nonprocurement Programs (see 9.404) unless the acquiring agency's head or a designee states in writing the compelling reasons justifying acceptance.

(e) An exclusion of an individual surety under this subsection will also preclude such party from acting as a contractor in accordance with Subpart 9.4.

#### **28.204 Alternatives in lieu of corporate or individual sureties.**

(a) Any person required to furnish a bond to the Government may furnish any of the types of security listed in 28.204-1 through 28.204-3 instead of a corporate or individual surety for the bond. When any of those types of security are deposited, a statement shall be incorporated in the bond form pledging the security in lieu of execution of the bond form by corporate or individual sureties. The contractor shall execute the bond forms as the principal. Agencies shall establish safeguards to protect against loss of the security and shall return the security or its equivalent to the contractor when the bond obligation has ceased.

(b) Upon written request by any contractor securing a performance or payment bond by any of the types of security listed in 28.204-1 through 28.204-3, the contracting officer may release a portion of the security only when the conditions allowing the partial release of lien in 28.203-5(c) are met. The contractor shall, as a condition of the partial release, furnish an affidavit agreeing that the release of such security does not relieve the contractor of its obligations under the bond(s).

(c) The contractor may satisfy a requirement for bond security by furnishing a combination of the types of security listed in 28.204-1 through 28.204-3 or a combination of bonds supported by these types of security and additional surety bonds under 28.202 or 28.203. During the period for which a bond supported by security is required, the contractor may substitute one type of security listed in 28.204-1 through 28.204-3 for another, or may substitute, in whole or combination, additional surety bonds under 28.202 or 28.203.

#### **28.204-1 United States bonds or notes.**

Any person required to furnish a bond to the Government has the option, instead of furnishing a surety or sureties on the bond, of depositing certain United States bonds or notes in an amount equal at their par value to the penal sum of the bond (the Act of February 24, 1919 (31 U.S.C. 9303) and Treasury Department Circular No. 154 dated July 1, 1978 (31 CFR part 225)). In addition, a duly executed power of attorney and agreement authorizing the collection or sale of such United States bonds or notes in the event of default of

the principal on the bond shall accompany the deposited bonds or notes. The contracting officer may—

(a) Turn securities over to the finance or other authorized agency official; or

(b) Deposit them with the Treasurer of the United States, a Federal Reserve Bank (or branch with requisite facilities), or other depository designated for that purpose by the Secretary of the Treasury, under procedures prescribed by the agency concerned and Treasury Department Circular No. 154 (exception: The contracting officer shall deposit all bonds and notes received in the District of Columbia with the Treasurer of the United States).

#### **28.204-2 Certified or cashier's checks, bank drafts, money orders, or currency.**

Any person required to furnish a bond has an option to furnish a certified or cashier's check, bank draft, Post Office money order, or currency, in an amount equal to the penal sum of the bond, instead of furnishing surety or sureties on the bonds. Those furnishing checks, drafts, or money orders shall draw them to the order of the appropriate Federal agency.

#### **28.204-3 Irrevocable letter of credit (ILC).**

(a) Any person required to furnish a bond has the option to furnish a bond secured by an ILC in an amount equal to the penal sum required to be secured (see 28.204). A separate ILC is required for each bond.

(b) The ILC shall be irrevocable, require presentation of no document other than a written demand and the ILC (and letter of confirmation, if any), expire only as provided in paragraph (f) of this subsection, and be issued/confirmed by an acceptable federally insured financial institution as provided in paragraph (g) of this subsection.

(c) To draw on the ILC, the contracting officer shall use the sight draft set forth in the clause at 52.228-14, and present it with the ILC (including letter of confirmation, if any) to the issuing financial institution or the confirming financial institution (if any).

(d) If the contractor does not furnish an acceptable replacement ILC, or other acceptable substitute, at least 30 days before an ILC's scheduled expiration, the contracting officer shall immediately draw on the ILC.

(e) If, after the period of performance of a contract where ILCs are used to support payment bonds, there are outstanding claims against the payment bond, the contracting officer shall draw on the ILC prior to the expiration date of the ILC to cover these claims.

(f) The period for which financial security is required shall be as follows:

(1) If used as a bid guarantee, the ILC should expire no earlier than 60 days after the close of the bid acceptance period.

(2) If used as an alternative to corporate or individual sureties as security for a performance or payment bond, the offeror/contractor may submit an ILC with an initial expiration date estimated to cover the entire period for which financial security is required or an ILC with an initial expiration date that is a minimum period of one year from the date of issuance. The ILC shall provide that, unless the issuer provides the beneficiary written notice of non-renewal at least 60 days in advance of the current expiration date, the ILC is automatically extended without amendment for one year from the expiration date, or any future expiration date, until the period of required coverage is completed and the contracting officer provides the financial institution with a written statement waiving the right to payment. The period of required coverage shall be:

(i) For contracts subject to the Miller Act, the later of—

(A) One year following the expected date of final payment;

(B) For performance bonds only, until completion of any warranty period; or

(C) For payment bonds only, until resolution of all claims filed against the payment bond during the one-year period following final payment.

(ii) For contracts not subject to the Miller Act, the later of—

(A) 90 days following final payment; or

(B) For performance bonds only, until completion of any warranty period.

(g) Only federally insured financial institutions rated investment grade or higher shall issue or confirm the ILC. Unless the financial institution issuing the ILC had letter of credit business of at least \$25 million in the past year, ILCs over \$5 million must be confirmed by another acceptable financial institution that had letter of credit business of at least \$25 million in the past year.

(1) The offeror/contractor shall provide the contracting officer a credit rating from a recognized commercial rating service as specified in Office of Federal Procurement Policy Pamphlet No. 7 (see 28.204-3(h)) that indicates the financial institution has the required rating(s) as of the date of issuance of the ILC.

(2) If the contracting officer learns that a financial institution's rating has dropped below the required level, the contracting officer shall give the contractor 30 days to substitute an acceptable ILC or shall draw on the ILC using the sight draft in paragraph (g) of the clause at 52.228-14.

(h)(1) Additional information on credit rating services and investment grade ratings is contained within Office of Federal Procurement Policy Pamphlet No. 7, Use of Irrevocable Letters of Credit. This pamphlet may be obtained by calling the Office of Management and Budget's publications office at (202) 395-7332.

(2) A copy of the Uniform Customs and Practice (UCP) for Documentary Credits, 1993 Revision, International Chamber of Commerce Publication No. 500, is available from:

ICC Publishing, Inc.  
156 Fifth Avenue  
New York NY 10010

Telephone: (212) 206-1150  
Telefax: (212) 633-6025  
E-mail: iccpub@interport.net.

#### **28.204-4 Contract clause.**

Insert the clause at 52.228-14, Irrevocable Letter of Credit, in solicitations and contracts for services, supplies, or construction, when a bid guarantee, or performance bonds, or performance and payment bonds are required.

## Subpart 28.3—Insurance

### 28.301 Policy.

Contractors shall be required to carry insurance under the following circumstances:

(a)(1) The Government requires any contractor subject to Cost Accounting Standard (CAS) 416 (48 CFR 9004.416 (Appendix, FAR looseleaf edition)) to obtain insurance, by purchase or self-coverage, for the perils to which the contractor is exposed, except when—

(i) The Government, by providing in the contract in accordance with law, agrees to indemnify the contractor under specified circumstances; or

(ii) The contract specifically relieves the contractor of liability for loss of or damage to Government property.

(2) The Government reserves the right to disapprove the purchase of any insurance coverage not in the Government's interest.

(3) Allowability of the insurance program's cost shall be determined in accordance with the criteria in 31.205-19.

(b) Contractors, whether or not their contracts are subject to CAS 416, are required by law and this regulation to provide insurance for certain types of perils (*e.g.*, workers' compensation). Insurance is mandatory also when commingling of property, type of operation, circumstances of ownership, or condition of the contract make it necessary for the protection of the Government. The minimum amounts of insurance required by this regulation (see 28.307-2) may be reduced when a contract is to be performed outside the United States, its possessions, and Puerto Rico. When more than one agency is involved, the agency responsible for review and approval of a contractor's insurance program shall coordinate with other interested agencies before acting on significant insurance matters.

(c) Contractors awarded nonpersonal services contracts for health care services are required to maintain medical liability insurance and indemnify the Government for liability producing acts or omissions by the contractor, its employees and agents (see 37.400).

### 28.302 Notice of cancellation or change.

When the Government requires the contractor to provide insurance coverage, the policies shall contain an endorsement that any cancellation or material change in the coverage adversely affecting the Government's interest shall not be effective unless the insurer or the contractor gives written notice of cancellation or change as required by the contracting officer. When the coverage is provided by self-insurance, the contractor shall not change or decrease the coverage without the administrative contracting officer's prior approval (see 28.308(c)).

### 28.303 Insurance against loss of or damage to Government property.

When the Government requires or approves insurance to cover loss of or damage to Government property (see 45.103, Responsibility and liability for Government property), it may be provided by specific insurance policies or by inclusion of the risks in the contractor's existing policies. The policies shall disclose the Government's interest in the property.

### 28.304 Risk-pooling arrangements.

Agencies may establish risk-pooling arrangements. These arrangements are designed to use the services of the insurance industry for safety engineering and the handling of claims at minimum cost to the Government. The agency responsible shall appoint a single manager or point of contact for each arrangement.

### 28.305 Overseas workers' compensation and war-hazard insurance.

(a) "Public-work contract," as used in this subpart, means any contract for a fixed improvement or for any other project, fixed or not, for the public use of the United States or its allies, involving construction, alteration, removal, or repair, including projects or operations under service contracts and projects in connection with the national defense or with war activities, dredging, harbor improvements, dams, roadways, and housing, as well as preparatory and ancillary work in connection therewith at the site or on the project.

(b) The Defense Base Act (42 U.S.C. 1651, *et seq.*) extends the Longshoremen's and Harbor Workers' Compensation Act (33 U.S.C. 901) to various classes of employees working outside the United States, including those engaged in performing—

(1) Public-work contracts; or

(2) Contracts approved or financed under the Foreign Assistance Act of 1961 (Pub. L. 87-195) other than—

(i) Contracts approved or financed by the Development Loan Fund (unless the Secretary of Labor, acting upon the recommendation of a department or agency, determines that such contracts should be covered); or

(ii) Contracts exclusively for materials or supplies.

(c) When the Defense Base Act applies (see 42 U.S.C. 1651, *et seq.*) to these employees, the benefits of the Longshoremen's and Harbor Workers' Compensation Act are extended through operation of the War Hazards Compensation Act (42 U.S.C. 1701, *et seq.*) to protect the employees against the risk of war hazards (injury, death, capture, or detention). When, by means of an insurance policy or a self-insurance program, the contractor provides the workers' compensation coverage required by the Defense Base Act, the contractor's employees automatically receive war-hazard risk protection.

(d) When the agency head recommends a waiver to the Secretary of Labor, the Secretary may waive the applicability of the Defense Base Act to any contract, subcontract, work location, or classification of employees.

(e) If the Defense Base Act is waived for some or all of the contractor's employees, the benefits of the War Hazards Compensation Act are automatically waived with respect to those employees for whom the Defense Base Act is waived. For those employees, the contractor shall provide workers' compensation coverage against the risk of work injury or death and assume liability toward the employees and their beneficiaries for war-hazard injury, death, capture, or detention. The contract shall provide either that the costs of this liability or the reasonable costs of insurance against this liability shall be allowed as a cost under the contract.

### 28.306 Insurance under fixed-price contracts.

(a) *General.* Although the Government is not ordinarily concerned with the contractor's insurance coverage if the contract is a fixed-price contract, in special circumstances agencies may specify insurance requirements under fixed-price contracts. Examples of such circumstances include the following:

- (1) The contractor is, or has a separate operation, engaged principally in Government work.
- (2) Government property is involved.
- (3) The work is to be performed on a Government installation.
- (4) The Government elects to assume risks for which the contractor ordinarily obtains commercial insurance.

(b) *Work on a Government installation.* (1) When the clause at 52.228-5, Insurance—Work on a Government Installation, is required to be included in a fixed-price contract by 28.310, the coverage specified in 28.307 is the minimum insurance required and shall be included in the contract Schedule or elsewhere in the contract. The contracting officer may require additional coverage and higher limits.

(2) When the clause at 52.228-5, Insurance—Work on a Government Installation, is not required by 28.310 but is included because the contracting officer considers it to be in the Government's interest to do so, any of the types of insurance specified in 28.307 may be omitted or the limits may be lowered, if appropriate.

### 28.307 Insurance under cost-reimbursement contracts.

Cost-reimbursement contracts (and subcontracts, if the terms of the prime contract are extended to the subcontract) ordinarily require the types of insurance listed in 28.307-2, with the minimum amounts of liability indicated. (See 28.308 for self-insurance.)

#### 28.307-1 Group insurance plans.

(a) *Prior approval requirement.* Under cost-reimbursement contracts, before buying insurance under a group insurance plan, the contractor must submit the plan for approval, in accordance with agency regulations. Any change in benefits provided under an approved plan that can reasonably be expected to increase significantly the cost to the Government requires similar approval.

(b) *Premium refunds or credits.* The plan shall provide for the Government to share in any premium refunds or credits paid or otherwise allowed to the contractor. In determining the extent of the Government's share in any premium refunds or credits, any special reserves and other refunds to which the contractor may be entitled in the future shall be taken into account.

#### 28.307-2 Liability.

(a) *Workers' compensation and employer's liability.* Contractors are required to comply with applicable Federal and State workers' compensation and occupational disease statutes. If occupational diseases are not compensable under those statutes, they shall be covered under the employer's liability section of the insurance policy, except when contract operations are so commingled with a contractor's commercial operations that it would not be practical to require this coverage. Employer's liability coverage of at least \$100,000 shall be required, except in States with exclusive or monopolistic funds that do not permit workers' compensation to be written by private carriers. (See 28.305(c) for treatment of contracts subject to the Defense Base Act.)

(b) *General liability.* (1) The contracting officer shall require bodily injury liability insurance coverage written on the comprehensive form of policy of at least \$500,000 per occurrence.

(2) Property damage liability insurance shall be required only in special circumstances as determined by the agency.

(c) *Automobile liability.* The contracting officer shall require automobile liability insurance written on the comprehensive form of policy. The policy shall provide for bodily injury and property damage liability covering the operation of all automobiles used in connection with performing the contract. Policies covering automobiles operated in the United States shall provide coverage of at least \$200,000 per person and \$500,000 per occurrence for bodily injury and \$20,000 per occurrence for property damage. The amount of liability coverage on other policies shall be commensurate with any legal requirements of the locality and sufficient to meet normal and customary claims.

(d) *Aircraft public and passenger liability.* When aircraft are used in connection with performing the contract, the contracting officer shall require aircraft public and passenger liability insurance. Coverage shall be at least \$200,000 per

person and \$500,000 per occurrence for bodily injury, other than passenger liability, and \$200,000 per occurrence for property damage. Coverage for passenger liability bodily injury shall be at least \$200,000 multiplied by the number of seats or passengers, whichever is greater.

(e) *Vessel liability*. When contract performance involves use of vessels, the contracting officer shall require, as determined by the agency, vessel collision liability and protection and indemnity liability insurance.

### 28.308 Self-insurance.

(a) When it is anticipated that 50 percent or more of the self-insurance costs to be incurred at a segment of a contractor's business will be allocable to negotiated Government contracts, and the self-insurance costs at the segment for the contractor's fiscal year are expected to be \$200,000 or more, the contractor shall submit, in writing, information on its proposed self-insurance program to the administrative contracting officer and obtain that official's approval of the program. The submission shall be by segment or segments of the contractor's business to which the program applies and shall include—

- (1) A complete description of the program, including any resolution of the board of directors authorizing and adopting coverage, including types of risks, limits of coverage, assignments of safety and loss control, and legal service responsibilities;
- (2) If available, the corporate insurance manual and organization chart detailing fiscal responsibilities for insurance;
- (3) The terms regarding insurance coverage for any Government property;
- (4) The contractor's latest financial statements;
- (5) Any self-insurance feasibility studies or insurance market surveys reporting comparative alternatives;
- (6) Loss history, premiums history, and industry ratios;
- (7) A formula for establishing reserves, including percentage variations between losses paid and losses reserved;
- (8) Claims administration policy, practices, and procedures;
- (9) The method of calculating the projected average loss; and
- (10) A disclosure of all captive insurance company and reinsurance agreements, including methods of computing cost.

(b) Programs of self-insurance covering a contractor's insurable risks, including the deductible portion of purchased insurance, may be approved when examination of a program indicates that its application is in the Government's interest. Agencies shall not approve a program of self-insurance for workers' compensation in a jurisdiction where workers' compensation does not completely cover the employer's liability to employees, unless the contractor—

(1) Maintains an approved program of self-insurance for any employer's liability not so covered; or

(2) Shows that the combined cost to the Government of self-insurance for workers' compensation and commercial insurance for employer's liability will not exceed the cost of covering both kinds of risk by commercial insurance.

(c) Once the administrative contracting officer has approved a program, the contractor must submit to that official for approval any major proposed changes to the program. Any program approval may be withdrawn if a contracting officer finds that either—

(1) Any part of a program does not comply with the requirements of this subpart and/or the criteria at 31.205-19; or

(2) Conditions or situations existing at the time of approval that were a basis for original approval of the program have changed to the extent that a program change is necessary.

(d) To qualify for a self-insurance program, a contractor must demonstrate ability to sustain the potential losses involved. In making the determination, the contracting officer shall consider the following factors:

- (1) The soundness of the contractor's financial condition, including available lines of credit.
- (2) The geographic dispersion of assets, so that the potential of a single loss depleting all the assets is unlikely.
- (3) The history of previous losses, including frequency of occurrence and the financial impact of each loss.
- (4) The type and magnitude of risk, such as minor coverage for the deductible portion of purchased insurance or major coverage for hazardous risks.
- (5) The contractor's compliance with Federal and State laws and regulations.

(e) Agencies shall not approve a program of self-insurance for catastrophic risks (*e.g.*, see 50.403, Special procedures for unusually hazardous or nuclear risks). Should performance of Government contracts create the risk of catastrophic losses, the Government may, to the extent authorized by law, agree to indemnify the contractor or recognize an appropriate share of premiums for purchased insurance, or both.

(f) Self-insurance programs to protect a contractor against the costs of correcting its own defects in materials or workmanship shall not be approved. For these purposes, normal rework estimates and warranty costs will not be considered self-insurance.

### 28.309 Contract clauses for workers' compensation insurance.

(a) The contracting officer shall insert the clause at 52.228-3, Workers' Compensation Insurance (Defense Base Act), in solicitations and contracts when the Defense Base Act applies (see 28.305) and—

(1) The contract will be a public-work contract performed outside the United States; or

(2) The contract will be approved or financed under the Foreign Assistance Act of 1961 (Pub. L. 87-195) and is not excluded by 28.305(b)(2).

(b) The contracting officer shall insert the clause at 52.228-4, Worker's Compensation and War-Hazard Insurance Overseas, in solicitations and contracts when the contract will be a public-work contract performed outside the United States and the Secretary of Labor waives the applicability of the Defense Base Act (see 28.305(d)).

### **28.310 Contract clause for work on a Government installation.**

(a) The contracting officer shall insert the clause at 52.228-5, Insurance—Work on a Government Installation, in solicitations and contracts when a fixed-price contract is contemplated, the contract amount is expected to exceed the simplified acquisition threshold, and the contract will require work on a Government installation, unless—

(1) Only a small amount of work is required on the Government installation (*e.g.*, a few brief visits per month); or

(2) All work on the Government installation is to be performed outside the United States, its possessions, and Puerto Rico.

(b) The contracting officer may insert the clause at 52.228-5 in solicitations and contracts described in paragraphs (a)(1) and (2) of this section if it is in the Government's interest to do so.

### **28.311 Solicitation provision and contract clause on liability insurance under cost-reimbursement contracts.**

#### **28.311-1 Contract clause.**

In accordance with agency acquisition regulations, the contracting officer shall insert the clause at 52.228-7, Insur-

ance—Liability to Third Persons, in solicitations and contracts, other than those for construction contracts and those for architect-engineer services, when a cost-reimbursement contract is contemplated.

### **28.311-2 Agency solicitation provisions and contract clauses.**

Agencies may prescribe their own solicitation provisions and contract clauses to implement the basic policies contained in this Subpart 28.3.

### **28.312 Contract clause for insurance of leased motor vehicles.**

The contracting officer shall insert the clause at 52.228-8, Liability and Insurance—Leased Motor Vehicles, in solicitations and contracts for the leasing of motor vehicles (see Subpart 8.11).

### **28.313 Contract clauses for insurance of transportation or transportation-related services.**

(a) The contracting officer shall insert the clause at 52.228-9, Cargo Insurance, in solicitations and contracts for transportation or for transportation-related services, except when freight is shipped under rates subject to released or declared value.

(b) The contracting officer shall insert a clause substantially the same as that at 52.228-10, Vehicular and General Public Liability Insurance, in solicitations and contracts for transportation or for transportation-related services when the contracting officer determines that vehicular liability or general public liability insurance required by law is not sufficient.

29.303	Application of State and local taxes to Government contractors and subcontractors.	29.402-2	Foreign cost-reimbursement contracts.
29.304	Matters requiring special consideration.		

This page intentionally left blank.

**29.000 Scope of part.**

This part prescribes policies and procedures for (a) using tax clauses in contracts (including foreign contracts), (b) asserting immunity or exemption from taxes, and (c) obtaining tax refunds. It explains Federal, State, and local taxes on certain supplies and services acquired by executive agencies and the applicability of such taxes to the Federal Government. It is for the general information of Government personnel and does not present the full scope of the tax laws and regulations.

**Subpart 29.1—General****29.101 Resolving tax problems.**

(a) Contract tax problems are essentially legal in nature and vary widely. Specific tax questions must be resolved by reference to the applicable contract terms and to the pertinent tax laws and regulations. Therefore, when tax questions arise, contracting officers should request assistance from the agency-designated legal counsel.

(b) To keep treatment within an agency consistent, contracting officers or other authorized personnel shall consult

the agency-designated counsel before negotiating with any taxing authority for the purpose of—

(1) Determining whether or not a tax is valid or applicable; or

(2) Obtaining exemption from, or refund of, a tax.

(c) When the constitutional immunity of the Government from State or local taxation may reasonably be at issue, contractors should be discouraged from negotiating independently with taxing authorities if the contract involved is either—

(1) A cost-reimbursement contract; or

(2) A fixed-price contract containing a tax escalation clause.

(d) Before purchasing goods or services from a foreign source, the contracting officer should consult the agency-designated counsel—

(1) For information on foreign tax treaties and agreements in force and on the implementation of any foreign-tax-relief programs; and

(2) To resolve any other tax questions affecting the prospective contract.

## Subpart 29.2—Federal Excise Taxes

### 29.201 General.

(a) Federal excise taxes are levied on the sale or use of particular supplies or services. Subtitle D of the Internal Revenue Code of 1954, Miscellaneous Excise Taxes, 26 U.S.C. 4041, *et seq.*, and its implementing regulations, 26 CFR parts 40 through 299, cover miscellaneous federal excise tax requirements. Questions arising in this area should be directed to the agency-designated counsel. The most common excise taxes are—

(1) Manufacturers' excise taxes imposed on certain motor-vehicle articles, tires and inner tubes, gasoline, lubricating oils, coal, fishing equipment, firearms, shells, and cartridges sold by manufacturers, producers, or importers; and

(2) Special-fuels excise taxes imposed at the retail level on diesel fuel and special motor fuels.

(b) Sometimes the law exempts the Federal Government from these taxes. Contracting officers should solicit prices on a tax-exclusive basis when it is known that the Government is exempt from these taxes, and on a tax-inclusive basis when no exemption exists.

(c) Executive agencies shall take maximum advantage of available Federal excise tax exemptions.

### 29.202 General exemptions.

No Federal manufacturers' or special-fuels excise taxes are imposed in many contracting situations as, for example, when the supplies are for any of the following:

(a) The exclusive use of any State or political subdivision, including the District of Columbia (26 U.S.C. 4041 and 4221).

(b) Shipment to a United States possession or Puerto Rico, or for export. Shipment or export must occur within 6 months of the time title passes to the Government. When the exemption is claimed, the words "for export or shipment

to a possession" must appear on the contract or purchase document, and the contracting officer must furnish the seller proof of export (see 26 CFR 48.4221-3).

(c) Further manufacture, or resale for further manufacture (this exemption does not include tires and inner tubes) (26 CFR 48.4221-2).

(d) Use as fuel supplies, ships or sea stores, or legitimate equipment on vessels of war, including (1) aircraft owned by the United States and constituting a part of the armed forces and (2) guided missiles and pilotless aircraft owned or chartered by the United States. When this exemption is to be claimed, the purchase should be made on a tax-exclusive basis. The contracting officer shall furnish the seller an exemption certificate for Supplies for Vessels of War (an example is given in 26 CFR 48.4221-4(d)(2); the IRS will accept one certificate covering all orders under a single contract for a specified period of up to 12 calendar quarters) (26 U.S.C. 4041 and 4221).

(e) A nonprofit educational organization (26 U.S.C. 4041 and 4221).

(f) Emergency vehicles (26 U.S.C. 4053 and 4064(b)(1)(c)).

### 29.203 Other Federal tax exemptions.

(a) Pursuant to 26 U.S.C. 4293, the Secretary of the Treasury has exempted the United States from the communications excise tax imposed in 26 U.S.C. 4251, when the supplies and services are for the exclusive use of the United States. (Secretarial Authorization, June 20, 1947, Internal Revenue Cumulative Bulletin, 1947-1, 205.)

(b) Pursuant to 26 U.S.C. 4483(b), the Secretary of the Treasury has exempted the United States from the federal highway vehicle users tax imposed in 26 U.S.C. 4481. The exemption applies whether the vehicle is owned or leased by the United States. (Secretarial Authorization, Internal Revenue Cumulative Bulletin, 1956-2, 1369.)

## Subpart 29.3—State and Local Taxes

### 29.300 Scope of subpart.

This subpart prescribes the policies and procedures regarding the exemption or immunity of Federal Government purchases and property from State and local taxation.

### 29.301 [Reserved]

### 29.302 Application of State and local taxes to the Government.

(a) Generally, purchases and leases made by the Federal Government are immune from State and local taxation. Whether any specific purchase or lease is immune, however, is a legal question requiring advice and assistance of the agency-designated counsel.

(b) When it is economically feasible to do so, executive agencies shall take maximum advantage of all exemptions from State and local taxation that may be available. If appropriate, the contracting officer shall provide a Standard Form 1094, U.S. Tax Exemption Form (see Part 53), or other evidence listed in 29.305(a) to establish that the purchase is being made by the Government.

### 29.303 Application of State and local taxes to Government contractors and subcontractors.

(a) Prime contractors and subcontractors shall not normally be designated as agents of the Government for the purpose of claiming immunity from State or local sales or use taxes. Before any activity contends that a contractor is an agent of the Government, the matter shall be referred to the agency head for review. The referral shall include all pertinent data on which the contention is based, together with a thorough analysis of all relevant legal precedents.

(b) When purchases are not made by the Government itself, but by a prime contractor or by a subcontractor under a prime contract, the right to an exemption of the transaction from a sales or use tax may not rest on the Government's immunity from direct taxation by States and localities. It may rest instead on provisions of the particular State or local law involved, or, in some cases, the transaction may not in fact be expressly exempt from the tax. The Government's interest shall be protected by using the procedures in 29.101.

(c) Frequently, property (including property acquired under the progress payments clause of fixed-price contracts or the Government property clause of cost-reimbursement contracts) owned by the Government is in the possession of a contractor or subcontractor. Situations may arise in which States or localities assert the right to tax Government property directly or to tax the contractor's or subcontractor's possession of, interest in, or use of that property. In such cases, the contracting officer shall seek review and advice from the

agency-designated counsel on the appropriate course of action.

### 29.304 Matters requiring special consideration.

The imposition of State and local taxes may result in special contract considerations including the following:

(a) With coordination of the agency-designated counsel, a contract may (1) state that the contract price includes or excludes a specified tax or (2) require that the contractor take certain actions with regard to payment, nonpayment, refund, protest, or other treatment of a specified tax. Such special treatment may be appropriate when there is doubt as to the applicability or allocability of the tax, or when the applicability of the tax is being litigated.

(b) The applicability of State and local taxes to purchases by the Federal Government may depend on the place and terms of delivery. When the contract price will be substantial, alternative places and terms of delivery should be considered in light of possible tax consequences.

(c) Indefinite-delivery contracts for equipment rental may require the contractor to furnish equipment in any of the States. Since leased equipment remains the contractor's property, States and local governments impose a wide variety of property, use, or other taxes on equipment leased to the Government. The amount of these taxes can vary considerably from jurisdiction to jurisdiction. See 29.401-1 for the prescription of the contract clause to be included in contracts when delivery points are not known at time of contracting.

(d) *The North Carolina State and local sales and use tax.*  
(1) The North Carolina Sales and Use Tax Act authorizes counties and incorporated cities and towns to obtain each year from the Commissioner of Revenue of the State of North Carolina a refund of sales and use taxes indirectly paid on building materials, supplies, fixtures, and equipment that become a part of or are annexed to any building or structure erected, altered, or repaired for such counties and incorporated cities and towns in North Carolina. In *United States v. Clayton*, 250 F. Supp. 827 (1965), it was held that the United States is entitled to the benefit of the refund, but must follow the refund procedure of the Act and the regulations to recover what it is due.

(2) The Act provides that, to receive the refund, claimants must file, within 6 months after the claimant's fiscal year closes, a written request substantiated by such records, receipts, and information as the Commissioner of Revenue may require. No refund will be made on an application not filed within the time allowed and in such manner as the Commissioner may require. The requirements of the Commissioner are set forth in regulations that provide that, to substantiate a refund claim for sales or use taxes paid on purchases of building materials, supplies, fixtures, or equipment by a contractor, the Government must secure from the contractor certified statements setting forth the cost of the prop-

erty purchased from each vendor and the amount of sales or use taxes paid. In the event the contractor makes several purchases from the same vendor, the certified statement must indicate the invoice numbers, the inclusive dates of the invoices, the total amount of the invoices, and the sales and use taxes paid. The statement must also include the cost of any tangible personal property withdrawn from the contractor's warehouse stock and the amount of sales or use tax paid by the contractor. Similar certified statements by subcontractors must be obtained by the general contractor and furnished to the claimant. Any local sales or use taxes included in the contractor's statement must be shown separately from the State sales or use taxes.

(3) The clause prescribed at 29.401-2 requires contractors to submit to contracting officers by November 30 of each year a certified statement disclosing North Carolina State and local sales and use taxes paid during the 12-month period that ended the preceding September 30. The contracting officer shall ensure that contractors comply with this requirement and shall obtain the annual refund to which the Government may be entitled. The application for refund must be filed each year before March 31 and in the manner and form required by the Commissioner of Revenue. Copies of the form may be obtained from the—

State of North Carolina Department of Revenue  
PO Box 25000  
Raleigh, North Carolina 27640.

### **29.305 State and local tax exemptions.**

(a) *Evidence of exemption.* Evidence needed to establish exemption from State or local taxes depends on the grounds for the exemption claimed, the parties to the transaction, and

the requirements of the taxing jurisdiction. Such evidence may include the following:

- (1) A copy of the contract or relevant portion.
- (2) Copies of purchase orders, shipping documents, credit-card-imprinted sales slips, paid or acknowledged invoices, or similar documents that identify an agency or instrumentality of the United States as the buyer.
- (3) A U.S. Tax Exemption Form (SF 1094).
- (4) A State or local form indicating that the supplies or services are for the exclusive use of the United States.
- (5) Any other State or locally required document for establishing general or specific exemption.
- (6) Shipping documents indicating that shipments are in interstate or foreign commerce.

(b) *Furnishing proof of exemption.* If a reasonable basis to sustain a claimed exemption exists, the seller will be furnished evidence of exemption, as follows:

(1) Under a contract containing the clause at 52.229-3, Federal, State, and Local Taxes, or at 52.229-4, Federal, State, and Local Taxes (Noncompetitive Contract), in accordance with the terms of those clauses.

(2) Under a cost-reimbursement contract, if requested by the contractor and approved by the contracting officer or at the discretion of the contracting officer.

(3) Under a contract or purchase order that contains no tax provision, if—

(i) Requested by the contractor and approved by the contracting officer or at the discretion of the contracting officer; and

(ii) Either the contract price does not include the tax or, if the transaction or property is tax exempt, the contractor consents to a reduction in the contract price.

## Subpart 29.4—Contract Clauses

### 29.401 Domestic contracts.

#### 29.401-1 Indefinite-delivery contracts for leased equipment.

The contracting officer shall insert the clause at 52.229-1, State and Local Taxes, in solicitations and contracts for leased equipment when a fixed-price indefinite-delivery contract is contemplated; the contract will be performed wholly or partly within the United States, its possessions, or Puerto Rico; and the place or places of delivery are not known at the time of contracting.

#### 29.401-2 Construction contracts performed in North Carolina.

The contracting officer shall insert the clause at 52.229-2, North Carolina State and Local Sales and Use Tax, in solicitations and contracts for construction to be performed in North Carolina. If the requirement is for vessel repair to be performed in North Carolina, the clause shall be used with its Alternate I.

#### 29.401-3 Competitive contracts.

The contracting officer shall insert the clause at 52.229-3, Federal, State, and Local Taxes, in solicitations and contracts if the contract is to be performed wholly or partly within the United States, its possessions, or Puerto Rico, when a fixed-price contract is contemplated and the contract is expected to exceed the simplified acquisition threshold, unless the clause at 52.229-4, Federal State, and Local Taxes (Noncompetitive Contract), is included in the contract.

#### 29.401-4 Noncompetitive contracts.

The contracting officer shall insert the clause at 52.229-4, Federal, State, and Local Taxes (Noncompetitive Contract), in fixed-price noncompetitive contracts when the contract exceeds the simplified acquisition threshold, to be performed wholly or partly within the United States, its possessions, or Puerto Rico when satisfied that the contract price does not include contingencies for State and local taxes, and that, unless the clause is used, the contract price will include such contingencies.

#### 29.401-5 Contracts performed in U.S. possessions or Puerto Rico.

The contracting officer shall insert the clause at 52.229-5, Taxes-Contracts Performed in U.S. Possessions or Puerto Rico, in solicitations and contracts that include the clause at 52.229-3, Federal, State, and Local Taxes, or 52.229-4, Federal, State, and Local Taxes (Noncompetitive Contract).

### 29.401-6 New Mexico gross receipts and compensating tax.

#### (a) Definition.

“Services,” as used in this subsection, is as defined in the Gross Receipts and Compensating Tax Act of the State of New Mexico, Sec 7-9-3(k) NM SA 1978, and means all activities engaged in for other persons for a consideration, which activities involve predominately the performance of a service as distinguished from selling or leasing property. “Services” includes activities performed by a person for its members or shareholders. In determining what is a service, the intended use, principal objective or ultimate objective of the contracting parties shall not be controlling. “Services” also includes construction activities and all tangible personal property that will become an ingredient or component part of a construction project. Such tangible personal property retains its character as tangible personal property until it is installed as an ingredient or component part of a construction project in New Mexico. However, sales of tangible personal property that will become an ingredient or component part of a construction project to persons engaged in the construction business are sales of tangible personal property.

(b) *Contract clause.* The contracting officer shall insert the clause at 52.229-10, State of New Mexico Gross Receipts and Compensating Tax, in solicitations and contracts issued by the agencies identified in paragraph (c) of this subsection when all three of the following conditions exist:

(1) The contractor will be performing a cost-reimbursement contract.

(2) The contract directs or authorizes the contractor to acquire tangible personal property as a direct cost under a contract and title to such property passes directly to and vests in the United States upon delivery of the property by the vendor.

(3) The contract will be for services to be performed in whole or in part within the State of New Mexico.

(c) *Participating agencies.* (1) The agencies listed below have entered into an agreement with the State of New Mexico to eliminate the double taxation of Government cost-reimbursement contracts when contractors and their subcontractors purchase tangible personal property to be used in performing services in whole or in part in the State of New Mexico and for which title to such property will pass to the United States upon delivery of the property to the contractor and its subcontractors by the vendor. Therefore, the clause applies only to solicitations and contracts issued by the—

United States Defense Special Weapons Agency;  
 United States Department of Agriculture;  
 United States Department of the Air Force;  
 United States Department of the Army;  
 United States Department of Energy;  
 United States Department of Health and Human Services;

United States Department of the Interior;  
United States Department of Labor;  
United States Department of the Navy;  
United States Department of Transportation;  
United States General Services Administration; and  
United States National Aeronautics and Space  
Administration.

(2) Any other Federal agency which expects to award cost-reimbursement contracts to be performed in New Mexico should contact the New Mexico Taxation and Revenue Department to execute a similar agreement.

**29.402 Foreign contracts.**

**29.402-1 Foreign fixed-price contracts.**

(a) The contracting officer shall insert the clause at 52.229-6, Taxes—Foreign Fixed-Price Contracts, in solicitations and contracts expected to exceed the simplified acquisition threshold when a fixed-price contract is contemplated and the contract is to be performed wholly or

partly in a foreign country, unless it is contemplated that the contract will be with a foreign government.

(b) The contracting officer shall insert the clause at 52.229-7, Taxes—Fixed-Price Contracts with Foreign Governments, in solicitations and contracts that exceed the simplified acquisition threshold when a fixed-price contract with a foreign government is contemplated.

**29.402-2 Foreign cost-reimbursement contracts.**

(a) The contracting officer shall insert the clause at 52.229-8, Taxes—Foreign Cost-Reimbursement Contracts, in solicitations and contracts when a cost-reimbursement contract is contemplated and the contract is to be performed wholly or partly in a foreign country, unless it is contemplated that the contract will be with a foreign government.

(b) The contracting officer shall insert the clause at 52.229-9, Taxes—Cost-Reimbursement Contracts with Foreign Governments, in solicitations and contracts when a cost-reimbursement contract with a foreign government is contemplated.

This page intentionally left blank.

**30.000 Scope of part.**

This part describes policies and procedures for applying the Cost Accounting Standards Board (CASB) rules and regulations (48 CFR Chapter 99 (FAR Appendix)) to negotiated contracts and subcontracts. This part does not apply to sealed bid contracts or to any contract with a small business concern (see 48 CFR 9903.201-1(b) (FAR Appendix) for these and other exemptions).

**Subpart 30.1—General****30.101 Cost Accounting Standards.**

(a) Public Law 100-679 (41 U.S.C. 422) requires certain contractors and subcontractors to comply with Cost Accounting Standards (CAS) and to disclose in writing and follow consistently their cost accounting practices.

(b) Contracts that refer to this Part 30 for the purpose of applying the policies, procedures, standards and regulations promulgated by the CASB pursuant to Public Law 100-679, shall be deemed to refer to the CAS, and any other regulations promulgated by the CASB (see 48 CFR Chapter 99), all of which are hereby incorporated in this Part 30.

(c) The Appendix to the FAR loose-leaf edition contains—

(1) Cost Accounting Standards and Cost Accounting Standards Board Rules and Regulations Recodified by the Cost Accounting Standards Board at 48 CFR Chapter 99; and

(2) The following preambles:

(i) Part I—Preambles to the Cost Accounting Standards Published by the Cost Accounting Standards Board.

(ii) Part II—Preambles to the Related Rules and Regulations Published by the Cost Accounting Standards Board.

(iii) Part III—Preambles Published under the FAR System.

(d) The preambles are not regulatory but are intended to explain why the Standards and related Rules and Regulations were written, and to provide rationale for positions taken relative to issues raised in the public comments. The preambles are printed in chronological order to provide an administrative history.

**30.102 Cost Accounting Standards Board Publication.**

Copies of the CASB Standards and Regulations are printed in title 48 of the *Code of Federal Regulations*, Chapter 99, and may be obtained by writing the—

Superintendent of Documents  
US Government Printing Office  
Washington, DC 20402

or by calling the Washington, DC, ordering desk at (202) 512-1800.

## Subpart 30.2—CAS Program Requirements

### 30.201 Contract requirements.

Title 48 CFR 9903.201-1 (FAR Appendix) describes the rules for determining whether a proposed contract or subcontract is exempt from CAS. Negotiated contracts not exempt in accordance with 48 CFR 9903.201-1(b) shall be subject to CAS. A CAS-covered contract may be subject to either full or modified coverage. The rules for determining whether full or modified coverage applies are in 48 CFR 9903.201-2 (FAR Appendix).

#### 30.201-1 CAS applicability.

See 48 CFR 9903.201-1 (FAR Appendix).

#### 30.201-2 Types of CAS coverage.

See 48 CFR 9903.201-2 (FAR Appendix).

#### 30.201-3 Solicitation provisions.

(a) The contracting officer shall insert the provision at 52.230-1, Cost Accounting Standards Notices and Certification, in solicitations for proposed contracts subject to CAS as specified in 48 CFR 9903.201 (FAR Appendix).

(b) If an award to an educational institution is contemplated prior to July 1, 1997, the contracting officer shall insert the basic provision set forth at 52.230-1 with its Alternate I, unless the contract is to be performed by a Federally Funded Research and Development Center (FFRDC) (see 48 CFR 9903.201-2(c)(5) (FAR Appendix)), or the provision at 48 CFR 9903.201-2(c)(6) (FAR Appendix) applies.

#### 30.201-4 Contract clauses.

(a) *Cost accounting standards.* (1) The contracting officer shall insert the clause at FAR 52.230-2, Cost Accounting Standards, in negotiated contracts, unless the contract is exempted (see 48 CFR 9903.201-1 (FAR Appendix)), the contract is subject to modified coverage (see 48 CFR 9903.201-2 (FAR Appendix)), or the clause prescribed in paragraph (c) of this subsection is used.

(2) The clause at FAR 52.230-2 requires the contractor to comply with all CAS specified in 48 CFR 9904 (FAR Appendix), to disclose actual cost accounting practices (applicable to CAS-covered contracts only), and to follow disclosed and established cost accounting practices consistently.

(b) *Disclosure and consistency of cost accounting practices.* (1) Insert the clause at FAR 52.230-3, Disclosure and Consistency of Cost Accounting Practices, in negotiated contracts when the contract amount is over \$500,000, but less than \$50 million, and the offeror certifies it is eligible for and elects to use modified CAS coverage (see 48 CFR 9903.201-2 (FAR Appendix)), unless the clause prescribed in paragraph (c) of this subsection is used.

(2) The clause at FAR 52.230-3 requires the contractor to comply with 48 CFR 9904.401, 9904.402, 9904.405, and 9904.406 (FAR Appendix) to disclose (if it meets certain requirements) actual cost accounting practices, and to follow consistently its established cost accounting practices.

(c) *Consistency in cost accounting practices.* The contracting officer shall insert the clause at FAR 52.230-4, Consistency in Cost Accounting Practices, in negotiated contracts that are exempt from CAS requirements solely on the basis of the fact that the contract is to be awarded to a United Kingdom contractor and is to be performed substantially in the United Kingdom (see 48 CFR 9903.201-1(b)(12) (FAR Appendix)).

(d) *Administration of cost accounting standards.* (1) The contracting officer shall insert the clause at FAR 52.230-6, Administration of Cost Accounting Standards, in contracts containing any of the clauses prescribed in paragraphs (a), (b), or (e) of this subsection.

(2) The clause at FAR 52.230-6 specifies rules for administering CAS requirements and procedures to be followed in cases of failure to comply.

(e) *Cost accounting standards—educational institutions.* (1) The contracting officer shall insert the clause at FAR 52.230-5, Cost Accounting Standards—Educational Institution, in negotiated contracts awarded to educational institutions, unless the contract is exempted (see 48 CFR 9903.201-1 (FAR Appendix)), the contract is to be performed by an FFRDC (see 48 CFR 9903.201-2(c)(5) (FAR Appendix)), or the provision at 48 CFR 9903.201-2(c)(6) (FAR Appendix) applies.

(2) The clause at FAR 52.230-5 requires the educational institution to comply with all CAS specified in 48 CFR 9905 (FAR Appendix), to disclose actual cost accounting practices as required by 48 CFR 9903.202-1(f) (FAR Appendix), and to follow disclosed and established cost accounting practices consistently.

#### 30.201-5 Waiver.

(a) The head of the agency—

(1) May waive the applicability of CAS for a particular contract or subcontract under the conditions listed in paragraph (b) of this subsection; and

(2) Must not delegate this waiver authority to any official in the agency below the senior contract policymaking level.

(b) The head of the agency may grant a waiver when one of the following conditions exists:

(1) The contract or subcontract value is less than \$15,000,000, and the head of the agency determines, in writing, that the segment of the contractor or subcontractor that will perform the contract or subcontract—

(i) Is primarily engaged in the sale of commercial items; and

(ii) Has no contracts or subcontracts that are subject to CAS.

(2) The head of the agency determines that exceptional circumstances exist whereby a waiver of CAS is necessary to meet the needs of the agency. Exceptional circumstances exist only when the benefits to be derived from waiving the CAS outweigh the risk associated with the waiver. The determination that exceptional circumstances exist must—

(i) Be set forth in writing; and

(ii) Include a statement of the specific circumstances that justify granting the waiver.

(c) When one of the conditions in paragraph (b) of this subsection exists, the request for waiver should include the following:

(1) The amount of the proposed award.

(2) A description of the contract or subcontract type (e.g., firm-fixed-price, cost-reimbursement).

(3) Whether the segment(s) that will perform the contract or subcontract has CAS-covered contracts or subcontracts.

(4) A description of the item(s) being procured.

(5) When the contractor or subcontractor will not accept the contract or subcontract if CAS applies, a statement to that effect.

(6) Whether cost or pricing data will be obtained, and if so, a discussion of how the data will be used in negotiating the contract or subcontract price.

(7) The benefits to the Government of waiving CAS.

(8) The potential risk to the Government of waiving CAS.

(9) The date by which the waiver is needed.

(10) Any other information that may be useful in evaluating the request.

(d) When neither of the conditions in paragraph (b) of this subsection exists, the waiver request must be prepared in accordance with 48 CFR 9903.201-5(e) (FAR Appendix) and submitted to the CAS Board.

(e) Each agency must report any waivers granted under paragraph (a) of this subsection to the CAS Board, on a fiscal year basis, not later than 90 days after the close of the Government's fiscal year.

### **30.201-6 Findings.**

See 48 CFR 9903.201-6 (FAR Appendix).

### **30.201-7 Cognizant Federal agency responsibilities.**

See 48 CFR 9903.201-7 (FAR Appendix).

## **30.202 Disclosure requirements.**

### **30.202-1 General requirements.**

See 48 CFR 9903.202-1 (FAR Appendix).

### **30.202-2 Impracticality of submission.**

See 48 CFR 9903.202-2 (FAR Appendix).

### **30.202-3 Amendments and revisions.**

See 48 CFR 9903.202-3 (FAR Appendix).

### **30.202-4 Privileged and confidential information.**

See 48 CFR 9903.202-4 (FAR Appendix).

### **30.202-5 Filing Disclosure Statements.**

See 48 CFR 9903.202-5 (FAR Appendix).

### **30.202-6 Responsibilities.**

(a) The contracting officer is responsible for determining when a proposed contract may require CAS coverage and for including the appropriate notice in the solicitation. The contracting officer must then ensure that the offeror has made the required solicitation certifications and that required Disclosure Statements are submitted. (Also see 48 CFR 9903.201-3 and 9903.202 (FAR Appendix).)

(b) The contracting officer shall not award a CAS-covered contract until the ACO has made a written determination that a required Disclosure Statement is adequate unless, in order to protect the Government's interest, the contracting officer waives the requirement for an adequacy determination before award. In this event, a determination of adequacy shall be required as soon as possible after the award.

(c) The cognizant auditor is responsible for conducting reviews of Disclosure Statements for adequacy and compliance.

(d) The cognizant ACO is responsible for determinations of adequacy and compliance of the Disclosure Statement.

### **30.202-7 Determinations.**

(a) *Adequacy determination.* As prescribed by 48 CFR 9903.202-6 (FAR Appendix), the cognizant auditor shall conduct a review of the Disclosure Statement to ascertain whether it is current, accurate, and complete and shall report the results to the cognizant ACO, who shall determine whether or not it adequately describes the offeror's cost accounting practices. If the ACO identifies any areas of inadequacy, the ACO shall request a revised Disclosure Statement. If the Disclosure Statement is adequate, the ACO shall notify the offeror in writing, with copies to the cognizant auditor and contracting officer. The notice of adequacy shall state that a disclosed practice shall not, by virtue of such disclosure, be considered an approved practice for pricing proposals or accumulating and reporting contract performance cost data. Generally, the ACO shall furnish the contractor notification of adequacy or inadequacy within 30 days after the Disclosure Statement has been received by the ACO.

(b) *Compliance determination.* After the notification of adequacy, the cognizant auditor shall conduct a detailed compliance review to ascertain whether or not the disclosed practices comply with Part 31 and the CAS and shall advise the ACO of the results. The ACO shall take action regarding noncompliance with CAS under FAR 30.602-2. The ACO may require a revised Disclosure Statement and adjustment of the prime contract price or cost allowance. Noncompliance with Part 31 shall be processed separately, in accordance with normal administrative practices.

**30.202-8 Subcontractor Disclosure Statements.**

(a) When the Government requires determinations of adequacy or inadequacy, the ACO cognizant of the subcontractor shall provide such determination to the ACO cognizant of the prime contractor or next higher tier subcontractor. The ACO cognizant of higher tier subcontractors or prime contractors shall not reverse the determination of the ACO cognizant of the subcontractor.

(b) Any determination that it is impractical to secure a subcontractor's Disclosure Statement must be made in accordance with 48 CFR 9903.202-2 (FAR Appendix).

**Subpart 30.3—CAS Rules and Regulations  
[Reserved]**

NOTE: See 48 CFR 9903.3 (FAR Appendix B).

**Subpart 30.4—Cost Accounting Standards  
[Reserved]**

NOTE: See 48 CFR Part 9904 (FAR Appendix B).

**Subpart 30.5—Cost Accounting Standards for  
Educational Institutions [Reserved]**

NOTE: See 48 CFR Part 9905 (FAR Appendix B).

## Subpart 30.6—CAS Administration

### 30.601 Responsibility.

(a) The cognizant ACO shall perform CAS administration for all contracts in a business unit notwithstanding retention of other administration functions by the contracting officer.

(b) Within 30 days after the award of any new contract or subcontract subject to CAS, the contracting officer, contractor, or subcontractor making the award shall request the cognizant ACO to perform administration for CAS matters (see Subpart 42.2).

### 30.602 Changes to disclosed or established cost accounting practices.

Adjustments to contracts and withholding amounts payable for CAS noncompliance, new standards, or voluntary changes are required only if the amounts involved are material. In determining materiality, the ACO shall use the criteria in 48 CFR 9903.305 (FAR Appendix). The ACO may forego action to require that a cost impact proposal be submitted or to adjust contracts, if the ACO determines the amount involved is immaterial. However, in the case of non-compliance issues, the ACO shall inform the contractor that—

(a) The Government reserves the right to make appropriate contract adjustments if, in the future, the ACO determines that the cost impact has become material; and

(b) The contractor is not excused from the obligation to comply with the applicable Standard or rules and regulations involved.

### 30.602-1 Equitable adjustments for new or modified standards.

(a) *New or modified standards.* (1) The provision at 52.230-1, Cost Accounting Standards Notices and Certification, requires offerors to state whether or not the award of the contemplated contract would require a change to established cost accounting practices affecting existing contracts and subcontracts. The contracting officer shall ensure that the contractor's response to the notice is made known to the ACO.

(2) Contracts and subcontracts containing the clause at FAR 52.230-2, Cost Accounting Standards, or FAR 52.230-5, Cost Accounting Standards—Educational Institution, may require equitable adjustments to comply with new or modified CAS. Such adjustments are limited to contracts and subcontracts awarded before the effective date of each new or modified standard. A new or modified standard becomes applicable prospectively to these contracts and subcontracts when a new contract or subcontract containing the clause at 52.230-2 or 52.230-5 is awarded on or after the effective date of the new or modified standard.

(3) Contracting officers shall encourage contractors to submit to the ACO any change in accounting practice in anticipation of complying with a new or modified standard as soon as practical after the new or modified Standard has been promulgated by the CASB.

(b) *Accounting changes.* (1) The clause at FAR 52.230-6, Administration of Cost Accounting Standards, requires the contractor to submit a description of any change in cost accounting practices required to comply with a new or modified CAS within 60 days (or other mutually agreed to date) after award of a contract requiring the change.

(2) The ACO, with the assistance of the auditor, shall review the proposed change concurrently for adequacy and compliance (see 30.202-7). If the description of the change meets both tests, the ACO shall notify the contractor and request submission of a cost impact proposal in accordance with FAR 30.602.

(c) *Contract price adjustments.* (1) The ACO shall promptly analyze the cost impact proposal with the assistance of the auditor, determine the impact, and negotiate the contract price adjustment on behalf of all Government agencies. The ACO shall invite contracting officers to participate in negotiations of adjustments when the price of any of their contracts may be increased or decreased by \$10,000 or more. At the conclusion of negotiations, the ACO shall—

(i) Execute supplemental agreements to contracts of the ACO's own agency (and, if additional funds are required, request them from the appropriate contracting officer);

(ii) Prepare a negotiation memorandum and send copies to cognizant auditors and contracting officers of other agencies having prime contracts affected by the negotiation (those agencies shall execute supplemental agreements in the amounts negotiated); and

(iii) Furnish copies of the memorandum indicating the effect on costs to the ACO of the next higher tier subcontractor or prime contractor, as appropriate, if a subcontract is to be adjusted. This memorandum shall be the basis for negotiation between the subcontractor and the next higher tier subcontractor or prime contractor and for execution of a supplemental agreement to the subcontract.

(2) If the parties fail to agree on the cost or price adjustment, the ACO may make a unilateral adjustment, subject to contractor appeal as provided in the clause at 52.233-1, Disputes.

(d) *Remedies for contractor failure to make required submissions.* (1) If the contractor does not submit the accounting change description or the general dollar magnitude of the change or cost impact proposal (in the form and manner specified), the ACO, with the assistance of the auditor, shall estimate the general dollar magnitude of the cost impact on CAS-covered contracts and subcontracts. The ACO may then withhold an amount not to exceed 10 percent of each

subsequent amount determined payable related to the contractor's CAS-covered prime contracts, up to the estimated general dollar magnitude of the cost impact, until the required submission is furnished by the contractor.

(2) If the contractor has not submitted the cost impact proposal before the total withheld amount reaches the estimated general dollar magnitude and the ACO determines that an adjustment is required (see 30.602), the ACO shall request the contractor to agree to the cost or price adjustment. The contractor shall also be advised that in the event no agreement on the cost or price adjustment is reached within 20 days, the ACO may make a unilateral adjustment, subject to contractor appeal as provided in the clause at 52.233-1, Disputes.

### 30.602-2 Noncompliance with CAS requirements.

(a) *Determination of noncompliance.* (1) Within 15 days of the receipt of a report of alleged noncompliance from the cognizant auditor, the ACO shall make an initial finding of compliance or noncompliance and advise the auditor.

(2) If an initial finding of noncompliance is made, the ACO shall immediately notify the contractor in writing of the exact nature of the noncompliance and allow the contractor 60 days within which to agree or to submit reasons why the existing practices are considered to be in compliance.

(3) If the contractor agrees with the initial finding of noncompliance, the ACO shall review the contractor submissions required by paragraph (a) of the clause at FAR 52.230-6, Administration of Cost Accounting Standards.

(4) If the contractor disagrees with the initial noncompliance finding, the ACO shall review the reasons why the contractor considers the existing practices to be in compliance and make a determination of compliance or noncompliance. If the ACO determines that the contractor's practices are in noncompliance, a written explanation shall be provided as to why the ACO disagrees with the contractor's rationale. The ACO shall notify the contractor and the auditor in writing of the determination. If the ACO makes a determination of noncompliance, the procedures in (b) through (d), as appropriate, shall be followed.

(b) *Accounting changes.* (1) The clause at FAR 52.230-6, Administration of Cost Accounting Standards, requires the contractor to submit a description of any cost accounting practice change needed to correct a noncompliance.

(2) The ACO shall review the proposed change concurrently for adequacy and compliance (see 30.202-7). If the description of the change meets both tests, the ACO shall notify the contractor and request submission of a cost impact proposal in accordance with FAR 30.602.

(c) *Contract price adjustments.* (1) The ACO shall request that the contractor submit a cost impact proposal within the time specified in the clause at FAR 52.230-6, Administration of Cost Accounting Standards.

(2) Upon receipt of the cost impact proposal, the ACO shall then follow the procedures in 30.602-1(c)(1). In accordance with the clause at 52.230-2, Cost Accounting Standards, or 52.230-5, Cost Accounting Standards—Educational Institution, the ACO shall include and separately identify, as part of the computation of the contract price adjustment(s), applicable interest on any increased costs paid to the contractor as a result of the noncompliance. Interest shall be computed from the date of overpayment to the time the adjustment is effected. If the costs were incurred and paid evenly over the fiscal years during which the noncompliance occurred, then the midpoint of the period in which the noncompliance began may be considered the baseline for the computation of interest. An alternate equitable method should be used if the costs were not incurred and paid evenly over the fiscal years during which the noncompliance occurred. Interest under 52.230-2 should be computed pursuant to Public Law 100-679.

(d) *Remedies for contractor failure to make required submissions.* (1) If the contractor does not submit the accounting change description or the general dollar magnitude of the change or cost impact proposal (in the form and manner specified), the ACO, with the assistance of the cognizant auditor, shall estimate the general dollar magnitude of the cost impact on CAS-covered contracts and subcontracts. The ACO may then withhold an amount not to exceed 10 percent of each subsequent amount determined payable related to the contractor's CAS-covered prime contracts, up to the estimated general dollar magnitude of the cost impact until the required submission is furnished by the contractor.

(2) If the contractor has not submitted the cost impact proposal before the total withheld amount reaches the estimated general dollar magnitude and the ACO determines that an adjustment is required (see 30.602), the ACO shall notify the contractor and request agreement as to the cost or price adjustment together with any applicable interest as computed in accordance with 30.602-2(c)(2). The contractor shall also be advised that in the event no agreement on the cost or price adjustment is reached within 20 days, the ACO may make a unilateral adjustment, subject to contractor appeal, as provided in the clause at 52.233-1, Disputes.

(3) If the ACO determines that there is no material increase in costs as a result of the noncompliance, the ACO shall notify the contractor in writing that the contractor is in noncompliance, that corrective action should be taken, and that if such noncompliance subsequently results in materially increased costs to the Government, the provisions of the clause at 52.230-2, Cost Accounting Standards, 52.230-5, Cost Accounting Standards—Educational Institution, and/or the clause at 52.230-3, Disclosure and Consistency of Cost Accounting Practices, will be enforced.

**30.602-3 Voluntary changes.**

(a) *General.* (1) The contractor may voluntarily change its disclosed or established cost accounting practices.

(2) The contract price may be adjusted for voluntary changes. However, increased costs resulting from a voluntary change may be allowed only if the ACO determines that the change is desirable and not detrimental to the interest of the Government.

(b) *Accounting changes.* (1) The clause at FAR 52.230-6, Administration of Cost Accounting Standards, requires the contractor to notify the ACO and submit a description of any voluntary cost accounting practice change not less than 60 days (or such other date as may be mutually agreed to) before implementation of the voluntary change.

(2) The ACO, with the assistance of the cognizant auditor, shall review the proposed change concurrently for adequacy and compliance (see 30.202-7). If the description of the change meets both tests, the ACO shall notify the contractor and request submission of a cost impact proposal in accordance with FAR 30.602.

(c) *Contract price adjustments.* (1) With the assistance of the auditor, the ACO shall promptly analyze the cost impact proposal to determine whether or not the proposed change will result in increased costs being paid by the Government. The ACO shall consider all of the contractor's affected CAS-covered contracts and subcontracts, but any cost changes to higher-tier subcontracts or contracts of other contractors over and above the cost of the subcontract adjustment shall not be considered.

(2) The ACO shall then follow the procedures in 30.602-1(c)(1).

(d) *Remedies for contractor failure to make required submissions.* (1) If the contractor does not submit the accounting change description or the general dollar magnitude of the change or cost impact proposal (in the form and manner specified), the ACO, with the assistance of the cognizant auditor, shall estimate the general dollar magnitude of the cost impact on CAS-covered contracts and subcontracts. The ACO may then withhold an amount not to exceed 10 percent of each subsequent amount determined payable related to the contractor's CAS-covered prime contracts up to the estimated general dollar magnitude of the cost impact, until the required submission is furnished by the contractor.

(2) If the contractor has not submitted the cost impact proposal before the total withheld amount reaches the estimated general dollar magnitude and the ACO determines that an adjustment is appropriate (see 30.602), the ACO shall request the contractor to agree to the cost or price adjustment. The contractor shall also be advised that, in the event no agreement on the cost or price adjustment is reached within 20 days, the ACO may make a unilateral adjustment subject to contractor appeal, as provided in the clause at 52.233-1, Disputes.

**30.603 Subcontract administration.**

When a negotiated CAS price adjustment or a determination of noncompliance is required at the subcontract level, the ACO cognizant of the subcontractor shall make the determination and advise the ACO cognizant of the prime contractor or next higher tier subcontractor of the decision. The ACOs cognizant of higher tier subcontractors or prime contractors shall not reverse the determination of the ACO cognizant of the subcontractor.

  - 31.205-5 [Reserved]
  - 31.205-6 Compensation for personal services.
  - 31.205-7 Contingencies.
  - 31.205-8 Contributions or donations.
  - 31.205-9 [Reserved]
  - 31.205-10 Cost of money.
  - 31.205-11 Depreciation.
  - 31.205-12 Economic planning costs.
  - 31.205-13 Employee morale, health, welfare, food service, and dormitory costs and credits.
  - 31.205-14 Entertainment costs.
  - 31.205-15 Fines, penalties, and mischarging costs.
  - 31.205-16 Gains and losses on disposition or impairment of depreciable property or other capital assets.
  - 31.205-17 Idle facilities and idle capacity costs.
  - 31.205-18 Independent research and development and bid and proposal costs.
  - 31.205-19 Insurance and indemnification.
  - 31.205-20 Interest and other financial costs.
  - 31.205-21 Labor relations costs.
  - 31.205-22 Lobbying and political activity costs.
  - 31.205-23 Losses on other contracts.
  - 31.205-24 Maintenance and repair costs.
  - 31.205-25 Manufacturing and production engineering costs.
  - 31.205-26 Material costs.
  - 31.205-27 Organization costs.
  - 31.205-28 Other business expenses.
  - 31.205-29 Plant protection costs.
  - 31.205-30 Patent costs.
  - 31.205-31 Plant reconversion costs.
  - 31.205-32 Precontract costs.
  - 31.205-33 Professional and consultant service costs.
  - 31.205-34 Recruitment costs.
  - 31.205-35 Relocation costs.
  - 31.205-36 Rental costs.
  - 31.205-37 Royalties and other costs for use of patents.
  - 31.205-38 Selling costs.
  - 31.205-39 Service and warranty costs.
  - 31.205-40 Special tooling and special test equipment costs.
  - 31.205-41 Taxes.
  - 31.205-42 Termination costs.
  - 31.205-43 Trade, business, technical and professional activity costs.
  - 31.205-44 Training and education costs.
  - 31.205-45 Transportation costs.
  - 31.205-46 Travel costs.
  - 31.205-47 Costs related to legal and other proceedings.
  - 31.205-48 Deferred research and development costs.
  - 31.205-49 Goodwill.
  - 31.205-50 [Reserved]
  - 31.205-51 Costs of alcoholic beverages.
  - 31.205-52 Asset valuations resulting from business combinations.
- Subpart 31.3—Contracts with Educational Institutions**
- 31.301 Purpose.

	<b>Subpart 31.6—Contracts with State, Local, and Federally Recognized Indian Tribal Governments</b>		<b>Subpart 31.7—Contracts with Nonprofit Organizations</b>
31.601	Purpose.	31.701	Purpose.
31.602	General.	31.702	General.
		31.703	Requirements.

**31.000 Scope of part.**

This part contains cost principles and procedures for—

(a) The pricing of contracts, subcontracts, and modifications to contracts and subcontracts whenever cost analysis is performed (see 15.404-1(c)); and

(b) The determination, negotiation, or allowance of costs when required by a contract clause.

**31.001 Definitions.**

As used in this part—

“Accrued benefit cost method” means an actuarial cost method under which units of benefits are assigned to each cost accounting period and are valued as they accrue; *i.e.*, based on the services performed by each employee in the period involved. The measure of normal cost under this method for each cost accounting period is the present value of the units of benefit deemed to be credited to employees for service in that period. The measure of the actuarial accrued liability at a plan’s inception date is the present value of the units of benefit credited to employees for service prior to that date. (This method is also known as the unit credit cost method without salary projection.)

“Accumulating costs” means collecting cost data in an organized manner, such as through a system of accounts.

“Actual cash value” means the cost of replacing damaged property with other property of like kind and quality in the physical condition of the property immediately before the damage.

“Actual costs” means (except for Subpart 31.6) amounts determined on the basis of costs incurred, as distinguished from forecasted costs. Actual costs include standard costs properly adjusted for applicable variances.

“Actuarial accrued liability” means pension cost attributable, under the actuarial cost method in use, to years prior to the current period considered by a particular actuarial valuation. As of such date, the actuarial accrued liability represents the excess of the present value of future benefits and administrative expenses over the present value of future normal costs for all plan participants and beneficiaries. The excess of the actuarial accrued liability over the actuarial value of the assets of a pension plan is the unfunded actuarial liability. The excess of the actuarial value of the assets of a pension plan over the actuarial accrued liability is an actuarial surplus and is treated as a negative unfunded actuarial liability.

“Actuarial assumption” means an estimate of future conditions affecting pension cost; *e.g.*, mortality rate, employee turnover, compensation levels, earnings on pension plan assets, and changes in values of pension plan assets.

“Actuarial cost method” means a technique which uses actuarial assumptions to measure the present value of future pension benefits and pension plan administrative expenses, and that assigns the cost of such benefits and expenses to

cost accounting periods. The actuarial cost method includes the asset valuation method used to determine the actuarial value of the assets of a pension plan.

“Actuarial gain and loss” means the effect on pension cost resulting from differences between actuarial assumptions and actual experience.

“Actuarial valuation” means the determination, as of a specified date, of the normal cost, actuarial accrued liability, actuarial value of the assets of a pension plan, and other relevant values for the pension plan.

“Allocate” means to assign an item of cost, or a group of items of cost, to one or more cost objectives. This term includes both direct assignment of cost and the reassignment of a share from an indirect cost pool.

“Compensated personal absence” means any absence from work for reasons such as illness, vacation, holidays, jury duty, military training, or personal activities for which an employer pays compensation directly to an employee in accordance with a plan or custom of the employer.

“Cost input” means the cost, except general and administrative (G&A) expenses, which for contract costing purposes is allocable to the production of goods and services during a cost accounting period.

“Cost objective” means (except for Subpart 31.6) a function, organizational subdivision, contract, or other work unit for which cost data are desired and for which provision is made to accumulate and measure the cost of processes, products, jobs, capitalized projects, etc.

“Cost of capital committed to facilities” means an imputed cost determined by applying a cost of money rate to facilities capital.

“Deferred compensation” means an award made by an employer to compensate an employee in a future cost accounting period or periods for services rendered in one or more cost accounting periods before the date of the receipt of compensation by the employee. This definition shall not include the amount of year end accruals for salaries, wages, or bonuses that are to be paid within a reasonable period of time after the end of a cost accounting period.

“Defined-benefit pension plan” means a pension plan in which the benefits to be paid, or the basis for determining such benefits, are established in advance and the contributions are intended to provide the stated benefits.

“Defined-contribution pension plan” means a pension plan in which the contributions to be made are established in advance and the benefits are determined thereby.

“Directly associated cost” means any cost which is generated solely as a result of the incurrence of another cost, and which would not have been incurred had the other cost not been incurred.

“Estimating costs” means the process of forecasting a future result in terms of cost, based upon information available at the time.

“Expressly unallowable cost” means a particular item or type of cost which, under the express provisions of an applicable law, regulation, or contract, is specifically named and stated to be unallowable.

“Facilities capital” means the net book value of tangible capital assets and of those intangible capital assets that are subject to amortization.

“Final cost objective” means (except for Subparts 31.3 and 31.6) a cost objective that has allocated to it both direct and indirect costs and, in the contractor’s accumulation system, is one of the final accumulation points.

“Fiscal year” means the accounting period for which annual financial statements are regularly prepared, generally a period of 12 months, 52 weeks, or 53 weeks.

“Funded pension cost” means the portion of pension cost for a current or prior cost accounting period that has been paid to a funding agency.

“Home office” means an office responsible for directing or managing two or more, but not necessarily all, segments of an organization. It typically establishes policy for, and provides guidance to, the segments in their operations. It usually performs management, supervisory, or administrative functions, and may also perform service functions in support of the operations of the various segments. An organization which has intermediate levels, such as groups, may have several home offices which report to a common home office. An intermediate organization may be both a segment and a home office.

“Immediate-gain actuarial cost method” means any of the several actuarial cost methods under which actuarial gains and losses are included as part of the unfunded actuarial liability of the pension plan, rather than as part of the normal cost of the plan.

“Independent research and development (IR&D) cost” means the cost of effort which is neither sponsored by a grant, nor required in performing a contract, and which falls within any of the following four areas—

- (a) Basic research,
- (b) Applied research,
- (c) Development, and
- (d) Systems and other concept formulation studies.

“Indirect cost pools” means (except for Subparts 31.3 and 31.6) groupings of incurred costs identified with two or more cost objectives but not identified specifically with any final cost objective.

“Insurance administration expenses” means the contractor’s costs of administering an insurance program; *e.g.*, the costs of operating an insurance or risk-management department, processing claims, actuarial fees, and service fees paid to insurance companies, trustees, or technical consultants.

“Intangible capital asset” means an asset that has no physical substance, has more than minimal value, and is expected to be held by an enterprise for continued use or possession

beyond the current accounting period for the benefits it yields.

“Job” means a homogeneous cluster of work tasks, the completion of which serves an enduring purpose for the organization. Taken as a whole, the collection of tasks, duties, and responsibilities constitutes the assignment for one or more individuals whose work is of the same nature and is performed at the same skill/responsibility level—as opposed to a position, which is a collection of tasks assigned to a specific individual. Within a job, there may be pay categories which are dependent on the degree of supervision required by the employee while performing assigned tasks which are performed by all persons with the same job.

“Job class of employees” means employees performing in positions within the same job.

“Labor cost at standard” means a preestablished measure of the labor element of cost, computed by multiplying labor-rate standard by labor-time standard.

“Labor market” means a place where individuals exchange their labor for compensation. Labor markets are identified and defined by a combination of the following factors—

- (1) Geography,
- (2) Education and/or technical background required,
- (3) Experience required by the job,
- (4) Licensing or certification requirements,
- (5) Occupational membership, and
- (6) Industry.

“Labor-rate standard” means a preestablished measure, expressed in monetary terms, of the price of labor.

“Labor-time standard” means a preestablished measure, expressed in temporal terms, of the quantity of labor.

“Material cost at standard” means a preestablished measure of the material elements of cost, computed by multiplying material-price standard by material-quantity standard.

“Material-price standard” means a preestablished measure, expressed in monetary terms, of the price of material.

“Material-quantity standard” means a preestablished measure, expressed in physical terms, of the quantity of material.

“Moving average cost” means an inventory costing method under which an average unit cost is computed after each acquisition by adding the cost of the newly acquired units to the cost of the units of inventory on hand and dividing this figure by the new total number of units.

“Nonqualified pension plan” means any pension plan other than a qualified pension plan as defined in this part.

“Normal cost” means the annual cost attributable, under the actuarial cost method in use, to current and future years as of a particular valuation date excluding any payment in respect of an unfunded actuarial liability.

“Original complement of low cost equipment” means a group of items acquired for the initial outfitting of a tangible

capital asset or an operational unit, or a new addition to either. The items in the group individually cost less than the minimum amount established by the contractor for capitalization for the classes of assets acquired but in the aggregate they represent a material investment. The group, as a complement, is expected to be held for continued service beyond the current period. Initial outfitting of the unit is completed when the unit is ready and available for normal operations.

“Pay-as-you-go cost method” means a method of recognizing pension cost only when benefits are paid to retired employees or their beneficiaries.

“Pension plan” means a deferred compensation plan established and maintained by one or more employers to provide systematically for the payment of benefits to plan participants after their retirements, provided that the benefits are paid for life or are payable for life at the option of the employees. Additional benefits such as permanent and total disability and death payments, and survivorship payments to beneficiaries of deceased employees, may be an integral part of a pension plan.

“Pension plan participant” means any employee or former employee of an employer or any member or former member of an employee organization, who is or may become eligible to receive a benefit from a pension plan which covers employees of such employer or members of such organization who have satisfied the plan’s participation requirements, or whose beneficiaries are receiving or may be eligible to receive any such benefit. A participant whose employment status with the employer has not been terminated is an active participant of the employer’s pension plan.

“Profit center” means (except for Subparts 31.3 and 31.6) the smallest organizationally independent segment of a company charged by management with profit and loss responsibilities.

“Projected benefit cost method” means either—

(1) Any of the several actuarial cost methods that distribute the estimated total cost of all of the employees’ prospective benefits over a period of years, usually their working careers; or

(2) A modification of the accrued benefit cost method that considers projected compensation levels.

“Proposal” means any offer or other submission used as a basis for pricing a contract, contract modification, or termination settlement or for securing payments thereunder.

“Qualified pension plan” means a pension plan comprising a definite written program communicated to and for the exclusive benefit of employees that meets the criteria deemed essential by the Internal Revenue Service as set forth in the Internal Revenue Code for preferential tax treatment regarding contributions, investments, and distributions. Any other plan is a nonqualified pension plan.

“Self-insurance charge” means a cost which represents the projected average loss under a self-insurance plan.

“Service life” means the period of usefulness of a tangible capital asset (or group of assets) to its current owner. The period may be expressed in units of time or output. The estimated service life of a tangible capital asset (or group of assets) is a current forecast of its service life and is the period over which depreciation cost is to be assigned.

“Spread-gain actuarial cost method” means any of the several projected benefit actuarial cost methods under which actuarial gains and losses are included as part of the current and future normal costs of the pension plan.

“Standard cost” means any cost computed with the use of preestablished measures.

“Tangible capital asset” means an asset that has physical substance, more than minimal value, and is expected to be held by an enterprise for continued use or possession beyond the current accounting period for the services it yields.

“Termination of employment gain or loss” means an actuarial gain or loss resulting from the difference between the assumed and actual rates at which pension plan participants separate from employment for reasons other than retirement, disability, or death.

“Variance” means the difference between a preestablished measure and an actual measure.

“Weighted average cost” means an inventory costing method under which an average unit cost is computed periodically by dividing the sum of the cost of beginning inventory plus the cost of acquisitions by the total number of units included in these two categories.

**31.002 Availability of accounting guide.**

Contractors needing assistance in developing or improving their accounting systems and procedures may request a copy of the Defense Contract Audit Agency Pamphlet No. 7641.90, Information for Contractors. The pamphlet is available via the Internet at <http://www.dcaa.mil>.

**Subpart 31.1—Applicability**

**31.100 Scope of subpart.**

This subpart describes the applicability of the cost principles and procedures in succeeding subparts of this part to various types of contracts and subcontracts. It also describes the need for advance agreements.

**31.101 Objectives.**

In recognition of differing organizational characteristics, the cost principles and procedures in the succeeding subparts are grouped basically by organizational type; e.g., commercial concerns and educational institutions. The overall objective is to provide that, to the extent practicable, all

organizations of similar types doing similar work will follow the same cost principles and procedures. To achieve this uniformity, individual deviations concerning cost principles require advance approval of the agency head or designee. Class deviations for the civilian agencies require advance approval of the Civilian Agency Acquisition Council. Class deviations for the National Aeronautics and Space Administration require advance approval of the Associate Administrator for Procurement. Class deviations for the Department of Defense require advance approval of the Director of Defense Procurement, Office of the Under Secretary of Defense for Acquisition, Technology, and Logistics.

### 31.102 Fixed-price contracts.

The applicable subparts of Part 31 shall be used in the pricing of fixed-price contracts, subcontracts, and modifications to contracts and subcontracts whenever (a) cost analysis is performed, or (b) a fixed-price contract clause requires the determination or negotiation of costs. However, application of cost principles to fixed-price contracts and subcontracts shall not be construed as a requirement to negotiate agreements on individual elements of cost in arriving at agreement on the total price. The final price accepted by the parties reflects agreement only on the total price. Further, notwithstanding the mandatory use of cost principles, the objective will continue to be to negotiate prices that are fair and reasonable, cost and other factors considered.

### 31.103 Contracts with commercial organizations.

This category includes all contracts and contract modifications for supplies, services, or experimental, developmental, or research work negotiated with organizations other than educational institutions (see 31.104), construction and architect-engineer contracts (see 31.105), State and local governments (see 31.107) and nonprofit organizations (see 31.108) on the basis of cost.

(a) The cost principles and procedures in Subpart 31.2 and agency supplements shall be used in pricing negotiated supply, service, experimental, developmental, and research contracts and contract modifications with commercial organizations whenever cost analysis is performed as required by 15.404-1(c).

(b) In addition, the contracting officer shall incorporate the cost principles and procedures in Subpart 31.2 and agency supplements by reference in contracts with commercial organizations as the basis for—

(1) Determining reimbursable costs under—

(i) Cost-reimbursement contracts and cost-reimbursement subcontracts under these contracts performed by commercial organizations and

(ii) The cost-reimbursement portion of time-and-materials contracts except when material is priced on a basis other than at cost (see 16.601(b)(3));

(2) Negotiating indirect cost rates (see Subpart 42.7);

(3) Proposing, negotiating, or determining costs under terminated contracts (see 49.103 and 49.113);

(4) Price revision of fixed-price incentive contracts (see 16.204 and 16.403);

(5) Price redetermination of price redetermination contracts (see 16.205 and 16.206); and

(6) Pricing changes and other contract modifications.

### 31.104 Contracts with educational institutions.

This category includes all contracts and contract modifications for research and development, training, and other work performed by educational institutions.

(a) The contracting officer shall incorporate the cost principles and procedures in Subpart 31.3 by reference in cost-reimbursement contracts with educational institutions as the basis for—

(1) Determining reimbursable costs under the contracts and cost-reimbursement subcontracts thereunder performed by educational institutions;

(2) Negotiating indirect cost rates; and

(3) Settling costs of cost-reimbursement terminated contracts (see Subpart 49.3 and 49.109-7).

(b) The cost principles in this subpart are to be used as a guide in evaluating costs in connection with negotiating fixed-price contracts and termination settlements.

### 31.105 Construction and architect-engineer contracts.

(a) This category includes all contracts and contract modifications negotiated on the basis of cost with organizations other than educational institutions (see 31.104), State and local governments (see 31.107), and nonprofit organizations except those exempted under OMB Circular A-122 (see 31.108) for construction management or construction, alteration or repair of buildings, bridges, roads, or other kinds of real property. It also includes architect-engineer contracts related to construction projects. It does not include contracts for vessels, aircraft, or other kinds of personal property.

(b) Except as otherwise provided in (d) of this section, the cost principles and procedures in Subpart 31.2 shall be used in the pricing of contracts and contract modifications in this category if cost analysis is performed as required by 15.404-1(c).

(c) In addition, the contracting officer shall incorporate the cost principles and procedures in Subpart 31.2 (as modified by (d) of this section) by reference in contracts in this category as the basis for—

(1) Determining reimbursable costs under cost-reimbursement contracts, including cost-reimbursement subcontracts thereunder;

- (2) Negotiating indirect cost rates;
- (3) Proposing, negotiating, or determining costs under terminated contracts;
- (4) Price revision of fixed-price incentive contracts; and
- (5) Pricing changes and other contract modifications.

(d) Except as otherwise provided in this paragraph (d), the allowability of costs for construction and architect-engineer contracts shall be determined in accordance with Subpart 31.2.

(1) Because of widely varying factors such as the nature, size, duration, and location of the construction project, advance agreements as set forth in 31.109, for such items as home office overhead, partners' compensation, employment of consultants, and equipment usage costs, are particularly important in construction and architect-engineer contracts. When appropriate, they serve to express the parties' understanding and avoid possible subsequent disputes or disallowances.

(2) "Construction equipment," as used in this section, means equipment (including marine equipment) in sound workable condition, either owned or controlled by the contractor or the subcontractor at any tier, or obtained from a commercial rental source, and furnished for use under Government contracts.

(i) Allowable ownership and operating costs shall be determined as follows:

(A) Actual cost data shall be used when such data can be determined for both ownership and operations costs for each piece of equipment, or groups of similar serial or series equipment, from the contractor's accounting records. When such costs cannot be so determined, the contracting agency may specify the use of a particular schedule of predetermined rates or any part thereof to determine ownership and operating costs of construction equipment (see subdivisions (d)(2)(i)(B) and (C) of this section). However, costs otherwise unallowable under this part shall not become allowable through the use of any schedule (see 31.109(c)). For example, schedules need to be adjusted for Government contract costing purposes if they are based on replacement cost, include unallowable interest costs, or use improper cost of money rates or computations. Contracting officers should review the computations and factors included within the specified schedule and ensure that unallowable or unacceptably computed factors are not allowed in cost submissions.

(B) Predetermined schedules of construction equipment use rates (*e.g.*, the Construction Equipment Ownership and Operating Expense Schedule, published by the U.S. Army Corps of Engineers, industry sponsored construction equipment cost guides, or commercially published schedules of construction equipment use cost) provide average ownership and operating rates for construction equipment. The allowance for operating costs may include costs

for such items as fuel, filters, oil, and grease; servicing, repairs, and maintenance; and tire wear and repair. Costs of labor, mobilization, demobilization, overhead, and profit are generally not reflected in schedules, and separate consideration may be necessary.

(C) When a schedule of predetermined use rates for construction equipment is used to determine direct costs, all costs of equipment that are included in the cost allowances provided by the schedule shall be identified and eliminated from the contractor's other direct and indirect costs charged to the contract. If the contractor's accounting system provides for site or home office overhead allocations, all costs which are included in the equipment allowances may need to be included in any cost input base before computing the contractor's overhead rate. In periods of suspension of work pursuant to a contract clause, the allowance for equipment ownership shall not exceed an amount for standby cost as determined by the schedule or contract provision.

(ii) Reasonable costs of renting construction equipment are allowable (but see paragraph (C) of this subsection).

(A) Costs, such as maintenance and minor or running repairs incident to operating such rented equipment, that are not included in the rental rate are allowable.

(B) Costs incident to major repair and overhaul of rental equipment are unallowable.

(C) The allowability of charges for construction equipment rented from any division, subsidiary, or organization under common control, will be determined in accordance with 31.205-36(b)(3).

(3) Costs incurred at the job site incident to performing the work, such as the cost of superintendence, timekeeping and clerical work, engineering, utility costs, supplies, material handling, restoration and cleanup, etc., are allowable as direct or indirect costs, provided the accounting practice used is in accordance with the contractor's established and consistently followed cost accounting practices for all work.

(4) Rental and any other costs, less any applicable credits incurred in acquiring the temporary use of land, structures, and facilities are allowable. Costs, less any applicable credits, incurred in constructing or fabricating structures and facilities of a temporary nature are allowable.

### **31.106 Facilities contracts.**

#### **31.106-1 Applicable cost principles.**

The cost principles and procedures applicable to the evaluation and determination of costs under facilities contracts (as defined in 45.301), and subcontracts thereunder, will be governed by the type of entity to which a facilities contract is awarded. Except as otherwise provided in 31.106-2 of this section, Subpart 31.2 applies to facilities contracts awarded to commercial organizations; Subpart 31.3 applies to facili-

ties contracts awarded to educational institutions; and 31.105 applies to facilities contracts awarded to construction contractors. Whichever cost principles are appropriate will be used in the pricing of facilities contracts and contract modifications if cost analysis is performed as required by 15.404-1(c). In addition, the contracting officer shall incorporate the cost principles and procedures appropriate in the circumstances (*e.g.*, Subpart 31.2; Subpart 31.3; or 31.105) by reference in facilities contracts as the basis for—

(a) Determining reimbursable costs under facilities contracts, including cost-reimbursement subcontracts thereunder;

(b) Negotiating indirect cost rates; and

(c) Determining costs of terminated contracts when the contractor elects to “voucher out” costs (see Subpart 49.3), and for settlement by determination (see 49.109-7).

### **31.106-2 Exceptions to general rules on allowability and allocability.**

(a) A contractor’s established accounting system and procedures are normally directed to the equitable allocation of costs to the types of products which the contractor produces or services rendered in the course of normal operating activities. The acquisition of, or work on, facilities for the Government normally does not involve the manufacturing processes, plant departmental operations, cost patterns of work, administrative and managerial control, or clerical effort usual to production of the contractor’s normal products or services.

(b) Advance agreements (see 31.109) should be made between the contractor and the contracting officer as to indirect cost items to be applied to the facilities acquisition. A contractor’s normal accounting practice for allocating indirect costs to the acquisition of contractor facilities may range from charging all these costs to this acquisition to not charging any. When necessary to produce an equitable result, the contractor’s usual method of allocating indirect cost shall be varied, and appropriate adjustment shall be made to the pools of indirect cost and the bases of their distribution.

(c) The purchase of completed facilities (or services in connection with the facilities) from outside sources does not involve the contractor’s direct labor or indirect plant maintenance personnel. Accordingly, indirect manufacturing and plant overhead costs, which are primarily incurred or generated by reason of direct labor or maintenance labor operations, are not allocable to the acquisition of such facilities.

(d) Contracts providing for the installation of new facilities or the rehabilitation of existing facilities may involve the use of the contractor’s plant maintenance labor, as distinguished from direct labor engaged in the production of the company’s normal products. In such instances, only those types of indirect manufacturing and plant operating costs

that are related to or incurred by reason of the expenditures of the classes of labor used for the performance of the facilities work may be allocated to the facilities contract. Thus, a facilities contract which involves the use of plant maintenance labor only would not be subject to an allocation of such cost items as direct productive labor supervision, depreciation, and maintenance expense applicable to productive machinery and equipment, or raw material and finished goods storage costs.

(e) Where a facilities contract calls for the construction, production, or rehabilitation of equipment or other items that are involved in the regular course of the contractor’s business by the use of the contractor’s direct labor and manufacturing processes, the indirect costs normally allocated to all that work may be allocated to the facilities contract.

### **31.106-3 Contractor’s commercial items.**

If facilities constituting the contractor’s usual commercial items (or only minor modifications thereof) are acquired by the Government under the contract, the Government shall not pay any amount in excess of the contractor’s most favored customer price or the price of other suppliers for like quantities of the same or substantially the same items, whichever is lower.

### **31.107 Contracts with State, local, and federally recognized Indian tribal governments.**

(a) Subpart 31.6 provides principles and standards for determining costs applicable to contracts with State, local, and federally recognized Indian tribal governments. They provide the basis for a uniform approach to the problem of determining costs and to promote efficiency and better relationships between State, local, and federally recognized Indian tribal governments, and Federal Government entities. They apply to all programs that involve contracts with State, local, and federally recognized Indian tribal governments, except contracts with—

(1) Publicly financed educational institutions subject to Subpart 31.3; or

(2) Publicly owned hospitals and other providers of medical care subject to requirements promulgated by the sponsoring Government agencies.

(b) The Office of Management and Budget will approve any other exceptions in particular cases when adequate justification is presented.

### **31.108 Contracts with nonprofit organizations.**

Subpart 31.7 provides principles and standards for determining costs applicable to contracts with nonprofit organizations other than educational institutions, State and local governments, and those nonprofit organizations exempted under OMB Circular No. A-122.

**31.109 Advance agreements.**

(a) The extent of allowability of the costs covered in this part applies broadly to many accounting systems in varying contract situations. Thus, the reasonableness, the allocability and the allowability under the specific cost principles at Subparts 31.2, 31.3, 31.6, and 31.7 of certain costs may be difficult to determine. To avoid possible subsequent disallowance or dispute based on unreasonableness, unallocability or unallowability under the specific cost principles at Subparts 31.2, 31.3, 31.6, and 31.7, contracting officers and contractors should seek advance agreement on the treatment of special or unusual costs. However, an advance agreement is not an absolute requirement and the absence of an advance agreement on any cost will not, in itself, affect the reasonableness, allocability or the allowability under the specific cost principles at Subparts 31.2, 31.3, 31.6, and 31.7 of that cost.

(b) Advance agreements may be negotiated either before or during a contract but should be negotiated before incurrence of the costs involved. The agreements must be in writing, executed by both contracting parties, and incorporated into applicable current and future contracts. An advance agreement shall contain a statement of its applicability and duration.

(c) The contracting officer is not authorized by this 31.109 to agree to a treatment of costs inconsistent with this part. For example, an advance agreement may not provide that, notwithstanding 31.205-20, interest is allowable.

(d) Advance agreements may be negotiated with a particular contractor for a single contract, a group of contracts, or all the contracts of a contracting office, an agency, or several agencies.

(e) The cognizant administrative contracting officer (ACO), or other contracting officer established in Part 42, shall negotiate advance agreements except that an advance agreement affecting only one contract, or class of contracts from a single contracting office, shall be negotiated by a contracting officer in the contracting office, or an ACO when delegated by the contracting officer. When the negotiation authority is delegated, the ACO shall coordinate the proposed agreement with the contracting officer before executing the advance agreement.

(f) Before negotiating an advance agreement, the Government negotiator shall—

(1) Determine if other contracting offices inside the agency or in other agencies have a significant unliquidated dollar balance in contracts with the same contractor;

(2) Inform any such office or agency of the matters under consideration for negotiation; and

(3) As appropriate, invite the office or agency and the responsible audit agency to participate in prenegotiation discussions and/or in the subsequent negotiations.

(g) Upon completion of the negotiation, the sponsor shall prepare and distribute to other interested agencies and offices, including the audit agency, copies of the executed agreement and a memorandum providing the information specified in 15.406-3, as applicable.

(h) Examples of costs for which advance agreements may be particularly important are—

(1) Compensation for personal services, including but not limited to allowances for off-site pay, incentive pay, location allowances, hardship pay, cost of living differential, and termination of defined benefit pension plans;

(2) Use charges for fully depreciated assets;

(3) Deferred maintenance costs;

(4) Precontract costs;

(5) Independent research and development and bid and proposal costs;

(6) Royalties and other costs for use of patents;

(7) Selling and distribution costs;

(8) Travel and relocation costs, as related to special or mass personnel movements, as related to travel via contractor-owned, -leased, or -chartered aircraft; or as related to maximum per diem rates;

(9) Costs of idle facilities and idle capacity;

(10) Severance pay to employees on support service contracts;

(11) Plant reconversion;

(12) Professional services (*e.g.*, legal, accounting, and engineering);

(13) General and administrative costs (*e.g.*, corporate, division, or branch allocations) attributable to the general management, supervision, and conduct of the contractor's business as a whole. These costs are particularly significant in construction, job-site, architect-engineer, facilities, and Government-owned contractor operated (GOCO) plant contracts (see 31.203(f));

(14) Costs of construction plant and equipment (see 31.105(d));

(15) Costs of public relations and advertising; and

(16) Training and education costs (see 31.205-44(h)).

**31.110 Indirect cost rate certification and penalties on unallowable costs.**

(a) Certain contracts require certification of the indirect cost rates proposed for final payment purposes. See 42.703-2 for administrative procedures regarding the certification provisions and the related contract clause prescription.

(b) If unallowable costs are included in final indirect cost settlement proposals, penalties may be assessed. See 42.709 for administrative procedures regarding the penalty assessment provisions and the related contract clause prescription.

## Subpart 31.2—Contracts with Commercial Organizations

### 31.201 General.

#### 31.201-1 Composition of total cost.

(a) The total cost of a contract is the sum of the direct and indirect costs allocable to the contract, incurred or to be incurred, less any allocable credits, plus any allocable cost of money pursuant to 31.205-10. In ascertaining what constitutes a cost, any generally accepted method of determining or estimating costs that is equitable and is consistently applied may be used, including standard costs properly adjusted for applicable variances. See 31.201-2(b) and (c) for Cost Accounting Standards (CAS) requirements.

(b) While the total cost of a contract includes all costs properly allocable to the contract, the allowable costs to the Government are limited to those allocable costs which are allowable pursuant to Part 31 and applicable agency supplements.

#### 31.201-2 Determining allowability.

(a) The factors to be considered in determining whether a cost is allowable include the following:

- (1) Reasonableness.
- (2) Allocability.
- (3) Standards promulgated by the CAS Board, if applicable; otherwise, generally accepted accounting principles and practices appropriate to the particular circumstances.
- (4) Terms of the contract.
- (5) Any limitations set forth in this subpart.

(b) Certain cost principles in this subpart incorporate the measurement, assignment, and allocability rules of selected CAS and limit the allowability of costs to the amounts determined using the criteria in those selected standards. Only those CAS or portions of standards specifically made applicable by the cost principles in this subpart are mandatory unless the contract is CAS-covered (see Part 30). Business units that are not otherwise subject to these standards under a CAS clause are subject to the selected standards only for the purpose of determining allowability of costs on Government contracts. Including the selected standards in the cost principles does not subject the business unit to any other CAS rules and regulations. The applicability of the CAS rules and regulations is determined by the CAS clause, if any, in the contract and the requirements of the standards themselves.

(c) When contractor accounting practices are inconsistent with this Subpart 31.2, costs resulting from such inconsistent practices shall not be allowed in excess of the amount that would have resulted from using practices consistent with this subpart.

(d) A contractor is responsible for accounting for costs appropriately and for maintaining records, including sup-

porting documentation, adequate to demonstrate that costs claimed have been incurred, are allocable to the contract, and comply with applicable cost principles in this subpart and agency supplements. The contracting officer may disallow all or part of a claimed cost which is inadequately supported.

#### 31.201-3 Determining reasonableness.

(a) A cost is reasonable if, in its nature and amount, it does not exceed that which would be incurred by a prudent person in the conduct of competitive business. Reasonableness of specific costs must be examined with particular care in connection with firms or their separate divisions that may not be subject to effective competitive restraints. No presumption of reasonableness shall be attached to the incurrance of costs by a contractor. If an initial review of the facts results in a challenge of a specific cost by the contracting officer or the contracting officer's representative, the burden of proof shall be upon the contractor to establish that such cost is reasonable.

(b) What is reasonable depends upon a variety of considerations and circumstances, including—

- (1) Whether it is the type of cost generally recognized as ordinary and necessary for the conduct of the contractor's business or the contract performance;
- (2) Generally accepted sound business practices, arm's-length bargaining, and Federal and State laws and regulations;
- (3) The contractor's responsibilities to the Government, other customers, the owners of the business, employees, and the public at large; and
- (4) Any significant deviations from the contractor's established practices.

#### 31.201-4 Determining allocability.

A cost is allocable if it is assignable or chargeable to one or more cost objectives on the basis of relative benefits received or other equitable relationship. Subject to the foregoing, a cost is allocable to a Government contract if it—

- (a) Is incurred specifically for the contract;
- (b) Benefits both the contract and other work, and can be distributed to them in reasonable proportion to the benefits received; or
- (c) Is necessary to the overall operation of the business, although a direct relationship to any particular cost objective cannot be shown.

#### 31.201-5 Credits.

The applicable portion of any income, rebate, allowance, or other credit relating to any allowable cost and received by or accruing to the contractor shall be credited to the Government either as a cost reduction or by cash refund. See 31.205-6(j)(4) for rules governing refund or credit to the

Government associated with pension adjustments and asset reversions.

### **31.201-6 Accounting for unallowable costs.**

(a) Costs that are expressly unallowable or mutually agreed to be unallowable, including mutually agreed to be unallowable directly associated costs, shall be identified and excluded from any billing, claim, or proposal applicable to a Government contract. A directly associated cost is any cost which is generated solely as a result of incurring another cost, and which would not have been incurred had the other cost not been incurred. When an unallowable cost is incurred, its directly associated costs are also unallowable.

(b) Costs which specifically become designated as unallowable or as unallowable directly associated costs of unallowable costs as a result of a written decision furnished by a contracting officer shall be identified if included in or used in computing any billing, claim, or proposal applicable to a Government contract. This identification requirement applies also to any costs incurred for the same purpose under like circumstances as the costs specifically identified as unallowable under either this paragraph or paragraph (a) of this subsection.

(c) The practices for accounting for and presentation of unallowable costs will be those as described in 48 CFR 9904.405, Accounting for Unallowable Costs.

(d) If a directly associated cost is included in a cost pool which is allocated over a base that includes the unallowable cost with which it is associated, the directly associated cost shall remain in the cost pool. Since the unallowable costs will attract their allocable share of costs from the cost pool, no further action is required to assure disallowance of the directly associated costs. In all other cases, the directly associated costs, if material in amount, must be purged from the cost pool as unallowable costs.

(e)(1) In determining the materiality of a directly associated cost, consideration should be given to the significance of—

- (i) The actual dollar amount,
- (ii) The cumulative effect of all directly associated costs in a cost pool, or
- (iii) The ultimate effect on the cost of Government contracts.

(2) Salary expenses of employees who participate in activities that generate unallowable costs shall be treated as directly associated costs to the extent of the time spent on the proscribed activity, provided the costs are material in accordance with paragraph (e)(1) of this subsection (except when such salary expenses are, themselves, unallowable). The time spent in proscribed activities should be compared to total time spent on company activities to determine if the costs are material. Time spent by employees outside the normal working hours should not be considered except when it

is evident that an employee engages so frequently in company activities during periods outside normal working hours as to indicate that such activities are a part of the employee's regular duties.

(3) When a selected item of cost under 31.205 provides that directly associated costs be unallowable, it is intended that such directly associated costs be unallowable only if determined to be material in amount in accordance with the criteria provided in paragraphs (e)(1) and (e)(2) of this section, except in those situations where allowance of any of the directly associated costs involved would be considered to be contrary to public policy.

### **31.201-7 Construction and architect-engineer contracts.**

Specific principles and procedures for evaluating and determining costs in connection with contracts and subcontracts for construction, and architect-engineer contracts related to construction projects, are in 31.105. The applicability of these principles and procedures is set forth in 31.000 and 31.100.

### **31.202 Direct costs.**

(a) A direct cost is any cost that can be identified specifically with a particular final cost objective. No final cost objective shall have allocated to it as a direct cost any cost, if other costs incurred for the same purpose in like circumstances have been included in any indirect cost pool to be allocated to that or any other final cost objective. Costs identified specifically with the contract are direct costs of the contract and are to be charged directly to the contract. All costs specifically identified with other final cost objectives of the contractor are direct costs of those cost objectives and are not to be charged to the contract directly or indirectly.

(b) For reasons of practicality, any direct cost of minor dollar amount may be treated as an indirect cost if the accounting treatment—

- (1) Is consistently applied to all final cost objectives; and
- (2) Produces substantially the same results as treating the cost as a direct cost.

### **31.203 Indirect costs.**

(a) An indirect cost is any cost not directly identified with a single, final cost objective, but identified with two or more final cost objectives or an intermediate cost objective. It is not subject to treatment as a direct cost. After direct costs have been determined and charged directly to the contract or other work, indirect costs are those remaining to be allocated to the several cost objectives. An indirect cost shall not be allocated to a final cost objective if other costs incurred for the same purpose in like circumstances have been included as a direct cost of that or any other final cost objective.

(b) Indirect costs shall be accumulated by logical cost groupings with due consideration of the reasons for incurring such costs. Each grouping should be determined so as to permit distribution of the grouping on the basis of the benefits accruing to the several cost objectives. Commonly, manufacturing overhead, selling expenses, and general and administrative (G&A) expenses are separately grouped. Similarly, the particular case may require subdivision of these groupings, *e.g.*, building occupancy costs might be separable from those of personnel administration within the manufacturing overhead group. This necessitates selecting a distribution base common to all cost objectives to which the grouping is to be allocated. The base should be selected so as to permit allocation of the grouping on the basis of the benefits accruing to the several cost objectives. When substantially the same results can be achieved through less precise methods, the number and composition of cost groupings should be governed by practical considerations and should not unduly complicate the allocation.

(c) Once an appropriate base for distributing indirect costs has been accepted, it shall not be fragmented by removing individual elements. All items properly includable in an indirect cost base should bear a pro rata share of indirect costs irrespective of their acceptance as Government contract costs. For example, when a cost input base is used for the distribution of G&A costs, all items that would properly be part of the cost input base, whether allowable or unallowable, shall be included in the base and bear their pro rata share of G&A costs.

(d) The contractor's method of allocating indirect costs shall be in accordance with standards promulgated by the CAS Board, if applicable to the contract; otherwise, the method shall be in accordance with generally accepted accounting principles which are consistently applied. The method may require examination when—

(1) Substantial differences occur between the cost patterns of work under the contract and the contractor's other work;

(2) Significant changes occur in the nature of the business, the extent of subcontracting, fixed-asset improvement programs, inventories, the volume of sales and production, manufacturing processes, the contractor's products, or other relevant circumstances; or

(3) Indirect cost groupings developed for a contractor's primary location are applied to offsite locations. Separate cost groupings for costs allocable to offsite locations may be necessary to permit equitable distribution of costs on the basis of the benefits accruing to the several cost objectives.

(e) A base period for allocating indirect costs is the cost accounting period during which such costs are incurred and accumulated for distribution to work performed in that period. The criteria and guidance in 30.406 for selecting the

cost accounting periods to be used in allocating indirect costs are incorporated herein for application to contracts subject to full CAS coverage. For contracts subject to modified CAS coverage and for non-CAS-covered contracts, the base period for allocating indirect costs will normally be the contractor's fiscal year. But a shorter period may be appropriate (1) for contracts in which performance involves only a minor portion of the fiscal year, or (2) when it is general practice in the industry to use a shorter period. When a contract is performed over an extended period, as many base periods shall be used as are required to represent the period of contract performance.

(f) Special care should be exercised in applying the principles of paragraphs (b), (c), and (d) of this section when Government-owned contractor-operated (GOCO) plants are involved. The distribution of corporate, division, or branch office G&A expenses to such plants operating with little or no dependence on corporate administrative activities may require more precise cost groupings, detailed accounts screening, and carefully developed distribution bases.

#### **31.204 Application of principles and procedures.**

(a) Costs shall be allowed to the extent they are reasonable, allocable, and determined to be allowable under 31.201, 31.202, 31.203, and 31.205. These criteria apply to all of the selected items that follow, even if particular guidance is provided for certain items for emphasis or clarity.

(b) Costs incurred as reimbursements or payments to a subcontractor under a cost-reimbursement, fixed-price incentive, or price redeterminable type subcontract of any tier above the first firm-fixed-price subcontract or fixed-price subcontract with economic price adjustment provisions are allowable to the extent that allowance is consistent with the appropriate subpart of this Part 31 applicable to the subcontract involved. Costs incurred as payments under firm-fixed-price subcontracts or fixed-price subcontracts with economic price adjustment provisions or modifications thereto, when cost analysis was performed under 15.404-1(c), shall be allowable only to the extent that the price was negotiated in accordance with 31.102.

(c) Section 31.205 does not cover every element of cost. Failure to include any item of cost does not imply that it is either allowable or unallowable. The determination of allowability shall be based on the principles and standards in this subpart and the treatment of similar or related selected items. When more than one subsection in 31.205 is relevant to a contractor cost, the cost shall be apportioned among the applicable subsections, and the determination of allowability of each portion shall be based on the guidance contained in the applicable subsection. When a cost, to which more than one subsection in 31.205 is relevant, cannot be apportioned, the determination of allowability shall be based on the guidance contained in the subsection that most specifically deals

with, or best captures the essential nature of, the cost at issue.

### 31.205 Selected costs.

#### 31.205-1 Public relations and advertising costs.

(a) "Public relations" means all functions and activities dedicated to—

(1) Maintaining, protecting, and enhancing the image of a concern or its products; or

(2) Maintaining or promoting reciprocal understanding and favorable relations with the public at large, or any segment of the public. The term public relations includes activities associated with areas such as advertising, customer relations, etc.

(b) "Advertising" means the use of media to promote the sale of products or services and to accomplish the activities referred to in paragraph (d) of this subsection, regardless of the medium employed, when the advertiser has control over the form and content of what will appear, the media in which it will appear, and when it will appear. Advertising media include but are not limited to conventions, exhibits, free goods, samples, magazines, newspapers, trade papers, direct mail, dealer cards, window displays, outdoor advertising, radio, and television.

(c) Public relations and advertising costs include the costs of media time and space, purchased services performed by outside organizations, as well as the applicable portion of salaries, travel, and fringe benefits of employees engaged in the functions and activities identified in paragraphs (a) and (b) of this subsection.

(d) The only allowable advertising costs are those that are—

(1) Specifically required by contract, or that arise from requirements of Government contracts, and that are exclusively for—

(i) Acquiring scarce items for contract performance; or

(ii) Disposing of scrap or surplus materials acquired for contract performance;

(2) Costs of activities to promote sales of products normally sold to the U.S. Government, including trade shows, which contain a significant effort to promote exports from the United States. Such costs are allowable, notwithstanding paragraphs (f)(1), (f)(3), (f)(4)(ii), and (f)(5) of this subsection. However, such costs do not include the costs of memorabilia (*e.g.*, models, gifts, and souvenirs), alcoholic beverages, entertainment, and physical facilities that are used primarily for entertainment rather than product promotion; or

(3) Allowable in accordance with 31.205-34.

(e) Allowable public relations costs include the following:

(1) Costs specifically required by contract.

(2) Costs of—

(i) Responding to inquiries on company policies and activities;

(ii) Communicating with the public, press, stockholders, creditors, and customers; and

(iii) Conducting general liaison with news media and Government public relations officers, to the extent that such activities are limited to communication and liaison necessary to keep the public informed on matters of public concern such as notice of contract awards, plant closings or openings, employee layoffs or rehires, financial information, etc.

(3) Costs of participation in community service activities (*e.g.*, blood bank drives, charity drives, savings bond drives, disaster assistance, etc.).

(4) Costs of plant tours and open houses (but see paragraph (f)(5) of this subsection).

(5) Costs of keel laying, ship launching, commissioning, and roll-out ceremonies, to the extent specifically provided for by contract.

(f) Unallowable public relations and advertising costs include the following:

(1) All public relations and advertising costs, other than those specified in paragraphs (d) and (e) of this subsection, whose primary purpose is to promote the sale of products or services by stimulating interest in a product or product line (except for those costs made allowable under 31.205-38(c)), or by disseminating messages calling favorable attention to the contractor for purposes of enhancing the company image to sell the company's products or services.

(2) All costs of trade shows and other special events which do not contain a significant effort to promote the export sales of products normally sold to the U.S. Government.

(3) Costs of sponsoring meetings, conventions, symposia, seminars, and other special events when the principal purpose of the event is other than dissemination of technical information or stimulation of production.

(4) Costs of ceremonies such as—

(i) Corporate celebrations and

(ii) New product announcements.

(5) Costs of promotional material, motion pictures, videotapes, brochures, handouts, magazines, and other media that are designed to call favorable attention to the contractor and its activities.

(6) Costs of souvenirs, models, imprinted clothing, buttons, and other mementos provided to customers or the public.

(7) Costs of memberships in civic and community organizations.

**31.205-2 [Reserved]****31.205-3 Bad debts.**

Bad debts, including actual or estimated losses arising from uncollectible accounts receivable due from customers and other claims, and any directly associated costs such as collection costs, and legal costs are unallowable.

**31.205-4 Bonding costs.**

(a) Bonding costs arise when the Government requires assurance against financial loss to itself or others by reason of the act or default of the contractor. They arise also in instances where the contractor requires similar assurance. Included are such bonds as bid, performance, payment, advance payment, infringement, and fidelity bonds.

(b) Costs of bonding required pursuant to the terms of the contract are allowable.

(c) Costs of bonding required by the contractor in the general conduct of its business are allowable to the extent that such bonding is in accordance with sound business practice and the rates and premiums are reasonable under the circumstances.

**31.205-5 [Reserved]****31.205-6 Compensation for personal services.**

(a) *General.* Compensation for personal services includes all remuneration paid currently or accrued, in whatever form and whether paid immediately or deferred, for services rendered by employees to the contractor during the period of contract performance (except as otherwise provided for in other paragraphs of this subsection). It includes, but is not limited to, salaries; wages; directors' and executive committee members' fees; bonuses (including stock bonuses); incentive awards; employee stock options, and stock appreciation rights; employee stock ownership plans; employee insurance; fringe benefits; contributions to pension, other postretirement benefits, annuity, and employee incentive compensation plans; and allowances for off-site pay, incentive pay, location allowances, hardship pay, severance pay, and cost of living differential. Compensation for personal services is allowable subject to the following general criteria and additional requirements contained in other parts of this cost principle:

(1) Compensation for personal services must be for work performed by the employee in the current year and must not represent a retroactive adjustment of prior years' salaries or wages (but see 31.205-6(g), (h), (j), (k), (m), and (o) of this subsection).

(2) The compensation in total must be reasonable for the work performed; however, specific restrictions on individual compensation elements must be observed where they are prescribed.

(3) The compensation must be based upon and conform to the terms and conditions of the contractor's established compensation plan or practice followed so consistently as to imply, in effect, an agreement to make the payment.

(4) No presumption of allowability will exist where the contractor introduces major revisions of existing compensation plans or new plans and the contractor—

(i) Has not notified the cognizant ACO of the changes either before their implementation or within a reasonable period after their implementation, and

(ii) Has not provided the Government, either before implementation or within a reasonable period after it, an opportunity to review the allowability of the changes.

(5) Costs that are unallowable under other paragraphs of this Subpart 31.2 shall not be allowable under this subsection 31.205-6 solely on the basis that they constitute compensation for personal services.

(b) *Reasonableness.* The compensation for personal services paid or accrued to each employee must be reasonable for the work performed. Compensation will be considered reasonable if each of the allowable elements making up the employee's compensation package is reasonable. This paragraph addresses the reasonableness of compensation, except when the compensation is set by provisions of a labor-management agreement under terms of the Federal Labor Relations Act or similar state statutes. The tests for reasonableness of labor-management agreements are set forth in paragraph (c) of this subsection. In addition to the provisions of 31.201-3, in testing the reasonableness of individual elements for particular employees or job classes of employees, consideration should be given to factors determined to be relevant by the contracting officer.

(1) Among others, factors which may be relevant include general conformity with the compensation practices of other firms of the same size, the compensation practices of other firms in the same industry, the compensation practices of firms in the same geographic area, the compensation practices of firms engaged in predominantly non-Government work, and the cost of comparable services obtainable from outside sources. The appropriate factors for evaluating the reasonableness of compensation depend on the degree to which those factors are representative of the labor market for the job being evaluated. The relative significance of factors will vary according to circumstances. In administering this principle, it is recognized that not every compensation case need be subjected in detail to the tests described in this cost principle. The tests need be applied only when a general review reveals amounts or types of compensation that appear unreasonable or unjustified. Based on an initial review of the facts, contracting officers or their representatives may challenge the reasonableness of any individual element or the sum of the individual elements of compensation paid or

accrued to particular employees or job classes of employees. In such cases, there is no presumption of reasonableness and, upon challenge, the contractor must demonstrate the reasonableness of the compensation item in question. In doing so, the contractor may introduce, and the contracting officer will consider, not only any circumstances surrounding the compensation item challenged, but also the magnitude of other compensation elements which may be lower than would be considered reasonable in themselves. However, the contractor's right to introduce offsetting compensation elements into consideration is subject to the following limitations:

(i) Offsets will be considered only between the allowable elements of an employee's (or a job class of employees') compensation package or between the compensation packages of employees in jobs within the same job grade or level.

(ii) Offsets will be considered only between the allowable portion of the following compensation elements of employees or job classes of employees:

- (A) Wages and salaries.
- (B) Incentive bonuses.
- (C) Deferred compensation.
- (D) Pension and savings plan benefits.
- (E) Health insurance benefits.
- (F) Life insurance benefits.
- (G) Compensated personal absence benefits.

However, any of the above elements or portions thereof, whose amount is not measurable, shall not be introduced or considered as an offset item.

(iii) In considering offsets, the magnitude of the compensation elements in question must be taken into account. In determining the magnitude of compensation elements, the timing of receipt by the employee must be considered.

(2) Compensation costs under certain conditions give rise to the need for special consideration. Among such conditions are the following:

(i) Compensation to (A) owners of closely held corporations, partners, sole proprietors, or members of their immediate families, or (B) persons who are contractually committed to acquire a substantial financial interest in the contractor's enterprise. Determination should be made that salaries are reasonable for the personal services rendered rather than being a distribution of profits. Compensation in lieu of salary for services rendered by partners and sole proprietors will be allowed to the extent that it is reasonable and does not constitute a distribution of profits. For closely held corporations, compensation costs covered by this subdivision shall not be recognized in amounts exceeding those costs that are deductible as compensation under the Internal Revenue Code and regulations under it.

(ii) Any change in a contractor's compensation policy that results in a substantial increase in the contractor's level of compensation, particularly when it was concurrent with an increase in the ratio of Government contracts to other business, or any change in the treatment of allowability of specific types of compensation due to changes in Government policy. Contracting officers or their representatives should normally challenge increased costs where major revisions of existing compensation plans or new plans are introduced by the contractor, and the contractor—

(A) Has not notified the cognizant ACO of the changes either before their implementation or within a reasonable period after their implementation; and

(B) Has not provided the Government, either before implementation or within a reasonable period after it, an opportunity to review the reasonableness of the changes.

(iii) The contractor's business is such that its compensation levels are not subject to the restraints that normally occur in the conduct of competitive business.

(iv) The contractor incurs costs for compensation in excess of the amounts which are deductible under the Internal Revenue Code and regulations issued under it.

(c) *Labor-management agreements.* If costs of compensation established under "arm's length" negotiated labor-management agreements are otherwise allowable, the costs are reasonable if, as applied to work in performing Government contracts, they are not determined to be unwarranted by the character and circumstances of the work or discriminatory against the Government. The application of the provisions of a labor-management agreement designed to apply to a given set of circumstances and conditions of employment (*e.g.*, work involving extremely hazardous activities or work not requiring recurrent use of overtime) is unwarranted when applied to a Government contract involving significantly different circumstances and conditions of employment (*e.g.*, work involving less hazardous activities or work continually requiring use of overtime). It is discriminatory against the Government if it results in employee compensation (in whatever form or name) in excess of that being paid for similar non-Government work under comparable circumstances. Disallowance of costs will not be made under this paragraph (c) unless—

(1) The contractor has been permitted an opportunity to justify the costs; and

(2) Due consideration has been given to whether unusual conditions pertain to Government contract work, imposing burdens, hardships, or hazards on the contractor's employees, for which compensation that might otherwise appear unreasonable is required to attract and hold necessary personnel.

(d) *Form of payment.* (1) Compensation for personal services includes compensation paid or to be paid in the future to employees in the form of cash, corporate securities, such as stocks, bonds, and other financial instruments (see paragraph (d)(2) of this subsection regarding valuation), or other assets, products, or services.

(2) When compensation is paid with securities of the contractor or of an affiliate, the following additional restrictions apply:

(i) Valuation placed on the securities shall be the fair market value on the measurement date (*i.e.*, the first date the number of shares awarded is known) determined upon the most objective basis available.

(ii) Accruals for the cost of securities before issuing the securities to the employees shall be subject to adjustment according to the possibilities that the employees will not receive the securities and that their interest in the accruals will be forfeited.

(e) *Domestic and foreign differential pay.* (1) When personal services are performed in a foreign country, compensation may also include a differential that may properly consider all expenses associated with foreign employment such as housing, cost of living adjustments, transportation, bonuses, additional Federal, State, local or foreign income taxes resulting from foreign assignment, and other related expenses.

(2) Differential allowances for additional Federal, State, or local income taxes resulting from domestic assignments are unallowable.

(f) *Bonuses and incentive compensation.* (1) Incentive compensation for management employees, cash bonuses, suggestion awards, safety awards, and incentive compensation based on production, cost reduction, or efficient performance are allowable provided the awards are paid or accrued under an agreement entered into in good faith between the contractor and the employees before the services are rendered or pursuant to an established plan or policy followed by the contractor so consistently as to imply, in effect, an agreement to make such payment and the basis for the award is supported.

(2) When the bonus and incentive compensation payments are deferred, the costs are subject to the requirements of paragraph (f)(1) of this subsection and of paragraph (k) of this subsection.

(g) *Severance pay.* (1) Severance pay, also commonly referred to as dismissal wages, is a payment in addition to regular salaries and wages by contractors to workers whose employment is being involuntarily terminated. Payments for early retirement incentive plans are covered in paragraph (j)(7).

(2) Severance pay to be allowable must meet the general allowability criteria in subdivision (g)(2)(i) of this subsection, and, depending upon whether the severance is normal or abnormal, criteria in subdivision (g)(2)(ii) for normal severance pay or subdivision (g)(2)(iii) for abnormal severance pay also apply. In addition, paragraph (g)(3) of this subsection applies if the severance cost is for foreign nationals employed outside the United States.

(i) Severance pay is allowable only to the extent that, in each case, it is required by (A) law; (B) employer-employee agreement; (C) established policy that constitutes, in effect, an implied agreement on the contractor's part; or (D) circumstances of the particular employment. Payments made in the event of employment with a replacement contractor where continuity of employment with credit for prior length of service is preserved under substantially equal conditions of employment, or continued employment by the contractor at another facility, subsidiary, affiliate, or parent company of the contractor are not severance pay and are unallowable.

(ii) Actual normal turnover severance payments shall be allocated to all work performed in the contractor's plant, or where the contractor provides for accrual of pay for normal severances, that method will be acceptable if the amount of the accrual is reasonable in light of payments actually made for normal severances over a representative past period and if amounts accrued are allocated to all work performed in the contractor's plant.

(iii) Abnormal or mass severance pay is of such a conjectural nature that measurement of costs by means of an accrual will not achieve equity to both parties. Thus, accruals for this purpose are not allowable. However, the Government recognizes its obligation to participate, to the extent of its fair share, in any specific payment. Thus, allowability will be considered on a case-by-case basis.

(3) Notwithstanding the reference to geographical area in 31.205-6(b)(1), under 10 U.S.C. 2324(e)(1)(M) and 41 U.S.C. 256(e)(1)(M), the costs of severance payments to foreign nationals employed under a service contract performed outside the United States are unallowable to the extent that such payments exceed amounts typically paid to employees providing similar services in the same industry in the United States. Further, under 10 U.S.C. 2324(e)(1)(N) and 41 U.S.C. 256(e)(1)(N), all such costs of severance payments which are otherwise allowable are unallowable if the termination of employment of the foreign national is the result of the closing of, or the curtailment of activities at, a United States facility in that country at the request of the government of that country; this does not apply if the closing of a facility or curtailment of activities is made pursuant to a status-of-forces or other country-to-country agreement entered into with the government of that country before November 29, 1989. 10 U.S.C. 2324(e)(3) and 41 U.S.C.

256(e)(2) permit the head of the agency, or designee, to waive these cost allowability limitations under certain circumstances (see 37.113 and the solicitation provision at 52.237-8).

(h) *Backpay.* (1) *Backpay resulting from violations of Federal labor laws or the Civil Rights Act of 1964.* Backpay may result from a negotiated settlement, order, or court decree that resolves a violation of Federal labor laws or the Civil Rights Act of 1964. Such backpay falls into two categories: one requiring the contractor to pay employees additional compensation for work performed for which they were underpaid, and the other resulting from other violations, such as when the employee was improperly discharged, discriminated against, or other circumstances for which the backpay was not additional compensation for work performed. Backpay resulting from underpaid work is compensation for the work performed and is allowable. All other backpay resulting from violation of Federal labor laws or the Civil Rights Act of 1964 is unallowable.

(2) *Other backpay.* Backpay may also result from payments to employees (union and nonunion) for the difference in their past and current wage rates for working without a contract or labor agreement during labor management negotiations. Such backpay is allowable. Backpay to nonunion employees based upon results of union agreement negotiations is allowable only if—

(i) A formal agreement or understanding exists between management and the employees concerning these payments, or

(ii) An established policy or practice exists and is followed by the contractor so consistently as to imply, in effect, an agreement to make such payment.

(i) Compensation based on changes in the prices of corporate securities or corporate security ownership, such as stock options, stock appreciation rights, phantom stock plans, and junior stock conversions.

(1) Any compensation which is calculated, or valued, based on changes in the price of corporate securities is unallowable.

(2) Any compensation represented by dividend payments or which is calculated based on dividend payments is unallowable.

(3) If a contractor pays an employee in lieu of the employee receiving or exercising a right, option, or benefit which would have been unallowable under this paragraph (i), such payments are also unallowable.

(j) *Pension costs.* (1) A pension plan, as defined in 31.001, is a deferred compensation plan. Additional benefits such as permanent and total disability and death payments and survivorship payments to beneficiaries of deceased employees may be treated as pension costs, provided the benefits are an integral part of the pension plan and meet all the criteria pertaining to pension costs.

(2) Pension plans are normally segregated into two types of plans: defined-benefit or defined-contribution pension plans. The cost of all defined-benefit pension plans shall be measured, allocated, and accounted for in compliance with the provisions of 48 CFR 9904.412, Cost accounting standard for composition and measurement of pension cost, and 48 CFR 9904.413, Adjustment and allocation of pension cost. The costs of all defined-contribution pension plans shall be measured, allocated, and accounted for in accordance with the provisions of 48 CFR 9904.412 and 48 CFR 9904.413. Pension costs are allowable subject to the referenced standards and the cost limitations and exclusions set forth in paragraph (j)(2)(i) and in paragraphs (j)(3) through (8) of this subsection.

(i) Except for nonqualified pension plans using the pay-as-you-go cost method, to be allowable in the current year, pension costs must be funded by the time set for filing of the Federal income tax return or any extension thereof. Pension costs assigned to the current year, but not funded by the tax return time, shall not be allowable in any subsequent year. For nonqualified pension plans using the pay-as-you-go cost method, to be allowable in the current year, pension costs must be allocable in accordance with 48 CFR 9904.412-50(d)(3).

(ii) Pension payments must be reasonable in amount and must be paid pursuant to an agreement entered into in good faith between the contractor and employees before the work or services are performed; and the terms and conditions of the established plan. The cost of changes in pension plans that are discriminatory to the Government or are not intended to be applied consistently for all employees under similar circumstances in the future are not allowable.

(iii) Except as provided for early retirement benefits in paragraph (j)(7) of this subsection, one-time-only pension supplements not available to all participants of the basic plan are not allowable as pension costs unless the supplemental benefits represent a separate pension plan and the benefits are payable for life at the option of the employee.

(iv) Increases in payments to previously retired plan participants covering cost-of-living adjustments are allowable if paid in accordance with a policy or practice consistently followed.

(3) *Defined-benefit pension plans.* This paragraph covers pension plans in which the benefits to be paid or the basis for determining such benefits are established in advance and the contributions are intended to provide the stated benefits. The cost limitations and exclusions pertaining to defined-benefit plans are as follows:

(i) (A) Except for nonqualified pension plans, pension costs (see 48 CFR 9904.412-40(a)(1)) assigned to the current accounting period, but not funded during it, shall not be allowable in subsequent years (except that a payment made to a fund by the time set for filing the Federal income

tax return or any extension thereof is considered to have been made during such taxable year). However, any portion of pension cost computed for a cost accounting period, that exceeds the amount required to be funded pursuant to a waiver granted under the provisions of the Employee's Retirement Income Security Act of 1974 (ERISA), will be allowable in those future accounting periods in which the funding of such excess amounts occurs (see 48 CFR 9904.412-50(c)(5)).

(B) For nonqualified pension plans, except those using the pay-as-you-go cost method, allowable costs are limited to the amount allocable in accordance with 48 CFR 9904.412-50(d)(2).

(C) For nonqualified pension plans using the pay-as-you-go cost method, allowable costs are limited to the amounts allocable in accordance with 48 CFR 9904.412-50(d)(3).

(ii) Any amount funded in excess of the pension cost assigned to a cost accounting period is not allowable and shall be accounted for as set forth at 48 CFR 9904.412-50(a)(4), and shall be allowable in the future period to which it is assigned, to the extent it is allocable, reasonable, and not otherwise unallowable.

(iii) Increased pension costs caused by delay in funding beyond 30 days after each quarter of the year to which they are assignable are unallowable. If a composite rate is used for allocating pension costs between the segments of a company and if, because of differences in the timing of the funding by the segments, an inequity exists, allowable pension costs for each segment will be limited to that particular segment's calculation of pension costs as provided for in 48 CFR 9904.413-50(c). Determinations of unallowable costs shall be made in accordance with the actuarial cost method used in calculating pension costs.

(iv) Allowability of the cost of indemnifying the Pension Benefit Guaranty Corporation (PBGC) under ERISA Section 4062 or 4064 arising from terminating an employee deferred compensation plan will be considered on a case-by-case basis, provided that if insurance was required by the PBGC under ERISA Section 4023, it was so obtained and the indemnification payment is not recoverable under the insurance. Consideration under the foregoing circumstances will be primarily for the purpose of appraising the extent to which the indemnification payment is allocable to Government work. If a beneficial or other equitable relationship exists, the Government will participate, despite the requirements of 31.205-19(a)(3) and (b), in the indemnification payment to the extent of its fair share.

(v) Increased pension costs resulting from the withdrawal of assets from a pension fund and transfer to another employee benefit plan fund, or transfer of assets to another account within the same fund, are unallowable except to the extent authorized by an advance agreement. If the with-

drawal of assets from a pension fund is a plan termination under ERISA, the provisions of paragraph (j)(4) of this subsection apply. The advance agreement shall—

(A) State the amount of the Government's equitable share in the gross amount withdrawn or transferred; and

(B) Provide that the Government receive a credit equal to the amount of the Government's equitable share of the gross withdrawal or transfer.

(4) *Pension adjustments and asset reversions.* (i) For segment closings, pension plan terminations, or curtailment of benefits, the adjustment amount shall be the amount measured, assigned, and allocated in accordance with 48 CFR 9904.413-50(c)(12) for contracts and subcontracts that are subject to Cost Accounting Standards (CAS) Board rules and regulations (48 CFR Chapter 99). For contracts and subcontracts that are not subject to CAS, the adjustment amount shall be the amount measured, assigned, and allocated in accordance with 48 CFR 9904.413-50(c)(12), except the numerator of the fraction at 48 CFR 9904.413-50(c)(12)(vi) shall be the sum of the pension plan costs allocated to all non-CAS-covered contracts and subcontracts that are subject to Subpart 31.2 or for which cost or pricing data were submitted.

(ii) For all other situations where assets revert to the contractor, or such assets are constructively received by it for any reason, the contractor shall, at the Government's option, make a refund or give a credit to the Government for its equitable share of the gross amount withdrawn. The Government's equitable share shall reflect the Government's participation in pension costs through those contracts for which cost or pricing data were submitted or that are subject to Subpart 31.2. Excise taxes on pension plan asset reversions or withdrawals under this paragraph (j)(4)(ii) are unallowable in accordance with 31.205-41(b)(6).

(5) *Defined-contribution pension plans.* This paragraph covers those pension plans in which the contributions are established in advance and the level of benefits is determined by the contributions made. It also covers profit sharing, savings plans, and other such plans, provided the plans fall within the definition of a pension plan in paragraph (j)(1) of this subsection.

(i) Allowable pension cost is limited to the net contribution required to be made for a cost accounting period after taking into account dividends and other credits, where applicable. However, any portion of pension cost computed for a cost accounting period that exceeds the amount required to be funded pursuant to a waiver granted under the provisions of ERISA will be allowable in those future accounting periods in which the funding of such excess amounts occurs (see 48 CFR 9904.412-50(c)(5)).

(ii) The provisions of paragraphs (j)(3)(ii) and (iv) of this subsection apply to defined-contribution plans.

(6) *Pension plans using the pay-as-you-go cost method.* The cost of pension plans using the pay-as-you-go cost method shall be measured, allocated, and accounted for in accordance with 48 CFR 9904.412 and 9904.413. Pension costs for a pension plan using the pay-as-you-go cost method shall be allowable to the extent they are allocable, reasonable, and not otherwise unallowable.

(7) *Early retirement incentive plans.* An early retirement incentive plan is a plan under which employees receive a bonus or incentive, over and above the requirement of the basic pension plan, to retire early. These plans normally are not applicable to all participants of the basic plan and do not represent life income settlements, and as such would not qualify as pension costs. However, for contract costing purposes, early retirement incentive payments are allowable subject to the pension cost criteria contained in subdivisions (j)(3)(i) through (iv) provided—

(i) The costs are accounted for and allocated in accordance with the contractor's system of accounting for pension costs;

(ii) The payments are made in accordance with the terms and conditions of the contractor's plan;

(iii) The plan is applied only to active employees. The cost of extending the plan to employees who retired or were terminated before the adoption of the plan is unallowable; and

(iv) The total of the incentive payments to any employee may not exceed the amount of the employee's annual salary for the previous fiscal year before the employee's retirement.

(8) *Employee stock ownership plans (ESOP).* (i) An ESOP is an individual stock bonus plan designed specifically to invest in the stock of the employer corporation. The contractor's contributions to an Employee Stock Ownership Trust (ESOT) may be in the form of cash, stock, or property. Costs of ESOP's are allowable subject to the following conditions:

(A) Contributions by the contractor in any one year may not exceed 15 percent (25 percent when a money purchase plan is included) of salaries and wages of employees participating in the plan in any particular year.

(B) The contribution rate (ratio of contribution to salaries and wages of participating employees) may not exceed the last approved contribution rate except when approved by the contracting officer based upon justification provided by the contractor. When no contribution was made in the previous year for an existing ESOP, or when a new ESOP is first established, and the contractor proposes to make a contribution in the current year, the contribution rate shall be subject to the contracting officer's approval.

(C) When a plan or agreement exists wherein the liability for the contribution can be compelled for a specific

year, the expense associated with that liability is assignable only to that period. Any portion of the contribution not funded by the time set for filing of the Federal income tax return for that year or any extension thereof shall not be allowable in subsequent years.

(D) When a plan or agreement exists wherein the liability for the contribution cannot be compelled, the amount contributed for any year is assignable to that year provided the amount is funded by the time set for filing of the Federal income tax return for that year.

(E) When the contribution is in the form of stock, the value of the stock contribution shall be limited to the fair market value of the stock on the date that title is effectively transferred to the trust. Cash contributions shall be allowable only when the contractor furnishes evidence satisfactory to the contracting officer demonstrating that stock purchases by the ESOT are or will be at a fair market price; *e.g.*, makes arrangements with the trust permitting the contracting officer to examine purchases of stock by the trust to determine that prices paid are at fair market value. When excessive prices are paid, the amount of the excess will be credited to the same indirect cost pools that were charged for the ESOP contributions in the year in which the stock purchase occurs. However, when the trust purchases the stock with borrowed funds which will be repaid over a period of years by cash contributions from the contractor to the trust, the excess price over fair market value shall be credited to the indirect cost pools pro rata over the period of years during which the contractor contributes the cash used by the trust to repay the loan. When the fair market value of unissued stock or stock of a closely held corporation is not readily determinable, the valuation will be made on a case-by-case basis taking into consideration the guidelines for valuation used by the IRS.

(ii) Amounts contributed to an ESOP arising from either—

(A) An additional investment tax credit (see 1975 Tax Reduction Act—TRASOP's); or

(B) A payroll-based tax credit (see Economic Recovery Tax Act of 1981) are unallowable.

(iii) The requirements of subdivision (j)(3)(ii) of this subsection are applicable to Employee Stock Ownership Plans.

(k) *Deferred compensation other than pensions.*

(1) Deferred compensation is an award given by an employer to compensate an employee in a future cost accounting period or periods for services rendered in one or more cost accounting periods before the date of receipt of compensation by the employee. Deferred compensation does not include the amount of year-end accruals for salaries, wages, or bonuses that are paid within a reasonable period of time after the end of a cost accounting period. Subject to

31.205-6(a), deferred awards are allowable when they are based on current or future services. Awards made in periods subsequent to the period when the work being remunerated was performed are not allowable.

(2) The costs of deferred awards shall be measured, allocated, and accounted for in compliance with the provisions of 48 CFR 9904.415, Accounting for the Cost of Deferred Compensation.

(3) Deferred compensation payments to employees under awards made before the effective date of 48 CFR 9904.415 are allowable to the extent they would have been allowable under prior acquisition regulations.

(l) *Compensation incidental to business acquisitions.* The following costs are unallowable: (1) Payments to employees under agreements in which they receive special compensation, in excess of the contractor's normal severance pay practice, if their employment terminates following a change in the management control over, or ownership of, the contractor or a substantial portion of its assets.

(2) Payments to employees under plans introduced in connection with a change (whether actual or prospective) in the management control over, or ownership of, the contractor or a substantial portion of its assets in which those employees receive special compensation, which is contingent upon the employee remaining with the contractor for a specified period of time.

(m) *Fringe benefits.* (1) Fringe benefits are allowances and services provided by the contractor to its employees as compensation in addition to regular wages and salaries. Fringe benefits include, but are not limited to, the cost of vacations, sick leave, holidays, military leave, employee insurance, and supplemental unemployment benefit plans. Except as provided otherwise in Subpart 31.2, the costs of fringe benefits are allowable to the extent that they are reasonable and are required by law, employer-employee agreement, or an established policy of the contractor.

(2) That portion of the cost of company-furnished automobiles that relates to personal use by employees (including transportation to and from work) is unallowable regardless of whether the cost is reported as taxable income to the employees (see 31.205-46(f)).

(n) *Employee rebate and purchase discount plans.* Rebates and purchase discounts, in whatever form, granted to employees on products or services produced by the contractor or affiliates are unallowable.

(o) *Postretirement benefits other than pensions (PRB).*

(1) PRB covers all benefits, other than cash benefits and life insurance benefits paid by pension plans, provided to employees, their beneficiaries, and covered dependents during the period following the employees' retirement. Benefits

encompassed include, but are not limited to, postretirement health care; life insurance provided outside a pension plan; and other welfare benefits such as tuition assistance, day care, legal services, and housing subsidies provided after retirement.

(2) To be allowable, PRB costs must be reasonable and incurred pursuant to law, employer-employee agreement, or an established policy of the contractor. In addition, to be allowable, PRB costs must also be calculated in accordance with paragraphs (o)(2)(i), (ii), or (iii) of this section.

(i) *Cash basis.* Cost recognized as benefits when they are actually provided, must be paid to an insurer, provider, or other recipient for current year benefits or premiums.

(ii) *Terminal funding.* If a contractor elects a terminal-funded plan, it does not accrue PRB costs during the working lives of employees. Instead, it accrues and pays the entire PRB liability to an insurer or trustee in a lump sum upon the termination of employees (or upon conversion to such a terminal-funded plan) to establish and maintain a fund or reserve for the sole purpose of providing PRB to retirees. The lump sum is allowable if amortized over a period of 15 years.

(iii) *Accrual basis.* Accrual costing other than terminal funding must be measured and assigned according to Generally Accepted Accounting Principles and be paid to an insurer or trustee to establish and maintain a fund or reserve for the sole purpose of providing PRB to retirees. The accrual must also be calculated in accordance with generally accepted actuarial principles and practices as promulgated by the Actuarial Standards Board.

(3) To be allowable, costs must be funded by the time set for filing the Federal income tax return or any extension thereof. PRB costs assigned to the current year, but not funded or otherwise liquidated by the tax return time, shall not be allowable in any subsequent year.

(4) Increased PRB costs caused by delay in funding beyond 30 days after each quarter of the year to which they are assignable are unallowable.

(5) Costs of postretirement benefits in subdivision (o)(2)(iii) of this subsection attributable to past service ("transition obligation") as defined in Financial Accounting Standards Board Statement 106, paragraph 110, are allowable subject to the following limitation: The allowable amount of such costs assignable to a contractor fiscal year cannot exceed the amount of such costs which would be assigned to that contractor fiscal year under the delayed recognition methodology described in paragraphs 112 and 113 of Statement 106.

(6) The Government shall receive an equitable share of any amount of previously funded PRB costs which revert or inure to the contractor. Such equitable share shall reflect the Government's previous participation in PRB costs through those contracts for which cost or pricing data were required or which were subject to Subpart 31.2.

(p) *Limitation on allowability of compensation for certain contractor personnel.* (1) Costs incurred after January 1, 1998, for compensation of a senior executive in excess of the benchmark compensation amount determined applicable for the contractor fiscal year by the Administrator, Office of Federal Procurement Policy (OFPP), under Section 39 of the OFPP Act (41 U.S.C. 435) are unallowable (10 U.S.C. 2324(e)(1)(P) and 41 U.S.C. 256(e)(1)(P)). This limitation is the sole statutory limitation on allowable senior executive compensation costs incurred after January 1, 1998, under new or previously existing contracts. This limitation applies whether or not the affected contracts were previously subject to a statutory limitation on such costs. (Note that pursuant to Section 804 of Pub. L. 105-261, the definition of "senior executive" in (p)(2)(ii) has been changed for compensation costs incurred after January 1, 1999.)

(2) As used in this paragraph:

(i) "Compensation" means the total amount of wages, salary, bonuses, deferred compensation (see paragraph (k) of this subsection), and employer contributions to defined contribution pension plans (see paragraphs (j)(5) and (j)(8) of this subsection), for the fiscal year, whether paid, earned, or otherwise accruing, as recorded in the contractor's cost accounting records for the fiscal year.

(ii) "Senior executive" means—

(A) Prior to January 2, 1999—

(1) The Chief Executive Officer (CEO) or any individual acting in a similar capacity at the contractor's headquarters;

(2) The four most highly compensated employees in management positions at the contractor's headquarters, other than the CEO; and

(3) If the contractor has intermediate home offices or segments that report directly to the contractor's headquarters, the five most highly compensated employees in management positions at each such intermediate home office or segment.

(B) Effective January 2, 1999, the five most highly compensated employees in management positions at each home office and each segment of the contractor, whether or not the home office or segment reports directly to the contractor's headquarters.

(iii) "Fiscal year" means the fiscal year established by the contractor for accounting purposes.

(iv) "Contractor's headquarters" means the highest organizational level from which executive compensation costs are allocated to Government contracts.

### 31.205-7 Contingencies.

(a) "Contingency," as used in this subpart, means a possible future event or condition arising from presently known or unknown causes, the outcome of which is indeterminable at the present time.

(b) Costs for contingencies are generally unallowable for historical costing purposes because such costing deals with costs incurred and recorded on the contractor's books. However, in some cases, as for example, terminations, a contingency factor may be recognized when it is applicable to a past period to give recognition to minor unsettled factors in the interest of expediting settlement.

(c) In connection with estimates of future costs, contingencies fall into two categories:

(1) Those that may arise from presently known and existing conditions, the effects of which are foreseeable within reasonable limits of accuracy; *e.g.*, anticipated costs of rejects and defective work. Contingencies of this category are to be included in the estimates of future costs so as to provide the best estimate of performance cost.

(2) Those that may arise from presently known or unknown conditions, the effect of which cannot be measured so precisely as to provide equitable results to the contractor and to the Government; *e.g.*, results of pending litigation. Contingencies of this category are to be excluded from cost estimates under the several items of cost, but should be disclosed separately (including the basis upon which the contingency is computed) to facilitate the negotiation of appropriate contractual coverage. (See, for example, 31.205-6(g), 31.205-19, and 31.205-24.)

### 31.205-8 Contributions or donations.

Contributions or donations, including cash, property and services, regardless of recipient, are unallowable, except as provided in 31.205-1(e)(3).

### 31.205-9 [Reserved]

### 31.205-10 Cost of money.

(a) *Facilities capital cost of money*—(1) *General.*

(i) Facilities capital cost of money (cost of capital committed to facilities) is an imputed cost determined by applying a cost-of-money rate to facilities capital employed in contract performance. A cost-of-money rate is uniformly imputed to all contractors (see subdivision (a)(1)(ii) of this subsection). Capital employed is determined without regard to whether its source is equity or borrowed capital. The resulting cost of money is not a form of interest on borrowings (see 31.205-20).

(ii) 48 CFR 9904.414, Cost of Money as an Element of the Cost of Facilities Capital, establishes criteria for measuring and allocating, as an element of contract cost, the cost of capital committed to facilities. Cost-of-money factors

are developed on Form CASB-CMF, broken down by overhead pool at the business unit, using—

(A) Business-unit facilities capital data,

(B) Overhead allocation base data, and

(C) The cost-of-money rate, which is based on interest rates specified by the Secretary of the Treasury under Public Law 92-41.

(2) *Allowability.* Whether or not the contract is otherwise subject to CAS, facilities capital cost of money is allowable if—

(i) The contractor's capital investment is measured, allocated to contracts, and costed in accordance with 48 CFR 9904.414;

(ii) The contractor maintains adequate records to demonstrate compliance with this standard;

(iii) The estimated facilities capital cost of money is specifically identified or proposed in cost proposals relating to the contract under which this cost is to be claimed; and

(iv) The requirements of 31.205-52, which limit the allowability of facilities capital cost of money, are observed.

(3) *Accounting.* The facilities capital cost of money need not be entered on the contractor's books of account. However, the contractor shall—

(i) Make a memorandum entry of the cost, and

(ii) Maintain, in a manner that permits audit and verification, all relevant schedules, cost data, and other data necessary to support the entry fully.

(4) *Payment.* Facilities capital cost of money that is—

(i) Allowable under paragraph (2) of this subsection; and

(ii) Calculated, allocated, and documented in accordance with this cost principle shall be an "incurred cost" for reimbursement purposes under applicable cost-reimbursement contracts and for progress payment purposes under fixed-price contracts.

(5) The requirements of 31.205-52 shall be observed in determining the allowable cost of money attributable to including asset valuations resulting from business combinations in the facilities capital employed base.

(b) *Cost of money as an element of the cost of capital assets under construction—*(1) *General.* (i) Cost of money as an element of the cost of capital assets under construction is an imputed cost determined by applying a cost-of-money rate to the investment in tangible and intangible capital assets while they are being constructed, fabricated, or developed for a contractor's own use. Capital employed is determined without regard to whether its source is equity or borrowed capital. The resulting cost of money is not a form of interest on borrowing (see 31.205-20).

(ii) 48 CFR 9904.417, Cost of Money as an Element of the Cost of Capital Assets Under Construction, establishes criteria for measuring and allocating, as an ele-

ment of contract cost, the cost of capital committed to capital assets under construction, fabrication, or development.

(2) *Allowability.* (i) Whether or not the contract is otherwise subject to CAS, and except as specified in subdivision (ii) of this section, the cost of money for capital assets under construction, fabrication, or development is allowable if—

(A) The cost of money is calculated, allocated to contracts, and costed in accordance with 48 CFR 9904.417;

(B) The contractor maintains adequate records to demonstrate compliance with this standard;

(C) The cost of money for tangible capital assets is included in the capitalized cost that provides the basis for allowable depreciation costs, or, in the case of intangible capital assets, the cost of money is included in the cost of those assets for which amortization costs are allowable; and

(D) The requirements of 31.205-52, which limit the allowability of cost of money for capital assets under construction, fabrication, or development, are observed.

(ii) Actual interest cost in lieu of the calculated imputed cost of money for capital assets under construction, fabrication, or development is unallowable.

(3) *Accounting.* The cost of money for capital assets under construction need not be entered on the contractor's books of account. However, the contractor shall (i) make a memorandum entry of the cost and (ii) maintain, in a manner that permits audit and verification, all relevant schedules, cost data, and other data necessary to support the entry fully.

(4) *Payment.* The cost of money for capital assets under construction that is allowable under paragraph (2) of this subsection of this cost principle shall be an "incurred cost" for reimbursement purposes under applicable cost-reimbursement contracts and for progress payment purposes under fixed-price contracts.

### 31.205-11 Depreciation.

(a) Depreciation is a charge to current operations which distributes the cost of a tangible capital asset, less estimated residual value, over the estimated useful life of the asset in a systematic and logical manner. It does not involve a process of valuation. Useful life refers to the prospective period of economic usefulness in a particular contractor's operations as distinguished from physical life; it is evidenced by the actual or estimated retirement and replacement practice of the contractor.

(b) Contractors having contracts subject to 48 CFR 9904.409, Depreciation of Tangible Capital Assets, must adhere to the requirement of that standard for all fully CAS-covered contracts and may elect to adopt the standard for all other contracts. All requirements of 48 CFR 9904.409 are applicable if the election is made, and its requirements supersede any conflicting requirements of this cost principle. Once electing to adopt 48 CFR 9904.409 for all contracts,

contractors must continue to follow it until notification of final acceptance of all deliverable items on all open negotiated Government contracts. Paragraphs (c) through (e) of this subsection apply to contracts to which 48 CFR 9904.409 is not applied.

(c) Normal depreciation on a contractor's plant, equipment, and other capital facilities is an allowable contract cost, if the contractor is able to demonstrate that it is reasonable and allocable (but see paragraph (i) of this section).

(d) Depreciation shall be considered reasonable if the contractor follows policies and procedures that are—

(1) Consistent with those followed in the same cost center for business other than Government;

(2) Reflected in the contractor's books of accounts and financial statements; and

(3) Both used and acceptable for Federal income tax purposes.

(e) When the depreciation reflected on a contractor's books of accounts and financial statements differs from that used and acceptable for Federal income tax purposes, reimbursement shall be based on the asset cost amortized over the estimated useful life of the property using depreciation methods (straight line, sum of the years' digits, etc.) acceptable for income tax purposes. Allowable depreciation shall not exceed the amounts used for book and statement purposes and shall be determined in a manner consistent with the depreciation policies and procedures followed in the same cost center on non-Government business (but see paragraph (o) of this subsection).

(f) Depreciation for reimbursement purposes in the case of tax-exempt organizations shall be determined on the basis described in paragraph (e) of this section.

(g) Special considerations are required for assets acquired before the effective date of this cost principle if, on that date, the undepreciated balance of these assets resulting from depreciation policies and procedures used previously for Government contracts and subcontracts is different from the undepreciated balance on the books and financial statements. The undepreciated balance for contract cost purposes shall be depreciated over the remaining life using the methods and lives followed for book purposes. The aggregate depreciation of any asset allowable after the effective date of this 31.205-11 shall not exceed the cost basis of the asset less any depreciation allowed or allowable under prior acquisition regulations.

(h) Depreciation should usually be allocated to the contract and other work as an indirect cost. The amount of depreciation allowed in any accounting period may, consistent with the basic objectives in paragraph (a) of this subsection, vary with volume of production or use of multishift operations.

(i) In the case of emergency facilities covered by certificates of necessity, a contractor may elect to use normal

depreciation without requesting a determination of "true depreciation," or may elect to use either normal or "true depreciation" after a determination of "true depreciation" has been made by an Emergency Facilities Depreciation Board (EFDB). The method elected must be followed consistently throughout the life of the emergency facility. When an election is made to use normal depreciation, the criteria in paragraphs (c), (d), (e), and (f) of this section shall apply for both the emergency period and the post-emergency period. When an election is made to use "true depreciation", the amount allowable as depreciation—

(1) With respect to the emergency period (five years), shall be computed in accordance with the determination of the EFDB and allocated rateably over the full five year emergency period; *provided* no other allowance is made which would duplicate the factors, such as extraordinary obsolescence, covered by the Board's determination; and

(2) After the end of the emergency period, shall be computed by distributing the remaining undepreciated portion of the cost of the emergency facility over the balance of its useful life provided the remaining undepreciated portion of such cost shall not include any amount of unrecovered "true depreciation."

(j) No depreciation, rental, or use charge shall be allowed on property acquired at no cost from the Government by the contractor or by any division, subsidiary, or affiliate of the contractor under common control.

(k) The depreciation on any item which meets the criteria for allowance at a "price" under 31.205-26(e) may be based on that price, provided the same policies and procedures are used for costing all business of the using division, subsidiary, or organization under common control.

(l) No depreciation or rental shall be allowed on property fully depreciated by the contractor or by any division, subsidiary, or affiliate of the contractor under common control. However, a reasonable charge for using fully depreciated property may be agreed upon and allowed (but see 31.109(h)(2)). In determining the charge, consideration shall be given to cost, total estimated useful life at the time of negotiations, effect of any increased maintenance charges or decreased efficiency due to age, and the amount of depreciation previously charged to Government contracts or subcontracts.

(m) 48 CFR 9904.404, Capitalization of Tangible Assets, applies to assets acquired by a "capital lease" as defined in Statement of Financial Accounting Standard No. 13 (FAS-13), Accounting for Leases, issued by the Financial Accounting Standards Board (FASB). Compliance with 48 CFR 9904.404 and FAS-13 requires that such leased assets (capital leases) be treated as purchased assets; *i.e.*, be capitalized and the capitalized value of such assets be distributed over their useful lives as depreciation charges, or over the leased life as amortization charges as appropriate.

Assets whose leases are classified as capital leases under FAS-13 are subject to the requirements of 31.205-11 while assets acquired under leases classified as operating leases are subject to the requirements on rental costs in 31.205-36. The standards of financial accounting and reporting prescribed by FAS-13 are incorporated into this principle and shall govern its application, except as provided in paragraphs (1), (2), and (3) of this paragraph.

(1) Rental costs under a sale and leaseback arrangement shall be allowable up to the amount that would have been allowed had the contractor retained title to the property.

(2) Capital leases, as defined in FAS-13, for all real and personal property, between any related parties are subject to the requirements of this paragraph 31.205-11(m). If it is determined that the terms of the lease have been significantly affected by the fact that the lessee and lessor are related, depreciation charges shall not be allowed in excess of those which would have occurred if the lease contained terms consistent with those found in a lease between unrelated parties.

(3) Assets acquired under leases that the contractor must capitalize under FAS-13 shall not be treated as purchased assets for contract purposes if the leases are covered by 31.205-36(b)(4).

(n) Whether or not the contract is otherwise subject to CAS, the requirements of 31.205-52, which limit the allowability of depreciation, shall be observed.

(o) In the event of a write-down from carrying value to fair value as a result of impairments caused by events or changes in circumstances, allowable depreciation of the impaired assets shall be limited to the amounts that would have been allowed had the assets not been written down (see 31.205-16(g)). However, this does not preclude a change in depreciation resulting from other causes such as permissible changes in estimates of service life, consumption of services, or residual value.

### **31.205-12 Economic planning costs.**

(a) This category includes costs of generalized long-range management planning that is concerned with the future overall development of the contractor's business and that may take into account the eventual possibility of economic dislocations or fundamental alterations in those markets in which the contractor currently does business. Economic planning costs do not include organization or reorganization costs covered by 31.205-27.

(b) Economic planning costs are allowable as indirect costs to be properly allocated.

(c) Research and development and engineering costs designed to lead to new products for sale to the general public are not allowable under this principle.

### **31.205-13 Employee morale, health, welfare, food service, and dormitory costs and credits.**

(a) Aggregate costs incurred on activities designed to improve working conditions, employer-employee relations, employee morale, and employee performance (less income generated by these activities) are allowable, except as limited by paragraphs (b), (c), and (d) of this subsection. Some examples of allowable activities are house publications, health clinics, wellness/fitness centers, employee counseling services, and food and dormitory services, which include operating or furnishing facilities for cafeterias, dining rooms, canteens, lunch wagons, vending machines, living accommodations, or similar types of services for the contractor's employees at or near the contractor's facilities.

(b) Costs of gifts are unallowable. (Gifts do not include awards for performance made pursuant to 31.205-6(f) or awards made in recognition of employee achievements pursuant to an established contractor plan or policy.)

(c) Costs of recreation are unallowable, except for the costs of employees' participation in company sponsored sports teams or employee organizations designed to improve company loyalty, team work, or physical fitness.

(d) Losses from operating food and dormitory services may be included as costs only if the contractor's objective is to operate such services on a break-even basis. Losses sustained because food services or lodging accommodations are furnished without charge or at prices or rates which obviously would not be conducive to the accomplishment of the above objective are not allowable. A loss may be allowed, however, to the extent that the contractor can demonstrate that unusual circumstances exist (*e.g.*, where the contractor must provide food or dormitory services at remote locations where adequate commercial facilities are not reasonably available; or where charged but unproductive labor costs would be excessive but for the services provided or where cessation or reduction of food or dormitory operations will not otherwise yield net cost savings) such that even with efficient management, operating the services on a break-even basis would require charging inordinately high prices, or prices or rates higher than those charged by commercial establishments offering the same services in the same geographical areas. Costs of food and dormitory services shall include an allocable share of indirect expenses pertaining to these activities.

(e) When the contractor has an arrangement authorizing an employee association to provide or operate a service, such as vending machines in the contractor's plant, and retain the profits, such profits shall be treated in the same manner as if the contractor were providing the service (but see paragraph (f) of this subsection).

(f) Contributions by the contractor to an employee organization, including funds from vending machine receipts or similar sources, may be included as costs incurred under

paragraph (a) of this subsection only to the extent that the contractor demonstrates that an equivalent amount of the costs incurred by the employee organization would be allowable if directly incurred by the contractor.

### **31.205-14 Entertainment costs.**

Costs of amusement, diversions, social activities, and any directly associated costs such as tickets to shows or sports events, meals, lodging, rentals, transportation, and gratuities are unallowable. Costs made specifically unallowable under this cost principle are not allowable under any other cost principle. Costs of membership in social, dining, or country clubs or other organizations having the same purposes are also unallowable, regardless of whether the cost is reported as taxable income to the employees.

### **31.205-15 Fines, penalties, and mischarging costs.**

(a) Costs of fines and penalties resulting from violations of, or failure of the contractor to comply with, Federal, State, local, or foreign laws and regulations, are unallowable except when incurred as a result of compliance with specific terms and conditions of the contract or written instructions from the contracting officer.

(b) Costs incurred in connection with, or related to, the mischarging of costs on Government contracts are unallowable when the costs are caused by, or result from, alteration or destruction of records, or other false or improper charging or recording of costs. Such costs include those incurred to measure or otherwise determine the magnitude of the improper charging, and costs incurred to remedy or correct the mischarging, such as costs to rescreen and reconstruct records.

### **31.205-16 Gains and losses on disposition or impairment of depreciable property or other capital assets.**

(a) Gains and losses from the sale, retirement, or other disposition (but see 31.205-19) of depreciable property shall be included in the year in which they occur as credits or charges to the cost grouping(s) in which the depreciation or amortization applicable to those assets was included (but see paragraph (d) of this subsection). However, no gain or loss shall be recognized as a result of the transfer of assets in a business combination (see 31.205-52).

(b) Gains and losses on disposition of tangible capital assets, including those acquired under capital leases (see 31.205-11(m)), shall be considered as adjustments of depreciation costs previously recognized. The gain or loss for each asset disposed of is the difference between the net amount realized, including insurance proceeds from involuntary conversions, and its undepreciated balance. The gain recognized for contract costing purposes shall be limited to the difference between the acquisition cost (or for assets acquired under a capital lease, the value at which the leased asset is

capitalized) of the asset and its undepreciated balance (except see subdivisions (c)(2)(i) or (ii) of this section).

(c) Special considerations apply to an involuntary conversion which occurs when a contractor's property is destroyed by events over which the owner has no control, such as fire, windstorm, flood, accident, theft, etc., and an insurance award is recovered. The following govern involuntary conversions:

(1) When there is a cash award and the converted asset is not replaced, gain or loss shall be recognized in the period of disposition. The gain recognized for contract costing purposes shall be limited to the difference between the acquisition cost of the asset and its undepreciated balance.

(2) When the converted asset is replaced, the contractor shall either—

(i) Adjust the depreciable basis of the new asset by the amount of the total realized gain or loss; or

(ii) Recognize the gain or loss in the period of disposition, in which case the Government shall participate to the same extent as outlined in paragraph (c)(1) of this subsection.

(d) Gains and losses on the disposition of depreciable property shall not be recognized as a separate charge or credit when—

(1) Gains and losses are processed through the depreciation reserve account and reflected in the depreciation allowable under 31.205-11; or

(2) The property is exchanged as part of the purchase price of a similar item, and the gain or loss is taken into consideration in the depreciation cost basis of the new item.

(e) Gains and losses arising from mass or extraordinary sales, retirements, or other disposition other than through business combinations shall be considered on a case-by-case basis.

(f) Gains and losses of any nature arising from the sale or exchange of capital assets other than depreciable property shall be excluded in computing contract costs.

(g) With respect to long-lived tangible and identifiable intangible assets held for use, no loss shall be allowed for a write-down from carrying value to fair value as a result of impairments caused by events or changes in circumstances (e.g., environmental damage, idle facilities arising from a declining business base, etc.). If depreciable property or other capital assets have been written down from carrying value to fair value due to impairments, gains or losses upon disposition shall be the amounts that would have been allowed had the assets not been written down.

### **31.205-17 Idle facilities and idle capacity costs.**

(a) *Definitions.* As used in this subsection—

“Costs of idle facilities or idle capacity” means costs such as maintenance, repair, housing, rent, and other related costs; e.g., property taxes, insurance, and depreciation.

“Facilities” means plant or any portion thereof (including land integral to the operation), equipment, individually or collectively, or any other tangible capital asset, wherever located, and whether owned or leased by the contractor.

“Idle capacity” means the unused capacity of partially used facilities. It is the difference between that which a facility could achieve under 100 percent operating time on a one-shift basis, less operating interruptions resulting from time lost for repairs, setups, unsatisfactory materials, and other normal delays, and the extent to which the facility was actually used to meet demands during the accounting period. A multiple-shift basis may be used in the calculation instead of a one-shift basis if it can be shown that this amount of usage could normally be expected for the type of facility involved.

“Idle facilities” means completely unused facilities that are excess to the contractor’s current needs.

(b) The costs of idle facilities are unallowable unless the facilities—

(1) Are necessary to meet fluctuations in workload; or

(2) Were necessary when acquired and are now idle because of changes in requirements, production economies, reorganization, termination, or other causes which could not have been reasonably foreseen. (Costs of idle facilities are allowable for a reasonable period, ordinarily not to exceed 1 year, depending upon the initiative taken to use, lease, or dispose of the idle facilities (but see 31.205-42)).

(c) Costs of idle capacity are costs of doing business and are a factor in the normal fluctuations of usage or overhead rates from period to period. Such costs are allowable provided the capacity is necessary or was originally reasonable and is not subject to reduction or elimination by subletting, renting, or sale, in accordance with sound business, economics, or security practices. Widespread idle capacity throughout an entire plant or among a group of assets having substantially the same function may be idle facilities.

(d) Any costs to be paid directly by the Government for idle facilities or idle capacity reserved for defense mobilization production shall be the subject of a separate agreement.

**31.205-18 Independent research and development and bid and proposal costs.**

(a) *Definitions.* As used in this subsection—

“Applied research” means that effort which (1) normally follows basic research, but may not be severable from the related basic research, (2) attempts to determine and exploit the potential of scientific discoveries or improvements in technology, materials, processes, methods, devices, or techniques, and (3) attempts to advance the state of the art. Applied research does not include efforts whose principal aim is design, development, or test of specific items or services to be considered for sale; these efforts are within the

definition of the term “development,” defined in this subsection.

“Basic research” (see 2.101).

“Bid and proposal (B&P) costs” means the costs incurred in preparing, submitting, and supporting bids and proposals (whether or not solicited) on potential Government or non-Government contracts. The term does not include the costs of effort sponsored by a grant or cooperative agreement, or required in the performance of a contract.

“Company” means all divisions, subsidiaries, and affiliates of the contractor under common control.

“Development” means the systematic use, under whatever name, of scientific and technical knowledge in the design, development, test, or evaluation of a potential new product or service (or of an improvement in an existing product or service) for the purpose of meeting specific performance requirements or objectives. Development includes the functions of design engineering, prototyping, and engineering testing. Development excludes—

(1) Subcontracted technical effort which is for the sole purpose of developing an additional source for an existing product, or

(2) Development effort for manufacturing or production materials, systems, processes, methods, equipment, tools, and techniques not intended for sale.

“Independent research and development (IR&D)” means a contractor’s IR&D cost that consists of projects falling within the four following areas: (1) basic research, (2) applied research, (3) development, and (4) systems and other concept formulation studies. The term does not include the costs of effort sponsored by a grant or required in the performance of a contract. IR&D effort shall not include technical effort expended in developing and preparing technical data specifically to support submitting a bid or proposal.

“Systems and other concept formulation studies” means analyses and study efforts either related to specific IR&D efforts or directed toward identifying desirable new systems, equipment or components, or modifications and improvements to existing systems, equipment, or components.

(b) *Composition and allocation of costs.* The requirements of 48 CFR 9904.420, Accounting for independent research and development costs and bid and proposal costs, are incorporated in their entirety and shall apply as follows—

(1) *Fully-CAS-covered contracts.* Contracts that are fully-CAS-covered shall be subject to all requirements of 48 CFR 9904.420.

(2) *Modified CAS-covered and non-CAS-covered contracts.* Contracts that are not CAS-covered or that contain terms or conditions requiring modified CAS coverage shall be subject to all requirements of 48 CFR 9904.420 except 48 CFR 9904.420-50(e)(2) and 48 CFR 9904.420-50(f)(2), which are not then applicable. However, non-CAS-covered

or modified CAS-covered contracts awarded at a time the contractor has CAS-covered contracts requiring compliance with 48 CFR 9904.420, shall be subject to all the requirements of 48 CFR 9904.420. When the requirements of 48 CFR 9904.420-50(e)(2) and 48 CFR 9904.420-50(f)(2) are not applicable, the following apply:

(i) IR&D and B&P costs shall be allocated to final cost objectives on the same basis of allocation used for the G&A expense grouping of the profit center (see 31.001) in which the costs are incurred. However, when IR&D and B&P costs clearly benefit other profit centers or benefit the entire company, those costs shall be allocated through the G&A of the other profit centers or through the corporate G&A, as appropriate.

(ii) If allocations of IR&D or B&P through the G&A base do not provide equitable cost allocation, the contracting officer may approve use of a different base.

(c) *Allowability.* Except as provided in paragraphs (d) and (e) of this subsection, or as provided in agency regulations, costs for IR&D and B&P are allowable as indirect expenses on contracts to the extent that those costs are allocable and reasonable.

(d) *Deferred IR&D costs.* (1) IR&D costs that were incurred in previous accounting periods are unallowable, except when a contractor has developed a specific product at its own risk in anticipation of recovering the development costs in the sale price of the product provided that—

(i) The total amount of IR&D costs applicable to the product can be identified;

(ii) The proration of such costs to sales of the product is reasonable;

(iii) The contractor had no Government business during the time that the costs were incurred or did not allocate IR&D costs to Government contracts except to prorate the cost of developing a specific product to the sales of that product; and

(iv) No costs of current IR&D programs are allocated to Government work except to prorate the costs of developing a specific product to the sales of that product.

(2) When deferred costs are recognized, the contract (except firm-fixed-price and fixed-price with economic price adjustment) will include a specific provision setting forth the amount of deferred IR&D costs that are allocable to the contract. The negotiation memorandum will state the circumstances pertaining to the case and the reason for accepting the deferred costs.

(e) *Cooperative arrangements.* (1) IR&D costs may be incurred by contractors working jointly with one or more non-Federal entities pursuant to a cooperative arrangement (for example, joint ventures, limited partnerships, teaming arrangements, and collaboration and consortium arrange-

ments). IR&D costs also may include costs contributed by contractors in performing cooperative research and development agreements, or similar arrangements, entered into under—

(i) Section 12 of the Stevenson-Wydler Technology Transfer Act of 1980 (15 U.S.C. 3710(a));

(ii) Sections 203(c)(5) and (6) of the National Aeronautics and Space Act of 1958, as amended (42 U.S.C. 2473(c)(5) and (6));

(iii) 10 U.S.C. 2371 for the Defense Advanced Research Projects Agency; or

(iv) Other equivalent authority.

(2) IR&D costs incurred by a contractor pursuant to these types of cooperative arrangements should be considered as allowable IR&D costs if the work performed would have been allowed as contractor IR&D had there been no cooperative arrangement.

(3) Costs incurred in preparing, submitting, and supporting offers on potential cooperative arrangements are allowable to the extent they are allocable, reasonable, and not otherwise unallowable.

### **31.205-19 Insurance and indemnification.**

(a) Insurance by purchase or by self-insuring includes coverage the contractor is required to carry, or to have approved, under the terms of the contract and any other coverage the contractor maintains in connection with the general conduct of its business. Any contractor desiring to establish a program of self-insurance applicable to contracts that are not subject to 48 CFR 9904.416, Accounting for Insurance Costs, shall comply with the self-insurance requirements of that standard as well as with Part 28 of this Regulation. However, approval of a contractor's insurance program in accordance with Part 28 does not constitute a determination as to the allowability of the program's cost. The amount of insurance costs which may be allowed is subject to the cost limitations and exclusions in the following paragraphs.

(1) Costs of insurance required or approved, and maintained by the contractor pursuant to the contract, are allowable.

(2) Costs of insurance maintained by the contractor in connection with the general conduct of its business are allowable, subject to the following limitations:

(i) Types and extent of coverage shall follow sound business practice, and the rates and premiums must be reasonable.

(ii) Costs allowed for business interruption or other similar insurance must be limited to exclude coverage of profit.

(iii) The cost of property insurance premiums for insurance coverage in excess of the acquisition cost of the insured assets is allowable only when the contractor has a formal written policy assuring that in the event the insured

property is involuntarily converted, the new asset shall be valued at the book value of the replaced asset plus or minus adjustments for differences between insurance proceeds and actual replacement cost. If the contractor does not have such a formal written policy, the cost of premiums for insurance coverage in excess of the acquisition cost of the insured asset is unallowable.

(iv) Costs of insurance for the risk of loss of or damage to Government property are allowable only to the extent that the contractor is liable for such loss or damage and such insurance does not cover loss or damage that results from willful misconduct or lack of good faith on the part of any of the contractor's directors or officers or other equivalent representatives.

(v) Contractors operating under a program of self-insurance must obtain approval of the program when required by 28.308(a).

(vi) Costs of insurance on the lives of officers, partners, or proprietors are allowable only to the extent that the insurance represents additional compensation (see 31.205-6).

(3) Actual losses are unallowable unless expressly provided for in the contract, except—

(i) Losses incurred under the nominal deductible provisions of purchased insurance, in keeping with sound business practice, are allowable for contracts not subject to 48 CFR 9904.416 and when the contractor did not establish a self-insurance program. Such contracts are not subject to the self-insurance requirements of 48 CFR 9904.416. For contracts subject to 48 CFR 9904.416, and for those made subject to the self-insurance requirements of that Standard as a result of the contractor's having established a self-insurance program (see paragraph (a) of this section), actual losses may be used as a basis for charges under a self-insurance program when the actual amount of losses will not differ significantly from the projected average losses for the accounting period (see 48 CFR 9904.416.50(a)(2)(ii)). In those instances where an actual loss has occurred and the present value of the liability is determined under the provisions of 48 CFR 9904.416-50(a)(3)(ii), the allowable cost shall be limited to an amount computed using as a discount rate the interest rate determined by the Secretary of the Treasury pursuant to 50 U.S.C. App. 1215(b)(2) in effect at the time the loss is recognized. However, the full amount of a lump-sum settlement to be paid within a year of the date of settlement is allowable.

(ii) Minor losses, such as spoilage, breakage, and disappearance of small hand tools that occur in the ordinary course of doing business and that are not covered by insurance are allowable.

(4) The cost of insurance to protect the contractor against the costs of correcting its own defects in materials or workmanship is unallowable. However, insurance costs to cover fortuitous or casualty losses resulting from defects in materials or workmanship are allowable as a normal business expense.

(5) Premiums for retroactive or backdated insurance written to cover occurred and known losses are unallowable.

(b) If purchased insurance is available, the charge for any self-insurance coverage plus insurance administration expenses shall not exceed the cost of comparable purchased insurance plus associated insurance administration expenses.

(c) Insurance provided by captive insurers (insurers owned by or under the control of the contractor) is considered self-insurance, and charges for it must comply with the self-insurance provisions of 48 CFR 9904.416. However, if the captive insurer also sells insurance to the general public in substantial quantities and it can be demonstrated that the charge to the contractor is based on competitive market forces, the insurance will be considered purchased insurance.

(d) The allowability of premiums for insurance purchased from fronting insurance companies (insurance companies not related to the contractor but who reinsure with a captive insurer of the contractor) shall not exceed the amount (plus reasonable fronting company charges for services rendered) which the contractor would have been allowed had it insured directly with the captive insurer.

(e) Self-insurance charges for risks of catastrophic losses are not allowable (see 28.308(e)).

(f) The Government is obligated to indemnify the contractor only to the extent authorized by law, as expressly provided for in the contract, except as provided in paragraph (a)(3) of this section.

(g) Late premium payment charges related to employee deferred compensation plan insurance incurred pursuant to Section 4007 (29 U.S.C. 1307) or Section 4023 (29 U.S.C. 1323) of the Employee Retirement Income Security Act of 1974 are unallowable.

**31.205-20 Interest and other financial costs.**

Interest on borrowings (however represented), bond discounts, costs of financing and refinancing capital (net worth plus long-term liabilities), legal and professional fees paid in connection with preparing prospectuses, and costs of preparing and issuing stock rights are unallowable (but see 31.205-28). However, interest assessed by State or local taxing authorities under the conditions specified in 31.205-41(a)(3) is allowable.

**31.205-21 Labor relations costs.**

Costs incurred in maintaining satisfactory relations between the contractor and its employees, including costs of

shop stewards, labor management committees, employee publications, and other related activities, are allowable.

### **31.205-22 Lobbying and political activity costs.**

(a) Costs associated with the following activities are unallowable:

(1) Attempts to influence the outcomes of any Federal, State, or local election, referendum, initiative, or similar procedure, through in kind or cash contributions, endorsements, publicity, or similar activities;

(2) Establishing, administering, contributing to, or paying the expenses of a political party, campaign, political action committee, or other organization established for the purpose of influencing the outcomes of elections;

(3) Any attempt to influence—

(i) The introduction of Federal, state, or local legislation, or

(ii) The enactment or modification of any pending Federal, state, or local legislation through communication with any member or employee of the Congress or state legislature (including efforts to influence state or local officials to engage in similar lobbying activity), or with any government official or employee in connection with a decision to sign or veto enrolled legislation;

(4) Any attempt to influence—

(i) The introduction of Federal, state, or local legislation, or

(ii) The enactment or modification of any pending Federal, state, or local legislation by preparing, distributing or using publicity or propaganda, or by urging members of the general public or any segment thereof to contribute to or participate in any mass demonstration, march, rally, fund raising drive, lobbying campaign or letter writing or telephone campaign;

(5) Legislative liaison activities, including attendance at legislative sessions or committee hearings, gathering information regarding legislation, and analyzing the effect of legislation, when such activities are carried on in support of or in knowing preparation for an effort to engage in unallowable activities; or

(6) Costs incurred in attempting to improperly influence (see 3.401), either directly or indirectly, an employee or officer of the Executive branch of the Federal Government to give consideration to or act regarding a regulatory or contract matter.

(b) The following activities are excepted from the coverage of (a) of this section:

(1) Providing a technical and factual presentation of information on a topic directly related to the performance of a contract through hearing testimony, statements or letters to the Congress or a state legislature, or subdivision, member, or cognizant staff member thereof, in response to a documented request (including a Congressional Record notice requesting testimony or statements for the record at a regularly scheduled hearing) made by the recipient member, legislative body or subdivision, or a cognizant staff member thereof; provided such information is readily obtainable and can be readily put in deliverable form; and further provided that costs under this section for transportation, lodging or meals are unallowable unless incurred for the purpose of offering testimony at a regularly scheduled Congressional hearing pursuant to a written request for such presentation made by the Chairman or Ranking Minority Member of the Committee or Subcommittee conducting such hearing.

(2) Any lobbying made unallowable by paragraph (a)(3) of this subsection to influence state or local legislation in order to directly reduce contract cost, or to avoid material impairment of the contractor's authority to perform the contract.

(3) Any activity specifically authorized by statute to be undertaken with funds from the contract.

(c) When a contractor seeks reimbursement for indirect costs, total lobbying costs shall be separately identified in the indirect cost rate proposal, and thereafter treated as other unallowable activity costs.

(d) Contractors shall maintain adequate records to demonstrate that the certification of costs as being allowable or unallowable (see 42.703-2) pursuant to this subsection complies with the requirements of this subsection.

(e) Existing procedures should be utilized to resolve in advance any significant questions or disagreements concerning the interpretation or application of this subsection.

### **31.205-23 Losses on other contracts.**

An excess of costs over income under any other contract (including the contractor's contributed portion under cost-sharing contracts) is unallowable.

### **31.205-24 Maintenance and repair costs.**

(a) Costs necessary for the upkeep of property (including Government property, unless otherwise provided for) that neither add to the permanent value of the property nor appreciably prolong its intended life, but keep it in an efficient operating condition, are to be treated as follows (but see 31.205-11):

(1) Normal maintenance and repair costs are allowable.

(2) Extraordinary maintenance and repair costs are allowable, provided those costs are allocated to the applicable periods for purposes of determining contract costs (but see 31.109).

(b) Expenditures for plant and equipment, including rehabilitation which should be capitalized and subject to depreciation, according to generally accepted accounting principles as applied under the contractor's established policy or, when applicable, according to 48 CFR 9904.404, Capitalization of Tangible Assets, are allowable only on a depreciation basis.

### **31.205-25 Manufacturing and production engineering costs.**

(a) The costs of manufacturing and production engineering effort as described in (1) through (4) of this paragraph are all allowable:

(1) Developing and deploying new or improved materials, systems, processes, methods, equipment, tools and techniques that are or are expected to be used in producing products or services;

(2) Developing and deploying pilot production lines;

(3) Improving current production functions, such as plant layout, production scheduling and control, methods and job analysis, equipment capabilities and capacities, inspection techniques, and tooling analysis (including tooling design and application improvements); and

(4) Material and manufacturing producibility analysis for production suitability and to optimize manufacturing processes, methods, and techniques.

(b) This cost principle does not cover—

(1) Basic and applied research effort (as defined in 31.205-18(a)) related to new technology, materials, systems, processes, methods, equipment, tools and techniques. Such technical effort is governed by 31.205-18, Independent research and development and bid and proposal costs; and

(2) Development effort for manufacturing or production materials, systems, processes, methods, equipment, tools, and techniques that are intended for sale is also governed by 31.205-18.

(c) Where manufacturing or production development costs are capitalized or required to be capitalized under the contractor's capitalization policies, allowable cost will be determined in accordance with the requirements of 31.205-11, Depreciation.

### **31.205-26 Material costs.**

(a) Material costs include the costs of such items as raw materials, parts, sub-assemblies, components, and manufacturing supplies, whether purchased or manufactured by the contractor, and may include such collateral items as inbound transportation and intransit insurance. In computing material costs, consideration shall be given to reasonable overruns, spoilage, or defective work (unless otherwise provided in

any contract provision relating to inspecting and correcting defective work). These costs are allowable, subject to the requirements of paragraphs (b) through (e) of this section.

(b) Costs of material shall be adjusted for income and other credits, including available trade discounts, refunds, rebates, allowances, and cash discounts, and credits for scrap, salvage, and material returned to vendors. Such income and other credits shall either be credited directly to the cost of the material or be allocated as a credit to indirect costs. When the contractor can demonstrate that failure to take cash discounts was reasonable, lost discounts need not be credited.

(c) Reasonable adjustments arising from differences between periodic physical inventories and book inventories may be included in arriving at costs; provided, such adjustments relate to the period of contract performance.

(d) When materials are purchased specifically for and are identifiable solely with performance under a contract, the actual purchase cost of those materials should be charged to the contract. If material is issued from stores, any generally recognized method of pricing such material is acceptable if that method is consistently applied and the results are equitable. When estimates of future material costs are required, current market price or anticipated acquisition cost may be used, but the basis of pricing must be disclosed.

(e) Allowance for all materials, supplies, and services that are sold or transferred between any divisions, subdivisions, subsidiaries, or affiliates of the contractor under a common control shall be on the basis of cost incurred in accordance with this subpart. However, allowance may be at price when it is the established practice of the transferring organization to price interorganizational transfers at other than cost for commercial work of the contractor or any division, subsidiary, or affiliate of the contractor under a common control, and when the item being transferred qualifies for an exception under 15.403-1(b) and the contracting officer has not determined the price to be unreasonable.

(f) When a commercial item under paragraph (e) of this subsection is transferred at a price based on a catalog or market price, the price should be adjusted to reflect the quantities being acquired and may be adjusted to reflect the actual cost of any modifications necessary because of contract requirements.

### **31.205-27 Organization costs.**

(a) Except as provided in paragraph (b) of this subsection, expenditures in connection with (1) planning or executing the organization or reorganization of the corporate structure of a business, including mergers and acquisitions, (2) resisting or planning to resist the reorganization of the corporate structure of a business or a change in the controlling interest in the ownership of a business, and (3) raising capital (net worth plus long-term liabilities), are unallowable. Such

expenditures include but are not limited to incorporation fees and costs of attorneys, accountants, brokers, promoters and organizers, management consultants and investment counselors, whether or not employees of the contractor. Unallowable “reorganization” costs include the cost of any change in the contractor’s financial structure, excluding administrative costs of short-term borrowings for working capital, resulting in alterations in the rights and interests of security holders, whether or not additional capital is raised.

(b) The cost of activities primarily intended to provide compensation will not be considered organizational costs subject to this subsection, but will be governed by 31.205-6. These activities include acquiring stock for—

- (1) Executive bonuses,
- (2) Employee savings plans, and
- (3) Employee stock ownership plans.

### 31.205-28 Other business expenses.

The following types of recurring costs are allowable when allocated on an equitable basis:

- (a) Registry and transfer charges resulting from changes in ownership of securities issued by the contractor.
- (b) Cost of shareholders’ meetings.
- (c) Normal proxy solicitations.
- (d) Preparing and publishing reports to shareholders.
- (e) Preparing and submitting required reports and forms to taxing and other regulatory bodies.
- (f) Incidental costs of directors’ and committee meetings.
- (g) Other similar costs.

### 31.205-29 Plant protection costs.

Costs of items such as—

- (a) Wages, uniforms, and equipment of personnel engaged in plant protection,
- (b) Depreciation on plant protection capital assets, and
- (c) Necessary expenses to comply with military requirements, are allowable.

### 31.205-30 Patent costs.

(a) The following patent costs are allowable to the extent that they are incurred as requirements of a Government contract (but see 31.205-33):

- (1) Costs of preparing invention disclosures, reports, and other documents.
- (2) Costs for searching the art to the extent necessary to make the invention disclosures.
- (3) Other costs in connection with the filing and prosecution of a United States patent application where title or royalty-free license is to be conveyed to the Government.

(b) General counseling services relating to patent matters, such as advice on patent laws, regulations, clauses, and employee agreements, are allowable (but see 31.205-33).

(c) Other than those for general counseling services, patent costs not required by the contract are unallowable. (See also 31.205-37.)

### 31.205-31 Plant reconversion costs.

Plant reconversion costs are those incurred in restoring or rehabilitating the contractor’s facilities to approximately the same condition existing immediately before the start of the Government contract, fair wear and tear excepted. Reconversion costs are unallowable except for the cost of removing Government property and the restoration or rehabilitation costs caused by such removal. However, in special circumstances where equity so dictates, additional costs may be allowed to the extent agreed upon before costs are incurred. Care should be exercised to avoid duplication through allowance as contingencies, additional profit or fee, or in other contracts.

### 31.205-32 Precontract costs.

Precontract costs means costs incurred before the effective date of the contract directly pursuant to the negotiation and in anticipation of the contract award when such incurrence is necessary to comply with the proposed contract delivery schedule. These costs are allowable to the extent that they would have been allowable if incurred after the date of the contract (see 31.109).

### 31.205-33 Professional and consultant service costs.

(a) *Definition.* “Professional and consultant services,” as used in this subsection, means those services rendered by persons who are members of a particular profession or possess a special skill and who are not officers or employees of the contractor. Examples include those services acquired by contractors or subcontractors in order to enhance their legal, economic, financial, or technical positions. Professional and consultant services are generally acquired to obtain information, advice, opinions, alternatives, conclusions, recommendations, training, or direct assistance, such as studies, analyses, evaluations, liaison with Government officials, or other forms of representation.

(b) Costs of professional and consultant services are allowable subject to this paragraph and paragraphs (c) through (f) of this subsection when reasonable in relation to the services rendered and when not contingent upon recovery of the costs from the Government (but see 31.205-30 and 31.205-47).

(c) Costs of professional and consultant services performed under any of the following circumstances are unallowable:

- (1) Services to improperly obtain, distribute, or use information or data protected by law or regulation (*e.g.*, 52.215-1(e), Restriction on Disclosure and Use of Data).

(2) Services that are intended to improperly influence the contents of solicitations, the evaluation of proposals or quotations, or the selection of sources for contract award, whether award is by the Government, or by a prime contractor or subcontractor.

(3) Any other services obtained, performed, or otherwise resulting in violation of any statute or regulation prohibiting improper business practices or conflicts of interest.

(4) Services performed which are not consistent with the purpose and scope of the services contracted for or otherwise agreed to.

(d) In determining the allowability of costs (including retainer fees) in a particular case, no single factor or any special combination of factors is necessarily determinative. However, the contracting officer shall consider the following factors, among others:

(1) The nature and scope of the service rendered in relation to the service required.

(2) The necessity of contracting for the service, considering the contractor's capability in the particular area.

(3) The past pattern of acquiring such services and their costs, particularly in the years prior to the award of Government contracts.

(4) The impact of Government contracts on the contractor's business.

(5) Whether the proportion of Government work to the contractor's total business is such as to influence the contractor in favor of incurring the cost, particularly when the services rendered are not of a continuing nature and have little relationship to work under Government contracts.

(6) Whether the service can be performed more economically by employment rather than by contracting.

(7) The qualifications of the individual or concern rendering the service and the customary fee charged, especially on non-Government contracts.

(8) Adequacy of the contractual agreement for the service (*e.g.*, description of the service, estimate of time required, rate of compensation, termination provisions).

(e) Retainer fees, to be allowable, must be supported by evidence that—

(1) The services covered by the retainer agreement are necessary and customary;

(2) The level of past services justifies the amount of the retainer fees (if no services were rendered, fees are not automatically unallowable);

(3) The retainer fee is reasonable in comparison with maintaining an in-house capability to perform the covered services, when factors such as cost and level of expertise are considered; and

(4) The actual services performed are documented in accordance with paragraph (f) of this subsection.

(f) Fees for services rendered shall be allowable only when supported by evidence of the nature and scope of the service furnished. (See also 31.205-38(f).) However, retainer agreements generally are not based on specific statements of work. Evidence necessary to determine that work performed is proper and does not violate law or regulation shall include—

(1) Details of all agreements (*e.g.*, work requirements, rate of compensation, and nature and amount of other expenses, if any) with the individuals or organizations providing the services and details of actual services performed;

(2) Invoices or billings submitted by consultants, including sufficient detail as to the time expended and nature of the actual services provided; and

(3) Consultants' work products and related documents, such as trip reports indicating persons visited and subjects discussed, minutes of meetings, and collateral memoranda and reports.

#### **31.205-34 Recruitment costs.**

(a) Subject to paragraph (b) of this subsection, the following costs are allowable:

(1) Costs of help-wanted advertising.

(2) Costs of operating an employment office needed to secure and maintain an adequate labor force.

(3) Costs of operating an aptitude and educational testing program.

(4) Travel costs of employees engaged in recruiting personnel.

(5) Travel costs of applicants for interviews.

(6) Costs for employment agencies, not in excess of standard commercial rates.

(b) Help-wanted advertising costs are unallowable if the advertising—

(1) Does not describe specific positions or classes of positions; or

(2) Includes material that is not relevant for recruitment purposes, such as extensive illustrations or descriptions of the company's products or capabilities.

#### **31.205-35 Relocation costs.**

(a) Relocation costs are costs incident to the permanent change of duty assignment (for an indefinite period or for a stated period, but in either event for not less than 12 months) of an existing employee or upon recruitment of a new employee. The following types of relocation costs are allowable as noted, subject to paragraphs (b) and (f) of this subsection:

(1) Cost of travel of the employee and members of the immediate family (see 31.205-46) and transportation of the household and personal effects to the new location.

(2) Cost of finding a new home, such as advance trips by employees and spouses to locate living quarters, and temporary lodging during the transition periods not exceeding separate cumulative totals of 60 days for employees and 45 days for spouses and dependents, including advance trip time.

(3) Closing costs (*i.e.*, brokerage fees, legal fees, appraisal fees, points, finance charges, etc.) incident to the disposition of actual residence owned by the employee when notified of transfer, except that these costs when added to the costs described in paragraph (a)(4) of this section shall not exceed 14 percent of the sales price of the property sold.

(4) Continuing costs of ownership of the vacant former actual residence being sold, such as maintenance of building and grounds (exclusive of fixing up expenses), utilities, taxes, property insurance, mortgage interest, after settlement date or lease date of new permanent residence, except that these costs when added to the costs described in paragraph (a)(3) of this section, shall not exceed 14 percent of the sales price of the property sold.

(5) Other necessary and reasonable expenses normally incident to relocation, such as disconnecting and connecting household appliances; automobile registration; driver's license and use taxes; cutting and fitting rugs, draperies, and curtains; forfeited utility fees and deposits; and purchase of insurance against damage to or loss of personal property while in transit.

(6) Costs incident to acquiring a home in a new location, except that—

(i) These costs will not be allowable for existing employees or newly recruited employees who, before the relocation, were not homeowners and

(ii) The total costs shall not exceed 5 percent of the purchase price of the new home.

(7) Mortgage interest differential payments, except that these costs are not allowable for existing or newly recruited employees who, before the relocation, were not homeowners and the total payments are limited to an amount determined as follows:

(i) The difference between the mortgage interest rates of the old and new residences times the current balance of the old mortgage times 3 years.

(ii) When mortgage differential payments are made on a lump sum basis and the employee leaves or is transferred again in less than 3 years, the amount initially recognized shall be proportionately adjusted to reflect payments only for the actual time of the relocation.

(8) Rental differential payments covering situations where relocated employees retain ownership of a vacated home in the old location and rent at the new location. The rented quarters at the new location must be comparable to those vacated, and the allowable differential payments may not exceed the actual rental costs for the new home, less the fair market rent for the vacated home times 3 years.

(9) Cost of canceling an unexpired lease.

(b) The costs described in paragraph (a) of this section must also meet the following criteria to be considered allowable:

(1) The move must be for the benefit of the employer.

(2) Reimbursement must be in accordance with an established policy or practice that is consistently followed by the employer and is designed to motivate employees to relocate promptly and economically.

(3) The costs must not otherwise be unallowable under Subpart 31.2.

(4) Amounts to be reimbursed shall not exceed the employee's actual expenses, except that for miscellaneous costs of the type discussed in paragraph (a)(5) of this section, a flat amount, not to exceed \$1,000, may be allowed in lieu of actual costs.

(c) The following types of costs are not allowable:

(1) Loss on sale of a home.

(2) Costs incident to acquiring a home in a new location as follows:

(i) Real estate brokers fees and commissions.

(ii) Cost of litigation.

(iii) Real and personal property insurance against damage or loss of property.

(iv) Mortgage life insurance.

(v) Owner's title policy insurance when such insurance was not previously carried by the employee on the old residence (however, cost of a mortgage title policy is allowable).

(vi) Property taxes and operating or maintenance costs.

(3) Continuing mortgage principal payments on residence being sold.

(4) Payments for employee income or FICA (social security) taxes incident to reimbursed relocation costs.

(5) Payments for job counseling and placement assistance to employee spouses and dependents who were not employees of the contractor at the old location.

(6) Costs incident to furnishing equity or nonequity loans to employees or making arrangements with lenders for employees to obtain lower-than-market rate mortgage loans.

(d) If relocation costs for an employee have been allowed either as an allocable indirect or direct cost, and the employee resigns within 12 months for reasons within the employee's control, the contractor shall refund or credit the relocation costs to the Government.

(e) Subject to the requirements of paragraphs (a) through (d) of this section, the costs of family movements and of personnel movements of a special or mass nature are allowable. The cost, however, should be assigned on the basis of work (contracts) or time period benefited.

(f) Relocation costs (both outgoing and return) of employees who are hired for performance on specific contracts or long-term field projects are allowable if—

(1) The term of employment is not less than 12 months;

(2) The employment agreement specifically limits the duration of employment to the time spent on the contract or field project for which the employee is hired;

(3) The employment agreement provides for return relocation to the employee's permanent and principal home immediately prior to the outgoing relocation, or other location of equal or lesser cost; and

(4) The relocation costs are determined under the rules of paragraphs (a) through (d) of this section. However, the costs to return employees, who are released from employment upon completion of field assignments pursuant to their employment agreements, are not subject to the refund or credit requirement of paragraph (d).

### 31.205-36 Rental costs.

(a) This subsection is applicable to the cost of renting or leasing real or personal property acquired under "operating leases" as defined in Statement of Financial Accounting Standards No. 13 (FAS-13), Accounting for Leases. Compliance with 31.205-11(m) requires that assets acquired by means of capital leases, as defined in FAS-13, shall be treated as purchased assets; *i.e.*, be capitalized and the capitalized value of such assets be distributed over their useful lives as depreciation charges, or over the lease term as amortization charges, as appropriate (but see paragraph (b)(4) of this section).

(b) The following costs are allowable:

(1) Rental costs under operating leases, to the extent that the rates are reasonable at the time of the lease decision, after consideration of—

(i) Rental costs of comparable property, if any;

(ii) Market conditions in the area;

(iii) The type, life expectancy, condition, and value of the property leased;

(iv) Alternatives available; and

(v) Other provisions of the agreement.

(2) Rental costs under a sale and leaseback arrangement only up to the amount the contractor would be allowed if the contractor retained title.

(3) Charges in the nature of rent for property between any divisions, subsidiaries, or organizations under common control, to the extent that they do not exceed the normal costs of ownership, such as depreciation, taxes, insurance,

facilities capital cost of money, and maintenance (excluding interest or other unallowable costs pursuant to Part 31), provided that no part of such costs shall duplicate any other allowed cost. Rental cost of personal property leased from any division, subsidiary, or affiliate of the contractor under common control, that has an established practice of leasing the same or similar property to unaffiliated lessees shall be allowed in accordance with paragraph (b)(1) of this subsection.

(4) Rental costs under leases entered into before March 1, 1970 for the remaining term of the lease (excluding options not exercised before March 1, 1970) to the extent they would have been allowable under Defense Acquisition Regulation (formerly ASPR) 15-205.34 or Federal Procurement Regulations section 1-15.205-34 in effect January 1, 1969.

(c) The allowability of rental costs under unexpired leases in connection with terminations is treated in 31.205-42(e).

### 31.205-37 Royalties and other costs for use of patents.

(a) Royalties on a patent or amortization of the cost of purchasing a patent or patent rights necessary for the proper performance of the contract and applicable to contract products or processes are allowable unless—

(1) The Government has a license or the right to a free use of the patent;

(2) The patent has been adjudicated to be invalid, or has been administratively determined to be invalid;

(3) The patent is considered to be unenforceable; or

(4) The patent is expired.

(b) Care should be exercised in determining reasonableness when the royalties may have been arrived at as a result of less-than-arm's-length bargaining; *e.g.*, royalties—

(1) Paid to persons, including corporations, affiliated with the contractor;

(2) Paid to unaffiliated parties, including corporations, under an agreement entered into in contemplation that a Government contract would be awarded; or

(3) Paid under an agreement entered into after the contract award.

(c) In any case involving a patent formerly owned by the contractor, the royalty amount allowed should not exceed the cost which would have been allowed had the contractor retained title.

(d) See 31.109 regarding advance agreements.

### 31.205-38 Selling costs.

(a) "Selling" is a generic term encompassing all efforts to market the contractor's products or services, some of which are covered specifically in other subsections of 31.205. Selling activity includes the following broad categories:

(1) Advertising.

(2) Corporate image enhancement including broadly-targeted sales efforts, other than advertising.

(3) Bid and proposal costs.

(4) Market planning.

(5) Direct selling.

(b) Advertising costs are defined at 31.205-1(b) and are subject to the allowability provisions of 31.205-1(d) and (f). Corporate image enhancement activities are included within the definitions of public relations at 31.205-1(a) and entertainment at 31.205-14 and are subject to the allowability provisions at 31.205-1(e) and (f) and 31.205-14, respectively. Bid and proposal costs are defined at 31.205-18 and have their allowability controlled by that subsection. Market planning involves market research and analysis and generalized management planning concerned with development of the contractor's business. The allowability of long-range market planning costs is controlled by the provisions of 31.205-12. Other market planning costs are allowable to the extent that they are reasonable and not in excess of the limitations of paragraph (c)(2) of this subsection. Costs of activities which are correctly classified and disallowed under cost principles referenced in this paragraph (b) are not to be reconsidered for reimbursement under any other provision of this subsection.

(c)(1) Direct selling efforts are those acts or actions to induce particular customers to purchase particular products or services of the contractor. Direct selling is characterized by person-to-person contact and includes such activities as familiarizing a potential customer with the contractor's products or services, conditions of sale, service capabilities, etc. It also includes negotiation, liaison between customer and contractor personnel, technical and consulting activities, individual demonstrations, and any other activities having as their purpose the application or adaptation of the contractor's products or services for a particular customer's use. The cost of direct selling efforts is allowable if reasonable in amount.

(2) The costs of broadly targeted and direct selling efforts and market planning other than long-range, that are incurred in connection with a significant effort to promote export sales of products normally sold to the U.S. Government, including the costs of exhibiting and demonstrating such products, are allowable on contracts with the U.S. Government provided the costs are allocable, reasonable, and otherwise allowable under this Subpart 31.2.

(d) The costs of any selling efforts other than those addressed in paragraphs (b) or (c) of this subsection are unallowable.

(e) Costs of the type identified in paragraphs (b), (c), and (d) of this subsection are often commingled on the contractor's books in the selling expense account because these activities are performed by the sales departments. However, identification and segregation of unallowable costs is required under the provisions of 31.201-6 and 30.405, and

such costs are not allowable merely because they are incurred in connection with allowable selling activities.

(f) Notwithstanding any other provision of this subsection, sellers' or agents' compensation, fees, commissions, percentages, retainer or brokerage fees, whether or not contingent upon the award of contracts, are allowable only when paid to bona fide employees or established commercial or selling agencies maintained by the contractor for the purpose of securing business.

### **31.205-39 Service and warranty costs.**

Service and warranty costs include those arising from fulfillment of any contractual obligation of a contractor to provide services such as installation, training, correcting defects in the products, replacing defective parts, and making refunds in the case of inadequate performance. When not inconsistent with the terms of the contract, service and warranty costs are allowable. However, care should be exercised to avoid duplication of the allowance as an element of both estimated product cost and risk.

### **31.205-40 Special tooling and special test equipment costs.**

(a) The terms "special tooling" and "special test equipment" are defined in 45.101.

(b) The cost of special tooling and special test equipment used in performing one or more Government contracts is allowable and shall be allocated to the specific Government contract or contracts for which acquired, except that the cost of—

(1) Items acquired by the contractor before the effective date of the contract (or replacement of such items), whether or not altered or adapted for use in performing the contract, and

(2) Items which the contract schedule specifically excludes, shall be allowable only as depreciation or amortization.

(c) When items are disqualified as special tooling or special test equipment because with relatively minor expense they can be made suitable for general purpose use and have a value as such commensurate with their value as special tooling or special test equipment, the cost of adapting the items for use under the contract and the cost of returning them to their prior configuration are allowable.

### **31.205-41 Taxes.**

(a) The following types of costs are allowable:

(1) Federal, State, and local taxes (see Part 29), except as otherwise provided in paragraph (b) of this section that are required to be and are paid or accrued in accordance with generally accepted accounting principles. Fines and penalties are not considered taxes.

(2) Taxes otherwise allowable under paragraph (a)(1) of this section, but upon which a claim of illegality or erroneous assessment exists; provided the contractor, before paying such taxes—

(i) Promptly requests instructions from the contracting officer concerning such taxes; and

(ii) Takes all action directed by the contracting officer arising out of paragraph (2)(i) of this section or an independent decision of the Government as to the existence of a claim of illegality or erroneous assessment, to—

(A) Determine the legality of the assessment or

(B) Secure a refund of such taxes.

(3) Pursuant to paragraph (a)(2) of this section, the reasonable costs of any action taken by the contractor at the direction or with the concurrence of the contracting officer. Interest or penalties incurred by the contractor for non-payment of any tax at the direction of the contracting officer or by reason of the failure of the contracting officer to ensure timely direction after a prompt request.

(4) The Environmental Tax found at section 59A of the Internal Revenue Code, also called the “Superfund Tax.”

(b) The following types of costs are not allowable:

(1) Federal income and excess profits taxes.

(2) Taxes in connection with financing, refinancing, refunding operations, or reorganizations (see 31.205-20 and 31.205-27).

(3) Taxes from which exemptions are available to the contractor directly, or available to the contractor based on an exemption afforded the Government, except when the contracting officer determines that the administrative burden incident to obtaining the exemption outweighs the corresponding benefits accruing to the Government. When partial exemption from a tax is attributable to Government contract activity, taxes charged to such work in excess of that amount resulting from application of the preferential treatment are unallowable. These provisions intend that tax preference attributable to Government contract activity be realized by the Government. The term “exemption” means freedom from taxation in whole or in part and includes a tax abatement or reduction resulting from mode of assessment, method of calculation, or otherwise.

(4) Special assessments on land that represent capital improvements.

(5) Taxes (including excises) on real or personal property, or on the value, use, possession or sale thereof, which is used solely in connection with work other than on Government contracts (see paragraph (c) of this section).

(6) Any excise tax in subtitle D, chapter 43 of the Internal Revenue Code of 1986, as amended. That chapter includes excise taxes imposed in connection with qualified pension plans, welfare plans, deferred compensation plans, or other similar types of plans.

(7) Income tax accruals designed to account for the tax effects of differences between taxable income and pretax income as reflected by the books of account and financial statements.

(c) Taxes on property (see paragraph (b)(5) of this section) used solely in connection with either non-Government or Government work should be considered directly applicable to the respective category of work unless the amounts involved are insignificant or comparable results would otherwise be obtained; *e.g.*, taxes on contractor-owned work-in-process which is used solely in connection with non-Government work should be allocated to such work; taxes on contractor-owned work-in-process inventory (and Government-owned work-in-process inventory when taxed) used solely in connection with Government work should be charged to such work. The cost of taxes incurred on property used in both Government and non-Government work shall be apportioned to all such work based upon the use of such property on the respective final cost objectives.

(d) Any taxes, interest, or penalties that were allowed as contract costs and are refunded to the contractor shall be credited or paid to the Government in the manner it directs. If a contractor or subcontractor obtains a foreign tax credit that reduces its U.S. Federal income tax because of the payment of any tax or duty allowed as contract costs, and if those costs were reimbursed by a foreign government, the amount of the reduction shall be paid to the Treasurer of the United States at the time the Federal income tax return is filed. However, any interest actually paid or credited to a contractor incident to a refund of tax, interest, or penalty shall be paid or credited to the Government only to the extent that such interest accrued over the period during which the contractor had been reimbursed by the Government for the taxes, interest, or penalties.

#### **31.205-42 Termination costs.**

Contract terminations generally give rise to the incurrance of costs or the need for special treatment of costs that would not have arisen had the contract not been terminated. The following cost principles peculiar to termination situations are to be used in conjunction with the other cost principles in Subpart 31.2:

(a) *Common items.* The costs of items reasonably usable on the contractor’s other work shall not be allowable unless the contractor submits evidence that the items could not be retained at cost without sustaining a loss. The contracting officer should consider the contractor’s plans and orders for current and planned production when determining if items can reasonably be used on other work of the contractor. Contemporaneous purchases of common items by the contractor shall be regarded as evidence that such items are reasonably usable on the contractor’s other work. Any acceptance of common items as allocable to the terminated portion of the

contract should be limited to the extent that the quantities of such items on hand, in transit, and on order are in excess of the reasonable quantitative requirements of other work.

(b) *Costs continuing after termination.* Despite all reasonable efforts by the contractor, costs which cannot be discontinued immediately after the effective date of termination are generally allowable. However, any costs continuing after the effective date of the termination due to the negligent or willful failure of the contractor to discontinue the costs shall be unallowable.

(c) *Initial costs.* Initial costs, including starting load and preparatory costs, are allowable as follows:

(1) Starting load costs not fully absorbed because of termination are nonrecurring labor, material, and related overhead costs incurred in the early part of production and result from factors such as—

- (i) Excessive spoilage due to inexperienced labor;
- (ii) Idle time and subnormal production due to testing and changing production methods;
- (iii) Training; and
- (iv) Lack of familiarity or experience with the product, materials, or manufacturing processes.

(2) Preparatory costs incurred in preparing to perform the terminated contract include such costs as those incurred for initial plant rearrangement and alterations, management and personnel organization, and production planning. They do not include special machinery and equipment and starting load costs.

(3) When initial costs are included in the settlement proposal as a direct charge, such costs shall not also be included in overhead. Initial costs attributable to only one contract shall not be allocated to other contracts.

(4) If initial costs are claimed and have not been segregated on the contractor's books, they shall be segregated for settlement purposes from cost reports and schedules reflecting that high unit cost incurred during the early stages of the contract.

(5) If the settlement proposal is on the inventory basis, initial costs should normally be allocated on the basis of total end items called for by the contract immediately before termination; however, if the contract includes end items of a diverse nature, some other equitable basis may be used, such as machine or labor hours.

(d) *Loss of useful value.* Loss of useful value of special tooling, and special machinery and equipment is generally allowable, provided—

(1) The special tooling, or special machinery and equipment is not reasonably capable of use in the other work of the contractor;

(2) The Government's interest is protected by transfer of title or by other means deemed appropriate by the contracting officer; and

(3) The loss of useful value for any one terminated contract is limited to that portion of the acquisition cost which bears the same ratio to the total acquisition cost as the terminated portion of the contract bears to the entire terminated contract and other Government contracts for which the special tooling, or special machinery and equipment was acquired.

(e) *Rental under unexpired leases.* Rental costs under unexpired leases, less the residual value of such leases, are generally allowable when shown to have been reasonably necessary for the performance of the terminated contract, if—

(1) The amount of rental claimed does not exceed the reasonable use value of the property leased for the period of the contract and such further period as may be reasonable; and

(2) The contractor makes all reasonable efforts to terminate, assign, settle, or otherwise reduce the cost of such lease.

(f) *Alterations of leased property.* The cost of alterations and reasonable restorations required by the lease may be allowed when the alterations were necessary for performing the contract.

(g) *Settlement expenses.* (1) Settlement expenses, including the following, are generally allowable:

(i) Accounting, legal, clerical, and similar costs reasonably necessary for—

(A) The preparation and presentation, including supporting data, of settlement claims to the contracting officer; and

(B) The termination and settlement of subcontracts.

(ii) Reasonable costs for the storage, transportation, protection, and disposition of property acquired or produced for the contract.

(iii) Indirect costs related to salary and wages incurred as settlement expenses in (i) and (ii); normally, such indirect costs shall be limited to payroll taxes, fringe benefits, occupancy costs, and immediate supervision costs.

(2) If settlement expenses are significant, a cost account or work order shall be established to separately identify and accumulate them.

(h) *Subcontractor claims.* Subcontractor claims, including the allocable portion of the claims common to the contract and to other work of the contractor, are generally allowable. An appropriate share of the contractor's indirect expense may be allocated to the amount of settlements with subcontractors; provided, that the amount allocated is reasonably proportionate to the relative benefits received and is otherwise consistent with 31.201-4 and 31.203(c). The indirect expense so allocated shall exclude the same and similar costs claimed directly or indirectly as settlement expenses.

**31.205-43 Trade, business, technical and professional activity costs.**

The following types of costs are allowable:

(a) Memberships in trade, business, technical, and professional organizations.

(b) Subscriptions to trade, business, professional, or other technical periodicals.

(c) When the principal purpose of a meeting, convention, conference, symposium, or seminar is the dissemination of trade, business, technical or professional information or the stimulation of production or improved productivity—

(1) Costs of organizing, setting up, and sponsoring the meetings, conventions, symposia, etc., including rental of meeting facilities, transportation, subsistence, and incidental costs;

(2) Costs of attendance by contractor employees, including travel costs (see 31.205-46); and

(3) Costs of attendance by individuals who are not employees of the contractor, provided—

(i) Such costs are not also reimbursed to the individual by the employing company or organization, and

(ii) The individuals attendance is essential to achieve the purpose of the conference, meeting, convention, symposium, etc.

**31.205-44 Training and education costs.**

(a) *Allowable costs.* Training and education costs are allowable to the extent indicated below.

(b) *Vocational training.* Costs of preparing and maintaining a noncollege level program of instruction, including but not limited to on-the-job, classroom, and apprenticeship training, designed to increase the vocational effectiveness of employees, are allowable. These costs include—

(1) Salaries or wages of trainees (excluding overtime compensation),

(2) Salaries of the director of training and staff when the training program is conducted by the contractor,

(3) Tuition and fees when the training is in an institution not operated by the contractor, and/or

(4) Training materials and textbooks.

(c) *Part-time college level education.* Allowable costs of part-time college education at an undergraduate or postgraduate level, including that provided at the contractor's own facilities, are limited to—

(1) Fees and tuition charged by the educational institution, or, instead of tuition, instructors' salaries and the related share of indirect cost of the educational institution, to the extent that the sum thereof is not in excess of the tuition that would have been paid to the participating educational institution;

(2) Salaries and related costs of instructors who are employees of the contractor;

(3) Training materials and textbooks; and

(4) Straight-time compensation of each employee for time spent attending classes during working hours not in excess of 156 hours per year where circumstances do not permit the operation of classes or attendance at classes after regular working hours. In unusual cases, the period may be extended (see paragraph (h) of this subsection).

(d) *Full-time education.* Costs of tuition, fees, training materials and textbooks (but not subsistence, salary, or any other emoluments) in connection with full-time education, including that provided at the contractor's own facilities, at a postgraduate but not undergraduate college level, are allowable only when the course or degree pursued is related to the field in which the employee is working or may reasonably be expected to work and are limited to a total period not to exceed 2 school years or the length of the degree program, whichever is less, for each employee so trained.

(e) *Specialized programs.* Costs of attendance of up to 16 weeks per employee per year at specialized programs specifically designed to enhance the effectiveness of managers or to prepare employees for such positions are allowable. Such costs include enrollment fees and related charges and employees' salaries, subsistence, training materials, textbooks, and travel. Costs allowable under this paragraph do not include costs for courses that are part of a degree-oriented curriculum, which are only allowable pursuant to paragraphs (c) and (d) of this subsection.

(f) *Other expenses.* Maintenance expense and normal depreciation or fair rental on facilities owned or leased by the contractor for training purposes are allowable in accordance with 31.205-11, 31.205-17, 31.205-24, and 31.205-36.

(g) *Grants.* Grants to educational or training institutions, including the donation of facilities or other properties, scholarships, and fellowships are considered contributions and are unallowable.

(h) *Advance agreements.* (1) Training and education costs in excess of those otherwise allowable under paragraphs (c) and (d) of this subsection, including subsistence, salaries or any other emoluments, may be allowed to the extent set forth in an advance agreement negotiated under 31.109. To be considered for an advance agreement, the contractor must demonstrate that the costs are consistently incurred under an established managerial, engineering, or scientific training and education program, and that the course or degree pursued is related to the field in which the employees are now working or may reasonably be expected to work. Before entering into the advance agreement, the contracting officer shall give consideration to such factors as—

(i) The length of employees' service with the contractor;

(ii) Employees' past performance and potential;

(iii) Whether employees are in formal development programs; and

(iv) The total number of participating employees.

(2) Any advance agreement must include a provision requiring the contractor to refund to the Government training and education costs for employees who resign within 12 months of completion of such training or education for reasons within an employee's control.

(i) *Training or education costs for other than bona fide employees.* Costs of tuition, fees, textbooks, and similar or related benefits provided for other than bona fide employees are unallowable, except that the costs incurred for educating employee dependents (primary and secondary level studies) when the employee is working in a foreign country where public education is not available and where suitable private education is inordinately expensive may be included in overseas differential.

(j) *Employee dependent education plans.* Costs of college plans for employee dependents are unallowable.

### 31.205-45 Transportation costs.

Allowable transportation costs include freight, express, cartage, and postage charges relating to goods purchased, in process, or delivered. When these costs can be identified with the items involved, they may be directly costed as transportation costs or added to the cost of such items. When identification with the materials received cannot be made, inbound transportation costs may be charged to the appropriate indirect cost accounts if the contractor follows a consistent and equitable procedure. Outbound freight, if reimbursable under the terms of the contract, shall be treated as a direct cost.

### 31.205-46 Travel costs.

(a) *Costs for transportation, lodging, meals, and incidental expenses.* (1) Costs incurred by contractor personnel on official company business are allowable, subject to the limitations contained in this subsection. Costs for transportation may be based on mileage rates, actual costs incurred, or on a combination thereof, provided the method used results in a reasonable charge. Costs for lodging, meals, and incidental expenses may be based on per diem, actual expenses, or a combination thereof, provided the method used results in a reasonable charge.

(2) Except as provided in paragraph (a)(3) of this subsection, costs incurred for lodging, meals, and incidental expenses (as defined in the regulations cited in (a)(2)(i) through (iii) of this paragraph) shall be considered to be reasonable and allowable only to the extent that they do not exceed on a daily basis the maximum per diem rates in effect at the time of travel as set forth in the—

(i) Federal Travel Regulations, prescribed by the General Services Administration, for travel in the conterminous 48 United States, available on a subscription basis from the:

Superintendent of Documents  
U.S. Government Printing Office  
Washington DC 20402

Stock No. 922-002-00000-2

(ii) Joint Travel Regulation, Volume 2, DoD Civilian Personnel, Appendix A, prescribed by the Department of Defense, for travel in Alaska, Hawaii, The Commonwealth of Puerto Rico, and territories and possessions of the United States, available on a subscription basis from the—

Superintendent of Documents  
U.S. Government Printing Office  
Washington DC 20402

Stock No. 908-010-00000-1; or

(iii) Standardized Regulations (Government Civilians, Foreign Areas), Section 925, "Maximum Travel Per Diem Allowances for Foreign Areas," prescribed by the Department of State, for travel in areas not covered in (a)(2)(i) and (ii) of this paragraph, available on a subscription basis from the—

Superintendent of Documents  
U.S. Government Printing Office  
Washington, DC 20402

Stock No. 744-008-00000-0

(3) In special or unusual situations, actual costs in excess of the above-referenced maximum per diem rates are allowable provided that such amounts do not exceed the higher amounts authorized for Federal civilian employees as permitted in the regulations referenced in (a)(2)(i), (ii), or (iii) of this subsection. For such higher amounts to be allowable, all of the following conditions must be met:

(i) One of the conditions warranting approval of the actual expense method, as set forth in the regulations referenced in paragraphs (a)(2)(i), (ii), or (iii) of this subsection, must exist.

(ii) A written justification for use of the higher amounts must be approved by an officer of the contractor's organization or designee to ensure that the authority is properly administered and controlled to prevent abuse.

(iii) If it becomes necessary to exercise the authority to use the higher actual expense method repetitively or on a continuing basis in a particular area, the contractor must obtain advance approval from the contracting officer.

(iv) Documentation to support actual costs incurred shall be in accordance with the contractor's established practices, subject to paragraph (a)(7) of this subsection, and provided that a receipt is required for each expenditure of \$75.00 or more. The approved justification required by paragraph (a)(3)(ii) and, if applicable, paragraph (a)(3)(iii) of this subsection must be retained.

(4) Paragraphs (a)(2) and (a)(3) of this subsection do not incorporate the regulations cited in subdivisions (a)(2)(i), (ii), and (iii) of this subsection in their entirety. Only the maximum per diem rates, the definitions of lodging, meals, and incidental expenses, and the regulatory coverage dealing with special or unusual situations are incorporated herein.

(5) An advance agreement (see 31.109) with respect to compliance with paragraphs (a)(2) and (a)(3) of this subsection may be useful and desirable.

(6) The maximum per diem rates referenced in paragraph (a)(2) of this subsection generally would not constitute a reasonable daily charge—

(i) When no lodging costs are incurred; and/or

(ii) On partial travel days (*e.g.*, day of departure and return).

Appropriate downward adjustments from the maximum per diem rates would normally be required under these circumstances. While these adjustments need not be calculated in accordance with the Federal Travel Regulation or Joint Travel Regulations, they must result in a reasonable charge.

(7) Costs shall be allowable only if the following information is documented—

(i) Date and place (city, town, or other similar designation) of the expenses;

(ii) Purpose of the trip; and

(iii) Name of person on trip and that person's title or relationship to the contractor.

(b) Travel costs incurred in the normal course of overall administration of the business are allowable and shall be treated as indirect costs.

(c) Travel costs directly attributable to specific contract performance are allowable and may be charged to the contract under 31.202.

(d) Airfare costs in excess of the lowest customary standard, coach, or equivalent airfare offered during normal business hours are unallowable except when such accommodations require circuitous routing, require travel during unreasonable hours, excessively prolong travel, result in increased cost that would offset transportation savings, are not reasonably adequate for the physical or medical needs of the traveler, or are not reasonably available to meet mission requirements. However, in order for airfare costs in excess of the above standard airfare to be allowable, the applicable condition(s) set forth above must be documented and justified.

(e)(1) "Cost of travel by contractor-owned, -leased, or -chartered aircraft," as used in this paragraph, includes the cost of lease, charter, operation (including personnel), maintenance, depreciation, insurance, and other related costs.

(2) The costs of travel by contractor-owned, -leased, or -chartered aircraft are limited to the standard airfare described in paragraph (d) of this subsection for the flight destination unless travel by such aircraft is specifically required by contract specification, term, or condition, or a higher amount is approved by the contracting officer. A higher amount may be agreed to when one or more of the circumstances for justifying higher than standard airfare listed in paragraph (d) of this subsection are applicable, or when an advance agreement under paragraph (e)(3) of this subsection has been executed. In all cases, travel by contractor-owned, -leased, or -chartered aircraft must be fully documented and justified. For each contractor-owned, -leased, or -chartered aircraft used for any business purpose which is charged or allocated, directly or indirectly, to a Government contract, the contractor must maintain and make available manifest/logs for all flights on such company aircraft. As a minimum, the manifest/log shall indicate—

(i) Date, time, and points of departure;

(ii) Destination, date, and time of arrival;

(iii) Name of each passenger and relationship to the contractor;

(iv) Authorization for trip; and

(v) Purpose of trip.

(3) Where an advance agreement is proposed (see 31.109), consideration may be given to the following:

(i) Whether scheduled commercial airlines or other suitable, less costly, travel facilities are available at reasonable times, with reasonable frequency, and serve the required destinations conveniently.

(ii) Whether increased flexibility in scheduling results in time savings and more effective use of personnel that would outweigh additional travel costs.

(f) Costs of contractor-owned or -leased automobiles, as used in this paragraph, include the costs of lease, operation (including personnel), maintenance, depreciation, insurance, etc. These costs are allowable, if reasonable, to the extent that the automobiles are used for company business. That portion of the cost of company-furnished automobiles that relates to personal use by employees (including transportation to and from work) is compensation for personal services and is unallowable as stated in 31.205-6(m)(2).

### **31.205-47 Costs related to legal and other proceedings.**

(a) *Definitions.* As used in this subpart—

"Costs" include, but are not limited to, administrative and clerical expenses; the costs of legal services, whether performed by in-house or private counsel; the costs of the services of accountants, consultants, or others retained by the contractor to assist it; costs of employees, officers, and directors; and any similar costs incurred before, during, and after commencement of a judicial or administrative proceeding which bears a direct relationship to the proceeding.

“Fraud,” as used in this subsection, means—

(1) Acts of fraud or corruption or attempts to defraud the Government or to corrupt its agents;

(2) Acts which constitute a cause for debarment or suspension under 9.406-2(a) and 9.407-2(a); and

(3) Acts which violate the False Claims Act, 31 U.S.C., sections 3729-3731, or the Anti-Kickback Act, 41 U.S.C., sections 51 and 54.

“Penalty,” does not include restitution, reimbursement, or compensatory damages.

“Proceeding,” includes an investigation.

(b) Costs incurred in connection with any proceeding brought by a Federal, State, local, or foreign government for violation of, or a failure to comply with, law or regulation by the contractor (including its agents or employees), or costs incurred in connection with any proceeding brought by a third party in the name of the United States under the False Claims Act, 31 U.S.C. 3730, are unallowable if the result is—

(1) In a criminal proceeding, a conviction;

(2) In a civil or administrative proceeding, either a finding of contractor liability where the proceeding involves an allegation of fraud or similar misconduct or imposition of a monetary penalty where the proceeding does not involve an allegation of fraud or similar misconduct;

(3) A final decision by an appropriate official of an executive agency to—

(i) Debar or suspend the contractor;

(ii) Rescind or void a contract; or

(iii) Terminate a contract for default by reason of a violation or failure to comply with a law or regulation.

(4) Disposition of the matter by consent or compromise if the proceeding could have led to any of the outcomes listed in paragraphs (b)(1) through (3) of this subsection (but see paragraphs (c) and (d) of this subsection); or

(5) Not covered by paragraphs (b)(1) through (4) of this subsection, but where the underlying alleged contractor misconduct was the same as that which led to a different proceeding whose costs are unallowable by reason of paragraphs (b)(1) through (4) of this subsection.

(c)(1) To the extent they are not otherwise unallowable, costs incurred in connection with any proceeding under paragraph (b) of this subsection commenced by the United States that is resolved by consent or compromise pursuant to an agreement entered into between the contractor and the United States, and which are unallowable solely because of paragraph (b) of this subsection, may be allowed to the extent specifically provided in such agreement

(2) In the event of a settlement of any proceeding brought by a third party under the False Claims Act in which the United States did not intervene, reasonable costs incurred by the contractor in connection with such a proceeding, that

are not otherwise unallowable by regulation or by separate agreement with the United States, may be allowed if the contracting officer, in consultation with his or her legal advisor, determines that there was very little likelihood that the third party would have been successful on the merits.

(d) To the extent that they are not otherwise unallowable, costs incurred in connection with any proceeding under paragraph (b) of this subsection commenced by a State, local, or foreign government may be allowable when the contracting officer (or other official specified in agency procedures) determines, that the costs were incurred either:

(1) As a direct result of a specific term or condition of a Federal contract; or

(2) As a result of compliance with specific written direction of the cognizant contracting officer.

(e) Costs incurred in connection with proceedings described in paragraph (b) of this subsection, but which are not made unallowable by that paragraph, may be allowable to the extent that:

(1) The costs are reasonable in relation to the activities required to deal with the proceeding and the underlying cause of action;

(2) The costs are not otherwise recovered from the Federal Government or a third party, either directly as a result of the proceeding or otherwise; and

(3) The percentage of costs allowed does not exceed the percentage determined to be appropriate considering the complexity of procurement litigation, generally accepted principles governing the award of legal fees in civil actions involving the United States as a party, and such other factors as may be appropriate. Such percentage shall not exceed 80 percent. Agreements reached under paragraph (c) of this subsection shall be subject to this limitation. If, however, an agreement described in paragraph (c)(1) of this subsection explicitly states the amount of otherwise allowable incurred legal fees and limits the allowable recovery to 80 percent or less of the stated legal fees, no additional limitation need be applied. The amount of reimbursement allowed for legal costs in connection with any proceeding described in paragraph (c)(2) of this subsection shall be determined by the cognizant contracting officer, but shall not exceed 80 percent of otherwise allowable legal costs incurred.

(f) Costs not covered elsewhere in this subsection are unallowable if incurred in connection with:

(1) Defense against Federal Government claims or appeals or the prosecution of claims or appeals against the Federal Government (see 33.201).

(2) Organization, reorganization, (including mergers and acquisitions) or resisting mergers and acquisitions (see also 31.205-27).

(3) Defense of antitrust suits.

(4) Defense of suits brought by employees or ex-employees of the contractor under section 2 of the Major Fraud Act of 1988 where the contractor was found liable or settled.

(5) Costs of legal, accounting, and consultant services and directly associated costs incurred in connection with the defense or prosecution of lawsuits or appeals between contractors arising from either—

(i) An agreement or contract concerning a teaming arrangement, a joint venture, or similar arrangement of shared interest; or

(ii) Dual sourcing, coproduction, or similar programs, are unallowable, except when—

(A) Incurred as a result of compliance with specific terms and conditions of the contract or written instructions from the contracting officer, or

(B) When agreed to in writing by the contracting officer.

(6) Patent infringement litigation, unless otherwise provided for in the contract.

(7) Representation of, or assistance to, individuals, groups, or legal entities which the contractor is not legally bound to provide, arising from an action where the participant was convicted of violation of a law or regulation or was found liable in a civil or administrative proceeding.

(8) Protests of Federal Government solicitations or contract awards, or the defense against protests of such solicitations or contract awards, unless the costs of defending against a protest are incurred pursuant to a written request from the cognizant contracting officer.

(g) Costs which may be unallowable under 31.205-47, including directly associated costs, shall be segregated and accounted for by the contractor separately. During the pendency of any proceeding covered by paragraph (b) and paragraphs (f)(4) and (f)(7) of this subsection, the contracting officer shall generally withhold payment of such costs. However, if in the best interests of the Government, the contracting officer may provide for conditional payment upon provision of adequate security, or other adequate assurance, and agreement by the contractor to repay all unallowable costs, plus interest, if the costs are subsequently determined to be unallowable.

#### **31.205-48 Deferred research and development costs.**

“Research and development,” as used in this section, means the type of technical effort described in 31.205-18 but sponsored by a grant or required in the performance of a contract. When costs are incurred in excess of either the price of a contract or amount of a grant for research and development effort, the excess is unallowable under any other Government contract.

#### **31.205-49 Goodwill.**

Goodwill, an unidentifiable intangible asset, originates under the purchase method of accounting for a business combination when the price paid by the acquiring company exceeds the sum of the identifiable individual assets acquired less liabilities assumed, based upon their fair values. The excess is commonly referred to as goodwill. Goodwill may arise from the acquisition of a company as a whole or a portion thereof. Any costs for amortization, expensing, write-off, or write-down of goodwill (however represented) are unallowable.

#### **31.205-50 [Reserved]**

#### **31.205-51 Costs of alcoholic beverages.**

Costs of alcoholic beverages are unallowable.

#### **31.205-52 Asset valuations resulting from business combinations.**

(a) For tangible capital assets, when the purchase method of accounting for a business combination is used, whether or not the contract or subcontract is subject to CAS, the allowable depreciation and cost of money shall be based on the capitalized asset values measured and assigned in accordance with 48 CFR 9904.404-50(d), if allocable, reasonable, and not otherwise unallowable.

(b) For intangible capital assets, when the purchase method of accounting for a business combination is used, allowable amortization and cost of money shall be limited to the total of the amounts that would have been allowed had the combination not taken place.

---

**Subpart 31.3—Contracts with Educational Institutions****31.301 Purpose.**

This subpart provides the principles for determining the cost of research and development, training, and other work performed by educational institutions under contracts with the Government.

**31.302 General.**

Office of Management and Budget (OMB) Circular No. A-21, Cost Principles for Educational Institutions, revised, provides principles for determining the costs applicable to

research and development, training, and other work performed by educational institutions under contracts with the Government.

**31.303 Requirements.**

(a) Contracts that refer to this Subpart 31.3 for determining allowable costs under contracts with educational institutions shall be deemed to refer to, and shall have the allowability of costs determined by the contracting officer in accordance with, the revision of OMB Circular A-21 in effect on the date of the contract.

(b) Agencies are not expected to place additional restrictions on individual items of cost.

**Subpart 31.4—[Reserved]**

**Subpart 31.5—[Reserved]**

## **Subpart 31.6—Contracts with State, Local, and Federally Recognized Indian Tribal Governments**

### **31.601 Purpose.**

This subpart provides the principles for determining allowable cost of contracts and subcontracts with State, local, and federally recognized Indian tribal governments.

### **31.602 General.**

Office of Management and Budget (OMB) Circular No. A-87, Cost Principles for State and Local Governments, Revised, sets forth the principles for determining the allowable costs of contracts and subcontracts with State, local, and federally recognized Indian tribal governments. These principles are for cost determination and are not intended to identify the circumstances or dictate the extent of Federal and State or local participation in financing a particular contract.

### **31.603 Requirements.**

(a) Contracts that refer to this Subpart 31.6 for determining allowable costs under contracts with State, local and Indian tribal governments shall be deemed to refer to, and shall have the allowability of costs determined by the contracting officer in accordance with, the revision of OMB Circular A-87 which is in effect on the date of the contract.

(b) Agencies are not expected to place additional restrictions on individual items of cost. However, under 10 U.S.C. 2324(e) and 41 U.S.C. 256(e), the following costs are unallowable:

(1) Costs of entertainment, including amusement, diversion, and social activities, and any costs directly associated with such costs (such as tickets to shows or sports events, meals, lodging, rentals, transportation, and gratuities).

(2) Costs incurred to influence (directly or indirectly) legislative action on any matter pending before Congress, a State legislature, or a legislative body of a political subdivision of a State.

(3) Costs incurred in defense of any civil or criminal fraud proceeding or similar proceeding (including filing of any false certification) brought by the United States where the contractor is found liable or has pleaded nolo contendere to a charge of fraud or similar proceeding (including filing of a false certification).

(4) Payments of fines and penalties resulting from violations of, or failure to comply with, Federal, state, local, or foreign laws and regulations, except when incurred as a result of compliance with specific terms and conditions of

the contract or specific written instructions from the contracting officer authorizing in advance such payments in accordance with applicable regulations in the FAR or an executive agency supplement to the FAR.

(5) Costs of any membership in any social, dining, or country club or organization.

(6) Costs of alcoholic beverages.

(7) Contributions or donations, regardless of the recipient.

(8) Costs of advertising designed to promote the contractor or its products.

(9) Costs of promotional items and memorabilia, including models, gifts, and souvenirs.

(10) Costs for travel by commercial aircraft which exceed the amount of the standard commercial fare.

(11) Costs incurred in making any payment (commonly known as a “golden parachute payment”) which is—

(i) In an amount in excess of the normal severance pay paid by the contractor to an employee upon termination of employment; and

(ii) Is paid to the employee contingent upon, and following, a change in management control over, or ownership of, the contractor or a substantial portion of the contractor's assets.

(12) Costs of commercial insurance that protects against the costs of the contractor for correction of the contractor's own defects in materials or workmanship.

(13) Costs of severance pay paid by the contractor to foreign nationals employed by the contractor under a service contract performed outside the United States, to the extent that the amount of the severance pay paid in any case exceeds the amount paid in the industry involved under the customary or prevailing practice for firms in that industry providing similar services in the United States, as determined by regulations in the FAR or in an executive agency supplement to the FAR.

(14) Costs of severance pay paid by the contractor to a foreign national employed by the contractor under a service contract performed in a foreign country if the termination of the employment of the foreign national is the result of the closing of, or curtailment of activities at, a United States facility in that country at the request of the government of that country.

(15) Costs incurred by a contractor in connection with any criminal, civil, or administrative proceedings commenced by the United States or a State, to the extent provided in 10 U.S.C. 2324(k) or 41 U.S.C. 256(k).

**Subpart 31.7—Contracts with Nonprofit Organizations**

**31.701 Purpose.**

This subpart provides the principles for determining the cost applicable to work performed by nonprofit organizations under contracts with the Government. A nonprofit organization, for purpose of identification, is defined as a business entity organized and operated exclusively for charitable, scientific, or educational purposes, of which no part of the net earnings inure to the benefit of any private shareholder or individual, of which no substantial part of the activities is carrying on propaganda or otherwise attempting to influence legislation or participating in any political campaign on behalf of any candidate for public office, and which are exempt from Federal income taxation under section 501 of the Internal Revenue Code.

**31.702 General.**

Office of Management and Budget (OMB) Circular No. A-122, Cost Principles for Nonprofit Organizations, sets forth principles for determining the costs applicable to work performed by nonprofit organizations under contracts (also applies to grants and other agreements) with the Government.

**31.703 Requirements.**

(a) Contracts which refer to this Subpart 31.7 for determining allowable costs shall be deemed to refer to, and shall have the allowability of costs determined by the contracting officer in accordance with, the revision of OMB Circular A-122 in effect on the date of the contract.

(b) Agencies are not expected to place additional restrictions on individual items of cost. However, under 10 U.S.C. 2324(e) and 41 U.S.C. 256(e), the costs cited in 31.603(b) are unallowable.

### Subpart 32.1—Non-Commercial Item Purchase Financing

- |          |   |
|----------|---|
| 32.100   | Scope of subpart.   |
| 32.101   | Authority.  |
| 32.102   | Description of contract financing methods.                            |
| 32.103   | Progress payments under construction contracts.                       |
| 32.104   | Providing contract financing.   |
| 32.105   | Uses of contract financing.   |
| 32.106   | Order of preference.  |
| 32.107   | Need for contract financing not a deterrent.                          |
| 32.108   | Financial consultation.   |
| 32.109   | Termination financing.  |
| 32.110   | Payment of subcontractors under cost-reimbursement prime contracts.   |
| 32.111   | Contract clauses for non-commercial purchases.                        |
| 32.112   | Nonpayment of subcontractors under contracts for noncommercial items. |
| 32.112-1 | Subcontractor assertions of nonpayment.                               |
| 32.112-2 | Subcontractor requests for information.                               |
| 32.113   | Customary contract financing.   |
| 32.114   | Unusual contract financing.   |

### Subpart 32.2—Commercial Item Purchase Financing

- |          |   |
|----------|---|
| 32.200   | Scope of subpart.   |
| 32.201   | Statutory authority.  |
| 32.202   | General.  |
| 32.202-1 | Policy.   |
| 32.202-2 | Types of payments for commercial item purchases.                            |
| 32.202-3 | Conducting market research about financing terms.                           |
| 32.202-4 | Security for Government financing.  |
| 32.203   | Determining contract financing terms.                                       |
| 32.204   | Procedures for contracting officer-specified commercial contract financing. |
| 32.205   | Procedures for offeror-proposed commercial contract financing.              |

### Subpart 32.3—Loan Guarantees for Defense Production

- |          |  |
|----------|--|
| 32.300   | Scope of subpart.                          |
| 32.301   | Definitions.                               |
| 32.302   | Authority.                                 |

| 32.405   | Applying Pub. L. 85-804 to advance payments under sealed bid contracts. |
| 32.406   | Letters of credit.  |
| 32.407   | Interest.   |
| 32.408   | Application for advance payments.                                       |
| 32.409   | Contracting officer action.   |
| 32.409-1 | Recommendation for approval.  |
| 32.409-2 | Recommendation for disapproval  |
| 32.409-3 | Security, supervision, and covenants.                                   |
| 32.410   | Findings, determination, and authorization.                             |
| 32.411   | Agreement for special account at a financial institution.               |
| 32.412   | Contract clause.  |

### Subpart 32.5—Progress Payments Based on Costs

- |          |                                   |
|----------|-----------------------------------|
| 32.500   | Scope of subpart.                 |
| 32.501   | General.                          |
| 32.501-1 | Customary progress payment rates. |
| 32.501-2 | Unusual progress payments.        |
| 32.501-3 | Contract price.                   |
| 32.501-4 | [Reserved]                        |
| 32.501-5 | Other protective terms.           |
| 32.502   | Preaward matters.                 |

<p>32.502-1 Use of customary progress payments.          32.502-2 Contract finance office clearance.          32.502-3 Solicitation provisions.          32.502-4 Contract clauses.          32.503 Postaward matters.          32.503-1 Contractor requests.          32.503-2 Supervision of progress payments.          32.503-3 Initiation of progress payments and review of accounting system.          32.503-4 Approval of progress payment requests.          32.503-5 Administration of progress payments.          32.503-6 Suspension or reduction of payments.          32.503-7 [Reserved]          32.503-8 Liquidation rates—ordinary method.          32.503-9 Liquidation rates—alternate method.          32.503-10 Establishing alternate liquidation rates.          32.503-11 Adjustments for price reduction.          32.503-12 Maximum unliquidated amount.          32.503-13 [Reserved]          32.503-14 Protection of Government title.          32.503-15 Application of Government title terms.          32.503-16 Risk of loss.          32.504 Subcontracts under prime contracts providing progress payments.</p> <p style="text-align: center;"><b>Subpart 32.6—Contract Debts</b></p> <p>32.600 Scope of subpart.          32.601 Definition.          32.602 General.          32.603 Applicability.          32.604 Exclusions.          32.605 Responsibilities and cooperation among Government officials.          32.606 Debt determination and collection.          32.607 Tax credit.          32.608 Negotiation of contract debts.          32.609 Memorandum of pricing agreement with refund.          32.610 Demand for payment of contract debt.          32.611 Routine setoff.          32.612 Withholding and setoff.          32.613 Deferment of collection.          32.614 Interest.          32.614-1 Interest charges.          32.614-2 Interest credits.          32.615 Delays in receipt of notices or demands.          32.616 Compromise actions.          32.617 Contract clause.</p> <p style="text-align: center;"><b>Subpart 32.7—Contract Funding</b></p> <p>32.700 Scope of subpart.          32.701 [Reserved]          32.702 Policy.          32.703 Contract funding requirements.          32.703-1 General.</p>	<p>32.703-2 Contracts conditioned upon availability of funds.          32.703-3 Contracts crossing fiscal years.          32.704 Limitation of cost or funds.          32.705 Contract clauses.          32.705-1 Clauses for contracting in advance of funds.          32.705-2 Clauses for limitation of cost or funds.</p> <p style="text-align: center;"><b>Subpart 32.8—Assignment of Claims</b></p> <p>32.800 Scope of subpart.          32.801 Definitions.          32.802 Conditions.          32.803 Policies.          32.804 Extent of assignee’s protection.          32.805 Procedure.          32.806 Contract clauses.</p> <p style="text-align: center;"><b>Subpart 32.9—Prompt Payment</b></p> <p>32.900 Scope of subpart.          32.901 Applicability.          32.902 Definitions.          32.903 Responsibilities.          32.904 Determining payment due dates.          32.905 Payment documentation and process.          32.906 Making payments.          32.907 Interest penalties.          32.908 Contract clauses.          32.909 Contractor inquiries.</p> <p style="text-align: center;"><b>Subpart 32.10—Performance-Based Payments</b></p> <p>32.1000 Scope of subpart.          32.1001 Policy.          32.1002 Bases for performance-based payments.          32.1003 Criteria for use.          32.1004 Procedures.          32.1005 Solicitation provision and contract clause.          32.1006 [Reserved]          32.1007 Administration and payment of performance-based payments.          32.1008 Suspension or reduction of performance-based payments.          32.1009 Title.          32.1010 Risk of loss.</p> <p style="text-align: center;"><b>Subpart 32.11—Electronic Funds Transfer</b></p> <p>32.1100 Scope of subpart.          32.1101 Statutory requirements.          32.1102 Definitions.          32.1103 Applicability.          32.1104 Protection of EFT information.          32.1105 Assignment of claims.          32.1106 EFT mechanisms.          32.1107 Payment information.          32.1108 Payment by Governmentwide commercial purchase card.          32.1109 EFT information submitted by offerors.          32.1110 Solicitation provision and contract clauses.</p>
---	---

**32.000 Scope of part.**

This part prescribes policies and procedures for contract financing and other payment matters. This includes—

- (a) Payment methods, including partial payments and progress payments based on percentage or stage of completion;
- (b) Loan guarantees, advance payments, and progress payments based on costs;
- (c) Administration of debts to the Government arising out of contracts;
- (d) Contract funding, including the use of contract clauses limiting costs or funds;
- (e) Assignment of claims to aid in private financing;
- (f) Selected payment clauses;
- (g) Financing of purchases of commercial items;
- (h) Performance-based payments; and
- (i) Electronic funds transfer payments.

**32.001 Definitions.**

As used in this part—

“Commercial interim payment” means any payment that is not a commercial advance payment or a delivery payment. These payments are contract financing payments for prompt payment purposes (*i.e.*, not subject to the interest penalty provisions of the Prompt Payment Act in accordance with Subpart 32.9). A commercial interim payment is given to the contractor after some work has been done, whereas a commercial advance payment is given to the contractor when no work has been done.

“Contract action” means an action resulting in a contract, as defined in FAR Subpart 2.1, including contract modifications for additional supplies or services, but not including contract modifications that are within the scope and under the terms of the contract, such as contract modifications issued pursuant to the Changes clause, or funding and other administrative changes.

“Contract financing payment” means an authorized Government disbursement of monies to a contractor prior to acceptance of supplies or services by the Government.

- (1) Contract financing payments include—
  - (i) Advance payments;
  - (ii) Performance-based payments;
  - (iii) Commercial advance and interim payments;
  - (iv) Progress payments based on cost under the clause at 52.232-16, Progress Payments;
  - (v) Progress payments based on a percentage or stage of completion (see 32.102(e)), except those made under the clause at 52.232-5, Payments Under Fixed-Price Construction Contracts, or the clause at 52.232-10, Payments Under Fixed-Price Architect-Engineer Contracts; and
  - (vi) Interim payments under a cost reimbursement contract, except for a cost reimbursement contract for ser-

vices when Alternate I of the clause at 52.232-25, Prompt Payment, is used.

- (2) Contract financing payments do not include—
  - (i) Invoice payments;
  - (ii) Payments for partial deliveries; or
  - (iii) Lease and rental payments.

“Customary contract financing” means that financing deemed by an agency to be available for routine use by contracting officers. Most customary contract financing arrangements should be usable by contracting officers without specific reviews or approvals by higher management.

“Delivery payment” means a payment for accepted supplies or services, including payments for accepted partial deliveries. Commercial financing payments are liquidated by deduction from these payments. Delivery payments are invoice payments for prompt payment purposes.

“Designated billing office” means the office or person (governmental or nongovernmental) designated in the contract where the contractor first submits invoices and contract financing requests. The contract might designate different offices to receive invoices and contract financing requests. The designated billing office might be—

- (1) The Government disbursing office;
- (2) The contract administration office;
- (3) The office accepting the supplies delivered or services performed by the contractor;
- (4) The contract audit office; or
- (5) A nongovernmental agent.

“Designated payment office” means the office designated in the contract to make invoice payments or contract financing payments. Normally, this will be the Government disbursing office.

“Due date” means the date on which payment should be made.

“Invoice payment” means a Government disbursement of monies to a contractor under a contract or other authorization for supplies or services accepted by the Government.

- (1) Invoice payments include—
  - (i) Payments for partial deliveries that have been accepted by the Government;
  - (ii) Final cost or fee payments where amounts owed have been settled between the Government and the contractor;
  - (iii) For purposes of Subpart 32.9 only, all payments made under the clause at 52.232-5, Payments Under Fixed-Price Construction Contracts, and the clause at 52.232-10, Payments Under Fixed-Price Architect-Engineer Contracts; and
  - (iv) Interim payments under a cost-reimbursement contract for services when Alternate I of the clause at 52.232-25, Prompt Payment, is used.
- (2) Invoice payments do not include contract financing payments.

“Unusual contract financing” means any financing not deemed customary contract financing by the agency. Unusual contract financing is financing that is legal and proper under applicable laws, but that the agency has not authorized contracting officers to use without specific reviews or approvals by higher management.

### **32.002 Applicability of subparts.**

(a) The following sections and subparts of this part are applicable to all purchases subject to Part 32:

- (1) Sections 32.000 through 32.005.
- (2) Subpart 32.3, Loan Guarantees for Defense Production.
- (3) Subpart 32.6, Contract Debts.
- (4) Subpart 32.7, Contract Funding.
- (5) Subpart 32.8, Assignment of Claims.
- (6) Subpart 32.9, Prompt Payment.
- (7) Subpart 32.11, Electronic Funds Transfer.

(b) Subpart 32.2, Commercial Item Purchase Financing, is applicable only to purchases of commercial items under authority of Part 12.

(c) The following subparts of this part are applicable to all purchases made under any authority other than Part 12:

- (1) Subpart 32.1, Non-Commercial Item Purchase Financing.
- (2) Subpart 32.4, Advance Payments For Non-Commercial Items.
- (3) Subpart 32.5, Progress Payments Based on Costs.
- (4) Subpart 32.10, Performance-Based Payments.

### **32.003 Simplified acquisition procedures financing.**

Unless agency regulations otherwise permit, contract financing shall not be provided for purchases made under the authority of Part 13.

### **32.004 Contract performance in foreign countries.**

The enforceability of contract provisions for security of Government financing in a foreign jurisdiction is dependent upon local law and procedure. Prior to providing contract financing where foreign jurisdictions may become involved, the contracting officer shall ensure the Government's security is enforceable. This may require the provision of additional or different security than that normally provided for in the standard contract clauses.

### **32.005 Consideration for contract financing.**

(a) *Requirement.* When a contract financing clause is included at the inception of a contract, there shall be no separate consideration for the contract financing clause. The value of the contract financing to the contractor is expected to be reflected in either (1) a bid or negotiated price that will be lower than such price would have been in the absence of the contract financing, or (2) contract terms and conditions,

other than price, that are more beneficial to the Government than they would have been in the absence of the contract financing. Adequate new consideration is required for changes to, or the addition of, contract financing after award.

(b) *Amount of new consideration.* The contractor may provide new consideration by monetary or nonmonetary means, provided the value is adequate. The fair and reasonable consideration should approximate the amount by which the price would have been less had the contract financing terms been contained in the initial contract. In the absence of definite information on this point, the contracting officer should apply the following criteria in evaluating whether the proposed new consideration is adequate:

(1) The value to the contractor of the anticipated amount and duration of the contract financing at the imputed financial costs of the equivalent working capital.

(2) The estimated profit rate to be earned through contract performance.

(c) *Interest.* Except as provided in Subpart 32.4, Advance Payments for Non-Commercial Items, the contract shall not provide for any other type of specific charges, such as interest, for contract financing.

### **32.006 Reduction or suspension of contract payments upon finding of fraud.**

#### **32.006-1 General.**

(a) Under Title 10 of the United States Code, the statutory authority implemented by this section is available only to the Department of Defense; this statutory authority is not available to the National Aeronautics and Space Administration or the United States Coast Guard. Under the Federal Property and Administrative Services Act (41 U.S.C. 255), this statutory authority is available to all agencies subject to that Act.

(b) 10 U.S.C. 2307(h)(2) and 41 U.S.C. 255, as amended by the Federal Acquisition Streamlining Act of 1994, Public Law 103-355, provide for a reduction or suspension of further payments to a contractor when the agency head determines there is substantial evidence that the contractor's request for advance, partial, or progress payments is based on fraud. This authority does not apply to commercial interim payments under Subpart 32.2, or performance-based payments under Subpart 32.10.

(c) The agency head may not delegate his or her responsibilities under these statutes below Level IV of the Executive Schedule.

(d) Authority to reduce or suspend payments under these statutes is in addition to other Government rights, remedies, and procedures.

(e) In accordance with these statutes, agency head determinations and decisions under this section may be made for

an individual contract or any group of contracts affected by the fraud.

**32.006-2 Definition.**

“Remedy coordination official,” as used in this section, means the person or entity in the agency who coordinates within that agency the administration of criminal, civil, administrative, and contractual remedies resulting from investigations of fraud or corruption related to procurement activities. (See 10 U.S.C. 2307(h)(10) and 41 U.S.C. 255(g)(9).)

**32.006-3 Responsibilities.**

(a) Agencies shall establish appropriate procedures to implement the policies and procedures of this section.

(b) Government personnel shall report suspected fraud related to advance, partial, or progress payments in accordance with agency regulations.

**32.006-4 Procedures.**

(a) In any case in which an agency's remedy coordination official finds substantial evidence that a contractor's request for advance, partial, or progress payments under a contract awarded by that agency is based on fraud, the remedy coordination official shall recommend that the agency head reduce or suspend further payments to the contractor. The remedy coordination official shall submit to the agency head a written report setting forth the remedy coordination official's findings that support each recommendation.

(b) Upon receiving a recommendation from the remedy coordination official under paragraph (a) of this subsection, the agency head shall determine whether substantial evidence exists that the request for payment under a contract is based on fraud.

(c) If the agency head determines that substantial evidence exists, the agency head may reduce or suspend further payments to the contractor under the affected contract(s). Such reduction or suspension shall be reasonably commensurate with the anticipated loss to the Government resulting from the fraud.

(d) In determining whether to reduce or suspend further payment(s), as a minimum, the agency head shall consider—

- (1) A recommendation from investigating officers that disclosure of the allegations of fraud to the contractor may compromise an ongoing investigation;
- (2) The anticipated loss to the Government as a result of the fraud;
- (3) The contractor's overall financial condition and ability to continue performance if payments are reduced or suspended;
- (4) The contractor's essentiality to the national defense, or to the execution of the agency's official business; and

(5) Assessment of all documentation concerning the alleged fraud, including documentation submitted by the contractor in its response to the notice required by paragraph (e) of this subsection.

(e) Before making a decision to reduce or suspend further payments, the agency head shall, in accordance with agency procedures—

(1) Notify the contractor in writing of the action proposed by the remedy coordination official and the reasons therefor (such notice must be sufficiently specific to permit the contractor to collect and present evidence addressing the aforesaid reasons); and

(2) Provide the contractor an opportunity to submit information within a reasonable time, in response to the action proposed by the remedy coordination official.

(f) When more than one agency has contracts affected by the fraud, the agencies shall consider designating one agency as the lead agency for making the determination and decision.

(g) The agency shall retain in its files the written justification for each—

(1) Decision of the agency head whether to reduce or suspend further payments; and

(2) Recommendation received by an agency head in connection with such decision.

(h) Not later than 180 calendar days after the date of the reduction or suspension action, the remedy coordination official shall—

(1) Review the agency head's determination on which the reduction or suspension decision is based; and

(2) Transmit a recommendation to the agency head as to whether the reduction or suspension should continue.

**32.006-5 Reporting.**

(a) In accordance with 41 U.S.C. 255, the head of an agency, other than the Department of Defense, shall prepare a report for each fiscal year in which a recommendation has been received pursuant to 32.006-4(a). Reports within the Department of Defense shall be prepared in accordance with 10 U.S.C. 2307.

(b) In accordance with 41 U.S.C. 255 and 10 U.S.C. 2307, each report shall contain—

- (1) Each recommendation made by the remedy coordination official;
- (2) The actions taken on the recommendation(s), with reasons for such actions; and
- (3) An assessment of the effects of each action on the Government.

**32.007 Contract financing payments.**

(a)(1) Unless otherwise prescribed in agency policies and procedures or otherwise specified in paragraph (b) of this section, the due date for making contract financing payments

by the designated payment office is the 30th day after the designated billing office receives a proper contract financing request.

(2) If an audit or other review of a specific financing request is required to ensure compliance with the terms and conditions of the contract, the designated payment office is not compelled to make payment by the specified due date.

(3) Agency heads may prescribe shorter periods for payment based on contract pricing or administrative considerations. For example, a shorter period may be justified by an agency if the nature and extent of contract financing arrangements are integrated with agency contract pricing policies.

(4) Agency heads must not prescribe a period shorter than 7 days or longer than 30 days.

(b) For advance payments, loans, or other arrangements that do not involve recurrent submission of contract financing requests, the designated payment office will make payment in accordance with the applicable contract financing terms or as directed by the contracting officer.

(c) A proper contract financing request must comply with the terms and conditions specified by the contract. The contractor must correct any defects in requests submitted in the manner specified in the contract or as directed by the contracting officer.

(d) The designated billing office and designated payment office must annotate each contract financing request with the date their respective offices received the request.

(e) The Government will not pay an interest penalty to the contractor as a result of delayed contract financing payments.

### Subpart 32.1—Non-Commercial Item Purchase Financing

#### 32.100 Scope of subpart.

This subpart provides policies and procedures applicable to contract financing and payment for any purchases other than purchases of commercial items in accordance with Part 12.

#### 32.101 Authority.

The basic authority for the contract financing described in this part is contained in section 305 of the Federal Property and Administrative Services Act of 1949 (41 U.S.C. 255), section 2307 of the Armed Services Procurement Act (10 U.S.C. 2307), and Title III of the Defense Production Act of 1950 (50 U.S.C. App. 2091), as amended.

#### 32.102 Description of contract financing methods.

(a) Advance payments are advances of money by the Government to a prime contractor before, in anticipation of, and for the purpose of complete performance under one or

more contracts. They are expected to be liquidated from payments due to the contractor incident to performance of the contracts. Since they are not measured by performance, they differ from partial, progress, or other payments based on the performance or partial performance of a contract. Advance payments may be made to prime contractors for the purpose of making advances to subcontractors.

(b) Progress payments based on costs are made on the basis of costs incurred by the contractor as work progresses under the contract. This form of contract financing does not include—

(1) Payments based on the percentage or stage of completion accomplished;

(2) Payments for partial deliveries accepted by the Government;

(3) Partial payments for a contract termination proposal; or

(4) Performance-based payments.

(c) Loan guarantees are made by Federal Reserve banks, on behalf of designated guaranteeing agencies, to enable contractors to obtain financing from private sources under contracts for the acquisition of supplies or services for the national defense.

(d) Payments for accepted supplies and services that are only a part of the contract requirements (*i.e.*, partial deliveries) are authorized under 41 U.S.C. 255 and 10 U.S.C. 2307. In accordance with 5 CFR 1315.4(k), agencies must pay for partial delivery of supplies or partial performance of services unless specifically prohibited by the contract. Although payments for partial deliveries generally are treated as a method of payment and not as a method of contract financing, using partial delivery payments can assist contractors to participate in contracts without, or with minimal, contract financing. When appropriate, contract statements of work and pricing arrangements must permit acceptance and payment for discrete portions of the work, as soon as accepted (see 32.906(c)).

(e)(1) Progress payments based on a percentage or stage of completion are authorized by the statutes cited in 32.101.

(2) This type of progress payment may be used as a payment method under agency procedures. Agency procedures must ensure that payments are commensurate with work accomplished, which meets the quality standards established under the contract. Furthermore, progress payments may not exceed 80 percent of the eligible costs of work accomplished on undefinitized contract actions.

(f) Performance-based payments are contract financing payments made on the basis of—

(1) Performance measured by objective, quantifiable methods;

(2) Accomplishment of defined events; or

(3) Other quantifiable measures of results.

**32.103 Progress payments under construction contracts.**

When satisfactory progress has not been achieved by a contractor during any period for which a progress payment is to be made, a percentage of the progress payment may be retained. Retainage should not be used as a substitute for good contract management, and the contracting officer should not withhold funds without cause. Determinations to retain and the specific amount to be withheld shall be made by the contracting officers on a case-by-case basis. Such decisions will be based on the contracting officer's assessment of past performance and the likelihood that such performance will continue. The amount of retainage withheld shall not exceed 10 percent of the approved estimated amount in accordance with the terms of the contract and may be adjusted as the contract approaches completion to recognize better than expected performance, the ability to rely on alternative safeguards, and other factors. Upon completion of all contract requirements, retained amounts shall be paid promptly.

**32.104 Providing contract financing.**

(a) Prudent contract financing can be a useful working tool in Government acquisition by expediting the performance of essential contracts. Contracting officers must consider the criteria in this part in determining whether to include contract financing in solicitations and contracts. Resolve reasonable doubts by including contract financing in the solicitation. The contracting officer must—

(1) Provide Government financing only to the extent actually needed for prompt and efficient performance, considering the availability of private financing and the probable impact on working capital of the predelivery expenditures and production lead-times associated with the contract, or groups of contracts or orders (*e.g.*, issued under indefinite-delivery contracts, basic ordering agreements, or their equivalent);

(2) Administer contract financing so as to aid, not impede, the acquisition;

(3) Avoid any undue risk of monetary loss to the Government through the financing;

(4) Include the form of contract financing deemed to be in the Government's best interest in the solicitation (see 32.106 and 32.113); and

(5) Monitor the contractor's use of the contract financing provided and the contractor's financial status.

(b) If the contractor is a small business concern, the contracting officer must give special attention to meeting the contractor's contract financing need. However, a contractor's receipt of a certificate of competency from the Small Business Administration has no bearing on the contractor's need for or entitlement to contract financing.

(c) Subject to specific agency regulations and paragraph (d) of this section, the contracting officer—

(1) May provide customary contract financing in accordance with 32.113; and

(2) Must not provide unusual contract financing except as authorized in 32.114.

(d) Unless otherwise authorized by agency procedures, the contracting officer may provide contract financing in the form of performance-based payments (see Subpart 32.10) or customary progress payments (see Subpart 32.5) if the following conditions are met:

(1) The contractor—

(i) Will not be able to bill for the first delivery of products for a substantial time after work must begin (normally 4 months or more for small business concerns, and 6 months or more for others), and will make expenditures for contract performance during the predelivery period that have a significant impact on the contractor's working capital; or

(ii) Demonstrates actual financial need or the unavailability of private financing.

(2) If the contractor is not a small business concern—

(i) For an individual contract, the contract price is \$2 million or more; or

(ii) For an indefinite-delivery contract, a basic ordering agreement or a similar ordering instrument, the contracting officer expects the aggregate value of orders or contracts that individually exceed the simplified acquisition threshold to have a total value of \$2 million or more. The contracting officer must limit financing to those orders or contracts that exceed the simplified acquisition threshold.

(3) If the contractor is a small business concern—

(i) For an individual contract, the contract price exceeds the simplified acquisition threshold; or

(ii) For an indefinite-delivery contract, a basic ordering agreement or a similar ordering instrument, the contracting officer expects the aggregate value of orders or contracts to exceed the simplified acquisition threshold.

**32.105 Uses of contract financing.**

(a) Contract financing methods covered in this part are intended to be self-liquidating through contract performance. Consequently, agencies shall only use the methods for financing of contractor working capital, not for the expansion of contractor-owned facilities or the acquisition of fixed assets. However, under loan guarantees, exceptions may be made for—

(1) Facilities expansion of a minor or incidental nature, if a relatively small part of the guaranteed loan is used for the expansion and the contractor's repayment would not be delayed or impaired; or

(2) Other instances of facilities expansion for which contract financing is appropriate under agency procedures.

(b) The limitations in this section do not apply to contracts under which facilities are being acquired for Government ownership.

**32.106 Order of preference.**

The contracting officer must consider the following order of preference when a contractor requests contract financing, unless an exception would be in the Government's best interest in a specific case:

(a) Private financing without Government guarantee. It is not intended, however, that the contracting officer require the contractor to obtain private financing—

- (1) At unreasonable terms; or
- (2) From other agencies.

(b) Customary contract financing other than loan guarantees and certain advance payments (see 32.113).

(c) Loan guarantees.

(d) Unusual contract financing (see 32.114).

(e) Advance payments (see exceptions in 32.402(b)).

**32.107 Need for contract financing not a deterrent.**

(a) If the contractor or offeror meets the standards prescribed for responsible prospective contractors at 9.104, the contracting officer shall not treat the contractor's need for contract financing as a handicap for a contract award; *e.g.*, as a responsibility factor or evaluation criterion.

(b) The contractor should not be disqualified from contract financing solely because the contractor failed to indicate a need for contract financing before the contract was awarded.

**32.108 Financial consultation.**

Each contracting office should have available and use the services of contract financing personnel competent to evaluate credit and financial problems. In resolving any questions concerning—

(a) The financial capability of an offeror or contractor to perform a contract, or

(b) What form of contract financing is appropriate in a given case, the contracting officer should consult the appropriate contract financing office.

**32.109 Termination financing.**

To encourage contractors to invest their own funds in performance despite the susceptibility of the contract to termination for the convenience of the Government, the contract financing procedures under this part may be applied to the financing of terminations either in connection with or independently of financing for contract performance (see 49.112-1).

**32.110 Payment of subcontractors under cost-reimbursement prime contracts.**

If the contractor makes financing payments to a subcontractor under a cost-reimbursement prime contract, the contracting officer should accept the financing payments as

reimbursable costs of the prime contract only under the following conditions:

(a) The payments are made under the criteria in Subpart 32.5 for customary progress payments based on costs, 32.202-1 for commercial item purchase financing, or 32.1003 for performance-based payments, as applicable.

(b) If customary progress payments are made, the payments do not exceed the progress payment rate in 32.501-1, unless unusual progress payments to the subcontractor have been approved in accordance with 32.501-2.

(c) If customary progress payments are made, the subcontractor complies with the liquidation principles of 32.503-8, 32.503-9, and 32.503-10.

(d) If performance-based payments are made, the subcontractor complies with the liquidation principles of 32.1004(d).

(e) The subcontract contains financing payments terms as prescribed in this part.

**32.111 Contract clauses for non-commercial purchases.**

(a) The contracting officer shall insert the following clauses, appropriately modified with respect to payment due dates, in accordance with agency regulations—

(1) The clause at 52.232-1, Payments, in solicitations and contracts when a fixed-price supply contract, a fixed-price service contract, or a contract for nonregulated communication services is contemplated;

(2) The clause at 52.232-2, Payment under Fixed-Price Research and Development Contracts, in solicitations and contracts when a fixed-price research and development contract is contemplated;

(3) The clause at 52.232-3, Payments under Personal Services Contracts, in solicitations and contracts for personal services;

(4) The clause at 52.232-4, Payments under Transportation Contracts and Transportation-Related Services Contracts, in solicitations and contracts for transportation or transportation-related services;

(5) The clause at 52.232-5, Payments under Fixed-Price Construction Contracts, in solicitations and contracts for construction when a fixed-price contract is contemplated; and

(6) The clause at 52.232-6, Payments under Communication Service Contracts with Common Carriers, in solicitations and contracts for regulated communication services by common carriers.

(b) The contracting officer shall insert the clause at 52.232-7, Payments under Time-and-Materials and Labor-Hour Contracts, appropriately modified with respect to payment due dates in accordance with agency regulations, in solicitations and contracts when a time-and-materials or labor-hour contract is contemplated. If (i) the nature of the work to be performed requires the contractor to furnish

material that is regularly sold to the general public in the normal course of business by the contractor and (ii) the price is under the limitations prescribed in 16.601(b)(3), the contracting officer shall use the clause with its Alternate I. If a labor-hour contract is contemplated, and if no specific reimbursement for materials furnished is intended, the contracting officer may use the clause with its Alternate II.

(c) The contracting officer shall insert the following clauses, appropriately modified with respect to payment due dates in accordance with agency regulations:

(1) The clause at 52.232-8, Discounts for Prompt Payment, in solicitations and contracts when a fixed-price supply contract or fixed-price service contract is contemplated.

(2) A clause, substantially the same as the clause at 52.232-9, Limitation on Withholding of Payments, in solicitations and contracts when a supply contract, research and development contract, service contract, time-and-materials contract, or labor-hour contract is contemplated that includes two or more terms authorizing the temporary withholding of amounts otherwise payable to the contractor for supplies delivered or services performed.

(d) The contracting officer shall insert the following clauses, appropriately modified with respect to payments due dates in accordance with agency regulations:

(1) The clause at 52.232-10, Payments under Fixed-Price Architect-Engineer Contracts, in fixed-price architect-engineer contracts.

(2) The clause at 52.232-11, Extras, in solicitations and contracts when a fixed-price supply contract, fixed-price service contract, or a transportation contract is contemplated.

### **32.112 Nonpayment of subcontractors under contracts for noncommercial items.**

#### **32.112-1 Subcontractor assertions of nonpayment.**

(a) In accordance with Section 806(a)(4) of Pub. L. 102-190, as amended by Sections 2091 and 8105 of Pub. L. 103-355, upon the assertion by a subcontractor or supplier of a Federal contractor that the subcontractor or supplier has not been paid in accordance with the payment terms of the subcontract, purchase order, or other agreement with the prime contractor, the contracting officer may determine—

(1) For a construction contract, whether the contractor has made—

(i) Progress payments to the subcontractor or supplier in compliance with Chapter 39 of Title 31, United States Code (Prompt Payment Act); or

(ii) Final payment to the subcontractor or supplier in compliance with the terms of the subcontract, purchase order, or other agreement with the prime contractor;

(2) For a contract other than construction, whether the contractor has made progress payments, final payments, or other payments to the subcontractor or supplier in compliance with the terms of the subcontract, purchase order, or other agreement with the prime contractor; or

(3) For any contract, whether the contractor's certification of payment of a subcontractor or supplier accompanying its payment request to the Government is accurate.

(b) If, in making the determination in paragraphs (a)(1) and (2) of this subsection, the contracting officer finds the prime contractor is not in compliance, the contracting officer may—

(1) Encourage the contractor to make timely payment to the subcontractor or supplier; or

(2) If authorized by the applicable payment clauses, reduce or suspend progress payments to the contractor.

(c) If the contracting officer determines that a certification referred to in paragraph (a)(3) of this subsection is inaccurate in any material respect, the contracting officer shall initiate administrative or other remedial action.

#### **32.112-2 Subcontractor requests for information.**

(a) In accordance with Section 806(a)(1) of Pub. L. 102-190, as amended by Sections 2091 and 8105 of Pub. L. 103-355, upon the request of a subcontractor or supplier under a Federal contract for a non-commercial item, the contracting officer shall promptly advise the subcontractor or supplier as to—

(1) Whether the prime contractor has submitted requests for progress payments or other payments to the Federal Government under the contract; and

(2) Whether final payment under the contract has been made by the Federal Government to the prime contractor.

(b) In accordance with 5 U.S.C. 552(b)(1), this subsection does not apply to matters that are—

(1) Specifically authorized under criteria established by an Executive order to be kept classified in the interest of national defense or foreign policy; and

(2) Properly classified pursuant to such Executive order.

#### **32.113 Customary contract financing.**

The solicitation must specify the customary contract financing offerors may propose. The following are customary contract financing when provided in accordance with this part and agency regulations:

(a) Financing of shipbuilding, or ship conversion, alteration, or repair, when agency regulations provide for progress payments based on a percentage or stage of completion.

(b) Financing of construction or architect-engineer services purchased under the authority of Part 36.

(c) Financing of contracts for supplies or services awarded under the sealed bid method of procurement in accordance with Part 14 through progress payments based on costs in accordance with Subpart 32.5.

(d) Financing of contracts for supplies or services awarded under the competitive negotiation method of procurement in accordance with Part 15, through either progress payments based on costs in accordance with Subpart 32.5, or performance-based payments in accordance with Subpart 32.10 (but not both).

(e) Financing of contracts for supplies or services awarded under a sole-source acquisition as defined in 2.101 and using the procedures of Part 15, through either progress payments based on costs in accordance with Subpart 32.5, or performance-based payments in accordance with Subpart 32.10 (but not both).

(f) Financing of contracts for supplies or services through advance payments in accordance with Subpart 32.4.

(g) Financing of contracts for supplies or services through guaranteed loans in accordance with Subpart 32.3.

(h) Financing of contracts for supplies or services through any appropriate combination of advance payments, guaranteed loans, and either performance-based payments or progress payments (but not both) in accordance with their respective subparts.

**32.114 Unusual contract financing.**

Any contract financing arrangement that deviates from this part is unusual contract financing. Unusual contract financing shall be authorized only after approval by the head of the agency or as provided for in agency regulations.

## Subpart 32.2—Commercial Item Purchase Financing

### 32.200 Scope of subpart.

This subpart provides policies and procedures for commercial financing arrangements under commercial purchases pursuant to Part 12.

### 32.201 Statutory authority.

10 U.S.C. 2307(f) and 41 U.S.C. 255(f) provide that payment for commercial items may be made under such terms and conditions as the head of the agency determines are appropriate or customary in the commercial marketplace and are in the best interest of the United States.

### 32.202 General.

#### 32.202-1 Policy.

(a) *Use of financing in contracts.* It is the responsibility of the contractor to provide all resources needed for performance of the contract. Thus, for purchases of commercial items, financing of the contract is normally the contractor's responsibility. However, in some markets the provision of financing by the buyer is a commercial practice. In these circumstances, the contracting officer may include appropriate financing terms in contracts for commercial purchases when doing so will be in the best interest of the Government.

(b) *Authorization.* Commercial interim payments and commercial advance payments may be made under the following circumstances—

- (1) The contract item financed is a commercial supply or service;
- (2) The contract price exceeds the simplified acquisition threshold;
- (3) The contracting officer determines that it is appropriate or customary in the commercial marketplace to make financing payments for the item;
- (4) Authorizing this form of contract financing is in the best interest of the Government (see paragraph (e) of this subsection);
- (5) Adequate security is obtained (see 32.202-4);
- (6) Prior to any performance of work under the contract, the aggregate of commercial advance payments shall not exceed 15 percent of the contract price;
- (7) The contract is awarded on the basis of competitive procedures or, if only one offer is solicited, adequate consideration is obtained (based on the time value of the additional financing to be provided) if the financing is expected to be substantially more advantageous to the offeror than the offeror's normal method of customer financing; and
- (8) The contracting officer obtains concurrence from the payment office concerning liquidation provisions when required by 32.206(e).

(c) *Difference from non-commercial financing.* Government financing of commercial purchases under this subpart is expected to be different from that used for non-commercial purchases under Subpart 32.1 and its related subparts. While the contracting officer may adapt techniques and procedures from the non-commercial subparts for use in implementing commercial contract financing arrangements, the contracting officer must have a full understanding of effects of the differing contract environments and of what is needed to protect the interests of the Government in commercial contract financing.

(d) *Unusual contract financing.* Any contract financing arrangement not in accord with the requirements of agency regulations or this part is unusual contract financing and requires advance approval in accordance with agency procedures. If not otherwise specified, such unusual contract financing shall be approved by the head of the contracting activity.

(e) *Best interest of the Government.* The statutes cited in 32.201 do not allow contract financing by the Government unless it is in the best interest of the United States. Agencies may establish standards to determine whether contract financing is in the best interest of the Government. These standards may be for certain types of procurements, certain types of items, or certain dollar levels of procurements.

#### 32.202-2 Types of payments for commercial item purchases.

These definitions incorporate the requirements of the statutory commercial financing authority and the implementation of the Prompt Payment Act.

“Commercial advance payment,” as used in this subsection, means a payment made before any performance of work under the contract. The aggregate of these payments shall not exceed 15 percent of the contract price. These payments are contract financing payments for prompt payment purposes (*i.e.*, not subject to the interest penalty provisions of the Prompt Payment Act in accordance with Subpart 32.9). These payments are not subject to Subpart 32.4, Advance Payments for Non-Commercial Items.

“Commercial interim payment” (see 32.001).

“Delivery payment” (see 32.001).

#### 32.202-3 Conducting market research about financing terms.

Contract financing may be a subject included in the market research conducted in accordance with Part 10. If market research for contract financing is conducted, the contracting officer should consider—

- (a) The extent to which other buyers provide contract financing for purchases in that market;
- (b) The overall level of financing normally provided;

(c) The amount or percentages of any payments equivalent to commercial advance payments (see 32.202-2);

(d) The basis for any payments equivalent to commercial interim payments (see 32.001), as well as the frequency, and amounts or percentages; and

(e) Methods of liquidation of contract financing payments and any special or unusual payment terms applicable to delivery payments (see 32.001).

#### **32.202-4 Security for Government financing.**

(a) *Policy.* (1) 10 U.S.C. 2307(f) and 41 U.S.C. 255(f) require the Government to obtain adequate security for Government financing. The contracting officer shall specify in the solicitation the type of security the Government will accept. If the Government is willing to accept more than one form of security, the offeror shall be required to specify the form of security it will provide. If acceptable to the contracting officer, the resulting contract shall specify the security (see 32.206(b)(1)(iv)).

(2) Subject to agency regulations, the contracting officer may determine the offeror's financial condition to be adequate security, provided the offeror agrees to provide additional security should that financial condition become inadequate as security (see paragraph (c) of the clause at 52.232-29, Terms for Financing of Purchases of Commercial Items). Assessment of the contractor's financial condition shall consider both net worth and liquidity. If the contracting officer finds the offeror's financial condition is not adequate security, the contracting officer shall require other adequate security. Paragraphs (b), (c), and (d) of this subsection list other (but not all) forms of security that the contracting officer may find acceptable.

(3) The value of the security must be at least equal to the maximum unliquidated amount of contract financing payments to be made to the contractor. The value of security may be adjusted periodically during contract performance, as long as it is always equal to or greater than the amount of unliquidated financing.

(b) *Paramount lien.* (1) The statutes cited in 32.201 provide that if the Government's security is in the form of a lien, such lien is paramount to all other liens and is effective immediately upon the first payment, without filing, notice, or other action by the United States.

(2) When the Government's security is in the form of a lien, the contract shall specify what the lien is upon, *e.g.*, the work in process, the contractor's plant, or the contractor's inventory. Contracting officers may be flexible in the choice of assets. The contract must also give the Government a right to verify the existence and value of the assets.

(3) Provision of Government financing shall be conditioned upon a contractor certification that the assets subject to the lien are free from any prior encumbrances. Prior liens may result from such things as capital equipment loans, installment purchases, working capital loans, various lines of credit, and revolving credit arrangements.

(c) *Other assets as security.* Contracting officers may consider the guidance at 28.203-2, 28.203-3, and 28.204 in determining which types of assets may be acceptable as security. For the purpose of applying the guidance in Part 28 to this subsection, the term "surety" and/or "individual surety" should be interpreted to mean "offeror" and/or "contractor."

(d) *Other forms of security.* Other acceptable forms of security include—

(1) An irrevocable letter of credit from a federally insured financial institution;

(2) A bond from a surety, acceptable in accordance with Part 28 (note that the bond must guarantee repayment of the unliquidated contract financing);

(3) A guarantee of repayment from a person or corporation of demonstrated liquid net worth, connected by significant ownership to the contractor; or

(4) Title to identified contractor assets of adequate worth.

(e) *Management of risk and security.* In establishing contract financing terms, the contracting officer must be aware of certain risks. For example, very high amounts of financing early in the contract (front-end loading) may unduly increase the risk to the Government. The security and the amounts and timing of financing payments must be analyzed as a whole to determine whether the arrangement will be in the best interest of the Government.

#### **32.203 Determining contract financing terms.**

When the criteria in 32.202-1(b) are met, the contracting officer may either specify the financing terms in the solicitation (see 32.204) or permit each offeror to propose its own customary financing terms (see 32.205). When the contracting officer has sufficient information on financing terms that are customary in the commercial marketplace for the item, those terms may be specified in the solicitation.

#### **32.204 Procedures for contracting officer-specified commercial contract financing.**

The financing terms shall be included in the solicitation. Contract financing shall not be a factor in the evaluation of resulting proposals, and proposals of alternative financing terms shall not be accepted (but see 14.208 and 15.206 concerning amendments of solicitations). However, an offer stating that the contracting officer-specified contract financing terms will not be used by the offeror does not alter the evaluation of the offer, nor does it render the offer nonre-

sponsive or otherwise unacceptable. In the event of award to an offeror who declined the proposed contract financing, the contract financing provisions shall not be included in the resulting contract. Contract financing shall not be a basis for adjusting offerors' proposed prices, because the effect of contract financing is reflected in each offeror's proposed prices.

### **32.205 Procedures for offeror-proposed commercial contract financing.**

(a) Under this procedure, each offeror may propose financing terms. The contracting officer must then determine which offer is in the best interests of the United States.

(b) *Solicitations.* The contracting officer must include in the solicitation the provision at 52.232-31, Invitation to Propose Financing Terms. The contracting officer must also—

(1) Specify the delivery payment (invoice) dates that will be used in the evaluation of financing proposals; and

(2) Specify the interest rate to be used in the evaluation of financing proposals (see paragraph (c)(4) of this section).

(c) *Evaluation of proposals.* (1) When contract financing terms vary among offerors, the contracting officer must adjust each proposed price for evaluation purposes to reflect the cost of providing the proposed financing in order to determine the total cost to the Government of that particular combination of price and financing.

(2) Contract financing results in the Government making payments earlier than it otherwise would. In order to determine the cost to the Government of making payments earlier, the contracting officer must compute the imputed cost of those financing payments and add it to the proposed price to determine the evaluated price for each offeror.

(3) The imputed cost of a single financing payment is the amount of the payment multiplied by the annual interest rate, multiplied by the number of years, or fraction thereof, between the date of the financing payment and the date the amount would have been paid as a delivery payment. The imputed cost of financing is the sum of the imputed costs of each of the financing payments.

(4) The contracting officer must calculate the time value of proposal-specified contract financing arrangements using as the interest rate the nominal discount rate specified in Appendix C of the Office of Management and Budget (OMB) Circular A-94, "Guidelines and Discount Rates for Benefit-Cost Analysis of Federal Programs", appropriate to the period of contract financing. Where the period of proposed financing does not match the periods in the OMB Circular, the interest rate for the period closest to the finance period shall be used. Appendix C is updated yearly, and is available from the Office of Economic Policy in the Office of Management and Budget (OMB).

### **32.206 Solicitation provisions and contract clauses.**

(a) The contract shall contain the paragraph entitled "Payment" of the clause at 52.212-4, Contract Terms and Conditions—Commercial Items. If the contract will provide for contract financing, the contracting officer shall construct a solicitation provision and contract clause. This solicitation provision shall be constructed in accordance with 32.204 or 32.205. If the procedure at 32.205 is used, the solicitation provision at 52.232-31, Invitation to Propose Financing Terms, shall be included. The contract clause shall be constructed in accordance with the requirements of this subpart and any agency regulations.

(b) Each contract financing clause shall include:

(1) A description of the—

(i) Computation of the financing payment amounts (see paragraph (c) of this section);

(ii) Specific conditions of contractor entitlement to those financing payments (see paragraph (c) of this section);

(iii) Liquidation of those financing payments by delivery payments (see paragraph (e) of this section);

(iv) Security the contractor will provide for financing payments and any terms or conditions specifically applicable thereto (see 32.202-4); and

(v) Frequency, form, and any additional content of the contractor's request for financing payment (in addition to the requirements of the clause at 52.232-29, Terms for Financing of Purchases of Commercial Items; and

(2) Unless agency regulations authorize alterations, the unaltered text of the clause at 52.232-29, Terms for Financing of Purchases of Commercial Items.

(c) *Computation of amounts, and contractor entitlement provisions.* (1) Contracts shall provide that delivery payments shall be made only for completed supplies and services accepted by the Government in accordance with the terms of the contract. Contracts may provide for commercial advance and commercial interim payments based upon a wide variety of bases, including (but not limited to) achievement or occurrence of specified events, the passage of time, or specified times prior to the delivery date(s). The basis for payment must be objectively determinable. The clause written by the contracting officer shall specify, to the extent access is necessary, the information and/or facilities to which the Government shall have access for the purpose of verifying the contractor's entitlement to payment of contract financing.

(2) If the contract is awarded using the offeror-proposed procedure at 32.205, the clause constructed by the contracting officer under paragraph (b)(1) of this section shall contain the following:

(i) A statement that the offeror's proposed listing of earliest times and greatest amounts of projected financing payments submitted in accordance with paragraph (d)(2) of

the provision at 52.232-31, Invitation to Propose Financing Terms, is incorporated into the contract, and

(ii) A statement that financing payments shall be made in the lesser amount and on the later of the date due in accordance with the financing terms of the contract, or in the amount and on the date projected in the listing of earliest times and greatest amounts incorporated in the contract.

(3) If the security accepted by the contracting officer is the contractor's financial condition, the contracting officer shall incorporate in the clause constructed under paragraph (b)(1) of this section the following—

(i) A statement that the contractor's financial condition has been accepted as adequate security for commercial financing payments; and

(ii) A statement that the contracting officer may exercise the Government's rights to require other security under paragraph (c), Security for Government Financing, of the clause at 52.232-29, Terms for Financing of Purchases of Commercial Items, in the event the contractor's financial condition changes and is found not to be adequate security.

(d) *Instructions for multiple appropriations.* If contract financing is to be computed for the contract as a whole, and if there is more than one appropriation account (or subaccount) funding payments under the contract, the contracting officer shall include, in the contract, instructions for distribution of financing payments to the respective funds accounts. Distribution instructions and contract liquidation instructions must be mutually consistent.

(e) *Liquidation.* Liquidation of contract financing payments shall be on the same basis as the computation of contract financing payments; that is, financing payments computed on a whole contract basis shall be liquidated on a whole contract basis; and a payment computed on a line item basis shall be liquidated against that line item. If liquidation is on a whole contract basis, the contracting officer shall use a uniform liquidation percentage as the liquidation method, unless the contracting officer obtains the concurrence of the cognizant payment office that the proposed liquidation provisions can be executed by that office, or unless agency regulations provide alternative liquidation methods.

(f) *Prompt payment for commercial purchase payments.* The provisions of Subpart 32.9, Prompt Payment, apply to contract financing and invoice payments for commercial purchases in the same manner they apply to non-commercial purchases. The contracting officer is responsible for including in the contract all the information necessary to implement prompt payment. In particular, contracting officers must be careful to clearly differentiate in the contract between contract financing and invoice payments and between items having different prompt payment times.

(g) *Installment payment financing for commercial items.* Contracting officers may insert the clause at 52.232-30, Installment Payments for Commercial Items, in solicitations and contracts in lieu of constructing a specific clause in

accordance with paragraphs (b) through (e) of this section, if the contract action qualifies under the criteria at 32.202-1(b) and installment payments for the item are either customary or are authorized in accordance with agency procedures.

(1) *Description.* Installment payment financing is payment by the Government to a contractor of a fixed number of equal interim financing payments prior to delivery and acceptance of a contract item. The installment payment arrangement is designed to reduce administrative costs. However, if a contract will have a large number of deliveries, the administrative costs may increase to the point where installment payments are not in the best interests of the Government.

(2) *Authorized types of installment payment financing and rates.* Installment payments may be made using the clause at 52.232-30, Installment Payments for Commercial Items, either at the 70 percent financing rate cited in the clause or at a lower rate in accordance with agency procedures.

(3) *Calculating the amount of installment financing payments.* The contracting officer shall identify in the contract schedule those items for which installment payment financing is authorized. Monthly installment payment amounts are to be calculated by the contractor pursuant to the instructions in the contract clause only for items authorized to receive installment payment financing.

(4) *Liquidating installment payments.* If installment payments have been made for an item, the amount paid to the contractor upon acceptance of the item by the Government shall be reduced by the amount of installment payments made for the item. The contractor's request for final payment for each item is required to show this calculation.

### **32.207 Administration and payment of commercial financing payments.**

(a) *Responsibility.* The contracting officer responsible for administration of the contract shall be responsible for review and approval of contract financing requests.

(b) *Approval of financing requests.* Unless otherwise provided in agency regulations, or by agreement with the appropriate payment official—

(1) The contracting officer shall be responsible for receiving, approving, and transmitting all contract financing requests to the appropriate payment office; and

(2) Each approval shall specify the amount to be paid, necessary contractual information, and the account(s) (see 32.206(d)) to be charged for the payment.

(c) *Management of security.* After contract award, the contracting officer responsible for approving requests for financing payments shall be responsible for determining that the security continues to be adequate. If the contractor's financial condition is the Government's security, this contracting officer is also responsible for monitoring the contractor's financial condition.

## Subpart 32.3—Loan Guarantees for Defense Production

### 32.300 Scope of subpart.

This subpart prescribes policies and procedures for designated agencies' guarantees of loans made by private financial institutions to borrowers performing contracts related to national defense (see 30.102).

### 32.301 Definitions.

As used in this subpart—

“Borrower” means a contractor, subcontractor (at any tier), or other supplier who receives a guaranteed loan.

“Federal Reserve Board” means the Board of Governors of the Federal Reserve System.

“Guaranteed loan” or “V loan” means a loan, revolving credit fund, or other financial arrangement made pursuant to Regulation V of the Federal Reserve Board, under which the guaranteeing agency is obligated, on demand of the lender, to purchase a stated percentage of the loan and to share any losses in the amount of the guaranteed percentage.

“Guaranteeing agency” means any agency that the President has authorized to guarantee loans, through Federal Reserve Banks, for expediting national defense production.

### 32.302 Authority.

Congress has authorized Federal Reserve Banks to act, on behalf of guaranteeing agencies, as fiscal agents of the United States in the making of loan guarantees for defense production (Section 301, Defense Production Act of 1950 (50 U.S.C. App. 2091)). By Executive Order 10480, August 14, 1953 (3 CFR 1949-53), as amended, the President has designated the following agencies as guaranteeing agencies:

- (a) Department of Defense.
- (b) Department of Energy.
- (c) Department of Commerce.
- (d) Department of the Interior.
- (e) Department of Agriculture.
- (f) General Services Administration.
- (g) National Aeronautics and Space Administration.

### 32.303 General.

(a) Section 301 of the Defense Production Act authorizes loan guarantees for contract performance or other operations related to national defense, subject to amounts annually authorized by Congress on the maximum obligation of any guaranteeing agency under any loan, discount, advance, or commitment in connection therewith, entered into under section 301. (See 50 U.S.C. App. 2091 for statutory limitations and exceptions concerning the authorization of loan guarantee amounts and the use of loan guarantees for the prevention of insolvency or bankruptcy.)

(b) The guarantee shall be for less than 100 percent of the loan unless the agency determines that—

(1) The circumstances are exceptional;

(2) The operations of the contractor are vital to the national defense; and

(3) No other suitable means of financing are available.

(c) Loan guarantees are not issued to other agencies of the Government.

(d) Guaranteed loans are essentially the same as conventional loans made by private financial institutions, except that the guaranteeing agency is obligated, on demand of the lender, to purchase a stated percentage of the loan and to share any losses in the amount of guaranteed percentage. It is the responsibility of the private financial institution to disburse and collect funds and to administer the loan. Under Regulation V of the Federal Reserve Board (12 CFR 245), any private financing institution may submit an application to the Federal Reserve Bank of its district for guarantee of a loan or credit.

(e) Federal Reserve Banks will make the loan guarantee agreements on behalf of the guaranteeing agencies.

(f) Under Section 302(c) of Executive Order 10480, August 14, 1953 (3 CFR 1949-53), as amended, all actions and operations of Federal Reserve Banks, as fiscal agents, are subject to the supervision of the Federal Reserve Board. The Federal Reserve Board is authorized to prescribe the following, after consultation with the heads of guaranteeing agencies:

(1) Regulations governing the actions and operations of fiscal agents.

(2) Rates of interest, guarantee and commitment fees, and other charges that may be made for loans, discounts, advances, or commitments guaranteed by the guaranteeing agencies through the Federal Reserve Banks. These prescriptions may be in the form of specific rates or limits, or in other forms.

(3) Uniform forms and procedures to be used in connection with the guarantees.

(g) The guaranteeing agency is responsible for certifying eligibility for the guarantee and fixing the maximum dollar amount and maturity date of the guaranteed loan to meet the contractor's requirement for financing performance of the defense production contract on hand at the time the guarantee application is submitted.

### 32.304 Procedures.

#### 32.304-1 Application for guarantee.

(a) A contractor, subcontractor, or supplier that needs operating funds to perform a contract related to national defense may apply to a financing institution for a loan. If the financing institution is willing to extend credit, but considers a Government guarantee necessary, the institution may apply

to the Federal Reserve Bank of its district for the guarantee. Application forms and guidance are available at all Federal Reserve Banks.

(b) The Federal Reserve Bank will promptly send a copy of the application, including a list of the relevant defense contracts held by the contractor, to the Federal Reserve Board. The Board will transmit the application and the list of contracts to the interested guaranteeing agency, so that the agency can determine the eligibility of the contractor.

(c) To expedite the process, the Federal Reserve Bank may, pursuant to instructions of a guaranteeing agency, submit lists of the defense contracts to the interested contracting officers.

(d) While eligibility is being determined, the Federal Reserve Bank will make any necessary credit investigations to supplement the information furnished by the applicant financing institution in order to—

- (1) Expedite necessary defense financing; and
- (2) Protect the Government against monetary loss.

(e) The Federal Reserve Bank will send its report and recommendation to the Federal Reserve Board. The Board will transmit them to the interested guaranteeing agency.

### 32.304-2 Certificate of eligibility.

(a) The contracting officer shall prepare the certificate of eligibility for a contract that the contracting officer deems to be of material consequence, when—

- (1) The contract financing office requests it;
- (2) Another interested agency requests it; or
- (3) The application for a loan guarantee relates to a contract or subcontract within the cognizance of the contracting officer.

(b) The agency shall evaluate the relevant data, including the certificate of eligibility, the accompanying data, and any other relevant information on the contractor's financial status and performance, to determine whether authorization of a loan guarantee would be in the Government's interest.

(c) If the contractor has several major national defense contracts, it is normally not necessary to evaluate the eligibility of relatively minor contracts. The determination of eligibility should be processed, without delay, based on the preponderance of the amount of the contracts.

(d) The certificate of eligibility shall include the following determinations:

- (1) The supplies or services to be acquired are essential to the national defense.
- (2) The contractor has the facilities and the technical and management ability required for contract performance.
- (3) There is no practicable alternate source for the acquisition without prejudice to the national defense. (This statement shall not be included if the contractor is a small business concern.)

(e) The contracting officer shall consider the following factors in determining if a practicable alternate source exists:

(1) Prejudice to the national defense, because reletting of a contract with another source would conflict with a major policy on defense acquisition; *e.g.*, policies relating to the mobilization base.

(2) The urgency of contract performance schedules.

(3) The technical ability and facilities of other potential sources.

(4) The extent to which other sources would need contract financing to perform.

(5) The willingness of other sources to enter into contracts.

(6) The time and expense involved in repurchasing for contracts or parts of contracts. This may include potential claims under a termination for convenience or delays incident to default at a later date.

(7) The comparative prices available from other sources.

(8) The disruption of established subcontracting arrangements.

(9) Other pertinent factors.

(f) The contracting officer shall attach sufficient data to the certificate of eligibility to support the determinations made. Available pertinent information shall be included on—

- (1) The contractor's past performance;
- (2) The relationship of the contractor's operations to performance schedules; and
- (3) Other factors listed in paragraph (e) of this section, if relevant to the case under consideration.

(g) If the contracting officer determines that a certificate of eligibility is not justified, the facts and reasons supporting that conclusion shall be documented and furnished to the agency contract finance office.

(h) The guaranteeing agency shall review the proposed guarantee terms and conditions. If they are considered appropriate, the guaranteeing agency shall complete a standard form of authorization as prescribed by the Federal Reserve Board. The agency shall transmit the authorization through the Federal Reserve Board to the Federal Reserve Bank. The Bank is authorized to execute and deliver to the financing institution a standard form of guarantee agreement, with the terms and conditions approved for the particular case. The financing institution will then make the loan.

(i) Substantially the same procedure may be followed for the application of an offeror who is actively negotiating or bidding for a defense contract, except that the guarantee shall not be authorized until the contract has been executed.

(j) The contracting officer shall report to the agency contract finance office any information about the contractor that would have a potentially adverse impact on a pending guarantee application. The contracting officer is not required,

however, to initiate any special investigation for this purpose.

(k) With regard to existing contracts, the agency shall not consider the percentage of guarantee requested by the financing institution in determining the contractor's eligibility.

### 32.304-3 Asset formula.

(a) Under guaranteed loans made primarily for working capital purposes, the agency shall normally limit the guarantee, by use of an asset formula, to an amount that does not exceed a specified percentage (90 percent or less) of the contractor's investment (*e.g.*, payrolls and inventories) in defense production contracts. The asset formula may include all items under defense contracts for which the contractor would be entitled to payment on performance or termination. The formula shall exclude—

- (1) Amounts for which the contractor has not done any work or made any expenditure;
- (2) Amounts that would become due as the result of later performance under the contracts; and
- (3) Cash collateral or bank deposit balances.

(b) Progress payments are deducted from the asset formula.

(c) The agency may relax the asset formula to an appropriate extent for the time actually necessary for contract performance, if the contractor's working capital and credit are inadequate.

### 32.304-4 Guarantee amount and maturity.

The agency may change the guarantee amount or maturity date, within the limitations at 32.304-3, as follows:

(a) If the contractor enters into additional defense production contracts after the application for, but before authorization of, a guarantee, the agency may adjust the loan guarantee amount or maturity date to meet any significant increase in financing need.

(b) If the contractor enters into defense production contracts during the term of the guaranteed loan, the parties may adjust the existing guarantee agreement to provide for financing the new contracts. Pertinent information and the Federal Reserve Bank reports will be submitted to the guaranteeing agency under the procedures for the original guarantee application, described in 32.304-1. Normally, a new certificate of eligibility is required.

### 32.304-5 Assignment of claims under contracts.

(a) The agency shall generally require a contractor that is provided a guaranteed loan to execute an assignment of claims under defense production contracts (including any contracts entered into during the term of the guaranteed loan that are eligible for financing under the loan); however, the

agency need not require assignment if any of the following conditions are present:

(1) The contractor's financial condition is so strong that the protection to the Government provided by an assignment of claims is unnecessary.

(2) In connection with the assignment of claims under a major contract, the increased protection of the loan that would be provided by the assignments under additional, relatively smaller contracts is not considered necessary by the agency.

(3) The assignment of claims would create an administrative burden disproportionate to the protection required; *e.g.*, if the contractor has a large number of contracts with individually small dollar amounts.

(b) The contractor shall also execute an assignment of claims if requested to do so by the guarantor or the financing institution.

(c) A subcontract or purchase order issued to a subcontractor shall not be considered eligible for financing under guaranteed loans when the issuer of the subcontract or purchase order reserves—

(1) The privilege of making payments directly to the assignor or to the assignor and assignee jointly, after notice of the assignment, or

(2) The right to reduce or set off assigned proceeds under defense production contracts by reason of claims against the borrower arising after notice of assignment and independently of defense production contracts under which the borrower is the seller.

### 32.304-6 Other collateral security.

The following are examples of other forms of security that, although seldom invoked under guaranteed loans, may be required when considered necessary for protection of the Government interest:

- (a) Mortgages on fixed assets.
- (b) Liens against inventories.
- (c) Endorsements.
- (d) Guarantees.
- (e) Subordinations or standbys of other indebtedness.

### 32.304-7 Contract surety bonds and loan guarantees.

(a) Contract surety bonds are incompatible with the Government's interests under guaranteed loans, unless the interests of the surety are subordinated to the guaranteed loan.

(b) If a substantial share of the contractor's defense contracts are covered by surety bonds, or the amount of the bond is substantial in relation to the contractor's net worth, the agency shall not authorize the guarantee of a loan on a bonded contract unless the surety enters into an agreement with the financing institution to subordinate the surety's rights and claims in favor of the guaranteed loan.

(c) The agency approval of a guarantee for a loan involving relatively substantial subcontracts covered by surety bonds shall also depend on the establishment of a reasonable allocation agreement between the sureties and the financing institution. The agreement should give the financing institution the benefit, with regard to payments to be made on the contract, of the portion of its loans fairly attributable to expenditures made under the bonded subcontracts before notice of default.

### **32.304-8 Other borrowing.**

(a) Because of the limitations under guaranteed loans, some contractors seek to supplement the loan by other borrowing (outside the guarantee) from the financing institution or other sources. It has been recognized in practice that, while prohibition of borrowings outside the guaranteed loan is preferable when practicable in a given V-loan case, such other borrowings should be permitted when necessary.

(b) If the agency consents to the contractor obtaining other borrowing during the guaranteed loan period, the agency shall apply the following restrictions:

(1) A reasonable limit on the amount of other borrowing.

(2) If guaranteed and unguaranteed loans are made by the same financing institution, a requirement that any collateral security requested by the institution under the unguaranteed loan is also to be secondary collateral for the guaranteed loan.

(3) A requirement that the contractor provide appropriate documentation to the guaranteeing agency, at intervals not longer than 30 days, to disclose outstanding unguaranteed borrowings.

### **32.305 Loan guarantees for terminated contracts.**

(a) The purpose of guaranteed loans; *i.e.*, to provide for financing based on the borrower's recoverable investment in defense production contracts, may also apply to contracts that have been terminated (partially or totally) for the convenience of the Government. Guaranteed loans also may be made before such termination if it is known that termination of particular contracts for the convenience of the Government is about to occur. These loans are expected to provide necessary financing pending termination settlements and payments. They may also finance continuing performance of defense production contracts that are eligible for guaranteed loans.

(b) The procedure for such guarantees is substantially the same as that outlined in 32.304, except that certificates of eligibility are not required for (1) contracts that have been totally terminated or (2) the terminated portion of contracts that have been partially terminated. The agency shall take precautions necessary to avoid Government losses and to ensure the loans will be self-liquidating from the proceeds of defense production contracts.

(c) Loan guarantees for contract termination financing shall not be provided before specific contract terminations are certain.

### **32.306 Loan guarantees for subcontracts.**

If the request for a loan guarantee concerns a subcontractor that is financially weak in comparison with its contractor, the Government's interests may be fostered by the contractor making progress payments to the subcontractor. If so, the agency shall try to arrange for the contractor to provide the progress payments. As a result, the need for the loan guarantee may be reduced or eliminated and the contractor would bear part or all of the risk of loss arising from the selection of the subcontractor.

## Subpart 32.4—Advance Payments for Non-Commercial Items

### 32.400 Scope of subpart.

This subpart provides policies and procedures for advance payments on prime contracts and subcontracts. It does not include policies and procedures for advance payments for the types of transactions listed in 32.404. This subpart does not apply to commercial advance payments, which are subject to Subpart 32.2.

### 32.401 Statutory authority.

The agency may authorize advance payments in negotiated and sealed bid contracts if the action is appropriate under—

- (a) Section 305 of the Federal Property and Administrative Services Act of 1949 (41 U.S.C. 255);
- (b) The Armed Services Procurement Act (10 U.S.C. 2307); or
- (c) Pub. L. 85-804 (50 U.S.C. 1431-1435) and Executive Order 10789, November 14, 1958 (3 CFR 1958 Supp. pp. 72-74) (see Part 50 of the Federal Acquisition Regulation (FAR) for other applications of this statute).

### 32.402 General.

(a) A limitation on authority to grant advance payments under Pub. L. 85-804 (50 U.S.C. 1431-1435) is described at FAR 50.203(b)(4).

(b) Advance payments may be provided on any type of contract; however, the agency shall authorize advance payments sparingly. Except for the contracts described in 32.403(a) and (b), advance payment is the least preferred method of contract financing (see 32.106) and generally they should not be authorized if other types of financing are reasonably available to the contractor in adequate amounts. Loans and credit at excessive interest rates or other exorbitant charges, or loans from other Government agencies, are not considered reasonably available financing.

(c) If statutory requirements and standards for advance payment determinations are met, the contracting officer shall generally recommend that the agency authorize advance payments.

- (1) The statutory requirements are that—
  - (i) The contractor gives adequate security;
  - (ii) The advance payments will not exceed the unpaid contract price (see 32.410(b), paragraph (a)(2)); and
  - (iii) The agency head or designee determines, based on written findings, that the advance payment—
    - (A) Is in the public interest (under 32.401(a) or (b)); or
    - (B) Facilitates the national defense (under 32.401(c)).

(2) The standards for advance payment determinations are that—

- (i) The advance payments will not exceed the contractor's interim cash needs based on—
  - (A) Analysis of the cash flow required for contract performance;
  - (B) Consideration of the reimbursement or other payment cycle; and
  - (C) To the extent possible, employment of the contractor's own working capital;
- (ii) The advance payments are necessary to supplement other funds or credit available to a contractor;
- (iii) The recipient is otherwise qualified as a responsible contractor;
- (iv) The Government will benefit from performance prospects or there are other practical advantages; and
- (v) The case fits one or more of the categories described in 32.403.

(d) If necessary, the agency may authorize advance payments in addition to progress or partial payments on the same contract (see 32.501-1(c)).

(e) Each agency that provides advance payments shall—

(1) Place the responsibility for making findings and determinations, and for approval of contract terms concerning advance payments (see 32.410), at an organizational level high enough to ensure uniform application of this subpart (see the limitation at 50.201(b) which also applies to advance payments authorized under Pub. L. 85-804 (50 U.S.C. 1431-1435)); and

(2) Establish procedures for coordination, before advance payment authorization, with the activity that provides contract financing support.

(f) If the contract provides for advance payments under Pub. L. 85-804, the contracting officer shall ensure conformance with the requirements of FAR 50.307.

### 32.403 Applicability.

Advance payments may be considered useful and appropriate for the following:

- (a) Contracts for experimental, research, or development work with nonprofit educational or research institutions.
- (b) Contracts solely for the management and operation of Government-owned plants.
- (c) Contracts for acquisition at cost of facilities for Government ownership.
- (d) Contracts of such a highly classified nature that the agency considers it undesirable for national security to permit assignment of claims under the contract.
- (e) Contracts entered into with financially weak contractors whose technical ability is considered essential to the agency. In these cases, the agency shall closely monitor the contractor's performance and financial controls to reduce the Government's financial risk.

(f) Contracts for which a loan by a private financial institution is not practicable, whether or not a loan guarantee under this part is issued; for example, if—

(1) Financing institutions will not assume a reasonable portion of the risk under a guaranteed loan;

(2) Loans with reasonable interest rates or finance charges are not available to the contractor; or

(3) Contracts involve operations so remote from a financial institution that the institution could not be expected to suitably administer a guaranteed loan.

(g) Contracts with small business concerns, under which circumstances that make advance payments appropriate often occur (but see 32.104(b)).

(h) Contracts under which exceptional circumstances make advance payments the most advantageous contract financing method for both the Government and the contractor.

### 32.404 Exclusions.

(a) This subpart does not apply to advance payments authorized by law for—

(1) Rent;

(2) Tuition;

(3) Insurance premiums;

(4) Expenses of investigations in foreign countries;

(5) Extension or connection of public utilities for Government buildings or installations;

(6) Subscriptions to publications;

(7) Purchases of supplies or services in foreign countries, if—

(i) The purchase price does not exceed \$10,000 (or equivalent amount of the applicable foreign currency); and

(ii) The advance payment is required by the laws or government regulations of the foreign country concerned;

(8) Enforcement of the customs or narcotics laws; or

(9) Other types of transactions excluded by agency procedures under statutory authority.

(b) Agencies may issue their own instructions to deal with advance payment items in paragraph (a) of this section authorized under statutes relevant to their agencies.

### 32.405 Applying Pub. L. 85-804 to advance payments under sealed bid contracts.

(a) Actions that designated agencies may take to facilitate the national defense without regard to other provisions of law relating to contracts, as explained in 50.101(a), also include making advance payments. These advance payments may be made at or after award of sealed bid contracts, as well as negotiated contracts.

(b) Bidders may request advance payments before or after award, even if the invitation for bids does not contain an advance payment provision. However, the contracting

officer shall reject any bid requiring that advance payments be provided as a basis for acceptance.

(c) When advance payments are requested, the agency may—

(1) Enter into the contract and provide for advance payments conforming to this Part 32;

(2) Enter into the contract without providing for advance payments if the contractor does not actually need advance payments; or

(3) Deny award of the contract if the request for advance payments has been disapproved under 32.409-2 and funds adequate for performance are not otherwise available to the offeror.

### 32.406 Letters of credit.

(a) The Department of the Treasury (Treasury) prescribes regulations and instructions covering the use of letters of credit for advance payments under contracts. See Treasury Department Circular 1075 (31 CFR part 205), and the implementing instructions in the Treasury Financial Manual, available in offices providing financial advice and assistance.

(b) If agencies provide advance payments to contractors, use of the following methods is required unless the agency has obtained a waiver from the Treasury Department:

(1) By letter of credit if the contracting agency expects to have a continuing relationship with the contractor for a year or more, with advances totaling at least \$120,000 a year.

(2) By direct Treasury check if the circumstances do not meet the criteria in paragraph (b)(1) of this section.

(c) If the agency has entered into multiple contracts (or a combination of contract(s) and assistance agreement(s)) involving eligibility of a contractor for more than one letter of credit, the agency shall follow arrangements made under Treasury procedures for—

(1) Consolidating funding to the same contractor under one letter of credit or

(2) Replacing multiple letters of credit with a single letter of credit.

(d) The letter of credit enables the contractor to withdraw Government funds in amounts needed to cover its own disbursements of cash for contract performance. Whenever feasible, the agency shall, under the direction and approval of the Department of the Treasury, use a letter of credit method that requires the contractor not to withdraw the Government funds until the contractor's checks have been—

(1) Forwarded to the payees (delay of drawdown technique), or

(2) Presented to the contractor's bank for payment (checks paid technique) (see 31 CFR 205.3 and 205.4(d)).

(e) The Treasury regulations provide for terminating the advance financing arrangement if the contractor is unwilling or unable to minimize the elapsed time between receipt of

the advance and disbursement of the funds. In such cases, if reversion to normal payment methods is not feasible, the Treasury regulation provides for use of a working capital method of advance; *i.e.*, for limiting advances to—

- (1) Only the estimated disbursements for a given initial period and
- (2) Subsequently, for only actual cash disbursements (31 CFR 205.3(k) and 205.7).

### 32.407 Interest.

(a) Except as provided in paragraph (d) of this section, the contracting officer shall charge interest on the daily unliquidated balance of all advance payments at the higher of—

- (1) The published prime rate of the financial institution (depository) in which the special account (see 32.409-3) is established; or
- (2) The rate established by the Secretary of the Treasury under 50 U.S.C. App. 1215(b)(2).

(b) The interest rate for advance payments shall be adjusted for changes in the prime rate of the depository and the semiannual determination by the Secretary of the Treasury under 50 U.S.C. App. 1215(b)(2). The contracting officer shall obtain data from the depository on changes in the interest rate during the month. Interest shall be computed at the end of each month on the daily unliquidated balance of advance payments at the applicable daily interest rate.

(c) Interest shall be required on contracts that are for acquisition, at cost, of facilities for Government ownership, if the contracts are awarded in combination with, or in contemplation of, supply contracts or subcontracts.

(d) The agency head or designee may authorize advance payments without interest under the following types of contracts, if in the Government's interest:

- (1) Contracts for experimental, research, or development work (including studies, surveys, and demonstrations in socio-economic areas) with nonprofit education or research institutions.
- (2) Contracts solely for the management and operation of Government-owned plants.
- (3) Cost-reimbursement contracts with governments, including State or local governments, or their instrumentalities.
- (4) Other classes of contracts, or unusual cases, for which the exclusion of interest on advances is specifically authorized by agency procedures.

(e) If a contract provides for interest-free advance payments, the contracting officer may require the contractor to charge interest on advances or downpayments to subcontractors and credit the Government for the proceeds from the interest charges. Interest rates shall be determined as described in paragraphs (a) and (b) of this section. The con-

tracting officer need not require the contractor to charge interest on an advance to a subcontractor that is an institution of the kind described in paragraph (d)(1) of this section.

(f) The contracting officer shall not allow interest charges, required by this 32.407, as reimbursable costs under cost-reimbursement contracts, whether the interest charge was incurred by the prime contractor or a subcontractor.

### 32.408 Application for advance payments.

(a) A contractor may apply for advance payments before or after the award of a contract.

(b) The contractor shall submit any advance payment request in writing to the contracting officer and provide the following information:

(1) A reference to the contract if the request concerns an existing contract, or a reference to the solicitation if the request concerns a proposed contract.

(2) A cash flow forecast showing estimated disbursements and receipts for the period of contract performance. If the application pertains to a type of contract described in 32.403(a) or (b), the contractor shall limit the forecast to the contract to be financed by advance payments.

(3) The proposed total amount of advance payments.

(4) The name and address of the financial institution at which the contractor expects to establish a special account as depository for the advance payments. If advance payments in the form of a letter of credit are anticipated, the contractor shall identify the specific account at the financial institution to be used. This paragraph (b)(4) is not applicable if an alternate method is used under agency procedures.

(5) A description of the contractor's efforts to obtain unguaranteed private financing or a V-loan (see 32.301) under eligible contracts. This requirement is not applicable to the contract types described in 32.403(a) or (b).

(6) Other information appropriate to an understanding of (i) the contractor's financial condition and need, (ii) the contractor's ability to perform the contract without loss to the Government, and (iii) financial safeguards needed to protect the Government's interest. Ordinarily, if the contract is a type described in 32.403(a) or (b), the contractor may limit the response to this paragraph (b)(6) to information on the contractor's reliability, technical ability, and accounting system and controls.

### 32.409 Contracting officer action.

After analysis of the contractor's application and any appropriate investigation, the contracting officer shall recommend approval or disapproval and transmit the request and recommendation to the approving authority designated under 32.402(e).

**32.409-1 Recommendation for approval.**

If recommending approval, the contracting officer shall transmit the following, under agency procedures, to the approving authority:

- (a) Contract data, including—
  - (1) Identification and date of the award;
  - (2) Citation of the appropriation;
  - (3) Type and dollar amount of the contract;
  - (4) Items to be supplied, schedule of deliveries or performance, and status of any deliveries or performance;
  - (5) The contract fee or profit contemplated; and
  - (6) A copy of the contract, if available.
- (b) The contractor's request and supporting information.
- (c) A report on the contractor's past performance, responsibility, technical ability, and plant capacity.
- (d) Comments on—
  - (1) The contractor's need for advance payments; and
  - (2) Potential Government benefits from the contract performance.
- (e) Proposed advance payment contract terms, including proposed security requirements.
- (f) The findings, determination, and authorization (see 32.410).
- (g) The recommendation for approval of the advance payment request.
- (h) Justification of any proposal for waiver of interest charges (see 32.407).

**32.409-2 Recommendation for disapproval**

If recommending disapproval, the contracting officer shall, under agency procedures, transmit—

- (a) The items prescribed in 32.409-1(a), (b), and (c); and
- (b) The recommendation for disapproval and the reasons.

**32.409-3 Security, supervision, and covenants.**

(a) If advance payments are approved, the contracting officer shall enter into an agreement with the contractor covering special accounts and suitable covenants protecting the Government's interest (see 32.411). This requirement generally applies under all statutory authorities, but modified requirements applicable to certain specific cases are prescribed in paragraphs (e) through (g) of this section.

- (b) The agency shall—
  - (1) Ensure that the amount of advance payments does not exceed the contractor's financial needs, and
  - (2) Closely supervise the contractor's withdrawal of funds from special accounts in which the advance payments are deposited.

(c) In the terms of the agreement, the contracting officer should provide for a paramount lien in favor of the Government. This lien may supplement or replace other security requirements. The lien should cover—

- (1) Supplies being acquired;

(2) Any credit balance in the special account in which advance payments are deposited; and

(3) All property that the contractor acquires for performing the contract, except to the extent to which the Government otherwise has valid title to the property.

(d) Security requirements vary to fit the circumstances of different cases. Minimum security requirements are covered by the clauses prescribed in the contract. The contracting officer may supplement these as necessary in each case for protection of the Government's interest. Examples of additional security terms are—

- (1) Personal or corporate endorsements or guarantees;
- (2) Pledges of collateral;
- (3) Subordination or standby of other indebtedness;
- (4) Controls or limitations on profit distributions, salaries, bonuses or commissions, rentals and royalties, capital expenditures, creation of liens, retirement of stock or debt, and creation of additional obligations; and
- (5) Advance payment bonds (rarely required).

(e) In an advance payment agreement with an instrumentality of the Government, a State, a local government, or an agency or instrumentality of a State or local government, the contracting officer may omit the requirement for deposit of the advances in a special account, if the official approving the advance determines that other adequate security exists to protect the Government's interest.

(f) The requirements of this 32.409-3 do not apply when using letters of credit if an agency's procedures provide for—

(1) The use under a cost-reimbursement contract of Federal funds deposited in the contractor's account at a financial institution (without the contractor acquiring title to the funds); and

(2) The security of such deposit of public moneys in accordance with governing regulations of the Treasury Department.

(g) If a separate special account is not required; *e.g.*, advance payment by a letter of credit, an agency may require a special account for an individual case, or classes of cases, if the circumstances warrant.

**32.410 Findings, determination, and authorization.**

(a) Each determination concerning advance payments shall be supported by written findings (see 32.402(c)(1)(iii)).

(b) The following is an example of the format and text of findings, determination, and authorization with alternative words, phrases, and paragraphs to be selected to conform to the circumstances involved:

FINDINGS, DETERMINATION, AND AUTHORIZATION FOR  
ADVANCE PAYMENTS

FINDINGS

- (a) The undersigned hereby finds that:

(1) The \_\_\_\_\_ [Insert the name of the contracting activity] and \_\_\_\_\_ [Insert the name of the contractor] (have entered) (propose to enter) into (negotiated) (sealed bid) Contract No. \_\_\_\_\_, dated \_\_\_\_\_. [Summarize the specific facts and significant circumstances concerning the contract and the contractor; that, together with the other findings, will clearly support the determination below.]

(2) Advance payments (in an amount not to exceed \$\_\_\_\_\_ at any time outstanding) (in an aggregate amount not exceeding \$\_\_\_\_\_, less the aggregate amounts repaid, or withdrawn by the Government) are required by the Contractor to perform under the contract. The amount does not exceed the unpaid contract price or the estimated interim cash needs arising during the reimbursement cycle.

(3) The advance payments are necessary for prompt, efficient contract performance that will benefit the Government.

(4) The proposed advance payment clause provides for security for the protection of the Government. The clause requires that all payments will be deposited in a special account at the Contractor’s financial institution and that the Government will have a paramount lien on (i) the credit balance in the special account, (ii) any supplies contracted for, and (iii) any material or other property acquired for performance of the contract. [Insert the following, if applicable: (The Contractor’s financial management system provides for effective control over and accountability for all Federal funds under governing regulations of the Treasury Department.) (An advance payment bond is required.)] This security is considered adequate.

(5) Advance payments are the only adequate means of financing available to the Contractor, and the amount designated in (2) of this section is based, to the extent possible, on the use of the Contractor’s own working capital in performing the contract. [Insert paragraph (6), (7), or (8), as applicable.]

(6) The Contractor is a nonprofit (educational) (and) (research) institution, and the contract is for (experimental) (, (research and development) work.

(7) The contract is solely for the management and operation of a Government-owned plant.

(8) The following unusual facts and circumstances favor making advance payments to the Contractor without interest: [List the pertinent facts and circumstances.]

DETERMINATION

(b) Based on the findings in paragraph (a) of this section, the undersigned determined that the making of the proposed advance payments, (with interest at the rate of \_\_\_\_\_ [Insert the interest rate computed in accordance with 32.407] percent on the daily unliquidated balance of the advance payments,) (without interest, except as provided by the proposed advance payment clause,) (is in the public interest) (will facilitate the national defense).

AUTHORIZATION

(c) The advance payments, of which (the amount at any time outstanding) (the aggregate amount, less the aggregate amounts repaid, or withdrawn by the Government), shall not exceed \$\_\_\_\_\_, are hereby authorized under (section 305 of the Federal Property and Administrative Services Act of 1949 (41 U.S.C. 255)) (the Armed Services Procurement Act (10 U.S.C. 2307)) (the Extraordinary Contracting Authority of Government Agencies in Connection with National Defense Functions (50 U.S.C. 1431-1435) and Executive Order No. 10789 of November 14, 1958 (3 CFR 1958 Supp. pp. 72-74)) [or, if other, cite appropriate authority] on (terms substantially as contained in the proposed advance payment clause, a copy (an outline) of which is annexed to this authorization) (the following terms:) [Insert the appropriate terms.] (All prior authorizations for advance payments under Contract No. \_\_\_\_\_ are superseded.)

\_\_\_\_\_  
[Signature]  
\_\_\_\_\_  
[Name Typed]  
\_\_\_\_\_  
[Title of Authorized Official]

[Each Findings, Determination, and Authorization shall be individually prepared to fit the particular circumstances at hand. Paragraphs (a)(1), (2), (3) and (4) and paragraphs (b) and (c) shall be used in each case. If the contract is (a) for experimental, developmental or research work and with a nonprofit educational or research institution, or (b) only for management and operation of a Government-owned plant, paragraph (a)(5) should not be included. If the advance payment is to be made without interest to the contractor, include paragraph (a)(6), (7), or (8). If any advance payments have previously been authorized for the contract, include the final sentence of paragraph (c). The alternate parenthetical wording or other modifications may be used as appropriate. The paragraphs actually used shall be renumbered sequentially.]

**32.411 Agreement for special account at a financial institution.**

The contracting officer must use substantially the following form of agreement for a special account for advance payments:

AGREEMENT FOR SPECIAL ACCOUNT

This agreement is entered into this \_\_\_\_ day of \_\_\_\_\_, 20\_\_\_\_, between the United States of America (the Government), represented by the Contracting Officer executing this agreement, \_\_\_\_\_ [Insert the name of the Contractor], a \_\_\_\_\_ [Insert the name of the State of incorporation] corporation (the Contractor), and \_\_\_\_\_, a financial institution operating under the laws of \_\_\_\_\_, located at \_\_\_\_\_ (the financial institution).

## RECITALS

(a) Under date of \_\_\_\_\_, 20\_\_\_\_, the Government and the Contractor entered into Contract No. \_\_\_\_\_, or a related supplemental agreement, providing for advance payments to the Contractor. A copy of the advance payment terms was furnished to the financial institution.

(b) The contract or supplemental agreement requires that amounts advanced to the Contractor be deposited separate from the Contractor's general or other funds, in a Special Account at a member bank of the Federal Reserve System, any "insured" bank within the meaning of the Act creating the Federal Deposit Insurance Corporation (12 U.S.C. 1811), or a credit union insured by the National Credit Union Administration. The parties agree to deposit the amounts with the financial institution, which meets the requirement.

(c) This Special Account is designated "\_\_\_\_\_ [Insert the Contractor's name], \_\_\_\_\_ [Insert the name of the Government agency] Special Account."

## COVENANTS

In consideration of the foregoing, and for other good and valuable considerations, the parties agree to the following conditions:

(a) The Government shall have a lien on the credit balance in the account to secure the repayment of all advance payments made to the Contractor. The lien is paramount to any lien or claim of the financial institution regarding the account.

(b) The financial institution is bound by the terms of the contract relating to the deposit and withdrawal of funds in the Special Account, but is not responsible for the application of funds withdrawn from the account. The financial institution shall act on written directions from the Contracting Officer, the administering office, or a duly authorized representative of either. The financial institution is not liable to any party to this agreement for any action that complies with the written directions. Any written directions received by the financial institution through the Contracting Officer on \_\_\_\_\_ [Insert the name of the agency] stationery and purporting to be signed by, or by the direction of \_\_\_\_\_ or duly authorized representative, shall be, as far as the rights, duties, and liabilities of the financial institution are concerned, considered as being properly issued and filed with the financial institution by the \_\_\_\_\_ [Insert the name of the agency].

(c) The Government, or its authorized representatives, shall have access to the books and records maintained by the financial institution regarding the Special Account at all reasonable times and for all reasonable purposes, including (but not limited to), the inspection or copying of the books and

records and any and all pertinent memoranda, checks, correspondence, or documents. The financial institution shall preserve the books and records for a period of 6 years after the closing of this Special Account.

(d) In the event of the service of any writ of attachment, levy of execution, or commencement of garnishment proceedings regarding the Special Account, the financial institution will promptly notify \_\_\_\_\_ [Insert the name of the administering office].

(e) While this Special Account exists, the financial institution shall inform the Government each month of the financial institution's published prime interest rate and changes to the rate during the month. The financial institution shall give this information to the Contracting Officer on the last business day of the month. [This covenant will not be included in the Special Account Agreements covering interest-free advance payments.]

Each of the parties to this agreement has executed the agreement on \_\_\_\_\_, 20\_\_\_\_\_.

\_\_\_\_\_  
 \_\_\_\_\_

[Signatures and Official Titles]

**32.412 Contract clause.**

(a) The contracting officer shall insert the clause at 52.232-12, Advance Payments, in solicitations and contracts under which the Government will provide advance payments, except as provided in 32.412(b).

(b) If the agency desires to waive the countersignature requirement because of the contractor's financial strength, good performance record, and favorable experience concerning cost disallowances, the contracting officer shall use the clause with its Alternate I.

(c) If a cost-reimbursement contract is contemplated, the contracting officer shall use the clause with its Alternate II.

(d) If the agency considers a more rapid liquidation appropriate, the contracting officer shall use the clause with its Alternate III.

(e) If the agency provides advance payments under the contract at no interest to the prime contractor, the contracting officer shall use the clause with its Alternate IV.

(f) If the requirement for a special account is eliminated in accordance with 32.409-3(e) or (g), the contracting officer shall insert in the solicitation or contract the clause set forth in Alternate V of 52.232-12, Advance Payments, instead of the basic clause.

## Subpart 32.5—Progress Payments Based on Costs

### 32.500 Scope of subpart.

This subpart prescribes policies, procedures, forms, solicitation provisions, and contract clauses for providing contract financing through progress payments based on costs. This subpart does not apply to—

(a) Payments under cost-reimbursement contracts, but see 32.110 for progress payments made to subcontractors under cost-reimbursement prime contracts; or

(b) Contracts for construction or for shipbuilding or ship conversion, alteration, or repair, when the contracts provide for progress payments based on a percentage or stage of completion.

### 32.501 General.

Progress payments may be customary or unusual. Customary progress payments are those made under the general guidance in this subpart, using the customary progress payment rate, the cost base, and frequency of payment established in the Progress Payments clause, and either the ordinary liquidation method or the alternate method as provided in subsections 32.503-8 and 32.503-9. Any other progress payments are considered unusual, and may be used only in exceptional cases when authorized in accordance with subsection 32.501-2.

#### 32.501-1 Customary progress payment rates.

(a) The customary progress payment rate is 80 percent, applicable to the total costs of performing the contract. The customary rate for contracts with small business concerns is 85 percent.

(b) The contracting officer must—

(1) Consider any rate higher than those permitted in paragraph (a) of this section an unusual progress payment; and

(2) Not include a higher rate in a contract unless advance agency approval is obtained as prescribed in 32.501-2.

(c) When advance payments and progress payments are authorized under the same contract, the contracting officer must not authorize a progress payment rate higher than the customary rate.

(d) In accordance with 10 U.S.C. 2307(e)(2) and 41 U.S.C. 255, the limit for progress payments is 80 percent on work accomplished under undefinitized contract actions. The contracting officer must not authorize a higher rate under unusual progress payments or other customary progress payments for the undefinitized actions.

#### 32.501-2 Unusual progress payments.

(a) The contracting officer may provide unusual progress payments only if—

(1) The contract necessitates predelivery expenditures that are large in relation to contract price and in relation to the contractor's working capital and credit;

(2) The contractor fully documents an actual need to supplement any private financing available, including guaranteed loans; and

(3) The contractor's request is approved by the head of the contracting activity or a designee. In addition, see 32.502-2.

(b) The excess of the unusual progress payment rate approved over the customary progress payment rate should be the lowest amount possible under the circumstances.

(c) Progress payments will not be considered unusual merely because they are on letter contracts or the definitive contracts that supersede letter contracts.

#### 32.501-3 Contract price.

(a) For the purpose of making progress payments and determining the limitation on progress payments, the contract price shall be as follows:

(1) Under firm-fixed-price contracts, the contract price is the current contract price plus any unpriced modifications for which funds have been obligated.

(2) If the contract is redeterminable or subject to economic price adjustment, the contract price is the initial price until modified.

(3) Under a fixed-price incentive contract, the contract price is the target price plus any unpriced modifications for which funds have been obligated. However, if the contractor's properly incurred costs exceed the target price, the contracting officer may provisionally increase the price up to the ceiling or maximum price.

(4) Under a letter contract, the contract price is the maximum amount obligated by the contract as modified.

(5) Under an unpriced order issued against a basic ordering agreement, the contract price is the maximum amount obligated by the order, as modified.

(6) Any portion of the contract specifically providing for reimbursement of costs only shall be excluded from the contract price.

(b) The contracting officer shall not make progress payments or increase the contract price beyond the funds obligated under the contract, as amended.

#### 32.501-4 [Reserved]

#### 32.501-5 Other protective terms.

If the contracting officer considers it necessary for protection of the Government's interest, protective terms such as

the following may be used in addition to the Progress Payments clause of the contract:

- (a) Personal or corporate guarantees.
- (b) Subordinations or standbys of indebtedness.
- (c) Special bank accounts.
- (d) Protective covenants of the kinds in paragraph (p) of the clause at 52.232-12, Advance Payments.
- (e) A provision, included in the solicitation and resultant contract when first article testing is required (see Subpart 9.3), limiting progress payments on first article work by a stated amount or percentage.

### 32.502 Preaward matters.

This section covers matters that generally are relevant only before contract award. This does not preclude taking actions discussed here after award, if appropriate; *e.g.*, post-award addition of a Progress Payments clause for consideration.

#### 32.502-1 Use of customary progress payments.

The contracting officer may use a Progress Payments clause in solicitations and contracts, in accordance with this subpart. The contracting officer must reject as nonresponsive bids conditioned on progress payments when the solicitation did not provide for progress payments.

#### 32.502-2 Contract finance office clearance.

The contracting officer shall obtain the approval of the contract finance office or other offices designated under agency procedures before taking any of the following actions:

- (a) Providing a progress payment rate higher than the customary rate (see 32.501-1).
- (b) Deviating from the progress payments terms prescribed in this part.
- (c) Providing progress payments to a contractor—
  - (1) Whose financial condition is in doubt;
  - (2) Who has had an advance payment request or loan guarantee denied for financial reasons (or approved but withdrawn or lapsed) within the previous 12 months; or
  - (3) Who is named in the consolidated list of contractors indebted to the United States (known commonly as the “Hold-up List”).

#### 32.502-3 Solicitation provisions.

(a) The contracting officer shall insert the provision at 52.232-13, Notice of Progress Payments, in invitations for bids and requests for proposals that include a Progress Payments clause.

(b)(1) Under the authority of the statutes cited in 32.101, an invitation for bids may restrict the availability of progress payments to small business concerns only.

(2) The contracting officer shall insert the provision at 52.232-14, Notice of Availability of Progress Payments Exclusively for Small Business Concerns, in invitations for bids if it is anticipated that—

- (i) Both small business concerns and others may submit bids in response to the same invitation and
- (ii) Only the small business bidders would need progress payments.

(c) The contracting officer shall insert the provision at 52.232-15, Progress Payments Not Included, in invitations for bids if the solicitation will not contain one of the provisions prescribed in paragraphs (a) and (b) of this section.

#### 32.502-4 Contract clauses.

(a)(1) Insert the clause at 52.232-16, Progress Payments, in—

- (i) Solicitations that may result in contracts providing for progress payments based on costs; and
- (ii) Fixed-price contracts under which the Government will provide progress payments based on costs.

(2) If advance agency approval has been given in accordance with 32.501-1, the contracting officer may substitute a different customary rate for other than small business concerns for the progress payment and liquidation rate indicated.

(3) If an unusual progress payment rate is approved for the prime contractor (see 32.501-2), substitute the approved rate for the customary rate in paragraphs (a)(1), (a)(6), and (b) of the clause.

(4) If the liquidation rate is changed from the customary progress payment rate (see 32.503-8 and 32.503-9), substitute the new rate for the rate in paragraphs (a)(1), (a)(6), and (b) of the clause.

(5) If an unusual progress payment rate is approved for a subcontract (see 32.504(c) and 32.501-2), modify paragraph (j)(6) of the clause to specify the new rate, the name of the subcontractor, and that the new rate shall be used for that subcontractor in lieu of the customary rate.

(b) If the contractor is a small business concern, use the clause with its Alternate I.

(c) If the contract is a letter contract, use the clause with its Alternate II.

(d) If the contractor is not a small business concern, and progress payments are authorized under an indefinite-delivery contract, basic ordering agreement, or their equivalent, use the clause with its Alternate III.

(e) If the nature of the contract necessitates separate progress payment rates for portions of work that are clearly severable and accounting segregation would be maintained (*e.g.*, annual production requirements), describe the application of separate progress payment rates in a supplementary special provision within the contract. The contractor must submit separate progress payment requests and subsequent

invoices for the severable portions of work in order to maintain accounting integrity.

### 32.503 Postaward matters.

This section covers matters that are generally relevant only after award of a contract. This does not preclude taking actions discussed here before award, if appropriate; *e.g.*, preaward review of accounting systems and controls.

#### 32.503-1 Contractor requests.

Each contractor request for progress payment must—

(a) Be submitted on Standard Form 1443, Contractor's Request for Progress Payment, in accordance with the form instructions and the contract terms;

(b) Include any additional information reasonably requested by the contracting officer; and

(c) Be \$2,500 or more, unless agency procedures authorize a lower amount.

#### 32.503-2 Supervision of progress payments.

(a) The extent of progress payments supervision, by prepayment review or periodic review, should vary inversely with the contractor's experience, performance record, reliability, quality of management, and financial strength, and with the adequacy of the contractor's accounting system and controls. Supervision shall be of a kind and degree sufficient to provide timely knowledge of the need for, and timely opportunity for, any actions necessary to protect Government interests.

(b) The administering office must keep itself informed of the contractor's overall operations and financial condition, since difficulties encountered and losses suffered in operations outside the particular progress payment contract may affect adversely the performance of that contract and the liquidation of the progress payments.

(c) For contracts with contractors—

(1) Whose financial condition is doubtful or not strong in relation to progress payments outstanding or to be outstanding;

(2) With management of doubtful capacity;

(3) Whose accounting controls are found by experience to be weak; or

(4) Experiencing substantial difficulties in performance, full information on progress under the contract involved (including the status of subcontracts) and on the contractor's other operations and overall financial condition should be obtained and analyzed frequently, with a view to protecting the Government's interests better and taking such action as may be proper to make contract performance more certain.

(d) So far as practicable, all cost problems, particularly those involving indirect costs, that are likely to create disagreements in future administration of the contract should be

identified and resolved at the inception of the contract (see 31.109).

#### 32.503-3 Initiation of progress payments and review of accounting system.

(a) For contractors that the administrative contracting officer (ACO) has found by previous experience or recent audit review (within the last 12 months) to be—

(1) Reliable, competent, and capable of satisfactory performance;

(2) Possessed of an adequate accounting system and controls; and

(3) In sound financial condition, progress payments in amounts requested by the contractor should be approved as a matter of course.

(b) For all other contractors, the ACO shall not approve progress payments before determining (1) that (i) the contractor will be capable of liquidating any progress payments or (ii) the Government is otherwise protected against loss by additional protective provisions, and (2) that the contractor's accounting system and controls are adequate for proper administration of progress payments. The services of the responsible audit agency or office should be used to the greatest extent practicable. However, if the auditor so advises, a complete audit may not be necessary.

#### 32.503-4 Approval of progress payment requests.

(a) When the reliability of the contractor and the adequacy of the contractor's accounting system and controls have been established (see 32.503-3 of this section) the ACO may, in approving any particular progress payment request (including initial requests on new contracts), rely upon that accounting system and upon the contractor's certification, without requiring audit or review of the request before payment.

(b) The ACO should not routinely ask for audits of progress payment requests. However, when there is reason to—

(1) Question the reliability or accuracy of the contractor's certification; or

(2) Believe that the contract will involve a loss, the ACO should ask for a review or audit of the request before payment is approved or the request is otherwise disposed of.

(c) When there is reason to doubt the amount of a progress payment request, only the doubtful amount should be withheld, subject to later adjustment after review or audit; any clearly proper and due amounts should be paid without awaiting resolution of the differences.

#### 32.503-5 Administration of progress payments.

(a) While the ACO may, in approving progress payment requests under 32.503-3 of this section, rely on the contractor's accounting system and certification without prepay-

ment review, postpayment reviews (including audits when considered necessary) shall be made periodically, or when considered desirable by the ACO to determine the validity of progress payments already made and expected to be made.

(b) These postpayment reviews or audits shall, as a minimum, include a determination of whether or not—

(1) The unliquidated progress payments are fairly supported by the value of the work accomplished on the undelivered portion of the contract;

(2) The applicable limitation on progress payments in the Progress Payments clause has been exceeded;

(3)(i) The unpaid balance of the contract price will be adequate to cover the anticipated cost of completion; or

(ii) The contractor has adequate resources to complete the contract; and

(4) There is reason to doubt the adequacy and reliability of the contractor's accounting system and controls and certification.

(c) Under indefinite-delivery contracts, the contracting officer should administer progress payments made under each individual order as if the order constituted a separate contract, unless agency procedures provide otherwise.

### 32.503-6 Suspension or reduction of payments.

(a) *General.* The Progress Payments clause provides a Government right to reduce or suspend progress payments, or to increase the liquidation rate, under specified conditions. These conditions and actions are discussed in paragraphs (b) through (g) of this subsection.

(1) The contracting officer shall take these actions only in accordance with the contract terms and never precipitately or arbitrarily. These actions should be taken only after—

(i) Notifying the contractor of the intended action and providing an opportunity for discussion;

(ii) Evaluating the effect of the action on the contractor's operations, based on the contractor's financial condition, projected cash requirements, and the existing or available credit arrangements; and

(iii) Considering the general equities of the particular situation.

(2) The contracting officer shall take immediate unilateral action only if warranted by circumstances such as overpayments or unsatisfactory contract performance.

(3) In all cases, the contracting officer shall (i) act fairly and reasonably, (ii) base decisions on substantial evidence, and (iii) document the contract file. Findings made under paragraph (c) of the Progress Payments clause shall be in writing.

(b) *Contractor noncompliance.* (1) The contractor must comply with all material requirements of the contract. This includes the requirement to maintain an efficient and reliable accounting system and controls, adequate for the proper

administration of progress payments. If the system or controls are deemed inadequate, progress payments shall be suspended (or the portion of progress payments associated with the unacceptable portion of the contractor's accounting system shall be suspended) until the necessary changes have been made.

(2) If the contractor fails to comply with the contract without fault or negligence, the contracting officer will not take action permitted by paragraph (c)(1) of the Progress Payments clause, other than to correct overpayments and collect amounts due from the contractor.

(c) *Unsatisfactory financial condition.* (1) If the contracting officer finds that contract performance (including full liquidation of progress payments) is endangered by the contractor's financial condition, or by a failure to make progress, the contracting officer shall require the contractor to make additional operating or financial arrangements adequate for completing the contract without loss to the Government.

(2) If the contracting officer concludes that further progress payments would increase the probable loss to the Government, the contracting officer shall suspend progress payments and all other payments until the unliquidated balance of progress payments is eliminated.

(d) *Excessive inventory.* If the inventory allocated to the contract exceeds reasonable requirements (including a reasonable accumulation of inventory for continuity of operations), the contracting officer should, in addition to requiring the transfer of excessive inventory from the contract, take one or more of the following actions, as necessary, to avoid or correct overpayment:

(1) Eliminate the costs of the excessive inventory from the costs eligible for progress payments, with appropriate reduction in progress payments outstanding.

(2) Apply additional deductions to billings for deliveries (increase liquidation).

(e) *Delinquency in payment of costs of performance.*

(1) If the contractor is delinquent in paying the costs of contract performance in the ordinary course of business, the contracting officer shall evaluate whether the delinquency is caused by an unsatisfactory financial condition and, if so, shall apply the guidance in paragraph (c) of this section. If the contractor's financial condition is satisfactory, the contracting officer shall not deny progress payments if the contractor agrees to—

(i) Cure the payment delinquencies;

(ii) Avoid further delinquencies; and

(iii) Make additional arrangements adequate for completing the contract without loss to the Government.

(2) If the contractor has, in good faith, disputed amounts claimed by subcontractors, suppliers, or others, the contracting officer shall not consider the payments delinquent until the amounts due are established by the parties through litigation or arbitration. However, the amounts shall be excluded from costs eligible for progress payments so long as they are disputed.

(3) Determinations of delinquency in making contributions under employee pension, profit sharing, or stock ownership plans, and exclusion of costs for such contributions from progress payment requests, shall be in accordance with paragraph (a)(3) of the clause at 52.232-16, Progress Payments, without regard to the provisions of 32.503-6.

(f) *Fair value of undelivered work.* Progress payments must be commensurate with the fair value of work accomplished in accordance with contract requirements. Governed by the principles of paragraphs (c) and (e) of this subsection, the contracting officer must adjust progress payments when necessary to ensure that the fair value of undelivered work equals or exceeds the amount of unliquidated progress payments. On loss contracts, the application of a loss ratio as described in paragraph (g) of this subsection constitutes this adjustment.

(g) *Loss contracts.* (1) If the sum of the total costs incurred under a contract plus the estimated costs to complete the performance are likely to exceed the contract price, the contracting officer shall compute a loss ratio factor and adjust future progress payments to exclude the element of loss. The loss ratio factor is computed as follows:

(i) Revise the current contract price used in progress payment computations (the current ceiling price under fixed-price incentive contracts) to include any pending change orders and unpriced orders to the extent funds for the orders have been obligated.

(ii) Divide the revised contract price by the sum of the total costs incurred to date plus the estimated additional costs of completing the contract performance.

(2) If the contracting officer believes a loss is probable, future progress payment requests shall be modified as follows:

(i) The contract price shall be the revised amount computed under paragraph (g)(1)(i) of this section.

(ii) The total costs eligible for progress payments shall be the product of—

(A) the sum of paid costs eligible for progress payments times;

(B) the loss ratio factor computed under paragraph (g)(1)(ii) of this section.

(iii) The costs applicable to items delivered, invoiced, and accepted shall not include costs in excess of the contract price of the items.

(3) The contracting officer may use audit assistance, technical services, management reports, and other sources of pertinent data to evaluate progress payment requests. If the contracting officer concludes that the contractor's figures in the contractor's progress payment request are not correct, the contracting officer shall—

(i) In the manner prescribed in paragraph (g)(4) of this section, prepare a supplementary analysis to be attached to the contractor's request;

(ii) Advise the contractor in writing of the differences; and

(iii) Adjust all further progress payments in accordance with paragraph (g)(1) of this section, using the contracting officer's figures, until the difference is resolved.

(4) The following is an example of the supplementary analysis required in paragraph (g)(3) of this subsection:

SECTION I:

Contract price .....	\$2,850,000
Change orders and unpriced orders (to extent funds have been obligated) .....	\$150,000
Revised contract price .....	\$3,000,000

SECTION II:

Total costs incurred to date.....	\$2,700,000
Estimated additional costs to complete .....	\$900,000
Total costs to complete .....	\$3,600,000

$$\text{Loss ratio factor} = \frac{\$3,000,000}{\$3,600,000} = 83.3\%$$

Total costs eligible for progress payments .....	\$2,700,000
Loss ratio factor....	x 83.3%
Recognized costs for progress payments .....	\$2,249,100
Progress payment rate .....	x 80.0%
Alternate amount to be used.....	\$1,799,280

SECTION III:

Factored costs of items delivered* .....	\$ 750,000
Recognized costs applicable to undelivered items ..... (\$2,249,100-\$750,000) .....	\$1,499,100

\*This amount must be the same as the contract price of the items delivered.

**32.503-7 [Reserved]**

**32.503-8 Liquidation rates—ordinary method.**

The Government recoups progress payments through the deduction of liquidations from payments that would otherwise be due to the contractor for completed contract items. To determine the amount of the liquidation, the contracting officer applies a liquidation rate to the contract price of contract items delivered and accepted. The ordinary method is that the liquidation rate is the same as the progress payment

rate. At the beginning of a contract, the contracting officer must use this method.

### 32.503-9 Liquidation rates—alternate method.

(a) The liquidation rate determined under 32.503-8 shall apply throughout the period of contract performance unless the contracting officer adjusts the liquidation rate under the alternate method in this 32.503-9. The objective of the alternate liquidation rate method is to permit the contractor to retain the earned profit element of the contract prices for completed items in the liquidation process. The contracting officer may reduce the liquidation rate if—

- (1) The contractor requests a reduction in the rate;
- (2) The rate has not been reduced in the preceding 12 months;
- (3) The contract delivery schedule extends at least 18 months from the contract award date;
- (4) Data on actual costs are available—
  - (i) For the products delivered, or
  - (ii) If no deliveries have been made, for a performance period of at least 12 months;
- (5) The reduced liquidation rate would result in the Government recouping under each invoice the full extent of the progress payments applicable to the costs allocable to that invoice;
- (6) The contractor would not be paid for more than the costs of items delivered and accepted (less allocable progress payments) and the earned profit on those items;
- (7) The unliquidated progress payments would not exceed the limit prescribed in paragraph (a)(4) of the Progress Payments clause;
- (8) The parties agree on an appropriate rate; and
- (9) The contractor agrees to certify annually, or more often if requested by the contracting officer, that the alternate rate continues to meet the conditions of subsections 5, 6, and 7 of this section. The certificate must be accompanied by adequate supporting information.

(b) The contracting officer shall change the liquidation rate in the following circumstances:

- (1) The rate shall be increased for both previous and subsequent transactions, if the contractor experiences a lower profit rate than the rate anticipated at the time the liquidation rate was associated with contract items already delivered, as well as subsequent progress payments.
- (2) The rate shall be increased or decreased in keeping with the successive changes to the contract price or target profit when—
  - (i) The target profit is changed under a fixed-price incentive contract with successive targets; or
  - (ii) A redetermined price involves a change in the profit element under a contract with prospective price re-determination at stated intervals.

(c) Whenever the liquidation rate is changed, the contracting officer shall issue a contract modification to specify the new rate in the Progress Payments clause. Adequate consideration for these contract modifications is provided by the consideration included in the initial contract. The parties shall promptly make the payment or liquidation required in the circumstances.

### 32.503-10 Establishing alternate liquidation rates.

(a) The contracting officer must ensure that the liquidation rate is—

- (1) High enough to result in Government recoupment of the applicable progress payments on each billing; and
- (2) Supported by documentation included in the administration office contract file.

(b) The minimum liquidation rate is the expected progress payments divided by the contract price. Each of these factors is discussed below:

(1) The contracting officer must compute the expected progress payments by multiplying the estimated cost of performing the contract by the progress payment rate.

(2) For purposes of computing the liquidation rate, the contracting officer may adjust the estimated cost and the contract price to include the estimated value of any work authorized but not yet priced and any projected economic adjustments; however, the contracting officer's adjustment must not exceed the Government's estimate of the price of all authorized work or the funds obligated for the contract.

(3) The following are examples of the computation. Assuming an estimated price of \$2,200,000 and total estimated costs eligible for progress payments of \$2,000,000:

(i) If the progress payment rate is 80 percent, the minimum liquidation rate should be 72.7 percent, computed as follows:

$$\begin{array}{rcl} \$2,000,000 \times 80\% & = & 72.7\% \\ \$2,200,000 & & \end{array}$$

(ii) If the progress payment rate is 85 percent, the minimum liquidation rate should be 77.3 percent, computed as follows:

$$\begin{array}{rcl} \$2,000,000 \times 85\% & = & 77.3\% \\ \$2,200,000 & & \end{array}$$

(4) Minimum liquidation rates will generally be expressed to tenths of a percent. Decimals between tenths will be rounded up to the next highest tenth (not necessarily the nearest tenth), since rounding down would produce a rate below the minimum rate calculated.

### 32.503-11 Adjustments for price reduction.

(a) If a retroactive downward price reduction occurs under a redeterminable contract that provides for progress payments, the contracting officer shall—

(1) Determine the refund due and obtain repayment from the contractor for the excess of payments made for delivered items over amounts due as recomputed at the reduced prices; and

(2) Increase the unliquidated progress payments amount for overdeductions made from the contractor's billings for items delivered.

(b) The contracting officer shall also increase the unliquidated progress payments amount if the contractor makes an interim or voluntary price reduction under a redeterminable or incentive contract.

### **32.503-12 Maximum unliquidated amount.**

(a) The contracting officer shall ensure that any excess of the unliquidated progress payments over the contractual limitation in paragraph (a) of the Progress Payments clause in the contract is promptly corrected through one or more of the following actions:

- (1) Increasing the liquidation rate.
- (2) Reducing the progress payment rate.
- (3) Suspending progress payments.

(b) The excess described in paragraph (a) of this section is most likely to arise under the following circumstances:

- (1) The costs of performance exceed the contract price.
- (2) The alternate method of liquidation (see 32.503-9) is used and the actual costs of performance exceed the cost estimates used to establish the liquidation rate.
- (3) The rate of progress or the quality of contract performance is unsatisfactory.
- (4) The rate of rejections, waste, or spoilage is excessive.

(c) As required, the services of the responsible audit agency or office should be fully utilized, along with the services of qualified cost analysis and engineering personnel.

### **32.503-13 [Reserved]**

### **32.503-14 Protection of Government title.**

(a) Since the Progress Payments clause gives the Government title to all of the materials, work-in-process, finished goods, and other items of property described in paragraph (d) of the Progress Payments clause, under the contract under which progress payments have been made, the ACO must ensure that the Government title to these inventories is not compromised by other encumbrances. Ordinarily, the ACO, in the absence of reason to believe otherwise, may rely upon the contractor's certification contained in the progress payment request.

(b) If the ACO becomes aware of any arrangement or condition that would impair the Government's title to the property affected by progress payment, the ACO shall require additional protective provisions (see 32.501-5) to establish and protect the Government's title.

(c) The existence of any such encumbrance is a violation of the contractor's obligations under the contract, and the ACO may, if necessary, suspend or reduce progress payments under the terms of the Progress Payments clause covering failure to comply with any material requirement of the contract. In addition, if the contractor fails to disclose an existing encumbrance in the progress payments certification, the ACO should consult with legal counsel concerning possible violation of 31 U.S.C. 3729, the False Claims Act.

### **32.503-15 Application of Government title terms.**

(a) Property to which the Government obtains title by operation of the Progress Payments clause solely is not, as a consequence, Government-furnished property.

(b) Although property title is vested in the Government under the Progress Payments clause, the acquisition, handling, and disposition of certain types of property are governed by other clauses, as follows:

- (1) The clause at 52.245-17, Special Tooling, for special tooling.
- (2) The termination clauses at 52.249, for termination inventory.

(c) The contractor may sell or otherwise dispose of current production scrap in the ordinary course of business on its own volition, even if title has vested in the Government under the Progress Payments clause. The contracting officer shall require the contractor to credit the costs of the contract performance with the proceeds of the scrap disposition.

(d) When the title to materials or other inventories is vested in the Government under the Progress Payments clause, the contractor may transfer the inventory items from the contract for its own use or other disposition only if, and on terms, approved by the contracting officer. The contractor shall—

- (1) Eliminate the costs allocable to the transferred property from the costs of contract performance, and
- (2) Repay or credit to the Government an amount equal to the unliquidated progress payments, allocable to the transferred property.

(e) If excess property remains after the contract performance is complete and all contractor obligations under the contract are satisfied, including full liquidation of progress payments, the excess property is outside the scope of the Progress Payments clause. Therefore, the contractor holds title to it.

### **32.503-16 Risk of loss.**

(a) Under the Progress Payments clause, and except for normal spoilage, the contractor bears the risk for loss, theft, destruction, or damage to property affected by the clause, even though title is vested in the Government, unless the Government has expressly assumed this risk. The clauses prescribed in this regulation related to progress payments,

default, and terminations do not constitute a Government assumption of this risk.

(b) If a loss occurs in connection with property for which the contractor bears the risk, the contractor is obligated to repay to the Government the amount of unliquidated progress payments based on costs allocable to the property.

(c) The contractor is not obligated to pay for the loss of property for which the Government has assumed the risk of loss. However, a serious loss may impede the satisfactory progress of contract performance, so that the contracting officer may need to act under paragraph (c)(5) of the Progress Payments clause.

### **32.504 Subcontracts under prime contracts providing progress payments.**

(a) Subcontracts may include either performance-based payments, provided they meet the criteria in 32.1003, or progress payments, provided they meet the criteria in Subpart 32.5 for customary progress payments, but not both. Subcontracts for commercial purchases may include commercial item purchase financing terms, provided they meet the criteria in 32.202-1.

(b) The contractor's requests for progress payments may include the full amount of commercial item purchase financing payments, performance-based payments, or progress payments to a subcontractor, whether paid or unpaid, provided that unpaid amounts are limited to amounts that the contractor will pay—

(1) In accordance with the terms and conditions of a subcontract or invoice; and

(2) Ordinarily prior to the submission of the contractor's next progress payment request to the Government.

(c) If the contractor is considering making unusual progress payments to a subcontractor, the parties will be guided by the policies in 32.501-2. If the Government approves unusual progress payments for the subcontract, the contracting officer must issue a contract modification to specify the new rate in paragraph (j)(6) of the clause at 52.232-16, Progress Payments, in the prime contract. This will allow the contractor to include the progress payments to the subcontractor in the cost basis for progress payments by the Government. This modification is not a deviation and does not require the clearance prescribed in 32.502-2(b).

(d) The contractor has a duty to ensure that financing payments to subcontractors conform to the standards and principles prescribed in paragraph (j) of the Progress Payments clause in the prime contract. Although the contracting officer should, to the extent appropriate, review the subcon-

tract as part of the overall administration of progress payments in the prime contract, there is no special requirement for contracting officer review or consent merely because the subcontract includes financing payments, except as provided in paragraph (c) of this section. However, the contracting officer must ensure that the contractor has installed the necessary management control systems, including internal audit procedures.

(e) When financing payments are in the form of progress payments, the Progress Payments clause at 52.232-16 requires that the subcontract include the substance of the Progress Payments clause in the prime contract, modified to indicate that the contractor, not the Government, awards the subcontract and administers the progress payments. The following exceptions apply to wording modifications:

(1) The subcontract terms on title to property under progress payments shall provide for vesting of title in the Government, not the contractor, as in paragraph (d) of the Progress Payments clause in the prime contract. A reference to the contractor may, however, be substituted for "Government" in paragraph (d)(2)(iv) of the clause.

(2) In the subcontract terms on reports and access to records, the contractor shall not delete the references to "Contracting Officer" and "Government" in adapting paragraph (g) of the Progress Payments clause in the contract, but may expand the terms as follows:

(i) The term "Contracting Officer" may be changed to "Contracting Officer or Prime Contractor."

(ii) The term "the Government" may be changed to "the Government or Prime Contractor."

(3) The subcontract special terms regarding default shall include paragraph (h) of the Progress Payments clause in the contract through its subdivision (i). The rest of paragraph (h) is optional.

(f) When financing payments are in the form of performance-based payments, the Performance-Based Payments clause at 52.232-32 requires that the subcontract terms include the substance of the Performance-Based Payments clause, modified to indicate that the contractor, not the Government, awards the subcontract and administers the performance-based payments, and include appropriately worded modifications similar to those noted in paragraph (e) of this section.

(g) When financing payments are in the form of commercial item purchase financing, the subcontract must include a contract financing clause structured in accordance with 32.206.

## Subpart 32.6—Contract Debts

### 32.600 Scope of subpart.

This subpart prescribes policies and procedures for the Government's actions in ascertaining and collecting contract debts, charging interest on the debts, deferring collections, and compromising and terminating certain debts.

### 32.601 Definition.

"Responsible official," as used in this subpart, means the contracting officer (see Subpart 2.1) or other official designated under agency procedures to administer the collection of contract debts and applicable interest.

### 32.602 General.

The contract debts covered in this subpart arise in various ways. The following are some examples:

- (a) Damages or excess costs related to defaults in performance.
- (b) Breach of contract obligations concerning progress payments, advance payments, or Government-furnished property or material.
- (c) Government expense of correcting defects.
- (d) Overpayments related to errors in quantity or billing or deficiencies in quality.
- (e) Retroactive price reductions resulting from contract terms for price redetermination or for determination of prices under incentive type contracts.
- (f) Overpayments disclosed by quarterly statements required under price redetermination or incentive contracts.
- (g) Delinquency in contractor payments due under agreements or arrangements for deferral or postponement of collections.
- (h) Reimbursement of costs, as provided in 33.102(b) and 33.104(h)(1), paid by the Government where a postaward protest is sustained as a result of an awardee's misstatement, misrepresentation, or miscertification.

### 32.603 Applicability.

Except as otherwise specified, this subpart applies to all debts to the Government arising in connection with contracts and subcontracts for the acquisition of supplies or services, and debts arising from the Government's payment of costs, as provided in 33.102(b) and 33.104(h)(1), where a postaward protest is sustained as a result of an awardee's misstatement, misrepresentation, or miscertification.

### 32.604 Exclusions.

This subpart does not apply to claims of the Government against military or civilian employees or their dependents arising in connection with current or past employment by the Government. Sections 32.613, 32.614, and 32.616 do not

apply to claims against common carriers for transportation overcharges and freight and cargo losses.

### 32.605 Responsibilities and cooperation among Government officials.

(a) To protect the Government's interests, contracting officers, contract financing offices, disbursing officials, and auditors shall cooperate fully with each other to—

- (1) Discover promptly when a contract debt arises;
- (2) Ascertain the correct amount of the debt;
- (3) Act promptly and effectively to collect the debt;
- (4) Administer deferment of collection agreements;

and

(5) Provide up-to-date information on the status of the debt.

(b) For most kinds of contract debts, including reimbursement of protest costs, the contracting officer has the primary responsibility for determining the amounts of and collecting contract debt. Under some agency procedures, however, the individual who is responsible for payment under the contract; *e.g.*, the disbursing officer, may have this primary responsibility.

### 32.606 Debt determination and collection.

(a) If any indication of a contract debt arises, the responsible official shall determine promptly whether an actual debt is due the Government and the amount. Any unwarranted delay may contribute to—

- (1) Loss of timely availability of the funds to the program for which the funds were initially provided;
- (2) Increased difficulty in collecting the debt; or
- (3) Actual monetary loss to the Government.

(b) In determining the amount of any contract debt, the responsible official shall fairly consider both the Government's claim and any contract claims by the contractor against the Government. This determination does not constitute a settlement of such claims, nor is it a contracting officer's final determination under the Contract Disputes Act of 1978.

(c) The responsible official shall establish a control record for each contract debt, to include at least the following information:

- (1) The name and address of the contractor.
- (2) The contract number, if any.
- (3) A description of the debt.
- (4) The amount of debt and the appropriation to be credited.
- (5) The date the debt was determined.
- (6) The dates of demands for payment.
- (7) The amounts and dates of collections, as they occur.
- (8) The date of any appeal filed or action brought in the Court of Claims under the Disputes clause.

(9) The status of collections. Examples include—

- (i) Actions reported to the disbursing officer (name, location, and date);
- (ii) Funds requested to be withheld by the disbursing officer;
- (iii) Funds requested to be withheld by other offices (date and office);
- (iv) Deferment or installment payment arrangement requested;
- (v) Deferment or installment request reviewed;
- (vi) Supplemental information requested to support deferment requests; and
- (vii) Actions transferred to the contract financing office.

(d) Except in cases in which an agreement has been entered into for deferment of collections (32.613) or bankruptcy proceedings against the contractor have been initiated, the contractor shall be required to liquidate the debt by—

- (1) Cash payment in a lump sum, on demand; or
- (2) Credit against existing unpaid bills due the contractor.

(e) The responsible officials shall use all proper means available to them for collecting debts as rapidly as possible. Practices for ascertaining and collecting debts shall be comprehensive, dynamic, and as uniform as practicable. Full consideration shall be given to personal contact and followup.

### **32.607 Tax credit.**

(a) If the contractor is entitled to a tax credit under section 1481 of the Internal Revenue Code (26 U.S.C. 1481) and requests recognition of the credit in the debt collection, the responsible official shall comply.

(b) The tax credit shall be considered to reduce the amount of the debt as of the date when interest on the debt begins to accrue.

(c) The amount of the debt reduction shall be the amount of the tax credit certificate, if a certificate was issued by the Internal Revenue Service (IRS). If the IRS has not yet issued a certificate, the responsible official may accept the contractor's estimate of the tax credit amount until the certificate is issued, subject to any verification that the responsible official considers appropriate.

(d) A reduction for a tax credit does not apply to a debt arising from a subcontract.

### **32.608 Negotiation of contract debts.**

(a) The responsible official shall ensure that any negotiations concerning debt determinations are completed expeditiously. If consistent with the contract, the official shall make a unilateral determination promptly if the contractor is delinquent in any of the following actions:

- (1) Furnishing pertinent information.
  - (2) Negotiating expeditiously.
  - (3) Entering into an agreement on a fair and reasonable price revision.
  - (4) Signing an interim memorandum evidencing a negotiated pricing agreement involving refund.
  - (5) Executing an appropriate contract modification reflecting the result of negotiations.
- (b) The amount of indebtedness determined unilaterally shall be an amount that—
- (1) Is proper based on the merits of the case;
  - (2) Does not exceed an amount that would have been considered acceptable in a negotiated agreement; and
  - (3) Is consistent with the contract terms.
- (c) For unilateral debt determinations, the contracting officer shall issue a decision as required by the clause at 52.233-1, Disputes. Such decision shall include a demand for payment (see 33.211(a)(4)(vi)). No demand for payment under 32.610 shall be issued prior to a contracting officer's final decision. A copy of the final decision shall be sent to the appropriate finance office.

### **32.609 Memorandum of pricing agreement with refund.**

(a) If a refund to the Government is agreed upon in negotiations under a price revision type of contract, the responsible official shall promptly write a memorandum to document the agreement and the contract debt. The memorandum shall be signed by the negotiators for the Government and the contractor. If the procedures of either the agency or the contractor require approval of the negotiation results by higher authority, the memorandum shall be written without prejudice to the final pricing. After negotiations are completed, a supplemental agreement shall be executed without delay.

(b) The amount of refund shall be computed promptly, without waiting for itemization of adjustment of past billings, accounting adjustments, or the adjusted invoices.

### **32.610 Demand for payment of contract debt.**

(a) A demand for payment shall be made as soon as the responsible official has computed the amount of refund due. If the debt arises from excess costs for a default termination, the demand shall be made without delay, as explained in 49.402-6.

- (b) The demand shall include the following:
- (1) A description of the debt, including the debt amount.
  - (2) Notification that any amounts not paid within 30 days from the date of the demand will bear interest from the date of the demand, or from any earlier date specified in the contract, and that the interest rate shall be the rate established by the Secretary of the Treasury, for the period affected, under Public Law 92-41. In the case of a debt arising from a price reduction for defective pricing, or as specif-

ically set forth in a Cost Accounting Standards (CAS) clause in the contract, that interest will run from the date of overpayment by the Government until repayment by the contractor at the underpayment rate established by the Secretary of the Treasury, for the periods affected, under 26 U.S.C. 6621(a)(2).

(3) A notification that the contractor may submit a proposal for deferment of collection if immediate payment is not practicable or if the amount is disputed.

(4) Identification of the responsible official designated for determining the amount of the debt and for its collection.

(c) If paragraph (b)(3) of the clause at 52.232-17, Interest, applies, the demand mentioned in paragraph (a) of this section shall accompany or be included in the transmittal mentioned in the clause.

### **32.611 Routine setoff.**

If a disbursing officer is the responsible official for collection of a contract debt, or is notified of the debt by the responsible official and has contractor invoices on hand for payment, the disbursing officer shall make an appropriate setoff. The disbursing officer shall give the contractor an explanation of the setoff. To the extent that the setoff reduces the debt, the explanation shall replace the demand prescribed in 32.610.

### **32.612 Withholding and setoff.**

During the 30 days following the issuance of a demand, the advisability of withholding payments otherwise due to the contractor shall be considered based on the circumstances of the individual cases. If payment is not completed within 30 days, and deferment is not requested, withholding of principal and interest shall be initiated immediately. In the event the contract is assigned under the Assignment of Claims Act of 1940 (31 U.S.C. 3727 and 41 U.S.C. 15), the rights of the assignee will be scrupulously respected and withholding of payments shall be consistent with those rights. For additional information on assignment of claims, see Subpart 32.8.

### **32.613 Deferment of collection.**

(a) If the responsible official receives a written request from the contractor for a deferment of the debt collection or installment payments, the official shall promptly review the request to see if the information included is adequate for action on the request. If not, the contractor shall be asked to furnish the needed information. Any necessary changes to the terms of the proposed deferment/installment agreement shall also be suggested.

(b) If the contractor has appealed the debt under the procedures of the Disputes clause of the contract, the information with the request for deferment may be limited to an explanation of the contractor's financial condition.

(c) If there is no appeal pending or action filed under the Disputes clause of the contract, the following information about the contractor should be submitted with the request:

- (1) Financial condition.
- (2) Contract backlog.
- (3) Projected cash receipts and requirements.
- (4) The feasibility of immediate payment of the debt.
- (5) The probable effect on operations of immediate payment in full.

(d) Although the existence of a contractor appeal of the debt does not of itself require the Government to suspend or delay collection action, the responsible official shall consider whether deferment of the debt collection is advisable to avoid possible overcollection. The responsible official may authorize a deferment pending the resolution of appeal.

(e) Deferments pending disposition of appeal may be granted to small business concerns and financially weak contractors, with a reasonable balance of the need for Government security against loss and undue hardship on the contractor.

(f) If a contractor has not appealed the debt or filed an action under the Disputes clause of the contract, the responsible official may arrange for deferment/installment payments if the contractor is unable to pay at once in full or the contractor's operations under national defense contracts would be seriously impaired. The arrangement shall include appropriate covenants and securities and should be limited to the shortest practicable maturity.

(g) Contracts and arrangements for deferment may not provide that a claim of the Government will not become due and payable pending mutual agreement on the amount of the claim or, in the case of a dispute, until the decision is reached.

(h) At a minimum, the deferment agreement shall contain the following:

- (1) A description of the debt.
- (2) The date of first demand for payment.
- (3) Notice of an interest charge, in conformity with FAR 32.614 and the clause at FAR 52.232-17, Interest; or, in the case of a debt arising from a defective pricing or a CAS noncompliance overpayment, interest, as prescribed by the applicable Price Reduction for Defective Cost or Pricing Data or CAS clause.
- (4) Identification of the office to which the contractor is to send debt payments.
- (5) A requirement for the contractor to submit financial information requested by the Government and for reasonable access to the contractor's records and property by Government representatives.
- (6) Provision for the Government to terminate the deferment agreement and accelerate the maturity of the debt if the contractor defaults or if bankruptcy or insolvency proceedings are instituted by or against the contractor.

(7) Protective requirements that are considered by the Government to be prudent and feasible in the specific circumstances. The coverage of protective terms at 32.409 and 32.501-5 may be used as a guide.

(i) If a contractor appeal of the debt determination is pending, the deferment agreement shall also include a requirement that the contractor shall—

(1) Diligently prosecute the appeal; and

(2) Pay the debt in full when the appeal is decided, or when the parties reach agreement on the debt amount.

(j) If the contractor does not plan to appeal the debt or file an action under the Disputes clause of the contract, the deferment/installment agreement shall include a specific schedule or plan for payment. It should permit the Government to make periodic financial reviews of the contractor and to require prepayments if the Government considers the contractor's ability to pay improved. It should also provide for required stated or measurable prepayments on the occurrence of specific events or contingencies that improve the contractor's ability to pay.

(k) If desired by the contractor, the deferment agreement may provide for the right to make prepayments without prejudice, for refund of overpayments, and for crediting of interest (see 32.614-2).

(l) Actions filed by contractors under the Disputes clause shall not suspend or delay collection. Until the action is decided, deferments shall only be granted if, within 30 days after the filing of such action, the contractor presents to the responsible official a good and sufficient bond, or other collateral acceptable to the responsible official, in the amount of the claim, and approved by the responsible official. Any amount collected by the Government in excess of the amount found to be due on appeal under the Disputes clause of the contract shall be refunded to the contractor with interest thereon from the date of collection by the Government at the annual rate established by the Secretary of Treasury under Public Law 92-41. Simple interest shall be calculated through the period of indebtedness to reflect each 6-month period change in the rates established by the Secretary.

### **32.614 Interest.**

#### **32.614-1 Interest charges.**

(a) Under the clause at 52.232-17, Interest, the responsible official shall apply interest charges to any contract debt unpaid after 30 days from the issuance of a demand, unless—

(1) The contract specifies another due date or procedure for charging or collecting interest;

(2) The contract is a kind excluded under 32.617; or

(3) The contract or debt has been exempted from interest charges under agency procedures.

(b) If not already applicable under the contract terms, interest on contract debt shall be made an element of any agreement entered into on deferment of collection.

(c) Unless specified otherwise in the clause at FAR 52.232-17, the interest charge shall be at the rate established by the Secretary of the Treasury under Public Law 92-41 for the period in which the amount becomes due. The interest charge shall be computed for the actual number of calendar days involved beginning on the due date and ending on—

(1) The date on which the designated office receives payment from the contractor;

(2) The date of issuance of a Government check to the contractor from which an amount otherwise payable has been withheld as a credit against the contract debt;

(3) The date on which an amount withheld and applied to the contract debt would otherwise have become payable to the contractor; or

(4) The date of any applicable tax credit under 32.607.

#### **32.614-2 Interest credits.**

(a) An equitable interest credit shall be applied under the following circumstances:

(1) When the amount of debt initially determined is subsequently reduced; *e.g.*, through a successful appeal.

(2) When the collection procedures followed in a given case result in an overcollection of the debt due.

(3) When the responsible official determines that the Government has unduly delayed payments to the contractor on the same contract at some time during the period to which the interest charge applied, provided an interest penalty was not paid for such late payment.

(b) Any appropriate interest credits shall be computed under the following procedures:

(1) Interest at the rate under 32.614-1(c) shall be charged on the reduced debt from the date specified in the first demand made for payment of the higher debt.

(2) Interest may not be reduced for any time between the due date under the demand and the period covered by a deferment of collection, unless the contract includes an interest clause; *e.g.*, the clause prescribed in 32.617.

(3) Interest shall not be credited in an amount that, when added to other amounts refunded or released to the contractor, exceeds the total amount that has been collected, or withheld for the purpose of collecting the debt. This limitation shall be further reduced by the amount of any limitation applicable under 32.614-2(b)(2).

#### **32.615 Delays in receipt of notices or demands.**

If delivery of the demands or notices required by the clause at 52.232-17, Interest, is delayed by the Government (*e.g.*, undue delay after dating at the originating office or delays in the mail), the date of the debt and accrual of inter-

est shall be extended to a time that is fair and reasonable under the particular circumstances.

**32.616 Compromise actions.**

For debts under \$100,000, excluding interest, if further collection is not practicable or would cost more than the amount of recovery, the agency may compromise the debt or terminate or suspend further collection action. Compromise is authorized by the Federal Claims Collection Act of 1966 (31 U.S.C. 3711). Compromise actions shall conform to Federal claims collection standards (4 CFR 101-105), and agency regulations.

**32.617 Contract clause.**

(a) The contracting officer shall insert the clause at 52.232-17, Interest, in solicitations and contracts, unless it is contemplated that the contract will be in one or more of the following categories:

(1) Contracts at or below the simplified acquisition threshold.

(2) Contracts with Government agencies.

(3) Contracts with a State or local government or instrumentality.

(4) Contracts with a foreign government or instrumentality.

(5) Contracts without any provision for profit or fee with a nonprofit organization.

(6) Contracts described in Subpart 5.5, Paid Advertisements.

(7) Any other exceptions authorized under agency procedures.

(b) The contracting officer may insert the clause at 52.232-17, Interest, in solicitations and contracts when it is contemplated that the contract will be in any of the categories specified in 32.617(a).

## Subpart 32.7—Contract Funding

### 32.700 Scope of subpart.

This subpart (a) describes basic requirements for contract funding and (b) prescribes procedures for using limitation of cost or limitation of funds clauses. Detailed acquisition funding requirements are contained in agency fiscal regulations.

### 32.701 [Reserved]

### 32.702 Policy.

No officer or employee of the Government may create or authorize an obligation in excess of the funds available, or in advance of appropriations (Anti-Deficiency Act, 31 U.S.C. 1341), unless otherwise authorized by law. Before executing any contract, the contracting officer shall—

- (a) Obtain written assurance from responsible fiscal authority that adequate funds are available or
- (b) Expressly condition the contract upon availability of funds in accordance with 32.703-2.

### 32.703 Contract funding requirements.

#### 32.703-1 General.

- (a) If the contract is fully funded, funds are obligated to cover the price or target price of a fixed-price contract or the estimated cost and any fee of a cost-reimbursement contract.
- (b) If the contract is incrementally funded, funds are obligated to cover the amount allotted and any corresponding increment of fee.

#### 32.703-2 Contracts conditioned upon availability of funds.

- (a) *Fiscal year contracts.* The contracting officer may initiate a contracting action properly chargeable to funds of the new fiscal year before these funds are available; provided, that the contract includes the clause at 52.232-18, Availability of Funds (see 32.705-1(a)). This authority may be used only for operation and maintenance and continuing services (e.g., rentals, utilities, and supply items not financed by stock funds)—
  - (1) Necessary for normal operations and
  - (2) For which Congress previously had consistently appropriated funds, unless specific statutory authority exists permitting applicability to other requirements.
- (b) *Indefinite-quantity or requirements contracts.* A one-year indefinite-quantity or requirements contract for services that is funded by annual appropriations may extend beyond the fiscal year in which it begins; provided, that—
  - (1) Any specified minimum quantities are certain to be ordered in the initial fiscal year (see 37.106) and

(2) The contract includes the clause at 52.232-19, Availability of Funds for the Next Fiscal Year (see 32.705-1(b)).

(c) *Acceptance of supplies or services.* The Government shall not accept supplies or services under a contract conditioned upon the availability of funds until the contracting officer has given the contractor notice, to be confirmed in writing, that funds are available.

#### 32.703-3 Contracts crossing fiscal years.

(a) A contract that is funded by annual appropriations may not cross fiscal years, except in accordance with statutory authorization (e.g., 41 U.S.C. 11a, 31 U.S.C. 1308, 42 U.S.C. 2459a, 42 U.S.C. 3515, and paragraph (b) of this subsection), or when the contract calls for an end product that cannot feasibly be subdivided for separate performance in each fiscal year (e.g., contracts for expert or consultant services).

(b) The head of an executive agency, except NASA, may enter into a contract, exercise an option, or place an order under a contract for severable services for a period that begins in one fiscal year and ends in the next fiscal year if the period of the contract awarded, option exercised, or order placed does not exceed one year (10 U.S.C. 2410a and 41 U.S.C. 2531). Funds made available for a fiscal year may be obligated for the total amount of an action entered into under this authority.

#### 32.704 Limitation of cost or funds.

(a)(1) When a contract contains the clause at 52.232-20, Limitation of Cost; 52.232-21, Limitation of Cost (Facilities); or 52.232-22, Limitation of Funds, the contracting officer, upon learning that the contractor is approaching the estimated cost of the contract or the limit of the funds allotted, shall promptly obtain funding and programming information pertinent to the contract's continuation and notify the contractor in writing that—

- (i) Additional funds have been allotted, or the estimated cost has been increased, in a specified amount;
- (ii) The contract is not to be further funded and that the contractor should submit a proposal for an adjustment of fee, if any, based on the percentage of work completed in relation to the total work called for under the contract;
- (iii) The contract is to be terminated; or
- (iv)(A) The Government is considering whether to allot additional funds or increase the estimated cost—
  - (B) The contractor is entitled by the contract terms to stop work when the funding or cost limit is reached; and
  - (C) Any work beyond the funding or cost limit will be at the contractor's risk.

(2) Upon learning that a partially funded contract containing any of the clauses referenced in paragraph (a)(1) of this section will receive no further funds, the contracting officer shall promptly give the contractor written notice of the decision not to provide funds.

(b) Under a cost-reimbursement contract, the contracting officer may issue a change order, a direction to replace or repair defective items or work, or a termination notice without immediately increasing the funds available. Since a contractor is not obligated to incur costs in excess of the estimated cost in the contract, the contracting officer shall ensure availability of funds for directed actions. The contracting officer may direct that any increase in the estimated cost or amount allotted to a contract be used for the sole purpose of funding termination or other specified expenses.

(c) Government personnel encouraging a contractor to continue work in the absence of funds will incur a violation of Revised Statutes section 3679 (31 U.S.C. 1341) that may subject the violator to civil or criminal penalties.

### **32.705 Contract clauses.**

#### **32.705-1 Clauses for contracting in advance of funds.**

(a) The contracting officer shall insert the clause at 52.232-18, Availability of Funds, in solicitations and contracts if the contract will be chargeable to funds of the new

fiscal year and the contracting action is to be initiated before the funds are available.

(b) The contracting officer shall insert the clause at 52.232-19, Availability of Funds for the Next Fiscal Year, in solicitations and contracts if a one-year indefinite-quantity or requirements contract for services is contemplated and the contract—

(1) Is funded by annual appropriations; and

(2) Is to extend beyond the initial fiscal year (see 32.703-2(b)).

#### **32.705-2 Clauses for limitation of cost or funds.**

(a) The contracting officer shall insert the clause at 52.232-20, Limitation of Cost, in solicitations and contracts if a fully funded cost-reimbursement contract is contemplated, except those for consolidated facilities, facilities acquisition, or facilities use, whether or not the contract provides for payment of a fee.

(b) The contracting officer shall insert the clause at 52.232-21, Limitation of Cost (Facilities), in solicitations and contracts for consolidated facilities, facilities acquisition, or facilities use (see 45.301).

(c) The contracting officer shall insert the clause at 52.232-22, Limitation of Funds, in solicitations and contracts if an incrementally funded cost-reimbursement contract is contemplated.

## Subpart 32.8—Assignment of Claims

### 32.800 Scope of subpart.

This subpart prescribes policies and procedures for the assignment of claims under the Assignment of Claims Act of 1940, as amended, 31 U.S.C. 3727, 41 U.S.C. 15 (hereafter referred to as “the Act”).

### 32.801 Definitions.

“Designated agency,” as used in this subpart, means any department or agency of the executive branch of the United States Government (see 32.803(d)).

“No-setoff commitment,” as used in this subpart, means a contractual undertaking that, to the extent permitted by the Act, payments by the designated agency to the assignee under an assignment of claims will not be reduced to liquidate the indebtedness of the contractor to the Government.

### 32.802 Conditions.

Under the Assignment of Claims Act, a contractor may assign moneys due or to become due under a contract if all the following conditions are met:

- (a) The contract specifies payments aggregating \$1,000 or more.
- (b) The assignment is made to a bank, trust company, or other financing institution, including any Federal lending agency.
- (c) The contract does not prohibit the assignment.
- (d) Unless otherwise expressly permitted in the contract, the assignment—
  - (1) Covers all unpaid amounts payable under the contract;
  - (2) Is made only to one party, except that any assignment may be made to one party as agent or trustee for two or more parties participating in the financing of the contract; and
  - (3) Is not subject to further assignment.
- (e) The assignee sends a written notice of assignment together with a true copy of the assignment instrument to the—
  - (1) Contracting officer or the agency head;
  - (2) Surety on any bond applicable to the contract; and
  - (3) Disbursing officer designated in the contract to make payment.

### 32.803 Policies.

(a) Any assignment of claims that has been made under the Act to any type of financing institution listed in 32.802(b) may thereafter be further assigned and reassigned to any such institution if the conditions in 32.802(d) and (e) continue to be met.

(b) A contract may prohibit the assignment of claims if the agency determines the prohibition to be in the Government’s interest.

(c) Under a requirements or indefinite quantity type contract that authorizes ordering and payment by multiple Government activities, amounts due for individual orders for \$1,000 or more may be assigned.

(d) Any contract of a designated agency (see FAR 32.801), except a contract under which full payment has been made, may include a no-setoff commitment only when a determination of need is made by the head of the agency, in accordance with the Presidential delegation of authority dated October 3, 1995, and after such determination has been published in the *Federal Register*. The Presidential delegation makes such determinations of need subject to further guidance issued by the Office of Federal Procurement Policy. The following guidance has been provided:

Use of the no-setoff provision may be appropriate to facilitate the national defense; in the event of a national emergency or natural disaster; or when the use of the no-setoff provision may facilitate private financing of contract performance. However, in the event an offeror is significantly indebted to the United States, the contracting officer should consider whether the inclusion of the no-setoff commitment in a particular contract is in the best interests of the United States. In such an event, the contracting officer should consult with the Government officer(s) responsible for collecting the debt(s).

(e) When an assigned contract does not include a no-setoff commitment, the Government may apply against payments to the assignee any liability of the contractor to the Government arising independently of the assigned contract if the liability existed at the time notice of the assignment was received even though that liability had not yet matured so as to be due and payable.

### 32.804 Extent of assignee’s protection.

(a) No payments made by the Government to the assignee under any contract assigned in accordance with the Act may be recovered on account of any liability of the contractor to the Government. This immunity of the assignee is effective whether the contractor’s liability arises from or independently of the assigned contract.

(b) Except as provided in paragraph (c) of this section, the inclusion of a no-setoff commitment in an assigned contract entitles the assignee to receive contract payments free of reduction or setoff for—

- (1) Any liability of the contractor to the Government arising independently of the contract; and
- (2) Any of the following liabilities of the contractor to the Government arising from the assigned contract:
  - (i) Renegotiation under any statute or contract clause.
  - (ii) Fines.

(iii) Penalties, exclusive of amounts that may be collected or withheld from the contractor under, or for failure to comply with, the terms of the contract.

(iv) Taxes or social security contributions.

(v) Withholding or nonwithholding of taxes or social security contributions.

(c) In some circumstances, a setoff may be appropriate even though the assigned contract includes a no-setoff commitment; e.g.—

(1) When the assignee has neither made a loan under the assignment nor made a commitment to do so; or

(2) To the extent that the amount due on the contract exceeds the amount of any loans made or expected to be made under a firm commitment for financing.

**32.805 Procedure.**

(a) *Assignments.* (1) Assignments by corporations shall be—

(i) Executed by an authorized representative;

(ii) Attested by the secretary or the assistant secretary of the corporation; and

(iii) Impressed with the corporate seal or accompanied by a true copy of the resolution of the corporation's board of directors authorizing the signing representative to execute the assignment.

(2) Assignments by a partnership may be signed by one partner, if the assignment is accompanied by adequate evidence that the signer is a general partner of the partnership and is authorized to execute assignments on behalf of the partnership.

(3) Assignments by an individual shall be signed by that individual and the signature acknowledged before a notary public or other person authorized to administer oaths.

(b) *Filing.* The assignee shall forward to each party specified in 32.802(e) an original and three copies of the notice of assignment, together with one true copy of the instrument of assignment. The true copy shall be a certified duplicate or photostat copy of the original assignment.

(c) *Format for notice of assignment.* The following is a suggested format for use by an assignee in providing the notice of assignment required by 32.802(e).

NOTICE OF ASSIGNMENT

To: \_\_\_\_\_ [Address to one of the parties specified in 32.802(e)].

This has reference to Contract No. \_\_\_\_\_ dated \_\_\_\_\_, entered into between \_\_\_\_\_ [Contractor's name and address] and \_\_\_\_\_ [Government agency, name of office, and address], for \_\_\_\_\_ [Describe nature of the contract].

Moneys due or to become due under the contract described above have been assigned to the undersigned under the provi-

sions of the Assignment of Claims Act of 1940, as amended, 31 U.S.C. 3727, 41 U.S.C. 15.

A true copy of the instrument of assignment executed by the Contractor on \_\_\_\_\_ [Date], is attached to the original notice.

Payments due or to become due under this contract should be made to the undersigned assignee.

Please return to the undersigned the three enclosed copies of this notice with appropriate notations showing the date and hour of receipt, and signed by the person acknowledging receipt on behalf of the addressee.

Very truly yours,

\_\_\_\_\_  
[Name of Assignee]

By \_\_\_\_\_  
[Signature of Signing Officer]

\_\_\_\_\_  
[Title of Signing Officer]

\_\_\_\_\_  
[ADDRESS OF ASSIGNEE]

ACKNOWLEDGEMENT

Receipt is acknowledged of the above notice and of a copy of the instrument of assignment. They were received \_\_\_\_ (a.m.) (p.m.) on \_\_\_\_\_, 20\_\_\_\_.

\_\_\_\_\_  
[Signature]

\_\_\_\_\_  
[Title]

\_\_\_\_\_  
On behalf of

\_\_\_\_\_  
[Name of Addressee of this Notice]

(d) *Examination by the Government.* In examining and processing notices of assignment and before acknowledging their receipt, contracting officers should assure that the following conditions and any additional conditions specified in agency regulations, have been met:

(1) The contract has been properly approved and executed.

(2) The contract is one under which claims may be assigned.

(3) The assignment covers only money due or to become due under the contract.

(e) *Release of assignment.* (1) A release of an assignment is required whenever—

(i) There has been a further assignment or reassignment under the Act; or

(ii) The contractor wishes to reestablish its right to receive further payments after the contractor's obligations to the assignee have been satisfied and a balance remains due under the contract.

(2) The assignee, under a further assignment or reassignment, in order to establish a right to receive payment from the Government, must file with the addressees listed in 32.802(e) a—

(i) Written notice of release of the contractor by the assigning financing institution;

(ii) Copy of the release instrument;

(iii) Written notice of the further assignment or reassignment; and

(iv) Copy of the further assignment or reassignment instrument.

(3) If the assignee releases the contractor from an assignment of claims under a contract, the contractor, in order to establish a right to receive payment of the balance due under the contract, must file a written notice of release together with a true copy of the release of assignment instrument with the addressees noted in 32.802(e).

(4) The addressee of a notice of release of assignment or the official acting on behalf of that addressee shall acknowledge receipt of the notice.

**32.806 Contract clauses.**

(a)(1) The contracting officer shall insert the clause at 52.232-23, Assignment of Claims, in solicitations and contracts expected to exceed the micro-purchase threshold, unless the contract will prohibit the assignment of claims (see 32.803(b)). The use of the clause is not required for purchase orders. However, the clause may be used in purchase orders expected to exceed the micro-purchase threshold, that are accepted in writing by the contractor, if such use is consistent with agency policies and regulations.

(2) If a no-setoff commitment has been authorized (see 32.803(d)), the contracting officer shall use the clause with its Alternate I.

(b) The contracting officer shall insert the clause at 52.232-24, Prohibition of Assignment of Claims, in solicitations and contracts for which a determination has been made under agency regulations that the prohibition of assignment of claims is in the Government's interest.

**Subpart 32.9—Prompt Payment**

**32.900 Scope of subpart.**

This subpart prescribes policies, procedures, and clauses for implementing Office of Management and Budget (OMB) prompt payment regulations at 5 CFR part 1315.

**32.901 Applicability.**

(a) This subpart applies to invoice payments on all contracts, except contracts with payment terms and late payment penalties established by other governmental authority (e.g., tariffs).

(b) This subpart does not apply to contract financing payments (see definition at 32.001).

**32.902 Definitions.**

As used in this subpart—

“Discount for prompt payment” means an invoice payment reduction offered by the contractor for payment prior to the due date.

“Mixed invoice” means an invoice that contains items with different payment due dates.

“Payment date” means the date on which a check for payment is dated or, for an electronic funds transfer (EFT), the settlement date.

“Settlement date,” as it applies to electronic funds transfer, means the date on which an electronic funds transfer payment is credited to the contractor’s financial institution.

**32.903 Responsibilities.**

(a) Agency heads—

(1) Must establish the policies and procedures necessary to implement this subpart;

(2) May prescribe additional standards for establishing invoice payment due dates (see 32.904) necessary to support agency programs and foster prompt payment to contractors;

(3) May adopt different payment procedures in order to accommodate unique circumstances, provided that such procedures are consistent with the policies in this subpart;

(4) Must inform contractors of points of contact within their cognizant payment offices to enable contractors to obtain status of invoices; and

(5) May authorize the use of the accelerated payment methods specified at 5 CFR 1315.5.

(b) When drafting solicitations and contracts, contracting officers must identify for each contract line item number, subtitle item number, or exhibit line item number—

(1) The applicable Prompt Payment clauses that apply to each item when the solicitation or contract contains items that will be subject to different payment terms; and

(2) The applicable Prompt Payment food category (e.g., which item numbers are meat or meat food products, which are perishable agricultural commodities), when the solicitation or contract contains multiple payment terms for various classes of foods and edible products.

**32.904 Determining payment due dates.**

(a) *General.* Agency procedures must ensure that, when specifying due dates, contracting officers give full consideration to the time reasonably required by Government officials to fulfill their administrative responsibilities under the contract.

(b) *Payment due dates.* Except as prescribed in paragraphs (c) through (f) of this section, or as authorized in 32.908(a)(2) or (c)(2), the due date for making an invoice payment is as follows:

(1) The later of the following two events:

(i) The 30th day after the designated billing office receives a proper invoice from the contractor (except as provided in paragraph (b)(3) of this section).

(ii) The 30th day after Government acceptance of supplies delivered or services performed.

(A) For a final invoice, when the payment amount is subject to contract settlement actions, acceptance is deemed to occur on the effective date of the contract settlement.

(B) For the sole purpose of computing an interest penalty that might be due the contractor—

(1) Government acceptance is deemed to occur constructively on the 7th day after the contractor delivers supplies or performs services in accordance with the terms and conditions of the contract, unless there is a disagreement over quantity, quality, or contractor compliance with a contract requirement;

(2) If actual acceptance occurs within the constructive acceptance period, the Government must base the determination of an interest penalty on the actual date of acceptance;

(3) The constructive acceptance requirement does not compel Government officials to accept supplies or services, perform contract administration functions, or make payment prior to fulfilling their responsibilities; and

(4) Except for a contract for the purchase of a commercial item, including a brand-name commercial item for authorized resale (e.g., commissary items), the contracting officer may specify a longer period for constructive acceptance in the solicitation and resulting contract, if required to afford the Government a reasonable opportunity to inspect and test the supplies furnished or to evaluate the services performed. The contracting officer must document in the contract file the justification for extending the constructive acceptance period beyond 7 days. Extended acceptance periods must not be a routine agency practice and must

be used only when necessary to permit proper Government inspection and testing of the supplies delivered or services performed.

(2) If the contract does not require submission of an invoice for payment (*e.g.*, periodic lease payments), the contracting officer must specify the due date in the contract.

(3) If the designated billing office fails to annotate the invoice with the actual date of receipt at the time of receipt, the invoice payment due date is the 30th day after the date of the contractor's invoice, provided the designated billing office receives a proper invoice and there is no disagreement over quantity, quality, or contractor compliance with contract requirements.

(c) *Architect-engineer contracts.* (1) The due date for making payments on contracts that contain the clause at 52.232-10, Payments Under Fixed-Price Architect-Engineer Contracts, is as follows:

(i) The due date for work or services completed by the contractor is the later of the following two events:

(A) The 30th day after the designated billing office receives a proper invoice from the contractor.

(B) The 30th day after Government acceptance of the work or services completed by the contractor.

(1) For a final invoice, when the payment amount is subject to contract settlement actions (*e.g.*, release of claims), acceptance is deemed to occur on the effective date of the settlement.

(2) For the sole purpose of computing an interest penalty that might be due the contractor, Government acceptance is deemed to occur constructively on the 7th day after the contractor completes the work or services in accordance with the terms and conditions of the contract (see also paragraph (c)(2) of this section). If actual acceptance occurs within the constructive acceptance period, the Government must base the determination of an interest penalty on the actual date of acceptance.

(ii) The due date for progress payments is the 30th day after Government approval of contractor estimates of work or services accomplished. For the sole purpose of computing an interest penalty that might be due the contractor—

(A) Government approval is deemed to occur constructively on the 7th day after the designated billing office receives the contractor estimates (see also paragraph (c)(2) of this section).

(B) If actual approval occurs within the constructive approval period, the Government must base the determination of an interest penalty on the actual date of approval.

(iii) If the designated billing office fails to annotate the invoice or payment request with the actual date of receipt at the time of receipt, the payment due date is the 30th day after the date of the contractor's invoice or payment request, provided the designated billing office receives a proper

invoice or payment request and there is no disagreement over quantity, quality, or contractor compliance with contract requirements.

(2) The constructive acceptance and constructive approval requirements described in paragraphs (c)(1)(i) and (ii) of this section are conditioned upon receipt of a proper payment request and no disagreement over quantity, quality, contractor compliance with contract requirements, or the requested progress payment amount. These requirements do not compel Government officials to accept work or services, approve contractor estimates, perform contract administration functions, or make payment prior to fulfilling their responsibilities. The contracting officer may specify a longer period for constructive acceptance or constructive approval, if required to afford the Government a reasonable opportunity to inspect and test the supplies furnished or to evaluate the services performed. The contracting officer must document in the contract file the justification for extending the constructive acceptance or approval period beyond 7 days.

(d) *Construction contracts.* (1) The due date for making payments on construction contracts is as follows:

(i) The due date for making progress payments based on contracting officer approval of the estimated amount and value of work or services performed, including payments for reaching milestones in any project, is 14 days after the designated billing office receives a proper payment request.

(A) If the designated billing office fails to annotate the payment request with the actual date of receipt at the time of receipt, the payment due date is the 14th day after the date of the contractor's payment request, provided the designated billing office receives a proper payment request and there is no disagreement over quantity, quality, or contractor compliance with contract requirements.

(B) The contracting officer may specify a longer period in the solicitation and resulting contract if required to afford the Government a reasonable opportunity to adequately inspect the work and to determine the adequacy of the contractor's performance under the contract. The contracting officer must document in the contract file the justification for extending the due date beyond 14 days.

(C) The contracting officer must not approve progress payment requests unless the certification and substantiation of amounts requested are provided as required by the clause at 52.232-5, Payments Under Fixed-Price Construction Contracts.

(ii) The due date for payment of any amounts retained by the contracting officer in accordance with the clause at 52.232-5, Payments Under Fixed-Price Construction Contracts, will be as specified in the contract or, if not specified, 30 days after approval by the contracting officer for release to the contractor. The contracting officer must base the release of retained amounts on the contracting

officer's determination that satisfactory progress has been made.

(iii) The due date for final payments based on completion and acceptance of all work (including any retained amounts), and payments for partial deliveries that have been accepted by the Government (*e.g.*, each separate building, public work, or other division of the contract for which the price is stated separately in the contract) is as follows:

(A) The later of the following two events:

(1) The 30th day after the designated billing office receives a proper invoice from the contractor.

(2) The 30th day after Government acceptance of the work or services completed by the contractor. For a final invoice, when the payment amount is subject to contract settlement actions (*e.g.*, release of contractor claims), acceptance is deemed to occur on the effective date of the contract settlement.

(B) If the designated billing office fails to annotate the invoice with the actual date of receipt at the time of receipt, the invoice payment due date is the 30th day after the date of the contractor's invoice, provided the designated billing office receives a proper invoice and there is no disagreement over quantity, quality, or contractor compliance with contract requirements.

(2) For the sole purpose of computing an interest penalty that might be due the contractor for payments described in paragraph (d)(1)(iii) of this section—

(i) Government acceptance or approval is deemed to occur constructively on the 7th day after the contractor completes the work or services in accordance with the terms and conditions of the contract, unless there is a disagreement over quantity, quality, contractor compliance with a contract requirement, or the requested amount;

(ii) If actual acceptance occurs within the constructive acceptance period, the Government must base the determination of an interest penalty on the actual date of acceptance;

(iii) The constructive acceptance requirement does not compel Government officials to accept work or services, approve contractor estimates, perform contract administration functions, or make payment prior to fulfilling their responsibilities; and

(iv) The contracting officer may specify a longer period for constructive acceptance or constructive approval in the solicitation and resulting contract, if required to afford the Government a reasonable opportunity to adequately inspect the work and to determine the adequacy of the contractor's performance under the contract. The contracting officer must document in the contract file the justification for extending the constructive acceptance or approval beyond 7 days.

(3) Construction contracts contain special provisions concerning contractor payments to subcontractors, along with special contractor certification requirements. The Office of Management and Budget has determined that these certifications must not be construed as final acceptance of the subcontractor's performance. The certification in 52.232-5(c) implements this determination; however, certificates are still acceptable if the contractor deletes paragraph (c)(4) of 52.232-5 from the certificate.

(4)(i) Paragraph (d) of the clause at 52.232-5, Payments under Fixed-Price Construction Contracts, and paragraph (e)(6) of the clause at 52.232-27, Prompt Payment for Construction Contracts, provide for the contractor to pay interest on unearned amounts in certain circumstances. The Government must recover this interest from subsequent payments to the contractor. Therefore, contracting officers normally must make no demand for payment. Contracting officers must—

(A) Compute the amount in accordance with the clause;

(B) Provide the contractor with a final decision; and

(C) Notify the payment office of the amount to be withheld.

(ii) The payment office is responsible for making the deduction of interest. Amounts collected in accordance with these provisions revert to the United States Treasury.

(e) *Cost-reimbursement contracts for services.* For purposes of computing late payment interest penalties that may apply, the due date for making interim payments on cost-reimbursement contracts for services is 30 days after the date of receipt of a proper invoice.

(f) *Food and specified items.*

IF THE ITEMS DELIVERED ARE:	PAYMENT MUST BE MADE AS CLOSE AS POSSIBLE TO, BUT NOT LATER THAN:
(1) <i>Meat or meat food products.</i> As defined in section 2(a)(3) of the Packers and Stockyard Act of 1921 (7 U.S.C. 182(3)), and as further defined in Public Law 98-181, including any edible fresh or frozen poultry meat, any perishable poultry meat food product, fresh eggs, and any perishable egg product.	7th day after product delivery.
(2) <i>Fresh or frozen fish.</i> As defined in section 204(3) of the Fish and Seafood Promotion Act of 1986 (16 U.S.C. 4003(3)).	7th day after product delivery.
(3) <i>Perishable agricultural commodities.</i> As defined in section 1(4) of the Perishable Agricultural Commodities Act of 1930 (7 U.S.C. 499a(4)).	10th day after product delivery, unless another date is specified in the contract.
(4) <i>Dairy products.</i> As defined in section 111(e) of the Dairy Production Stabilization Act of 1983 (7 U.S.C. 4502(e)), edible fats or oils, and food products prepared from edible fats or oils. Liquid milk, cheese, certain processed cheese products, butter, yogurt, ice cream, mayonnaise, salad dressings, and other similar products fall within this classification. Nothing in the Act limits this classification to refrigerated products. If questions arise regarding the proper classification of a specific product, the contracting officer must follow prevailing industry practices in specifying a contract payment due date. The burden of proof that a classification of a specific product is, in fact, prevailing industry practice is upon the contractor making the representation.	10th day after a proper invoice has been received.

(g) *Multiple payment due dates.* Contracting officers may encourage, but not require, contractors to submit separate invoices for products with different payment due dates under the same contract or order. When an invoice contains items with different payment due dates (*i.e.*, a mixed invoice), the payment office will, subject to agency policy—

- (1) Pay the entire invoice on the earliest due date; or
- (2) Split invoice payments, making payments by the applicable due dates.

**32.905 Payment documentation and process.**

(a) *General.* Payment will be based on receipt of a proper invoice and satisfactory contract performance.

(b) *Content of invoices.* (1) A proper invoice must include the following items (except for interim payments on cost reimbursement contracts for services):

- (i) Name and address of the contractor.
- (ii) Invoice date and invoice number. (Contractors should date invoices as close as possible to the date of mailing or transmission.)
- (iii) Contract number or other authorization for supplies delivered or services performed (including order number and contract line item number).
- (iv) Description, quantity, unit of measure, unit price, and extended price of supplies delivered or services performed.

(v) Shipping and payment terms (*e.g.*, shipment number and date of shipment, discount for prompt payment terms). Bill of lading number and weight of shipment will be shown for shipments on Government bills of lading.

(vi) Name and address of contractor official to whom payment is to be sent (must be the same as that in the contract or in a proper notice of assignment).

(vii) Name (where practicable), title, phone number, and mailing address of person to notify in the event of a defective invoice.

(viii) Taxpayer Identification Number (TIN). The contractor must include its TIN on the invoice only if required by agency procedures. (See 4.9 TIN requirements.)

(ix) Electronic funds transfer (EFT) banking information.

(A) The contractor must include EFT banking information on the invoice only if required by agency procedures.

(B) If EFT banking information is not required to be on the invoice, in order for the invoice to be a proper invoice, the contractor must have submitted correct EFT banking information in accordance with the applicable solicitation provision (*e.g.*, 52.232-38, Submission of Electronic Funds Transfer Information with Offer), contract clause (*e.g.*, 52.232-33, Payment by Electronic Funds Transfer-Central Contractor Registration, or 52.232-34, Payment by

Electronic Funds Transfer-Other Than Central Contractor Registration), or applicable agency procedures.

(C) EFT banking information is not required if the Government waived the requirement to pay by EFT.

(x) Any other information or documentation required by the contract (*e.g.*, evidence of shipment).

(2) An interim payment request under a cost-reimbursement contract for services constitutes a proper invoice for purposes of this subsection if it includes all of the information required by the contract.

(3) If the invoice does not comply with these requirements, the designated billing office must return it within 7 days after receipt (3 days on contracts for meat, meat food products, or fish; 5 days on contracts for perishable agricultural commodities, dairy products, edible fats or oils, and food products prepared from edible fats or oils), with the reasons why it is not a proper invoice. If such notice is not timely, then the designated billing office must adjust the due date for the purpose of determining an interest penalty, if any.

(c) *Authorization to pay.* All invoice payments, with the exception of interim payments on cost-reimbursement contracts for services, must be supported by a receiving report or other Government documentation authorizing payment (*e.g.*, Government certified voucher). The agency receiving official should forward the receiving report or other Government documentation to the designated payment office by the 5th working day after Government acceptance or approval, unless other arrangements have been made. This period of time does not extend the due dates prescribed in this section. Acceptance should be completed as expeditiously as possible. The receiving report or other Government documentation authorizing payment must, as a minimum, include the following:

(1) Contract number or other authorization for supplies delivered or services performed.

(2) Description of supplies delivered or services performed.

(3) Quantities of supplies received and accepted or services performed, if applicable.

(4) Date supplies delivered or services performed.

(5) Date that the designated Government official—

(i) Accepted the supplies or services; or

(ii) Approved the progress payment request, if the request is being made under the clause at 52.232-5, Payments Under Fixed-Price Construction Contracts, or the clause at 52.232-10, Payments Under Fixed-Price Architect-Engineer Contracts.

(6) Signature, printed name, title, mailing address, and telephone number of the designated Government official responsible for acceptance or approval functions.

(d) *Billing office.* The designated billing office must immediately annotate each invoice with the actual date it receives the invoice.

(e) *Payment office.* The designated payment office will annotate each invoice and receiving report with the actual date it receives the invoice.

### 32.906 Making payments.

(a) *General.* The Government will not make invoice payments earlier than 7 days prior to the due dates specified in the contract unless the agency head determines—

(1) To make earlier payment on a case-by-case basis; or

(2) That the use of accelerated payment methods are necessary (see 32.903(a)(5)).

(b) *Payment office.* The designated payment office—

(1) Will mail checks on the same day they are dated;

(2) For payments made by EFT, will specify a date on or before the established due date for settlement of the payment at a Federal Reserve Bank;

(3) When the due date falls on a Saturday, Sunday, or legal holiday when Government offices are closed, may make payment on the following working day without incurring a late payment interest penalty.

(4) When it is determined that the designated billing office erroneously rejected a proper invoice and upon resubmission of the invoice, will enter in the payment system the original date the invoice was received by the designated billing office for the purpose of calculating the correct payment due date and any interest penalties that may be due.

(c) *Partial deliveries.* (1) Contracting officers must, where the nature of the work permits, write contract statements of work and pricing arrangements that allow contractors to deliver and receive invoice payments for discrete portions of the work as soon as completed and found acceptable by the Government (see 32.102(d)).

(2) Unless specifically prohibited by the contract, the clause at 52.232-1, Payments, provides that the contractor is entitled to payment for accepted partial deliveries of supplies or partial performance of services that comply with all applicable contract requirements and for which prices can be calculated from the contract terms.

(d) *Contractor identifier.* Each payment or remittance advice will use the contractor invoice number in addition to any Government or contract information in describing any payment made.

(e) *Discounts.* When a discount for prompt payment is taken, the designated payment office will make payment to the contractor as close as possible to, but not later than, the end of the discount period. The discount period is specified by the contractor and is calculated from the date of the contractor's proper invoice. If the contractor has not placed a date on the invoice, the due date is calculated from the date

the designated billing office receives a proper invoice, provided the agency annotates such invoice with the date of receipt at the time of receipt. When the discount date falls on a Saturday, Sunday, or legal holiday when Government offices are closed, the designated payment office may make payment on the following working day and take a discount. Payment terms are specified in the clause at 52.232-8, Discounts for Prompt Payment.

### 32.907 Interest penalties.

(a) *Late payment.* The designated payment office will pay an interest penalty automatically, without request from the contractor, when all of the following conditions, if applicable, have been met:

(1) The designated billing office received a proper invoice.

(2) The Government processed a receiving report or other Government documentation authorizing payment, and there was no disagreement over quantity, quality, or contractor compliance with any contract requirement.

(3) In the case of a final invoice, the payment amount is not subject to further contract settlement actions between the Government and the contractor.

(4) The designated payment office paid the contractor after the due date.

(5) In the case of interim payments on cost-reimbursement contracts for services, when payment is made more than 30 days after the designated billing office receives a proper invoice.

(b) *Improperly taken discount.* The designated payment office will pay an interest penalty automatically, without request from the contractor, if the Government takes a discount for prompt payment improperly. The interest penalty is calculated on the amount of discount taken for the period beginning with the first day after the end of the discount period through the date when the contractor is paid.

(c) *Failure to pay interest.* (1) The designated payment office will pay a penalty amount, in addition to the interest penalty amount, only if—

(i) The Government owes an interest penalty of \$1 or more;

(ii) The designated payment office does not pay the interest penalty within 10 days after the date the invoice amount is paid; and

(iii) The contractor makes a written demand to the designated payment office for additional penalty payment in accordance with paragraph (c)(2) of this section, postmarked not later than 40 days after the date the invoice amount is paid.

(2) (i) Contractors must support written demands for additional penalty payments with the following data. The Government must not request additional data. Contractors must—

(A) Specifically assert that late payment interest is due under a specific invoice, and request payment of all overdue late payment interest penalty and such additional penalty as may be required;

(B) Attach a copy of the invoice on which the unpaid late payment interest is due; and

(C) State that payment of the principal has been received, including the date of receipt.

(ii) If there is no postmark or the postmark is illegible—

(A) The designated payment office that receives the demand will annotate it with the date of receipt, provided the demand is received on or before the 40th day after payment was made; or

(B) If the designated payment office fails to make the required annotation, the Government will determine the demand's validity based on the date the contractor has placed on the demand; provided such date is no later than the 40th day after payment was made.

(d) *Disagreements.* (1) The payment office will not pay interest penalties if payment delays are due to disagreement between the Government and contractor concerning—

(i) The payment amount;

(ii) Contract compliance; or

(iii) Amounts temporarily withheld or retained in accordance with the terms of the contract.

(2) The Government and the contractor must resolve claims involving disputes, and any interest that may be payable in accordance with the Disputes clause.

(e) *Computation of interest penalties.* The Government will compute interest penalties in accordance with OMB prompt payment regulations at 5 CFR part 1315. These regulations are available via the Internet at <http://www.fms.treas.gov/prompt/>.

(f) *Unavailability of funds.* The temporary unavailability of funds to make a timely payment does not relieve an agency from the obligation to pay interest penalties.

### 32.908 Contract clauses.

(a) Insert the clause at 52.232-26, Prompt Payment for Fixed-Price Architect-Engineer Contracts, in solicitations and contracts that contain the clause at 52.232-10, Payments Under Fixed-Price Architect-Engineer Contracts.

(1) As authorized in 32.904(c)(2), the contracting officer may modify the date in paragraph (a)(4)(i) of the clause to specify a period longer than 7 days for constructive acceptance or constructive approval, if required to afford the Government a practicable opportunity to inspect and test the supplies furnished or evaluate the services performed.

(2) As provided in 32.903, agency policies and procedures may authorize amendment of paragraphs (a)(1)(i) and (ii) of the clause to insert a period shorter than 30 days (but not less than 7 days) for making contract invoice payments.

(b) Insert the clause at 52.232-27, Prompt Payment for Construction Contracts, in all solicitations and contracts for construction (see Part 36).

(1) As authorized in 32.904(d)(1)(i)(B), the contracting officer may modify the date in paragraph (a)(1)(i)(A) of the clause to specify a period longer than 14 days if required to afford the Government a reasonable opportunity to adequately inspect the work and to determine the adequacy of the Contractor's performance under the contract.

(2) As authorized in 32.904(d)(2)(iv), the contracting officer may modify the date in paragraph (a)(4)(i) of the clause to specify a period longer than 7 days for constructive acceptance or constructive approval if required to afford the Government a reasonable opportunity to inspect and test the supplies furnished or evaluate the services performed.

(c) Insert the clause at 52.232-25, Prompt Payment, in all other solicitations and contracts, except when the clause at 52.212-4, Contract Terms and Conditions-Commercial Items, applies, or when payment terms and late payment penalties are established by other governmental authority (*e.g.*, tariffs).

(1) As authorized in 32.904(b)(1)(ii)(B)(4), the contracting officer may modify the date in paragraph (a)(5)(i) of the clause to specify a period longer than 7 days for constructive acceptance, if required to afford the Government a reasonable opportunity to inspect and test the supplies fur-

nished or to evaluate the services performed, except in the case of a contract for the purchase of a commercial item, including a brand-name commercial item for authorized resale (*e.g.*, commissary items).

(2) As provided in 32.903, agency policies and procedures may authorize amendment of paragraphs (a)(1)(i) and (ii) of the clause to insert a period shorter than 30 days (but not less than 7 days) for making contract invoice payments.

(3) If the contract is a cost-reimbursement contract for services, use the clause with its Alternate I.

**32.909 Contractor inquiries.**

(a) Direct questions involving—

(1) Delinquent payments to the designated billing office or designated payment office; and

(2) Disagreements in payment amount or timing to the contracting officer for resolution. The contracting officer must coordinate within appropriate contracting channels and seek the advice of other offices as necessary to resolve disagreements.

(b) Small business concerns may contact the agency's local small business specialist or representative from the Office of Small and Disadvantaged Business Utilization to obtain additional assistance related to payment issues, late payment interest penalties, and information on the Prompt Payment Act.

## Subpart 32.10—Performance-Based Payments

### 32.1000 Scope of subpart.

This subpart provides policy and procedures for performance-based payments under noncommercial purchases pursuant to Subpart 32.1. This subpart does not apply to—

- (a) Payments under cost-reimbursement contracts;
- (b) Contracts for architect-engineer services or construction, or for shipbuilding or ship conversion, alteration, or repair, when the contracts provide for progress payments based upon a percentage or stage of completion; or
- (c) Contracts awarded through sealed bid procedures.

### 32.1001 Policy.

(a) Performance-based payments are the preferred Government financing method when the contracting officer finds them practical, and the contractor agrees to their use.

(b) Performance-based payments are contract financing payments that are not payment for accepted items.

(c) Performance-based payments are fully recoverable, in the same manner as progress payments, in the event of default. Except as provided in 32.1003(c), the contracting officer must not use performance-based payments when other forms of contract financing are provided.

(d) For Government accounting purposes, the Government should treat performance-based payments like progress payments based on costs under Subpart 32.5.

(e) Performance-based payments are contract financing payments and, therefore, are not subject to the interest-penalty provisions of prompt payment (see Subpart 32.9). However, each agency must make these payments in accordance with the agency's policy for prompt payment of contract financing payments.

### 32.1002 Bases for performance-based payments.

Performance-based payments may be made on any of the following bases—

- (a) Performance measured by objective, quantifiable methods;
- (b) Accomplishment of defined events; or
- (c) Other quantifiable measures of results.

### 32.1003 Criteria for use.

Performance-based payments shall be used only if the following conditions are met:

- (a) The contracting officer and offeror are able to agree on the performance-based payment terms;
- (b) The contract is a definitized fixed-price type contract; and
- (c) The contract does not provide for other methods of contract financing, except that advance payments in accordance with Subpart 32.4, or guaranteed loans in accordance with Subpart 32.3 may be used.

### 32.1004 Procedures.

Performance-based payments may be made either on a whole contract or on a deliverable item basis, unless otherwise prescribed by agency regulations. Financing payments to be made on a whole contract basis are applicable to the entire contract, and not to specific deliverable items. Financing payments to be made on a deliverable item basis are applicable to a specific individual deliverable item. (A deliverable item for these purposes is a separate item with a distinct unit price. Thus, a contract line item for 10 airplanes, with a unit price of \$1,000,000 each, has 10 deliverable items—the separate planes. A contract line item for 1 lot of 10 airplanes, with a lot price of \$10,000,000, has only one deliverable item—the lot.)

(a) *Establishing performance bases.* (1) The basis for performance-based payments may be either specifically described events (*e.g.*, milestones) or some measurable criterion of performance. Each event or performance criterion that will trigger a finance payment must be an integral and necessary part of contract performance and must be identified in the contract, along with a description of what constitutes successful performance of the event or attainment of the performance criterion. The signing of contracts or modifications, the exercise of options, or other such actions must not be events or criteria for performance-based payments. An event need not be a critical event in order to trigger a payment, but the Government must be able to readily verify successful performance of each such event or performance criterion.

(2) Events or criteria may be either severable or cumulative. The successful completion of a severable event or criterion is independent of the accomplishment of any other event or criterion. Conversely, the successful accomplishment of a cumulative event or criterion is dependent upon the previous accomplishment of another event. A contract may provide for more than one series of severable and/or cumulative performance events or criteria performed in parallel. The contracting officer must include the following in the contract:

(i) The contract must not permit payment for a cumulative event or criterion until the dependent event or criterion has been successfully completed.

(ii) The contract must specifically identify severable events or criteria.

(iii) The contract must identify which events or criteria are preconditions for the successful achievement of each cumulative event or criterion.

(iv) Because performance-based payments are contract financing, events or criteria must not serve as a vehicle to reward the contractor for completion of performance levels over and above what is required for successful completion of the contract.

(v) If payment of performance-based finance amounts is on a deliverable item basis, each event or performance criterion must be part of the performance necessary for that deliverable item and must be identified to a specific contract line item or subline item.

(b) *Establishing performance-based finance payment amounts.* (1) The contracting officer must establish a complete, fully defined schedule of events or performance criteria and payment amounts when negotiating contract terms. If a contract action significantly affects the price, or event or performance criterion, the contracting officer responsible for pricing the contract modification must adjust the performance-based payment schedule appropriately.

(2) Total performance-based payments must—

(i) Reflect prudent contract financing provided only to the extent needed for contract performance (see 32.104(a)); and

(ii) Not exceed 90 percent of the contract price if on a whole contract basis, or 90 percent of the delivery item price if on a delivery item basis.

(3) The contract must specifically state the amount of each performance-based payment either as a dollar amount or as a percentage of a specifically identified price (*e.g.*, contract price, or unit price of the deliverable item). The payment of contract financing has a cost to the Government in terms of interest paid by the Treasury to borrow funds to make the payment. Because the contracting officer has wide discretion as to the timing and amount of the performance-based payments, the contracting officer must ensure that—

(i) The total contract price is fair and reasonable, all factors considered; and

(ii) Performance-based payment amounts are commensurate with the value of the performance event or performance criterion, and are not expected to result in an unreasonably low or negative level of contractor investment in the contract. To confirm sufficient investment, the contracting officer may request expenditure profile information from offerors, but only if other information in the proposal, or information otherwise available to the contracting officer, is expected to be insufficient.

(4) Unless agency procedures prescribe the bases for establishing performance-based payment amounts, contracting officers may establish them on any rational basis, including (but not limited to)—

(i) Engineering estimates of stages of completion;

(ii) Engineering estimates of hours or other measures of effort to be expended in performance of an event or achievement of a performance criterion; or

(iii) The estimated projected cost of performance of particular events.

(5) When subsequent contract modifications are issued, the contracting officer must adjust the performance-based payment schedule as necessary to reflect the actions required by those contract modifications.

(c) *Instructions for multiple appropriations.* If there is more than one appropriation account (or subaccount) funding payments on the contract, the contracting officer must provide instructions to the Government payment office for distribution of financing payments to the respective funds accounts. Distribution instructions must be consistent with the contract's liquidation provisions.

(d) *Liquidating performance-based finance payments.* Performance-based amounts must be liquidated by deducting a percentage or a designated dollar amount from the delivery payments. The contracting officer must specify the liquidation rate or designated dollar amount in the contract. The method of liquidation must ensure complete liquidation no later than final payment.

(1) If the contracting officer establishes the performance-based payments on a delivery item basis, the liquidation amount for each line item is the percent of that delivery item price that was previously paid under performance-based finance payments or the designated dollar amount.

(2) If the performance-based finance payments are on a whole contract basis, liquidation is by predesignated liquidation amounts or liquidation percentages.

(e) *Competitive negotiated solicitations.* (1) If a solicitation requests offerors to propose performance-based payments, the solicitation must specify—

(i) What, if any, terms must be included in all offers; and

(ii) The extent to which and how offeror-proposed performance-based payment terms will be evaluated. Unless agencies prescribe other evaluation procedures, if the contracting officer anticipates that the cost of providing performance-based payments would have a significant impact on determining the best value offer, the solicitation should include an adjustment of proposed prices to reflect the estimated cost to the Government of providing each offeror's proposed performance-based payments (see Alternate I to the provision at 52.232-28).

(2) The contracting officer must—

(i) Review the proposed terms to ensure they comply with this section; and

(ii) Use the adjustment method in 32.205(c) if the price is to be adjusted for evaluation purposes in accordance with paragraph (e)(1)(ii) of this section.

### **32.1005 Solicitation provision and contract clause.**

(a) Insert the clause at 52.232-32, Performance-Based Payments, with the description of the basis for payment and liquidation as required in 32.1004 in—

(1) Solicitations that may result in contracts providing for performance-based payments; and

(2) Fixed-price contracts under which the Government will provide performance-based payments.

(b)(1) Insert the solicitation provision at 52.232-28, Invitation to Propose Performance-Based Payments, in negotiated solicitations that invite offerors to propose performance-based payments.

(2) Use the provision with its Alternate I in competitive negotiated solicitations if the Government intends to adjust proposed prices for proposal evaluation purposes (see 32.1004(e)).

### **32.1006 [Reserved]**

### **32.1007 Administration and payment of performance-based payments.**

(a) *Responsibility.* The contracting officer responsible for administration of the contract shall be responsible for review and approval of performance-based payments.

(b) *Approval of financing requests.* Unless otherwise provided in agency regulations, or by agreement with the appropriate payment official—

(1) The contracting officer shall be responsible for receiving, approving, and transmitting all performance-based payment requests to the appropriate payment office; and

(2) Each approval shall specify the amount to be paid, necessary contractual information, and the appropriation account(s) (see 32.1004(c)) to be charged for the payment.

(c) *Reviews.* The contracting officer is responsible for determining what reviews are required for protection of the Government's interests. The contracting officer should consider the contractor's experience, performance record, reliability, financial strength, and the adequacy of controls established by the contractor for the administration of performance-based payments. Based upon the risk to the Government, post-payment reviews and verifications should normally be arranged as considered appropriate by the contracting officer. If considered necessary by the contracting officer, pre-payment reviews may be required.

(d) *Incomplete performance.* The contracting officer shall not approve a performance-based payment until the specified event or performance criterion has been successfully accomplished in accordance with the contract. If an event is cumulative, the contracting officer shall not approve the performance-based payment unless all identified preceding events or criteria are accomplished.

(e) *Government-caused delay.* Entitlement to a performance-based payment is solely on the basis of successful performance of the specified events or performance criteria. However, if there is a Government-caused delay, the contracting officer may renegotiate the performance-based pay-

ment schedule, to facilitate contractor billings for any successfully accomplished portions of the delayed event or criterion.

### **32.1008 Suspension or reduction of performance-based payments.**

The contracting officer shall apply the policy and procedures in paragraphs (a), (b), (c), and (e) of 32.503-6, Suspension or reduction of payments, whenever exercising the Government's rights to suspend or reduce performance-based payments in accordance with paragraph (e) of the clause at 52.232-32, Performance-Based Payments.

### **32.1009 Title.**

(a) Since the clause at 52.232-32, Performance-Based Payments, gives the Government title to the property described in paragraph (f) of the clause, the contracting officer must ensure that the Government title is not compromised by other encumbrances. Ordinarily, the contracting officer, in the absence of reason to believe otherwise, may rely upon the contractor's certification contained in the payment request.

(b) If the contracting officer becomes aware of any arrangement or condition that would impair the Government's title to the property affected by the Performance-Based Payments clause, the contracting officer shall require additional protective provisions.

(c) The existence of any such encumbrance is a violation of the contractor's obligations under the contract, and the contracting officer may, if necessary, suspend or reduce payments under the terms of the Performance-Based Payments clause covering failure to comply with a material requirement of the contract. In addition, if the contractor fails to disclose an existing encumbrance in the certification, the contracting officer should consult with legal counsel concerning possible violation of 31 U.S.C. 3729, the False Claims Act.

### **32.1010 Risk of loss.**

(a) Under the clause at 52.232-32, Performance-Based Payments, and except for normal spoilage, the contractor bears the risk for loss, theft, destruction, or damage to property affected by the clause, even though title is vested in the Government, unless the Government has expressly assumed this risk. The clauses prescribed in this regulation related to performance-based payments, default, and terminations do not constitute a Government assumption of risk.

(b) If a loss occurs in connection with property for which the contractor bears the risk, and the property is needed for performance, the contractor is obligated to repay the Government the performance-based payments related to the property.

(c) The contractor is not obligated to pay for the loss of property for which the Government has assumed the risk of loss. However, a serious loss may impede the satisfactory progress of contract performance, so that the contracting officer may need to act under paragraph (e)(2) of the Performance-Based Payments clause. In

addition, while the contractor is not required to repay previous performance-based payments in the event of a loss for which the Government has assumed the risk, such a loss may prevent the contractor from making the certification required by the Performance-Based Payments clause.

**Subpart 32.11—Electronic Funds Transfer**

**32.1100 Scope of subpart.**

This subpart provides policy and procedures for contract financing and delivery payments to contractors by electronic funds transfer (EFT).

**32.1101 Statutory requirements.**

31 U.S.C. 3332 requires, subject to implementing regulations of the Secretary of the Treasury at 31 CFR part 208, that EFT be used to make all contract payments.

**32.1102 Definitions.**

As used in this subpart—

“Electronic Funds Transfer information (EFT)” means information necessary for making a payment by EFT through specified EFT mechanisms.

“Governmentwide commercial purchase card” means a card that is similar in nature to a commercial credit card that is used to make financing and delivery payments for supplies and services. The purchase card is an EFT method and it may be used as a means to meet the requirement to pay by EFT, to the extent that purchase card limits do not preclude such payments.

“Payment information” means the payment advice provided by the Government to the contractor that identifies what the payment is for, any computations or adjustments made by the Government, and any information required by the Prompt Payment Act.

**32.1103 Applicability.**

The Government shall provide all contract payments through EFT except if—

(a) The office making payment under a contract that requires payment by EFT, loses the ability to release payment by EFT. To the extent authorized by 31 CFR part 208, the payment office shall make necessary payments pursuant to paragraph (a)(2) of the clause at either 52.232-33 or 52.232-34 until such time as it can make EFT payments;

(b) The payment is to be received by or on behalf of the contractor outside the United States and Puerto Rico (but see 32.1106(b));

(c) A contract is paid in other than United States currency (but see 32.1106(b));

(d) Payment by EFT under a classified contract could compromise the safeguarding of classified information or national security, or where arrangements for appropriate EFT payments would be impractical due to security considerations;

(e) A contract is awarded by a deployed contracting officer in the course of military operations, including, but not limited to, contingency operations as defined in 10 U.S.C. 101(a)(13), or a contract is awarded by any contracting

officer in the conduct of emergency operations, such as responses to natural disasters or national or civil emergencies, if—

(1) EFT is not known to be possible; or

(2) EFT payment would not support the objectives of the operation;

(f) The agency does not expect to make more than one payment to the same recipient within a one-year period;

(g) An agency’s need for supplies and services is of such unusual and compelling urgency that the Government would be seriously injured unless payment is made by a method other than EFT;

(h) There is only one source for supplies and services and the Government would be seriously injured unless payment is made by a method other than EFT; or

(i) Otherwise authorized by Department of the Treasury Regulations at 31 CFR part 208.

**32.1104 Protection of EFT information.**

The Government shall protect against improper disclosure of contractors’ EFT information.

**32.1105 Assignment of claims.**

The use of EFT payment methods is not a substitute for a properly executed assignment of claims in accordance with Subpart 32.8. EFT information that shows the ultimate recipient of the transfer to be other than the contractor, in the absence of a proper assignment of claims, is considered to be incorrect EFT information within the meaning of the “Suspension of Payment” paragraphs of the EFT clauses at 52.232-33 and 52.232-34.

**32.1106 EFT mechanisms.**

(a) *Domestic EFT mechanisms.* The EFT clauses at 52.232-33 and 52.232-34 are designed for use with the domestic United States banking system, using United States currency, and only the specified mechanisms (U.S. Automated Clearing House, and Fedwire Transfer System) of EFT. However, the head of an agency may authorize the use of any other EFT mechanism for domestic EFT with the concurrence of the office or agency responsible for making payments.

(b) *Nondomestic EFT mechanisms and other than United States currency.* The Government shall provide payment by other than EFT for payments received by or on behalf of the contractor outside the United States and Puerto Rico or for contracts paid in other than United States currency. However, the head of an agency may authorize appropriate use of EFT with the concurrence of the office or agency responsible for making payments if—

(1) The political, financial, and communications infrastructure in a foreign country supports payment by EFT; or

(2) Payments of other than United States currency may be made safely.

### 32.1107 Payment information.

The payment or disbursing office shall forward to the contractor available payment information that is suitable for transmission as of the date of release of the EFT instruction to the Federal Reserve System.

### 32.1108 Payment by Governmentwide commercial purchase card.

A Governmentwide commercial purchase card charge authorizes the third party (*e.g.*, financial institution) that issued the purchase card to make immediate payment to the contractor. The Government reimburses the third party at a later date for the third party's payment to the contractor.

(a) The clause at 52.232-36, Payment by Third Party, governs when a contractor submits a charge against the purchase card for contract payment. The clause provides that the contractor shall make such payment requests by a charge to a Government account with the third party at the time the payment clause(s) of the contract authorizes the contractor to submit a request for payment, and for the amount due in accordance with the terms of the contract. To the extent that such a payment would otherwise be approved, the charge against the purchase card should not be disputed when the charge is reported to the Government by the third party. To the extent that such payment would otherwise not have been approved, an authorized individual (see 1.603-3) shall take action to remove the charge, such as by disputing the charge with the third party or by requesting that the contractor credit the charge back to the Government under the contract.

(b) Written contracts to be paid by purchase card should include the clause at 52.232-36, Payment by Third Party, as prescribed by 32.1110(d). However, payment by a purchase card also may be made under a contract that does not contain the clause to the extent the contractor agrees to accept that method of payment.

(c) The clause at 52.232-36, Payment by Third Party, requires that the contract—

(1) Identify the third party and the particular purchase card to be used; and

(2) Not include the purchase card account number. The purchase card account number should be provided separately to the contractor.

### 32.1109 EFT information submitted by offerors.

If offerors are required to submit EFT information prior to award, the successful offeror is not responsible for resubmitting this information after award of the contract except to make changes, or to place the information on invoices if required by agency procedures. Therefore,

contracting officers shall forward EFT information provided by the successful offeror to the appropriate office.

### 32.1110 Solicitation provision and contract clauses.

(a) Unless payment will be made exclusively through use of the Governmentwide commercial purchase card or other third party payment arrangement (see 13.301 and paragraph (d) of this section) or an exception listed in 32.1103(a) through (i) applies—

(1) The contracting officer shall insert the clause at 52.232-33, Payment by Electronic Funds Transfer—Central Contractor Registration, in all solicitations and contracts if the payment office uses the Central Contractor Registration (CCR) database as its source of EFT information. The contracting officer also shall insert this clause if the payment office does not currently have the ability to make payment by EFT, but will use the CCR database as its source of EFT information when it begins making payments by EFT;

(2)(i) The contracting officer shall insert the clause at 52.232-34, Payment by Electronic Funds Transfer—Other than Central Contractor Registration, in all other solicitations and contracts. The contracting officer also shall insert this clause if the payment office currently does not have the ability to make payment by EFT, but will use a source other than the CCR database for EFT information when it begins making payments by EFT.

(ii)(A) If permitted by agency procedures, the contracting officer may insert in paragraph (b)(1) of the clause, a particular time after award, such as a fixed number of days, or event such as the submission of the first request for payment.

(B) If no agency procedures are prescribed, the time period inserted in paragraph (b)(1) of the clause shall be “no later than 15 days prior to submission of the first request for payment.”

(b) If the head of the agency has authorized, in accordance with 32.1106, to use a nondomestic EFT mechanism, the contracting officer shall insert in solicitations and contracts a clause substantially the same as 52.232-33 or 52.232-34 that clearly addresses the nondomestic EFT mechanism.

(c) If EFT information is to be submitted to other than the payment office in accordance with agency procedures, the contracting officer shall insert in solicitations and contracts the clause at 52.232-35, Designation of Office for Government Receipt of Electronic Funds Transfer Information, or a clause substantially the same as 52.232-35 that clearly informs the contractor where to send the EFT information.

(d) If payment under a written contract will be made by a charge to a Government account with a third party such as a Governmentwide commercial purchase card, then the contracting officer shall insert the clause at 52.232-36, Payment by Third Party, in solicitations and contracts. Payment by a

purchase card may also be made under a contract that does not contain the clause at 52.232-36, to the extent the contractor agrees to accept that method of payment.

(e) If the contract or agreement provides for the use of delivery orders, and provides that the ordering office designate the method of payment for individual orders, the contracting officer shall insert, in the solicitation and contract or agreement, the clause at 52.232-37, Multiple Payment Arrangements, and, to the extent they are applicable, the clauses at—

- (1) 52.232-33, Payment by Electronic Funds Transfer—Central Contractor Registration;
- (2) 52.232-34, Payment by Electronic Funds Transfer—Other than Central Contractor Registration; and
- (3) 52.232-36, Payment by Third Party.

(f) If more than one disbursing office will make payment under a contract or agreement, the contracting officer, or ordering office (if the contract provides for choices between EFT clauses on individual orders or classes of orders), shall

include or identify the EFT clause appropriate for each office and shall identify the applicability by disbursing office and contract line item.

(g) If the solicitation contains the clause at 52.232-34, Payment by Electronic Funds Transfer—Other than Central Contractor Registration, and an offeror is required to submit EFT information prior to award—

- (1) The contracting officer shall insert in the solicitation the provision at 52.232-38, Submission of Electronic Funds Transfer Information with Offer, or a provision substantially the same; and
- (2) For sealed bid solicitations, the contracting officer shall amend 52.232-38 to ensure that a bidder’s EFT information—
  - (i) Is not a part of the bid to be opened at the public opening; and
  - (ii) May not be released to members of the general public who request a copy of the bid.

This page intentionally left blank.

**33.000 Scope of part.**

This part prescribes policies and procedures for filing protests and for processing contract disputes and appeals.

**Subpart 33.1—Protests****33.101 Definitions.**

As used in this subpart—

“Day” means a calendar day, unless otherwise specified. In the computation of any period—

(1) The day of the act, event, or default from which the designated period of time begins to run is not included; and

(2) The last day after the act, event, or default is included unless—

(i) The last day is a Saturday, Sunday, or Federal holiday; or

(ii) In the case of a filing of a paper at any appropriate administrative forum, the last day is a day on which weather or other conditions cause the closing of the forum for all or part of the day, in which event the next day on which the appropriate administrative forum is open is included.

“Filed” means the complete receipt of any document by an agency before its close of business. Documents received after close of business are considered filed as of the next day. Unless otherwise stated, the agency close of business is presumed to be 4:30 p.m., local time.

“Interested party for the purpose of filing a protest” means an actual or prospective offeror whose direct economic interest would be affected by the award of a contract or by the failure to award a contract.

“Protest” means a written objection by an interested party to any of the following:

(1) A solicitation or other request by an agency for offers for a contract for the procurement of property or services.

(2) The cancellation of the solicitation or other request.

(3) An award or proposed award of the contract.

(4) A termination or cancellation of an award of the contract, if the written objection contains an allegation that the termination or cancellation is based in whole or in part on improprieties concerning the award of the contract.

**33.102 General.**

(a) Contracting officers shall consider all protests and seek legal advice, whether protests are submitted before or after award and whether filed directly with the agency or the General Accounting Office (GAO). (See 19.302 for protests of small business status, and 19.305 for protests of disadvantaged business status.)

(b) If, in connection with a protest, the head of an agency determines that a solicitation, proposed award, or award does

not comply with the requirements of law or regulation, the head of the agency may—

(1) Take any action that could have been recommended by the Comptroller General had the protest been filed with the General Accounting Office; and

(2) Pay appropriate costs as stated in 33.104(h).

(3) Require the awardee to reimburse the Government’s costs, as provided in this paragraph, where a post-award protest is sustained as the result of an awardee’s intentional or negligent misstatement, misrepresentation, or miscertification. In addition to any other remedy available, and pursuant to the requirements of Subpart 32.6, the Government may collect this debt by offsetting the amount against any payment due the awardee under any contract between the awardee and the Government.

(i) When a protest is sustained by GAO under circumstances that may allow the Government to seek reimbursement for protest costs, the contracting officer will determine whether the protest was sustained based on the awardee’s negligent or intentional misrepresentation. If the protest was sustained on several issues, protest costs shall be apportioned according to the costs attributable to the awardee’s actions.

(ii) The contracting officer shall review the amount of the debt, degree of the awardee’s fault, and costs of collection, to determine whether a demand for reimbursement ought to be made. If it is in the best interests of the Government to seek reimbursement, the contracting officer shall notify the contractor in writing of the nature and amount of the debt, and the intention to collect by offset if necessary. Prior to issuing a final decision, the contracting officer shall afford the contractor an opportunity to inspect and copy agency records pertaining to the debt to the extent permitted by statute and regulation, and to request review of the matter by the head of the contracting activity.

(iii) When appropriate, the contracting officer shall also refer the matter to the agency debarment official for consideration under Subpart 9.4.

(c) In accordance with 31 U.S.C. 1558, with respect to any protest filed with the GAO, if the funds available to the agency for a contract at the time a protest is filed in connection with a solicitation for, proposed award of, or award of such a contract would otherwise expire, such funds shall remain available for obligation for 100 days after the date on which the final ruling is made on the protest. A ruling is considered final on the date on which the time allowed for filing an appeal or request for reconsideration has expired, or the date on which a decision is rendered on such appeal or request, whichever is later.

(d) *Protest likely after award.* The contracting officer may stay performance of a contract within the time period contained in paragraph 33.104(c)(1) if the contracting officer makes a written determination that—

(1) A protest is likely to be filed; and

(2) Delay of performance is, under the circumstances, in the best interests of the United States.

(e) An interested party wishing to protest is encouraged to seek resolution within the agency (see 33.103) before filing a protest with the GAO, but may protest to the GAO in accordance with GAO regulations (4 CFR part 21).

(f) No person may file a protest at GAO for a procurement integrity violation unless that person reported to the contracting officer the information constituting evidence of the violation within 14 days after the person first discovered the possible violation (41 U.S.C. 423(g)).

### 33.103 Protests to the agency.

(a) *Reference.* Executive Order 12979, Agency Procurement Protests, establishes policy on agency procurement protests.

(b) Prior to submission of an agency protest, all parties shall use their best efforts to resolve concerns raised by an interested party at the contracting officer level through open and frank discussions.

(c) The agency should provide for inexpensive, informal, procedurally simple, and expeditious resolution of protests. Where appropriate, the use of alternative dispute resolution techniques, third party neutrals, and another agency's personnel are acceptable protest resolution methods.

(d) The following procedures are established to resolve agency protests effectively, to build confidence in the Government's acquisition system, and to reduce protests outside of the agency:

(1) Protests shall be concise and logically presented to facilitate review by the agency. Failure to substantially comply with any of the requirements of paragraph (d)(2) of this section may be grounds for dismissal of the protest.

(2) Protests shall include the following information:

(i) Name, address, and fax and telephone numbers of the protester.

(ii) Solicitation or contract number.

(iii) Detailed statement of the legal and factual grounds for the protest, to include a description of resulting prejudice to the protester.

(iv) Copies of relevant documents.

(v) Request for a ruling by the agency.

(vi) Statement as to the form of relief requested.

(vii) All information establishing that the protester is an interested party for the purpose of filing a protest.

(viii) All information establishing the timeliness of the protest.

(3) All protests filed directly with the agency will be addressed to the contracting officer or other official designated to receive protests.

(4) In accordance with agency procedures, interested parties may request an independent review of their protest at a level above the contracting officer; solicitations should advise potential bidders and offerors that this review is available. Agency procedures and/or solicitations shall notify potential bidders and offerors whether this independent review is available as an alternative to consideration by the contracting officer of a protest or is available as an appeal of a contracting officer decision on a protest. Agencies shall designate the official(s) who are to conduct this independent review, but the official(s) need not be within the contracting officer's supervisory chain. When practicable, officials designated to conduct the independent review should not have had previous personal involvement in the procurement. If there is an agency appellate review of the contracting officer's decision on the protest, it will not extend GAO's timeliness requirements. Therefore, any subsequent protest to the GAO must be filed within 10 days of knowledge of initial adverse agency action (4 CFR 21.2(a)(3)).

(e) Protests based on alleged apparent improprieties in a solicitation shall be filed before bid opening or the closing date for receipt of proposals. In all other cases, protests shall be filed no later than 10 days after the basis of protest is known or should have been known, whichever is earlier. The agency, for good cause shown, or where it determines that a protest raises issues significant to the agency's acquisition system, may consider the merits of any protest which is not timely filed.

(f) *Action upon receipt of protest.* (1) Upon receipt of a protest before award, a contract may not be awarded, pending agency resolution of the protest, unless contract award is justified, in writing, for urgent and compelling reasons or is determined, in writing, to be in the best interest of the Government. Such justification or determination shall be approved at a level above the contracting officer, or by another official pursuant to agency procedures.

(2) If award is withheld pending agency resolution of the protest, the contracting officer will inform the offerors whose offers might become eligible for award of the contract. If appropriate, the offerors should be requested, before expiration of the time for acceptance of their offers, to extend the time for acceptance to avoid the need for resolicitation. In the event of failure to obtain such extension of offers, consideration should be given to proceeding with award pursuant to paragraph (f)(1) of this section.

(3) Upon receipt of a protest within 10 days after contract award or within 5 days after a debriefing date offered to the protester under a timely debriefing request in accordance with 15.505 or 15.506, whichever is later, the contracting officer shall immediately suspend performance, pending resolution of the protest within the agency, including any review by an independent higher level official, unless continued performance is justified, in writing, for urgent and

compelling reasons or is determined, in writing, to be in the best interest of the Government. Such justification or determination shall be approved at a level above the contracting officer, or by another official pursuant to agency procedures.

(4) Pursuing an agency protest does not extend the time for obtaining a stay at GAO. Agencies may include, as part of the agency protest process, a voluntary suspension period when agency protests are denied and the protester subsequently files at GAO.

(g) Agencies shall make their best efforts to resolve agency protests within 35 days after the protest is filed. To the extent permitted by law and regulation, the parties may exchange relevant information.

(h) Agency protest decisions shall be well-reasoned, and explain the agency position. The protest decision shall be provided to the protester using a method that provides evidence of receipt.

### 33.104 Protests to GAO.

Procedures for protests to GAO are found at 4 CFR part 21 (GAO Bid Protest Regulations). In the event guidance concerning GAO procedure in this section conflicts with 4 CFR part 21, 4 CFR part 21 governs.

(a) *General procedure.* (1) A protester is required to furnish a copy of its complete protest to the official and location designated in the solicitation or, in the absence of such a designation, to the contracting officer, so it is received no later than 1 day after the protest is filed with the GAO. The GAO may dismiss the protest if the protester fails to furnish a complete copy of the protest within 1 day.

(2) Immediately after receipt of the GAO's written notice that a protest has been filed, the agency shall give notice of the protest to the contractor if the award has been made, or, if no award has been made, to all parties who appear to have a reasonable prospect of receiving award if the protest is denied. The agency shall furnish copies of the protest submissions to such parties with instructions to (i) communicate directly with the GAO, and (ii) provide copies of any such communication to the agency and to other participating parties when they become known. However, if the protester has identified sensitive information and requests a protective order, then the contracting officer shall obtain a redacted version from the protester to furnish to other interested parties, if one has not already been provided.

(3)(i) Upon notice that a protest has been filed with the GAO, the contracting officer shall immediately begin compiling the information necessary for a report to the GAO. The agency shall submit a complete report to the GAO within 30 days after the GAO notifies the agency by telephone that a protest has been filed, or within 20 days after receipt from the GAO of a determination to use the express option, unless the GAO—

(A) Advises the agency that the protest has been dismissed; or

(B) Authorizes a longer period in response to an agency's request for an extension. Any new date is documented in the agency's file.

(ii) When a protest is filed with the GAO, and an actual or prospective offeror so requests, the procuring agency shall, in accordance with any applicable protective orders, provide actual or prospective offerors reasonable access to the protest file. However, if the GAO dismisses the protest before the documents are submitted to the GAO, then no protest file need be made available. Information exempt from disclosure under 5 U.S.C. 552 may be redacted from the protest file. The protest file shall be made available to non-intervening actual or prospective offerors within a reasonable time after submittal of an agency report to the GAO. The protest file shall include an index and as appropriate—

(A) The protest;

(B) The offer submitted by the protester;

(C) The offer being considered for award or being protested;

(D) All relevant evaluation documents;

(E) The solicitation, including the specifications or portions relevant to the protest;

(F) The abstract of offers or relevant portions; and

(G) Any other documents that the agency determines are relevant to the protest, including documents specifically requested by the protester.

(iii) At least 5 days prior to the filing of the report, in cases in which the protester has filed a request for specific documents, the agency shall provide to all parties and the GAO a list of those documents, or portions of documents, that the agency has released to the protester or intends to produce in its report, and those documents that the agency intends to withhold from the protester and the reasons for the proposed withholding. Any objection to the scope of the agency's proposed disclosure or nondisclosure of the documents must be filed with the GAO and the other parties within 2 days after receipt of this list.

(iv) The agency report to the GAO shall include—

(A) A copy of the documents described in 33.104(a)(3)(ii);

(B) The contracting officer's signed statement of relevant facts, including a best estimate of the contract value, and a memorandum of law. The contracting officer's statement shall set forth findings, actions, and recommendations, and any additional evidence or information not provided in the protest file that may be necessary to determine the merits of the protest; and

(C) A list of parties being provided the documents.

(4)(i) At the same time the agency submits its report to the GAO, the agency shall furnish copies of its report to the protester and any intervenors. A party shall receive all relevant documents, except—

(A) Those that the agency has decided to withhold from that party for any reason, including those covered by a protective order issued by the GAO. Documents covered by a protective order shall be released only in accordance with the terms of the order. Examples of documents the agency may decide to exclude from a copy of the report include documents previously furnished to or prepared by a party; classified information; and information that would give the party a competitive advantage; and

(B) Protester's documents which the agency determines, pursuant to law or regulation, to withhold from any interested party.

(ii)(A) If the protester requests additional documents within 2 days after the protester knew the existence or relevance of additional documents, or should have known, the agency shall provide the requested documents to the GAO within 2 days of receipt of the request.

(B) The additional documents shall also be provided to the protester and other interested parties within this 2-day period unless the agency has decided to withhold them for any reason (see subdivision (a)(4)(i) of this section). This includes any documents covered by a protective order issued by the GAO. Documents covered by a protective order shall be provided only in accordance with the terms of the order.

(C) The agency shall notify the GAO of any documents withheld from the protester and other interested parties and shall state the reasons for withholding them.

(5) The GAO may issue protective orders which establish terms, conditions, and restrictions for the provision of any document to an interested party. Protective orders prohibit or restrict the disclosure by the party of procurement sensitive information, trade secrets or other proprietary or confidential research, development or commercial information that is contained in such document. Protective orders do not authorize withholding any documents or information from the United States Congress or an executive agency.

(i) *Requests for protective orders.* Any party seeking issuance of a protective order shall file its request with the GAO as soon as practicable after the protest is filed, with copies furnished simultaneously to all parties.

(ii) *Exclusions and rebuttals.* Within 2 days after receipt of a copy of the protective order request, any party may file with the GAO a request that particular documents be excluded from the coverage of the protective order, or that particular parties or individuals be included in or excluded from the protective order. Copies of the request shall be furnished simultaneously to all parties.

(iii) *Additional documents.* If the existence or relevance of additional documents first becomes evident after a protective order has been issued, any party may request that these additional documents be covered by the protective order. Any party to the protective order also may request that individuals not already covered by the protective order be included in the order. Requests shall be filed with the GAO, with copies furnished simultaneously to all parties.

(iv) *Sanctions and remedies.* The GAO may impose appropriate sanctions for any violation of the terms of the protective order. Improper disclosure of protected information will entitle the aggrieved party to all appropriate remedies under law or equity. The GAO may also take appropriate action against an agency which fails to provide documents designated in a protective order.

(6) The protester and other interested parties are required to furnish a copy of any comments on the agency report directly to the GAO within 10 days, or 5 days if express option is used, after receipt of the report, with copies provided to the contracting officer and to other participating interested parties. If a hearing is held, these comments are due within 5 days after the hearing.

(7) Agencies shall furnish the GAO with the name, title, and telephone number of one or more officials (in both field and headquarters offices, if desired) whom the GAO may contact who are knowledgeable about the subject matter of the protest. Each agency shall be responsible for promptly advising the GAO of any change in the designated officials.

(b) Protests before award. (1) When the agency has received notice from the GAO of a protest filed directly with the GAO, a contract may not be awarded unless authorized, in accordance with agency procedures, by the head of the contracting activity, on a nonnegotiable basis, upon a written finding that—

(i) Urgent and compelling circumstances which significantly affect the interest of the United States will not permit awaiting the decision of the GAO; and

(ii) Award is likely to occur within 30 days of the written finding.

(2) A contract award shall not be authorized until the agency has notified the GAO of the finding in paragraph (b)(1) of this section.

(3) When a protest against the making of an award is received and award will be withheld pending disposition of the protest, the contracting officer should inform the offerors whose offers might become eligible for award of the protest. If appropriate, those offerors should be requested, before expiration of the time for acceptance of their offer, to extend the time for acceptance to avoid the need for resolicitation. In the event of failure to obtain such extensions of offers, consideration should be given to proceeding under paragraph (b)(1) of this section.

(c) *Protests after award.* (1) When the agency receives notice of a protest from the GAO within 10 days after contract award or within 5 days after a debriefing date offered to the protester for any debriefing that is required by 15.505 or 15.506, whichever is later, the contracting officer shall immediately suspend performance or terminate the awarded contract, except as provided in paragraphs (c)(2) and (3) of this section.

(2) In accordance with agency procedures, the head of the contracting activity may, on a nonnegotiable basis, authorize contract performance, notwithstanding the protest, upon a written finding that—

(i) Contract performance will be in the best interests of the United States; or

(ii) Urgent and compelling circumstances that significantly affect the interests of the United States will not permit waiting for the GAO's decision.

(3) Contract performance shall not be authorized until the agency has notified the GAO of the finding in paragraph (c)(2) of this section.

(4) When it is decided to suspend performance or terminate the awarded contract, the contracting officer should attempt to negotiate a mutual agreement on a no-cost basis.

(5) When the agency receives notice of a protest filed with the GAO after the dates contained in paragraph (c)(1), the contracting officer need not suspend contract performance or terminate the awarded contract unless the contracting officer believes that an award may be invalidated and a delay in receiving the supplies or services is not prejudicial to the Government's interest.

(d) *Findings and notice.* If the decision is to proceed with contract award, or continue contract performance under paragraphs (b) or (c) of this section, the contracting officer shall include the written findings or other required documentation in the file. The contracting officer also shall give written notice of the decision to the protester and other interested parties.

(e) *Hearings.* The GAO may hold a hearing at the request of the agency, a protester, or other interested party who has responded to the notice in paragraph (a)(2) of this section. A recording or transcription of the hearing will normally be made, and copies may be obtained from the GAO. All parties may file comments on the hearing and the agency report within 5 days of the hearing.

(f) *GAO decision time.* GAO issues its recommendation on a protest within 100 days from the date of filing of the protest with the GAO, or within 65 days under the express option. The GAO attempts to issue its recommendation on an amended protest that adds a new ground of protest within the time limit of the initial protest. If an amended protest cannot be resolved within the initial time limit, the GAO may resolve the amended protest through an express option.

(g) *Notice to GAO.* If the agency has not fully implemented the GAO recommendations with respect to a solicitation for a contract or an award or a proposed award of a contract within 60 days of receiving the GAO recommendations, the head of the contracting activity responsible for that contract shall report the failure to the GAO not later than 5 days after the expiration of the 60-day period. The report shall explain the reasons why the GAO's recommendation, exclusive of costs, has not been followed by the agency.

(h) *Award of costs.* (1) If the GAO determines that a solicitation for a contract, a proposed award, or an award of a contract does not comply with a statute or regulation, the GAO may recommend that the agency pay to an appropriate protester the cost, exclusive of profit, of filing and pursuing the protest, including reasonable attorney, consultant, and expert witness fees, and bid and proposal preparation costs. The agency shall use funds available for the procurement to pay the costs awarded.

(2) The protester shall file its claim for costs with the contracting agency within 60 days after receipt of the GAO's recommendation that the agency pay the protester its costs. Failure to file the claim within that time may result in forfeiture of the protester's right to recover its costs.

(3) The agency shall attempt to reach an agreement on the amount of costs to be paid. If the agency and the protester are unable to agree on the amount to be paid, the GAO may, upon request of the protester, recommend to the agency the amount of costs that the agency should pay.

(4) Within 60 days after the GAO recommends the amount of costs the agency should pay the protester, the agency shall notify the GAO of the action taken by the agency in response to the recommendation.

(5) No agency shall pay a party, other than a small business concern within the meaning of section 3(a) of the Small Business Act (see 19.001, "Small business concern"), costs under paragraph (h)(2) of this section—

(i) For consultant and expert witness fees that exceed the highest rate of compensation for expert witnesses paid by the Government pursuant to 5 U.S.C. 3109 and 5 CFR 304.105; or

(ii) For attorneys' fees that exceed \$150 per hour, unless the agency determines, based on the recommendation of the Comptroller General on a case-by-case basis, that an increase in the cost of living or a special factor, such as the limited availability of qualified attorneys for the proceedings involved, justifies a higher fee. The cap placed on attorneys' fees for businesses, other than small businesses, constitutes a benchmark as to a "reasonable" level for attorneys' fees for small businesses.

(6) Before paying a recommended award of costs, agency personnel should consult legal counsel. Section 33.104(h) applies to all recommended awards of costs that have not yet been paid.

(7) Any costs the contractor receives under this section shall not be the subject of subsequent proposals, billings, or claims against the Government, and those exclusions should be reflected in the cost agreement.

(8) If the Government pays costs, as provided in paragraph (h)(1) of this section, where a postaward protest is sustained as the result of an awardee's intentional or negligent misstatement, misrepresentation, or miscertification, the Government may require the awardee to reimburse the Government the amount of such costs. In addition to any other remedy available, and pursuant to the requirements of Subpart 32.6, the Government may collect this debt by offsetting

the amount against any payment due the awardee under any contract between the awardee and the Government.

### **33.105 [Reserved]**

### **33.106 Solicitation provision and contract clause.**

(a) The contracting officer shall insert the provision at 52.233-2, Service of Protest, in solicitations for contracts expected to exceed the simplified acquisition threshold.

(b) The contracting officer shall insert the clause at 52.233-3, Protest After Award, in all solicitations and contracts. If a cost reimbursement contract is contemplated, the contracting officer shall use the clause with its Alternate I.

## Subpart 33.2—Disputes and Appeals

### 33.201 Definitions.

As used in this subpart—

“Accrual of a claim” means the date when all events, that fix the alleged liability of either the Government or the contractor and permit assertion of the claim, were known or should have been known. For liability to be fixed, some injury must have occurred. However, monetary damages need not have been incurred.

“Alternative dispute resolution (ADR)” means any type of procedure or combination of procedures voluntarily used to resolve issues in controversy. These procedures may include, but are not limited to, conciliation, facilitation, mediation, fact-finding, minitrials, arbitration, and use of ombudsmen.

“Claim” means a written demand or written assertion by one of the contracting parties seeking, as a matter of right, the payment of money in a sum certain, the adjustment or interpretation of contract terms, or other relief arising under or relating to the contract. A claim arising under a contract, unlike a claim relating to that contract, is a claim that can be resolved under a contract clause that provides for the relief sought by the claimant. However, a written demand or written assertion by the contractor seeking the payment of money exceeding \$100,000 is not a claim under the Contract Disputes Act of 1978 until certified as required by the Act and 33.207. A voucher, invoice, or other routine request for payment that is not in dispute when submitted is not a claim. The submission may be converted to a claim, by written notice to the contracting officer as provided in 33.206(a), if it is disputed either as to liability or amount or is not acted upon in a reasonable time.

“Defective certification” means a certificate which alters or otherwise deviates from the language in 33.207(c) or which is not executed by a person duly authorized to bind the contractor with respect to the claim. Failure to certify shall not be deemed to be a defective certification.

“Issue in controversy” means a material disagreement between the Government and the contractor that—

- (1) May result in a claim or
- (2) Is all or part of an existing claim.

“Misrepresentation of fact” means a false statement of substantive fact, or any conduct which leads to the belief of a substantive fact material to proper understanding of the matter in hand, made with intent to deceive or mislead.

### 33.202 Contract Disputes Act of 1978.

The Contract Disputes Act of 1978, as amended (41 U.S.C. 601-613) (the Act), establishes procedures and requirements for asserting and resolving claims subject to the Act. In addition, the Act provides for—

- (a) The payment of interest on contractor claims;

- (b) Certification of contractor claims; and
- (c) A civil penalty for contractor claims that are fraudulent or based on a misrepresentation of fact.

### 33.203 Applicability.

(a) Except as specified in paragraph (b) of this section, this part applies to any express or implied contract covered by the Federal Acquisition Regulation.

(b) This subpart does not apply to any contract with—

- (1) A foreign government or agency of that government, or
- (2) An international organization or a subsidiary body of that organization, if the agency head determines that the application of the Act to the contract would not be in the public interest.

(c) This part applies to all disputes with respect to contracting officer decisions on matters “arising under” or “relating to” a contract. Agency Boards of Contract Appeals (BCA’s) authorized under the Act continue to have all of the authority they possessed before the Act with respect to disputes arising under a contract, as well as authority to decide disputes relating to a contract. The clause at 52.233-1, Disputes, recognizes the “all disputes” authority established by the Act and states certain requirements and limitations of the Act for the guidance of contractors and contracting agencies. The clause is not intended to affect the rights and obligations of the parties as provided by the Act or to constrain the authority of the statutory agency BCA’s in the handling and deciding of contractor appeals under the Act.

### 33.204 Policy.

The Government’s policy is to try to resolve all contractual issues in controversy by mutual agreement at the contracting officer’s level. Reasonable efforts should be made to resolve controversies prior to the submission of a claim. Agencies are encouraged to use ADR procedures to the maximum extent practicable. Certain factors, however, may make the use of ADR inappropriate (see 5 U.S.C. 572(b)). Except for arbitration conducted pursuant to the Administrative Dispute Resolution Act (ADRA), (5 U.S.C. 571, *et seq.*) agencies have authority which is separate from that provided by the ADRA to use ADR procedures to resolve issues in controversy. Agencies may also elect to proceed under the authority and requirements of the ADRA.

### 33.205 Relationship of the Act to Public Law 85-804.

(a) Requests for relief under Public Law 85-804 (50 U.S.C. 1431-1435) are not claims within the Contract Disputes Act of 1978 or the Disputes clause at 52.233-1, Disputes, and shall be processed under Part 50, Extraordinary Contractual Actions. However, relief formerly available only under Public Law 85-804; *i.e.*, legal entitlement to rescission or reformation for mutual mistake,

is now available within the authority of the contracting officer under the Contract Disputes Act of 1978 and the Disputes clause. In case of a question whether the contracting officer has authority to settle or decide specific types of claims, the contracting officer should seek legal advice.

(b) A contractor's allegation that it is entitled to rescission or reformation of its contract in order to correct or mitigate the effect of a mistake shall be treated as a claim under the Act. A contract may be reformed or rescinded by the contracting officer if the contractor would be entitled to such remedy or relief under the law of Federal contracts. Due to the complex legal issues likely to be associated with allegations of legal entitlement, contracting officers shall make written decisions, prepared with the advice and assistance of legal counsel, either granting or denying relief in whole or in part.

(c) A claim that is either denied or not approved in its entirety under paragraph (b) of this section may be cognizable as a request for relief under Public Law 85-804 as implemented by Part 50. However, the claim must first be submitted to the contracting officer for consideration under the Contract Disputes Act of 1978 because the claim is not cognizable under Public Law 85-804, as implemented by Part 50, unless other legal authority in the agency concerned is determined to be lacking or inadequate.

### **33.206 Initiation of a claim.**

(a) Contractor claims shall be submitted, in writing, to the contracting officer for a decision within 6 years after accrual of a claim, unless the contracting parties agreed to a shorter time period. This 6-year time period does not apply to contracts awarded prior to October 1, 1995. The contracting officer shall document the contract file with evidence of the date of receipt of any submission from the contractor deemed to be a claim by the contracting officer.

(b) The contracting officer shall issue a written decision on any Government claim initiated against a contractor within 6 years after accrual of the claim, unless the contracting parties agreed to a shorter time period. The 6-year period shall not apply to contracts awarded prior to October 1, 1995, or to a Government claim based on a contractor claim involving fraud.

### **33.207 Contractor certification.**

(a) Contractors shall provide the certification specified in paragraph (c) of this section when submitting any claim exceeding \$100,000.

(b) The certification requirement does not apply to issues in controversy that have not been submitted as all or part of a claim.

(c) The certification shall state as follows:

I certify that the claim is made in good faith; that the supporting data are accurate and complete to the best of my knowledge and belief; that the amount requested accurately reflects the contract adjustment for which the contractor believes the Government is liable; and that I am duly authorized to certify the claim on behalf of the contractor.

(d) The aggregate amount of both increased and decreased costs shall be used in determining when the dollar thresholds requiring certification are met (see example in 15.403-4(a)(1)(iii) regarding cost or pricing data).

(e) The certification may be executed by any person duly authorized to bind the contractor with respect to the claim.

(f) A defective certification shall not deprive a court or an agency BCA of jurisdiction over that claim. Prior to the entry of a final judgment by a court or a decision by an agency BCA, however, the court or agency BCA shall require a defective certification to be corrected.

### **33.208 Interest on claims.**

(a) The Government shall pay interest on a contractor's claim on the amount found due and unpaid from the date that—

(1) The contracting officer receives the claim (certified if required by 33.207(a)); or

(2) Payment otherwise would be due, if that date is later, until the date of payment.

(b) Simple interest on claims shall be paid at the rate, fixed by the Secretary of the Treasury as provided in the Act, which is applicable to the period during which the contracting officer receives the claim and then at the rate applicable for each 6-month period as fixed by the Treasury Secretary during the pendency of the claim. (See 32.614 for the right of the Government to collect interest on its claims against a contractor.)

(c) With regard to claims having defective certifications, interest shall be paid from either the date that the contracting officer initially receives the claim or October 29, 1992, whichever is later. However, if a contractor has provided a proper certificate prior to October 29, 1992, after submission of a defective certificate, interest shall be paid from the date of receipt by the Government of a proper certificate.

### **33.209 Suspected fraudulent claims.**

If the contractor is unable to support any part of the claim and there is evidence that the inability is attributable to misrepresentation of fact or to fraud on the part of the contractor, the contracting officer shall refer the matter to the agency official responsible for investigating fraud.

### **33.210 Contracting officer's authority.**

Except as provided in this section, contracting officers are authorized, within any specific limitations of their warrants, to decide or resolve all claims arising under or relating to a

contract subject to the Act. In accordance with agency policies and 33.214, contracting officers are authorized to use ADR procedures to resolve claims. The authority to decide or resolve claims does not extend to—

- (a) A claim or dispute for penalties or forfeitures prescribed by statute or regulation that another Federal agency is specifically authorized to administer, settle, or determine; or
- (b) The settlement, compromise, payment, or adjustment of any claim involving fraud.

### 33.211 Contracting officer's decision.

(a) When a claim by or against a contractor cannot be satisfied or settled by mutual agreement and a decision on the claim is necessary, the contracting officer shall—

- (1) Review the facts pertinent to the claim;
- (2) Secure assistance from legal and other advisors;
- (3) Coordinate with the contract administration office or contracting office, as appropriate; and
- (4) Prepare a written decision that shall include a—
  - (i) Description of the claim or dispute;
  - (ii) Reference to the pertinent contract terms;
  - (iii) Statement of the factual areas of agreement and disagreement;
  - (iv) Statement of the contracting officer's decision, with supporting rationale;
  - (v) Paragraph substantially as follows:

This is the final decision of the Contracting Officer. You may appeal this decision to the agency board of contract appeals. If you decide to appeal, you must, within 90 days from the date you receive this decision, mail or otherwise furnish written notice to the agency board of contract appeals and provide a copy to the Contracting Officer from whose decision this appeal is taken. The notice shall indicate that an appeal is intended, reference this decision, and identify the contract by number. With regard to appeals to the agency board of contract appeals, you may, solely at your election, proceed under the board's small claim procedure for claims of \$50,000 or less or its accelerated procedure for claims of \$100,000 or less. Instead of appealing to the agency board of contract appeals, you may bring an action directly in the United States Court of Federal Claims (except as provided in the Contract Disputes Act of 1978, 41 U.S.C. 603, regarding Maritime Contracts) within 12 months of the date you receive this decision; and

(vi) Demand for payment prepared in accordance with 32.610(b) in all cases where the decision results in a finding that the contractor is indebted to the Government.

(b) The contracting officer shall furnish a copy of the decision to the contractor by certified mail, return receipt requested, or by any other method that provides evidence of receipt. This requirement shall apply to decisions on claims initiated by or against the contractor.

(c) The contracting officer shall issue the decision within the following statutory time limitations:

(1) For claims of \$100,000 or less, 60 days after receiving a written request from the contractor that a decision be rendered within that period, or within a reasonable time after receipt of the claim if the contractor does not make such a request.

(2) For claims over \$100,000, 60 days after receiving a certified claim; provided, however, that if a decision will not be issued within 60 days, the contracting officer shall notify the contractor, within that period, of the time within which a decision will be issued.

(d) The contracting officer shall issue a decision within a reasonable time, taking into account—

- (1) The size and complexity of the claim;
- (2) The adequacy of the contractor's supporting data; and
- (3) Any other relevant factors.

(e) The contracting officer shall have no obligation to render a final decision on any claim exceeding \$100,000 which contains a defective certification, if within 60 days after receipt of the claim, the contracting officer notifies the contractor, in writing, of the reasons why any attempted certification was found to be defective.

(f) In the event of undue delay by the contracting officer in rendering a decision on a claim, the contractor may request the tribunal concerned to direct the contracting officer to issue a decision in a specified time period determined by the tribunal.

(g) Any failure of the contracting officer to issue a decision within the required time periods will be deemed a decision by the contracting officer denying the claim and will authorize the contractor to file an appeal or suit on the claim.

(h) The amount determined payable under the decision, less any portion already paid, should be paid, if otherwise proper, without awaiting contractor action concerning appeal. Such payment shall be without prejudice to the rights of either party.

### 33.212 Contracting officer's duties upon appeal.

To the extent permitted by any agency procedures controlling contacts with agency BCA personnel, the contracting officer shall provide data, documentation, information, and support as may be required by the agency BCA for use on a pending appeal from the contracting officer's decision.

### 33.213 Obligation to continue performance.

(a) In general, before passage of the Act, the obligation to continue performance applied only to claims arising under a contract. However, Section 6(b) of the Act authorizes agencies to require a contractor to continue contract performance in accordance with the contracting officer's decision pending final decision on a claim relating to the contract. In recogni-

tion of this fact, an alternate paragraph is provided for paragraph (i) of the clause at 52.233-1, Disputes. This paragraph shall be used only as authorized by agency procedures.

(b) In all contracts that include the clause at 52.233-1, Disputes, with its Alternate I, in the event of a dispute not arising under, but relating to, the contract, the contracting officer shall consider providing, through appropriate agency procedures, financing of the continued performance; provided, that the Government's interest is properly secured.

### **33.214 Alternative dispute resolution (ADR).**

(a) The objective of using ADR procedures is to increase the opportunity for relatively inexpensive and expeditious resolution of issues in controversy. Essential elements of ADR include—

- (1) Existence of an issue in controversy;
- (2) A voluntary election by both parties to participate in the ADR process;
- (3) An agreement on alternative procedures and terms to be used in lieu of formal litigation; and
- (4) Participation in the process by officials of both parties who have the authority to resolve the issue in controversy.

(b) If the contracting officer rejects a contractor's request for ADR proceedings, the contracting officer shall provide the contractor a written explanation citing one or more of the conditions in 5 U.S.C. 572(b) or such other specific reasons that ADR procedures are inappropriate for the resolution of the dispute. In any case where a contractor rejects a request of an agency for ADR proceedings, the contractor shall inform the agency in writing of the contractor's specific reasons for rejecting the request.

(c) ADR procedures may be used at any time that the contracting officer has authority to resolve the issue in controversy. If a claim has been submitted, ADR procedures may

be applied to all or a portion of the claim. When ADR procedures are used subsequent to the issuance of a contracting officer's final decision, their use does not alter any of the time limitations or procedural requirements for filing an appeal of the contracting officer's final decision and does not constitute a reconsideration of the final decision.

(d) When appropriate, a neutral person may be used to facilitate resolution of the issue in controversy using the procedures chosen by the parties.

(e) The confidentiality of ADR proceedings shall be protected consistent with 5 U.S.C. 574.

(f)(1) A solicitation shall not require arbitration as a condition of award, unless arbitration is otherwise required by law. Contracting officers should have flexibility to select the appropriate ADR procedure to resolve the issues in controversy as they arise.

(2) An agreement to use arbitration shall be in writing and shall specify a maximum award that may be issued by the arbitrator, as well as any other conditions limiting the range of possible outcomes.

(g) Binding arbitration, as an ADR procedure, may be agreed to only as specified in agency guidelines. Such guidelines shall provide advice on the appropriate use of binding arbitration and when an agency has authority to settle an issue in controversy through binding arbitration.

### **33.215 Contract clause.**

The contracting officer shall insert the clause at 52.233-1, Disputes, in solicitations and contracts, unless the conditions in 33.203(b) apply. If it is determined under agency procedures that continued performance is necessary pending resolution of any claim arising under or relating to the contract, the contracting officer shall use the clause with its Alternate I.

This page intentionally left blank.

## Subpart 34.0—General

### 34.000 Scope of part.

This part describes acquisition policies and procedures for use in acquiring major systems consistent with OMB Circular No. A-109, Major System Acquisitions (A-109) (see 34.003).

### 34.001 Definition.

“Effective competition,” as used in this part, is a market condition that exists when two or more contractors, acting independently, actively contend for the Government’s business in a manner that ensures that the Government will be offered the lowest cost or price alternative or best technical design meeting its minimum needs.

### 34.002 Policy.

The policies of this part are designed to ensure that agencies acquire major systems in the most effective, economical, and timely manner. Agencies acquiring major systems shall—

(a) Promote innovation and full and open competition as required by Part 6 in the development of major system concepts by—

(1) Expressing agency needs and major system acquisition program objectives in terms of the agency’s mission and not in terms of specified systems to satisfy needs, and

(2) Focusing agency resources and special management attention on activities conducted in the initial stage of major programs; and

(b) Sustain effective competition between alternative system concepts and sources for as long as it is beneficial.

### 34.003 Responsibilities.

(a) As required by A-109, the agency head or designee shall establish written procedures for its implementation.

(b) The agency procedures shall identify the key decision points of each major system acquisition and the agency official(s) for making those decisions.

(c) Systems acquisitions normally designated as major are those programs that, as determined by the agency head, (1) are directed at and critical to fulfilling an agency mission need, (2) entail allocating relatively large resources for the particular agency, and (3) warrant special management attention, including specific agency-head decisions. The agency procedures may establish additional criteria, as specified in A-109, for designating major programs system acquisitions.

### 34.004 Acquisition strategy.

The program manager, as specified in agency procedures, shall develop an acquisition strategy tailored to the particular major system acquisition program. This strategy is the program manager’s overall plan for satisfying the mission need

in the most effective, economical, and timely manner. The strategy shall be in writing and prepared in accordance with the requirements of Subpart 7.1, except where inconsistent with this part, and shall qualify as the acquisition plan for the major system acquisition, as required by that subpart.

### 34.005 General requirements.

#### 34.005-1 Competition.

(a) The program manager shall, throughout the acquisition process, promote full and open competition and sustain effective competition between alternative major system concepts and sources, as long as it is economically beneficial and practicable to do so. Notice of the proposed acquisition shall be given the broadest and most effective circulation practicable throughout the business, academic, and Government communities. Foreign contractors, technology, and equipment may be considered when it is feasible and permissible to do so.

(b) The contracting officer should time solicitation issuance and contract award to maintain continuity of concept development during the transition from with-drawing concept proposer to new contractor.

#### 34.005-2 Mission-oriented solicitation.

(a) Before issuing the solicitation, whenever practicable and consistent with agency procedures, the contracting officer should take the actions outlined in paragraphs (a)(1) and (2):

(1) Advance notification of the acquisition should be given the widest practicable dissemination, including publicizing through the Governmentwide point of entry (see Subpart 5.2) and should be sent to as wide a selection of potential sources as practicable, including smaller and newer firms, Government laboratories, federally funded research and development centers, educational institutions and other not-for-profit organizations, and, if it would be beneficial and is not prohibited, foreign sources.

(2) If appropriate, hold a presolicitation conference (see 15.201) and/or send copies of the proposed solicitation to all prospective offerors for their comments. After evaluation of these comments, the solicitation should be revised, if appropriate.

(b) The contracting officer shall send the final solicitation to all prospective offerors. It shall—

(1) Describe the nature of the need in terms of mission capabilities required, without reference to any specific systems to satisfy the need;

(2) Indicate, and explain when appropriate, the schedule, capability, and cost objectives and any known constraints in the acquisition;

(3) Provide, or indicate how access can be obtained to, all Government data related to the acquisition;

(4) Include selection requirements consistent with the acquisition strategy; and

(5) Clearly state that each offeror is free to propose its own technical approach, main design features, subsystems, and alternatives to schedule, cost, and capability goals.

(c) To the extent practicable, the solicitation shall not reference or mandate Government specifications or standards, unless the agency is mandating a subsystem or other component as approved under agency procedure.

### **34.005-3 Concept exploration contracts.**

Whenever practicable, contracts to be performed during the concept exploration phase shall be for relatively short periods, at planned dollar levels. These contracts are to refine the proposed concept and to reduce the concept's technical uncertainties. The scope of work for this phase of the program shall be consistent with the Government's planned budget for the phase. Follow-on contracts for such tasks in the exploration phase shall be awarded as long as the concept approach remains promising, the contractor's progress is acceptable, and it is economically practicable to do so.

### **34.005-4 Demonstration contracts.**

Whenever practicable, contracts for the demonstration phase should provide for contractors to submit, by the end of the phase, priced proposals, totally funded by the Government, for full-scale development. The contracting officer should provide contractors with operational test conditions, performance criteria, life cycle cost factors, and any other selection criteria necessary for the contractors to prepare their proposals.

### **34.005-5 Full-scale development contracts.**

Whenever practicable, the full-scale development contracts should provide for the contractors to submit priced proposals for production that are based on the latest quantity, schedule, and logistics requirements and other considerations that will be used in making the production decision.

### **34.005-6 Full production.**

Contracts for full production of successfully tested major systems selected from the full-scale development phase may be awarded if the agency head—

- (a) Reaffirms the mission need and program objectives; and
- (b) Grants approval to proceed with production.

**Subpart 34.1—Testing, Qualification and Use of Industrial Resources Developed Under Title III, Defense Production Act**

**34.100 Scope of subpart.**

This subpart prescribes policies and procedures for the testing, qualification, and use of industrial resources manufactured or developed with assistance provided under section 301, 302, or 303 of the Defense Production Act (50 U.S.C. App. 2091-2093). Title III of the Defense Production Act authorizes various forms of Government assistance to encourage expansion of production capacity and supply of industrial resources essential to national defense.

**34.101 Definitions.**

“Item of supply,” as used in this subpart, means any individual part, component, subassembly, assembly, or subsystem integral to a major system, and other property which may be replaced during the service life of the system. The term includes spare parts and replenishment parts, but does not include packaging or labeling associated with shipment or identification of an “item.”

**34.102 Policy.**

It is the policy of the Government, as required by Section 126 of Public Law 102-558, to pay for any testing and qualification required for the use or incorporation of the industrial resources manufactured or developed with assistance provided under Title III of the Defense Production Act of 1950.

**34.103 Testing and qualification.**

(a) Contractors receiving requests from a Title III project contractor for testing and qualification of a Title III industrial resource shall refer such requests to the contracting officer. The contracting officer shall evaluate the request in accordance with agency procedures to determine whether: (1) the Title III industrial resource is being or potentially may be used in the development or manufacture of a major system or item of supply; and (2) for major systems in production, remaining quantities to be acquired are sufficient to justify incurring the cost of testing and qualification. In evaluating this request, the contracting officer shall consult with the Defense Production Act Office, Title III Program, located at:

Wright Patterson Air Force Base  
OH 45433-7739.

(b) If the determination at 34.103(a) is affirmative, the contracting officer shall modify the contract to require the contractor to test the Title III industrial resource for qualification.

(c) The Defense Production Act Office, Title III Program, shall provide to the contractor the industrial resource produced by the Title III project contractor in sufficient amounts to meet testing needs.

**34.104 Contract clause.**

Insert the clause at 52.234-1, Industrial Resources Developed under Title III, Defense Production Act, in all contracts for major systems and items of supply.

## **PART 35—RESEARCH AND DEVELOPMENT CONTRACTING**

*Sec.*

35.000	Scope of part.	35.013	Insurance.
35.001	Definitions.	35.014	Government property and title.
35.002	General.	35.015	Contracts for research with educational institutions and nonprofit organizations.
35.003	Policy.	35.016	Broad agency announcement.
35.004	Publicizing requirements and expanding research and development sources.	35.017	Federally Funded Research and Development Centers.
35.005	Work statement.	35.017-1	Sponsoring agreements.
35.006	Contracting methods and contract type.	35.017-2	Establishing or changing an FFRDC.
35.007	Solicitations.	35.017-3	Using an FFRDC.
35.008	Evaluation for award.	35.017-4	Reviewing FFRDC's.
35.009	Subcontracting research and development effort.	35.017-5	Terminating an FFRDC.
35.010	Scientific and technical reports.	35.017-6	Master list of FFRDC's.
35.011	Data.	35.017-7	Limitation on the creation of new FFRDC's.
35.012	Patent rights.		

This page intentionally left blank.

**35.000 Scope of part.**

(a) This part prescribes policies and procedures of special application to research and development (R&D) contracting.

(b) R&D integral to acquisition of major systems is covered in Part 34. Independent research and development (IR&D) is covered at 31.205-18.

**35.001 Definitions.**

“Applied research” means the effort that (a) normally follows basic research, but may not be severable from the related basic research; (b) attempts to determine and exploit the potential of scientific discoveries or improvements in technology, materials, processes, methods, devices, or techniques; and (c) attempts to advance the state of the art. When being used by contractors in cost principle applications, this term does not include efforts whose principal aim is the design, development, or testing of specific items or services to be considered for sale; these efforts are within the definition of “development,” given below.

“Development,” as used in this part, means the systematic use of scientific and technical knowledge in the design, development, testing, or evaluation of a potential new product or service (or of an improvement in an existing product or service) to meet specific performance requirements or objectives. It includes the functions of design engineering, prototyping, and engineering testing; it excludes subcontracted technical effort that is for the sole purpose of developing an additional source for an existing product.

“Recoupment,” as used in this part, means the recovery by the Government of Government-funded nonrecurring costs from contractors that sell, lease, or license the resulting products or technology to buyers other than the Federal Government.

**35.002 General.**

The primary purpose of contracted R&D programs is to advance scientific and technical knowledge and apply that knowledge to the extent necessary to achieve agency and national goals. Unlike contracts for supplies and services, most R&D contracts are directed toward objectives for which the work or methods cannot be precisely described in advance. It is difficult to judge the probabilities of success or required effort for technical approaches, some of which offer little or no early assurance of full success. The contracting process shall be used to encourage the best sources from the scientific and industrial community to become involved in the program and must provide an environment in which the work can be pursued with reasonable flexibility and minimum administrative burden.

**35.003 Policy.**

(a) *Use of contracts.* Contracts shall be used only when the principal purpose is the acquisition of supplies or ser-

vices for the direct benefit or use of the Federal Government. Grants or cooperative agreements should be used when the principal purpose of the transaction is to stimulate or support research and development for another public purpose.

(b) *Cost sharing.* Cost sharing policies (which are not otherwise required by law) under Government contracts shall be in accordance with 16.303, 42.707(a) and agency procedures.

(c) *Recoupment.* Recoupment not otherwise required by law shall be in accordance with agency procedures.

**35.004 Publicizing requirements and expanding research and development sources.**

(a) In order to obtain a broad base of the best contractor sources from the scientific and industrial community, agencies must, in addition to following the requirements of Part 5, continually search for and develop information on sources (including small business concerns) competent to perform R&D work. These efforts should include—

(1) Early identification and publication of agency R&D needs and requirements, including publicizing through the Governmentwide point of entry (GPE) (see Part 5);

(2) Cooperation among technical personnel, contracting officers, and Government small business personnel early in the acquisition process; and

(3) Providing agency R&D points of contact for potential sources.

(b) See Subpart 9.7 for information regarding R&D pools and Subpart 9.6 for teaming arrangements.

**35.005 Work statement.**

(a) A clear and complete work statement concerning the area of exploration (for basic research) or the end objectives (for development and applied research) is essential. The work statement should allow contractors freedom to exercise innovation and creativity. Work statements must be individually tailored by technical and contracting personnel to attain the desired degree of flexibility for contractor creativity and the objectives of the R&D.

(b) In basic research the emphasis is on achieving specified objectives and knowledge rather than on achieving predetermined end results prescribed in a statement of specific performance characteristics. This emphasis applies particularly during the early or conceptual phases of the R&D effort.

(c) In reviewing work statements, contracting officers should ensure that language suitable for a level-of-effort approach, which requires the furnishing of technical effort and a report on the results, is not intermingled with language suitable for a task-completion approach, which often requires the development of a tangible end item designed to achieve specific performance characteristics. The wording of the work statement should also be consistent with the type

and form of contract to be negotiated (see 16.207 and 16.306(d)). For example, the work statement for a cost-reimbursement contract promising the contractor's best efforts for a fixed term would be phrased differently than a work statement for a cost-reimbursement completion contract promising the contractor's best efforts for a defined task. Differences between work statements for fixed-price contracts and cost-reimbursement contracts should be even clearer.

(d) In preparing work statements, technical and contracting personnel shall consider and, as appropriate, provide in the solicitation—

(1) A statement of the area of exploration, tasks to be performed, and objectives of the research or development effort;

(2) Background information helpful to a clear understanding of the objective or requirement (*e.g.*, any known phenomena, techniques, methodology, or results of related work);

(3) Information on factors such as personnel, environment, and interfaces that may constrain the results of the effort;

(4) Reporting requirements and information on any additional items that the contractor is required to furnish (at specified intervals) as the work progresses;

(5) The type and form of contract contemplated by the Government and, for level-of-effort work statements, an estimate of applicable professional and technical effort involved; and

(6) Any other considerations peculiar to the work to be performed; for example, any design-to-cost requirements.

### 35.006 Contracting methods and contract type.

(a) In R&D acquisitions, the precise specifications necessary for sealed bidding are generally not available, thus making negotiation necessary. However, the use of negotiation in R&D contracting does not change the obligation to comply with Part 6.

(b) Selecting the appropriate contract type is the responsibility of the contracting officer. However, because of the importance of technical considerations in R&D, the choice of contract type should be made after obtaining the recommendations of technical personnel. Although the Government ordinarily prefers fixed-price arrangements in contracting, this preference applies in R&D contracting only to the extent that goals, objectives, specifications, and cost estimates are sufficient to permit such a preference. The precision with which the goals, performance objectives, and specifications for the work can be defined will largely determine the type of contract employed. The contract type must be selected to fit the work required.

(c) Because the absence of precise specifications and difficulties in estimating costs with accuracy (resulting in a lack

of confidence in cost estimates) normally precludes using fixed-price contracting for R&D, the use of cost-reimbursement contracts is usually appropriate (see Subpart 16.3). The nature of development work often requires a cost-reimbursement completion arrangement (see 16.306(d)). When the use of cost and performance incentives is desirable and practicable, fixed-price incentive and cost-plus-incentive-fee contracts should be considered in that order of preference.

(d) When levels of effort can be specified in advance, a short-duration fixed-price contract may be useful for developing system design concepts, resolving potential problems, and reducing Government risks. Fixed-price contracting may also be used in minor projects when the objectives of the research are well defined and there is sufficient confidence in the cost estimate for price negotiations. (See 16.207.)

(e) Projects having production requirements as a follow-on to R&D efforts normally should progress from cost-reimbursement contracts to fixed-price contracts as designs become more firmly established, risks are reduced, and production tooling, equipment, and processes are developed and proven. When possible, a final commitment to undertake specific product development and testing should be avoided until—

(1) Preliminary exploration and studies have indicated a high degree of probability that development is feasible and

(2) The Government has determined both its minimum requirements and desired objectives for product performance and schedule completion.

### 35.007 Solicitations.

(a) The submission and subsequent evaluation of an inordinate number of R&D proposals from sources lacking appropriate qualifications is costly and time-consuming to both industry and the Government. Therefore, contracting officers should initially distribute solicitations only to sources technically qualified to perform research or development in the specific field of science or technology involved. Cognizant technical personnel should recommend potential sources that appear qualified, as a result of—

(1) Present and past performance of similar work;

(2) Professional stature and reputation;

(3) Relative position in a particular field of endeavor;

(4) Ability to acquire and retain the professional and technical capability, including facilities, required to perform the work; and

(5) Other relevant factors.

(b) Proposals generally shall be solicited from technically qualified sources, including sources that become known as a result of synopses or other means of publicizing requirements. If it is not practicable to initially solicit all apparently qualified sources, only a reasonable number need be solicited. In the interest of competition, contracting officers shall

furnish copies of the solicitation to other apparently qualified sources.

(c) Solicitations shall require offerors to describe their technical and management approach, identify technical uncertainties, and make specific proposals for the resolution of any uncertainties. The solicitation should require offerors to include in the proposal any planned subcontracting of scientific or technical work (see 35.009).

(d) Solicitations may require that proposals be organized so that the technical portions can be efficiently evaluated by technical personnel (see 15.204-5(b)). Solicitation and evaluation of proposals should be planned to minimize offerors' and Government expense.

(e) R&D solicitations should contain evaluation factors to be used to determine the most technically competent (see 15.304), such as—

(1) The offeror's understanding of the scope of the work;

(2) The approach proposed to accomplish the scientific and technical objectives of the contract or the merit of the ideas or concepts proposed;

(3) The availability and competence of experienced engineering, scientific, or other technical personnel;

(4) The offeror's experience;

(5) Pertinent novel ideas in the specific branch of science and technology involved; and

(6) The availability, from any source, of necessary research, test, laboratory, or shop facilities.

(f) In addition to evaluation factors for technical competence, the contracting officer shall consider, as appropriate, management capability (including cost management techniques), experience and past performance, subcontracting practices, and any other significant evaluation criteria (*e.g.*, unrealistically low cost estimates in proposals for cost-reimbursement or fixed-price incentive contracts). Although cost or price is not normally the controlling factor in selecting a contractor to perform R&D, it should not be disregarded in arriving at a selection that best satisfies the Government's requirement at a fair and reasonable cost.

(g) The contracting officer should ensure that each prospective offeror fully understands the details of the work, especially the Government interpretation of the work statement. If the effort is complex, the contracting officer should provide prospective offerors an opportunity to comment on the details of the requirements as contained in the work statement, the contract Schedule, and any related specifications. This may be done through the use of preproposal conferences (see 15.201).

(h) If it is appropriate to do so, solicitations should permit offerors to propose an alternative contract type (see 16.103).

(i) In circumstances when a concern has a new idea or product to discuss that incorporates the results of independent R&D work funded by the concern in the private sector

and is of interest to the Government, there should be no hesitancy to discuss it; however, the concern should be warned that the Government will not be obligated by the discussion. Under such circumstances, it may be appropriate to negotiate directly with the concern without competition. Also, see Subpart 15.6 concerning unsolicited proposals.

(j) The Government may issue an exploratory request to determine the existence of ideas or prior work in a specific field of research. Any such request shall clearly state that it does not impose any obligation on the Government or signify a firm intention to enter into a contract.

### 35.008 Evaluation for award.

(a) Generally, an R&D contract should be awarded to that organization, including any educational institution, that proposes the best ideas or concepts and has the highest competence in the specific field of science or technology involved. However, an award should not be made to obtain capabilities that exceed those needed for successful performance of the work.

(b) In R&D contracting, precise specifications are ordinarily not available. The contracting officer should therefore take special care in reviewing the solicitation evaluation factors to assure that they are properly presented and consistent with the solicitation.

(c) When a small business concern would otherwise be selected for award but is considered not responsible, the SBA Certificate of Competency procedure shall be followed (see Subpart 19.6).

(d) The contracting officer should use the procedures in Subpart 15.5 to notify and debrief offerors.

(e) It is important to evaluate a proposed contractor's cost or price estimate, not only to determine whether the estimate is reasonable but also to provide valuable insight into the offeror's understanding of the project, perception of risks, and ability to organize and perform the work. Cost or price analysis, as appropriate (see 15.404-1(c)), is a useful tool.

### 35.009 Subcontracting research and development effort.

Since the selection of R&D contractors is substantially based on the best scientific and technological sources, it is important that the contractor not subcontract technical or scientific work without the contracting officer's advance knowledge. During the negotiation of a cost-reimbursement R&D contract, the contracting officer shall obtain complete information concerning the contractor's plans for subcontracting any portion of the experimental, research, or development effort (see also 35.007(c)). Also, when negotiating a fixed-price contract, the contracting officer should evaluate this information and may obtain an agreement that protects the Government's interests. The clause at 52.244-2, Subcontracts, prescribed for certain types of contracts at 44.204(a),

requires the contracting officer's prior approval for the placement of certain subcontracts.

### 35.010 Scientific and technical reports.

(a) R&D contracts shall require contractors to furnish scientific and technical reports, consistent with the objectives of the effort involved, as a permanent record of the work accomplished under the contract.

(b) Agencies should make R&D contract results available to other Government activities and the private sector. Contracting officers shall follow agency regulations regarding such matters as national security, protection of data, and new-technology dissemination policy. Reports should be sent to the:

National Technical Information Service (NTIS)  
5285 Port Royal Road  
Springfield, VA 22161.

When agencies require that completed reports be covered by a report documentation page, Standard Form (SF) 298, Report Documentation Page, the contractor should submit a copy with the report.

### 35.011 Data.

(a) R&D contracts shall specify the technical data to be delivered under the contract, since the data clauses required by Part 27 do not require the delivery of any such data.

(b) In planning a developmental program when subsequent production contracts are contemplated, consideration should be given to the need and time required to obtain a technical package (plans, drawings, specifications, and other descriptive information) that can be used to achieve competition in production contracts. In some situations, the developmental contractor may be in the best position to produce such a technical package.

### 35.012 Patent rights.

For a discussion of patent rights, see agency regulations and Part 27.

### 35.013 Insurance.

Nonprofit, educational, or State institutions performing cost-reimbursement contracts often do not carry insurance. They may claim immunity from liability for torts, or, as State institutions, they may be prohibited by State law from expending funds for insurance. When this is the case, see 28.311 for appropriate clause coverage.

### 35.014 Government property and title.

(a) The requirements in Part 45 for establishing and maintaining control over Government property apply to all R&D contracts.

(b) In implementing 31 U.S.C. 6306, and unless an agency head provides otherwise, the policies in paragraphs (1) through (4) following, regarding title to equipment (and other tangible personal property) purchased by the contractor using Government funds provided for the conduct of basic or applied scientific research, apply to contracts with nonprofit institutions of higher education and nonprofit organizations whose primary purpose is the conduct of scientific research:

(1) If the contractor obtains the contracting officer's advance approval, the contractor shall automatically acquire and retain title to any item of equipment costing less than \$5,000 (or a lesser amount established by agency regulations) acquired on a reimbursable basis.

(2) If purchased equipment costs \$5,000 (or a lesser amount established by agency regulations) or more, and as the parties specifically agree in the contract, title may—

(i) Vest in the contractor upon acquisition without further obligation to the Government;

(ii) Vest in the contractor, subject to the Government's right to direct transfer of the title to the Government or to a third party within 12 months after the contract's completion or termination (transfer of title to the Government or third party shall not be the basis for any claim by the contractor); or

(iii) Vest in the Government, if the contracting officer determines that vesting of title in the contractor would not further the objectives of the agency's research program.

(3) If title to equipment is vested in the contractor, depreciation, amortization, or use charges are not allowable with respect to that equipment under any existing or future Government contract or subcontract.

(4) If the contract is performed at a Government installation and there is a continuing need for the equipment following contract completion, title need not be transferred to the contractor.

(c) The absence of an agreement covering title to equipment acquired by the contractor with Government funds that cost \$1,000 or more does not limit an agency's right to act to vest title in a contractor as authorized by 31 U.S.C. 6306.

(d)(1) Vesting title under paragraph (b) of this section is subject to civil rights legislation, 42 U.S.C. 2000d. Before title is vested, the contractor must agree that—

No person in the United States shall, on the ground of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be otherwise subjected to discrimination under this contemplated financial assistance (title to equipment).

(2) By signing the contract, the contractor accepts and agrees to comply with this requirement.

(e) The policies in paragraphs (b)(1) through (b)(3) and paragraph (d) of this section are implemented in the Govern-

ment property clauses (Alternate II of the clause at 52.245-2, Government Property (Fixed-Price Contracts); Alternate I of the clause at 52.245-5, Government Property (Cost-Reimbursement, Time-and-Material, or Labor-Hour Contracts); Alternate I of the clause at 52.245-11, Government Property (Facilities Use); and the clause at 52.245-15, Transfer of Title to the Facilities, which are prescribed in Part 45 (at 45.106 for fixed-price and cost-reimbursement contracts and at 45.302-6 and 45.302-7 for facilities contracts).

### **35.015 Contracts for research with educational institutions and nonprofit organizations.**

(a) *General.* (1) When the R&D work is not defined precisely and the contract states only a period during which work is conducted (that is, a specific time for achievement of results is not required), research contracts with educational institutions and nonprofit organizations shall—

(i) State that the contractor bears primary responsibility for the research;

(ii) Give—

(A) The name of the principal investigator (or project leader), if the decision to contract is based on that particular individual's research effort and management capabilities; and

(B) The contractor's estimate of the amount of time that individual will devote to the work;

(iii) Provide that the named individual shall be closely involved and continuously responsible for the conduct of the work;

(iv) Provide that the contractor must obtain the contracting officer's approval to change the principal investigator (or project leader);

(v) Require that the contractor advise the contracting officer if the principal investigator (or project leader) will, or plans to, devote substantially less effort to the work than anticipated; and

(vi) Require that the contractor obtain the contracting officer's approval to change the phenomenon under study, the stated objectives of the research, or the methodology.

(2) If a research contract does provide precise objectives or a specific date for achievement of results, the contracting officer may include in the contract the requirements set forth in paragraph (a)(1) of this section, if it is necessary for the Government to exercise oversight and approval over the avenues of approach, methods, or schedule of work.

(b) *Basic agreements.* (1) A basic agreement should be negotiated if the number of contracts warrants such an agreement (see 16.702). Basic agreements should be reviewed and updated at least annually.

(2) To promote uniformity and consistency in dealing with educational institutions and nonprofit organizations, agencies are encouraged to use basic agreements of other agencies.

### **35.016 Broad agency announcement.**

(a) *General.* This paragraph prescribes procedures for the use of the broad agency announcement (BAA) with Peer or Scientific Review (see 6.102(d)(2)) for the acquisition of basic and applied research and that part of development not related to the development of a specific system or hardware procurement. BAA's may be used by agencies to fulfill their requirements for scientific study and experimentation directed toward advancing the state-of-the-art or increasing knowledge or understanding rather than focusing on a specific system or hardware solution. The BAA technique shall only be used when meaningful proposals with varying technical/scientific approaches can be reasonably anticipated.

(b) The BAA, together with any supporting documents, shall—

(1) Describe the agency's research interest, either for an individual program requirement or for broadly defined areas of interest covering the full range of the agency's requirements;

(2) Describe the criteria for selecting the proposals, their relative importance, and the method of evaluation;

(3) Specify the period of time during which proposals submitted in response to the BAA will be accepted; and

(4) Contain instructions for the preparation and submission of proposals.

(c) The availability of the BAA must be publicized through the Governmentwide point of entry (GPE) and, if authorized pursuant to Subpart 5.5, may also be published in noted scientific, technical, or engineering periodicals. The notice must be published no less frequently than annually. When transmitting a notice to the GPE before January 1, 2002, contracting officers must direct the GPE to forward the notice to the Commerce Business Daily.

(d) Proposals received as a result of the BAA shall be evaluated in accordance with evaluation criteria specified therein through a peer or scientific review process. Written evaluation reports on individual proposals will be necessary but proposals need not be evaluated against each other since they are not submitted in accordance with a common work statement.

(e) The primary basis for selecting proposals for acceptance shall be technical, importance to agency programs, and fund availability. Cost realism and reasonableness shall also be considered to the extent appropriate.

(f) Synopsis under Subpart 5.2, Synopses of Proposed Contract Actions, of individual contract actions based upon proposals received under the BAA is not required. The

notice published pursuant to paragraph (c) of this section fulfills the synopsis requirement.

### **35.017 Federally Funded Research and Development Centers.**

(a) *Policy.* (1) This section sets forth Federal policy regarding the establishment, use, review, and termination of Federally Funded Research and Development Centers (FFRDC's) and related sponsoring agreements.

(2) An FFRDC meets some special long-term research or development need which cannot be met as effectively by existing in-house or contractor resources. FFRDC's enable agencies to use private sector resources to accomplish tasks that are integral to the mission and operation of the sponsoring agency. An FFRDC, in order to discharge its responsibilities to the sponsoring agency, has access, beyond that which is common to the normal contractual relationship, to Government and supplier data, including sensitive and proprietary data, and to employees and facilities. The FFRDC is required to conduct its business in a manner befitting its special relationship with the Government, to operate in the public interest with objectivity and independence, to be free from organizational conflicts of interest, and to have full disclosure of its affairs to the sponsoring agency. It is not the Government's intent that an FFRDC use its privileged information or access to facilities to compete with the private sector. However, an FFRDC may perform work for other than the sponsoring agency under the Economy Act, or other applicable legislation, when the work is not otherwise available from the private sector.

(3) FFRDC's are operated, managed, and/or administered by either a university or consortium of universities, other not-for-profit or nonprofit organization, or an industrial firm, as an autonomous organization or as an identifiable separate operating unit of a parent organization.

(4) Long-term relationships between the Government and FFRDC's are encouraged in order to provide the continuity that will attract high-quality personnel to the FFRDC. This relationship should be of a type to encourage the FFRDC to maintain currency in its field(s) of expertise, maintain its objectivity and independence, preserve its familiarity with the needs of its sponsor(s), and provide a quick response capability.

(b) *Definitions.* As used in this section—

“Nonsponsor” means any other organization, in or outside of the Federal Government, which funds specific work to be performed by the FFRDC and is not a party to the sponsoring agreement.

“Primary sponsor” means the lead agency responsible for managing, administering, or monitoring overall use of the FFRDC under a multiple sponsorship agreement.

“Sponsor” means the executive agency which manages, administers, monitors, funds, and is responsible for the over-

all use of an FFRDC. Multiple agency sponsorship is possible as long as one agency agrees to act as the “primary sponsor.” In the event of multiple sponsors, “sponsor” refers to the primary sponsor.

#### **35.017-1 Sponsoring agreements.**

(a) In order to facilitate a long-term relationship between the Government and an FFRDC, establish the FFRDC's mission, and ensure a periodic reevaluation of the FFRDC, a written agreement of sponsorship between the Government and the FFRDC shall be prepared when the FFRDC is established. The sponsoring agreement may take various forms; it may be included in a contract between the Government and the FFRDC, or in another legal instrument under which an FFRDC accomplishes effort, or it may be in a separate written agreement. Notwithstanding its form, the sponsoring agreement shall be clearly designated as such by the sponsor.

(b) While the specific content of any sponsoring agreement will vary depending on the situation, the agreement shall contain, as a minimum, the requirements of paragraph (c) of this subsection. The requirements for, and the contents of, sponsoring agreements may be as further specified in sponsoring agencies' policies and procedures.

(c) As a minimum, the following requirements must be addressed in either a sponsoring agreement or sponsoring agencies' policies and procedures:

(1) A statement of the purpose and mission of the FFRDC.

(2) Provisions for the orderly termination or nonrenewal of the agreement, disposal of assets, and settlement of liabilities. The responsibility for capitalization of an FFRDC must be defined in such a manner that ownership of assets may be readily and equitably determined upon termination of the FFRDC's relationship with its sponsor(s).

(3) A provision for the identification of retained earnings (reserves) and the development of a plan for their use and disposition.

(4) A prohibition against the FFRDC competing with any non-FFRDC concern in response to a Federal agency request for proposal for other than the operation of an FFRDC. This prohibition is not required to be applied to any parent organization or other subsidiary of the parent organization in its non-FFRDC operations. Requests for information, qualifications or capabilities can be answered unless otherwise restricted by the sponsor.

(5) A delineation of whether or not the FFRDC may accept work from other than the sponsor(s). If nonsponsor work can be accepted, a delineation of the procedures to be followed, along with any limitations as to the nonsponsors from which work can be accepted (other Federal agencies, State or local governments, nonprofit or profit organizations, etc.).

(d) The sponsoring agreement or sponsoring agencies' policies and procedures may also contain, as appropriate, other provisions, such as identification of—

(1) Any cost elements which will require advance agreement if cost-type contracts are used; and

(2) Considerations which will affect negotiation of fees where payment of fees is determined by the sponsor(s) to be appropriate.

(e) The term of the agreement will not exceed 5 years, but can be renewed, as a result of periodic review, in increments not to exceed 5 years.

### **35.017-2 Establishing or changing an FFRDC.**

To establish an FFRDC, or change its basic purpose and mission, the sponsor shall ensure the following:

(a) Existing alternative sources for satisfying agency requirements cannot effectively meet the special research or development needs.

(b) The notices required for publication (see 5.205(b)) are placed as required.

(c) There is sufficient Government expertise available to adequately and objectively evaluate the work to be performed by the FFRDC.

(d) The Executive Office of the President, Office of Science and Technology Policy, Washington, DC 20506, is notified.

(e) Controls are established to ensure that the costs of the services being provided to the Government are reasonable.

(f) The basic purpose and mission of the FFRDC is stated clearly enough to enable differentiation between work which should be performed by the FFRDC and that which should be performed by non-FFRDC's.

(g) A reasonable continuity in the level of support to the FFRDC is maintained, consistent with the agency's need for the FFRDC and the terms of the sponsoring agreement.

(h) The FFRDC is operated, managed, or administered by an autonomous organization or as an identifiably separate operating unit of a parent organization, and is required to operate in the public interest, free from organizational conflict of interest, and to disclose its affairs (as an FFRDC) to the primary sponsor.

(i) Quantity production or manufacturing is not performed unless authorized by legislation.

(j) Approval is received from the head of the sponsoring agency.

### **35.017-3 Using an FFRDC.**

(a) All work placed with the FFRDC must be within the purpose, mission, general scope of effort, or special competency of the FFRDC.

(b) Where the use of the FFRDC by a nonsponsor is permitted by the sponsor, the sponsor shall be responsible for compliance with paragraph (a) of this subsection. The non-

sponsoring agency is responsible for making the determination required by 17.502 and providing the documentation required by 17.504(e). When permitted by the sponsor, a Federal agency may contract directly with the FFRDC in which case that Federal agency is responsible for compliance with Part 6.

### **35.017-4 Reviewing FFRDC's.**

(a) The sponsor, prior to extending the contract or agreement with an FFRDC, shall conduct a comprehensive review of the use and need for the FFRDC. The review will be coordinated with any co-sponsors and may be performed in conjunction with the budget process. If the sponsor determines that its sponsorship is no longer appropriate, it shall apprise other agencies which use the FFRDC of the determination and afford them an opportunity to assume sponsorship.

(b) Approval to continue or terminate the sponsorship shall rest with the head of the sponsoring agency. This determination shall be based upon the results of the review conducted in accordance with paragraph (c) of this subsection.

(c) An FFRDC review should include the following:

(1) An examination of the sponsor's special technical needs and mission requirements that are performed by the FFRDC to determine if and at what level they continue to exist.

(2) Consideration of alternative sources to meet the sponsor's needs.

(3) An assessment of the efficiency and effectiveness of the FFRDC in meeting the sponsor's needs, including the FFRDC's ability to maintain its objectivity, independence, quick response capability, currency in its field(s) of expertise, and familiarity with the needs of its sponsor.

(4) An assessment of the adequacy of the FFRDC management in ensuring a cost-effective operation.

(5) A determination that the criteria for establishing the FFRDC continue to be satisfied and that the sponsoring agreement is in compliance with 35.017-1.

### **35.017-5 Terminating an FFRDC.**

When a sponsor's need for the FFRDC no longer exists, the sponsorship may be transferred to one or more Government agencies, if appropriately justified. If the FFRDC is not transferred to another Government agency, it shall be phased out.

### **35.017-6 Master list of FFRDC's.**

The National Science Foundation (NSF) maintains a master Government list of FFRDC's. Primary sponsors will provide information on each FFRDC, including sponsoring agreements, mission statements, funding data, and type of R&D being performed, to the NSF upon its request for such information.

**35.017-7 Limitation on the creation of new FFRDC's.**

Pursuant to 10 U.S.C. 2367, the Secretary of Defense, the Secretary of the Army, the Secretary of the Navy, the Secretary of the Air Force, the Secretary of Transportation, and the Administrator of the National Aeronautics and Space Administration may not obligate or expend amounts appropriated to the Department of Defense for purposes of

operating an FFRDC that was not in existence before June 2, 1986, until—

(a) The head of the agency submits to Congress a report with respect to such center that describes the purpose, mission, and general scope of effort of the center; and

(b) A period of 60 days, beginning on the date such report is received by Congress, has elapsed.

\* \* \* \* \*

## PART 36—CONSTRUCTION AND ARCHITECT-ENGINEER CONTRACTS

Sec.

36.000	Scope of part.	36.504	Physical data.
	<b>Subpart 36.1—General</b>	36.505	Material and workmanship.
36.101	Applicability.	36.506	Superintendence by the contractor.
36.102	Definitions.	36.507	Permits and responsibilities.
36.103	Methods of contracting.	36.508	Other contracts.
36.104	Policy.	36.509	Protection of existing vegetation, structures, equipment, utilities, and improvements.
	<b>Subpart 36.2—Special Aspects of Contracting for Construction</b>	36.510	Operations and storage areas.
36.201	Evaluation of contractor performance.	36.511	Use and possession prior to completion.
36.202	Specifications.	36.512	Cleaning up.
36.203	Government estimate of construction costs.	36.513	Accident prevention.
36.204	Disclosure of the magnitude of construction projects.	36.514	Availability and use of utility services.
36.205	Statutory cost limitations.	36.515	Schedules for construction contracts.
36.206	Liquidated damages.	36.516	Quantity surveys.
36.207	Pricing fixed-price construction contracts.	36.517	Layout of work.
36.208	Concurrent performance of firm-fixed-price and other types of construction contracts.	36.518	Work oversight in cost-reimbursement construction contracts.
36.209	Construction contracts with architect-engineer firms.	36.519	Organization and direction of the work.
36.210	Inspection of site and examination of data.	36.520	Contracting by negotiation.
36.211	Distribution of advance notices and solicitations.	36.521	Specifications and drawings for construction.
36.212	Preconstruction orientation.	36.522	Preconstruction conference.
36.213	Special procedures for sealed bidding in construction contracting.	36.523	Site visit.
36.213-1	General.		<b>Subpart 36.6—Architect-Engineer Services</b>
36.213-2	Presolicitation notices.	36.600	Scope of subpart.
36.213-3	Invitations for bids.	36.601	Policy.
36.213-4	Notice of award.	36.601-1	Public announcement.
36.214	Special procedures for price negotiation in construction contracting.	36.601-2	Competition.
36.215	Special procedure for cost-reimbursement contracts for construction.	36.601-3	Applicable contracting procedures.
	<b>Subpart 36.3—Two-Phase Design-Build Selection Procedures</b>	36.601-4	Implementation.
36.300	Scope of subpart.	36.602	Selection of firms for architect-engineer contracts.
36.301	Use of two-phase design-build selection procedures.	36.602-1	Selection criteria.
36.302	Scope of work.	36.602-2	Evaluation boards.
36.303	Procedures.	36.602-3	Evaluation board functions.
36.303-1	Phase One.	36.602-4	Selection authority.
36.303-2	Phase Two.	36.602-5	Short selection process for contracts not to exceed the simplified acquisition threshold.
	<b>Subpart 36.4—[Reserved]</b>	36.603	Collecting data on and appraising firms qualifications.
	<b>Subpart 36.5—Contract Clauses</b>	36.604	Performance evaluation.
36.500	Scope of subpart.	36.605	Government cost estimate for architect-engineer work.
36.501	Performance of work by the contractor.	36.606	Negotiations.
36.502	Differing site conditions.	36.607	Release of information on firm selection.
36.503	Site investigation and conditions affecting the work.	36.608	Liability for Government costs resulting from design errors or deficiencies.
		36.609	Contract clauses.
		36.609-1	Design within funding limitations.
		36.609-2	Redesign responsibility for design errors or deficiencies.
		36.609-3	Work oversight in architect-engineer contracts.

36.609-4 Requirements for registration of designers.

**Subpart 36.7—Standard and Optional Forms for Contracting for Construction, Architect-Engineer Services, and Dismantling, Demolition, or Removal of Improvements**

36.700 Scope of subpart.

36.701 Standard and optional forms for use in contracting for construction or dismantling, demolition, or removal of improvements.

36.702 Forms for use in contracting for architect-engineer services.

**36.000 Scope of part.**

This part prescribes policies and procedures peculiar to contracting for construction and architect-engineer services. It includes requirements for using certain clauses and standard forms that apply also to contracts for dismantling, demolition, or removal of improvements.

**Subpart 36.1—General****36.101 Applicability.**

(a) Construction and architect-engineer contracts are subject to the requirements in other parts of this regulation, which shall be followed when applicable.

(b) When a requirement in this part is inconsistent with a requirement in another part of this regulation, this Part 36 shall take precedence if the acquisition of construction or architect-engineer services is involved.

(c) A contract for both construction and supplies or services shall include—

(1) Clauses applicable to the predominant part of the work (see Subpart 22.4), or

(2) If the contract is divided into parts, the clauses applicable to each portion.

**36.102 Definitions.**

As used in this part—

“Contract” is intended to refer to a contract for construction or a contract for architect-engineer services, unless another meaning is clearly intended.

“Design” means defining the construction requirement (including the functional relationships and technical systems to be used, such as architectural, environmental, structural, electrical, mechanical, and fire protection), producing the technical specifications and drawings, and preparing the construction cost estimate.

“Design-bid-build” means the traditional delivery method where design and construction are sequential and contracted for separately with two contracts and two contractors.

“Design-build” means combining design and construction in a single contract with one contractor.

“Firm” in conjunction with architect-engineer services, means any individual, partnership, corporation, association, or other legal entity permitted by law to practice the professions of architecture or engineering.

“Plans and specifications” means drawings, specifications, and other data for and preliminary to the construction.

“Record drawings” means drawings submitted by a contractor or subcontractor at any tier to show the construction of a particular structure or work as actually completed under the contract.

“Two-phase design-build selection procedures” is a selection method in which a limited number of offerors (normally five or fewer) is selected during Phase One to submit detailed proposals for Phase Two (see Subpart 36.3).

**36.103 Methods of contracting.**

(a) Contracting officers shall acquire construction using sealed bid procedures if the conditions in 6.401(a) apply, except that sealed bidding need not be used for construction contracts to be performed outside the United States, its possessions, or Puerto Rico. (See 6.401(b)(2).)

(b) Contracting officers shall acquire architect-engineer services by negotiation, and select sources in accordance with applicable law, Subpart 36.6, and agency regulations.

**36.104 Policy.**

Unless the traditional acquisition approach of design-bid-build established under the Brooks Architect-Engineers Act (40 U.S.C. 541, *et seq.*) or another acquisition procedure authorized by law is used, the contracting officer shall use the two-phase selection procedures authorized by 10 U.S.C. 2305a or 41 U.S.C. 253m when entering into a contract for the design and construction of a public building, facility, or work, if the contracting officer makes a determination that the procedures are appropriate for use (see Subpart 36.3). Other acquisition procedures authorized by law include the procedures established in this part and other parts of this chapter and, for DoD, the design-build process described in 10 U.S.C. 2862.

### Subpart 36.2—Special Aspects of Contracting for Construction

#### 36.201 Evaluation of contractor performance.

(a) *Preparation of performance evaluation reports.*

(1) The contracting activity shall evaluate contractor performance and prepare a performance report using the SF 1420, Performance Evaluation (Construction Contracts), for each construction contract of—

- (i) \$500,000 or more; or
- (ii) More than \$10,000, if the contract was terminated for default.

(2) The report shall be prepared at the time of final acceptance of the work, at the time of contract termination, or at other times, as appropriate, in accordance with agency procedures. Ordinarily, the evaluating official who prepares the report should be the person responsible for monitoring contract performance.

(3) If the evaluating official concludes that a contractor's overall performance was unsatisfactory, the contractor shall be advised in writing that a report of unsatisfactory performance is being prepared and the basis for the report. If the contractor submits any written comments, the evaluating official shall include them in the report, resolve any alleged factual discrepancies, and make appropriate changes in the report.

(4) The head of the contracting activity shall establish procedures which ensure that fully qualified personnel prepare and review performance reports.

(b) *Review of performance reports.* Each performance report shall be reviewed to ensure that it is accurate and fair. The reviewing official should have knowledge of the contractor's performance and should normally be at an organizational level above that of the evaluating official.

(c) *Distribution and use of performance reports.* (1) Each performance report shall be distributed in accordance with agency procedures. One copy shall be included in the contract file. The contracting activity shall retain the report for at least six years after the date of the report.

(2) Before making a determination of responsibility in accordance with Subpart 9.1, the contracting officer may consider performance reports in accordance with agency instructions.

#### 36.202 Specifications.

(a) Construction specifications shall conform to the requirements in Part 11 of this regulation.

(b) Whenever possible, contracting officers shall ensure that references in specifications are to widely recognized standards or specifications promulgated by governments, industries, or technical societies.

(c) When "brand name or equal" descriptions are necessary, specifications must clearly identify and describe the

particular physical, functional, or other characteristics of the brand-name items which are considered essential to satisfying the requirement.

(d) [This paragraph (d) is stayed indefinitely.] In accordance with Executive Order 13202 of February 17, 2001, Preservation of Open Competition and Government Neutrality Towards Government Contractors' Labor Relations on Federal and Federally Funded Construction Projects, as amended on April 6, 2001—

(1) The Government, or any construction manager acting on behalf of the Government, must not—

(i) Require or prohibit offerors, contractors, or subcontractors to enter into or adhere to agreements with one or more labor organizations (as defined in 42 U.S.C. 2000e(d)) on the same or other related construction projects; or

(ii) Otherwise discriminate against offerors, contractors, or subcontractors for becoming, refusing to become, or remaining signatories or otherwise adhering to agreements with one or more labor organizations, on the same or other related construction projects.

(2) Nothing in this paragraph prohibits offerors, contractors, or subcontractors from voluntarily entering into project labor agreements.

(3) The head of the agency may exempt a construction project from this policy if the agency head finds that, as of February 17, 2001—

(i) The agency or a construction manager acting on behalf of the Government had issued or was a party to bid specifications, project agreements, agreements with one or more labor organizations, or other controlling documents with respect to that particular project, which contained any of the requirements or prohibitions in paragraph (d)(1) of this section; and

(ii) One or more construction contracts subject to such requirements or prohibitions had been awarded.

(4) The head of the agency may exempt a particular project, contract, or subcontract from this policy upon a finding that special circumstances require an exemption in order to avert an imminent threat to public health or safety, or to serve the national security. A finding of "special circumstances" may not be based on the possibility or presence of a labor dispute concerning the use of contractors or subcontractors who are nonsignatories to, or otherwise do not adhere to, agreements with one or more labor organizations, or concerning employees on the project who are not members of or affiliated with a labor organization.

#### 36.203 Government estimate of construction costs.

(a) An independent Government estimate of construction costs shall be prepared and furnished to the contracting officer at the earliest practicable time for each proposed contract and for each contract modification anticipated to cost \$100,000 or more. The contracting officer may require an

estimate when the cost of required work is anticipated to be less than \$100,000. The estimate shall be prepared in as much detail as though the Government were competing for award.

(b) When two-step sealed bidding is used, the independent Government estimate shall be prepared when the contract requirements are definitized.

(c) Access to information concerning the Government estimate shall be limited to Government personnel whose official duties require knowledge of the estimate. An exception to this rule may be made during contract negotiations to allow the contracting officer to identify a specialized task and disclose the associated cost breakdown figures in the Government estimate, but only to the extent deemed necessary to arrive at a fair and reasonable price. The overall amount of the Government's estimate shall not be disclosed except as permitted by agency regulations.

#### **36.204 Disclosure of the magnitude of construction projects.**

Advance notices and solicitations shall state the magnitude of the requirement in terms of physical characteristics and estimated price range. In no event shall the statement of magnitude disclose the Government's estimate. Therefore, the estimated price should be described in terms of one of the following price ranges:

- (a) Less than \$25,000.
- (b) Between \$25,000 and \$100,000.
- (c) Between \$100,000 and \$250,000.
- (d) Between \$250,000 and \$500,000.
- (e) Between \$500,000 and \$1,000,000.
- (f) Between \$1,000,000 and \$5,000,000.
- (g) Between \$5,000,000 and \$10,000,000.
- (h) More than \$10,000,000.

#### **36.205 Statutory cost limitations.**

(a) Contracts for construction shall not be awarded at a cost to the Government—

(1) In excess of statutory cost limitations, unless applicable limitations can be and are waived in writing for the particular contract; or

(2) Which, with allowances for Government-imposed contingencies and overhead, exceeds the statutory authorization.

(b) Solicitations containing one or more items subject to statutory cost limitations shall state—

(1) The applicable cost limitation for each affected item in a separate schedule;

(2) That an offer which does not contain separately-priced schedules will not be considered; and

(3) That the price on each schedule shall include an approximate apportionment of all estimated direct costs, allocable indirect costs, and profit.

(c) The Government shall reject an offer if its prices exceed applicable statutory limitations, unless laws or agency procedures provide pertinent exemptions. However, if it is in the Government's interest, the contracting officer may include a provision in the solicitation which permits the award of separate contracts for individual items whose prices are within or subject to applicable statutory limitations.

(d) The Government shall also reject an offer if its prices are within statutory limitations only because it is materially unbalanced. An offer is unbalanced if its prices are significantly less than cost for some work, and overstated for other work.

#### **36.206 Liquidated damages.**

The contracting officer must evaluate the need for liquidated damages in a construction contract in accordance with 11.502 and agency regulations.

#### **36.207 Pricing fixed-price construction contracts.**

(a) Generally, firm-fixed-price contracts shall be used to acquire construction. They may be priced—

(1) On a lump-sum basis (when a lump sum is paid for the total work or defined parts of the work),

(2) On a unit-price basis (when a unit price is paid for a specified quantity of work units), or

(3) Using a combination of the two methods.

(b) Lump-sum pricing shall be used in preference to unit pricing except when—

(1) Large quantities of work such as grading, paving, building outside utilities, or site preparation are involved;

(2) Quantities of work, such as excavation, cannot be estimated with sufficient confidence to permit a lump-sum offer without a substantial contingency;

(3) Estimated quantities of work required may change significantly during construction; or

(4) Offerors would have to expend unusual effort to develop adequate estimates.

(c) Fixed-price contracts with economic price adjustment may be used if such a provision is customary in contracts for the type of work being acquired, or when omission of an adjustment provision would preclude a significant number of firms from submitting offers or would result in offerors including unwarranted contingencies in proposed prices.

#### **36.208 Concurrent performance of firm-fixed-price and other types of construction contracts.**

In view of potential labor and administrative problems, cost-plus-fixed-fee, price-incentive, or other types of contracts with cost variation or cost adjustment features shall not be permitted concurrently, at the same work site, with firm-fixed-price, lump sum, or unit price contracts except with the prior approval of the head of the contracting activity.

**36.209 Construction contracts with architect-engineer firms.**

No contract for the construction of a project shall be awarded to the firm that designed the project or its subsidiaries or affiliates, except with the approval of the head of the agency or authorized representative.

**36.210 Inspection of site and examination of data.**

The contracting officer should make appropriate arrangements for prospective offerors to inspect the work site and to have the opportunity to examine data available to the Government which may provide information concerning the performance of the work, such as boring samples, original boring logs, and records and plans of previous construction. The data should be assembled in one place and made available for examination. The solicitation should notify offerors of the time and place for the site inspection and data examination. If it is not feasible for offerors to inspect the site or examine the data on their own, the solicitation should also designate an individual who will show the site or data to the offerors. Significant site information and the data should be made available to all offerors in the same manner, including information regarding any utilities to be furnished during construction. A record should be kept of the identity and affiliation of all offerors' representatives who inspect the site or examine the data.

**36.211 Distribution of advance notices and solicitations.**

Advance notices and solicitations should be distributed to reach as many prospective offerors as practicable. Contracting officers may send notices and solicitations to organizations that maintain, without charge to the public, display rooms for the benefit of prospective offerors, subcontractors, and material suppliers. If requested by such organizations, this may be done for all or a stated class of construction projects on an annual or semiannual basis. Contracting officers may determine the geographical extent of distribution of advance notices and solicitations on a case-by-case basis.

**36.212 Preconstruction orientation.**

(a) The contracting officer will inform the successful offeror of significant matters of interest, including—

(1) Statutory matters such as labor standards (Subpart 22.4), and subcontracting plan requirements (Subpart 19.7); and

(2) Other matters of significant interest, including who has authority to decide matters such as contractual, administrative (*e.g.*, security, safety, and fire and environmental protection), and construction responsibilities.

(b) As appropriate, the contracting officer may issue an explanatory letter or conduct a preconstruction conference.

(c) If a preconstruction conference is to be held, the contracting officer shall—

(1) Conduct the conference prior to the start of construction at the work site;

(2) Notify the successful offeror of the date, time, and location of the conference (see 36.522); and

(3) Inform the successful offeror of the proposed agenda and any need for attendance by subcontractors.

**36.213 Special procedures for sealed bidding in construction contracting.****36.213-1 General.**

Contracting officers shall follow the procedures for sealed bidding in Part 14, as modified and supplemented by the requirements in this subpart.

**36.213-2 Presolicitation notices.**

(a) Unless the requirement is waived by the head of the contracting activity or a designee, the contracting officer shall send presolicitation notices to prospective bidders on any construction requirement when the proposed contract is expected to equal or exceed \$100,000. Presolicitation notices may also be used when the proposed contract is expected to be less than \$100,000. These notices shall be issued sufficiently in advance of the invitation for bids to stimulate the interest of the greatest number of prospective bidders.

(b) Presolicitation notices must—

(1) Describe the proposed work in sufficient detail to disclose the nature and volume of work (in terms of physical characteristics and estimated price range) (see 36.204);

(2) State the location of the work;

(3) Include tentative dates for issuing invitations, opening bids, and completing contract performance;

(4) State where plans will be available for inspection without charge;

(5) Specify a date by which requests for the invitation for bids should be submitted;

(6) Notify recipients that if they do not submit a bid they should advise the issuing office as to whether they want to receive future presolicitation notices;

(7) State whether award is restricted to small businesses;

(8) Specify any amount to be charged for solicitation documents; and

(9) Be publicized through the Governmentwide point of entry in accordance with 5.204.

**36.213-3 Invitations for bids.**

(a) Invitations for bids for construction shall allow sufficient time for bid preparation (*i.e.*, the period of time between the date invitations are distributed and the date set for opening of bids) (but see 5.203 and 14.202-1) to allow bidders an adequate opportunity to prepare and submit their bids, giving due regard to the construction season and the

time necessary for bidders to inspect the site, obtain subcontract bids, examine data concerning the work, and prepare estimates based on plans and specifications.

(b) Invitations for bids shall be prepared in accordance with Subpart 14.2 and this section using the forms prescribed in Part 53.

(c) Contracting officers should assure that each invitation for bids includes the following information, when applicable:

(1) The appropriate wage determination of the Secretary of Labor (see Subpart 22.4), or, if the invitation for bids must be issued before the wage determination is received, a notice that the schedule of minimum wage rates to be paid under the contract will be issued as an amendment to the invitation for bids before the opening date for bids (see 14.208 and Subpart 22.4).

(2) The Performance of Work by the Contractor clause (see 36.501 and 52.236-1).

(3) The magnitude of the proposed construction project (see 36.204).

(4) The period of performance (see Subpart 11.4).

(5) Arrangements made for bidders to inspect the site and examine the data concerning performance of the work (see 36.210).

(6) Information concerning any facilities, such as utilities, office space, and warehouse space, to be furnished during construction.

(7) Information concerning the prebid conference (see 14.207).

(8) Any special qualifications or experience requirements that will be considered in determining the responsibility of bidders (see Subpart 9.1).

(9) Any special instructions concerning bids, alternate bids, and award.

(10) Any instructions concerning reporting requirements.

(d) The contracting officer shall send invitations for bids to prospective bidders who requested them in response to the presolicitation notice, and should send them to other prospective bidders upon their specific request (see 14.205 and 5.102(a)).

#### **36.213-4 Notice of award.**

When a notice of award is issued, it shall be done in writing or electronically, shall contain information required by 14.408, and shall—

(a) Identify the invitation for bids;

(b) Identify the contractor's bid;

(c) State the award price;

(d) Advise the contractor that any required payment and performance bonds must be promptly executed and returned to the contracting officer;

(e) Specify the date of commencement of work, or advise that a notice to proceed will be issued.

#### **36.214 Special procedures for price negotiation in construction contracting.**

(a) Agencies shall follow the policies and procedures in Part 15 when negotiating prices for construction.

(b) The contracting officer shall evaluate proposals and associated cost or pricing data or information other than cost or pricing data and shall compare them to the Government estimate.

(1) When submission of cost or pricing data is not required (see 15.403-1 and 15.403-2), and any element of proposed cost differs significantly from the Government estimate, the contracting officer should request the offeror to submit cost information concerning that element (*e.g.*, wage rates or fringe benefits, significant materials, equipment allowances, and subcontractor costs).

(2) When a proposed price is significantly lower than the Government estimate, the contracting officer shall make sure both the offeror and the Government estimator completely understand the scope of the work. If negotiations reveal errors in the Government estimate, the estimate shall be corrected and the changes shall be documented in the contract file.

(c) When appropriate, additional pricing tools may be used. For example, proposed prices may be compared to current prices for similar types of work, adjusted for differences in the work site and the specifications. Also, rough yardsticks may be developed and used, such as cost per cubic foot for structures, cost per linear foot for utilities, and cost per cubic yard for excavation or concrete.

#### **36.215 Special procedure for cost-reimbursement contracts for construction.**

Contracting officers may use a cost-reimbursement contract to acquire construction only when its use is consistent with Subpart 16.3 and Part 15 (see 15.404-4(c)(4)(i) for fee limitation on cost-reimbursement contracts).

## Subpart 36.3—Two-Phase Design-Build Selection Procedures

### 36.300 Scope of subpart.

This subpart prescribes policies and procedures for the use of the two-phase design-build selection procedures authorized by 10 U.S.C. 2305a and 41 U.S.C. 253m.

### 36.301 Use of two-phase design-build selection procedures.

(a) During formal or informal acquisition planning (see Part 7), if considering the use of two-phase design-build selection procedures, the contracting officer shall conduct the evaluation in paragraph (b) of this section.

(b) The two-phase design-build selection procedures shall be used when the contracting officer determines that this method is appropriate, based on the following:

(1) Three or more offers are anticipated.

(2) Design work must be performed by offerors before developing price or cost proposals, and offerors will incur a substantial amount of expense in preparing offers.

(3) The following criteria have been considered:

(i) The extent to which the project requirements have been adequately defined.

(ii) The time constraints for delivery of the project.

(iii) The capability and experience of potential contractors.

(iv) The suitability of the project for use of the two-phase selection method.

(v) The capability of the agency to manage the two-phase selection process.

(vi) Other criteria established by the head of the contracting activity.

### 36.302 Scope of work.

The agency shall develop, either in-house or by contract, a scope of work that defines the project and states the Government's requirements. The scope of work may include criteria and preliminary design, budget parameters, and schedule or delivery requirements. If the agency contracts for development of the scope of work, the procedures in Subpart 36.6 shall be used.

### 36.303 Procedures.

One solicitation may be issued covering both phases, or two solicitations may be issued in sequence. Proposals will

be evaluated in Phase One to determine which offerors will submit proposals for Phase Two. One contract will be awarded using competitive negotiation.

### 36.303-1 Phase One.

(a) Phase One of the solicitation(s) shall include—

(1) The scope of work;

(2) The phase-one evaluation factors, including—

(i) Technical approach (but not detailed design or technical information);

(ii) Technical qualifications, such as—

(A) Specialized experience and technical competence;

(B) Capability to perform;

(C) Past performance of the offeror's team (including the architect-engineer and construction members); and

(iii) Other appropriate factors (excluding cost or price related factors, which are not permitted in Phase One);

(3) Phase-two evaluation factors (see 36.303-2); and

(4) A statement of the maximum number of offerors that will be selected to submit phase-two proposals. The maximum number specified shall not exceed five unless the contracting officer determines, for that particular solicitation, that a number greater than five is in the Government's interest and is consistent with the purposes and objectives of two-phase design-build contracting).

(b) After evaluating phase-one proposals, the contracting officer shall select the most highly qualified offerors (not to exceed the maximum number specified in the solicitation in accordance with 36.303-1(a)(4)) and request that only those offerors submit phase-two proposals.

### 36.303-2 Phase Two.

(a) Phase Two of the solicitation(s) shall be prepared in accordance with Part 15, and include phase-two evaluation factors, developed in accordance with 15.304. Examples of potential phase-two technical evaluation factors include design concepts, management approach, key personnel, and proposed technical solutions.

(b) Phase Two of the solicitation(s) shall require submission of technical and price proposals, which shall be evaluated separately, in accordance with Part 15.

**Subpart 36.4—[Reserved]**

## Subpart 36.5—Contract Clauses

### 36.500 Scope of subpart.

This subpart prescribes clauses for insertion in solicitations and contracts for (a) construction and (b) dismantling, demolition, or removal of improvements contracts. Provisions and clauses prescribed elsewhere in the Federal Acquisition Regulation (FAR) shall also be used in such solicitations and contracts when the conditions specified in the prescriptions for the provisions and clauses are applicable.

### 36.501 Performance of work by the contractor.

(a) To assure adequate interest in and supervision of all work involved in larger projects, the contractor shall be required to perform a significant part of the contract work with its own forces. The contract shall express this requirement in terms of a percentage that reflects the minimum amount of work the contractor must perform with its own forces. This percentage is (1) as high as the contracting officer considers appropriate for the project, consistent with customary or necessary specialty subcontracting and the complexity and magnitude of the work, and (2) ordinarily not less than 12 percent unless a greater percentage is required by law or agency regulation. Specialties such as plumbing, heating, and electrical work are usually subcontracted, and should not normally be considered in establishing the amount of work required to be performed by the contractor.

(b) The contracting officer shall insert the clause at 52.236-1, Performance of Work by the Contractor, in solicitations and contracts, except those awarded pursuant to Subparts 19.5 or 19.8, when a fixed-price construction contract is contemplated and the contract amount is expected to exceed \$1,000,000. The contracting officer may insert the clause in solicitations and contracts when a fixed-price construction contract is contemplated and the contract amount is expected to be \$1,000,000 or less.

### 36.502 Differing site conditions.

The contracting officer shall insert the clause at 52.236-2, Differing Site Conditions, in solicitations and contracts when a fixed-price construction contract or a fixed-price dismantling, demolition, or removal of improvements contract is contemplated and the contract amount is expected to exceed the simplified acquisition threshold. The contracting officer may insert the clause in solicitations and contracts when a fixed-price construction or a fixed-price contract for dismantling, demolition, or removal of improvements is contemplated and the contract amount is expected to be at or below the simplified acquisition threshold. Site investigation and conditions affecting the work.

### 36.503 Site investigation and conditions affecting the work.

The contracting officer shall insert the clause at 52.236-3, Site Investigation and Conditions Affecting the Work, in solicitations and contracts when a fixed-price construction contract or a fixed-price dismantling, demolition, or removal of improvements contract is contemplated and the contract amount is expected to exceed the simplified acquisition threshold. The contracting officer may insert the clause in solicitations and contracts when a fixed-price construction or a fixed-price contract for dismantling, demolition, or removal of improvements is contemplated and the contract amount is expected to be at or below the simplified acquisition threshold.

### 36.504 Physical data.

The contracting officer shall insert the clause at 52.236-4, Physical Data, in solicitations and contracts when a fixed-price construction contract is contemplated and physical data (e.g., test borings, hydrographic data, weather conditions data) will be furnished or made available to offerors.

### 36.505 Material and workmanship.

The contracting officer shall insert the clause at 52.236-5, Material and Workmanship, in solicitations and contracts for construction contracts.

### 36.506 Superintendence by the contractor.

The contracting officer shall insert the clause at 52.236-6, Superintendence by the Contractor, in solicitations and contracts when a fixed-price construction contract or a fixed-price dismantling, demolition, or removal of improvements contract is contemplated and the contract amount is expected to exceed the simplified acquisition threshold. The contracting officer may insert the clause in solicitations and contracts when a fixed-price construction or a fixed-price contract for dismantling, demolition, or removal of improvements is contemplated and the contract amount is expected to be at or below the simplified acquisition threshold.

### 36.507 Permits and responsibilities.

The contracting officer shall insert the clause at 52.236-7, Permits and Responsibilities, in solicitations and contracts when a fixed-price or cost-reimbursement construction contract or a fixed-price dismantling, demolition, or removal of improvements contract is contemplated.

### 36.508 Other contracts.

The contracting officer shall insert the clause at 52.236-8, Other Contracts, in solicitations and contracts when a fixed-price construction contract or a fixed-price dismantling, demolition, or removal of improvements contract is contemplated and the contract amount is expected to exceed the

simplified acquisition threshold. The contracting officer may insert the clause in solicitations and contracts when a fixed-price construction or a fixed-price contract for dismantling, demolition, or removal of improvements is contemplated and the contract amount is expected to be at or below the simplified acquisition threshold.

### **36.509 Protection of existing vegetation, structures, equipment, utilities, and improvements.**

The contracting officer shall insert the clause at 52.236-9, Protection of Existing Vegetation, Structures, Equipment, Utilities, and Improvements, in solicitations and contracts when a fixed-price construction contract or a fixed-price dismantling, demolition, or removal of improvements contract is contemplated and the contract amount is expected to exceed the simplified acquisition threshold. The contracting officer may insert the clause in solicitations and contracts when a fixed-price construction or a fixed-price contract for dismantling, demolition, or removal of improvements is contemplated and the contract amount is expected to be at or below the simplified acquisition threshold.

### **36.510 Operations and storage areas.**

The contracting officer shall insert the clause at 52.236-10, Operations and Storage Areas, in solicitations and contracts when a fixed-price construction contract or a fixed-price dismantling, demolition, or removal of improvements contract is contemplated and the contract amount is expected to exceed the simplified acquisition threshold. The contracting officer may insert the clause in solicitations and contracts when a fixed-price construction or a fixed-price contract for dismantling, demolition, or removal of improvements is contemplated and the contract amount is expected to be at or below the simplified acquisition threshold.

### **36.511 Use and possession prior to completion.**

The contracting officer shall insert the clause at 52.236-11, Use and Possession Prior to Completion, in solicitations and contracts when a fixed-price construction contract is contemplated and the contract award amount is expected to exceed the simplified acquisition threshold. This clause may be inserted in solicitations and contracts when the contract amount is expected to be at or below the simplified acquisition threshold.

### **36.512 Cleaning up.**

The contracting officer shall insert the clause at 52.236-12, Cleaning Up, in solicitations and contracts when a fixed-price construction contract or a fixed-price dismantling, demolition, or removal of improvements contract is contemplated and the contract amount is expected to exceed the simplified acquisition threshold. The contracting officer may insert the clause in solicitations and contracts when a

fixed-price construction or a fixed-price contract for dismantling, demolition, or removal of improvements is contemplated and the contract amount is expected to be at or below the simplified acquisition threshold.

### **36.513 Accident prevention.**

(a) The contracting officer shall insert the clause at 52.236-13, Accident Prevention, in solicitations and contracts when a fixed-price construction contract or a fixed-price dismantling, demolition, or removal of improvements contract is contemplated and the contract amount is expected to exceed the simplified acquisition threshold. The contracting officer may insert the clause in solicitations and contracts when a fixed-price construction or a fixed-price contract for dismantling, demolition, or removal of improvements is contemplated and the contract amount is expected to be at or below the simplified acquisition threshold. If the contract will involve work of a long duration or hazardous nature, the contracting officer shall use the clause with its Alternate I.

(b) The contracting officer shall insert the clause or the clause with its Alternate I in solicitations and contracts when a contract for services to be performed at Government facilities (see 48 CFR part 37) is contemplated, and technical representatives advise that special precautions are appropriate.

(c) The contracting officer should inform the Occupational Safety and Health Administration (OSHA), or other cognizant Federal, State, or local officials, of instances where the contractor has been notified to take immediate action to correct serious or imminent dangers.

### **36.514 Availability and use of utility services.**

The contracting officer shall insert the clause at 52.236-14, Availability and Use of Utility Services, in solicitations and contracts when a fixed-price construction contract or a fixed-price dismantling, demolition, or removal of improvements contract is contemplated, the contract is to be performed on Government sites, and the contracting officer decides (a) that the existing utility system(s) is adequate for the needs of both the Government and the contractor, and (b) furnishing it is in the Government's interest. When this clause is used, the contracting officer shall list the available utilities in the contract.

### **36.515 Schedules for construction contracts.**

The contracting officer may insert the clause at 52.236-15, Schedules for Construction Contracts, in solicitations and contracts when a fixed-price construction contract is contemplated, the contract amount is expected to exceed the simplified acquisition threshold, and the period of actual work performance exceeds 60 days. This clause may also be inserted in such solicitations and contracts when work performance is expected to last less than 60 days and an unusual situation exists that warrants imposition of the requirements.

This clause should not be used in the same contract with clauses covering other management approaches for ensuring that a contractor makes adequate progress.

**36.516 Quantity surveys.**

The contracting officer may insert the clause at 52.236-16, Quantity Surveys, in solicitations and contracts when a fixed-price construction contract providing for unit pricing of items and for payment based on quantity surveys is contemplated. If it is determined at a level above that of the contracting officer that it is impracticable for Government personnel to perform the original and final surveys, and the Government wishes the contractor to perform these surveys, the clause shall be used with its Alternate.

**36.517 Layout of work.**

The contracting officer shall insert the clause at 52.236-17, Layout of Work, in solicitations and contracts when a fixed-price construction contract is contemplated and use of this clause is appropriate due to a need for accurate work layout and for siting verification during work performance.

**36.518 Work oversight in cost-reimbursement construction contracts.**

The contracting officer shall insert the clause at 52.236-18, Work Oversight in Cost-Reimbursement Construction Contracts, in solicitations and contracts when a cost-reimbursement construction contract is contemplated.

**36.519 Organization and direction of the work.**

The contracting officer shall insert the clause at 52.236-19, Organization and Direction of the Work, in solicitations and contracts when a cost-reimbursement construction contract is contemplated.

**36.520 Contracting by negotiation.**

The contracting officer shall insert in solicitations for construction the provision at 52.236-28, Preparation of Offers—Construction, when contracting by negotiation.

**36.521 Specifications and drawings for construction.**

The contracting officer shall insert the clause at 52.236-21, Specifications and Drawings for Construction, in solicitations and contracts when a fixed-price construction contract or a fixed-price dismantling, demolition, or removal of improvements contract is contemplated and the contract amount is expected to exceed the simplified acquisition threshold. The contracting officer may insert the clause in solicitations and contracts when a fixed-price construction or a fixed-price contract for dismantling, demolition, or removal of improvements is contemplated and the contract amount is expected to be at or below the simplified acquisition threshold. When the Government needs record drawings, the contracting officer shall—

(a) Use the clause with its Alternate I, if reproducible shop drawings are needed; or

(b) Use the clause with its Alternate II, if reproducible shop drawings are not needed.

**36.522 Preconstruction conference.**

If the contracting officer determines it may be desirable to hold a preconstruction conference, the contracting officer shall insert a clause substantially the same as the clause at 52.236-26, Preconstruction Conference, in solicitations and fixed price contracts for construction or for dismantling, demolition or removal of improvements.

**36.523 Site visit.**

The contracting officer shall insert a provision substantially the same as the provision at 52.236-27, Site Visit (Construction), in solicitations which include the clauses at 52.236-2, Differing Site Conditions, and 52.236-3, Site Investigations and Conditions Affecting the Work. Alternate I may be used when an organized site visit will be conducted.

## Subpart 36.6—Architect-Engineer Services

### 36.600 Scope of subpart.

This subpart prescribes policies and procedures applicable to the acquisition of architect-engineer services.

### 36.601 Policy.

#### 36.601-1 Public announcement.

The Government shall publicly announce all requirements for architect-engineer services and negotiate contracts for these services based on the demonstrated competence and qualifications of prospective contractors to perform the services at fair and reasonable prices. (See Pub. L. 92-582, as amended; 40 U.S.C. 541-544.)

#### 36.601-2 Competition.

Acquisition of architect-engineer services in accordance with the procedures in this subpart will constitute a competitive procedure. (See 6.102(d)(1).)

#### 36.601-3 Applicable contracting procedures.

(a) For facility design contracts, the statement of work shall require that the architect-engineer specify, in the construction design specifications, use of the maximum practicable amount of recovered materials consistent with the performance requirements, availability, price reasonableness, and cost-effectiveness. Where appropriate, the statement of work also shall require the architect-engineer to consider energy conservation, pollution prevention, and waste reduction to the maximum extent practicable in developing the construction design specifications.

(b) Sources for contracts for architect-engineer services shall be selected in accordance with the procedures in this subpart rather than the solicitation or source selection procedures prescribed in Parts 13, 14, and 15 of this regulation.

(c) When the contract statement of work includes both architect-engineer services and other services, the contracting officer shall follow the procedures in this subpart if the statement of work, substantially or to a dominant extent, specifies performance or approval by a registered or licensed architect or engineer. If the statement of work does not specify such performance or approval, the contracting officer shall follow the procedures in Parts 13, 14, or 15.

(d) Other than “incidental services” as specified in the definition of architect-engineer services in 2.101 and in 36.601-4(a)(3), services that do not require performance by a registered or licensed architect or engineer, notwithstanding the fact that architect-engineers also may perform those services, should be acquired pursuant to Parts 13, 14, and 15.

### 36.601-4 Implementation.

(a) Contracting officers should consider the following services to be “architect-engineer services” subject to the procedures of this subpart:

(1) Professional services of an architectural or engineering nature, as defined by applicable State law, which the State law requires to be performed or approved by a registered architect or engineer.

(2) Professional services of an architectural or engineering nature associated with design or construction of real property.

(3) Other professional services of an architectural or engineering nature or services incidental thereto (including studies, investigations, surveying and mapping, tests, evaluations, consultations, comprehensive planning, program management, conceptual designs, plans and specifications, value engineering, construction phase services, soils engineering, drawing reviews, preparation of operating and maintenance manuals and other related services) that logically or justifiably require performance by registered architects or engineers or their employees.

(4) Professional surveying and mapping services of an architectural or engineering nature. Surveying is considered to be an architectural and engineering service and shall be procured pursuant to section 36.601 from registered surveyors or architects and engineers. Mapping associated with the research, planning, development, design, construction, or alteration of real property is considered to be an architectural and engineering service and is to be procured pursuant to section 36.601. However, mapping services that are not connected to traditionally understood or accepted architectural and engineering activities, are not incidental to such architectural and engineering activities or have not in themselves traditionally been considered architectural and engineering services shall be procured pursuant to provisions in Parts 13, 14, and 15.

(b) Contracting officers may award contracts for architect-engineer services to any firm permitted by law to practice the professions of architecture or engineering.

### 36.602 Selection of firms for architect-engineer contracts.

#### 36.602-1 Selection criteria.

(a) Agencies shall evaluate each potential contractor in terms of its—

(1) Professional qualifications necessary for satisfactory performance of required services;

(2) Specialized experience and technical competence in the type of work required, including, where appropriate, experience in energy conservation, pollution prevention, waste reduction, and the use of recovered materials;

(3) Capacity to accomplish the work in the required time;

(4) Past performance on contracts with Government agencies and private industry in terms of cost control, quality of work, and compliance with performance schedules;

(5) Location in the general geographical area of the project and knowledge of the locality of the project; provided, that application of this criterion leaves an appropriate number of qualified firms, given the nature and size of the project; and

(6) Acceptability under other appropriate evaluation criteria.

(b) When the use of design competition is approved by the agency head or a designee, agencies may evaluate firms on the basis of their conceptual design of the project. Design competition may be used when—

(1) Unique situations exist involving prestige projects, such as the design of memorials and structures of unusual national significance;

(2) Sufficient time is available for the production and evaluation of conceptual designs; and

(3) The design competition, with its costs, will substantially benefit the project.

(c) Hold discussions with at least three of the most highly qualified firms regarding concepts, the relative utility of alternative methods and feasible ways to prescribe the use of recovered materials and achieve waste reduction and energy-efficiency in facility design (see Part 23).

### **36.602-2 Evaluation boards.**

(a) When acquiring architect-engineer services, an agency shall provide for one or more permanent or ad hoc architect-engineer evaluation boards (which may include preselection boards when authorized by agency regulations) to be composed of members who, collectively, have experience in architecture, engineering, construction, and Government and related acquisition matters. Members shall be appointed from among highly qualified professional employees of the agency or other agencies, and if authorized by agency procedure, private practitioners of architecture, engineering, or related professions. One Government member of each board shall be designated as the chairperson.

(b) No firm shall be eligible for award of an architect-engineer contract during the period in which any of its principals or associates are participating as members of the awarding agency's evaluation board.

### **36.602-3 Evaluation board functions.**

Under the general direction of the head of the contracting activity, an evaluation board shall perform the following functions:

(a) Review the current data files on eligible firms and responses to a public notice concerning the particular project (see 36.604).

(b) Evaluate the firms in accordance with the criteria in 36.602-1.

(c) Hold discussions with at least three of the most highly qualified firms regarding concepts and the relative utility of alternative methods of furnishing the required services.

(d) Prepare a selection report for the agency head or other designated selection authority recommending, in order of preference, at least three firms that are considered to be the most highly qualified to perform the required services. The report shall include a description of the discussions and evaluation conducted by the board to allow the selection authority to review the considerations upon which the recommendations are based.

### **36.602-4 Selection authority.**

(a) The final selection decision shall be made by the agency head or a designated selection authority.

(b) The selection authority shall review the recommendations of the evaluation board and shall, with the advice of appropriate technical and staff representatives, make the final selection. This final selection shall be a listing, in order of preference, of the firms considered most highly qualified to perform the work. If the firm listed as the most preferred is not the firm recommended as the most highly qualified by the evaluation board, the selection authority shall provide for the contract file a written explanation of the reason for the preference. All firms on the final selection list are considered "selected firms" with which the contracting officer may negotiate in accordance with 36.606.

(c) The selection authority shall not add firms to the selection report. If the firms recommended in the report are not deemed to be qualified or the report is considered inadequate for any reason, the selection authority shall record the reasons and return the report through channels to the evaluation board for appropriate revision.

(d) The board shall be promptly informed of the final selection.

### **36.602-5 Short selection process for contracts not to exceed the simplified acquisition threshold.**

When authorized by the agency, either or both of the short processes described in this subsection may be used to select firms for contracts not expected to exceed the simplified acquisition threshold. Otherwise, the procedures prescribed in 36.602-3 and 36.602-4 shall be followed.

(a) *Selection by the board.* The board shall review and evaluate architect-engineer firms in accordance with 36.602-3, except that the selection report shall serve as the final selection list and shall be provided directly to the contracting officer. The report shall serve as an authorization for

the contracting officer to commence negotiations in accordance with 36.606.

(b) *Selection by the chairperson of the board.* When the board decides that formal action by the board is not necessary in connection with a particular selection, the following procedures shall be followed:

(1) The chairperson of the board shall perform the functions required in 36.602-3.

(2) The agency head or designated selection authority shall review the report and approve it or return it to the chairperson for appropriate revision.

(3) Upon receipt of an approved report, the chairperson of the board shall furnish the contracting officer a copy of the report which will serve as an authorization for the contracting officer to commence negotiations in accordance with 36.606.

### 36.603 Collecting data on and appraising firms qualifications.

(a) *Establishing offices.* Agencies shall maintain offices or permanent evaluation boards, or arrange to use the offices or boards of other agencies, to receive and maintain data on firms wishing to be considered for Government contracts. Each office or board shall be assigned a jurisdiction by its parent agency, making it responsible for a geographical region or area, or a specialized type of construction.

(b) *Qualifications data.* To be considered for architect-engineer contracts, a firm must file with the appropriate office or board the Standard Form 254 (SF 254), "Architect-Engineer and Related Services Questionnaire," and when applicable, the Standard Form 255 (SF 255), "Architect-Engineer and Related Services Questionnaire for Specific Project."

(c) *Data files and the classification of firms.* Under the direction of the parent agency, offices or permanent evaluation boards shall maintain an architect-engineer qualifications data file. These offices or boards shall review the SF's 254 and 255 filed, and shall classify each firm with respect to—

- (1) Location;
- (2) Specialized experience;
- (3) Professional capabilities; and

(4) Capacity, with respect to the scope of work that can be undertaken. A firm's ability and experience in computer-assisted design should be considered, when appropriate.

(d) *Currency of files.* Any office or board maintaining qualifications data files shall review and update each file at least once a year. This process should include:

(1) Encouraging firms to submit annually an updated statement of qualifications and performance data on a SF 254.

(2) Reviewing the SF's 254 and 255 and, if necessary, updating the firm's classification (see 36.603(c)).

(3) Recording any contract awards made to the firm in the past year.

(4) Assuring that the file contains a copy of each pertinent performance report (see 36.604).

(5) Discarding any material that has not been updated within the past three years, if it is no longer pertinent, see 36.604(c).

(6) Posting the date of the review in the file.

(e) *Use of data files.* Evaluation boards and other appropriate Government employees, including contracting officers, shall use data files on firms.

### 36.604 Performance evaluation.

(a) *Preparation of performance reports.* For each contract of more than \$25,000, performance evaluation reports shall be prepared by the cognizant contracting activity, using the SF 1421, Performance Evaluation (Architect-Engineer). Performance evaluation reports may also be prepared for contracts of \$25,000 or less.

(1) A report shall be prepared after final acceptance of the A&E contract work or after contract termination. Ordinarily, the evaluating official who prepares this report should be the person responsible for monitoring contract performance.

(2) A report may also be prepared after completion of the actual construction of the project.

(3) In addition to the reports in paragraphs (a)(1) and (2) of this section, interim reports may be prepared at any time.

(4) If the evaluating official concludes that a contractor's overall performance was unsatisfactory, the contractor shall be advised in writing that a report of unsatisfactory performance is being prepared and the basis for the report. If the contractor submits any written comments, the evaluating official shall include them in the report, resolve any alleged factual discrepancies, and make appropriate changes in the report.

(5) The head of the contracting activity shall establish procedures which ensure that fully qualified personnel prepare and review performance reports.

(b) *Review of performance reports.* Each performance report shall be reviewed to ensure that it is accurate and fair. The reviewing official should have knowledge of the contractor's performance and should normally be at an organizational level above that of the evaluating official.

(c) *Distribution and use of performance reports.* Each performance report shall be distributed in accordance with agency procedures. The report shall be included in the contract file, and copies shall be sent to offices or boards for filing with the firm's qualifications data (see 36.603(d)(4)). The contracting activity shall retain the report for at least six years after the date of the report.

**36.605 Government cost estimate for architect-engineer work.**

(a) An independent Government estimate of the cost of architect-engineer services shall be prepared and furnished to the contracting officer before commencing negotiations for each proposed contract or contract modification expected to exceed \$100,000. The estimate shall be prepared on the basis of a detailed analysis of the required work as though the Government were submitting a proposal.

(b) Access to information concerning the Government estimate shall be limited to Government personnel whose official duties require knowledge of the estimate. An exception to this rule may be made during contract negotiations to allow the contracting officer to identify a specialized task and disclose the associated cost breakdown figures in the Government estimate, but only to the extent deemed necessary to arrive at a fair and reasonable price. The overall amount of the Government's estimate shall not be disclosed except as permitted by agency regulations.

**36.606 Negotiations.**

(a) Unless otherwise specified by the selection authority, the final selection authorizes the contracting officer to begin negotiations. Negotiations shall be conducted in accordance with Part 15 of this chapter, beginning with the most preferred firm in the final selection (see 15.404-4(c)(4)(i) on fee limitation and the determination and findings requirement at 16.306(c)(2) for a cost-plus-fixed-fee contract).

(b) The contracting officer should ordinarily request a proposal from the firm, ensuring that the solicitation does not inadvertently preclude the firm from proposing the use of modern design methods.

(c) The contracting officer shall inform the firm that no construction contract may be awarded to the firm that designed the project, except as provided in 36.209.

(d) During negotiations, the contracting officer should seek advance agreement (see 31.109) on any charges for computer-assisted design. When the firm's proposal does not cover appropriate modern and cost-effective design methods (e.g., computer-assisted design), the contracting officer should discuss this topic with the firm.

(e) Because selection of firms is based upon qualifications, the extent of any subcontracting is an important negotiation topic. The clause prescribed at 44.204(b), Subcontractors and Outside Associates and Consultants (Architect-Engineer Services) (see 52.244-4), limits a firm's subcontracting to firms agreed upon during negotiations.

(f) If a mutually satisfactory contract cannot be negotiated, the contracting officer shall obtain a written final proposal revision from the firm, and notify the firm that negotiations have been terminated. The contracting officer shall then initiate negotiations with the next firm on the final selection list. This procedure shall be continued until a mutu-

ally satisfactory contract has been negotiated. If negotiations fail with all selected firms, the contracting officer shall refer the matter to the selection authority who, after consulting with the contracting officer as to why a contract cannot be negotiated, may direct the evaluation board to recommend additional firms in accordance with 36.602.

**36.607 Release of information on firm selection.**

(a) After final selection has taken place, the contracting officer may release information identifying only the architect-engineer firm with which a contract will be negotiated for certain work. The work should be described in any release only in general terms, unless information relating to the work is classified. If negotiations are terminated without awarding a contract to the highest rated firm, the contracting officer may release that information and state that negotiations will be undertaken with another (named) architect-engineer firm. When an award has been made, the contracting officer may release award information (see 5.401).

(b) Debriefings of successful and unsuccessful firms will be held after final selection has taken place and will be conducted, to the extent practicable, in accordance with 15.503, 15.506(b) through (f), 15.507(c), and 15.506(d)(2) through (d)(5). Note that 15.506(d)(2) through (d)(5) do not apply to architect-engineer contracts.

**36.608 Liability for Government costs resulting from design errors or deficiencies.**

Architect-engineer contractors shall be responsible for the professional quality, technical accuracy, and coordination of all services required under their contracts. A firm may be liable for Government costs resulting from errors or deficiencies in designs furnished under its contract. Therefore, when a modification to a construction contract is required because of an error or deficiency in the services provided under an architect-engineer contract, the contracting officer (with the advice of technical personnel and legal counsel) shall consider the extent to which the architect-engineer contractor may be reasonably liable. The contracting officer shall enforce the liability and collect the amount due, if the recoverable cost will exceed the administrative cost involved or is otherwise in the Government's interest. The contracting officer shall include in the contract file a written statement of the reasons for the decision to recover or not to recover the costs from the firm.

**36.609 Contract clauses.****36.609-1 Design within funding limitations.**

(a) The Government may require the architect-engineer contractor to design the project so that construction costs will not exceed a contractually specified dollar limit (funding limitation). If the price of construction proposed in

response to a Government solicitation exceeds the construction funding limitation in the architect-engineer contract, the firm shall be solely responsible for redesigning the project within the funding limitation. These additional services shall be performed at no increase in the price of this contract. However, if the cost of proposed construction is affected by events beyond the firm's reasonable control (*e.g.*, if there is an increase in material costs which could not have been anticipated, or an undue delay by the Government in issuing a construction solicitation), the firm shall not be obligated to redesign at no cost to the Government. If a firm's design fails to meet the contractual limitation on construction cost and the Government determines that the firm should not redesign the project, a written statement of the reasons for that determination shall be placed in the contract file.

(b) The amount of the construction funding limitation (to be inserted in paragraph (c) of the clause at 52.236-22) is to be established during negotiations between the contractor and the Government. This estimated construction contract price shall take into account any statutory or other limitations and exclude any allowances for Government supervision and overhead and any amounts set aside by the Government for contingencies. In negotiating the amount, the contracting officer should make available to the contractor the information upon which the Government has based its initial construction estimate and any subsequently acquired information that may affect the construction costs.

(c) The contracting officer shall insert the clause at 52.236-22, Design Within Funding Limitations, in fixed-price architect-engineer contracts except when—

(1) The head of the contracting activity or a designee determines in writing that cost limitations are secondary to performance considerations and additional project funding can be expected, if necessary;

(2) The design is for a standard structure and is not intended for a specific location; or

(3) There is little or no design effort involved.

**36.609-2 Redesign responsibility for design errors or deficiencies.**

(a) Under architect-engineer contracts, contractors shall be required to make necessary corrections at no cost to the Government when the designs, drawings, specifications, or other items or services furnished contain any errors, deficiencies, or inadequacies. If, in a given situation, the Government does not require a firm to correct such errors, the contracting officer shall include a written statement of the reasons for that decision in the contract file.

(b) The contracting officer shall insert the clause at 52.236-23, Responsibility of the Architect-Engineer Contractor, in fixed-price architect-engineer contracts.

**36.609-3 Work oversight in architect-engineer contracts.**

The contracting officer shall insert the clause at 52.236-24, Work Oversight in Architect-Engineer Contracts, in all architect-engineer contracts.

**36.609-4 Requirements for registration of designers.**

The contracting officer shall insert the clause at 52.236-25, Requirements for Registration of Designers, in architect-engineer contracts, except that it may be omitted from a contract when the design is to be performed—

(a) Outside the United States, its possessions, or Puerto Rico, or

(b) In a State or possession that does not have registration requirements for the particular field involved.

**Subpart 36.7—Standard and Optional Forms for Contracting for Construction, Architect-Engineer Services, and Dismantling, Demolition, or Removal of Improvements**

**36.700 Scope of subpart.**

This subpart sets forth requirements for the use of standard and optional forms, prescribed in Part 53, for contracting for construction, architect-engineer services, or dismantling, demolition, or removal of improvements. These standard and optional forms are illustrated in Part 53.

**36.701 Standard and optional forms for use in contracting for construction or dismantling, demolition, or removal of improvements.**

(a) Contracting officers shall use Standard Form 1417, Pre-solicitation Notice (Construction Contract), to inform prospective offerors that a solicitation will be released for a proposed construction or dismantling, demolition, or removal of improvements contract estimated to be \$100,000 or more. This form may also be used if the proposed contract is estimated to be less than \$100,000.

(b) Standard Form 1442, Solicitation, Offer, and Award (Construction, Alteration, or Repair), shall be used to solicit and submit offers, and award construction or dismantling, demolition, or removal of improvements contracts expected to exceed the simplified acquisition thresholds, and may be used for contracts at or below the simplified acquisition threshold. In all sealed bid solicitations, or when the Government otherwise requires a noncancellable offer acceptance period, the contracting officer shall insert in the blank provided in Block 13D the number of calendar days that the offer must be available for acceptance after the date offers are due.

(c) Optional Form 347, Order for Supplies or Services, may be used for construction or dismantling, demolition, or removal of improvements contracts that are at or below the simplified acquisition threshold; provided, that the contracting officer includes the clauses required (see Subpart 36.5) in the simplified acquisitions (see Part 13).

(d) Contracting officers may use Optional Form 1419, Abstract of Offers—Construction, and Optional Form 1419A, Abstract of Offers—Construction, Continuation Sheet, or the automated equivalent, to record offers submitted in response to a sealed bid solicitation (see 14.403) and may also use it to record offers submitted in response to negotiated solicitations.

(e) Contracting activities shall use Standard Form 1420, Performance Evaluation (Construction), in evaluating and reporting on the performance of construction contractors as required in 36.201.

**36.702 Forms for use in contracting for architect-engineer services.**

(a) Contracting officers shall use Standard Form 252, Architect-Engineer Contract, to award fixed-price contracts for architect-engineer services when the services are to be performed in the United States, its possessions, or Puerto Rico.

(b) The following standard forms shall be used preliminary to award of a contract for architect-engineer services relating to the construction, alteration, or repair of real property:

(1) Standard Form 254, Architect-Engineer and Related Services Questionnaire, shall be used to obtain information from architect-engineer firms regarding their professional qualifications.

(2) Standard Form 255, Architect-Engineer and Related Services Questionnaire for Specific Project, shall be used to supplement the SF 254 with additional, specific information on the firms' qualifications for a particular project when the contract amount is expected to exceed the simplified acquisition threshold. This form may be used when the contract amount is expected to be at or below the simplified acquisition threshold, if the contracting officer determines that its use is appropriate.

(c) Standard Form 1421, Performance Evaluation (Architect-Engineer), shall be used in evaluating and reporting on the performance of architect-engineer contractors as required in 36.604.

## PART 37—SERVICE CONTRACTING

*Sec.*

37.000 Scope of part.

### **Subpart 37.1—Service Contracts—General**

- 37.101 Definitions.
- 37.102 Policy.
- 37.103 Contracting officer responsibility.
- 37.104 Personal services contracts.
- 37.105 Competition in service contracting.
- 37.106 Funding and term of service contracts.
- 37.107 Service Contract Act of 1965.
- 37.108 Small business Certificate of Competency.
- 37.109 Services of quasi-military armed forces.
- 37.110 Solicitation provisions and contract clauses.
- 37.111 Extension of services.
- 37.112 Government use of private sector temporaries.
- 37.113 Severance payments to foreign nationals.
- 37.113-1 Waiver of cost allowability limitations.
- 37.113-2 Solicitation provision and contract clause.
- 37.114 Special acquisition requirements.
- 37.115 Uncompensated overtime.
- 37.115-1 Scope.
- 37.115-2 General policy.
- 37.115-3 Solicitation provision.

### **Subpart 37.2—Advisory and Assistance Services**

- 37.200 Scope of subpart.
- 37.201 Definition.
- 37.202 Exclusions.
- 37.203 Policy.
- 37.204 Guidelines for determining availability of personnel.
- 37.205 Contracting officer responsibilities.

### **Subpart 37.3—Dismantling, Demolition, or Removal of Improvements**

- 37.300 Scope of subpart.
- 37.301 Labor standards.
- 37.302 Bonds or other security.
- 37.303 Payments.
- 37.304 Contract clauses.

### **Subpart 37.4—Nonpersonal Health Care Services**

- 37.400 Scope of subpart.
- 37.401 Policy.
- 37.402 Contracting officer responsibilities.
- 37.403 Contract clause.

### **Subpart 37.5—Management Oversight of Service Contracts**

- 37.500 Scope of subpart.
- 37.501 Definition.
- 37.502 Exclusions.
- 37.503 Agency-head responsibilities.
- 37.504 Contracting officials' responsibilities.

### **Subpart 37.6—Performance-Based Contracting**

- 37.600 Scope of subpart.
- 37.601 General.
- 37.602 Elements of performance-based contracting.
  - 37.602-1 Statements of work.
  - 37.602-2 Quality assurance.
  - 37.602-3 Selection procedures.
  - 37.602-4 Contract type.
  - 37.602-5 Follow-on and repetitive requirements.

This page intentionally left blank.

**37.000 Scope of part.**

This part prescribes policy and procedures that are specific to the acquisition and management of services by contract. This part applies to all contracts for services regardless of the type of contract or kind of service being acquired. This part requires the use of performance-based contracting to the maximum extent practicable and prescribes policies and procedures for use of performance-based contracting methods (see Subpart 37.6). Additional guidance for research and development services is in Part 35; architect-engineering services is in Part 36; information technology is in Part 39; and transportation services is in Part 47. Parts 35, 36, 39, and 47 take precedence over this part in the event of inconsistencies. This part includes, but is not limited to, contracts for services to which the Service Contract Act of 1965, as amended, applies (see Subpart 22.10).

**Subpart 37.1—Service Contracts—General****37.101 Definitions.**

As used in this part—

“Child care services” means child protective services (including the investigation of child abuse and neglect reports), social services, health and mental health care, child (day) care, education (whether or not directly involved in teaching), foster care, residential care, recreational or rehabilitative programs, and detention, correctional, or treatment services.

“Nonpersonal services contract” means a contract under which the personnel rendering the services are not subject, either by the contract’s terms or by the manner of its administration, to the supervision and control usually prevailing in relationships between the Government and its employees.

“Service contract” means a contract that directly engages the time and effort of a contractor whose primary purpose is to perform an identifiable task rather than to furnish an end item of supply. A service contract may be either a nonpersonal or personal contract. It can also cover services performed by either professional or nonprofessional personnel whether on an individual or organizational basis. Some of the areas in which service contracts are found include the following:

- (1) Maintenance, overhaul, repair, servicing, rehabilitation, salvage, modernization, or modification of supplies, systems, or equipment.
- (2) Routine recurring maintenance of real property.
- (3) Housekeeping and base services.
- (4) Advisory and assistance services.
- (5) Operation of Government-owned equipment facilities, and systems.
- (6) Communications services.
- (7) Architect-Engineering (see Subpart 36.6).
- (8) Transportation and related services (see Part 47).

- (9) Research and development (see Part 35).

**37.102 Policy.**

(a) Performance-based contracting (see Subpart 37.6) is the preferred method for acquiring services (Public Law 106-398, section 821). When acquiring services, including those acquired under supply contracts, agencies must—

(1) Use performance-based contracting methods to the maximum extent practicable, except for—

- (i) Architect-engineer services acquired in accordance with 40 U.S.C. 541-544 (see Part 36);
- (ii) Construction (see Part 36);
- (iii) Utility services (see Part 41); or
- (iv) Services that are incidental to supply purchases; and

(2) Use the following order of precedence (Public Law 106-398, section 821(a));

- (i) A firm-fixed price performance-based contract or task order.
- (ii) A performance-based contract or task order that is not firm-fixed price.
- (iii) A contract or task order that is not performance-based.

(b) Agencies shall generally rely on the private sector for commercial services (see OMB Circular No. A-76, Performance of Commercial Activities and Subpart 7.3).

(c) Agencies shall not award a contract for the performance of an inherently governmental function (see Subpart 7.5).

(d) Non-personal service contracts are proper under general contracting authority.

(e) Agency program officials are responsible for accurately describing the need to be filled, or problem to be resolved, through service contracting in a manner that ensures full understanding and responsive performance by contractors and, in so doing, should obtain assistance from contracting officials, as needed.

(f) Agencies shall establish effective management practices in accordance with Office of Federal Procurement Policy (OFPP) Policy Letter 93-1, Management Oversight of Service Contracting, to prevent fraud, waste, and abuse in service contracting.

(g) Services are to be obtained in the most cost-effective manner, without barriers to full and open competition, and free of any potential conflicts of interest.

(h) Agencies shall ensure that sufficiently trained and experienced officials are available within the agency to manage and oversee the contract administration function.

**37.103 Contracting officer responsibility.**

(a) The contracting officer is responsible for ensuring that a proposed contract for services is proper. For this purpose the contracting officer shall—

(1) Determine whether the proposed service is for a personal or nonpersonal services contract using the definitions at 2.101 and 37.101 and the guidelines in 37.104;

(2) In doubtful cases, obtain the review of legal counsel; and

(3) Document the file (except as provided in paragraph (b) of this section) with—

(i) The opinion of legal counsel, if any,

(ii) A memorandum of the facts and rationale supporting the conclusion that the contract does not violate the provisions in 37.104(b), and

(iii) Any further documentation that the contracting agency may require.

(b) Nonpersonal services contracts are exempt from the requirements of paragraph (a)(3) of this section.

(c) Ensure that performance-based contracting methods are used to the maximum extent practicable when acquiring services.

(d) Ensure that contracts for child care services include requirements for criminal history background checks on employees who will perform child care services under the contract in accordance with 42 U.S.C. 13041, as amended, and agency procedures.

#### **37.104 Personal services contracts.**

(a) A personal services contract is characterized by the employer-employee relationship it creates between the Government and the contractor's personnel. The Government is normally required to obtain its employees by direct hire under competitive appointment or other procedures required by the civil service laws. Obtaining personal services by contract, rather than by direct hire, circumvents those laws unless Congress has specifically authorized acquisition of the services by contract.

(b) Agencies shall not award personal services contracts unless specifically authorized by statute (*e.g.*, 5 U.S.C.3109) to do so.

(c)(1) An employer-employee relationship under a service contract occurs when, as a result of (i) the contract's terms or (ii) the manner of its administration during performance, contractor personnel are subject to the relatively continuous supervision and control of a Government officer or employee. However, giving an order for a specific article or service, with the right to reject the finished product or result, is not the type of supervision or control that converts an individual who is an independent contractor (such as a contractor employee) into a Government employee.

(2) Each contract arrangement must be judged in the light of its own facts and circumstances, the key question always being: Will the Government exercise relatively continuous supervision and control over the contractor personnel performing the contract. The sporadic, unauthorized supervision of only one of a large number of contractor

employees might reasonably be considered not relevant, while relatively continuous Government supervision of a substantial number of contractor employees would have to be taken strongly into account (see (d) of this section).

(d) The following descriptive elements should be used as a guide in assessing whether or not a proposed contract is personal in nature:

(1) Performance on site.

(2) Principal tools and equipment furnished by the Government.

(3) Services are applied directly to the integral effort of agencies or an organizational subpart in furtherance of assigned function or mission.

(4) Comparable services, meeting comparable needs, are performed in the same or similar agencies using civil service personnel.

(5) The need for the type of service provided can reasonably be expected to last beyond 1 year.

(6) The inherent nature of the service, or the manner in which it is provided, reasonably requires directly or indirectly, Government direction or supervision of contractor employees in order to—

(i) Adequately protect the Government's interest;

(ii) Retain control of the function involved; or

(iii) Retain full personal responsibility for the function supported in a duly authorized Federal officer or employee.

(e) When specific statutory authority for a personal service contract is cited, obtain the review and opinion of legal counsel.

(f) Personal services contracts for the services of individual experts or consultants are limited by the Classification Act. In addition, the Office of Personnel Management has established requirements which apply in acquiring the personal services of experts or consultants in this manner (*e.g.*, benefits, taxes, conflicts of interest). Therefore, the contracting officer shall effect necessary coordination with the cognizant civilian personnel office.

#### **37.105 Competition in service contracting.**

(a) Unless otherwise provided by statute, contracts for services shall be awarded through sealed bidding whenever the conditions in 6.401(a) are met, (except see 6.401(b)).

(b) The provisions of statute and Part 6 of this regulation requiring competition apply fully to service contracts. The method of contracting used to provide for competition may vary with the type of service being acquired and may not necessarily be limited to price competition.

#### **37.106 Funding and term of service contracts.**

(a) When contracts for services are funded by annual appropriations, the term of contracts so funded shall not extend beyond the end of the fiscal year of the appropriation

except when authorized by law (see paragraph (b) of this section for certain service contracts, 32.703-2 for contracts conditioned upon availability of funds, and 32.703-3 for contracts crossing fiscal years).

(b) The head of an executive agency, except NASA, may enter into a contract, exercise an option, or place an order under a contract for severable services for a period that begins in one fiscal year and ends in the next fiscal year if the period of the contract awarded, option exercised, or order placed does not exceed one year (10 U.S.C. 2410a and 41 U.S.C. 2531). Funds made available for a fiscal year may be obligated for the total amount of an action entered into under this authority.

(c) Agencies with statutory multiyear authority shall consider the use of this authority to encourage and promote economical business operations when acquiring services.

### **37.107 Service Contract Act of 1965.**

The Service Contract Act of 1965 (41 U.S.C. 351-357) (the Act) provides for minimum wages and fringe benefits as well as other conditions of work under certain types of service contracts. Whether or not the Act applies to a specific service contract will be determined by the definitions and exceptions given in the Act, or implementing regulations.

### **37.108 Small business Certificate of Competency.**

In those service contracts for which the Government requires the highest competence obtainable, as evidenced in a solicitation by a request for a technical/management proposal and a resultant technical evaluation and source selection, the small business Certificate of Competency procedures may not apply (see Subpart 19.6).

### **37.109 Services of quasi-military armed forces.**

Contracts with “Pinkerton Detective Agencies or similar organizations” are prohibited by 5 U.S.C. 3108. This prohibition applies only to contracts with organizations that offer quasi-military armed forces for hire, or with their employees, regardless of the contract’s character. An organization providing guard or protective services does not thereby become a “quasi-military armed force,” even though the guards are armed or the organization provides general investigative or detective services. (See 57 Comp. Gen. 524.)

### **37.110 Solicitation provisions and contract clauses.**

(a) The contracting officer shall insert the provision at 52.237-1, Site Visit, in solicitations for services to be performed on Government installations, unless the solicitation is for construction.

(b) The contracting officer shall insert the clause at 52.237-2, Protection of Government Buildings, Equipment, and Vegetation, in solicitations and contracts for services to

be performed on Government installations, unless a construction contract is contemplated.

(c) The contracting officer may insert the clause at 52.237-3, Continuity of Services, in solicitations and contracts for services, when—

(1) The services under the contract are considered vital to the Government and must be continued without interruption and when, upon contract expiration, a successor, either the Government or another contractor, may continue them; and

(2) The Government anticipates difficulties during the transition from one contractor to another or to the Government. Examples of instances where use of the clause may be appropriate are services in remote locations or services requiring personnel with special security clearances.

(d) See 9.508 regarding the use of an appropriate provision and clause concerning the subject of conflict-of-interest, which may at times be significant in solicitations and contracts for services.

(e) The contracting officer shall also insert in solicitations and contracts for services the provisions and clauses prescribed elsewhere in 48 CFR Chapter 1, as appropriate for each acquisition, depending on the conditions that are applicable.

### **37.111 Extension of services.**

Award of contracts for recurring and continuing service requirements are often delayed due to circumstances beyond the control of contracting offices. Examples of circumstances causing such delays are bid protests and alleged mistakes in bid. In order to avoid negotiation of short extensions to existing contracts, the contracting officer may include an option clause (see 17.208(f)) in solicitations and contracts which will enable the Government to require continued performance of any services within the limits and at the rates specified in the contract. However, these rates may be adjusted only as a result of revisions to prevailing labor rates provided by the Secretary of Labor. The option provision may be exercised more than once, but the total extension of performance thereunder shall not exceed 6 months.

### **37.112 Government use of private sector temporaries.**

Contracting officers may enter into contracts with temporary help service firms for the brief or intermittent use of the skills of private sector temporaries. Services furnished by temporary help firms shall not be regarded or treated as personal services. These services shall not be used in lieu of regular recruitment under civil service laws or to displace a Federal employee. Acquisition of these services shall comply with the authority, criteria, and conditions of 5 CFR part 300, Subpart E, Use of Private Sector Temporaries, and agency procedures.

**37.113 Severance payments to foreign nationals.****37.113-1 Waiver of cost allowability limitations.**

(a) The head of any agency, or designee, may waive the 31.205-6(g)(3) cost allowability limitations on severance payments to foreign nationals for contracts that—

(1) Provide significant support services for—

(i) Members of the armed forces stationed or deployed outside the United States, or

(ii) Employees of an executive agency posted outside the United States; and

(2) Will be performed in whole or in part outside the United States.

(b) Waivers can be granted only before contract award.

(c) Waivers cannot be granted for—

(1) Military banking contracts, which are covered by 10 U.S.C. 2324(e)(2); or

(2) Severance payments made by a contractor to a foreign national employed by the contractor under a DOD service contract in the Republic of the Philippines, if the discontinuation of the foreign national is the result of the termination of basing rights of the United States military in the Republic of the Philippines (section 1351(b) of Public Law 102-484, 10 U.S.C. 1592, note).

**37.113-2 Solicitation provision and contract clause.**

(a) Use the provision at 52.237-8, Restriction on Severance Payments to Foreign Nationals, in all solicitations that meet the criteria in 37.113-1(a), except for those excluded by 37.113-1(c).

(b) When the head of an agency, or designee, has granted a waiver pursuant to 37.113-1, use the clause at 52.237-9, Waiver of Limitation on Severance Payments to Foreign Nationals.

**37.114 Special acquisition requirements.**

Contracts for services which require the contractor to provide advice, opinions, recommendations, ideas, reports, analyses, or other work products have the potential for influencing the authority, accountability, and responsibilities of Government officials. These contracts require special management attention to ensure that they do not result in performance of inherently governmental functions by the contractor and that Government officials properly exercise their authority. Agencies must ensure that—

(a) A sufficient number of qualified Government employees are assigned to oversee contractor activities, especially those that involve support of Government policy or decision making. During performance of service contracts, the functions being performed shall not be changed or expanded to become inherently governmental.

(b) A greater scrutiny and an appropriate enhanced degree of management oversight is exercised when contracting for

functions that are not inherently governmental but closely support the performance of inherently governmental functions (see 7.503(c)).

(c) All contractor personnel attending meetings, answering Government telephones, and working in other situations where their contractor status is not obvious to third parties are required to identify themselves as such to avoid creating an impression in the minds of members of the public or Congress that they are Government officials, unless, in the judgment of the agency, no harm can come from failing to identify themselves. They must also ensure that all documents or reports produced by contractors are suitably marked as contractor products or that contractor participation is appropriately disclosed.

**37.115 Uncompensated overtime.****37.115-1 Scope.**

The policies in this section are based on Section 834 of Public Law 101-510 (10 U.S.C. 2331).

**37.115-2 General policy.**

(a) Use of uncompensated overtime is not encouraged.

(b) When professional or technical services are acquired on the basis of the number of hours to be provided, rather than on the task to be performed, the solicitation shall require offerors to identify uncompensated overtime hours and the uncompensated overtime rate for direct charge Fair Labor Standards Act—exempt personnel included in their proposals and subcontractor proposals. This includes uncompensated overtime hours that are in indirect cost pools for personnel whose regular hours are normally charged direct.

(c) Contracting officers must ensure that the use of uncompensated overtime in contracts to acquire services on the basis of the number of hours provided will not degrade the level of technical expertise required to fulfill the Government's requirements (see 15.305 for competitive negotiations and 15.404-1(d) for cost realism analysis). When acquiring these services, contracting officers must conduct a risk assessment and evaluate, for award on that basis, any proposals received that reflect factors such as—

(1) Unrealistically low labor rates or other costs that may result in quality or service shortfalls; and

(2) Unbalanced distribution of uncompensated overtime among skill levels and its use in key technical positions.

**37.115-3 Solicitation provision.**

The contracting officer shall insert the provision at 52.237-10, Identification of Uncompensated Overtime, in all solicitations valued above the simplified acquisition threshold, for professional or technical services to be acquired on the basis of the number of hours to be provided.

## Subpart 37.2—Advisory and Assistance Services

### 37.200 Scope of subpart.

This subpart prescribes policies and procedures for acquiring advisory and assistance services by contract. The subpart applies to contracts, whether made with individuals or organizations, that involve either personal or nonpersonal services.

### 37.201 Definition.

“Covered personnel” means—

(1) An officer or an individual who is appointed in the civil service by one of the following acting in an official capacity—

- (i) The President;
- (ii) A Member of Congress;
- (iii) A member of the uniformed services;
- (iv) An individual who is an employee under 5 U.S.C. 2105;

(v) The head of a Government-controlled corporation; or

(vi) An adjutant general appointed by the Secretary concerned under 32 U.S.C. 709(c).

(2) A member of the Armed Services of the United States.

(3) A person assigned to a Federal agency who has been transferred to another position in the competitive service in another agency.

### 37.202 Exclusions.

The following activities and programs are excluded or exempted from the definition of advisory or assistance services:

(a) Routine information technology services unless they are an integral part of a contract for the acquisition of advisory and assistance services.

(b) Architectural and engineering services as defined in the Brooks Architect-Engineers Act (Section 901 of the Federal Property and Administrative Services Act of 1949, 40 U.S.C. 541).

(c) Research on theoretical mathematics and basic research involving medical, biological, physical, social, psychological, or other phenomena.

### 37.203 Policy.

(a) The acquisition of advisory and assistance services is a legitimate way to improve Government services and operations. Accordingly, advisory and assistance services may be used at all organizational levels to help managers achieve maximum effectiveness or economy in their operations.

(b) Subject to 37.205, agencies may contract for advisory and assistance services, when essential to the agency's mission, to—

(1) Obtain outside points of view to avoid too limited judgment on critical issues;

(2) Obtain advice regarding developments in industry, university, or foundation research;

(3) Obtain the opinions, special knowledge, or skills of noted experts;

(4) Enhance the understanding of, and develop alternative solutions to, complex issues;

(5) Support and improve the operation of organizations; or

(6) Ensure the more efficient or effective operation of managerial or hardware systems.

(c) Advisory and assistance services shall not be—

(1) Used in performing work of a policy, decision-making, or managerial nature which is the direct responsibility of agency officials;

(2) Used to bypass or undermine personnel ceilings, pay limitations, or competitive employment procedures;

(3) Contracted for on a preferential basis to former Government employees;

(4) Used under any circumstances specifically to aid in influencing or enacting legislation; or

(5) Used to obtain professional or technical advice which is readily available within the agency or another Federal agency.

(d) *Limitation on payment for advisory and assistance services.* Contractors may not be paid for services to conduct evaluations or analyses of any aspect of a proposal submitted for an initial contract award unless—

(1) Neither covered personnel from the requesting agency, nor from another agency, with adequate training and capabilities to perform the required proposal evaluation, are readily available and a written determination is made in accordance with 37.204;

(2) The contractor is a Federally-Funded Research and Development Center (FFRDC) as authorized in Section 23 of the Office of Federal Procurement Policy (OFPP) Act as amended (41 U.S.C. 419) and the work placed under the FFRDC's contract meets the criteria of 35.017-3; or

(3) Such functions are otherwise authorized by law.

### 37.204 Guidelines for determining availability of personnel.

(a) The head of an agency shall determine, for each evaluation or analysis of proposals, if sufficient personnel with the requisite training and capabilities are available within the agency to perform the evaluation or analysis of proposals submitted for the acquisition.

(b) If, for a specific evaluation or analysis, such personnel are not available within the agency, the head of the agency shall—

(1) Determine which Federal agencies may have personnel with the required training and capabilities; and

(2) Consider the administrative cost and time associated with conducting the search, the dollar value of the procurement, other costs, such as travel costs involved in the use of such personnel, and the needs of the Federal agencies to make management decisions on the best use of available personnel in performing the agency's mission.

(c) If the supporting agency agrees to make the required personnel available, the agencies shall execute an agreement for the detail of the supporting agency's personnel to the requesting agency.

(d) If the requesting agency, after reasonable attempts to obtain personnel with the required training and capabilities, is unable to identify such personnel, the head of the agency may make the determination required by 37.203.

(e) An agency may make a determination regarding the availability of covered personnel for a class of proposals for which evaluation and analysis would require expertise so unique or specialized that it is not reasonable to expect such personnel to be available.

**37.205 Contracting officer responsibilities.**

The contracting officer shall ensure that the determination required in accordance with the guidelines at 37.204 has been made prior to issuing a solicitation.

### **Subpart 37.3—Dismantling, Demolition, or Removal of Improvements**

#### **37.300 Scope of subpart.**

This subpart prescribes procedures for contracting for dismantling or demolition of buildings, ground improvements and other real property structures and for the removal of such structures or portions of them (hereafter referred to as “dismantling, demolition, or removal of improvements”).

#### **37.301 Labor standards.**

Contracts for dismantling, demolition, or removal of improvements are subject to either the Service Contract Act (41 U.S.C. 351-358) or the Davis-Bacon Act (40 U.S.C. 276a-276a-7). If the contract is solely for dismantling, demolition, or removal of improvements, the Service Contract Act applies unless further work which will result in the construction, alteration, or repair of a public building or public work at that location is contemplated. If such further construction work is intended, even though by separate contract, then the Davis-Bacon Act applies to the contract for dismantling, demolition, or removal.

#### **37.302 Bonds or other security.**

When a contract is solely for dismantling, demolition, or removal of improvements, the Miller Act (40 U.S.C. 270a-270f) (see 28.102) does not apply. However, the contracting officer may require the contractor to furnish a performance bond or other security (see 28.103) in an amount that the contracting officer considers adequate to—

- (a) Ensure completion of the work;
- (b) Protect property to be retained by the Government;
- (c) Protect property to be provided as compensation to the contractor; and
- (d) Protect the Government against damage to adjoining property.

#### **37.303 Payments.**

- (a) The contract may provide that the—
  - (1) Government pay the contractor for the dismantling or demolition of structures; or
  - (2) Contractor pay the Government for the right to salvage and remove the materials resulting from the dismantling or demolition operation.
- (b) The contracting officer shall consider the usefulness to the Government of all salvageable property. Any of the prop-

erty that is more useful to the Government than its value as salvage to the contractor should be expressly designated in the contract for retention by the Government. The contracting officer shall determine the fair market value of any property not so designated, since the contractor will get title to this property, and its value will therefore be important in determining what payment, if any, shall be made to the contractor and whether additional compensation will be made if the contract is terminated.

#### **37.304 Contract clauses.**

(a) The contracting officer shall insert the clause at 52.237-4, Payment by Government to Contractor, in solicitations and contracts solely for dismantling, demolition, or removal of improvements whenever the contracting officer determines that the Government shall make payment to the contractor in addition to any title to property that the contractor may receive under the contract. If the contracting officer determines that all material resulting from the dismantling or demolition work is to be retained by the Government, use the basic clause with its Alternate I.

(b) The contracting officer shall insert the clause at 52.237-5, Payment by Contractor to Government in solicitations and contracts for dismantling, demolition, or removal of improvements whenever the contractor is to receive title to dismantled or demolished property and a net amount of compensation is due to the Government, except if the contracting officer determines that it would be advantageous to the Government for the contractor to pay in increments and the Government to transfer title to the contractor for increments of property only upon receipt of those payments.

(c) The contracting officer shall insert the clause at 52.237-6, Incremental Payment by Contractor to Government, in solicitations and contracts for dismantling, demolition, or removal of improvements if (1) the contractor is to receive title to dismantled or demolished property and a net amount of compensation is due the Government, and (2) the contracting officer determines that it would be advantageous to the Government for the contractor to pay in increments, and for the Government to transfer title to the contractor for increments of property only upon receipt of those payments. This determination may be appropriate, for example, if it encourages greater competition or participation of small business concerns.

### **Subpart 37.4—Nonpersonal Health Care Services**

#### **37.400 Scope of subpart.**

This subpart prescribes policies and procedures for obtaining health care services of physicians, dentists and other health care providers by nonpersonal services contracts, as defined in 37.101.

#### **37.401 Policy.**

Agencies may enter into nonpersonal health care services contracts with physicians, dentists and other health care providers under authority of 10 U.S.C. 2304 and 41 U.S.C. 253. Each contract shall—

(a) State that the contract is a nonpersonal health care services contract, as defined in 37.101, under which the contractor is an independent contractor;

(b) State that the Government may evaluate the quality of professional and administrative services provided, but retains no control over the medical, professional aspects of services rendered (*e.g.*, professional judgments, diagnosis for specific medical treatment);

(c) Require that the contractor indemnify the Government for any liability producing act or omission by the contractor, its employees and agents occurring during contract performance;

(d) Require that the contractor maintain medical liability insurance, in a coverage amount acceptable to the contracting officer, which is not less than the amount normally prevailing within the local community for the medical specialty concerned; and

(e) State that the contractor is required to ensure that its subcontracts for provisions of health care services, contain the requirements of the clause at 52.237-7, including the maintenance of medical liability insurance.

#### **37.402 Contracting officer responsibilities.**

Contracting officers shall obtain evidence of insurability concerning medical liability insurance from the apparent successful offeror prior to contract award and shall obtain evidence of insurance demonstrating the required coverage prior to commencement of performance.

#### **37.403 Contract clause.**

The contracting officer shall insert the clause at 52.237-7, Indemnification and Medical Liability Insurance, in solicitations and contracts for nonpersonal health care services. The contracting officer may include the clause in bilateral purchase orders for nonpersonal health care services awarded under the procedures in Part 13.

## **Subpart 37.5—Management Oversight of Service Contracts**

### **37.500 Scope of subpart.**

This subpart establishes responsibilities for implementing Office of Federal Procurement Policy (OFPP) Policy Letter 93-1, Management Oversight of Service Contracting.

### **37.501 Definition.**

“Best practices,” as used in this subpart, means techniques that agencies may use to help detect problems in the acquisition, management, and administration of service contracts. Best practices are practical techniques gained from experience that agencies may use to improve the procurement process.

### **37.502 Exclusions.**

- (a) This subpart does not apply to services that are—
- (1) Obtained through personnel appointments and advisory committees;
  - (2) Obtained through personal service contracts authorized by statute;
  - (3) For construction as defined in 2.101; or
  - (4) Obtained through interagency agreements where the work is being performed by in-house Federal employees.
- (b) Services obtained under contracts below the simplified acquisition threshold and services incidental to supply

contracts also are excluded from the requirements of this subpart. However, good management practices and contract administration techniques should be used regardless of the contracting method.

### **37.503 Agency-head responsibilities.**

The agency head or designee should ensure that—

(a) Requirements for services are clearly defined and appropriate performance standards are developed so that the agency’s requirements can be understood by potential offerors and that performance in accordance with contract terms and conditions will meet the agency’s requirements;

(b) Service contracts are awarded and administered in a manner that will provide the customer its supplies and services within budget and in a timely manner;

(c) Specific procedures are in place before contracting for services to ensure compliance with OFPP Policy Letter 92-1, Inherently Governmental Functions; and

(d) Strategies are developed and necessary staff training is initiated to ensure effective implementation of the policies in 37.102.

### **37.504 Contracting officials’ responsibilities.**

Contracting officials should ensure that “best practices” techniques are used when contracting for services and in contract management and administration (see OFPP Policy Letter 93-1).

### Subpart 37.6—Performance-Based Contracting

#### 37.600 Scope of subpart.

This subpart prescribes policies and procedures for use of performance-based contracting methods.

#### 37.601 General.

Performance-based contracting methods are intended to ensure that required performance quality levels are achieved and that total payment is related to the degree that services performed meet contract standards. Performance-based contracts—

- (a) Describe the requirements in terms of results required rather than the methods of performance of the work;
- (b) Use measurable performance standards (*i.e.*, terms of quality, timeliness, quantity, etc.) and quality assurance surveillance plans (see 46.103(a) and 46.401(a));
- (c) Specify procedures for reductions of fee or for reductions to the price of a fixed-price contract when services are not performed or do not meet contract requirements (see 46.407); and
- (d) Include performance incentives where appropriate.

#### 37.602 Elements of performance-based contracting.

##### 37.602-1 Statements of work.

(a) Generally, statements of work shall define requirements in clear, concise language identifying specific work to be accomplished. Statements of work must be individually tailored to consider the period of performance, deliverable items, if any, and the desired degree of performance flexibility (see 11.106). In the case of task order contracts, the statement of work for the basic contract need only define the scope of the overall contract (see 16.504(a)(4)(iii)). The statement of work for each task issued under a task order contract shall comply with paragraph (b) of this subsection. To achieve the maximum benefits of performance-based contracting, task order contracts should be awarded on a multiple award basis (see 16.504(c) and 16.505(b)).

(b) When preparing statements of work, agencies shall, to the maximum extent practicable—

- (1) Describe the work in terms of “what” is to be the required output rather than either “how” the work is to be accomplished or the number of hours to be provided (see 11.002(a)(2) and 11.101);
- (2) Enable assessment of work performance against measurable performance standards;

(3) Rely on the use of measurable performance standards and financial incentives in a competitive environment to encourage competitors to develop and institute innovative and cost-effective methods of performing the work; and

(4) Avoid combining requirements into a single acquisition that is too broad for the agency or a prospective contractor to manage effectively.

##### 37.602-2 Quality assurance.

Agencies shall develop quality assurance surveillance plans when acquiring services (see 46.103 and 46.401(a)). These plans shall recognize the responsibility of the contractor (see 46.105) to carry out its quality control obligations and shall contain measurable inspection and acceptance criteria corresponding to the performance standards contained in the statement of work. The quality assurance surveillance plans shall focus on the level of performance required by the statement of work, rather than the methodology used by the contractor to achieve that level of performance.

##### 37.602-3 Selection procedures.

Agencies shall use competitive negotiations when appropriate to ensure selection of services that offer the best value to the Government, cost and other factors considered (see 15.304).

##### 37.602-4 Contract type.

Contract types most likely to motivate contractors to perform at optimal levels shall be chosen (see Subpart 16.1 and, for research and development contracts, see 35.006). To the maximum extent practicable, performance incentives, either positive or negative or both, shall be incorporated into the contract to encourage contractors to increase efficiency and maximize performance (see Subpart 16.4). These incentives shall correspond to the specific performance standards in the quality assurance surveillance plan and shall be capable of being measured objectively. Fixed-price contracts are generally appropriate for services that can be defined objectively and for which the risk of performance is manageable (see Subpart 16.1).

##### 37.602-5 Follow-on and repetitive requirements.

When acquiring services that previously have been provided by contract, agencies shall rely on the experience gained from the prior contract to incorporate performance-based contracting methods to the maximum extent practicable. This will facilitate the use of fixed-price contracts for such requirements for services. (See 7.105 for requirement to address performance-based contracting strategies in acquisition plans. See also 16.104(k).)

\* \* \* \* \*

# **PART 38—FEDERAL SUPPLY SCHEDULE CONTRACTING**

*Sec.*

38.000 Scope of part.

## **Subpart 38.1—Federal Supply Schedule Program**

38.101 General.

## **Subpart 38.2—Establishing and Administering Federal Supply Schedules**

38.201 Coordination requirements.

This page intentionally left blank.

**38.000 Scope of part.**

This part prescribes policies and procedures for contracting for supplies and services under the Federal Supply Schedule program, which is directed and managed by the General Services Administration (see Subpart 8.4, Federal Supply Schedules, for additional information). The Department of Defense uses a similar system of schedule contracting for military items that are also not a part of the Federal Supply Schedule program.

**Subpart 38.1—Federal Supply Schedule Program****38.101 General.**

(a) The Federal Supply Schedule program, pursuant to 41 U.S.C. 259(b)(3)(A), provides Federal agencies with a simplified process of acquiring commonly used supplies and services in varying quantities while obtaining volume discounts. Indefinite-delivery contracts (including requirements contracts) are awarded using competitive procedures to commercial firms. The firms provide supplies and services at stated prices for given periods of time, for delivery within a

stated geographic area such as the 48 contiguous states, the District of Columbia, Alaska, Hawaii, and overseas. The schedule contracting office issues Federal Supply Schedules that contain information needed for placing orders.

(b) Each schedule identifies agencies that are required to use the contracts as primary sources of supply.

(c) Federal agencies not identified in the schedules as mandatory users may issue orders under the schedules. Contractors are encouraged to accept the orders.

(d) Although GSA awards most Federal Supply Schedule contracts, it may authorize other agencies to award schedule contracts and publish schedules. For example, the Department of Veterans Affairs awards schedule contracts for certain medical and nonperishable subsistence items.

(e) When establishing Federal Supply Schedules, GSA, or an agency delegated that authority, is responsible for complying with all applicable statutory and regulatory requirements (*e.g.*, Parts 5, 6, and 19). The requirements of Parts 5, 6, and 19 apply at the acquisition planning stage prior to issuing the schedule solicitation and do not apply to orders and BPAs placed under resulting schedule contracts (see 8.404).

**Subpart 38.2—Establishing and Administering Federal Supply Schedules**

**38.201 Coordination requirements.**

(a) Subject to interagency agreements, contracting officers having responsibility for awarding Federal Supply Schedule contracts shall coordinate and obtain approval of the General Services Administration's Federal Supply Service (FSS) before—

- (1) Establishing new schedules;

- (2) Discontinuing existing schedules;
- (3) Changing the scope of agency or geographical coverage of existing schedules; or
- (4) Adding or deleting special item numbers, national stock numbers, or revising their description.

(b) Requests should be forwarded to the:

General Services Administration  
Federal Supply Service  
Office of Acquisition (FC)  
Washington, DC 20406.

\* \* \* \* \*

## PART 39—ACQUISITION OF INFORMATION TECHNOLOGY

*Sec.*

39.000 Scope of part.

39.001 Applicability.

39.002 Definitions.

### **Subpart 39.1—General**

39.101 Policy.

39.102 Management of risk.

39.103 Modular contracting.

39.104 Information technology services.

39.105 Privacy.

39.106 Year 2000 compliance.

39.107 Contract clause.

### **Subpart 39.2—Electronic and Information Technology**

39.201 Scope of subpart.

39.202 Definition.

39.203 Applicability.

39.204 Exceptions.

This page intentionally left blank.

**39.000 Scope of part.**

This part prescribes acquisition policies and procedures for use in acquiring—

(a) Information technology, including financial management systems, consistent with other parts of this regulation, OMB Circular No. A-127, Financial Management Systems and OMB Circular No. A-130, Management of Federal Information Resources.

(b) Information and information technology.

**39.001 Applicability.**

This part applies to the acquisition of information technology by or for the use of agencies except for acquisitions of information technology for national security systems. However, acquisitions of information technology for national security systems shall be conducted in accordance with 40 U.S.C. 1412 with regard to requirements for performance and results-based management; the role of the agency Chief Information Officer in acquisitions; and accountability. These requirements are addressed in OMB Circular No. A-130.

**39.002 Definitions.**

As used in this part—

“Modular contracting” means use of one or more contracts to acquire information technology systems in successive, interoperable increments.

“National security system” means any telecommunications or information system operated by the United States Government, the function, operation, or use of which—

- (1) Involves intelligence activities;
- (2) Involves cryptologic activities related to national security;
- (3) Involves command and control of military forces;
- (4) Involves equipment that is an integral part of a weapon or weapons system; or
- (5) Is critical to the direct fulfillment of military or intelligence missions. This does not include a system that is to be used for routine administrative and business applications, such as payroll, finance, logistics, and personnel management applications.

“Year 2000 compliant,” with respect to information technology, means that the information technology accurately processes date/time data (including, but not limited to, calculating, comparing, and sequencing) from, into, and between the twentieth and twenty-first centuries, and the years 1999 and 2000 and leap year calculations, to the extent that other information technology, used in combination with the information technology being acquired, properly exchanges date/time data with it.

**Subpart 39.1—General****39.101 Policy.**

(a) Division A, Section 101(h), Title VI, Section 622 of the Omnibus Appropriations and Authorization Act for Fiscal Year 1999 (Pub. L. 105-277) requires that agencies may not use appropriated funds to acquire information technology that does not comply with 39.106, unless the agency’s Chief Information Officer determines that noncompliance with 39.106 is necessary to the function and operation of the agency or the acquisition is required by a contract in effect before October 21, 1998. The Chief Information Officer must send to the Office of Management and Budget a copy of all waivers for forwarding to Congress.

(b) In acquiring information technology, agencies shall identify their requirements pursuant to OMB Circular A-130, including consideration of security of resources, protection of privacy, national security and emergency preparedness, accommodations for individuals with disabilities, and energy efficiency. When developing an acquisition strategy, contracting officers should consider the rapidly changing nature of information technology through market research (see Part 10) and the application of technology refreshment techniques.

(c) Agencies must follow OMB Circular A-127, Financial Management Systems, when acquiring financial management systems. Agencies may acquire only core financial management software certified by the Joint Financial Management Improvement Program.

**39.102 Management of risk.**

(a) Prior to entering into a contract for information technology, an agency should analyze risks, benefits, and costs. (See Part 7 for additional information regarding requirements definition.) Reasonable risk taking is appropriate as long as risks are controlled and mitigated. Contracting and program office officials are jointly responsible for assessing, monitoring and controlling risk when selecting projects for investment and during program implementation.

(b) Types of risk may include schedule risk, risk of technical obsolescence, cost risk, risk implicit in a particular contract type, technical feasibility, dependencies between a new project and other projects or systems, the number of simultaneous high risk projects to be monitored, funding availability, and program management risk.

(c) Appropriate techniques should be applied to manage and mitigate risk during the acquisition of information technology. Techniques include, but are not limited to: prudent project management; use of modular contracting; thorough acquisition planning tied to budget planning by the program, finance and contracting offices; continuous collection and evaluation of risk-based assessment data; prototyping prior to implementation; post implementation reviews to determine

actual project cost, benefits and returns; and focusing on risks and returns using quantifiable measures.

### 39.103 Modular contracting.

(a) This section implements Section 5202, Incremental Acquisition of Information Technology, of the Clinger-Cohen Act of 1996 (Public Law 104-106). Modular contracting is intended to reduce program risk and to incentivize contractor performance while meeting the Government's need for timely access to rapidly changing technology. Consistent with the agency's information technology architecture, agencies should, to the maximum extent practicable, use modular contracting to acquire major systems (see 2.101) of information technology. Agencies may also use modular contracting to acquire non-major systems of information technology.

(b) When using modular contracting, an acquisition of a system of information technology may be divided into several smaller acquisition increments that—

(1) Are easier to manage individually than would be possible in one comprehensive acquisition;

(2) Address complex information technology objectives incrementally in order to enhance the likelihood of achieving workable systems or solutions for attainment of those objectives;

(3) Provide for delivery, implementation, and testing of workable systems or solutions in discrete increments, each of which comprises a system or solution that is not dependent on any subsequent increment in order to perform its principal functions;

(4) Provide an opportunity for subsequent increments to take advantage of any evolution in technology or needs that occur during implementation and use of the earlier increments; and

(5) Reduce risk of potential adverse consequences on the overall project by isolating and avoiding custom-designed components of the system.

(c) The characteristics of an increment may vary depending upon the type of information technology being acquired and the nature of the system being developed. The following factors may be considered:

(1) To promote compatibility, the information technology acquired through modular contracting for each increment should comply with common or commercially acceptable information technology standards when available and appropriate, and shall conform to the agency's master information technology architecture.

(2) The performance requirements of each increment should be consistent with the performance requirements of the completed, overall system within which the information technology will function and should address interface requirements with succeeding increments.

(d) For each increment, contracting officers shall choose an appropriate contracting technique that facilitates the acquisition

of subsequent increments. Pursuant to Parts 16 and 17 of the Federal Acquisition Regulation, contracting officers shall select the contract type and method appropriate to the circumstances (*e.g.*, indefinite delivery, indefinite quantity contracts, single contract with options, successive contracts, multiple awards, task order contracts). Contract(s) shall be structured to ensure that the Government is not required to procure additional increments.

(e) To avoid obsolescence, a modular contract for information technology should, to the maximum extent practicable, be awarded within 180 days after the date on which the solicitation is issued. If award cannot be made within 180 days, agencies should consider cancellation of the solicitation in accordance with 14.209 or 15.206(e). To the maximum extent practicable, deliveries under the contract should be scheduled to occur within 18 months after issuance of the solicitation.

### 39.104 Information technology services.

When acquiring information technology services, solicitations must not describe any minimum experience or educational requirement for proposed contractor personnel unless the contracting officer determines that the needs of the agency—

(a) Cannot be met without that requirement; or

(b) Require the use of other than a performance-based contract (see Subpart 37.6).

### 39.105 Privacy.

Agencies shall ensure that contracts for information technology address protection of privacy in accordance with the Privacy Act (5 U.S.C. 552a) and Part 24. In addition, each agency shall ensure that contracts for the design, development, or operation of a system of records using commercial information technology services or information technology support services include the following:

(a) Agency rules of conduct that the contractor and the contractor's employees shall be required to follow.

(b) A list of the anticipated threats and hazards that the contractor must guard against.

(c) A description of the safeguards that the contractor must specifically provide.

(d) Requirements for a program of Government inspection during performance of the contract that will ensure the continued efficacy and efficiency of safeguards and the discovery and countering of new threats and hazards.

### 39.106 Year 2000 compliance.

When acquiring information technology that will be required to perform date/time processing involving dates subsequent to December 31, 1999, agencies shall ensure that solicitations and contracts—

(a)(1) Require the information technology to be Year 2000 compliant; or

(2) Require that non-compliant information technology be upgraded to be Year 2000 compliant prior to the earlier of—

(i) The earliest date on which the information technology may be required to perform date/time processing involving dates later than December 31, 1999, or

(ii) December 31, 1999; and

(b) As appropriate, describe existing information technology that will be used with the information technology to be

acquired and identify whether the existing information technology is Year 2000 compliant.

**39.107 Contract clause.**

The contracting officer shall insert a clause substantially the same as the clause at 52.239-1, Privacy or Security Safeguards, in solicitations and contracts for information technology which require security of information technology, and/or are for the design, development, or operation of a system of records using commercial information technology services or support services.

## Subpart 39.2—Electronic and Information Technology

### 39.201 Scope of subpart.

(a) This subpart implements Section 508 of the Rehabilitation Act of 1973 (29 U.S.C. 794d), and the Architectural and Transportation Barriers Compliance Board Electronic and Information Technology (EIT) Accessibility Standards (36 CFR part 1194).

(b) Further information on Section 508 is available via the Internet at <http://www.section508.gov>.

(c) When acquiring EIT, agencies must ensure that—

(1) Federal employees with disabilities have access to and use of information and data that is comparable to the access and use by Federal employees who are not individuals with disabilities; and

(2) Members of the public with disabilities seeking information or services from an agency have access to and use of information and data that is comparable to the access to and use of information and data by members of the public who are not individuals with disabilities.

### 39.202 Definition.

Undue burden, as used in this subpart, means a significant difficulty or expense.

### 39.203 Applicability.

(a) Unless an exception at 39.204 applies, acquisitions of EIT supplies and services must meet the applicable accessibility standards at 36 CFR part 1194.

(b)(1) Exception determinations are required prior to contract award, except for indefinite-quantity contracts (see paragraph (b)(2) of this section).

(2) Exception determinations are not required prior to award of indefinite-quantity contracts, except for requirements that are to be satisfied by initial award. Contracting offices that award indefinite-quantity contracts must indicate to requiring and ordering activities which supplies and services the contractor indicates as compliant, and show where full details of compliance can be found (*e.g.*, vendor's or other exact website location).

(3) Requiring and ordering activities must ensure supplies or services meet the applicable accessibility standards at 36 CFR part 1194, unless an exception applies, at the time of issuance of task or delivery orders. Accordingly, indefinite-quantity contracts may include noncompliant items; however, any task or delivery order issued for noncompliant items must meet an applicable exception.

(c)(1) When acquiring commercial items, an agency must comply with those accessibility standards that can be met with supplies or services that are available in the commercial marketplace in time to meet the agency's delivery requirements.

(2) The requiring official must document in writing the nonavailability, including a description of market research performed and which standards cannot be met, and provide documentation to the contracting officer for inclusion in the contract file.

### 39.204 Exceptions.

The requirements in 39.203 do not apply to EIT that—

(a) Is purchased in accordance with Subpart 13.2 (micro-purchases) prior to January 1, 2003. However, for micro-purchases, contracting officers and other individuals designated in accordance with 1.603-3 are strongly encouraged to comply with the applicable accessibility standards to the maximum extent practicable;

(b) Is for a national security system;

(c) Is acquired by a contractor incidental to a contract;

(d) Is located in spaces frequented only by service personnel for maintenance, repair or occasional monitoring of equipment; or

(e) Would impose an undue burden on the agency.

(1) *Basis.* In determining whether compliance with all or part of the applicable accessibility standards in 36 CFR part 1194 would be an undue burden, an agency must consider—

(i) The difficulty or expense of compliance; and

(ii) Agency resources available to its program or component for which the supply or service is being acquired.

(2) *Documentation.* (i) The requiring official must document in writing the basis for an undue burden decision and provide the documentation to the contracting officer for inclusion in the contract file.

(ii) When acquiring commercial items, an undue burden determination is not required to address individual standards that cannot be met with supplies or service available in the commercial marketplace in time to meet the agency delivery requirements (see 39.203(c)(2) regarding documentation of nonavailability).

- 41.702 Formats for annual utility service review.

This page intentionally left blank.

## Subpart 41.1—General

### 41.100 Scope of part.

This part prescribes policies, procedures, and contract format for the acquisition of utility services. (See 41.102(b) for services that are excluded from this part.)

### 41.101 Definitions.

As used in this part,

“Areawide contract” means a contract entered into between the General Services Administration (GSA) and a utility service supplier to cover utility service needs of Federal agencies within the franchise territory of the supplier. Each areawide contract includes an “Authorization” form for requesting service, connection, disconnection, or change in service.

“Authorization” means the document executed by the ordering agency and the utility supplier to order service under an areawide contract.

“Connection charge” means all nonrecurring costs, whether refundable or nonrefundable, to be paid by the Government to the utility supplier for the required connecting facilities, which are installed, owned, operated, and maintained by the utility supplier (see Termination liability).

“Delegated agency” means an agency that has received a written delegation of authority from GSA to contract for utility services for periods not exceeding ten years (see 41.103(b)).

“Federal Power and Water Marketing Agency” means a Government entity that produces, manages, transports, controls, and sells electrical and water supply service to customers.

“Franchise territory” means a geographical area that a utility supplier has a right to serve based upon a franchise, a certificate of public convenience and necessity, or other legal means.

“Intervention” means action by GSA or a delegated agency to formally participate in a utility regulatory proceeding on behalf of all Federal executive agencies.

“Multiple service locations” means the various locations or delivery points in the utility supplier's service area to which it provides service under a single contract.

“Rates” may include rate schedules, riders, rules, terms and conditions of service, and other tariff and service charges, *e.g.*, facilities use charges.

“Separate contract” means a utility services contract (other than a GSA areawide contract, an Authorization under an areawide contract, or an interagency agreement), to cover the acquisition of utility services.

“Termination liability” means a contingent Government obligation to pay a utility supplier the unamortized portion of a connection charge and any other applicable nonrefundable

service charge as defined in the contract in the event the Government terminates the contract before the cost of connection facilities has been recovered by the utility supplier (see “Connection charge”).

“Utility service” means a service such as furnishing electricity, natural or manufactured gas, water, sewerage, thermal energy, chilled water, steam, hot water, or high temperature hot water. The application of Part 41 to other services (*e.g.*, rubbish removal, snow removal) may be appropriate when the acquisition is not subject to the Service Contract Act of 1965 (see 37.107).

### 41.102 Applicability.

(a) Except as provided in paragraph (b) of this section, this part applies to the acquisition of utility services for the Government, including connection charges and termination liabilities.

(b) This part does not apply to—

(1) Utility services produced, distributed, or sold by another Federal agency. In those cases, agencies shall use interagency agreements (see 41.206);

(2) Utility services obtained by purchase, exchange, or otherwise by a Federal power or water marketing agency incident to that agency's marketing or distribution program;

(3) Cable television (CATV) and telecommunications services;

(4) Acquisition of natural or manufactured gas when purchased as a commodity;

(5) Acquisition of utilities services in foreign countries;

(6) Acquisition of rights in real property, acquisition of public utility facilities, and on-site equipment needed for the facility's own distribution system, or construction/maintenance of Government-owned facilities; or

(7) Third party financed shared-savings projects authorized by 42 U.S.C. 8287. However, agencies may utilize Part 41 for any energy savings or purchased utility service directly resulting from implementation of a third party financed shared-savings project under 42 U.S.C. 8287 for periods not to exceed 25 years.

### 41.103 Statutory and delegated authority.

(a) *Statutory authority.* (1) The General Services Administration (GSA) is authorized by section 201 of the Federal Property and Administrative Services Act of 1949, as amended (40 U.S.C. 481), to prescribe policies and methods governing the acquisition and supply of utility services for Federal agencies. This authority includes related functions such as managing public utility services and representing Federal agencies in proceedings before Federal and state regulatory bodies. GSA is authorized by section 201 of the Act to contract for utility services for periods not exceeding ten years.

(2) The Department of Defense (DOD) is authorized by 10 U.S.C. 2304 and 40 U.S.C. 474(d)(3) to acquire utility services for military facilities.

(3) The Department of Energy (DOE) is authorized by the Department of Energy Organization Act (42 U.S.C. 7251, *et seq.*) to acquire utility services. DOE is authorized by the Atomic Energy Act of 1954, as amended (42 U.S.C. 2204), to enter into new contracts or modify existing contracts for electric services for periods not exceeding 25 years for uranium enrichment installations.

(b) *Delegated authority.* GSA has delegated its authority to enter into utility service contracts for periods not exceeding ten years to DOD and DOE, and for connection charges only to the Department of Veteran Affairs. Contracting pursuant to this delegated authority shall be consistent with the requirements of this part. Other agencies requiring utility service

contracts for periods over one year, but not exceeding ten years, may request a delegation of authority from GSA at the address specified in 41.301(a). In keeping with its statutory authority, GSA will, as necessary, conduct reviews of delegated agencies' acquisitions of utility services to ensure compliance with the terms of the delegation and applicable laws and regulations.

(c) Requests for delegations of contracting authority from GSA shall include a certification from the acquiring agency's Senior Procurement Executive that the agency has—

- (1) An established acquisition program;
- (2) Personnel technically qualified to deal with specialized utilities problems; and
- (3) The ability to accomplish its own pre-award contract review.

## Subpart 41.2—Acquiring Utility Services

### 41.201 Policy.

(a) Subject to paragraph (d) of this section, it is the policy of the Federal Government that agencies obtain required utility services from sources of supply which are most advantageous to the Government in terms of economy, efficiency, reliability, or service.

(b) Except for acquisitions at or below the simplified acquisition threshold, agencies shall acquire utility services by a bilateral written contract, which must include the clauses required by 41.501, regardless of whether rates or terms and conditions of service are fixed or adjusted by a regulatory body. Agencies may not use the utility supplier's forms and clauses to avoid the inclusion of provisions and clauses required by 41.501 or by statute. (See 41.202(c) for procedures to be used when the supplier refuses to execute a written contract.)

(c) Specific operating and management details, such as procedures for internal agency contract assistance and review, delegations of authority, and approval thresholds, may be prescribed by an individual agency subject to compliance with applicable statutes and regulations.

(d)(1) Section 8093 of the Department of Defense Appropriations Act of 1988, Pub. L. 100-202, provides that none of the funds appropriated by that Act or any other Act with respect to any fiscal year by any department, agency, or instrumentality of the United States, may be used for the purchase of electricity by the Government in any manner that is inconsistent with state law governing the providing of electric utility service, including state utility commission rulings and electric utility franchises or service territories established pursuant to state statute, state regulation, or state-approved territorial agreements.

(2) The Act does not preclude—

(i) The head of a Federal agency from entering into a contract pursuant to 42 U.S.C. 8287 (which pertains to the subject of shared energy savings including cogeneration);

(ii) The Secretary of a military department from entering into a contract pursuant to 10 U.S.C. 2394 (which pertains to contracts for energy or fuel for military installations including the provision and operation of energy production facilities); or

(iii) The Secretary of a military department from purchasing electricity from any provider when the utility or utilities having applicable state-approved franchise or other service authorizations are found by the Secretary to be unwilling or unable to meet unusual standards for service reliability that are necessary for purposes of national defense.

(3) Additionally, the head of a Federal agency may—

(i) Consistent with applicable state law, enter into contracts for the purchase or transfer of electricity to the

agency by a non-utility, including a qualifying facility under the Public Utility Regulatory Policies Act of 1978;

(ii) Enter into an interagency agreement, pursuant to 41.206 and 17.5, with a Federal power marketing agency or the Tennessee Valley Authority for the transfer of electric power to the agency; and

(iii) Enter into a contract with an electric utility under the authority or tariffs of the Federal Energy Regulatory Commission.

(e) Prior to acquiring electric utility services on a competitive basis, the contracting officer shall determine, with the advice of legal counsel, by a market survey or any other appropriate means, *e.g.*, consultation with the state agency responsible for regulating public utilities, that such competition would not be inconsistent with state law governing the provision of electric utility service, including state utility commission rulings and electric utility franchises or service territories established pursuant to state statute, state regulation, or state-approved territorial agreements. Proposals from alternative electric suppliers shall provide a representation that service can be provided in a manner consistent with section 8093 of Public Law 100-202 (see 41.201(d)).

### 41.202 Procedures.

(a) Prior to executing a utility service contract, the contracting officer shall comply with Parts 6 and 7 and subsections 41.201(d) and (e) of this part. In accordance with Parts 6 and 7, agencies shall conduct market surveys and perform acquisition planning in order to promote and provide for full and open competition provided that the contracting officer determines that any resultant contract would not be inconsistent with applicable state law governing the provision of electric utility services. If competition for an entire utility service is not available, the market survey may be used to determine the availability of competitive sources for certain portions of the requirement. The scope of the term “entire utility service” includes the provision of the utility service capacity, energy, water, sewage, transportation, standby or back-up service, transmission and/or distribution service, quality assurance, system reliability, system operation and maintenance, metering, and billing.

(b) In performing a market survey (see 7.101), the contracting officer shall consider, in addition to alternative competitive sources, use of the following:

(1) GSA areawide contracts (see 41.204).

(2) Separate contracts (see 41.205).

(3) Interagency agreements (see 41.206).

(c) When a utility supplier refuses to execute a tendered contract as outlined in 41.201(b), the agency shall obtain a written definite and final refusal signed by a corporate officer or other responsible official of the supplier (or if unobtainable, document any unwritten refusal) and transmit this document, along with statements of the reasons for the refusal

and the record of negotiations, to GSA at the address specified at 41.301(a). Unless urgent and compelling circumstances exist, the contracting officer shall notify GSA prior to acquiring utility services without executing a tendered contract. After such notification, the agency may proceed with the acquisition and pay for the utility service under the provisions of 31 U.S.C. 1501(a)(8)—

(1) By issuing a purchase order in accordance with 13.302; or

(2) By ordering the necessary utility service and paying for it upon the presentation of an invoice, provided that a determination is approved by the head of the contracting activity that a written contract cannot be obtained and that the issuance of a purchase order is not feasible.

(d) When obtaining service without a bilateral written contract, the contracting officer shall establish a utility history file on each acquisition of utility service provided by a contractor. This utility history file shall contain, in addition to applicable documents in 4.803, the following information:

(1) The unsigned, tendered contract and any related letter of transmittal.

(2) The reasons stated by the utility supplier for not executing the tendered contract, the record of negotiations, and a written definite and final refusal by a corporate officer or other responsible official of the supplier (or if unobtainable, documentation of unwritten refusal).

(3) Services to be furnished and the estimated annual cost.

(4) Historical record of any applicable connection charges.

(5) Historical record of any applicable ongoing capital credits.

(6) A copy of the applicable rate schedule.

(e) If the Government obtains utility service pursuant to paragraph (c) of this section, the contracting officer shall, on an annual basis beginning from the date of final refusal, take action to execute a bilateral written contract. The contracting officer shall document the utility history file with the efforts made and the agency shall notify GSA, in writing, if the utility continues to refuse to execute a bilateral contract.

#### **41.203 GSA assistance.**

(a) GSA will, upon request, provide technical and acquisition assistance, or will delegate its contracting authority for the furnishing of the services described in this part for any Federal agency, mixed-ownership Government corporation, the District of Columbia, the Senate, the House of Representatives, or the Architect of the Capitol and any activity under the Architect's direction.

(b) Agencies, seeking assistance shall provide upon request by GSA the information listed in 41.301.

#### **41.204 GSA areawide contracts.**

(a) *Purpose.* GSA enters into areawide contracts (see 41.101) for use by Federal agencies. Areawide contracts provide a pre-established contractual vehicle for ordering utility services under the conditions in paragraph (c)(1) of this section.

(b) *Features.* (1) Areawide contracts generally provide for ordering utility service at rates approved and/or established by a regulatory body and published in a tariff or rate schedule. However, agencies are permitted to negotiate other rates and terms and conditions of service with the supplier (see paragraph (c) of this section). Rates other than those published may require the approval of the regulatory body.

(2) Areawide contracts are negotiated with utility service suppliers for the provision of service within the supplier's franchise territory or service area.

(3) Due to the regulated nature of the utility industry, as well as statutory restrictions associated with the procurement of electricity (see 41.201(d)), competition is typically not available within the entire geographical area covered by an areawide contract, although it may be available at specific locations within the utility's service area. When competing suppliers are available, the provisions of paragraph (c)(1) of this section apply.

(c) *Procedures for obtaining service.* (1) Any Federal agency having a requirement for utility services within an area covered by an areawide contract shall acquire services under that areawide contract unless—

(i) Service is available from more than one supplier, or

(ii) The head of the contracting activity or designee otherwise determines that use of the areawide contract is not advantageous to the Government. If service is available from more than one supplier, service shall be acquired using competitive acquisition procedures (see 41.202(a)). The determination required by paragraph (c)(1)(ii) of this section shall be documented in the contract file with an information copy furnished to GSA at the address in 41.301(a).

(2) Each areawide contract includes an authorization form for ordering service, connection, disconnection, or change in service. Upon execution of an authorization by the contracting officer and utility supplier, the utility supplier is required to furnish services, without further negotiation, at the current, applicable published or unpublished rates, unless other rates, and/or terms and conditions are separately negotiated by the Federal agency with the supplier.

(3) The contracting officer shall execute the Authorization, and attach it to a Standard Form (SF) 26, Award/Contract, along with any modifications such as connection charges, special facilities, or service arrangements. The contracting officer shall also attach any specific fiscal, operational, and administrative requirements of the agency, applicable rate schedules, technical information and detailed

maps or drawings of delivery points, details on Government ownership, maintenance, or repair of facilities, and other information deemed necessary to fully define the service conditions in the Authorization/contract.

(d) *List of areawide contracts.* A list of current GSA areawide contracts is available from the GSA office specified at 41.301(a). The list identifies the types of services and the geographic area served. A copy of the contract may also be obtained from this office.

(e) *Notification.* Agencies shall provide GSA at the address specified at 41.301(a) a copy of each SF 26 and executed Authorization issued under an areawide contract within 30 days after execution.

#### **41.205 Separate contracts.**

(a) In the absence of an areawide contract or interagency agreement (see 41.206), agencies shall acquire utility services by separate contract subject to this part, and subject to agency contracting authority.

(b) If an agency enters into a separate contract, the contracting officer shall document the contract file with the following information:

- (1) The number of available suppliers.
- (2) Any special equipment, service reliability, or facility requirements and related costs.
- (3) The utility supplier's rates, connection charges, and termination liability.
- (4) Total estimated contract value (including costs in paragraphs (b)(2) and (3) of this subsection).

(5) Any technical or special contract terms required.

(6) Any unusual characteristics of services required.

(7) The utility's wheeling or transportation policy for utility service.

(c) If requesting GSA assistance with a separate contract, the requesting agency shall furnish the technical and acquisition data specified in 41.205(b), 41.301, and such other data as GSA may deem necessary.

(d) A contract exceeding a 1-year period, but not exceeding ten years (except pursuant to 41.103), may be justified, and is usually required, where any of the following circumstances exist:

(1) The Government will obtain lower rates, larger discounts, or more favorable terms and conditions of service.

(2) A proposed connection charge, termination liability, or any other facilities charge to be paid by the Federal Government will be reduced or eliminated;

(3) The utility service supplier refuses to render the desired service except under a contract exceeding a 1-year period.

#### **41.206 Interagency agreements.**

Agencies shall use interagency agreements (*e.g.*, consolidated purchase, joint use, or cross-service agreements) when acquiring utility service or facilities from other Government agencies and shall comply with the policies and procedures at Subpart 17.5, Interagency Acquisitions under the Economy Act.

## Subpart 41.3—Requests for Assistance

### 41.301 Requirements.

(a) Requests for delegations of GSA contracting authority assistance with a proposed contract as provided in 41.203, and the submission of other information required by this part, shall be sent or submitted to the General Services Administration (GSA) region in which service is required. The names and locations of GSA regional offices are available from the:

Public Utilities Division (PPU)  
Public Buildings Service  
Washington DC 20405.

(b) Requests for contracting assistance for utility services shall be sent not later than 120 days prior to the date new services are required to commence or an existing contract will expire. Requests for assistance shall contain the following information:

(1) A technical description or specification of the type, quantity, and quality of service required, and a delivery schedule.

(2) A copy of any service proposal or proposed contract.

(3) Copies of all current published or unpublished rates of the utility supplier.

(4) Identification of any unusual factors affecting the acquisition.

(5) Identification of all available sources or methods of supply, an analysis of the cost-effectiveness of each, and a statement of the ability of each source to provide the required service, including the location and a description of each available supplier's facilities at the nearest point of service, and the cost of providing or obtaining necessary backup and other ancillary services.

(c) For new utility service requirements, the agency shall furnish the information in paragraph (a) of this section and the following as applicable:

(1) The date initial service is required.

(2) For the first 12 months of full service, estimated maximum demand, monthly consumption, other pertinent information (*e.g.*, demand side management, load or energy management, peak shaving, on site generation, load shaping), and annual cost of the service.

(3) Known or estimated time schedule for growth to ultimate requirements.

(4) Estimated ultimate maximum demand and ultimate monthly consumption.

(5) A simple schematic diagram or line drawing showing the meter locations, the location of the new utility facilities to be constructed on Federal property by the Federal agency, and any required new connection facilities on either side of the delivery point to be constructed by the utility supplier to provide the new services.

(6) Accounting and appropriation data to cover the required utility services and any connection charges required to be paid by the agency receiving such utility services.

(7) The following data concerning proposed facilities and related charges or costs:

(i) Proposed refundable or nonrefundable connection charge, termination liability, or other facilities charge to be paid by the agency, together with a description of the supplier's proposed facilities and estimated construction costs, and its rationale for the charge, *e.g.*, tariff provisions or policies.

(ii) A copy of the acquiring agency's estimate to make its own connection to the supplier's facilities through use of its own resources or by separate contract. When feasible, the acquiring agency shall provide its estimates to construct and operate its own utility facilities in lieu of participating in a cost-sharing construction program with the proposed utility supplier.

(d) For existing utility service, the agency shall furnish GSA the information in paragraph (b) of this section and the following, as applicable:

(1) A copy of the most recent 12-months' service invoices.

(2) A tabulation, by month, for the most recent 12 months, showing the actual utility demands, consumption, connection charges, fuel adjustment charges, and the average monthly cost per unit of consumption.

(3) An estimate, by month, for the next 12 months, showing the estimated maximum demands, monthly consumption, other pertinent information (*e.g.*, demand side management, load or energy management, peak shaving, on site generation, load shaping), and annual cost of the service.

(4) Accounting and appropriation data to cover the costs for the continuation of utility services.

(5) A statement noting whether the transformer, or other system components, on either side of the delivery point are owned by the Federal agency or the utility supplier, and if the metering is on the primary or secondary side of the transformer.

## **Subpart 41.4—Administration**

### **41.401 Monthly and annual review.**

Agencies shall review utility service invoices on a monthly basis and all utility accounts with annual values exceeding the simplified acquisition threshold on an annual basis. Annual reviews of accounts with annual values at or below the simplified acquisition threshold shall be conducted when deemed advantageous to the Government. The purpose of the monthly review is to ensure the accuracy of utility service invoices. The purpose of the annual review is to ensure that the utility supplier is furnishing the services to each facility under the utility's most economical, applicable rate and to examine competitive markets for more advantageous service offerings. The annual review shall be based upon the facility's usage, conditions and characteristics of service at each individual delivery point for the most recent 12 months. If a more advantageous rate is appropriate, the Federal agency shall request the supplier to make such rate change immediately.

### **41.402 Rate changes and regulatory intervention.**

(a) When a change is proposed to rates or terms and conditions of service to the Government, the agency shall promptly determine whether the proposed change is reasonable, justified, and not discriminatory.

(b) If a change is proposed to rates or terms and conditions of service that may be of interest to other Federal agencies, and intervention before a regulatory body is considered justified, the matter shall be referred to GSA. The agency may request from GSA a delegation of authority for the agency to intervene on behalf of the consumer interests of the Federal executive agencies (see 41.301).

(c) Pursuant to 52.241-7, Change in Rates or Terms and Conditions of Service for Regulated Services, if a regulatory body approves a rate change, any rate change shall be made a part of the contract by unilateral contract modification or otherwise documented in accordance with agency procedures. The approved applicable rate shall be effective on the date determined by the regulatory body and resulting rates and charges shall be paid promptly to avoid late payment provisions. Copies of the modification containing the approved rate change shall be sent to the agency's paying office or office responsible for verifying billed amounts (see 41.401).

(d) If the utility supplier is not regulated and the rates, terms, and conditions of service are subject to negotiation pursuant to the clause at 52.241-8, Change in Rates or Terms and Conditions of Service for Unregulated Services, any rate change shall be made a part of the contract by contract modification, with copies sent to the agency's paying office or office responsible for verifying billed amounts.

### Subpart 41.5—Solicitation Provision and Contract Clauses

#### 41.501 Solicitation provision and contract clauses.

(a) Because the terms and conditions under which utility suppliers furnish service may vary from area to area, the differences may influence the terms and conditions appropriate to a particular utility's contracting situation. To accommodate requirements that are peculiar to the contracting situation, this section prescribes provisions and clauses on a “substantially the same as” basis (see 52.101) which permits the contracting officer to prepare and utilize variations of the prescribed provision and clauses in accordance with agency procedures.

(b) The contracting officer shall insert in solicitations for utility services a provision substantially the same as the provision at 52.241-1, Electric Service Territory Compliance Representation, when proposals from alternative electric suppliers are sought.

(c) The contracting officer shall insert in solicitations and contracts for utility services clauses substantially the same as the clauses at—

- (1) 52.241-2, Order of Precedence—Utilities;
- (2) 52.241-3, Scope and Duration of Contract;
- (3) 52.241-4, Change in Class of Service;
- (4) 52.241-5, Contractor's Facilities; and
- (5) 52.241-6, Service Provisions.

(d) The contracting officer shall insert clauses substantially the same as the clauses listed below in solicitations and contracts under the prescribed conditions—

(1) 52.241-7, Change in Rates or Terms and Conditions of Service for Regulated Services, when the utility services are subject to a regulatory body. (Except for GSA areawide contracts, the contracting officer shall insert in the blank space provided in the clause the name of the contracting officer. For GSA areawide contracts, the contracting officer shall insert the following: “GSA and each areawide customer with annual billings that exceed \$250,000”).

(2) 52.241-8, Change in Rates or Terms and Conditions of Service for Unregulated Services, when the utility services are not subject to a regulatory body.

(3) 52.241-9, Connection Charge, when a refundable connection charge is required to be paid by the Government to compensate the contractor for furnishing additional facilities necessary to supply service. (Use Alternate I to the clause if a nonrefundable charge is to be paid. When conditions require the incorporation of a nonrecurring, nonrefundable service charge or a termination liability, see paragraphs (d)(6) and (d)(4) of this section).

(4) 52.241-10, Termination Liability, when payment is to be made to the contractor upon termination of service in conjunction with or in lieu of a connection charge upon completion of the facilities.

(5) 52.241-11, Multiple Service Locations (as defined in 41.101), when providing for possible alternative service locations, except under areawide contracts, is required.

(6) 52.241-12, Nonrefundable, Nonrecurring Service Charge, when the Government is required to pay a nonrefundable, nonrecurring membership fee, a charge for initiation of service, or a contribution for the cost of facilities construction. The Government may provide for inclusion of such agreed amount or fee as a part of the connection charge, a part of the initial payment for services, or as periodic payments to fulfill the Government's obligation.

(7) 52.241-13, Capital Credits, when the Federal Government is a member of a cooperative and is entitled to capital credits, consistent with the bylaws and governing documents of the cooperative.

(e) Depending on the conditions that are appropriate for each acquisition, the contracting officer shall also insert in solicitations and contracts for utility services the provisions and clauses prescribed elsewhere in the FAR.

---

**Subpart 41.6—Forms**

**41.601 Utility services forms.**

(a) If acquiring utility services under other than an areawide contract, a purchase order or an interagency agreement, the Standard Form (SF) 33, Solicitation, Offer and

Award; SF 26, Award/Contract; or SF 1447, Solicitation/Contract, shall be used.

(b) The contracting officer shall incorporate the applicable rate schedule in each contract, purchase order or modification.

**Subpart 41.7—Formats**

**41.701 Formats for utility service specifications.**

(a) The following specification formats for use in acquiring utility services are available from the address specified at 41.301(a) and may be used and modified at the agency's discretion:

- (1) Electric service.
- (2) Water service.
- (3) Steam service.
- (4) Sewage service.
- (5) Natural gas service.

(b) Contracting officers may modify the specification format referenced in paragraph (a) of this section and attach technical items, details on Government ownership of facilities and maintenance or repair obligations, maps or drawings of deliv-

ery points, and other information deemed necessary to fully define the service conditions.

(c) The specifications and attachments (see paragraph (b) of this section) shall be inserted in Section C of the utility service solicitation and contract.

**41.702 Formats for annual utility service review.**

(a) Formats for use in conducting annual reviews of the following utility services are available from the address specified at 41.301(a) and may be used at the agency's discretion:

- (1) Electric service.
- (2) Gas service.
- (3) Water and sewage service.

(b) Contracting officers may modify the annual utility service review format as necessary to fully cover the service used.

**Subpart 42.16—Small Business Contract Administration**

- 42.1601 General.

**Subpart 42.17—Forward Pricing Rate Agreements**

- 42.1701 Procedures.

**42.000 Scope of part.**

This part prescribes policies and procedures for assigning and performing contract administration and contract audit services.

**42.001 [Reserved]****42.002 Interagency agreements.**

(a) Agencies shall avoid duplicate audits, reviews, inspections, and examinations of contractors or subcontractors, by more than one agency, through the use of interagency agreements.

(b) Subject to the fiscal regulations of the agencies and applicable interagency agreements, the requesting agency shall reimburse the servicing agency for rendered services in accordance with the Economy Act (31 U.S.C. 1535).

(c) When an interagency agreement is established, the agencies are encouraged to consider establishing procedures for the resolution of issues that may arise under the agreement.

**42.003 Cognizant Federal agency.**

(a) For contractors other than educational institutions and nonprofit organizations, the cognizant Federal agency normally will be the agency with the largest dollar amount of negotiated contracts, including options. For educational institutions and nonprofit organizations, the cognizant Federal agency is established according to Subsection G.11 of OMB Circular A-21, Cost Principles for Educational Institutions, and Attachment A, Subsection E.2, of OMB Circular A-122, Cost Principles for Nonprofit Organizations, respectively.

(b) Once a Federal agency assumes cognizance for a contractor, it should remain cognizant for at least 5 years to ensure continuity and ease of administration. If, at the end of the 5-year period, another agency has the largest dollar amount of negotiated contracts, including options, the two agencies shall coordinate and determine which will assume cognizance. However, if circumstances warrant it and the affected agencies agree, cognizance may transfer prior to the expiration of the 5-year period.

**Subpart 42.1—Contract Audit Services****42.101 Contract audit responsibilities.**

(a) The auditor is responsible for—

(1) Submitting information and advice to the requesting activity, based on the auditor's analysis of the contractor's financial and accounting records or other related data as to the acceptability of the contractor's incurred and estimated costs;

(2) Reviewing the financial and accounting aspects of the contractor's cost control systems; and

(3) Performing other analyses and reviews that require access to the contractor's financial and accounting records supporting proposed and incurred costs.

(b) Normally, for contractors other than educational institutions and nonprofit organizations, the Defense Contract Audit Agency (DCAA) is the responsible Government audit agency. However, there may be instances where an agency other than DCAA desires cognizance of a particular contractor. In those instances, the two agencies shall agree on the most efficient and economical approach to meet contract audit requirements. For educational institutions and nonprofit organizations, audit cognizance will be determined according to the provisions of OMB Circular A-133, Audits of Institutions of Higher Education and Other Non-Profit Institutions.

**42.102 Assignment of contract audit services.**

(a) As provided in agency procedures or interagency agreements, contracting officers may request audit services directly from the responsible audit agency cited in the Directory of Federal Contract Audit Offices. The audit request should include a suspense date and should identify any information needed by the contracting officer.

(b) The responsible audit agency may decline requests for services on a case-by-case basis, if resources of the audit agency are inadequate to accomplish the tasks. Declinations shall be in writing.

**42.103 Contract audit services directory.**

(a) DCAA maintains and distributes the Directory of Federal Contract Audit Offices. The directory identifies cognizant audit offices and the contractors over which they have cognizance. Changes to audit cognizance shall be provided to DCAA so that the directory can be updated.

(b) Agencies may obtain a copy of the directory or information concerning cognizant audit offices by contacting the—

Defense Contract Audit Agency

Suite 2135  
Fort Belvoir, VA 22060-6219.

## Subpart 42.2—Contract Administration Services

### 42.201 Contract administration responsibilities.

(a) For each contract assigned for administration, the contract administration office (CAO) (see 2.101) shall—

(1) Perform the functions listed in 42.302(a) to the extent that they apply to the contract, except for the functions specifically withheld;

(2) Perform the functions listed in 42.302(b) only when and to the extent specifically authorized by the contracting officer; and

(3) Request supporting contract administration under 42.202(e) and (f) when it is required.

(b) The Defense Contract Management Agency and other agencies offer a wide variety of contract administration and support services.

### 42.202 Assignment of contract administration.

(a) *Delegating functions.* As provided in agency procedures, contracting officers may delegate contract administration or specialized support services, either through interagency agreements or by direct request to the cognizant CAO listed in the Federal Directory of Contract Administration Services Components. The delegation should include—

(1) The name and address of the CAO designated to perform the administration (this information also shall be entered in the contract);

(2) Any special instructions, including any functions withheld or any specific authorization to perform functions listed in 42.302(b);

(3) A copy of the contract to be administered; and

(4) Copies of all contracting agency regulations or directives that are—

(i) Incorporated into the contract by reference; or

(ii) Otherwise necessary to administer the contract, unless copies have been provided previously.

(b) *Special instructions.* As necessary, the contracting officer also shall advise the contractor (and other activities as appropriate) of any functions withheld from or additional functions delegated to the CAO.

(c) *Delegating additional functions.* For individual contracts or groups of contracts, the contracting office may delegate to the CAO functions not listed in 42.302, provided that—

(1) Prior coordination with the CAO ensures the availability of required resources;

(2) In the case of authority to issue orders under provisioning procedures in existing contracts and under basic ordering agreements for items and services identified in the schedule, the head of the contracting activity or designee approves the delegation; and

(3) The delegation does not require the CAO to undertake new or follow-on acquisitions.

(d) *Rescinding functions.* The contracting officer at the requesting agency may rescind or recall a delegation to administer a contract or perform a contract administration function, except for functions pertaining to cost accounting standards and negotiation of forward pricing rates and indirect cost rates (also see 42.003). The requesting agency must coordinate with the ACO to establish a reasonable transition period prior to rescinding or recalling the delegation.

(e) *Secondary delegations of contract administration.* (1) A CAO that has been delegated administration of a contract under paragraph (a) or (c) of this section, or a contracting office retaining contract administration, may request supporting contract administration from the CAO cognizant of the contractor location where performance of specific contract administration functions is required. The request shall—

(i) Be in writing;

(ii) Clearly state the specific functions to be performed; and

(iii) Be accompanied by a copy of pertinent contractual and other necessary documents.

(2) The prime contractor is responsible for managing its subcontracts. The CAO's review of subcontracts is normally limited to evaluating the prime contractor's management of the subcontracts (see Part 44). Therefore, supporting contract administration shall not be used for subcontracts unless—

(i) The Government otherwise would incur undue cost;

(ii) Successful completion of the prime contract is threatened; or

(iii) It is authorized under paragraph (f) of this section or elsewhere in this regulation.

(f) *Special surveillance.* For major system acquisitions (see Part 34), the contracting officer may designate certain high risk or critical subsystems or components for special surveillance in addition to requesting supporting contract administration. This surveillance shall be conducted in a manner consistent with the policy of requesting that the cognizant CAO perform contract administration functions at a contractor's facility (see 42.002).

(g) *Refusing delegation of contract administration.* An agency may decline a request for contract administration services on a case-by-case basis if resources of the agency are inadequate to accomplish the tasks. Declinations shall be in writing.

### 42.203 Contract administration services directory.

The Defense Contract Management Agency (DCMA) maintains and distributes the Federal Directory of Contract

Administration Services Components. The directory lists the names and telephone numbers of those DCMA and other agency offices that offer contract administration services within designated geographic areas and at specified contractor plants. Federal agencies may obtain a free copy of the directory on disk by writing to—

Defense Contract Management Agency  
ATTN: DCMA-FBP  
8725 John J. Kingman Road  
Fort Belvoir, VA 22060-6221,

or access it on the Internet at <http://www.dcmil.com/casbook/casbook.htm>.

## Subpart 42.3—Contract Administration Office Functions

### 42.301 General.

When a contract is assigned for administration under Subpart 42.2, the contract administration office (CAO) shall perform contract administration functions in accordance with 48 CFR Chapter 1, the contract terms, and, unless otherwise agreed to in an interagency agreement (see 42.002), the applicable regulations of the servicing agency.

### 42.302 Contract administration functions.

(a) The contracting officer normally delegates the following contract administration functions to a CAO. The contracting officer may retain any of these functions, except those in paragraphs (a)(5), (a)(9), and (a)(11) of this section, unless the cognizant Federal agency (see 2.101) has designated the contracting officer to perform these functions.

- (1) Review the contractor's compensation structure.
- (2) Review the contractor's insurance plans.
- (3) Conduct post-award orientation conferences.
- (4) Review and evaluate contractors' proposals under Subpart 15.4 and, when negotiation will be accomplished by the contracting officer, furnish comments and recommendations to that officer.
- (5) Negotiate forward pricing rate agreements (see 15.407-3).
- (6) Negotiate advance agreements applicable to treatment of costs under contracts currently assigned for administration (see 31.109).
- (7) Determine the allowability of costs suspended or disapproved as required (see Subpart 42.8), direct the suspension or disapproval of costs when there is reason to believe they should be suspended or disapproved, and approve final vouchers.
- (8) Issue Notices of Intent to Disallow or not Recognize Costs (see Subpart 42.8).
- (9) Establish final indirect cost rates and billing rates for those contractors meeting the criteria for contracting officer determination in Subpart 42.7.
- (10) Attempt to resolve issues in controversy, using ADR procedures when appropriate (see Subpart 33.2); prepare findings of fact and issue decisions under the Disputes clause on matters in which the administrative contracting officer (ACO) has the authority to take definitive action.
- (11) In connection with Cost Accounting Standards (see 30.601 and 48 CFR Chapter 99 (FAR Appendix))—

(i) Determine the adequacy of the contractor's disclosure statements;

(ii) Determine whether disclosure statements are in compliance with Cost Accounting Standards and Part 31;

(iii) Determine the contractor's compliance with Cost Accounting Standards and disclosure statements, if applicable; and

(iv) Negotiate price adjustments and execute supplemental agreements under the Cost Accounting Standards clauses at 52.230-2, 52.230-3, 52.230-4, 52.230-5, and 52.230-6.

(12) Review and approve or disapprove the contractor's requests for payments under the progress payments or performance-based payments clauses.

(13) Make payments on assigned contracts when prescribed in agency acquisition regulations.

(14) Manage special bank accounts.

(15) Ensure timely notification by the contractor of any anticipated overrun or underrun of the estimated cost under cost-reimbursement contracts.

(16) Monitor the contractor's financial condition and advise the contracting officer when it jeopardizes contract performance.

(17) Analyze quarterly limitation on payments statements and recover overpayments from the contractor.

(18) Issue tax exemption forms.

(19) Ensure processing and execution of duty-free entry certificates.

(20) For classified contracts, administer those portions of the applicable industrial security program delegated to the CAO (see Subpart 4.4).

(21) Issue work requests under maintenance, overhaul, and modification contracts.

(22) Negotiate prices and execute supplemental agreements for spare parts and other items selected through provisioning procedures when prescribed by agency acquisition regulations.

(23) Negotiate and execute contractual documents for settlement of partial and complete contract terminations for convenience, except as otherwise prescribed by Part 49.

(24) Negotiate and execute contractual documents settling cancellation charges under multiyear contracts.

(25) Process and execute novation and change of name agreements under Subpart 42.12.

(26) Perform property administration (see Part 45).

(27) Approve contractor acquisition or fabrication of special test equipment under the clause at 52.245-18, Special Test Equipment.

(28) Perform necessary screening, redistribution, and disposal of contractor inventory.

(29) Issue contract modifications requiring the contractor to provide packing, crating, and handling services on excess Government property. When the ACO determines it to be in the Government's interests, the services may be secured from a contractor other than the contractor in possession of the property.

(30) In facilities contracts—

(i) Evaluate the contractor's requests for facilities and for changes to existing facilities and provide appropriate recommendations to the contracting officer;

(ii) Ensure required screening of facility items before acquisition by the contractor;

(iii) Approve use of facilities on a noninterference basis in accordance with the clause at 52.245-9, Use and Charges;

(iv) Ensure payment by the contractor of any rental due; and

(v) Ensure reporting of items no longer needed for Government production.

(31) Perform production support, surveillance, and status reporting, including timely reporting of potential and actual slippages in contract delivery schedules.

(32) Perform preaward surveys (see Subpart 9.1).

(33) Advise and assist contractors regarding their priorities and allocations responsibilities and assist contracting offices in processing requests for special assistance and for priority ratings for privately owned capital equipment.

(34) Monitor contractor industrial labor relations matters under the contract; apprise the contracting officer and, if designated by the agency, the cognizant labor relations advisor, of actual or potential labor disputes; and coordinate the removal of urgently required material from the strikebound contractor's plant upon instruction from, and authorization of, the contracting officer.

(35) Perform traffic management services, including issuance and control of Government bills of lading and other transportation documents.

(36) Review the adequacy of the contractor's traffic operations.

(37) Review and evaluate preservation, packaging, and packing.

(38) Ensure contractor compliance with contractual quality assurance requirements (see Part 46).

(39) Ensure contractor compliance with contractual safety requirements.

(40) Perform engineering surveillance to assess compliance with contractual terms for schedule, cost, and technical performance in the areas of design, development, and production.

(41) Evaluate for adequacy and perform surveillance of contractor engineering efforts and management systems that relate to design, development, production, engineering changes, subcontractors, tests, management of engineering resources, reliability and maintainability, data control systems, configuration management, and independent research and development.

(42) Review and evaluate for technical adequacy the contractor's logistics support, maintenance, and modification programs.

(43) Report to the contracting office any inadequacies noted in specifications.

(44) Perform engineering analyses of contractor cost proposals.

(45) Review and analyze contractor-proposed engineering and design studies and submit comments and recommendations to the contracting office, as required.

(46) Review engineering change proposals for proper classification, and when required, for need, technical adequacy of design, producibility, and impact on quality, reliability, schedule, and cost; submit comments to the contracting office.

(47) Assist in evaluating and make recommendations for acceptance or rejection of waivers and deviations.

(48) Evaluate and monitor the contractor's procedures for complying with procedures regarding restrictive markings on data.

(49) Monitor the contractor's value engineering program.

(50) Review, approve or disapprove, and maintain surveillance of the contractor's purchasing system (see Part 44).

(51) Consent to the placement of subcontracts.

(52) Review, evaluate, and approve plant or division-wide small, small disadvantaged and women-owned small business master subcontracting plans.

(53) Obtain the contractor's currently approved company- or division-wide plans for small, small disadvantaged and women-owned small business subcontracting for its commercial products, or, if there is no currently approved plan, assist the contracting officer in evaluating the plans for those products.

(54) Assist the contracting officer, upon request, in evaluating an offeror's proposed small, small disadvantaged and women-owned small business subcontracting plans, including documentation of compliance with similar plans under prior contracts.

(55) By periodic surveillance, ensure the contractor's compliance with small, small disadvantaged and women-owned small business subcontracting plans and any labor surplus area contractual requirements; maintain documentation of the contractor's performance under and compliance with these plans and requirements; and provide advice and assistance to the firms involved, as appropriate.

(56) Maintain surveillance of flight operations.

(57) Assign and perform supporting contract administration.

(58) Ensure timely submission of required reports.

(59) Issue administrative changes, correcting errors or omissions in typing, contractor address, facility or activity code, remittance address, computations which do not require additional contract funds, and other such changes (see 43.101).

(60) Cause release of shipments from contractor's plants according to the shipping instructions. When applicable, the order of assigned priority shall be followed; shipments within the same priority shall be determined by date of the instruction.

(61) Obtain contractor proposals for any contract price adjustments resulting from amended shipping instructions. Review all amended shipping instructions on a periodic, consolidated basis to ensure that adjustments are timely made. Except when the ACO has settlement authority, the ACO shall forward the proposal to the contracting officer for contract modification. The ACO shall not delay shipments pending completion and formalization of negotiations of revised shipping instructions.

(62) Negotiate and/or execute supplemental agreements, as required, making changes in packaging subcontractors or contract shipping points.

(63) Cancel unilateral purchase orders when notified of nonacceptance by the contractor. The CAO shall notify the contracting officer when the purchase order is canceled.

(64) Negotiate and execute one-time supplemental agreements providing for the extension of contract delivery schedules up to 90 days on contracts with an assigned Criticality Designator of C (see 42.1105). Notification that the contract delivery schedule is being extended shall be provided to the contracting office. Subsequent extensions on any individual contract shall be authorized only upon concurrence of the contracting office.

(65) Accomplish administrative closeout procedures (see 4.804-5).

(66) Determine that the contractor has a drug-free workplace program and drug-free awareness program (see Subpart 23.5).

(67) Support the program, product, and project offices regarding program reviews, program status, program performance and actual or anticipated program problems.

(68) Monitor the contractor's environmental practices for adverse impact on contract performance or contract cost, and for compliance with environmental requirements specified in the contract. ACO responsibilities include—

(i) Requesting environmental technical assistance, if needed;

(ii) Monitoring contractor compliance with specifications requiring the use of environmentally preferable products, energy-efficient products, and materials or delivery of end products with specified recovered material content. This must occur as part of the quality assurance procedures set forth in Part 46; and

(iii) As required in the contract, ensuring that the contractor complies with the reporting requirements relating to recovered material content utilized in contract performance (see Subpart 23.4).

(69) Administer commercial financing provisions and monitor contractor security to ensure its continued adequacy to cover outstanding payments, when on-site review is required.

(70) Deobligate excess funds after final price determination.

(b) The CAO shall perform the following functions only when and to the extent specifically authorized by the contracting office:

(1) Negotiate or negotiate and execute supplemental agreements incorporating contractor proposals resulting from change orders issued under the Changes clause. Before completing negotiations, coordinate any delivery schedule change with the contracting office.

(2) Negotiate prices and execute priced exhibits for unpriced orders issued by the contracting officer under basic ordering agreements.

(3) Negotiate or negotiate and execute supplemental agreements changing contract delivery schedules.

(4) Negotiate or negotiate and execute supplemental agreements providing for the deobligation of unexpended dollar balances considered excess to known contract requirements.

(5) Issue amended shipping instructions and, when necessary, negotiate and execute supplemental agreements incorporating contractor proposals resulting from these instructions.

(6) Negotiate changes to interim billing prices.

(7) Negotiate and definitize adjustments to contract prices resulting from exercise of an economic price adjustment clause (see Subpart 16.2).

(8) Issue change orders and negotiate and execute resulting supplemental agreements under contracts for ship construction, conversion, and repair.

(9) Execute supplemental agreements on firm-fixed-price supply contracts to reduce required contract line item quantities and deobligate excess funds when notified by the contractor of an inconsequential delivery shortage, and it is determined that such action is in the best interests of the Government, notwithstanding the default provisions of the contract. Such action will be taken only upon the written request of the contractor and, in no event, shall the total downward contract price adjustment resulting from an inconsequential delivery shortage exceed \$250.00 or 5 percent of the contract price, whichever is less.

(10) Execute supplemental agreements to permit a change in place of inspection at origin specified in firm-fixed-price supply contracts awarded to nonmanufacturers, as deemed necessary to protect the Government's interests.

(11) Prepare evaluations of contractor performance in accordance with Subpart 42.15.

(c) Any additional contract administration functions not listed in 42.302(a) and (b), or not otherwise delegated, remain the responsibility of the contracting office.

## Subpart 42.4—Correspondence and Visits

### 42.401 Contract correspondence.

(a) The contracting officer (or other contracting agency personnel) normally shall (1) forward correspondence relating to assigned contract administration functions through the cognizant contract administration office (CAO) to the contractor, and (2) provide a copy for the CAO's file. When urgency requires sending such correspondence directly to the contractor, a copy shall be sent concurrently to the CAO.

(b) The CAO shall send the contracting office a copy of pertinent correspondence conducted between the CAO and the contractor.

### 42.402 Visits to contractors' facilities.

(a) Government personnel planning to visit a contractor's facility in connection with one or more Government contracts shall provide the cognizant CAO with the following information, sufficiently in advance to permit the CAO to make necessary arrangements. Such notification is for the purpose of eliminating duplicative reviews, requests, investigations, and audits relating to the contract administration functions in subpart 42.3 delegated to CAO's and shall, as a minimum, include the following (see also paragraph (b) of this section):

- (1) Visitors' names, official positions, and security clearances.
- (2) Date and duration of visit.
- (3) Name and address of contractor and personnel to be contacted.

(4) Contract number, program involved, and purpose of visit.

(5) If desired, visitors to a contractor's plant may request that a representative of the CAO accompany them. In any event, the CAO has final authority to decide whether a representative shall accompany a visitor.

(b) If the visit will result in reviewing, auditing, or obtaining any information from the contractor relating to contract administration functions, the prospective visitor shall identify the information in sufficient detail so as to permit the CAO, after consultation with the contractor and the cognizant audit office, to determine whether such information, adequate to fulfill the requirement, has recently been reviewed by or is available within the Government. If so, the CAO will discourage the visit and refer the prospective visitor to the Government office where such information is located. Where the office is the CAO, such information will be immediately forwarded or otherwise made available to the requestor.

(c) Visitors shall fully inform the CAO of any agreements reached with the contractor or other results of the visit that may affect the CAO.

### 42.403 Evaluation of contract administration offices.

Onsite inspections or evaluations of the performance of the assigned functions of a contract administration office shall be accomplished only by or under the direction of the agency of which that office is a part.

## Subpart 42.5—Postaward Orientation

### 42.500 Scope of subpart.

This subpart prescribes policies and procedures for the postaward orientation of contractors and subcontractors through—

- (a) A conference; or
- (b) A letter or other form of written communication.

### 42.501 General.

(a) A postaward orientation aids both Government and contractor personnel to (1) achieve a clear and mutual understanding of all contract requirements, and (2) identify and resolve potential problems. However, it is not a substitute for the contractor's fully understanding the work requirements at the time offers are submitted, nor is it to be used to alter the final agreement arrived at in any negotiations leading to contract award.

(b) Postaward orientation is encouraged to assist small business, small disadvantaged and women-owned small business concerns (see Part 19).

(c) While cognizant Government or contractor personnel may request the contracting officer to arrange for orientation, it is up to the contracting officer to decide whether a postaward orientation in any form is necessary.

(d) Maximum benefits will be realized when orientation is conducted promptly after award.

### 42.502 Selecting contracts for postaward orientation.

When deciding whether postaward orientation is necessary and, if so, what form it shall take, the contracting officer shall consider, as a minimum, the—

- (a) Nature and extent of the preaward survey and any other prior discussions with the contractor;
- (b) Type, value, and complexity of the contract;
- (c) Complexity and acquisition history of the product or service;
- (d) Requirements for spare parts and related equipment;
- (e) Urgency of the delivery schedule and relationship of the product or service to critical programs;
- (f) Length of the planned production cycle;
- (g) Extent of subcontracting;
- (h) Contractor's performance history and experience with the product or service;
- (i) Contractor's status, if any, as a small business, small disadvantaged or women-owned small business concern;
- (j) Contractor's performance history with small, small disadvantaged and women-owned small business subcontracting programs;
- (k) Safety precautions required for hazardous materials or operations; and
- (l) Complex financing arrangements, such as progress payments, advance payments, or guaranteed loans.

### 42.503 Postaward conferences.

#### 42.503-1 Postaward conference arrangements.

(a) The contracting officer who decides that a conference is needed is responsible for—

- (1) Establishing the time and place of the conference;
- (2) Preparing the agenda, when necessary;
- (3) Notifying appropriate Government representatives (*e.g.*, contracting/contract administration office) and the contractor;
- (4) Designating or acting as the chairperson;
- (5) Conducting a preliminary meeting of Government personnel; and
- (6) Preparing a summary report of the conference.

(b) When the contracting office initiates a conference, the arrangements may be made by that office or, at its request, by the contract administration office.

#### 42.503-2 Postaward conference procedure.

The chairperson of the conference shall conduct the meeting. Unless a contract change is contemplated, the chairperson shall emphasize that it is not the purpose of the meeting to change the contract. The contracting officer may make commitments or give directions within the scope of the contracting officer's authority and shall put in writing and sign any commitment or direction, whether or not it changes the contract. Any change to the contract that results from the postaward conference shall be made only by a contract modification referencing the applicable terms of the contract. Participants without authority to bind the Government shall not take action that in any way alters the contract. The chairperson shall include in the summary report (see 42.503-3) all information and guidance provided to the contractor.

#### 42.503-3 Postaward conference report.

The chairperson shall prepare and sign a report of the postaward conference. The report shall cover all items discussed, including areas requiring resolution, controversial matters, the names of the participants assigned responsibility for further actions, and the due dates for the actions. The chairperson shall furnish copies of the report to the contracting office, the contract administration office, the contractor, and others who require the information.

### 42.504 Postaward letters.

In some circumstances, a letter or other written form of communication to the contractor may be adequate postaward orientation (in lieu of a conference). The letter should identify the Government representative responsible for administering the contract and cite any unusual or significant contract requirements. The rules on changes to the contract in 42.503-2 also apply here.

**42.505 Postaward subcontractor conferences.**

(a) The prime contractor is generally responsible for conducting postaward conferences with subcontractors. However, the prime contractor may invite Government representatives to a conference with subcontractors, or the Government may request that the prime contractor initiate a conference with subcontractors. The prime contractor should ensure that representatives from involved contract administration offices are invited.

(b) Government representatives—

(1) Must recognize the lack of privity of contract between the Government and subcontractors;

(2) Shall not take action that is inconsistent with or alters subcontracts; and

(3) Shall ensure that any changes in direction or commitment affecting the prime contract or contractor resulting from a subcontractor conference are made by written direction of the contracting officer to the prime contractor in the same manner as described in 42.503-2.

## Subpart 42.6—Corporate Administrative Contracting Officer

### 42.601 General.

Contractors with more than one operational location (*e.g.*, division, plant, or subsidiary) often have corporate-wide policies, procedures, and activities requiring Government review and approval and affecting the work of more than one administrative contracting officer (ACO). In these circumstances, effective and consistent contract administration may require the assignment of a corporate administrative contracting officer (CACO) to deal with corporate management and to perform selected contract administration functions on a corporate-wide basis.

### 42.602 Assignment and location.

(a) A CACO may be assigned only when (1) the contractor has at least two locations with resident ACO's or (2) the need for a CACO is approved by the agency head or designee (for this purpose, a nonresident ACO will be considered as resident if at least 75 percent of the ACO's effort is devoted to a single contractor). One of the resident ACO's may be designated to perform the CACO functions, or a full-time CACO may be assigned. In determining the location of the CACO, the responsible agency shall take into account such factors as the location(s) of the corporate records, corporate office, major plant, cognizant government auditor, and overall cost effectiveness.

(b) A decision to initiate or discontinue a CACO assignment should be based on such factors as the—

- (1) Benefits of coordination and liaison at the corporate level;
- (2) Volume of Government sales;
- (3) Degree of control exercised by the contractor's corporate office over Government-oriented lower-tier operating elements; and
- (4) Impact of corporate policies and procedures on those elements.

(c) Responsibility for assigning a CACO shall be determined as follows:

(1) When all locations of a corporate entity are under the contract administration cognizance of a single agency, that agency is responsible.

(2) When the locations are under the contract administration cognizance of more than one agency, the agencies concerned shall agree on the responsible agency (normally on the basis of the agency with the largest dollar balance, including options, of affected contracts). In such cases, agencies may also consider geographic location.

(d) The directory of contract administration services components referenced in 42.203 includes a listing of CACO's and the contractors for which they are assigned responsibility.

### 42.603 Responsibilities.

(a) The CACO shall perform, on a corporate-wide basis, the contract administration functions as designated by the responsible agency. Typical CACO functions include—

(1) The determination of final indirect cost rates for cost-reimbursement contracts;

(2) Establishment of advance agreements or recommendations on corporate/ home office expense allocations; and

(3) Administration of Cost Accounting Standards (CAS) applicable to corporate-level and corporate-directed accounting practices.

(b) The CACO shall—

(1) Fully utilize the responsible contract audit agency financial and advisory accounting services, including—

(i) Advice regarding the acceptability of corporate-wide policies; and

(ii) Advisory audit reports;

(2) Keep cognizant ACO's and auditors informed of important matters under consideration and determinations made; and

(3) Solicit their advice and participation as appropriate.

## Subpart 42.7—Indirect Cost Rates

### 42.700 Scope of subpart.

This subpart prescribes policies and procedures for establishing—

- (a) Billing rates; and
- (b) Final indirect cost rates.

### 42.701 Definition.

“Billing rate,” as used in this subpart, means an indirect cost rate—

- (1) Established temporarily for interim reimbursement of incurred indirect costs; and
- (2) Adjusted as necessary pending establishment of final indirect cost rates.

### 42.702 Purpose.

(a) Establishing final indirect cost rates under this subpart provides—

- (1) Uniformity of approach with a contractor when more than one contract or agency is involved;
- (2) Economy of administration; and
- (3) Timely settlement under cost-reimbursement contracts.

(b) Establishing billing rates provides a method for interim reimbursement of indirect costs at estimated rates subject to adjustment during contract performance and at the time the final indirect cost rates are established.

### 42.703 General.

#### 42.703-1 Policy.

(a) A single agency (see 42.705-1) shall be responsible for establishing final indirect cost rates for each business unit. These rates shall be binding on all agencies and their contracting offices, unless otherwise specifically prohibited by statute. An agency shall not perform an audit of indirect cost rates when the contracting officer determines that the objectives of the audit can reasonably be met by accepting the results of an audit that was conducted by any other department or agency of the Federal Government (10 U.S.C. 2313(d) and 41 U.S.C. 254d(d)).

(b) Billing rates and final indirect cost rates shall be used in reimbursing indirect costs under cost-reimbursement contracts and in determining progress payments under fixed-price contracts.

(c) To ensure compliance with 10 U.S.C. 2324(a) and 41 U.S.C. 256(a)—

(1) Final indirect cost rates shall be used for contract closeout for a business unit, unless the quick-closeout procedure in 42.708 is used. These final rates shall be binding for all cost-reimbursement contracts at the business unit, subject to any specific limitation in a contract or advance agreement; and

(2) Established final indirect cost rates shall be used in negotiating the final price of fixed-price incentive and fixed-price redeterminable contracts and in other situations requiring that indirect costs be settled before contract prices are established, unless the quick-closeout procedure in 42.708 is used.

#### 42.703-2 Certificate of indirect costs.

(a) *General.* In accordance with 10 U.S.C. 2324(h) and 41 U.S.C. 256(h), a proposal shall not be accepted and no agreement shall be made to establish final indirect cost rates unless the costs have been certified by the contractor.

(b) *Waiver of certification.* (1) The agency head, or designee, may waive the certification requirement when—

(i) It is determined to be in the interest of the United States; and

(ii) The reasons for the determination are put in writing and made available to the public.

(2) A waiver may be appropriate for a contract with—

(i) A foreign government or international organization, such as a subsidiary body of the North Atlantic Treaty Organization;

(ii) A state or local government subject to OMB Circular A-87;

(iii) An educational institution subject to OMB Circular A-21; and

(iv) A nonprofit organization subject to OMB Circular A-122.

(c) *Failure to certify.* (1) If the contractor has not certified its proposal for final indirect cost rates and a waiver is not appropriate, the contracting officer may unilaterally establish the rates.

(2) Rates established unilaterally should be—

(i) Based on audited historical data or other available data as long as unallowable costs are excluded; and

(ii) Set low enough to ensure that unallowable costs will not be reimbursed.

(d) *False certification.* The contracting officer should consult with legal counsel to determine appropriate action when a contractor’s certificate of final indirect costs is thought to be false.

(e) *Penalties for unallowable costs.* 10 U.S.C. 2324(a) through (d) and 41 U.S.C. 256(a) through (d) prescribe penalties for submission of unallowable costs in final indirect cost rate proposals (see 42.709 for penalties and contracting officer responsibilities).

(f) *Contract clause.* (1) Except as provided in paragraph (f)(2) of this subsection, the clause at 52.242-4, Certification of Final Indirect Costs, shall be incorporated into all solicitations and contracts which provide for establishment of final indirect cost rates.

(2) The Department of Energy may provide an alternate clause in its agency supplement for its Management and Operating contracts.

#### 42.704 Billing rates.

(a) The contracting officer (or cognizant Federal agency official) or auditor responsible under 42.705 for establishing the final indirect cost rates also shall be responsible for determining the billing rates.

(b) The contracting officer (or cognizant Federal agency official) or auditor shall establish billing rates on the basis of information resulting from recent review, previous rate audits or experience, or similar reliable data or experience of other contracting activities. In establishing billing rates, the contracting officer (or cognizant Federal agency official) or auditor should ensure that the billing rates are as close as possible to the final indirect cost rates anticipated for the contractor's fiscal period, as adjusted for any unallowable costs. When the contracting officer (or cognizant Federal agency official) or auditor determines that the dollar value of contracts requiring use of billing rates does not warrant submission of a detailed billing rate proposal, the billing rates may be established by making appropriate adjustments from the prior year's indirect cost experience to eliminate unallowable and nonrecurring costs and to reflect new or changed conditions.

(c) Once established, billing rates may be prospectively or retroactively revised by mutual agreement of the contracting officer (or cognizant Federal agency official) or auditor and the contractor at either party's request, to prevent substantial overpayment or underpayment. When agreement cannot be reached, the billing rates may be unilaterally determined by the contracting officer (or cognizant Federal agency official).

(d) The elements of indirect cost and the base or bases used in computing billing rates shall not be construed as determinative of the indirect costs to be distributed or of the bases of distribution to be used in the final settlement.

(e) When the contractor provides to the cognizant contracting officer the certified final indirect cost rate proposal in accordance with 42.705-1(b) or 42.705-2(b), the contractor and the Government may mutually agree to revise billing rates to reflect the proposed indirect cost rates, as approved by the Government to reflect historically disallowed amounts from prior years' audits, until the proposal has been audited and settled. The historical decrement will be determined by either the cognizant contracting officer (42.705-1(b)) or the cognizant auditor (42.705-2(b)).

#### 42.705 Final indirect cost rates.

(a) Final indirect cost rates shall be established on the basis of—

(1) Contracting officer determination procedure (see 42.705-1), or

(2) Auditor determination procedure (see 42.705-2).

(b) Within 120 days (or longer period, if approved in writing by the contracting officer,) after settlement of the final annual indirect cost rates for all years of a physically complete contract, the contractor must submit a completion invoice or voucher reflecting the settled amounts and rates. To determine whether a period longer than 120 days is appropriate, the contracting officer should consider whether there are extenuating circumstances, such as the following:

(1) Pending closeout of subcontracts awaiting Government audit.

(2) Pending contractor, subcontractor, or Government claims.

(3) Delays in the disposition of Government property.

(4) Delays in contract reconciliation.

(5) Any other pertinent factors.

(c)(1) If the contractor fails to submit a completion invoice or voucher within the time specified in paragraph (b) of this section, the contracting officer may—

(i) Determine the amounts due to the contractor under the contract; and

(ii) Record this determination in a unilateral modification to the contract.

(2) This contracting officer determination must be issued as a final decision in accordance with 33.211.

#### 42.705-1 Contracting officer determination procedure.

(a) *Applicability and responsibility.* Contracting officer determination shall be used for the following, with the indicated cognizant contracting officer (or cognizant Federal agency official) responsible for establishing the final indirect cost rates:

(1) Business units of a multidivisional corporation under the cognizance of a corporate administrative contracting officer (see Subpart 42.6), with that officer responsible for the determination, assisted, as required, by the administrative contracting officers, assigned to the individual business units. Negotiations may be conducted on a coordinated or centralized basis, depending upon the degree of centralization within the contractor's organization.

(2) Business units not under the cognizance of a corporate administrative contracting officer, but having a resident administrative contracting officer (see 42.602), with that officer responsible for the determination. For this purpose, a nonresident administrative contracting officer is considered as resident if at least 75 percent of the administrative contracting officer's time is devoted to a single contractor.

(3) For business units not included in paragraph (a)(1) or (a)(2) of this subsection, the contracting officer (or cognizant Federal agency official) will determine whether the rates will be contracting officer or auditor determined.

(4) Educational institutions (see 42.705-3).

(5) State and local governments (see 42.705-4).

(6) Nonprofit organizations other than educational and state and local governments (see 42.705-5).

(b) *Procedures.* (1) In accordance with the Allowable Cost and Payment clause at 52.216-7 or 52.216-13, the contractor shall submit to the contracting officer (or cognizant Federal agency official) and to the cognizant auditor a final indirect cost rate proposal. The required content of the proposal and supporting data will vary depending on such factors as business type, size, and accounting system capabilities. The contractor, contracting officer, and auditor must work together to make the proposal, audit, and negotiation process as efficient as possible. Accordingly, each contractor shall submit an adequate proposal to the contracting officer (or cognizant Federal agency official) and auditor within the 6-month period following the expiration of each of its fiscal years. Reasonable extensions, for exceptional circumstances only, may be requested in writing by the contractor and granted in writing by the contracting officer. A contractor shall support its proposal with adequate supporting data. For guidance on what generally constitutes an adequate final indirect cost rate proposal and supporting data, contractors should refer to the Model Incurred Cost Proposal in Chapter 6 of the Defense Contract Audit Agency Pamphlet No. 7641.90, Information for Contractors, available via the Internet at <http://www.dcaa.mil>.

(2) The auditor shall submit to the contracting officer (or cognizant Federal agency official) an advisory audit report identifying any relevant advance agreements or restrictive terms of specific contracts.

(3) The contracting officer (or cognizant Federal agency official) shall head the Government negotiating team, which includes the cognizant auditor and technical or functional personnel as required. Contracting offices having significant dollar interest shall be invited to participate in the negotiation and in the preliminary discussion of critical issues. Individuals or offices that have provided a significant input to the Government position should be invited to attend.

(4) The Government negotiating team shall develop a negotiation position. Pursuant to 10 U.S.C. 2324(f) and 41 U.S.C. 256(f), the contracting officer shall—

(i) Not resolve any questioned costs until obtaining—

(A) Adequate documentation on the costs; and

(B) The contract auditor's opinion on the allowability of the costs.

(ii) Whenever possible, invite the contract auditor to serve as an advisor at any negotiation or meeting with the con-

tractor on the determination of the contractor's final indirect cost rates.

(5) The cognizant contracting officer shall—

(i) Conduct negotiations;

(ii) Prepare a written indirect cost rate agreement conforming to the requirements of the contracts;

(iii) Prepare, sign, and place in the contractor general file (see 4.801(c)(3)) a negotiation memorandum covering—

(A) The disposition of significant matters in the advisory audit report;

(B) Reconciliation of all costs questioned, with identification of items and amounts allowed or disallowed in the final settlement as well as the disposition of period costing or allocability issues;

(C) Reasons why any recommendations of the auditor or other Government advisors were not followed; and

(D) Identification of cost or pricing data submitted during the negotiations and relied upon in reaching a settlement; and

(iv) Distribute resulting documents in accordance with 42.706.

(v) Notify the contractor of the individual costs which were considered unallowable and the respective amounts of the disallowance.

**42.705-2 Auditor determination procedure.**

(a) *Applicability and responsibility.* (1) The cognizant Government auditor shall establish final indirect cost rates for business units not covered in 42.705-1(a).

(2) In addition, auditor determination may be used for business units that are covered in 42.705-1(a) when the contracting officer (or cognizant Federal agency official) and auditor agree that the indirect costs can be settled with little difficulty and any of the following circumstances apply:

(i) The business unit has primarily fixed-price contracts, with only minor involvement in cost-reimbursement contracts.

(ii) The administrative cost of contracting officer determination would exceed the expected benefits.

(iii) The business unit does not have a history of disputes and there are few cost problems.

(iv) The contracting officer (or cognizant Federal agency official) and auditor agree that special circumstances require auditor determination.

(b) *Procedures.* (1) The contractor shall submit to the cognizant contracting officer (or cognizant Federal agency official) and auditor a final indirect cost rate proposal in accordance with 42.705-1(b)(1).

(2) Upon receipt of a proposal, the auditor shall—

(i) Audit the proposal and seek agreement on indirect costs with the contractor;

(ii) Prepare an indirect cost rate agreement conforming to the requirements of the contracts. The agreement shall be signed by the contractor and the auditor;

(iii) If agreement with the contractor is not reached, forward the audit report to the contracting officer (or cognizant Federal agency official) identified in the Directory of Contract Administration Services Components (see 42.203), who will then resolve the disagreement; and

(iv) Distribute resulting documents in accordance with 42.706.

#### **42.705-3 Educational institutions.**

(a) *General.* (1) Postdetermined final indirect cost rates shall be used in the settlement of indirect costs for all cost-reimbursement contracts with educational institutions, unless predetermined final indirect cost rates are authorized and used (see paragraph (b) of this subsection).

(2) OMB Circular No. A-21, Cost Principles for Educational Institutions, assigns each educational institution to a single Government agency for the negotiation of indirect cost rates and provides that those rates shall be accepted by all Federal agencies. Cognizant Government agencies and educational institutions are listed in the Directory of Federal Contract Audit Offices (see 42.103).

(3) The cognizant agency shall establish the billing rates and final indirect cost rates at the educational institution, consistent with the requirements of this subpart, Subpart 31.3, and the OMB Circular. The agency shall follow the procedures outlined in 42.705-1(b).

(4) If the cognizant agency is unable to reach agreement with an institution, the appeals system of the cognizant agency shall be followed for resolution of the dispute.

(b) *Predetermined final indirect cost rates.* (1) Undercost-reimbursement research and development contracts with universities, colleges, or other educational institutions (41 U.S.C. 254a), payment for reimbursable indirect costs may be made on the basis of predetermined final indirect cost rates. The cognizant agency is not required to establish predetermined rates, but if they are established, their use must be extended to all the institution's Government contracts.

(2) In deciding whether the use of predetermined rates would be appropriate for the educational institution concerned, the agency should consider both the stability of the institution's indirect costs and bases over a period of years and any anticipated changes in the amount of the direct and indirect costs.

(3) Unless their use is approved at a level in the agency (see paragraph (a)(2) of this subsection) higher than the contracting officer, predetermined rates shall not be used when—

(i) There has been no recent audit of the indirect costs;

(ii) There have been frequent or wide fluctuations in the indirect cost rates and the bases over a period of years; or

(iii) The estimated reimbursable costs for any individual contract are expected to exceed \$1 million annually.

(4)(i) If predetermined rates are to be used and no rates have been previously established for the institution's current fiscal year, the agency shall obtain from the institution a proposal for predetermined rates.

(ii) If the proposal is found to be generally acceptable, the agency shall negotiate the predetermined rates with the institution. The rates should be based on an audit of the institution's costs for the year immediately preceding the year in which the rates are being negotiated. If this is not possible, an earlier audit may be used, but appropriate steps should be taken to identify and evaluate significant variations in costs incurred or in bases used that may have a bearing on the reasonableness of the proposed rates. However, in the case of smaller contracts (*e.g.*, \$100,000 or less), an audit made at an earlier date is acceptable if—

(A) There have been no significant changes in the contractor's organization; and

(B) It is reasonably apparent that another audit would have little effect on the rates finally agreed upon and the potential for overpayment of indirect cost is relatively insignificant.

(5) If predetermined rates are used—

(i) The contracting officer shall include the negotiated rates and bases in the contract Schedule; and

(ii) See 16.307(i), which prescribes the clause at 52.216-15, Predetermined Indirect Cost Rates.

(6) Predetermined indirect cost rates shall be applicable for a period of not more than four years. The agency shall obtain the contractor's proposal for new predetermined rates sufficiently in advance so that the new rates, based on current data, may be promptly negotiated near the beginning of the new fiscal year or other period agreed to by the parties (see paragraphs (b) and (d) of the clause at 52.216-15, Predetermined Indirect Cost Rates).

(7) Contracting officers shall use billing rates established by the agency to reimburse the contractor for work performed during a period not covered by predetermined rates.

#### **42.705-4 State and local governments.**

OMB Circular No. A-87 concerning cost principles for state and local governments (see Subpart 31.6) establishes the cognizant agency concept and procedures for determining a cognizant agency for approving state and local government indirect costs associated with federally-funded programs and activities. The indirect cost rates negotiated by the cognizant agency will be used by all Federal agencies that also award contracts to these same state and local governments.

#### **42.705-5 Nonprofit organizations other than educational and state and local governments.**

(See OMB Circular No. A-122.)

**42.706 Distribution of documents.**

(a) The contracting officer or auditor shall promptly distribute executed copies of the indirect cost rate agreement to the contractor and to each affected contracting agency and shall provide copies of the agreement for the contract files, in accordance with the guidance for contract modifications in Subpart 4.2, Contract Distribution.

(b) Copies of the negotiation memorandum prepared under contracting officer determination or audit report prepared under auditor determination shall be furnished, as appropriate, to the contracting offices and Government audit offices.

**42.707 Cost-sharing rates and limitations on indirect cost rates.**

(a) Cost-sharing arrangements, when authorized, may call for the contractor to participate in the costs of the contract by accepting indirect cost rates lower than the anticipated actual rates. In such cases, a negotiated indirect cost rate ceiling may be incorporated into the contract for prospective application. For cost sharing under research and development contracts, see 35.003(b).

(b)(1) Other situations may make it prudent to provide a final indirect cost rate ceiling in a contract. Examples of such circumstances are when the proposed contractor—

(i) Is a new or recently reorganized company, and there is no past or recent record of incurred indirect costs;

(ii) Has a recent record of a rapidly increasing indirect cost rate due to a declining volume of sales without a commensurate decline in indirect expenses; or

(iii) Seeks to enhance its competitive position in a particular circumstance by basing its proposal on indirect cost rates lower than those that may reasonably be expected to occur during contract performance, thereby causing a cost overrun.

(2) In such cases, an equitable ceiling covering the final indirect cost rates may be negotiated and specified in the contract.

(c) When ceiling provisions are utilized, the contract shall also provide that—

(1) The Government will not be obligated to pay any additional amount should the final indirect cost rates exceed the negotiated ceiling rates, and

(2) In the event the final indirect cost rates are less than the negotiated ceiling rates, the negotiated rates will be reduced to conform with the lower rates.

**42.708 Quick-closeout procedure.**

(a) The contracting officer responsible for contract closeout shall negotiate the settlement of indirect costs for a specific contract, in advance of the determination of final indirect cost rates, if—

(1) The contract is physically complete;

(2) The amount of unsettled indirect cost to be allocated to the contract is relatively insignificant. Indirect cost amounts will be considered insignificant when—

(i) The total unsettled indirect cost to be allocated to any one contract does not exceed \$1,000,000; and

(ii) Unless otherwise provided in agency procedures, the cumulative unsettled indirect costs to be allocated to one or more contracts in a single fiscal year do not exceed 15 percent of the estimated, total unsettled indirect costs allocable to cost-type contracts for that fiscal year. The contracting officer may waive the 15 percent restriction based upon a risk assessment that considers the contractor's accounting, estimating, and purchasing systems; other concerns of the cognizant contract auditors; and any other pertinent information; and

(3) Agreement can be reached on a reasonable estimate of allocable dollars.

(b) Determinations of final indirect costs under the quick-closeout procedure provided for by the Allowable Cost and Payment clause at 52.216-7 or 52.216-13 shall be final for the contract it covers and no adjustment shall be made to other contracts for over- or under-recoveries of costs allocated or allocable to the contract covered by the agreement.

(c) Indirect cost rates used in the quick closeout of a contract shall not be considered a binding precedent when establishing the final indirect cost rates for other contracts.

**42.709 Scope.**

(a) This section implements 10 U.S.C. 2324(a) through (d) and 41 U.S.C. 256(a) through (d). It covers the assessment of penalties against contractors which include unallowable indirect costs in—

(1) Final indirect cost rate proposals; or

(2) The final statement of costs incurred or estimated to be incurred under a fixed-price incentive contract.

(b) This section applies to all contracts in excess of \$500,000, except fixed-price contracts without cost incentives or any firm-fixed-price contracts for the purchase of commercial items.

**42.709-1 General.**

(a) The following penalties apply to contracts covered by this section:

(1) If the indirect cost is expressly unallowable under a cost principle in the FAR, or an executive agency supplement to the FAR, that defines the allowability of specific selected costs, the penalty is equal to—

(i) The amount of the disallowed costs allocated to contracts that are subject to this section for which an indirect cost proposal has been submitted; plus

(ii) Interest on the paid portion, if any, of the disallowance.

(2) If the indirect cost was determined to be unallowable for that contractor before proposal submission, the penalty is two times the amount in paragraph (a)(1)(i) of this section.

(b) These penalties are in addition to other administrative, civil, and criminal penalties provided by law.

(c) It is not necessary for unallowable costs to have been paid to the contractor in order to assess a penalty.

#### **42.709-2 Responsibilities.**

(a) The cognizant contracting officer is responsible for—

(1) Determining whether the penalties in 42.709-1(a) should be assessed;

(2) Determining whether such penalties should be waived pursuant to 42.709-5; and

(3) Referring the matter to the appropriate criminal investigative organization for review and for appropriate coordination of remedies, if there is evidence that the contractor knowingly submitted unallowable costs.

(b) The contract auditor, in the review and/or the determination of final indirect cost proposals for contracts subject to this section, is responsible for—

(1) Recommending to the contracting officer which costs may be unallowable and subject to the penalties in 42.709-1(a);

(2) Providing rationale and supporting documentation for any recommendation; and

(3) Referring the matter to the appropriate criminal investigative organization for review and for appropriate coordination of remedies, if there is evidence that the contractor knowingly submitted unallowable costs.

#### **42.709-3 Assessing the penalty.**

Unless a waiver is granted pursuant to 42.709-5, the cognizant contracting officer shall—

(a) Assess the penalty in 42.709-1(a)(1), when the submitted cost is expressly unallowable under a cost principle in the FAR or an executive agency supplement that defines the allowability of specific selected costs; or

(b) Assess the penalty in 42.709-1(a)(2), when the submitted cost was determined to be unallowable for that contractor prior to submission of the proposal. Prior determinations of unallowability may be evidenced by—

(1) A DCAA Form 1, Notice of Contract Costs Suspended and/or Disapproved (see 48 CFR 242.705-2), or any similar notice which the contractor elected not to appeal and was not withdrawn by the cognizant Government agency;

(2) A contracting officer final decision which was not appealed;

(3) A prior executive agency Board of Contract Appeals or court decision involving the contractor, which upheld the cost disallowance; or

(4) A determination or agreement of unallowability under 31.201-6.

(c) Issue a final decision (see 33.211) which includes a demand for payment of any penalty assessed under paragraph (a) or (b) of this section. The letter shall state that the determination is a final decision under the Disputes clause of the contract. (Demanding payment of the penalty is separate from demanding repayment of any paid portion of the disallowed cost.)

#### **42.709-4 Computing interest.**

For 42.709-1(a)(1)(ii), compute interest on any paid portion of the disallowed cost as follows:

(a) Consider the overpayment to have occurred, and interest to have begun accumulating, from the midpoint of the contractor's fiscal year. Use an alternate equitable method if the cost was not paid evenly over the fiscal year.

(b) Use the interest rate specified by the Secretary of the Treasury pursuant to Pub. L. 92-41 (85 Stat. 97).

(c) Compute interest from the date of overpayment to the date of the demand letter for payment of the penalty.

(d) Determine the paid portion of the disallowed costs in consultation with the contract auditor.

#### **42.709-5 Waiver of the penalty.**

The cognizant contracting officer shall waive the penalties at 42.709-1(a) when—

(a) The contractor withdraws the proposal before the Government formally initiates an audit of the proposal and the contractor submits a revised proposal (an audit will be deemed to be formally initiated when the Government provides the contractor with written notice, or holds an entrance conference, indicating that audit work on a specific final indirect cost proposal has begun);

(b) The amount of the unallowable costs under the proposal which are subject to the penalty is \$10,000 or less (*i.e.*, if the amount of expressly or previously determined unallowable costs which would be allocated to the contracts specified in 42.709(b) is \$10,000 or less); or

(c) The contractor demonstrates, to the cognizant contracting officer's satisfaction, that—

(1) It has established policies and personnel training and an internal control and review system that provide assurance that unallowable costs subject to penalties are precluded from being included in the contractor's final indirect cost rate proposals (*e.g.*, the types of controls required for satisfactory participation in the Department of Defense sponsored self-governance programs, specific accounting controls over indirect costs, compliance tests which demonstrate that the controls are effective, and Government audits which have not disclosed recurring instances of expressly unallowable costs); and

(2) The unallowable costs subject to the penalty were inadvertently incorporated into the proposal; *i.e.*, their inclu-

sion resulted from an unintentional error, notwithstanding the exercise of due care.

**42.709-6 Contract clause.**

Use the clause at 52.242-3, Penalties for Unallowable Costs, in all solicitations and contracts over \$500,000 except fixed-price contracts without cost incentives or any firm-fixed-price contract for the purchase of commercial items. Generally, covered contracts are those which contain one of the clauses at 52.216-7, 52.216-13, 52.216-16, or 52.216-17, or a similar clause from an executive agency's supplement to the FAR.

## Subpart 42.8—Disallowance of Costs

### 42.800 Scope of subpart.

This subpart prescribes policies and procedures for—

- (a) Issuing notices of intent to disallow costs; and
- (b) Disallowing costs already incurred during the course of performance.

### 42.801 Notice of intent to disallow costs.

(a) At any time during the performance of a contract of a type referred to in 42.802, the cognizant contracting officer responsible for administering the contract may issue the contractor a written notice of intent to disallow specified costs incurred or planned for incurrence. However, before issuing the notice, the contracting officer responsible for administering the contract shall make every reasonable effort to reach a satisfactory settlement through discussions with the contractor.

(b) A notice of intent to disallow such costs usually results from monitoring contractor costs. The purpose of the notice is to notify the contractor as early as practicable during contract performance that the cost is considered unallowable under the contract terms and to provide for timely resolution of any resulting disagreement. In the event of disagreement, the contractor may submit to the contracting officer a written response. Any such response shall be answered by withdrawal of the notice or by making a written decision within 60 days.

(c) As a minimum, the notice shall—

- (1) Refer to the contract's Notice of Intent to Disallow Costs clause;
- (2) State the contractor's name and list the numbers of the affected contracts;
- (3) Describe the costs to be disallowed, including estimated dollar value by item and applicable time periods, and state the reasons for the intended disallowance;
- (4) Describe the potential impact on billing rates and forward pricing rate agreements;
- (5) State the notice's effective date and the date by which written response must be received;
- (6) List the recipients of copies of the notice; and
- (7) Request the contractor to acknowledge receipt of the notice.

(d) The contracting officer issuing the notice shall furnish copies to all contracting officers cognizant of any segment of the contractor's organization.

(e) If the notice involves elements of indirect cost, it shall not be issued without coordination with the contracting officer or auditor having authority for final indirect cost settlement (see 42.705).

(f) In the event the contractor submits a response that disagrees with the notice (see paragraph (b) of this section), the contracting officer who issued the notice shall either with-

draw the notice or issue the written decision, except when elements of indirect cost are involved, in which case the contracting officer responsible under 42.705 for determining final indirect cost rates shall issue the decision.

### 42.802 Contract clause.

The contracting officer shall insert the clause at 52.242-1, Notice of Intent to Disallow Costs, in solicitations and contracts when a cost-reimbursement contract, a fixed-price incentive contract, or a contract providing for price redetermination is contemplated.

### 42.803 Disallowing costs after incurrence.

Cost-reimbursement contracts, the cost-reimbursement portion of fixed-price contracts, letter contracts that provide for reimbursement of costs, and time-and-material and labor-hour contracts provide for disallowing costs during the course of performance after the costs have been incurred. The following procedures shall apply:

(a) *Contracting officer receipt of vouchers.* When contracting officers receive vouchers directly from the contractor and, with or without auditor assistance, approve or disapprove them, the process shall be conducted in accordance with the normal procedures of the individual agency.

(b) *Auditor receipt of vouchers.* (1) When authorized by agency regulations, the contract auditor may be authorized to (i) receive reimbursement vouchers directly from contractors, (ii) approve for payment those vouchers found acceptable, and (iii) suspend payment of questionable costs. The auditor shall forward approved vouchers for payment to the cognizant contracting, finance, or disbursing officer, as appropriate under the agency's procedures.

(2) If the examination of a voucher raises a question regarding the allowability of a cost under the contract terms, the auditor, after informal discussion as appropriate, may, where authorized by agency regulations, issue a notice of contract costs suspended and/or disapproved simultaneously to the contractor and the disbursing officer, with a copy to the cognizant contracting officer, for deduction from current payments with respect to costs claimed but not considered reimbursable.

(3) If the contractor disagrees with the deduction from current payments, the contractor may—

(i) Submit a written request to the cognizant contracting officer to consider whether the unreimbursed costs should be paid and to discuss the findings with the contractor;

(ii) File a claim under the Disputes clause, which the cognizant contracting officer will process in accordance with agency procedures; or

(iii) Do both of the above.

**Subpart 42.9—Bankruptcy****42.900 Scope of subpart.**

This subpart prescribes policies and procedures regarding actions to be taken when a contractor enters into proceedings relating to bankruptcy. It establishes a requirement for the contractor to notify the contracting officer upon filing a petition for bankruptcy. It further establishes minimum requirements for agencies to follow in the event of a contractor bankruptcy.

**42.901 General.**

The contract administration office shall take prompt action to determine the potential impact of a contractor bankruptcy on the Government in order to protect the interests of the Government.

**42.902 Procedures.**

(a) When notified of bankruptcy proceedings, agencies shall, as a minimum—

(1) Furnish the notice of bankruptcy to legal counsel and other appropriate agency offices (*e.g.*, contracting, financial, property) and affected buying activities;

(2) Determine the amount of the Government's potential claim against the contractor (in assessing this impact, identify and review any contracts that have not been closed out, including those physically completed or terminated);

(3) Take actions necessary to protect the Government's financial interests and safeguard Government property; and

(4) Furnish pertinent contract information to the legal counsel representing the Government.

(b) The contracting officer shall consult with legal counsel, whenever possible, prior to taking any action regarding the contractor's bankruptcy proceedings.

**42.903 Solicitation provision and contract clause.**

The contracting officer shall insert the clause at 52.245-13, Bankruptcy, in all solicitations and contracts exceeding the simplified acquisition threshold.

**Subpart 42.10—[Reserved]**

## Subpart 42.11—Production Surveillance and Reporting

### 42.1101 General.

Production surveillance is a function of contract administration used to determine contractor progress and to identify any factors that may delay performance. Production surveillance involves Government review and analysis of—

- (a) Contractor performance plans, schedules, controls, and industrial processes; and
- (b) The contractor's actual performance under them.

### 42.1102 Applicability.

This subpart applies to all contracts for supplies or services other than facilities, construction contracts, and Federal Supply Schedule contracts. See Part 37, especially Subpart 37.6, regarding surveillance of contracts for services.

### 42.1103 Policy.

The contractor is responsible for timely contract performance. The Government will maintain surveillance of contractor performance as necessary to protect its interests. When the contracting office retains a contract for administration, the contracting officer administering the contract shall determine the extent of surveillance.

### 42.1104 Surveillance requirements.

(a) The contract administration office determines the extent of production surveillance on the basis of—

- (1) The criticality (degree of importance to the Government) assigned by the contracting officer (see 42.1105) to the supplies or services; and
- (2) Consideration of the following factors:
  - (i) Contract requirements for reporting production progress and performance.
  - (ii) The contract performance schedule.
  - (iii) The contractor's production plan.
  - (iv) The contractor's history of contract performance.
  - (v) The contractor's experience with the contract supplies or services.
  - (vi) The contractor's financial capability.
  - (vii) Any supplementary written instructions from the contracting office.

(b) Contracts at or below the simplified acquisition threshold should not normally require production surveillance.

(c) In planning and conducting surveillance, contract administration offices shall make maximum use of any reliable contractor production control or data management systems.

(d) In performing surveillance, contract administration office personnel shall avoid any action that may—

- (1) Be inconsistent with any contract requirement; or
- (2) Result in claims of waivers, of changes, or of other contract modifications.

### 42.1105 Assignment of criticality designator.

Contracting officers shall assign a criticality designator to each contract in the space for designating the contract administration office, as follows:

CRITICALITY DESIGNATOR	CRITERION
A	Critical contracts, including DX-rated contracts (see Subpart 12.3), contracts citing the authority in 6.302-2 (unusual and compelling urgency), and contracts for major systems.
B	Contracts (other than those designated "A") for items needed to maintain a Government or contractor production or repair line, to preclude out-of-stock conditions or to meet user needs for nonstock items.
C	All contracts other than those designated "A" or "B."

### 42.1106 Reporting requirements.

(a) When information on contract performance status is needed, contracting officers may require contractors to submit production progress reports (see 42.1107(a)). Reporting requirements shall be limited to that information essential to Government needs and shall take maximum advantage of data output generated by contractor management systems.

(b) Contract administration offices shall review and verify the accuracy of contractor reports and advise the contracting officer of any required action. The accuracy of contractor-prepared reports shall be verified either by a program of continuous surveillance of the contractor's report-preparation system or by individual review of each report.

(c) The contract administration office may at any time initiate a report to advise the contracting officer (and the inventory manager, if one is designated in the contract) of any potential or actual delay in performance. This advice shall—

- (1) Be in writing;
- (2) Be provided in sufficient time for the contracting officer to take necessary action; and
- (3) Provide a definite recommendation, if action is appropriate.

### 42.1107 Contract clause.

(a) The contracting officer shall insert the clause at 52.242-2, Production Progress Reports, in solicitations and

contracts when production progress reporting is required; unless a facilities contract, a construction contract, or a Federal Supply Schedule contract is contemplated.

(b) When the clause at 52.242-2 is used, the contracting officer shall specify appropriate reporting instructions in the Schedule (see 42.1106(a)).

## Subpart 42.12—Novation and Change-of-Name Agreements

### 42.1200 Scope of subpart.

This subpart prescribes policies and procedures for—

- (a) Recognition of a successor in interest to Government contracts when contractor assets are transferred;
- (b) Recognition of a change in a contractor's name; and
- (c) Execution of novation agreements and change-of-name agreements by the responsible contracting officer.

### 42.1201 [Reserved]

### 42.1202 Responsibility for executing agreements.

The contracting officer responsible for processing and executing novation and change-of-name agreements shall be determined as follows:

(a) If any of the affected contracts held by the transferor have been assigned to an administrative contracting officer (ACO) (see 2.1 and 42.202), the responsible contracting officer shall be—

(1) This ACO; or

(2) The ACO responsible for the corporate office, if affected contracts are in more than one plant or division of the transferor.

(b) If none of the affected contracts held by the transferor have been assigned to an ACO, the contracting officer responsible for the largest unsettled (unbilled plus billed but unpaid) dollar balance of contracts shall be the responsible contracting officer.

(c) If several transferors are involved, the responsible contracting officer shall be—

(1) The ACO administering the largest unsettled dollar balance; or

(2) The contracting officer (or ACO) designated by the agency having the largest unsettled dollar balance, if none of the affected contracts have been assigned to an ACO.

### 42.1203 Processing agreements.

(a) If a contractor wishes the Government to recognize a successor in interest to its contracts or a name change, the contractor must submit a written request to the responsible contracting officer (see 42.1202). If the contractor received its contract under Subpart 8.7 under the Javits-Wagner-O'Day Act, use the procedures at 8.716 instead.

(b) The responsible contracting officer shall—

(1) Identify and request that the contractor submit the information necessary to evaluate the proposed agreement for recognizing a successor in interest or a name change. This information should include the items identified in 42.1204 (e) and (f) or 42.1205(a), as applicable;

(2) Notify each contract administration office and contracting office affected by a proposed agreement for recognizing a successor in interest, and provide those offices with a list of all affected contracts; and

(3) Request submission of any comments or objections to the proposed transfer within 30 days after notification. Any submission should be accompanied by supporting documentation.

(c) Upon receipt of the necessary information, the responsible contracting officer shall determine whether or not it is in the Government's interest to recognize the proposed successor in interest on the basis of—

(1) The comments received from the affected contract administration offices and contracting offices;

(2) The proposed successor's responsibility under Subpart 9.1, Responsible Prospective Contractors; and

(3) Any factor relating to the proposed successor's performance of contracts with the Government that the Government determines would impair the proposed successor's ability to perform the contract satisfactorily.

(d) The execution of a novation agreement does not preclude the use of any other method available to the contracting officer to resolve any other issues related to a transfer of contractor assets, including the treatment of costs.

(e) Any separate agreement between the transferor and transferee regarding the assumption of liabilities (*e.g.*, long-term incentive compensation plans, cost accounting standards noncompliances, environmental cleanup costs, and final overhead costs) should be referenced specifically in the novation agreement.

(f) Before novation and change-of-name agreements are executed, the responsible contracting officer shall ensure that Government counsel has reviewed them for legal sufficiency.

(g) The responsible contracting officer shall—

(1) Forward a signed copy of the executed novation or change-of-name agreement to the transferor and to the transferee; and

(2) Retain a signed copy in the case file.

(h) Following distribution of the agreement, the responsible contracting officer shall—

(1) Prepare a Standard Form 30, Amendment of Solicitation/Modification of Contract, incorporating a summary of the agreement and attaching a complete list of contracts affected;

(2) Retain the original Standard Form 30 with the attached list in the case file;

(3) Send a signed copy of the Standard Form 30, with attached list to the transferor and to the transferee; and

(4) Send a copy of this Standard Form 30 with attached list to each contract administration office or contracting office involved, which shall be responsible for further appropriate distribution.

**42.1204 Applicability of novation agreements.**

(a) 41 U.S.C. 15 prohibits transfer of Government contracts from the contractor to a third party. The Government may, when in its interest, recognize a third party as the successor in interest to a Government contract when the third party's interest in the contract arises out of the transfer of—

(1) All the contractor's assets; or

(2) The entire portion of the assets involved in performing the contract. (See 14.404-2(l) for the effect of novation agreements after bid opening but before award.) Examples of such transactions include, but are not limited to—

(i) Sale of these assets with a provision for assuming liabilities;

(ii) Transfer of these assets incident to a merger or corporate consolidation; and

(iii) Incorporation of a proprietorship or partnership, or formation of a partnership.

(b) A novation agreement is unnecessary when there is a change in the ownership of a contractor as a result of a stock purchase, with no legal change in the contracting party, and when that contracting party remains in control of the assets and is the party performing the contract. However, whether there is a purchase of assets or a stock purchase, there may be issues related to the change in ownership that appropriately should be addressed in a formal agreement between the contractor and the Government (see 42.1203(e)).

(c) When it is in the Government's interest not to concur in the transfer of a contract from one company to another company, the original contractor remains under contractual obligation to the Government, and the contract may be terminated for reasons of default, should the original contractor not perform.

(d) When considering whether to recognize a third party as a successor in interest to Government contracts, the responsible contracting officer shall identify and evaluate any significant organizational conflicts of interest in accordance with Subpart 9.5. If the responsible contracting officer determines that a conflict of interest cannot be resolved, but that it is in the best interest of the Government to approve the novation request, a request for a waiver may be submitted in accordance with the procedures at 9.503.

(e) When a contractor asks the Government to recognize a successor in interest, the contractor shall submit to the responsible contracting officer three signed copies of the proposed novation agreement and one copy each, as applicable, of the following:

(1) The document describing the proposed transaction, *e.g.*, purchase/sale agreement or memorandum of understanding.

(2) A list of all affected contracts between the transferor and the Government, as of the date of sale or transfer of assets, showing for each, as of that date, the—

(i) Contract number and type;

(ii) Name and address of the contracting office;

(iii) Total dollar value, as amended; and

(iv) Approximate remaining unpaid balance.

(3) Evidence of the transferee's capability to perform.

(4) Any other relevant information requested by the responsible contracting officer.

(f) Except as provided in paragraph (g) of this section, the contractor shall submit to the responsible contracting officer one copy of each of the following documents, as applicable, as the documents become available:

(1) An authenticated copy of the instrument effecting the transfer of assets; *e.g.*, bill of sale, certificate of merger, contract, deed, agreement, or court decree.

(2) A certified copy of each resolution of the corporate parties' boards of directors authorizing the transfer of assets.

(3) A certified copy of the minutes of each corporate party's stockholder meeting necessary to approve the transfer of assets.

(4) An authenticated copy of the transferee's certificate and articles of incorporation, if a corporation was formed for the purpose of receiving the assets involved in performing the Government contracts.

(5) The opinion of legal counsel for the transferor and transferee stating that the transfer was properly effected under applicable law and the effective date of transfer.

(6) Balance sheets of the transferor and transferee as of the dates immediately before and after the transfer of assets, audited by independent accountants.

(7) Evidence that any security clearance requirements have been met.

(8) The consent of sureties on all contracts listed under paragraph (e)(2) of this section if bonds are required, or a statement from the transferor that none are required.

(g) If the Government has acquired the documents during its participation in the pre-merger or pre-acquisition review process, or the Government's interests are adequately protected with an alternative formulation of the information, the responsible contracting officer may modify the list of documents to be submitted by the contractor.

(h) When recognizing a successor in interest to a Government contract is consistent with the Government's interest, the responsible contracting officer shall execute a novation agreement with the transferor and the transferee. It shall ordinarily provide in part that—

(1) The transferee assumes all the transferor's obligations under the contract;

(2) The transferor waives all rights under the contract against the Government;

(3) The transferor guarantees performance of the contract by the transferee (a satisfactory performance bond may be accepted instead of the guarantee); and

(4) Nothing in the agreement shall relieve the transferor or transferee from compliance with any Federal law.

(i) The responsible contracting officer shall use the following format for agreements when the transferor and transferee are corporations and all the transferor's assets are transferred. This format may be adapted to fit specific cases and may be used as a guide in preparing similar agreements for other situations.

#### NOVATION AGREEMENT

The ABC Corporation (Transferor), a corporation duly organized and existing under the laws of \_\_\_\_\_ [insert State] with its principal office in \_\_\_\_\_ [insert city]; the XYZ Corporation (Transferee), [if appropriate add "formerly known as the EFG Corporation"] a corporation duly organized and existing under the laws of \_\_\_\_\_ [insert State] with its principal office in \_\_\_\_\_ [insert city]; and the UNITED STATES OF AMERICA (Government) enter into this Agreement as of \_\_\_\_\_ [insert the date transfer of assets became effective under applicable State law].

(a) The parties agree to the following facts:

(1) The Government, represented by various Contracting Officers of the \_\_\_\_\_ [insert name(s) of agency(ies)], has entered into certain contracts with the Transferor, namely: \_\_\_\_\_ [insert contract or purchase order identifications]; [or delete "namely" and insert "as shown in the attached list marked 'Exhibit A' and incorporated in this Agreement by reference."]. The term "the contracts," as used in this Agreement, means the above contracts and purchase orders and all other contracts and purchase orders, including all modifications, made between the Government and the Transferor before the effective date of this Agreement (whether or not performance and payment have been completed and releases executed if the Government or the Transferor has any remaining rights, duties, or obligations under these contracts and purchase orders). Included in the term "the contracts" are also all modifications made under the terms and conditions of these contracts and purchase orders between the Government and the Transferee, on or after the effective date of this Agreement.

(2) As of \_\_\_\_\_, 20\_\_\_\_, the Transferor has transferred to the Transferee all the assets of the Transferor by virtue of a \_\_\_\_\_ [insert term descriptive of the legal transaction involved] between the Transferor and the Transferee.

(3) The Transferee has acquired all the assets of the Transferor by virtue of the above transfer.

(4) The Transferee has assumed all obligations and liabilities of the Transferor under the contracts by virtue of the above transfer.

(5) The Transferee is in a position to fully perform all obligations that may exist under the contracts.

(6) It is consistent with the Government's interest to recognize the Transferee as the successor party to the contracts.

(7) Evidence of the above transfer has been filed with the Government. [When a change of name is also involved; e.g., a prior or concurrent change of the Transferee's name, an appropriate statement shall be inserted (see example in paragraph (8) of this Agreement)].

(8) A certificate dated \_\_\_\_\_, 20\_\_\_\_, signed by the Secretary of State of \_\_\_\_\_ [insert State], to the effect that the corporate name of EFG Corporation was changed to XYZ Corporation on \_\_\_\_\_, 20\_\_\_\_, has been filed with the Government.

(b) In consideration of these facts, the parties agree that by this Agreement—

(1) The Transferor confirms the transfer to the Transferee, and waives any claims and rights against the Government that it now has or may have in the future in connection with the contracts.

(2) The Transferee agrees to be bound by and to perform each contract in accordance with the conditions contained in the contracts. The Transferee also assumes all obligations and liabilities of, and all claims against, the Transferor under the contracts as if the Transferee were the original party to the contracts.

(3) The Transferee ratifies all previous actions taken by the Transferor with respect to the contracts, with the same force and effect as if the action had been taken by the Transferee.

(4) The Government recognizes the Transferee as the Transferor's successor in interest in and to the contracts. The Transferee by this Agreement becomes entitled to all rights, titles, and interests of the Transferor in and to the contracts as if the Transferee were the original party to the contracts. Following the effective date of this Agreement, the term "Contractor," as used in the contracts, shall refer to the Transferee.

(5) Except as expressly provided in this Agreement, nothing in it shall be construed as a waiver of any rights of the Government against the Transferor.

(6) All payments and reimbursements previously made by the Government to the Transferor, and all other previous actions taken by the Government under the contracts, shall be considered to have discharged those parts of the Government's obligations under the contracts. All payments and reimbursements made by the Government after the date of this Agreement in the name of or to the Transferor shall have the same force and effect as if made to the Transferee, and shall constitute a complete discharge of the Government's obligations under the contracts, to the extent of the amounts paid or reimbursed.

(7) The Transferor and the Transferee agree that the Government is not obligated to pay or reimburse either of them for, or otherwise give effect to, any costs, taxes, or other expenses, or any related increases, directly or indirectly arising out of or resulting from the transfer or this Agreement, other than those that the Government in the absence of this transfer or Agreement would have been obligated to pay or reimburse under the terms of the contracts.

(8) The Transferor guarantees payment of all liabilities and the performance of all obligations that the Transferee—

(i) Assumes under this Agreement; or

(ii) May undertake in the future should these contracts be modified under their terms and conditions. The Transferor waives notice of, and consents to, any such future modifications.

(9) The contracts shall remain in full force and effect, except as modified by this Agreement. Each party has executed this Agreement as of the day and year first above written.

**42.1205 Agreement to recognize contractor's change of name.**

(a) If only a change of the contractor's name is involved and the Government's and contractor's rights and obligations remain unaffected, the parties shall execute an agreement to reflect the name change. The contractor shall forward to the responsible contracting officer three signed copies of the

Change-of-Name Agreement, and one copy each of the following:

(1) The document effecting the name change, authenticated by a proper official of the State having jurisdiction.

(2) The opinion of the contractor's legal counsel stating that the change of name was properly effected under applicable law and showing the effective date.

(3) A list of all affected contracts and purchase orders remaining unsettled between the contractor and the Government, showing for each the contract number and type, and name and address of the contracting office. The contracting officer may request the total dollar value as amended and the remaining unpaid balance for each contract.

(b) The following suggested format for an agreement may be adapted for specific cases:

CHANGE-OF-NAME AGREEMENT

The ABC Corporation (Contractor), a corporation duly organized and existing under the laws of \_\_\_\_\_ [insert State], and the UNITED STATES OF AMERICA (Government), enter into this Agreement as of \_\_\_\_\_ [insert date when the change of name became effective under applicable State law].

(a) The parties agree to the following facts:

(1) The Government, represented by various Contracting Officers of the \_\_\_\_\_ [insert name(s) of agency(ies)], has entered into certain contracts and purchase orders with the XYZ Corporation, namely: \_\_\_\_\_ [insert contract or purchase order identifications]; [or delete "namely" and insert "as shown in the attached list marked "Exhibit A" and incorporated in this Agreement by reference."]. The term "the contracts," as used in this Agreement, means the above contracts and purchase orders and all other contracts and purchase orders, including all modifications, made by the Government and the Contractor before the effective date of this Agreement (whether or not performance and payment have been completed and releases executed if the Government or the Contractor has any remaining rights, duties, or obligations under these contracts and purchase orders).

(2) The XYZ Corporation, by an amendment to its certificate of incorporation, dated \_\_\_\_\_ 20\_\_, has changed its corporate name to ABC Corporation.

(3) This amendment accomplishes a change of corporate name only and all rights and obligations of the Government and of the Contractor under the contracts are unaffected by this change.

(4) Documentary evidence of this change of corporate name has been filed with the Government.

(b) In consideration of these facts, the parties agree that—

(1) The contracts covered by this Agreement are amended by substituting the name "ABC Corporation" for the name "XYZ Corporation" wherever it appears in the contracts; and

(2) Each party has executed this Agreement as of the day and year first above written.

## **Subpart 42.13—Suspension of Work, Stop-Work Orders, and Government Delay of Work**

### **42.1301 General.**

Situations may occur during contract performance that cause the Government to order a suspension of work, or a work stoppage. This subpart provides clauses to meet these situations and a clause for settling contractor claims for unordered Government caused delays that are not otherwise covered in the contract.

### **42.1302 Suspension of work.**

A suspension of work under a construction or architect-engineer contract may be ordered by the contracting officer for a reasonable period of time. If the suspension is unreasonable, the contractor may submit a written claim for increases in the cost of performance, excluding profit.

### **42.1303 Stop-work orders.**

(a) Stop-work orders may be used, when appropriate, in any negotiated fixed-price or cost-reimbursement supply, research and development, or service contract if work stoppage may be required for reasons such as advancement in the state-of-the-art, production or engineering breakthroughs, or realignment of programs.

(b) Generally, a stop-work order will be issued only if it is advisable to suspend work pending a decision by the Government and a supplemental agreement providing for the suspension is not feasible. Issuance of a stop-work order shall be approved at a level higher than the contracting officer. Stop-work orders shall not be used in place of a termination notice after a decision to terminate has been made.

(c) Stop-work orders should include—

- (1) A description of the work to be suspended;
- (2) Instructions concerning the contractor's issuance of further orders for materials or services;
- (3) Guidance to the contractor on action to be taken on any subcontracts; and
- (4) Other suggestions to the contractor for minimizing costs.

(d) Promptly after issuing the stop-work order, the contracting officer should discuss the stop-work order with the contractor and modify the order, if necessary, in light of the discussion.

(e) As soon as feasible after a stop-work order is issued, but before its expiration, the contracting officer shall take appropriate action to—

- (1) Terminate the contract;
- (2) Cancel the stop-work order (any cancellation of a stop-work order shall be subject to the same approvals as were required for its issuance); or

(3) Extend the period of the stop-work order if it is necessary and if the contractor agrees (any extension of the stop-work order shall be by a supplemental agreement).

### **42.1304 Government delay of work.**

(a) The clause at 52.242-17, Government Delay of Work, provides for the administrative settlement of contractor claims that arise from delays and interruptions in the contract work caused by the acts, or failures to act, of the contracting officer. This clause is not applicable if the contract otherwise specifically provides for an equitable adjustment because of the delay or interruption; *e.g.*, when the Changes clause is applicable.

(b) The clause does not authorize the contracting officer to order a suspension, delay, or interruption of the contract work and it shall not be used as the basis or justification of such an order.

(c) If the contracting officer has notice of an unordered delay or interruption covered by the clause, the contracting officer shall act to end the delay or take other appropriate action as soon as practicable.

(d) The contracting officer shall retain in the file a record of all negotiations leading to any adjustment made under the clause, and related cost or pricing data, or information other than cost or pricing data.

### **42.1305 Contract clauses.**

(a) The contracting officer shall insert the clause at 52.242 14, Suspension of Work, in solicitations and contracts when a fixed-price construction or architect-engineer contract is contemplated.

(b)(1) The contracting officer may, when contracting by negotiation, insert the clause at 52.242-15, Stop-Work Order, in solicitations and contracts for supplies, services, or research and development.

(2) If a cost-reimbursement contract is contemplated, the contracting officer shall use the clause with its Alternate I.

(c) The contracting officer shall insert the clause at 52.242 16, Stop-Work Order—Facilities, in solicitations and contracts when a facilities acquisition contract or a consolidated facilities contract is contemplated.

(d) The contracting officer shall insert the clause at 52.242 17, Government Delay of Work, in solicitations and contracts when a fixed-price contract is contemplated for supplies other than commercial or modified-commercial items. The clause use is optional when a fixed-price contract is contemplated for services, or for supplies that are commercial or modified-commercial items.

## Subpart 42.14—Traffic and Transportation Management

### 42.1401 General.

(a) The contract administration office (CAO) shall ensure that instructions to contractors result in the most efficient and economical use of carrier services and equipment. If the transportation data regarding f.o.b. origin contracts is insufficient for Government transportation management purposes, the CAO shall obtain the data used in the evaluation of offers.

(b) Transportation personnel assigned to or supporting the CAO, or appropriate agency personnel, are responsible for—

(1) Furnishing timely routings and releases for port shipments;

(2) Monitoring shipments to provide for carload or truckload quantities when practicable;

(3) Controlling and issuing U.S. Government bills of lading (GBL's) and determining proper freight classification descriptions;

(4) Reviewing documentation to ensure the proper distribution and validation of shipping documents;

(5) Developing, and advising on, transportation cost differentials brought on by proposed changes in contract terms; *e.g.*, delivery schedules;

(6) Determining, for contract requirements, the size and carrying capability of carrier equipment to transport overdimensional and/or overweight supplies, hazardous materials, or supplies requiring special shipping arrangements;

(7) Developing information and reporting movements that may be the basis for negotiating special rates for volume movements or for rate adjustments (see 42.1402(b));

(8) Exercising control of irregularities in preservation, packing, loading, blocking and bracing, and other causes contributing to loss and damage; sealing of carrier equipment and documentation;

(9) Providing information on the use of transit arrangements;

(10) Recommending, when appropriate, prepayment by contractor for f.o.b. origin shipments or parcel post (see 47.303-17 and 42.1404);

(11) Recommending, when appropriate, the use of commercial forms and procedures for small shipments of a recurring nature if transportation costs do not exceed \$100, as authorized in 41 CFR 101-41.304-2 and, for the Department of Defense (DOD), in Chapter 32, Defense Traffic Management Regulation (DTMR) (AR 55-355, NAVSUPINST 4600.70, AFM 75-2, MCO P-4600.14A, DLAR 4500.3);

(12) Diverting, reconsigning, tracing, and expediting shipments;

(13) Considering the capabilities of contractors for meeting new or emergency requirements that arise during the contract administration and using these capabilities when appropriate; and

(14) Using routings through established consolidation stations when it is in the Government's interest.

(c) Civilian agencies shall consult and cooperate with the Office of Transportation of the General Services Administration (GSA) as required in 41 CFR 101-40. (See 47.105, Transportation assistance, for assistance to civilian Government activities or to military installations.)

### 42.1402 Volume movements within the continental United States.

(a)(1) For purposes of contract administration, a volume movement is—

(i) In DOD, the aggregate of freight shipments amounting to or exceeding 25 carloads, 25 truckloads, or 500,000 pounds, to move during the contract period from one origin point for delivery to one destination point or area; and

(ii) In civilian agencies, 50 short tons (100,000 pounds) in the aggregate to move during the contract period from one origin point for delivery to one destination point or area.

(2) Transportation personnel assigned to or supporting the CAO, or appropriate agency personnel, shall report planned and actual volume movements in accordance with agency regulations. DOD activities report to the Military Traffic Management Command (MTMC) under the Defense Traffic Management Regulation (DTMR). Civilian agencies report to GSA, Office of Transportation, or other designated offices under the Federal Property Management Regulations (FPMR), specifically 41 CFR 101-40.305-2.

(b) Reporting of volume movements permits MTMC and GSA transportation personnel to determine the reasonableness of applicable current rates and, when appropriate, to negotiate adjusted or modified rates.

### 42.1403 Shipping documents covering f.o.b. origin shipments.

(a) Except as provided in 47.303-17, when a contract specifies delivery of supplies f.o.b. origin with transportation costs to be paid by the Government, the contractor shall make shipments on U.S. Government bills of lading (GBL's), or on other shipping documents prescribed by MTMC in the case of seavan containers, furnished by the CAO or the appropriate agency transportation office. Each agency shall establish appropriate procedures by which the contractor shall obtain GBL's. The contracting officer shall not authorize the contractor to ship on commercial bills of lading for conversion to GBL's unless delivery is extremely urgent and GBL's are not readily available.

(b) The possible application of reduced rates under section 10721 of the Interstate Commerce Act for shipments on commercial bills of lading and the Commercial Bill of Lading Notations clause are discussed at 47.104.

(c)(1) The limited authority for the use of commercial forms and procedures to acquire freight or express transportation for small shipments of a recurring nature when transportation costs do not exceed \$100, is prescribed in the Transportation Documentation and Audit Regulation, specifically 41 CFR 101-41.304-2.

(2) For DOD shipments, corresponding guidance is in Chapter 32 of the DTMR.

#### **42.1404 Shipments by parcel post or other classes of mail.**

##### **42.1404-1 Parcel post eligible shipments.**

(a)(1) Use of parcel post or other classes of mail permits direct movements from source of supply to the user, without the intermediate documentation that is required when supplies are transported through depots or air or water terminals. However, the use of parcel post and other classes of mail shall be confined to deliveries of mailable matter that meet the size, weight, and distance limitations prescribed by the U.S. Postal Service. Parcel post eligible shipments for overseas destinations will not be sent via Small Package Delivery services or parcel post to CONUS military air or water terminals. These shipments will be mailed through the APO or FPO to the overseas user. Contractors shall not divide delivery quantities into mailable parcels for the purpose of avoiding shipments by other modes of transportation.

(2) When parcel post or other classes of mail are used by contractors, they shall prepay the postage costs by using their own mailing labels or stamps and include prepaid postage costs as separate items in the invoices for supplies shipped.

(b)(1) Authority for contractors to use indicia mail may be obtained by submitting Postal Service (PS) Form 3601, Application to Mail Without Affixing Postage Stamps, to the U.S. Postal Service for approval following agency procedures. If approval is granted, the agency shall follow the U.S. Postal Service permit requirements.

(2) When indicia mail is used, the contractor will be provided with a completed PS Form 3601 and official penalty permit imprint mailing labels, envelopes, or cards printed on the top right side in a rectangular box: Postage and Fees Paid (first line); Government Agency Name (second line); and, the proper permit imprint number (G-000) on the third line. These must also bear in the upper left corner in every case the printed return address of the agency concerned above the printed phrases "Official Business" and "Penalty for Private Use, \$300." The name and address of a private person or firm shall not be shown.

(c) When a contractor uses the contractor's own label for making a shipment to a post office servicing military and other agency consignees outside the United States, the contractor shall stamp or imprint the parcel immediately above the label in 1/4 inch block letters with (i) the name of the

agency and (ii) the words "Official Mail-Contents for Official Use-Exempt from Customs Requirements." This permits identification and expedites handling within the postal system. Use of this marking does not eliminate the requirement for payment of postage by the contractor when so required by the contract or when the contractor is to be reimbursed for the cost of postage.

(d) Contractors may not insure shipments at Government expense for the purpose of recovery in case of loss and/or damage, except that minimum insurance required for the purposes of obtaining receipts at point of origin and upon delivery is authorized.

##### **42.1404-2 Contract clauses.**

(a) The contracting officer shall insert the clause at 52.242-10, F.o.b. Origin—Government Bills of Lading or Prepaid Postage, in solicitations and contracts when f.o.b. origin shipments are to be made using Government bills of lading or prepaid postage.

(b) The contracting officer shall insert the clause at 52.242-11, F.o.b. Origin—Government Bills of Lading or Indicia Mail, in solicitations and contracts when f.o.b. origin shipments are to be made using Government bills of lading or indicia mail, if indicia mail has been authorized by the U.S. Postal Service.

##### **42.1405 Discrepancies incident to shipment of supplies.**

(a) Discrepancies incident to shipment include overage, shortage, loss, damage, and other discrepancies between the quantity and/or condition of supplies received from commercial carriers and the quantity and/or condition of these supplies as shown on the covering bill of lading or other transportation document. Regulations and procedures for reporting and adjusting discrepancies in Government shipments are in Subpart 40.7 of the Federal Property Management Regulations (41 CFR 101-40.7). (Military installations shall consult "Reporting of Transportation Discrepancies in Shipments," AR 55-38, NAVSUP INST 4610.33C, AFR 75-18, MCO P4610.19D, DLAR 4500.15.)

(b) Generally, when the place of delivery is f.o.b. origin, the Government consignee at destination is also accountable for the supplies, and all claims or reports dealing with discrepancies shall be initiated at that point in accordance with the property accountability regulations of the agency concerned.

(c) If supplies are acquired on an f.o.b. destination basis, any claim arising from a discrepancy occurring in transit is a matter for settlement between the contractor and the carrier. However, the Government consignee shall—

(1) Notify the carrier of the discrepancy by noting the exception on the carrier's delivery receipt; and

(2) Furnish all available data to the CAO or appropriate agency office, which shall promptly transmit the data to the contractor.

**42.1406 Report of shipment (REPSHIP).****42.1406-1 Advance notice.**

Military (and as required, civilian agency) storage and distribution points, depots, and other receiving activities require advance notice of shipments en route from contractors' plants. Generally, this notification is required only for classified material; sensitive, controlled, and certain other protected material; explosives, and some other hazardous materials; selected shipments requiring movement control; or minimum carload or truckload shipments. It facilitates arrangements for transportation control, labor, space, and use of materials han-

dling equipment at destination. Also, timely receipt of notices by the consignee transportation office precludes the incurring of demurrage and vehicle detention charges.

**42.1406-2 Contract clause.**

The contracting officer shall insert the clause at 52.242-12, Report of Shipment (REPSHIP), in solicitations and contracts when advance notice of shipment is required for safety or security reasons, or where carload or truckload shipments will be made to DoD installations or, as required, to civilian agency facilities.

## **Subpart 42.15—Contractor Performance Information**

### **42.1500 Scope of subpart.**

This subpart provides policies and establishes responsibilities for recording and maintaining contractor performance information. This subpart does not apply to procedures used by agencies in determining fees under award or incentive fee contracts. However, the fee amount paid to contractors should be reflective of the contractor's performance and the past performance evaluation should closely parallel the fee determinations.

### **42.1501 General.**

Past performance information is relevant information, for future source selection purposes, regarding a contractor's actions under previously awarded contracts. It includes, for example, the contractor's record of conforming to contract requirements and to standards of good workmanship; the contractor's record of forecasting and controlling costs; the contractor's adherence to contract schedules, including the administrative aspects of performance; the contractor's history of reasonable and cooperative behavior and commitment to customer satisfaction; and generally, the contractor's business-like concern for the interest of the customer.

### **42.1502 Policy.**

(a) Except as provided in paragraph (b) of this section, agencies shall prepare an evaluation of contractor performance for each contract in excess of \$1,000,000 (regardless of the date of contract award) and for each contract in excess of \$100,000 beginning not later than January 1, 1998 (regardless of the date of contract award), at the time the work under the contract is completed. In addition, interim evaluations should be prepared as specified by the agencies to provide current information for source selection purposes, for contracts with a period of performance, including options, exceeding one year. This evaluation is generally for the entity, division, or unit that performed the contract. The content and format of performance evaluations shall be established in accordance with agency procedures and should be tailored to the size, content, and complexity of the contractual requirements.

(b) Agencies shall not evaluate performance for contracts awarded under Subparts 8.6 and 8.7. Agencies shall evaluate construction contractor performance and architect/engineer

contractor performance in accordance with 36.201 and 36.604, respectively.

### **42.1503 Procedures.**

(a) Agency procedures for the past performance evaluation system shall generally provide for input to the evaluations from the technical office, contracting office and, where appropriate, end users of the product or service.

(b) Agency evaluations of contractor performance prepared under this subpart shall be provided to the contractor as soon as practicable after completion of the evaluation. Contractors shall be given a minimum of 30 days to submit comments, rebutting statements, or additional information. Agencies shall provide for review at a level above the contracting officer to consider disagreements between the parties regarding the evaluation. The ultimate conclusion on the performance evaluation is a decision of the contracting agency. Copies of the evaluation, contractor response, and review comments, if any, shall be retained as part of the evaluation. These evaluations may be used to support future award decisions, and should therefore be marked "Source Selection Information". The completed evaluation shall not be released to other than Government personnel and the contractor whose performance is being evaluated during the period the information may be used to provide source selection information. Disclosure of such information could cause harm both to the commercial interest of the Government and to the competitive position of the contractor being evaluated as well as impede the efficiency of Government operations. Evaluations used in determining award or incentive fee payments may also be used to satisfy the requirements of this subpart. A copy of the annual or final past performance evaluation shall be provided to the contractor as soon as it is finalized.

(c) Departments and agencies shall share past performance information with other departments and agencies when requested to support future award decisions. The information may be provided through interview and/or by sending the evaluation and comment documents to the requesting source selection official.

(d) Any past performance information systems, including automated systems, used for maintaining contractor performance information and/or evaluations should include appropriate management and technical controls to ensure that only authorized personnel have access to the data.

(e) The past performance information shall not be retained to provide source selection information for longer than three years after completion of contract performance.

---

**Subpart 42.16—Small Business Contract Administration****42.1601 General.**

The contracting officer shall make every reasonable effort to respond in writing within 30 days to any written request to the contracting officer from a small business concern with

respect to a contract administration matter. In the event the contracting officer cannot respond to the request within the 30-day period, the contracting officer shall, within the period, transmit to the contractor a written notification of the specific date the contracting officer expects to respond. This provision shall not apply to a request for a contracting officer decision under the Contract Disputes Act of 1978 (41U.S.C. 601-613).

**Subpart 42.17—Forward Pricing Rate Agreements**

**42.1701 Procedures.**

(a) Negotiation of forward pricing rate agreements (FPRA's) may be requested by the contracting officer or the contractor or initiated by the administrative contracting officer (ACO). In determining whether or not to establish such an agreement, the ACO should consider whether the benefits to be derived from the agreement are commensurate with the effort of establishing and monitoring it. Normally, FPRA's should be negotiated only with contractors having a significant volume of Government contract proposals. The cognizant contract administration agency shall determine whether an FPRA will be established.

(b) The ACO shall obtain the contractor's proposal and require that it include cost or pricing data that are accurate, complete, and current as of the date of submission. The ACO shall invite the cognizant contract auditor and contracting offices having a significant interest to participate in developing a Government objective and in the negotiations. Upon completing negotiations, the ACO shall prepare a price negotiation memorandum (PNM) (see 15.406-3) and forward

copies of the PNM and FPRA to the cognizant auditor and to all contracting offices that are known to be affected by the FPRA. A Certificate of Current Cost or Pricing Data shall not be required at this time (see 15.407-3(c)).

(c) The FPRA shall provide specific terms and conditions covering expiration, application, and data requirements for systematic monitoring to ensure the validity of the rates. The agreement shall provide for cancellation at the option of either party and shall require the contractor to submit to the ACO and to the cognizant contract auditor any significant change in cost or pricing data.

(d) When an FPRA is invalid, the contractor should submit and negotiate a new proposal to reflect the changed conditions. If an FPRA has not been established or has been invalidated, the ACO will issue a forward pricing rate recommendation (FPRR) to buying activities with documentation to assist negotiators. In the absence of an FPRA or FPRR, the ACO shall include support for rates utilized.

(e) The ACO may negotiate continuous updates to the FPRA. The FPRA will provide specific terms and conditions covering notification, application, and data requirements for systematic monitoring to ensure the validity of the rates.

\* \* \* \* \*

## **PART 43—CONTRACT MODIFICATIONS**

*Sec.*

43.000 Scope of part.

### **Subpart 43.1—General**

43.101 Definitions.

43.102 Policy.

43.103 Types of contract modifications.

43.104 Notification of contract changes.

43.105 Availability of funds.

43.106 [Reserved]

43.107 Contract clause.

### **Subpart 43.2—Change Orders**

43.201 General.

43.202 Authority to issue change orders.

43.203 Change order accounting procedures.

43.204 Administration.

43.205 Contract clauses.

### **Subpart 43.3—Forms**

43.301 Use of forms.

This page intentionally left blank.

**43.000 Scope of part.**

This part prescribes policies and procedures for preparing and processing contract modifications for all types of contracts including construction and architect-engineer contracts. It does not apply to—

- (a) Orders for supplies or services not otherwise changing the terms of contracts or agreements (*e.g.*, delivery orders under indefinite-delivery contracts); or
- (b) Modifications for extraordinary contractual relief (see Part 50).

**Subpart 43.1—General****43.101 Definitions.**

As used in this part—

“Administrative change” means a unilateral (see 43.103(b)) contract change, in writing, that does not affect the substantive rights of the parties (*e.g.*, a change in the paying office or the appropriation data).

“Effective date”—

- (1) For a solicitation amendment, change order, or administrative change, the effective date shall be the issue date of the amendment, change order, or administrative change.
- (2) For a supplemental agreement, the effective date shall be the date agreed upon by the contracting parties.
- (3) For a modification issued as a confirming notice of termination for the convenience of the Government, the effective date of the confirming notice shall be the same as the effective date of the initial notice.
- (4) For a modification converting a termination for default to a termination for the convenience of the Government, the effective date shall be the same as the effective date of the termination for default.
- (5) For a modification confirming the termination contracting officer’s previous letter determination of the amount due in settlement of a contract termination for convenience, the effective date shall be the same as the effective date of the previous letter determination.

**43.102 Policy.**

(a) Only contracting officers acting within the scope of their authority are empowered to execute contract modifications on behalf of the Government. Other Government personnel shall not—

- (1) Execute contract modifications;
- (2) Act in such a manner as to cause the contractor to believe that they have authority to bind the Government; or
- (3) Direct or encourage the contractor to perform work that should be the subject of a contract modification.

(b) Contract modifications, including changes that could be issued unilaterally, shall be priced before their execution if this can be done without adversely affecting the interest of the

Government. If a significant cost increase could result from a contract modification and time does not permit negotiation of a price, at least a maximum price shall be negotiated unless impractical.

(c) The Federal Acquisition Streamlining Act of 1994, Public Law 103-355 (FASA), and Section 4402 of the Clinger-Cohen Act of 1996, Public Law 104-106, authorize, but do not require, contracting officers, if requested by the prime contractor, to modify contracts without requiring consideration to incorporate changes authorized by FASA or Clinger-Cohen Act amendments into existing contracts. Contracting officers are encouraged, if appropriate, to modify contracts without requiring consideration to incorporate these new policies. The contract modification should be accomplished by inserting into the contract, as a minimum, the current version of the applicable FAR clauses.

**43.103 Types of contract modifications.**

Contract modifications are of the following types:

(a) *Bilateral*. A bilateral modification (supplemental agreement) is a contract modification that is signed by the contractor and the contracting officer. Bilateral modifications are used to—

- (1) Make negotiated equitable adjustments resulting from the issuance of a change order;
- (2) Definitize letter contracts; and
- (3) Reflect other agreements of the parties modifying the terms of contracts.

(b) *Unilateral*. A unilateral modification is a contract modification that is signed only by the contracting officer. Unilateral modifications are used, for example, to—

- (1) Make administrative changes;
- (2) Issue change orders;
- (3) Make changes authorized by clauses other than a changes clause (*e.g.*, Property clause, Options clause, or Suspension of Work clause); and
- (4) Issue termination notices.

**43.104 Notification of contract changes.**

(a) When a contractor considers that the Government has effected or may effect a change in the contract that has not been identified as such in writing and signed by the contracting officer, it is necessary that the contractor notify the Government in writing as soon as possible. This will permit the Government to evaluate the alleged change and—

- (1) Confirm that it is a change, direct the mode of further performance, and plan for its funding;
- (2) Countermand the alleged change; or
- (3) Notify the contractor that no change is considered to have occurred.

(b) The clause at 52.243-7, Notification of Changes, which is prescribed in 43.107—

(1) Incorporates the policy expressed in paragraph (a) of this section;

(2) Requires the contractor to notify the Government promptly of any Government conduct that the contractor considers a change to the contract, and

(3) Specifies the responsibilities of the contractor and the Government with respect to such notifications.

**43.105 Availability of funds.**

(a) The contracting officer shall not execute a contract modification that causes or will cause an increase in funds without having first obtained a certification of fund availability, except for modifications to contracts that—

(1) Are conditioned on availability of funds (see 32.703-2); or

(2) Contain a limitation of cost or funds clause (see 32.704).

(b) The certification required by paragraph (a) of this section shall be based on the negotiated price, except that

modifications executed before agreement on price may be based on the best available estimate of cost.

**43.106 [Reserved]**

**43.107 Contract clause.**

The contracting officer may insert a clause substantially the same as the clause at 52.243-7, Notification of Changes, in solicitations and contracts. The clause is available for use primarily in negotiated research and development or supply contracts for the acquisition of major weapon systems or principal subsystems. If the contract amount is expected to be less than \$1,000,000, the clause shall not be used, unless the contracting officer anticipates that situations will arise that may result in a contractor alleging that the Government has effected changes other than those identified as such in writing and signed by the contracting officer.

## Subpart 43.2—Change Orders

### 43.201 General.

(a) Generally, Government contracts contain a changes clause that permits the contracting officer to make unilateral changes, in designated areas, within the general scope of the contract. These are accomplished by issuing written change orders on Standard Form 30, Amendment of Solicitation/Modification of Contract (SF 30), unless otherwise provided (see 43.301).

(b) The contractor must continue performance of the contract as changed, except that in cost-reimbursement or incrementally funded contracts the contractor is not obligated to continue performance or incur costs beyond the limits established in the Limitation of Cost or Limitation of Funds clause (see 32.705-2).

(c) The contracting officer may issue a change order by telegraphic message under unusual or urgent circumstances; provided, that—

- (1) Copies of the message are furnished promptly to the same addressees that received the basic contract;
- (2) Immediate action is taken to confirm the change by issuance of a SF 30;
- (3) The message contains substantially the information required by the SF 30 (except that the estimated change in price shall not be indicated), including in the body of the message the statement, “Signed by (Name), Contracting Officer”; and
- (4) The contracting officer manually signs the original copy of the message.

### 43.202 Authority to issue change orders.

Change orders shall be issued by the contracting officer except when authority is delegated to an administrative contracting officer (see 42.202(c)).

### 43.203 Change order accounting procedures.

(a) Contractors’ accounting systems are seldom designed to segregate the costs of performing changed work. Therefore, before prospective contractors submit offers, the contracting officer should advise them of the possible need to revise their accounting procedures to comply with the cost segregation requirements of the Change Order Accounting clause at 52.243-6.

(b) The following categories of direct costs normally are segregable and accountable under the terms of the Change Order Accounting clause:

- (1) Nonrecurring costs (*e.g.*, engineering costs and costs of obsolete or reperformed work).
- (2) Costs of added distinct work caused by the change order (*e.g.*, new subcontract work, new prototypes, or new retrofit or backfit kits).

(3) Costs of recurring work (*e.g.*, labor and material costs).

### 43.204 Administration.

(a) *Change order documentation.* When change orders are not forward priced, they require two documents: the change order and a supplemental agreement reflecting the resulting equitable adjustment in contract terms. If an equitable adjustment in the contract price or delivery terms or both can be agreed upon in advance, only a supplemental agreement need be issued, but administrative changes and changes issued pursuant to a clause giving the Government a unilateral right to make a change (*e.g.*, an option clause) initially require only one document.

(b) *Definitization.* (1) Contracting officers shall negotiate equitable adjustments resulting from change orders in the shortest practicable time.

(2) Administrative contracting officers negotiating equitable adjustments by delegation under 42.302(b)(1), shall obtain the contracting officer’s concurrence before adjusting the contract delivery schedule.

(3) Contracting offices and contract administration offices, as appropriate, shall establish suspense systems adequate to ensure accurate identification and prompt definitization of unpriced change orders.

(4) The contracting officer shall ensure that a cost analysis is made, if appropriate, under 15.404-1(c) and shall consider the contractor’s segregable costs of the change, if available. If additional funds are required as a result of the change, the contracting officer shall secure the funds before making any adjustment to the contract.

(5) When the contracting officer requires a field pricing review of requests for equitable adjustment, the contracting officer shall provide a list of any significant contract events which may aid in the analysis of the request. This list should include—

- (i) Date and dollar amount of contract award and/or modification;
- (ii) Date of submission of initial contract proposal and dollar amount;
- (iii) Date of alleged delays or disruptions;
- (iv) Performance dates as scheduled at date of award and/or modification;
- (v) Actual performance dates;
- (vi) Date entitlement to an equitable adjustment was determined or contracting officer decision was rendered if applicable;
- (vii) Date of certification of the request for adjustment if certification is required; and
- (viii) Dates of any pertinent Government actions or other key events during contract performance which may have an impact on the contractor’s request for equitable adjustment.

(c) *Complete and final equitable adjustments.* To avoid subsequent controversies that may result from a supplemental agreement containing an equitable adjustment as the result of a change order, the contracting officer should—

(1) Ensure that all elements of the equitable adjustment have been presented and resolved; and

(2) Include, in the supplemental agreement, a release similar to the following:

CONTRACTOR'S STATEMENT OF RELEASE

In consideration of the modification(s) agreed to herein as complete equitable adjustments for the Contractor's \_\_\_\_\_ (describe) \_\_\_\_\_ "proposal(s) for adjustment," the Contractor hereby releases the Government from any and all liability under this contract for further equitable adjustments attributable to such facts or circumstances giving rise to the "proposal(s) for adjustment" (except for \_\_\_\_\_).

**43.205 Contract clauses.**

(a)(1) The contracting officer shall insert the clause at 52.243-1, Changes—Fixed-Price, in solicitations and contracts when a fixed-price contract for supplies is contemplated.

(2) If the requirement is for services, other than architect-engineer or other professional services, and no supplies are to be furnished, the contracting officer shall use the clause with its Alternate I.

(3) If the requirement is for services (other than architect-engineer services, transportation, or research and development) and supplies are to be furnished, the contracting officer shall use the clause with its Alternate II.

(4) If the requirement is for architect-engineer or other professional services, the contracting officer shall use the clause with its Alternate III.

(5) If the requirement is for transportation services, the contracting officer shall use the clause with its Alternate IV.

(6) If it is desired to include the clause in solicitations and contracts when a research and development contract is contemplated, the contracting officer shall use the clause with its Alternate V.

(b)(1) The contracting officer shall insert the clause at 52.243-2, Changes—Cost-Reimbursement, in solicitations and contracts when a cost-reimbursement contract for supplies is contemplated.

(2) If the requirement is for services and no supplies are to be furnished, the contracting officer shall use the clause with its Alternate I.

(3) If the requirement is for services and supplies are to be furnished, the contracting officer shall use the clause with its Alternate II.

(4) If the requirement is for construction, the contracting officer shall use the clause with its Alternate III.

(5) If a facilities contract is contemplated, the contracting officer shall use the clause with its Alternate IV.

(6) If it is desired to include the clause in solicitations and contracts when a research and development contract is contemplated, the contracting officer shall use the clause with its Alternate V.

(c) Insert the clause at 52.243-3, Changes—Time-and-Materials or Labor-Hours, in solicitations and contracts when a time-and-materials or labor-hour contract is contemplated. The contracting officer may vary the 30-day period in paragraph (c) of the clause according to agency procedures.

(d) The contracting officer shall insert the clause at 52.243-4, Changes, in solicitations and contracts for—

(1) Dismantling, demolition, or removal of improvements; and

(2) Construction, when a fixed-price contract is contemplated and the contract amount is expected to exceed the simplified acquisition threshold.

(e) The contracting officer shall insert the clause at 52.243-5, Changes and Changed Conditions, in solicitations and contracts for construction, when the contract amount is not expected to exceed the simplified acquisition threshold.

(f) The contracting officer may insert a clause, substantially the same as the clause at 52.243-6, Change Order Accounting, in solicitations and contracts for supply and research and development contracts of significant technical complexity, if numerous changes are anticipated. The clause may be included in solicitations and contracts for construction if deemed appropriate by the contracting officer.

**Subpart 43.3—Forms**

**43.301 Use of forms.**

(a)(1) The Standard Form 30 (SF 30), Amendment of Solicitation/Modification of Contract, shall (except for the options stated in 43.301(a)(2) or actions processed under Part 15) be used for—

- (i) Any amendment to a solicitation;
- (ii) Change orders issued under the Changes clause of the contract;
- (iii) Any other unilateral contract modification issued under a contract clause authorizing such modification without the consent of the contractor;

(iv) Administrative changes such as the correction of typographical mistakes, changes in the paying office, and changes in accounting and appropriation data;

- (v) Supplemental agreements (see 43.103); and
- (vi) Removal, reinstatement, or addition of funds to a contract.

(2) The SF 30 may be used for—

- (i) Modifications that change the price of contracts for the acquisition of petroleum as a result of economic price adjustment;
- (ii) Termination notices; and
- (iii) Purchase order modifications as specified in 13.302-3.

(3) If it is anticipated that a change will result in a price change, the estimated amount of the price change shall not be shown on copies of SF 30 furnished to the contractor.

(b) The Optional Form 336 (OF 336), Continuation Sheet, or a blank sheet of paper, may be used as a continuation sheet for a contract modification.

44.302 Requirements.

44.303 Extent of review.

44.304 Surveillance.

44.305 Granting, withholding, or withdrawing approval.

44.305-1 Responsibilities.

44.305-2 Notification.

44.305-3 Withholding or withdrawing approval.

44.306 Disclosure of approval status.

44.307 Reports.

### **Subpart 44.4—Subcontracts for Commercial Items and Commercial Components**

44.400 Scope of subpart.

44.401 Applicability.

44.402 Policy requirements.

44.403 Contract clause.

This page intentionally left blank.

**44.000 Scope of part.**

(a) This part prescribes policies and procedures for consent to subcontracts or advance notification of subcontracts, and for review, evaluation, and approval of contractors' purchasing systems.

(b) The consent and advance notification requirements of Subpart 44.2 are not applicable to prime contracts for commercial items acquired pursuant to Part 12.

**Subpart 44.1—General****44.101 Definitions.**

As used in this part—

“Approved purchasing system” means a contractor's purchasing system that has been reviewed and approved in accordance with this part.

“Contractor” means the total contractor organization or a separate entity of it, such as an affiliate, division, or plant, that performs its own purchasing.

“Contractor purchasing system review (CPSR)” means the complete evaluation of a contractor's purchasing of material and services, subcontracting, and subcontract management from development of the requirement through completion of subcontract performance.

“Facilities” (see 45.301).

“Subcontract” means any contract as defined in Subpart 2.1 entered into by a subcontractor to furnish supplies or services for performance of a prime contract or a subcontract. It includes but is not limited to purchase orders, and changes and modifications to purchase orders.

“Subcontractor” means any supplier, distributor, vendor, or firm that furnishes supplies or services to or for a prime contractor or another subcontractor.

**Subpart 44.2—Consent to Subcontracts**

**44.201 Consent and advance notification requirements.**

**44.201-1 Consent requirements.**

(a) If the contractor has an approved purchasing system, consent is required for subcontracts specifically identified by the contracting officer in the subcontracts clause of the contract. The contracting officer may require consent to subcontract if the contracting officer has determined that an individual consent action is required to protect the Government adequately because of the subcontract type, complexity, or value, or because the subcontract needs special surveillance. These can be subcontracts for critical systems, subsystems, components, or services. Subcontracts may be identified by subcontract number or by class of items (*e.g.*, subcontracts for engines on a prime contract for airframes).

(b) If the contractor does not have an approved purchasing system, consent to subcontract is required for cost-reimbursement, time-and-materials, labor-hour, or letter contracts, and also for unpriced actions (including unpriced modifications and unpriced delivery orders) under fixed-price contracts that exceed the simplified acquisition threshold, for—

(1) Cost-reimbursement, time-and-materials, or labor-hour subcontracts; and

(2) Fixed-price subcontracts that exceed—

(i) For the Department of Defense, the Coast Guard, and the National Aeronautics and Space Administration, the greater of the simplified acquisition threshold or 5 percent of the total estimated cost of the contract; or

(ii) For civilian agencies other than the Coast Guard and the National Aeronautics and Space Administration, either the simplified acquisition threshold or 5 percent of the total estimated cost of the contract.

(c) Consent may be required for subcontracts under prime contracts for architect-engineer services.

(d) The contracting officer's written authorization for the contractor to purchase from Government sources (see Part 51) constitutes consent.

**44.201-2 Advance notification requirements.**

Under cost-reimbursement contracts, even if the contractor has an approved purchasing system and consent to subcontract is not required under 44.201-1, the contractor is required by statute (10 U.S.C. 2306(e) or 41 U.S.C. 254(b)) to notify the agency before the award of—

(a) Any cost-plus-fixed-fee subcontract; or

(b) Any fixed-price subcontract that exceeds—

(1) For the Department of Defense, the Coast Guard, and the National Aeronautics and Space Administration, the greater of the simplified acquisition threshold or 5 percent of the total estimated cost of the contract; or

(2) For civilian agencies other than the Coast Guard and the National Aeronautics and Space Administration, either the simplified acquisition threshold or 5 percent of the total estimated cost of the contract.

**44.202 Contracting officer's evaluation.**

**44.202-1 Responsibilities.**

(a) The cognizant administrative contracting officer (ACO) is responsible for consent to subcontracts, except when the contracting officer retains the contract for administration or withholds the consent responsibility from delegation to the ACO. In such cases, the contract administration office should assist the contracting office in its evaluation as requested.

(b) The contracting officer responsible for consent shall review the contractor's notification and supporting data to ensure that the proposed subcontract is appropriate for the risks involved and consistent with current policy and sound business judgment.

(c) Designation of specific subcontractors during contract negotiations does not in itself satisfy the requirements for advance notification or consent pursuant to the clause at 52.244-2. However, if, in the opinion of the contracting officer, the advance notification or consent requirements were satisfied for certain subcontracts evaluated during negotiations, the contracting officer shall identify those subcontracts in paragraph (k) of the clause at 52.244-2.

**44.202-2 Considerations.**

(a) The contracting officer responsible for consent must, at a minimum, review the request and supporting data and consider the following:

(1) Is the decision to subcontract consistent with the contractor's approved make-or-buy program, if any (see 15.407-2)?

(2) Is the subcontract for special test equipment or facilities that are available from Government sources (see Subpart 45.3)?

(3) Is the selection of the particular supplies, equipment, or services technically justified?

(4) Has the contractor complied with the prime contract requirements regarding—

(i) Small business subcontracting, including, if applicable, its plan for subcontracting with small, veteran-owned, service-disabled veteran-owned, HUBZone, small disadvantaged and women-owned small business concerns (see Part 19); and

(ii) Purchase from nonprofit agencies designated by the Committee for Purchase From People Who Are Blind or Severely Disabled (Javits-Wagner-O'Day Act (JWOD) (41 U.S.C. 48)) (see Part 8)?

(5) Was adequate price competition obtained or its absence properly justified?

(6) Did the contractor adequately assess and dispose of subcontractors' alternate proposals, if offered?

(7) Does the contractor have a sound basis for selecting and determining the responsibility of the particular subcontractor?

(8) Has the contractor performed adequate cost or price analysis or price comparisons and obtained accurate, complete, and current cost or pricing data, including any required certifications?

(9) Is the proposed subcontract type appropriate for the risks involved and consistent with current policy?

(10) Has adequate consideration been obtained for any proposed subcontract that will involve the use of Government-furnished facilities?

(11) Has the contractor adequately and reasonably translated prime contract technical requirements into subcontract requirements?

(12) Does the prime contractor comply with applicable cost accounting standards for awarding the subcontract?

(13) Is the proposed subcontractor on the List of Parties Excluded from Federal Procurement and Nonprocurement Programs (see Subpart 9.4)?

(b) Particularly careful and thorough consideration under paragraph (a) of this section is necessary when—

(1) The prime contractor's purchasing system or performance is inadequate;

(2) Close working relationships or ownership affiliations between the prime and subcontractor may preclude free competition or result in higher prices;

(3) Subcontracts are proposed for award on a non-competitive basis, at prices that appear unreasonable, or at prices higher than those offered to the Government in comparable circumstances; or

(4) Subcontracts are proposed on a cost-reimbursement, time-and-materials, or labor-hour basis.

#### 44.203 Consent limitations.

(a) The contracting officer's consent to a subcontract or approval of the contractor's purchasing system does not constitute a determination of the acceptability of the subcontract terms or price, or of the allowability of costs, unless the consent or approval specifies otherwise.

(b) Contracting officers shall not consent to—

(1) Cost-reimbursement subcontracts if the fee exceeds the fee limitations of 16.301-3;

(2) Subcontracts providing for payment on a cost-plus-a-percentage-of-cost basis;

(3) Subcontracts obligating the contracting officer to deal directly with the subcontractor;

(4) Subcontracts that make the results of arbitration, judicial determination, or voluntary settlement between the prime contractor and subcontractor binding on the Government; or

(5) Repetitive or unduly protracted use of cost-reimbursement, time-and-materials, or labor-hour subcontracts (contracting officers should follow the principles of 16.103(c)).

(c) Contracting officers should not refuse consent to a subcontract merely because it contains a clause giving the subcontractor the right of indirect appeal to an agency board of contract appeals if the subcontractor is affected by a dispute between the Government and the prime contractor. Indirect appeal means assertion by the subcontractor of the prime contractor's right to appeal or the prosecution of an appeal by the prime contractor on the subcontractor's behalf. The clause may also provide that the prime contractor and subcontractor shall be equally bound by the contracting officer's or board's decision. The clause may not attempt to obligate the contracting officer or the appeals board to decide questions that do not arise between the Government and the prime contractor or that are not cognizable under the clause at 52.233-1, Disputes.

#### 44.204 Contract clauses.

(a)(1) The contracting officer shall insert the clause at 52.244-2, Subcontracts, in solicitations and contracts when contemplating—

(i) A cost-reimbursement contract;

(ii) A letter contract that exceeds the simplified acquisition threshold;

(iii) A fixed-price contract that exceeds the simplified acquisition threshold under which unpriced contract actions (including unpriced modifications or unpriced delivery orders) are anticipated;

(iv) A time-and-materials contract that exceeds the simplified acquisition threshold; or

(v) A labor-hour contract that exceeds the simplified acquisition threshold.

(2) If a cost-reimbursement contract is contemplated—

(i) For the Department of Defense, the Coast Guard, and the National Aeronautics and Space Administration, the contracting officer shall use the clause with its Alternate I; or

(ii) For civilian agencies other than the Coast Guard and the National Aeronautics and Space Administration, the contracting officer shall use the clause with its Alternate II.

- (3) Use of this clause is not required in—
- (i) Fixed-price architect-engineer contracts; or
  - (ii) Contracts for mortuary services, refuse services, or shipment and storage of personal property, when an agency-prescribed clause on approval of subcontractors' facilities is required.
- (b) The contracting officer may insert the clause at 52.244-4, Subcontractors and Outside Associates and Consultants (Architect-Engineer Services), in architect-engineer contracts.
- (c) The contracting officer shall, when contracting by negotiation, insert the clause at 52.244-5, Competition in Subcontracting, in solicitations and contracts when the contract amount is expected to exceed the simplified acquisition threshold, unless—
- (1) A firm-fixed-price contract, awarded on the basis of adequate price competition or whose prices are set by law or regulation, is contemplated; or
  - (2) A time-and-materials, labor-hour, or architect-engineer contract is contemplated.

## Subpart 44.3—Contractors' Purchasing Systems Reviews

### 44.301 Objective.

The objective of a contractor purchasing system review (CPSR) is to evaluate the efficiency and effectiveness with which the contractor spends Government funds and complies with Government policy when subcontracting. The review provides the administrative contracting officer (ACO) a basis for granting, withholding, or withdrawing approval of the contractor's purchasing system.

### 44.302 Requirements.

(a) The ACO shall determine the need for a CPSR based on, but not limited to, the past performance of the contractor, and the volume, complexity and dollar value of subcontracts. If a contractor's sales to the Government (excluding competitively awarded firm-fixed-price and competitively awarded fixed-price with economic price adjustment contracts and sales of commercial items pursuant to Part 12) are expected to exceed \$25 million during the next 12 months, perform a review to determine if a CPSR is needed. Sales include those represented by prime contracts, subcontracts under Government prime contracts, and modifications. Generally, a CPSR is not performed for a specific contract. The head of the agency responsible for contract administration may raise or lower the \$25 million review level if it is considered to be in the Government's best interest.

(b) Once an initial determination has been made under paragraph (a) of this section, at least every three years the ACO shall determine whether a purchasing system review is necessary. If necessary, the cognizant contract administration office will conduct a purchasing system review.

### 44.303 Extent of review.

A CPSR requires an evaluation of the contractor's purchasing system. Unless segregation of subcontracts is impracticable, this evaluation shall not include subcontracts awarded by the contractor exclusively in support of Government contracts that are competitively awarded firm-fixed-price, competitively awarded fixed-price with economic price adjustment, or awarded for commercial items pursuant to Part 12. The considerations listed in 44.202-2 for consent evaluation of particular subcontracts also shall be used to evaluate the contractor's purchasing system, including the contractor's policies, procedures, and performance under that system. Special attention shall be given to—

- (a) The degree of price competition obtained;
- (b) Pricing policies and techniques, including methods of obtaining accurate, complete, and current cost or pricing data and certification as required;
- (c) Methods of evaluating subcontractor responsibility, including the contractor's use of the List of Parties Excluded

from Federal Procurement and Nonprocurement Programs (see 9.404) and, if the contractor has subcontracts with parties on the list, the documentation, systems, and procedures the contractor has established to protect the Government's interests (see 9.405-2);

(d) Treatment accorded affiliates and other concerns having close working arrangements with the contractor;

(e) Policies and procedures pertaining to small business concerns, including small disadvantaged and women-owned small business concerns;

(f) Planning, award, and postaward management of major subcontract programs;

(g) Compliance with Cost Accounting Standards in awarding subcontracts;

(h) Appropriateness of types of contracts used (see 16.103); and

(i) Management control systems, including internal audit procedures, to administer progress payments to subcontractors.

### 44.304 Surveillance.

(a) The ACO shall maintain a sufficient level of surveillance to ensure that the contractor is effectively managing its purchasing program.

(b) Surveillance shall be accomplished in accordance with a plan developed by the ACO with the assistance of subcontracting, audit, pricing, technical, or other specialists as necessary. The plan should cover pertinent phases of a contractor's purchasing system (preaward, postaward, performance, and contract completion) and pertinent operations that affect the contractor's purchasing and subcontracting. The plan should also provide for reviewing the effectiveness of the contractor's corrective actions taken as a result of previous Government recommendations. Duplicative reviews of the same areas by CPSR and other surveillance monitors should be avoided.

### 44.305 Granting, withholding, or withdrawing approval.

#### 44.305-1 Responsibilities.

The cognizant ACO is responsible for granting, withholding, or withdrawing approval of a contractor's purchasing system. The ACO shall—

(a) Approve a purchasing system only after determining that the contractor's purchasing policies and practices are efficient and provide adequate protection of the Government's interests; and

(b) Promptly notify the contractor in writing of the granting, withholding, or withdrawal of approval.

#### 44.305-2 Notification.

(a) The notification granting system approval shall include—

(1) Identification of the plant or plants covered by the approval;

(2) The effective date of approval; and

(3) A statement that system approval—

(i) Applies to all Federal Government contracts at that plant to the extent that cross-servicing arrangements exist;

(ii) Waives the contractual requirement for advance notification in fixed-price contracts, but not for cost-reimbursement contracts;

(iii) Waives the contractual requirement for consent to subcontracts in fixed-price contracts and for specified subcontracts in cost-reimbursement contracts but not for those subcontracts, if any, selected for special surveillance and identified in the contract Schedule; and

(iv) May be withdrawn at any time at the ACO's discretion.

(b) In exceptional circumstances, consent to certain subcontracts or classes of subcontracts may be required even though the contractor's purchasing system has been approved. The system approval notification shall identify the class or classes of subcontracts requiring consent. Reasons for selecting the subcontracts include the fact that a CPSR or continuing surveillance has revealed sufficient weaknesses in a particular area of subcontracting to warrant special attention by the ACO.

(c) When recommendations are made for improvement of an approved system, the contractor shall be requested to reply within 15 days with a position regarding the recommendations.

#### **44.305-3 Withholding or withdrawing approval.**

(a) The ACO shall withhold or withdraw approval of a contractor's purchasing system when there are major weaknesses or when the contractor is unable to provide sufficient information upon which to make an affirmative determination. The ACO may withdraw approval at any time on the basis of a determination that there has been a deterioration of the contractor's purchasing system or to protect the Govern-

ment's interest. Approval shall be withheld or withdrawn when there is a recurring noncompliance with requirements, including but not limited to—

(1) Cost or pricing data (see 15.403);

(2) Implementation of cost accounting standards (see 48 CFR Chapter 99 (FAR Appendix, loose-leaf edition));

(3) Advance notification as required by the clauses prescribed in 44.204; or

(4) Small business subcontracting (see Subpart 19.7).

(b) When approval of the contractor's purchasing system is withheld or withdrawn, the ACO shall within 10 days after completing the in-plant review (1) inform the contractor in writing, (2) specify the deficiencies that must be corrected to qualify the system for approval, and (3) request the contractor to furnish within 15 days a plan for accomplishing the necessary actions. If the plan is accepted, the ACO shall make a follow-up review as soon as the contractor notifies the ACO that the deficiencies have been corrected.

#### **44.306 Disclosure of approval status.**

Upon request, the ACO may inform a contractor that the purchasing system of a proposed subcontractor has been approved or disapproved, but shall caution that the Government will not keep the contractor advised of any changes in the approval status. If the proposed subcontractor's purchasing system has not been reviewed, the contractor shall be so advised.

#### **44.307 Reports.**

The ACO shall distribute copies of CPSR reports; notifications granting, withholding, or withdrawing system approval; and Government recommendations for improvement of an approved system, including the contractor's response, to at least—

(a) The cognizant contract audit office;

(b) Activities prescribed by the cognizant agency; and

(c) The contractor (except that furnishing copies of the contractor's response is optional).

**Subpart 44.4—Subcontracts for Commercial Items and Commercial Components**

**44.400 Scope of subpart.**

This subpart prescribes the policies limiting the contract clauses a prime contractor may be required to apply to any subcontractors that are furnishing commercial items or commercial components in accordance with Section 8002(b)(2) (Public Law 103-355).

**44.401 Applicability.**

This subpart applies to all contracts and subcontracts. For the purpose of this subpart, the term “subcontract” has the same meaning as defined in Part 12.

**44.402 Policy requirements.**

(a) Contractors and subcontractors at all tiers shall, to the maximum extent practicable:

(1) Be required to incorporate commercial items or non-developmental items as components of items delivered to the Government; and

(2) Not be required to apply to any of its divisions, subsidiaries, affiliates, subcontractors or suppliers that are furnishing commercial items or commercial components any clause, except those—

(i) Required to implement provisions of law or executive orders applicable to subcontractors furnishing commercial items or commercial components; or

(ii) Determined to be consistent with customary commercial practice for the item being acquired.

(b) The clause at 52.244-6, Subcontracts for Commercial Items and Commercial Components, implements the policy in paragraph (a) of this section. Notwithstanding any other clause in the prime contract, only those clauses identified in the clause at 52.244-6 are required to be in subcontracts for commercial items or commercial components.

(c) Agencies may supplement the clause at 52.244-6 only as necessary to reflect agency unique statutes applicable to the acquisition of commercial items.

**44.403 Contract clause.**

The contracting officer shall insert the clause at 52.244-6, Subcontracts for Commercial Items and Commercial Components, in solicitations and contracts for supplies or services other than commercial items.

## PART 45—GOVERNMENT PROPERTY

Sec.

- 45.000 Scope of part.
- Subpart 45.1—General**
- 45.101 Definitions.
- 45.102 Policy.
- 45.103 Responsibility and liability for Government property.
- 45.104 Review and correction of contractors' property control systems.
- 45.105 Records of Government property.
- 45.106 Government property clauses.
- Subpart 45.2—Competitive Advantage**
- 45.201 General.
- 45.202 Evaluation procedures.
- 45.202-1 Rental equivalents.
- 45.202-2 Rent.
- 45.202-3 Other costs and savings.
- 45.203 Postaward utilization requests.
- 45.204 Residual value of special tooling and special test equipment.
- 45.205 Solicitation requirements.
- Subpart 45.3—Providing Government Property to Contractors**
- 45.300 Scope of subpart.
- 45.301 Definitions.
- 45.302 Providing facilities.
- 45.302-1 Policy.
- 45.302-2 Facilities contracts.
- 45.302-3 Other contracts.
- 45.302-4 Contractor use of Government-owned and -operated test facilities.
- 45.302-5 Standby or layaway requirements.
- 45.302-6 Required Government property clauses for facilities contracts.
- 45.302-7 Optional property-related clauses for facilities contracts.
- 45.303 Providing material.
- 45.303-1 Policy.
- 45.303-2 Procedures.
- 45.304 Providing motor vehicles.
- 45.305 [Reserved]
- 45.306 Providing special tooling.
- 45.306-1 Providing existing special tooling.
- 45.306-2 Special tooling under cost-reimbursement contracts.
- 45.306-3 Special tooling under fixed-price contracts.
- 45.306-4 [Reserved]
- 45.306-5 Contract clause.
- 45.307 Providing special test equipment.
- 45.307-1 General.
- 45.307-2 Acquiring special test equipment.
- 45.307-3 Contract clause.
- 45.308 Providing Government production and research property “as is.”
- 45.308-1 General.
- 45.308-2 Contract clause.
- 45.309 Providing Government production and research property under special restrictions.
- 45.310 Providing agency-peculiar property.
- 45.311 Providing Government property by transfer.
- Subpart 45.4—Contractor Use and Rental of Government Property**
- 45.400 Scope of subpart.
- 45.401 Policy.
- 45.402 Authorizing use of Government production and research property.
- 45.403 Rental—Use and Charges clause.
- 45.404 Rent-free use.
- 45.405 Contracts with foreign governments or international organizations.
- 45.406 Use of Government production and research property on independent research and development programs.
- 45.407 Non-Government use of plant equipment.
- Subpart 45.5—Management of Government Property in the Possession of Contractors**
- 45.500 Scope of subpart.
- 45.501 Definitions.
- 45.502 Contractor responsibility.
- 45.502-1 Receipts for Government property.
- 45.502-2 Discrepancies incident to shipment.
- 45.503 Relief from responsibility.
- 45.504 Contractor’s liability.
- 45.505 Records and reports of Government property.
- 45.505-1 Basic information.
- 45.505-2 Records of pricing information.
- 45.505-3 Records of material.
- 45.505-4 Records of special tooling and special test equipment.
- 45.505-5 Records of plant equipment.
- 45.505-6 Special reports of plant equipment.
- 45.505-7 Records of real property.
- 45.505-8 Records of scrap or salvage.
- 45.505-9 Records of related data and information.
- 45.505-10 Records of completed products.
- 45.505-11 Records of transportation and installation costs of plant equipment.
- 45.505-12 Records of misdirected shipments.
- 45.505-13 Records of property returned for rework.
- 45.505-14 Reports of Government property.
- 45.506 Identification.
- 45.507 Segregation of Government property.

- 
- 45.508 Physical inventories.
  - 45.508-1 Inventories upon termination or completion.
  - 45.508-2 Reporting results of inventories.
  - 45.508-3 Quantitative and monetary control.
  - 45.509 Care, maintenance, and use.
  - 45.509-1 Contractor's maintenance program.
  - 45.509-2 Use of Government property.
  - 45.510 Property in possession of subcontractors.
  - 45.511 Audit of property control system.
- Subpart 45.6—Reporting, Redistribution, and Disposal of Contractor Inventory**
- 45.600 Scope of subpart.
  - 45.601 Definitions.
  - 45.602 [Reserved]
  - 45.603 Disposal methods.
  - 45.604 Restrictions on purchase or retention of contractor inventory.
  - 45.605 Contractor-acquired property.
  - 45.605-1 Purchase or retention at cost.
  - 45.605-2 Return to suppliers.
  - 45.605-3 Cost-reimbursement contracts.
  - 45.606 Inventory schedules.
  - 45.606-1 Submission.
  - 45.606-2 Common items.
  - 45.606-3 Acceptance.
  - 45.606-4 Withdrawals.
  - 45.606-5 Instructions for preparing and submitting schedules of contractor inventory.
  - 45.607 Scrap.
  - 45.607-1 General.
  - 45.607-2 Recovering precious metals.
  - 45.608 Screening of contractor inventory.
  - 45.608-1 General.
  - 45.608-2 Standard screening.
  - 45.608-3 Agency screening.
  - 45.608-4 Limited screening.
  - 45.608-5 Special items screening.
  - 45.608-6 Waiver of screening requirements.
  - 45.608-7 Reimbursement of costs for transfer of contractor inventory.
  - 45.608-8 Report of excess personal property (SF 120).
  - 45.609 Donations.
  - 45.610 Sale of surplus contractor inventory.
  - 45.610-1 Responsibility.
  - 45.610-2 Exemptions from sale by GSA.
  - 45.610-3 Proceeds of sale.
  - 45.610-4 Contractor inventory in foreign countries.
  - 45.611 Destruction or abandonment.
  - 45.612 Removal and storage.
  - 45.612-1 General.
  - 45.612-2 Special storage at the contractor's risk.
  - 45.612-3 Special storage at the Government's expense.
  - 45.613 Property disposal determinations.
  - 45.614 Subcontractor inventory.
  - 45.615 Accounting for contractor inventory.

**45.000 Scope of part.**

This part prescribes policies and procedures for providing Government property to contractors, contractors' use and management of Government property, and reporting, redistributing, and disposing of contractor inventory. It does not apply to providing property under any statutory leasing authority, except as to non-Government use of plant equipment under 45.407; to property to which the Government has acquired a lien or title solely because of partial, advance, or progress payments; or to disposal of real property.

**Subpart 45.1—General****45.101 Definitions.**

(a) "Contractor-acquired property," as used in this part, means property acquired or otherwise provided by the contractor for performing a contract and to which the Government has title.

"Government-furnished property," as used in this part, means property in the possession of, or directly acquired by, the Government and subsequently made available to the contractor.

"Government property," means all property owned by or leased to the Government or acquired by the Government under the terms of the contract. It includes both Government-furnished property and contractor-acquired property as defined in this section.

"Plant equipment," as used in this part, means personal property of a capital nature (including equipment, machine tools, test equipment, furniture, vehicles, and accessory and auxiliary items) for use in manufacturing supplies, in performing services, or for any administrative or general plant purpose. It does not include special tooling or special test equipment.

"Property," as used in this part, means all property, both real and personal. It includes facilities, material, special tooling, special test equipment, and agency-peculiar property.

"Real property," as used in this part, means land and rights in land, ground improvements, utility distribution systems, and buildings and other structures. It does not include foundations and other work necessary for installing special tooling, special test equipment, or plant equipment.

"Special test equipment," as used in this part, means either single or multipurpose integrated test units engineered, designed, fabricated, or modified to accomplish special purpose testing in performing a contract. It consists of items or assemblies of equipment including standard or general purpose items or components that are interconnected and interdependent so as to become a new functional entity for special testing purposes. It does not include material, special tooling, facilities (except foundations and similar improvements necessary for installing special test equipment), and plant equipment items used for general plant testing purposes.

"Special tooling," as used in this part, means jigs, dies, fixtures, molds, patterns, taps, gauges, other equipment and manufacturing aids, all components of these items, and replacement of these items, which are of such a specialized nature that without substantial modification or alteration their use is limited to the development or production of particular supplies or parts thereof or to the performance of particular services. It does not include material, special test equipment, facilities (except foundations and similar improvements necessary for installing special tooling), general or special machine tools, or similar capital items.

(b) Additional definitions also applying throughout this part appear in those subparts where the terms are most frequently used.

**45.102 Policy.**

Contractors are ordinarily required to furnish all property necessary to perform Government contracts. However, if contractors possess Government property, agencies shall—

(a) Eliminate to the maximum practical extent any competitive advantage that might arise from using such property;

(b) Require contractors to use Government property to the maximum practical extent in performing Government contracts;

(c) Permit the property to be used only when authorized;

(d) Charge appropriate rentals when the property is authorized for use on other than a rent-free basis;

(e) Require contractors to be responsible and accountable for, and keep the Government's official records of Government property in their possession or control (but see 45.105);

(f) Require contractors to review and provide justification for retaining Government property not currently in use; and

(g) Ensure maximum practical reutilization of contractor inventory (see 45.601) within the Government.

**45.103 Responsibility and liability for Government property.**

(a) Contractors are responsible and liable for Government property in their possession, unless otherwise provided by the contract.

(b) Generally, Government contracts do not hold contractors liable for loss of or damage to Government property when the property is provided under—

(1) Negotiated fixed-price contracts for which the contract price is not based upon an exception at 15.403-1;

(2) Cost-reimbursement contracts;

(3) Facilities contracts; or

(4) Negotiated or sealed bid service contracts performed on a Government installation where the contracting officer determines that the contractor has little direct control over the Government property because it is located on a Government

installation and is subject to accessibility by personnel other than the contractor's employees and that by placing the risk on the contractor, the cost of the contract would be substantially increased.

(c) When justified by the circumstances, the contract may require the contractor to assume greater liability for loss of or damage to Government property than that contemplated by the Government property clauses or the clause at 52.245 8, Liability for the Facilities. For example, this may be the case when the contractor is using Government property primarily for commercial work rather than Government work.

(d) If the Government provides Government property directly to a subcontractor, the terms of paragraph (b) of this section shall apply to the subcontractor.

(e) Subcontractors are liable for loss of or damage to Government property furnished through a prime contractor. However, if the prime contract is of a type listed in paragraph (b)(1) or (2) of this section, the prime contractor may, after obtaining the contracting officer's consent, reduce the subcontractor's liability by including in the subcontract a clause similar to paragraph (g), Limited risk of loss, as provided in Alternate I of the clause at 52.245-2, Government Property (Fixed-Price Contracts), (for fixed-price contracts) or similar to the same paragraph of the clause at 52.245-5, Government Property (Cost-Reimbursement, Time-and-Material, or Labor-Hour Contracts) (for cost-reimbursement contracts). Before consenting to a clause that reduces the subcontractor's liability, the contracting officer should ensure that the Government's interests are sufficiently protected.

(f) A prime contractor that provides Government property to a subcontractor shall not be relieved of any responsibility to the Government that the prime contractor may have under the terms of the prime contract.

#### **45.104 Review and correction of contractors' property control systems.**

(a) The review and approval of a contractor's property control system shall be accomplished by the agency responsible for contract administration at a contractor's plant or installation. The review and approval of a contractor's property control system by one agency shall be binding on all other departments and agencies based on interagency agreements.

(b) The contracting officer or the representative assigned the responsibility as property administrator shall review contractors' property control systems to ensure compliance with the Government property clauses of the contract.

(c) The property administrator shall notify the contractor in writing when its property control system does not comply with Subpart 45.5 or other contract requirements and shall request prompt correction of deficiencies. If the contractor does not correct the deficiencies within a reasonable period, the property administrator shall request action by the con-

tracting officer administering the contract. The contracting officer shall—

(1) Notify the contractor in writing of any required corrections and establish a schedule for completion of actions;

(2) Caution the contractor that failure to take the required corrective actions within the time specified will result in withholding or withdrawing system approval; and

(3) Advise the contractor that its liability for loss of or damage to Government property may increase if approval is withheld or withdrawn.

#### **45.105 Records of Government property.**

(a) Contractor records of Government property established and maintained under the terms of the contract are the Government's official Government property records. Duplicate official records shall not be furnished to or maintained by Government personnel, except as provided in paragraph (b) of this section.

(b) Contracts may provide for the contracting office to maintain the Government's official Government property records when the contracting office retains contract administration and Government property is furnished to a contractor—

(1) For repair or servicing and return to the shipping organization;

(2) For use on a Government installation;

(3) Under a local support service contract;

(4) Under a contract with a short performance period; or

(5) When otherwise determined by the contracting officer to be in the Government's interest.

#### **45.106 Government property clauses.**

This section prescribes the principal Government property clauses. Other clauses pertaining to Government property are prescribed in Subpart 45.3.

(a) The contracting officer shall insert the clause at 52.245-1, Property Records, in solicitations and contracts when the conditions in 45.105(b) exist and the Government maintains the Government's official Government property records.

(b)(1) The contracting officer shall insert the clause at 52.245-2, Government Property (Fixed-Price Contracts), in solicitations and contracts when a fixed-price contract is contemplated, except as provided in paragraphs (d) and (e) of this section.

(2) If the contract is—

(i) A negotiated fixed-price contract for which prices are not based on an exception at 15.403-1; or

(ii) A fixed-price service contract which is performed primarily on a Government installation, provided the contracting officer determines it to be in the best interest of the Government (see 45.103(b)(4)), the contracting officer shall use the clause with its Alternate I.

(3) If the contract is for the conduct of basic or applied research at nonprofit institutions of higher education or at nonprofit organizations whose primary purpose is the conduct of scientific research (see 35.014), the contracting officer shall use the clause with its Alternate II.

(c) The contracting officer shall insert the clause at 52.245-3, Identification of Government-Furnished Property, in addition to the clause at 52.245-2, Government Property (Fixed-Price Contracts), in solicitations and contracts when a fixed-price construction contract is contemplated under which the Government is to furnish Government property f.o.b. railroad cars at a specified destination or f.o.b. truck at the project site. The contract Schedule shall specify the point of delivery and may include special terms and conditions covering installation, preparation for operation, or equipment testing by the Government or by another contractor.

(d) The contracting officer may insert the clause at 52.245-4, Government-Furnished Property (Short Form), in solicitations and contracts when a fixed-price, time-and-material, or labor-hour contract is contemplated and the acquisition cost of all Government-furnished property to be involved in the contract is \$100,000 or less; unless a contract

with an educational or nonprofit organization is contemplated.

(e) When the cost of the item to be repaired does not exceed the simplified acquisition threshold, purchase orders for property repair need not include a Government property clause.

(f)(1) The contracting officer shall insert the clause at 52.245-5, Government Property (Cost-Reimbursement, Time-and-Material, or Labor-Hour Contracts), in solicitations and contracts when a cost-reimbursement, time-and-material, or labor-hour contract is contemplated, except as provided in paragraph (d) of this section.

(2) If the contract is for the conduct of basic or applied research at nonprofit institutions of higher education or at nonprofit organizations whose primary purpose is the conduct of scientific research (see 35.014), the contracting officer shall use the clause with its Alternate I.

(g) The contracting officer shall insert the clause at 52.245-6, Liability for Government Property (Demolition Services Contracts), in addition to the clauses prescribed at 37.304, in solicitations and contracts for dismantling, demolition, or removal of improvements.

## Subpart 45.2—Competitive Advantage

### 45.201 General.

(a) The contracting officer shall, to the maximum practical extent, eliminate competitive advantage accruing to a contractor possessing Government production and research property (see 45.301). This is done by (1) adjusting the offers of those contractors by applying, for evaluation purposes only, a rental equivalent evaluation factor or, (2) when adjusting offers is not practical, by charging the contractor rent for using the property. Applying a rental equivalent factor is not appropriate in awarding negotiated contracts when the contracting officer determines that using the factor would not affect the choice of contractors.

(b) In evaluating offers, the contracting officer shall also consider any costs or savings to the Government related to providing such property, regardless of any competitive advantage that may result (see 45.202-3).

### 45.202 Evaluation procedures.

#### 45.202-1 Rental equivalents.

If a rental equivalent evaluation factor is used, it shall be equal to the rent allocable to the proposed contract that would otherwise have been charged for the property, as computed in accordance with the clause at 52.245-9, Use and Charges. (See 45.205(b) for solicitation requirements.)

#### 45.202-2 Rent.

If using a rental equivalent evaluation factor is not practical, and the competitive advantage is to be eliminated by charging rent, any offeror or subcontractor may use Government production and research property after obtaining the written approval of the contracting officer having cognizance of the property. Rent shall be charged in accordance with 45.403.

#### 45.202-3 Other costs and savings.

(a) If furnishing Government production and research property will result in direct measurable costs that the Government must bear, additional factors shall be considered in evaluating bids or proposals. These factors shall be specified in the solicitation either as dollar amounts or as formulas and shall be limited to the cost of—

- (1) Reactivation from storage;
- (2) Rehabilitation and conversion; and
- (3) Making the property available on an f.o.b. basis.

(b) If, under the terms of the solicitation, the contractor will bear the transportation cost of furnishing Government production and research property or the cost of making it suitable for use (such as when property is offered on an “as is” basis (see 45.308)), no additional evaluation factors related to those costs shall be used.

(c) If using Government production and research property will result in measurable savings to the Government, the dollar amount of these savings shall be specified in the solicitation and used in evaluating offers. Examples of such savings include—

(1) Savings occurring as a direct result of activating tools being maintained in idle status at known cost to the Government; and

(2) Avoiding the costs of deactivating and placing tools in layaway or storage or of maintaining them in an idle state, if the prospective costs are known. For these costs to be included in the evaluation, firm decisions must have been made that the tools will be laid away or stored if not used on the proposed contract and that such costs are not merely being deferred.

### 45.203 Postaward utilization requests.

When, after award, a contractor requests the use of special tooling or special test equipment, the administrative contracting officer shall obtain a fair rental or other adequate consideration if use is authorized. The value of the items, if known, and any amount included for them in the contract price shall be considered.

### 45.204 Residual value of special tooling and special test equipment.

(a) In awarding competitively negotiated contracts that permit the acquisition of special tooling or special test equipment, an evaluation may be made of the residual value of the property to the Government. This evaluation is appropriate when the contracting officer (1) determines that the property will have a reasonably foreseeable usefulness and related residual value beyond the period of use on the proposed contract and (2) anticipates that the cost of the property (as proposed by the several offerors) may be a factor in making the award. This evaluation is not appropriate if the contract will include the special tooling or special test equipment as a contract line item.

(b) The purpose of evaluating the residual value of special tooling or special test equipment is to apportion to each proposal only that part of the total cost of the property that represents the amount of useful life to be consumed during contract performance. Accordingly, the proposed price or cost may be reduced for evaluation purposes by an amount representing the residual value of such property to the Government. In estimating residual value, the contracting officer shall consider—

- (1) The useful life of the special tooling and special test equipment to be acquired;
- (2) Adaptability of the property for use by other contractors or by the Government;
- (3) Reasonably foreseeable requirements for future use of the property; and

(4) The scrap or salvage value of the property.

(c) If the contracting officer decides to consider the residual value of special tooling or special test equipment, the solicitation shall so notify offerors and state the Government's reasonably foreseeable future requirements for the property.

#### **45.205 Solicitation requirements.**

(a) When Government production and research property (see 45.301) is offered for use in a competitive acquisition, solicitations will ordinarily require the contractor to assume all costs related to making the property available for use (such as payment of all transportation or rehabilitation costs).

(b) The solicitation shall describe the evaluation procedures to be followed, including rental charges or equivalents (see 45.202) and other costs or savings to be evaluated (see 45.202-3), and shall require all offerors to submit with their offers the following information:

(1) A list or description of all Government production and research property that the offeror or its subcontractors propose to use on a rent-free basis. The list shall include property offered for use in the solicitation, as well as property already in possession of the offeror and its subcontractors under other contracts.

(2) Identification of the facilities contract or other instrument under which property already in possession of the offeror and its subcontractors is held, and the written permission for its use from the contracting officer having cognizance of the property.

(3) The dates during which the property will be available for use (including the first, last, and all intervening months) and, for any property that will be used concurrently in performing two or more contracts, the amounts of the respective uses in sufficient detail to support proration of the rent.

(4) The amount of rent that would otherwise be charged, computed in accordance with 45.403.

(c) Solicitations shall provide that using Government production and research property (other than as described and permitted in the solicitation (see paragraph (b) of this section)) will not be authorized under the contract unless such use is approved in writing by the contracting officer cognizant of the property, and either rent calculated in accordance with the clause at 52.245-9, Use and Charges, is charged, or the contract price is reduced by an equivalent amount. (See 45.203 for postaward requests for special tooling and special test equipment and 45.204(c) for solicitation requirements for special tooling and special test equipment with residual value.)

## Subpart 45.3—Providing Government Property to Contractors

### 45.300 Scope of subpart.

This subpart prescribes policies and procedures for providing Government property to contractors.

### 45.301 Definitions.

“Agency-peculiar property,” as used in this subpart, means Government-owned personal property that is peculiar to the mission of one agency (*e.g.*, military or space property). It excludes Government material, special test equipment, special tooling, and facilities.

“Facilities,” as used in this subpart and when used in other than a facilities contract, means property used for production, maintenance, research, development, or testing. It includes plant equipment and real property (see 45.101). It does not include material, special test equipment, special tooling, or agency-peculiar property.

“Facilities contract,” as used in this subpart, means a contract under which Government facilities are provided to a contractor or subcontractor by the Government for use in connection with performing one or more related contracts for supplies or services. It is used occasionally to provide special tooling or special test equipment. Facilities contracts may take any of the following forms:

(a) A facilities acquisition contract providing for the acquisition, construction, and installation of facilities.

(b) A facilities use contract providing for the use, maintenance, accountability, and disposition of facilities.

(c) A consolidated facilities contract, which is a combination of a facilities acquisition and a facilities use contract.

“Government production and research property,” as used in this subpart, means Government-owned facilities, Government-owned special test equipment, and special tooling to which the Government has title or the right to acquire title.

“Material,” as used in this subpart, means property that may be incorporated into or attached to a deliverable end item or that may be consumed or expended in performing a contract. It includes assemblies, components, parts, raw and processed materials, and small tools and supplies that may be consumed in normal use in performing a contract.

“Nonprofit organization,” as used in this subpart, means any corporation, foundation, trust, or institution operated for scientific, educational, or medical purposes, not organized for profit, and no part of the net earnings of which inures to the benefit of any private shareholder or individual.

“Nonseverable,” as used in this subpart, when related to Government production and research property, means property that cannot be removed after erection or installation without substantial loss of value or damage to the property or to the premises where installed.

### 45.302 Providing facilities.

#### 45.302-1 Policy.

(a) Contractors shall furnish all facilities required for performing Government contracts except as provided in this subsection. Government facilities provided to contractors shall be individually identified in the solicitation, if possible, and contract. Agencies shall not furnish facilities to contractors for any purpose, including restoration, replacement, or modernization, except as follows:

(1) For use in a Government-owned, contractor-operated plant operated on a cost-plus-fee basis.

(2) For support of industrial preparedness programs.

(3) As components of special tooling or special test equipment acquired or fabricated at Government expense.

(4) When, as a result of the prospective contractor's written statement asserting inability to obtain facilities, the agency head or designee issues a Determination and Finding (see Subpart 1.7) that the contract cannot be fulfilled by any other practical means or that it is in the public interest to provide the facilities.

(i) If the contractor's inability to provide facilities is due to insufficient lead time, the Government may provide existing facilities until the contractor's facilities can be installed.

(ii) Mere assertion by a contractor that it is unable to provide facilities is not, in itself, sufficient to justify approval. Appropriate Government officials must determine that providing Government facilities is justified.

(iii) The determination shall include findings that private financing of the facilities was sought but not available or that private financing was determined not advantageous to the Government. The determination shall also state that the contract cannot be accomplished without Government facilities being provided.

(iv) The original determination shall be included in the contract file.

(v) No determination is required when the facilities are provided as components of special tooling or special test equipment acquired or fabricated at Government expense.

(5) As otherwise authorized by law or regulation.

(b) Agencies shall not—

(1) Furnish new facilities to contractors unless existing Government-owned facilities are either inadequate or cannot be economically furnished;

(2) Use research and development funds to provide contractors with new construction or improvements of general utility, unless authorized by law; or

(3) Provide facilities to contractors solely for non-Government use, unless authorized by law.

(c) Competitive solicitations shall not include an offer by the Government to provide new facilities, nor shall solicitations offer to furnish existing Government facilities that must

be moved into a contractor's plant, unless adequate price competition cannot be otherwise obtained. Such solicitations shall require contractors to identify the Government-owned facilities desired to be moved into their plants.

(d) Government facilities with a unit cost of less than \$10,000 shall not be provided to contractors unless—

(1) The contractor is a nonprofit institution of higher education or other nonprofit organization whose primary purpose is the conduct of scientific research;

(2) A contractor is operating a Government-owned plant on a cost-plus-fee basis;

(3) A contractor is performing on a Government establishment or installation;

(4) A contractor is performing under a contract specifying that it may acquire or fabricate special tooling, special test equipment, and components thereof subsequent to obtaining the approval of the contracting officer; or

(5) The facilities are unavailable from other than Government sources.

#### **45.302-2 Facilities contracts.**

(a) Facilities shall be provided to a contractor or subcontractor only under a facilities contract using the appropriate clauses required by 45.302-6, except as provided in 45.302-3.

(b) All facilities provided by a contracting activity for use by a contractor at any one plant or general location shall be governed by a single facilities contract, unless the contracting officer determines this to be impractical. Each agency should consolidate, to the maximum practical extent, its facility contracts covering specific contractor locations.

(c) No fee shall be allowed under a facilities contract. Profit or fee (plus or minus) shall be considered in awarding any related supply or service contract, consistent with the profit guidelines of 15.404-4.

(d) Special tooling and special test equipment will normally be provided to a contractor under a supply contract, but may be provided under a facilities contract when administratively desirable.

(e) Agencies shall ensure that facility projects involving real property transactions comply with applicable laws (*e.g.*, 10 U.S.C. 2676 and 41 U.S.C. 12 and 14).

#### **45.302-3 Other contracts.**

(a) Facilities may be provided to a contractor under a contract other than a facilities contract when one of the following exceptions applies—

(1) The actual or estimated cumulative acquisition cost of the facilities provided by the contracting activity to the contractor at one plant or general location does not exceed \$1,000,000;

(2) The number of items of plant equipment provided is ten or fewer;

(3) The contract performance period is twelve months or less;

(4) The contract is for construction;

(5) The contract is for services and the facilities are to be used in connection with the operation of a Government-owned plant or installation; or

(6) The contract is for work within an establishment or installation operated by the Government.

(b) When a facilities contract is not used, the Government's interest shall normally be protected by using the appropriate Government property clause or, in the case of paragraph (a)(5) of this subsection, by appropriate portions of the facilities clauses.

(c) No profit or fee shall be allowed on the cost of the facilities when purchased for the account of the Government under other than a facilities contract. General purpose components of special tooling or special test equipment are not facilities.

#### **45.302-4 Contractor use of Government-owned and -operated test facilities.**

(a) Agencies may authorize onsite use by contractors of existing Government-owned and -operated test facilities in connection with Government contracts only when—

(1) No adequate commercial test capability is available;

(2) Substantial cost savings will result from using the Government-owned test facilities; or

(3) Otherwise authorized by law.

(b) When such use is authorized, the contracting officer shall obtain adequate consideration comparable to commercial rates.

#### **45.302-5 Standby or layaway requirements.**

A facilities contract may include requirements for maintenance and storage of Government production and research property in standby or layaway status. The contract shall include appropriate specifications for the care and maintenance of the property. If the Government is required to pay the contractor for maintenance and storage, the contract shall define what constitutes standby or lay-away and specify when payments will begin and end. The contract may provide for reimbursing the contractor for any State or local property tax it is required to pay because of its possession of or interest in such property (see 31.205-41).

#### **45.302-6 Required Government property clauses for facilities contracts.**

(a) The contracting officer shall insert the clause at 52.245-7, Government Property (Consolidated Facilities), in solicitations and contracts when a consolidated facilities contract is contemplated (see 45.301).

(b) The contracting officer shall insert the clause at 52.245-8, Liability for the Facilities, in solicitations and contracts when a consolidated facilities contract, a facilities

acquisition contract, or a facilities use contract is contemplated (see 45.301).

(c) The contracting officer shall insert the clause at 52.245-9, Use and Charges, in solicitations and contracts—

(1) When a consolidated facilities contract or a facilities use contract (see 45.301); or

(2) When a fixed-price contract is contemplated, and Government production and research property is provided other than on a rent-free basis.

(d) The contracting officer shall insert the clause at 52.245-10, Government Property (Facilities Acquisition), in solicitations and contracts when a facilities acquisition contract is contemplated (see 45.301).

(e)(1) The contracting officer shall insert the clause at 52.245-11, Government Property (Facilities Use), in solicitations and contracts when a facilities use contract is contemplated (see 45.301).

(2) If the contract is for the conduct of basic or applied research at nonprofit institutions of higher education, or is awarded to a nonprofit organization whose primary purpose is the conduct of scientific research (see 35.014), the contracting officer shall use the clause with its Alternate I.

#### **45.302-7 Optional property-related clauses for facilities contracts.**

(a) The contracting officer may insert the clause at 52.245-12, Contract Purpose (Nonprofit Educational Institutions), in solicitations and contracts when a facilities use contract is contemplated and award may be made to a nonprofit educational institution (also see 45.302-6).

(b) The contracting officer may insert the clause at 52.245-13, Accountable Facilities (Nonprofit Educational Institutions), in solicitations and contracts when a facilities contract is contemplated and award may be made to a nonprofit educational institution (also see 45.302-6).

(c) The contracting officer may insert the clause at 52.245-14, Use of Government Facilities, in solicitations and contracts when a facilities use contract is contemplated and award may be made to a nonprofit educational institution (also see 45.302-6).

(d) The contracting officer may, under a proper delegation of authority, insert the clause at 52.245-15, Transfer of Title to the Facilities, in solicitations and contracts when a consolidated facilities contract, a facilities acquisition contract, or a facilities use contract is contemplated for the conduct of basic or applied research at nonprofit institutions of higher education, or at nonprofit organizations whose primary purpose is the conduct of scientific research (see 35.015 and 45.302-6).

(e) The contracting officer may insert the clause at 52.245-16, Facilities Equipment Modernization, in solicitations and contracts when a consolidated facilities contract, a facilities acquisition contract, or a facilities use contract is

contemplated under which the Government will provide modernized or replacement facilities.

#### **45.303 Providing material.**

##### **45.303-1 Policy.**

Contractors shall ordinarily furnish all material for performing Government contracts. However, agencies should provide material to a contractor when necessary to achieve significant economy, standardization, or expedited production, or when it is otherwise in the Government's interest.

##### **45.303-2 Procedures.**

Solicitations shall specify material that the Government will furnish in sufficient detail (including requisitioning procedures) to enable offerors to evaluate it accurately. The contracting officer shall insert the appropriate Government property clause prescribed in 45.106, in all solicitations when the Government will provide material.

#### **45.304 Providing motor vehicles.**

(a) Contractors shall ordinarily furnish any motor vehicles needed in performing Government contracts. Agencies may provide contractors with motor vehicles only when—

(1) The number of vehicles required for use by contractor personnel is predictable and expected to remain fairly constant;

(2) The proposed contract will bear the entire cost of the vehicle program;

(3) The motor vehicles will not be used on any contract other than that for which the vehicles were provided, unless approved by the appropriate department or agency official;

(4) Prospective contractors do not have or would not be expected to have an existing and continuing capability for providing the vehicles from their own resources; and

(5) Substantial savings are expected.

(b) Agencies that provide contractors with Government-owned-or-leased motor vehicles are responsible for ensuring that such vehicles are used only for the performance of the contract. Under 41 CFR 101-38.301-1, contractors are prohibited from using such vehicles for home-to-work transportation consistent with Pub. L. 99-550 amending 31 U.S.C. 1344. (See Subpart 51.2, Contractor Use of Interagency Fleet Management System (IFMS) Vehicles.)

#### **45.305 [Reserved]**

#### **45.306 Providing special tooling.**

##### **45.306-1 Providing existing special tooling.**

(a) The contracting officer shall offer existing Government special tooling to prospective contractors for use in Government work if it will not disrupt programs of equal or higher

priority, it is otherwise advantageous to the Government, and use of the special tooling is authorized under 45.402(a). (See also 45.308 and 45.309.)

(b) Contracts authorizing the furnishing of existing special tooling shall contain a description of the special tooling, the terms and conditions of shipment, and the terms covering the cost of adapting and installing the tooling.

#### **45.306-2 Special tooling under cost-reimbursement contracts.**

Title to special tooling under cost-reimbursement contracts is acquired by the Government in all cases. The clause used for this purpose is 52.245-5, Government Property (Cost-Reimbursement, Time-and-Material, or Labor-Hour Contracts).

#### **45.306-3 Special tooling under fixed-price contracts.**

(a) *Criteria for acquisition.* In deciding whether or not to acquire title to special tooling, or rights to title, under fixed-price contracts, the contracting officer shall consider the following factors:

(1) The current or probable future need of the Government for the items involved (including in-house use) and the estimated cost of producing them if not acquired.

(2) The estimated residual value of the items.

(3) The administrative burden and other expenses incident to reporting, recordkeeping, preparation, handling, transportation, and storage.

(4) The feasibility and probable cost of making the items available to other offerors in the event of future acquisitions.

(5) The amount offered by the contractor for the right to retain the items.

(6) The effect on future competition and contract pricing.

(b) *Decision not to acquire special tooling.* In contracts in which the Government will not acquire title to special tooling, or rights to title, special requirements may be included in the Schedule of the contract (*e.g.*, requirement governing the contractor's capitalization of special tooling costs).

#### **45.306-4 [Reserved]**

#### **45.306-5 Contract clause.**

The contracting officer shall insert the clause at 52.245-17, Special Tooling, in solicitations and contracts when a fixed-price contract is contemplated, and either the contract will include special tooling provided by the Government or the Government will acquire title or right to title in special tooling to be acquired or fabricated by the contractor for the Government, other than special tooling to be delivered as an end item under the contract. The Special Tooling clause shall apply to all special tooling accountable to the contract.

#### **45.307 Providing special test equipment.**

##### **45.307-1 General.**

(a) Contracting officers shall offer existing Government-owned special test equipment to contractors, consistent with the conditions in 45.306-1(a). (See also 45.308 and 45.309.)

(b) Contracting officers may also authorize contractors to acquire special test equipment for the Government when it is advantageous to the Government under the criteria in 45.306-3(a) and existing special test equipment is not available.

##### **45.307-2 Acquiring special test equipment.**

(a) When special test equipment or components are known, the solicitation (and the contract) shall separately identify each item to be furnished by the Government or acquired or fabricated by the contractor for the Government. Individual items of less than \$5,000 may be grouped by category.

(b) *Notice and approval.* Under negotiated contracts containing the clause at 52.245-18, Special Test Equipment, the contractor must notify the contracting officer if it intends to acquire or fabricate special test equipment. Within 30 days of receipt of the notice, the contracting officer shall—

(1) Review the proposed items for necessity and proper classification as “special” test equipment;

(2) Screen the availability of existing Government-owned test equipment in accordance with agency procedures; and

(3) Notify the contractor, approving or disapproving the acquisition or fabrication and, if it is disapproved, state whether the equipment will be furnished by the Government.

##### **45.307-3 Contract clause.**

The contracting officer shall insert the clause at 52.245-18, Special Test Equipment, in solicitations and contracts when contracting by negotiation and the contractor will acquire or fabricate special test equipment for the Government but the exact identification of the special test equipment to be acquired or fabricated is unknown.

#### **45.308 Providing Government production and research property “as is.”**

##### **45.308-1 General.**

(a) The contracting officer may provide Government production and research property on an “as is” basis for performing fixed-price, time-and-material, and labor-hour contracts. It may also be furnished under a facilities contract, in which case the contract shall state that the contractor will not be reimbursed for transporting, installing, modifying, repairing, or otherwise making the property ready for use.

(b) When the property is provided under other than a facilities contract, the solicitation shall state that—

(1) Offerors may inspect the property before submitting offers and the conditions under which it may be inspected;

(2) The property is offered in its current condition, f.o.b. present location (provide specific locations);

(3) Offerors must satisfy themselves that the property is suitable for their use;

(4) The successful offeror shall bear the cost of transporting, installing, modifying, repairing, or otherwise making the property suitable for use; and

(5) Evaluations will be made in accordance with Subpart 45.2 to eliminate any competitive advantage resulting from using the property.

#### **45.308-2 Contract clause.**

The contracting officer shall insert the clause at 52.245-19, Government Property Furnished “As Is,” in solicitations and contracts when a contract other than a consolidated facilities contract, a facilities acquisition contract, or a facilities use contract is contemplated and Government production and research property is to be furnished “as is” (see 45.106 for additional clauses that may be required).

#### **45.309 Providing Government production and research property under special restrictions.**

(a) Government production and research property, other than foundations and similar improvements necessary for installing special tooling, special test equipment, or plant equipment, shall not be installed or constructed on land not owned by the Government in such fashion as to be nonseverable, unless the head of the contracting activity determines that the location is necessary, and the contract under which the property is provided contains—

(1) A requirement for the contractor to reimburse the Government for the fair value of the property at contract completion or termination or within a reasonable time thereafter (for example, the provision may require the contractor to purchase the property at a value determined by appraisal or at a price equal to its acquisition cost less depreciation at a specified rate);

(2) An option for the Government to acquire the underlying land; or

(3) An alternative provision that the agency head considers adequate to protect the Government’s interests.

(b) If patent or other proprietary rights of a contractor may restrict the disposal of Government production and research property, the condition in either paragraph (a)(1) or (a)(3) of this section shall be satisfied before the property is provided.

(c) If Government production and research property is not available to all offerors, the solicitation shall identify the offerors to whom the property is available.

#### **45.310 Providing agency-peculiar property.**

(a) Agency-peculiar property may be furnished to contractors when necessary for use as a standard or model, for testing the contractor’s end item where suitable commercial equipment is not available, to establish equipment compatibility, or for other reasons that the contracting officer determines to be in the Government’s interest.

(b) Agency-peculiar property may be furnished under a facilities contract, a supply or service contract containing the appropriate Government Property clause, or a special bailment agreement.

(c) Contracting officers shall provide special instructions for security, liability, maintenance, and/or property control, when agency-peculiar property requires special handling or safeguards.

#### **45.311 Providing Government property by transfer.**

Government property shall be transferred only if there is a requirement under the gaining contract. Transfers of Government property, as Government-furnished property, shall be documented by a modification to the gaining contract. A modification or other documentation listing all items of property transferred is required for the losing contract.

## **Subpart 45.4—Contractor Use and Rental of Government Property**

### **45.400 Scope of subpart.**

This subpart prescribes policies and procedures for contractor use and rental of Government production and research property.

### **45.401 Policy.**

In performing Government contracts or subcontracts, Government production and research property in the possession of contractors or subcontractors shall be used to the greatest possible extent, provided that a competitive advantage is not conferred on the contractor or its subcontractors (see Subpart 45.2). Prior approval of the contracting officer having cognizance of Government production and research property is required for any use, whether Government or non-Government, to ensure that the Government receives adequate consideration. Government use is defined as use in support of U.S. Government contracts and non-Government use is all other use (including direct commercial sales to domestic and foreign customers). As a general rule, Government use is on a rent-free basis. Non-Government use is on a rental basis. When Government production and research property is no longer required for the performance of Government contracts or subcontracts, it shall not continue to be made available to a contractor for non-Government use.

### **45.402 Authorizing use of Government production and research property.**

(a) Contracting officers who believe it to be in the Government's interest for a prospective contractor or subcontractor to use existing Government production and research property shall authorize such use in the contract. The contracting officer shall confirm the availability of the property before authorizing its use on either a rental or rent-free basis.

(b) Unless the solicitation provides for the successful offeror to use Government production and research property in the offeror's possession, the solicitation shall require any offeror desiring to use such property to request the written concurrence of the contracting officer cognizant of the property. To preclude a competitive advantage, the contracting officer's concurrence should include any information required by Subpart 45.2.

(c) The contracting officer shall review the contractor's request for non-Government use of Government production and research property when the property is no longer required for performing Government contracts but is retained for spares or for mobilization and readiness requirements. (Also see 45.302-1(b)(3).)

### **45.403 Rental—Use and Charges clause.**

(a) The contracting officer shall charge contractors rent for using Government production and research property, except as prescribed in 45.404 and 45.405. Rent shall be computed in accordance with the clause at 52.245-9, Use and Charges. If the agency head or designee determines it to be in the Government's interest, rent for classes of production and research property other than plant equipment identified in item (ii) of Table I of the clause at 52.245-9, Use and Charges, may be charged on the basis of use rather than the rental period, or on some other equitable basis. In such cases, the clause at 52.245-9, Use and Charges, shall be appropriately modified.

(b) The contracting officer cognizant of the Government production and research property shall ensure the collection of any rent due the Government from the contractor.

### **45.404 Rent-free use.**

(a) The rental required by 45.403 does not apply to the following Government production and research property:

(1) That which is located in Government-owned, contractor-operated plants operated on a cost-plus-fee basis (but see 45.405).

(2) That which is left in place or installed on contractor-owned property for mobilization or future Government production purposes. However, rent computed in accordance with 45.403(a) shall apply to that portion of property or its capacity used or authorized for use.

(3) Items of equipment that are part of a general program approved by the Federal Emergency Management Agency (FEMA) and present unusual problems in relation to the time required for their preparation for shipment, installation, and operation because of size, complexity, or performance characteristics.

(4) Any other Government production and research property that may be excepted by FEMA.

(b) The contracting officer cognizant of the Government production and research property may grant written authorization for rent-free use of production and research property in the possession of nonprofit organizations when used for research, development, or educational work and—

(1) The use of the property is directly or indirectly in the national interest;

(2) The property will not be used for the direct benefit of a profit-making organization; and

(3) The Government receives some direct benefit (such as rights to use the results of the work without charge) from its use. As a minimum, the contractor shall furnish a report on the work for which the property was provided.

(c) If the contracting officer has obtained adequate price or other consideration, Government production and research property may also be used rent-free under—

(1) Prime contracts that specifically authorize such use without charge; and

(2) Subcontracts of any tier, if the contracting officer awarding the prime contract has specifically authorized rent-free use by the subcontractor.

(d) After award, a contract may be modified to eliminate rent for using Government production and research property. In this case, the contract shall be equitably adjusted to reflect the elimination of rent and any other amount attributable thereto.

#### **45.405 Contracts with foreign governments or international organizations.**

Requests by, or for the benefit of, foreign governments or international organizations to use Government production and research property shall be processed and costs shall be recovered or rental charged in accordance with agency procedures.

#### **45.406 Use of Government production and research property on independent research and development programs.**

The contracting officer cognizant of Government production and research property in the possession of a contractor may authorize a contractor to use the property on an independent research and development (IR&D) program, if—

(a) Such use will not conflict with the primary use of the property or enable the contractor to retain property that could otherwise be released;

(b) The contractor agrees not to include as a charge against any Government contract the rental value of the property used on its IR&D program; and

(c) A rental charge for the portion of the contractor's IR&D program cost allocated to commercial work, computed in accordance with 45.403, is deducted from any agreed-upon Government share of the contractor's IR&D costs.

#### **45.407 Non-Government use of plant equipment.**

Requirements for authorization and dollar thresholds for non-Government use of specific types of plant equipment shall be set at the agency level. The following general policies and requirements shall be used by agencies in supplementing this section:

(a) The contracting officer's advance written approval shall be required for any non-Government use of active plant equipment. Before authorizing non-Government use exceeding 25 percent, the contracting officer shall obtain approval of the head (or designee) of the agency that awarded the contract to which the property is accountable.

(b) The approvals under paragraph (a) of this section may be granted only when it is in the Government's interest—

(1) To keep the equipment in a high state of operational readiness through regular use;

(2) Because substantial savings to the Government would accrue through overhead cost-sharing and receipt of rental; or

(3) To avoid an inequity to a contractor who is required by the Government to retain the equipment in place.

(c) If the contractor's request for non-Government use in excess of 25 percent is approved, the contracting officer may require the contractor to insure the property against loss or damage. Facilities contracts may be modified to require such insurance.

## **Subpart 45.5—Management of Government Property in the Possession of Contractors**

### **45.500 Scope of subpart.**

This subpart prescribes the minimum requirements contractors must meet in establishing and maintaining control over Government property. It applies to contractors organized for profit and, except as otherwise noted, to non-profit organizations. In order for the special requirements in this subpart governing nonprofit organizations to apply, the contract must identify the contractor as a nonprofit organization. If there is any inconsistency between this subpart and the terms of the contract under which the Government property is provided, the terms of the contract shall govern.

### **45.501 Definitions.**

“Accessory item,” as used in this subpart, means an item that facilitates or enhances the operation of plant equipment but which is not essential for its operation.

“Agency-peculiar property” (see 45.301).

“Auxiliary item,” as used in this subpart, means an item without which the basic unit of plant equipment cannot operate.

“Contractor-acquired property” (see 45.101).

“Custodial records,” as used in this subpart, means written memoranda of any kind, such as requisitions, issue hand receipts, tool checks, and stock record books, used to control items issued from tool cribs, tool rooms, and stockrooms.

“Discrepancies incident to shipment,” as used in this subpart, means all deficiencies incident to shipment of Government property to or from a contractor’s facility whereby differences exist between the property purported to have been shipped and property actually received. Such deficiencies include loss, damage, destruction, improper status and condition coding, errors in identity or classification, and improper consignment.

“Facilities” (see 45.301).

“Government-furnished property” (see 45.101).

“Government property” (see 45.101).

“Individual item record,” as used in this subpart, means a separate card, form, document or specific line(s) of computer data used to account for one item of property.

“Material” (see 45.301).

“Nonprofit organization” (see 45.301).

“Plant equipment” (see 45.101).

“Property administrator,” as used in this subpart, means an authorized representative of contracting officer assigned to administer the contract requirements and obligations relating to Government property.

“Real property” (see 45.101).

“Salvage,” as used in this subpart, means property that, because of its worn, damaged, deteriorated, or incomplete condition or specialized nature, has no reasonable prospect of

sale or use as serviceable property without major repairs, but has some value in excess of its scrap value.

“Scrap,” as used in this subpart, means personal property that has no value except for its basic material content.

“Special test equipment” (see 45.101).

“Special tooling” (see 45.101).

“Stock record,” as used in this subpart, means a perpetual inventory record which shows by nomenclature the quantities of each item received and issued and the balance on hand.

“Summary record,” as used in this subpart, means a separate card, form, document or specific line(s) of computer data used to account for multiple quantities of a line item of special tooling, special test equipment, or plant equipment costing less than \$5,000 per unit.

“Utility distribution system,” as used in this subpart, includes distribution and transmission lines, substations, or installed equipment forming an integral part of the system by which gas, water, steam, electricity, sewerage, or other utility services are transmitted between the outside building or structure in which the services are used and the point of origin, disposal, or connection with some other system. It does not include communication services.

“Work-in-process,” as used in this subpart, means material that has been released to manufacturing, engineering, design or other services under the contract and includes undelivered manufactured parts, assemblies, and products, either complete or incomplete.

### **45.502 Contractor responsibility.**

(a) The contractor is directly responsible and accountable for all Government property in accordance with the requirements of the contract. This includes Government property in the possession or control of a subcontractor. The contractor shall establish and maintain a system in accordance with this subpart to control, protect, preserve, and maintain all Government property. This property control system shall be in writing unless the property administrator determines that maintaining a written system is unnecessary. The system shall be reviewed and, if satisfactory, approved in writing by the property administrator.

(b) The contractor shall maintain and make available the records required by this subpart and account for all Government property until relieved of that responsibility. The contractor shall furnish all necessary data to substantiate any request for relief from responsibility.

(c)(1) The contractor shall be responsible for the control of Government property under this Subpart 45.5 upon—

(i) Delivery of Government-furnished property into its custody or control;

(ii) Delivery, when property is purchased by the contractor and the contract calls for reimbursement by the Government (this requirement does not alter or modify contractual requirements relating to passage of title);

(iii) Approval of its claim for reimbursement by the Government or upon issuance for use in contract performance, whichever is earlier, of property withdrawn from contractor-owned stores and charged directly to the contract; or

(iv) Acceptance of title by the Government when title is acquired pursuant to specific contract clauses or as a result of change orders or contract termination.

(2) Property to which the Government has acquired a lien or title solely as a result of advance, progress, or partial payments is not subject to the requirements of this subpart.

(d) The contractor shall require subcontractors provided Government property under the prime contract to comply with the requirements of this subpart. Procedures for assuring subcontractor compliance shall be included in the contractor's property control system. Where the property administrator assigned to the contract has requested supporting property administration from another contract administration office, the contractor may accept the system approval of the supporting property administrator instead of performing duplicative actions to assure the subcontractor's compliance.

(e) If the property administrator finds any portion of the contractor's property control system to be inadequate, the contractor must take any necessary corrective action before the system can be approved. If the contractor and property administrator cannot agree regarding the adequacy of control and corrective action, the matter shall be referred to the contracting officer.

(f) When Government property (excluding misdirected shipments, see 45.505-12) is disclosed to be in the possession or control of the contractor but not provided under any contract, the contractor shall promptly—

(1) Record such property according to the established property control procedure; and

(2) Furnish to the property administrator all known circumstances and data pertaining to its receipt and a statement as to whether there is a need for its retention.

(g) The contractor shall promptly report all Government property in excess of the amounts needed to complete full performance under the contracts providing it or authorizing its use.

(h) When unrecorded Government property is found, both the cause of the discrepancy and actions taken or needed to prevent recurrence shall be determined and reported to the property administrator.

#### **45.502-1 Receipts for Government property.**

The contractor shall furnish written receipts for all or specified classes of Government property only when the property administrator deems it essential for maintaining minimum acceptable property controls. If evidence of receipt is required for contractor-acquired property, the contractor shall provide it before submitting its request for payment for the property. For Government-furnished property, the contractor shall pro-

vide the required receipt immediately upon receipt of the property.

#### **45.502-2 Discrepancies incident to shipment.**

(a) *Government-furnished property.* If overages, shortages, or damages are discovered upon receipt of Government-furnished property, the contractor shall provide a statement of the condition and apparent causes to the property administrator and to other activities specified in the approved property control system. Only that quantity of property actually received will be recorded on the official records.

(b) *Contractor-acquired property.* The contractor shall take all actions necessary in adjusting overages, shortages, or damages in shipment of contractor-acquired property from a vendor or supplier. However, when the shipment has moved by Government bill of lading and carrier liability is indicated, the contractor shall report the discrepancy in accordance with paragraph (a) of this subsection.

#### **45.503 Relief from responsibility.**

(a) Unless the contract or contracting officer provides otherwise, the contractor shall be relieved of property control responsibility for Government property by—

(1) Reasonable and proper consumption of property in the performance of the contract as determined by the property administrator;

(2) Retention by the contractor, with the approval of the contracting officer, of property for which the Government has received consideration;

(3) The authorized sale of property, provided the proceeds are received by or credited to the Government;

(4) Shipment from the contractor's plant, under Government instructions, except when shipment is to a subcontractor or other location of the contractor; or

(5) A determination by the contracting officer of the contractor's liability for any property that is lost, damaged, destroyed, or consumed in excess of that normally anticipated in a manufacturing or processing operation, if—

(i) The determination is furnished to the contractor in writing;

(ii) The Government is reimbursed where required by the determination; and

(iii) Property rendered unserviceable by damage is properly disposed of, and the determination is cross-referenced to the shipping or other documents evidencing disposal.

(b) Nonprofit organizations are relieved of responsibility for Government property when title to the property is transferred to the contractor (see 35.014).

#### **45.504 Contractor's liability.**

(a) Subject to the terms of the contract and the circumstances surrounding the particular case, the contractor may be

liable for shortages, loss, damages, or destruction of Government property. The contractor may also be liable when the use or consumption of Government property unreasonably exceeds the allowances provided for by the contract, the bill of material, or other appropriate criteria.

(b) The contractor shall investigate and report to the property administrator all cases of loss, damage, or destruction of Government property in its possession or control as soon as the facts become known or when requested by the property administrator. A report shall be furnished when completed and accepted products or end items are lost, damaged, or destroyed while in the contractor's possession or control.

(c) The contractor shall require any of its subcontractors possessing or controlling Government property accountable under the contract to investigate and report all instances of loss, damage, or destruction of such property.

#### **45.505 Records and reports of Government property.**

(a) The contractor's property control records shall constitute the Government's official property records unless an exception has been authorized. The contractor shall establish and maintain adequate control records for all Government property, including property provided to and in the possession or control of a subcontractor. The property control records specified in this section are the minimum required by the Government. Unless the property administrator directs otherwise, when a subcontractor has an approved property control system for Government property provided under its own prime contracts, the contractor shall use the records created and maintained under that system.

(b) The contractor's property control system shall provide financial accounts for Government-owned property in the contractor's possession or control. The system shall be subject to internal control standards and be supported by property records for such property.

(c) Official Government property records must identify all Government property and provide a complete, current, auditable record of all transactions. The contractor's system of records maintenance shall be sufficient to adequately control Government property as required by this section. The contractor's system of records maintenance, as a minimum, shall be equivalent to and maintained in the same manner as the contractor's system for maintaining records of contractor-owned property, but need not exceed the requirements of this subpart. The records shall be safeguarded from tampering or destruction. Records shall be accessible to authorized Government personnel.

(d) Separate property records for each contract are desirable, but a consolidated property record may be maintained if it provides the required information.

(e) Special tooling and special test equipment fabricated from materials that are the property of the Government shall be recorded as Government-owned immediately upon fabri-

cation. Special tooling and special test equipment fabricated from materials that are the property of the contractor shall be recorded as Government property at the time title passes to the Government.

(f) Property records of the type established for components acquired separately shall be used for serviceable components permanently removed from items of Government property as a result of modification.

(g) The contractor's property control system shall contain a system or technique to locate any item of Government property within a reasonable period of time.

#### **45.505-1 Basic information.**

(a) Unless summary records are used as authorized under paragraph (b) of this section, the contractor's property control records shall provide the following basic information for every item of Government property in the contractor's possession, regardless of value (other subsections of 45.505 require additional information for specific categories of Government property):

(1) The name, description, and National Stock Number (if furnished by the Government or available in the property control system).

(2) Quantity received (or fabricated), issued, and on hand.

(3) Unit price (and unit of measure).

(4) Contract number or equivalent code designation.

(5) Location.

(6) Disposition.

(7) Posting reference and date of transaction.

(b) Summary records are normally adequate for special tooling, special test equipment, and plant equipment costing less than \$5,000 per unit, except where the contract administration office determines that individual item records are necessary for effective control, calibration, or maintenance. Summary records shall provide the information listed in paragraphs (a)(1) through (a)(7) of this section, but may reference a general location, provided the contractor can locate the property within a reasonable period of time.

#### **45.505-2 Records of pricing information.**

(a) *Requirement for unit prices.* (1) The contractor's property control system shall contain the unit price for each item of Government property except as provided in (b) of this section. When a contractor records the unit price of property on other than the quantitative inventory records, those supplementary records shall become part of the official Government property records.

(2) (NOTE: *This paragraph (a)(2) does not apply to nonprofit organizations.*) The requirement that unit prices be contained in the official Government property records does not apply to those separate property records located at a contractor's secondary sites and subcontractor plants; provided, that—

(i) Records maintained by the prime contractor at its primary site include unit prices; and

(ii) The prime contractor agrees to furnish actual or estimated unit prices to the secondary site or subcontractor as the need arises.

(3) When definite information as to unit price cannot be obtained, reasonable estimates will be used.

(b) *Determining unit price*—(1) *Contractor-acquired and contractor-fabricated property*. Except for items fabricated by nonprofit organizations for research and development purposes, the unit price of contractor-acquired and contractor-fabricated property shall be determined in accordance with the system established by the contractor in conformance with consistently applied sound accounting principles. Generally, separate unit prices should be applied to items of special tooling and special test equipment fabricated or acquired by the contractor. However, if the contractor's accounting system is acceptable, and if maintaining detailed cost records results in excessive accounting cost or is otherwise impracticable, group pricing may be used for special tooling, special test equipment, and work-in-process in accordance with the contractor's acceptable cost accounting system. All processed material, fabricated parts, components, and assemblies charged to the contractor's work-in-process inventory, including items in temporary storage while awaiting processing, may be considered as work-in-process for this purpose.

(2) *Government-furnished property*. The Government shall determine and furnish to the contractor the unit price of Government-furnished property. Transportation and installation costs shall not generally be considered as part of the unit price for this purpose. Normally, the unit price of Government-furnished property will be provided on the document covering shipment of the property to the contractor. In the event the unit price is not provided on the document, the contractor will take action to obtain the information.

#### 45.505-3 Records of material.

(a) *General*. All Government material furnished to the contractor, as well as other material to which title has passed to the Government by reason of allocation from contractor-owned stores or purchase by the contractor for direct charge to a Government contract or otherwise, shall be recorded in accordance with the contractor's property control system and the requirements of this section.

(b) *Consolidated stock record*. When a contractor has more than one Government contract under which Government material is provided, a consolidated record for materials may be authorized by the property administrator, provided, the total quantity of any item is allocated to each contract by contract number and each requisition of material from contractor-owned stores is charged to the contract on which the material is to be used. The supporting document or issue slip

shall show the contract number or equivalent code designation to which the issue is charged.

(c) *Custodial records*. The contractor shall maintain custodial records for tool crib items, guard force items, protective clothing, and other items issued to individuals for use in their work.

(d) *Use of receipt and issue documents*. (**Note:** *This paragraph (d) does not apply to nonprofit organizations.*) The property administrator may authorize the contractor to maintain, in lieu of stock records, a file of appropriately cross-referenced documents evidencing receipt, issue, and use of Government-provided material that is issued for immediate consumption and is not entered in the inventory record as a matter of sound business practice. This method of control may be authorized for—

- (1) Material charged through overhead;
- (2) Material under research and development contracts;
- (3) Subcontracted or outside production items;
- (4) Nonstock or special items;
- (5) Items that are produced for direct charge to a contract, or are acquired and issued for installation upon receipt, and involve no spoilage; and
- (6) Items issued from contractor-owned inventory direct to production or maintenance, etc.

(e) *Material issued directly upon receipt*. (**NOTE:** *This paragraph (e) applies only to nonprofit organizations.*)

(1) Under fixed-price contracts, the contractor's documents evidencing receipt and issue will be accepted as property control records for Government-furnished material issued directly by the contractor upon receipt so as to be considered consumed under the contract.

(2) Under cost-reimbursement contracts, Government invoices, contractor's purchase documents, or other evidence of acquisition and issue will be accepted as adequate property records for material furnished to or acquired by the contractor and issued directly so as to be considered consumed under the contract.

(f) *Multicontract cost and material control*. (**NOTE:** *This paragraph (f) does not apply to nonprofit organizations.*)

(1) *Description and scope*. A multicontract cost and material control system substitutes a system of financial accounting for the requirements for physical identification of Government material. The system operates as follows:

(i) The contractor may acquire, requisition, receive, store, and issue like items of material for the total requirements of all contracts involved in the system without identifying the material to each contract.

(ii) The contractor may commingle, during any stage of contract performance, Government-owned and contractor-owned material and work-in-process that was furnished, acquired, or produced for all Government contracts covered by the system, without physical segregation or identification to the individual contracts.

(iii) In lieu of physical segregation and identification to individual contracts, periodic calculation of requirements and distribution of costs to all contracts permits the allocation of costs of material to products delivered. This system, by reflecting the material expended to perform each contract at any stage in production, permits usage analysis to determine the reasonableness of consumption and expenditure of Government material.

(iv) The system may include all Government contracts of any type that involve common repetitive operations.

(v) The system does not require commingling of all common materials under all contracts. For example, items of Government-furnished material of high value or in short supply may be excluded from commingling and reserved for use in performing the contract under which furnished.

(vi) The contractor shall take physical inventories of material in stores included in the systems (other than work-in-process) at least annually, extend and reconcile prices to the quantitative balance for each item, and record adjustments in the stock record and financial inventory control accounts. Such physical inventories and adjustments, as well as equitable distribution to cost accounts of any inventory losses, shall be reviewed by and are subject to the approval of the property administrator.

(2) *Criteria.* A multicontract cost and material control system may be authorized if—

(i) The contractor demonstrates that adopting the system will result in savings or improved operations or that it will otherwise be in the Government's interest;

(ii) The system is applied to existing Government contracts only and excludes materials acquired or costs incurred for non-Government work or in anticipation of future Government work; and

(iii) The contractor's accounting system is adequate to—

(A) Provide on a complete and timely basis a clear "audit trail" from costs of materials acquired for each contract to materials used or disposed of on each contract;

(B) Reflect separately for Government-furnished and contractor-acquired material in stores (except work-in-process) the inventory balances as affected by receipts, issues, adjustments, and other dispositions;

(C) Determine unit costs for each identifiable part, component, subassembly, assembly, end item, and contract item;

(D) Calculate amounts for cost reimbursements and progress payments during the life of the contract by applying or allocating such unit costs developed through each stage of work-in-process to contract items for the requirements of each contract; and

(E) Assure that when Government material furnished for use under one contract is authorized for use on another contract, the initial contract receives credit.

(3) *Authorization.* The administrative contracting officer may authorize a contractor who is performing or will perform more than one Government contract to use the multicontract cost and material control system. The property administrator shall approve whatever detailed operating procedures are necessary for each system authorized.

(4) *Requirement.* Whenever a multicontract cost and material control system is authorized, the contractor's financial accounts shall include all material in the system acquired or furnished for Government work and shall satisfy the requirements in subdivision (f)(2)(iii) of 45.505-3 of this section.

#### 45.505-4 Records of special tooling and special test equipment.

(NOTE: The special tooling requirements of this subsection 45.505-4 do not apply to nonprofit organizations except for paragraph (c).)

(a) Unless summary records are used as authorized under 45.505-1(b), the contractor's property control system shall provide the basic information listed in 45.505-1(a) regarding each item of Government-owned special tooling and special test equipment, including any general purpose test equipment incorporated as components in such a manner that removal and reuse may be feasible and economical.

(b) If the contractor uses group pricing of special tooling or special test equipment, as recognized in 45.505-2(b), unit prices may be computed when required.

(c) In the case of special tooling acquired or fabricated by nonprofit organizations or furnished by the Government to nonprofit organizations for research and development, the Government invoices, contractor's purchase document, or other documents that evidence acquisition or issue will be accepted as adequate property control records.

(d) Records identifying special tooling and special test equipment shall include the identification number and item on which used.

(e) The contractor shall, when specified by the contract, identify and report special tooling and special test equipment by retention category (*e.g.*, assembly tooling or critical tooling for spares or replacements).

#### 45.505-5 Records of plant equipment.

(a) Unless summary records are used as authorized under 45.505-1(b), the contractor shall maintain individual item records for each item of plant equipment.

(b) In addition to the information required in 45.505-1, the contractor's records of Government-owned plant equipment, regardless of value, shall include—

(1) Federal Supply Code for the manufacturer (as listed in Cataloging Handbook H4-1 and H4-2) available from the:

Superintendent of Documents  
Government Printing Office (GPO)  
Washington DC 20402

(2) Federal Supply Classification (Cataloging Handbooks H2-1, H2-2, and H2-3) (available from GPO); and

(3) The original manufacturer's model or part number.

(c) For each item of Government-owned plant equipment having a unit cost of \$5,000 or more, the contractor shall, in addition to the requirements of (b) of this section, include—

(1) Serial number and year built (when available);

(2) Government identification/tag number; and

(3) Acquisition and disposition document references and dates.

(d) The property administrator may determine that the information in (c)(1) and (2) of this subsection should be recorded in the property records for plant equipment costing less than \$5,000.

(e) Accessory and auxiliary equipment shall be recorded on the record of the associated item of plant equipment. If the accessory or auxiliary item is not attached to, a part of, or acquired for use with a specific item of plant equipment, it shall be recorded either in an individual item record or in a summary stock record. When accessory and auxiliary items are permanently separated from the basic item of plant equipment, the unit price of the basic item shall be appropriately reduced.

#### **45.505-6 Special reports of plant equipment.**

An agency may set requirements for any special reports of plant equipment it determines necessary.

#### **45.505-7 Records of real property.**

(a) The contractor shall maintain an itemized record of the description, location, acquisition cost, and disposition of all Government real property (including unimproved real property); all alterations, all construction work, and sites connected with such alteration and construction, acquired by purchase, lease, or otherwise. These records, including maps, drawings, plans, specifications, and supplementary data where necessary, shall—

(1) Be complete;

(2) Show the original cost of the property and improvements and the cost of any changes and additions; and

(3) Be appropriately indexed.

(b) Costs incurred by the contractor or the Government for new construction, including erection, installation, or assembly of Government real property in possession of the contractor, shall be capitalized in the official Government real property records and financial accounts maintained by the contractor for the Government.

(c) Costs incurred for additions, expansions, extensions, conversions, alterations, and improvements, including applicable portions of capital maintenance, that increase the value,

life, utility, capability, or serviceability of Government real property shall be capitalized.

(d) Costs incurred for portable buildings or facilities specifically constructed for tests that involve destruction of the facility shall not be capitalized in the Government real property records or financial accounts.

(e) Costs incurred for maintenance, repair, or rearrangement to maintain the Government real property in good physical condition, utility, capacity, or serviceability shall be charged to expense, and the real property records shall not be affected.

(f) When Government-owned real property is sold, transferred, donated, destroyed by fire or other cause, abandoned-in-place, or condemned, the financial accounts shall be reduced by the presently recorded cost and the real property records annotated with a supporting statement, including pertinent facts.

#### **45.505-8 Records of scrap or salvage.**

(a) The contractor shall maintain records of all scrap or salvage generated, except as provided in 45.507. These records shall conform to the contractor's established system of scrap and salvage control approved by the property administrator.

(b) The contractor's property control system shall provide the following information:

(1) Contract number, if practical, or equivalent code designation from which the scrap or salvage derived.

(2) Nomenclature or description of salvable items or classification (material content) of scrap.

(3) Quantity on hand.

(4) Posting reference and date of transaction.

(5) Disposition.

#### **45.505-9 Records of related data and information.**

The contractor shall maintain property control and accountability, in accordance with sound business practice, of manufacturing or assembly drawings; installation, operation, repair, or maintenance instructions; and other similar information furnished to the contractor by the Government or generated or acquired by the contractor under the contract and for which title vests in the Government. The requirements of this subpart do not otherwise apply to such property.

#### **45.505-10 Records of completed products.**

The contractor shall maintain a record of all completed products produced under a contract as follows:

(a) When there is no time lapse between Government inspection and acceptance of the completed products and shipment from the plant site, the records shall, as a minimum, consist of a summary of quantities accepted and shipped. When end items are accepted by the Government and stored with the contractor awaiting shipment, the record shall identify quantities stored, location, and disposition action.

(b) On contracts that provide for the contractor to retain completed products for further use under the contract or other contracts, such items shall be considered “Government-furnished property” upon acceptance and shall be recorded as required by this subpart.

(c) When completed products are returned to a contractor under the terms of a warranty clause, the contractor shall maintain, by contract, a record containing a description of the items involved, quantities received and returned to the Government, and other pertinent data necessary to determine that a proper accounting for all property has been made.

**45.505-11 Records of transportation and installation costs of plant equipment.**

(NOTE: This subsection 45.505-11 does not apply to nonprofit organizations.)

(a) *Transportation costs.* (1) The contractor shall record within the property control system the transportation and installation costs directly borne by the Government for each item of Government-owned plant equipment with an acquisition cost of \$5,000 or more. The administrative contracting officer may require the contractor to provide such recorded costs for use in computing rental charges.

(2) If transportation costs are not included in the price of equipment delivered, the contractor shall contact the property administrator for instructions for obtaining applicable freight data.

(b) *Installation costs.* (1) When the contractor performs installation, the cost shall be computed in accordance with the contractor’s accounting system (if the system is acceptable for other contract cost determination purposes) and recorded in the property record.

(2) When installation is subcontracted, the contractor shall record the cost paid to the subcontractor in the property record.

(3) When installation costs are included in the price of equipment delivered to the using location, the property records should be so annotated.

**45.505-12 Records of misdirected shipments.**

The contractor’s property control system shall provide the following information regarding each misdirected shipment of Government property received:

(a) Identity of shipment, such as shipping document or bill of lading.

(b) Origin of shipment.

(c) Content (items in the shipment) per shipping documents, if available.

(d) Location.

(e) Disposition.

**45.505-13 Records of property returned for rework.**

(a) The contractor shall maintain quantitative records of property returned for processing to assure control from time of receipt through return of the items to the Government. The contractor shall establish item records under its property control system and shall include the information required in 45.505-1.

(b) The records shall specify the quantity of units returned to the Government and the quantity otherwise disposed of with proper authority.

**45.505-14 Reports of Government property.**

(a) The contractor's property control system shall provide annually the total acquisition cost of Government property for which the contractor is accountable under each contract with each agency, including Government property at subcontractor plants and alternate locations. The following classifications (property classifications may be varied to meet individual agency needs) shall be reported:

(1) Land and rights therein.

(2) Other real property, including utility distribution systems, buildings, structures, and improvements thereto.

(3) Plant equipment.

(4) Special tooling.

(5) Special test equipment.

(6) Material.

(7) Agency peculiar property.

(b) The contractor shall report the information under paragraph (a) as directed by the contracting officer.

**45.506 Identification.**

(a) Upon receipt of Government property, the contractor shall promptly—

(1) Identify the property in accordance with agency regulations;

(2) Mark the property in accordance with this section; and

(3) Record the property in its property control records.

(b)(1) Except for the following, all Government property shall be marked with an indication of Government-ownership:

(i) Items issued to individuals for use in their work (e.g., protective clothing or tool crib tools) where adequate physical control is maintained over the items.

(ii) Property of a bulk type, or where its general nature of packing or handling precludes adequate marking.

(iii) Material that is commingled, as authorized by 45.507.

(iv) Where the property administrator agrees that marking is impractical.

(2) Exempted items shall be entered and described on the accountable property records.

(c)(1) In addition to marking with an indication of Government ownership, the following property shall be marked with a serial number in accordance with procedures approved by the property administrator:

(i) Special tooling.

(ii) Special test equipment.

(iii) Components of special test equipment that have an acquisition cost of \$5,000 or more and are incorporated in a manner that makes removal and reutilization feasible and economical.

(iv) Plant equipment.

(v) Accessory or auxiliary equipment associated with a specific item of plant equipment that is recorded on the property records, if necessary to assure return with the associated basic item.

(2) The contractor shall record assigned numbers on all applicable documents pertaining to the property control system.

(3) If the property is included in a standard agency registration system, the contractor may use the property's registration number as the serial number. The contractor should obtain the registration number through the property administrator from the owning agency.

(d) The markings in paragraphs (b) and (c) of this section shall be (1) securely affixed to the property, (2) legible, and (3) conspicuous. Examples of appropriate markings are bar coding, decals, and stamping. If marking will damage the property or is otherwise impractical, the contractor shall promptly notify the property administrator and ask for the item to be exempted (see paragraph (b) of this section). Markings shall be removed or obliterated when Government property is sold, scrapped, or donated.

#### 45.507 Segregation of Government property.

Government property shall be kept physically separate from contractor-owned property. However, when advantageous to the Government and consistent with the contractor's authority to use such property, the property may be commingled—

(a) When the Government property is special tooling, special test equipment, or plant equipment clearly identified and recorded as Government property;

(b) When approved by the property administrator in connection with research and development contracts;

(c) When material is included in a multicontract cost and material control system (however, see 45.505-3(f));

(d) When—

(1) Scrap of a uniform nature is produced from both Government-owned and contractor-owned material and physical segregation is impracticable,

(2) Scrap produced from Government-owned material is insignificant in consideration of the cost of segregation and control, or

(3) Government contracts involved are fixed-price and provide for the retention of the scrap by the contractor; or

(e) When otherwise approved by the property administrator.

#### 45.508 Physical inventories.

The contractor shall periodically physically inventory all Government property (except materials issued from stock for manufacturing, research, design, or other services required by the contract) in its possession or control and shall cause subcontractors to do likewise. The contractor, with the approval of the property administrator, shall establish the type, frequency, and procedures. These may include electronic reading, recording and reporting or other means of reporting the existence and location of the property and reconciling the records. Type and frequency of inventory should be based on the contractor's established practices, the type and use of the Government property involved, or the amount of Government property involved and its monetary value, and the reliability of the contractor's property control system. Type and frequency of physical inventories normally will not vary between contracts being performed by the contractor, but may vary with the types of property being controlled. Personnel who perform the physical inventory shall not be the same individuals who maintain the property records or have custody of the property unless the contractor's operation is too small to do otherwise.

##### 45.508-1 Inventories upon termination or completion.

(a) *General.* Immediately upon termination or completion of a contract, the contractor shall perform and cause each subcontractor to perform a physical inventory, adequate for disposal purposes, of all Government property applicable to the contract, unless the requirement is waived as provided in paragraph (b) of this section.

(b) *Exception.* The requirement for physical inventory at the completion of a contract may be waived by the property administrator when the property is authorized for use on a follow-on contract; provided, that—

(1) Experience has established the adequacy of property controls and an acceptable degree of inventory discrepancies; and

(2) The contractor provides a statement indicating that record balances have been transferred in lieu of preparing a formal inventory list and that the contractor accepts responsibility and accountability for those balances under the terms of the follow-on contract.

(c) *Listings for disposal purposes.* (**Note:** This paragraph (c) applies only to nonprofit organizations.)

(1) Standard items that have been modified may be described on listings for disposal purposes as standard items with a general description of the modification.

(2) Items that have been fabricated, such as test equipment, shall be described in sufficient detail to permit a potential user to determine whether they are of sufficient interest to warrant further inspection.

**45.508-2 Reporting results of inventories.**

The contractor shall, as a minimum, submit the following to the property administrator promptly after completing the physical inventory:

(a) A listing that identifies all discrepancies disclosed by a physical inventory.

(b) A signed statement that physical inventory of all or certain classes of Government property was completed on a given date and that the official property records were found to be in agreement except for discrepancies reported.

**45.508-3 Quantitative and monetary control.**

When requested by the contracting officer, the contractor's reports of results of physical inventory shall be prepared on a quantitative and monetary basis and segregated by categories of property.

**45.509 Care, maintenance, and use.**

The contractor shall be responsible for the proper care, maintenance, and use of Government property in its possession or control from the time of receipt until properly relieved of responsibility, in accordance with sound industrial practice and the terms of the contract. The removal of Government property to storage, or its contemplated transfer, does not relieve the contractor of these responsibilities.

**45.509-1 Contractor's maintenance program.**

(a) Consistent with the terms of the contract, the contractor's maintenance program shall provide for—

(1) Disclosure of need for and the performance of preventive maintenance;

(2) Disclosure and reporting of need for capital rehabilitation; and

(3) Recording of work accomplished under the program.

(b) Preventive maintenance is maintenance performed on a regularly scheduled basis to prevent the occurrence of defects and to detect and correct minor defects before they result in serious consequences. An effective preventive maintenance program shall include at least—

(1) Inspection of buildings at periodic intervals to assure detection of deterioration and the need for repairs;

(2) Inspection of plant equipment at periodic intervals to assure detection of maladjustment, wear, or impending breakdown;

(3) Regular lubrication of bearings and moving parts in accordance with a lubrication plan;

(4) Adjustments for wear, repair, or replacement of worn or damaged parts and the elimination of causes of deterioration;

(5) Removal of sludge, chips, and cutting oils from equipment that will not be used for a period of time;

(6) Taking necessary precautions to prevent deterioration caused by contamination, corrosion, and other substances; and

(7) Proper storage and preservation of accessories and special tools furnished with an item of plant equipment but not regularly used with it.

(c) The contractor's maintenance program shall provide for disclosing and reporting the need for major repair, replacement, and other capital rehabilitation work for Government property in its possession or control.

(d) The contractor shall keep records of maintenance actions performed and any deficiencies in the Government property discovered as a result of inspections.

**45.509-2 Use of Government property.**

(a) The contractor's procedures shall be in writing and adequate—

(1) To assure that Government property will be used only for those purposes authorized in the contract and that any required approvals will be obtained, and

(2) To provide a basis for determining and allocating rental charges.

(b) With respect to plant equipment with an acquisition value of \$5,000 or more, the procedures, as a minimum, shall—

(1) Establish a minimum level of use below which an analysis of need shall be made and retention justified, except for inactive plants and equipment retained for mobilization (the use level may be established for individual items or families of items, depending upon circumstances of use);

(2) Provide for recording authorized and actual use consistent with the established use levels;

(3) Require periodic analyses of production needs for plant equipment utilization based upon known requirements; and

(4) Provide for prompt reporting to the contracting officer of all plant equipment for which retention is not justified.

**45.510 Property in possession of subcontractors.**

The contractor shall require any of its subcontractors possessing or controlling Government property to adequately care for and maintain that property and assure that it is used only as authorized by the contract. The contractor's approved property control system shall include procedures necessary for accomplishing this responsibility.

**45.511 Audit of property control system.**

The Government may audit the contractor's property control system as frequently as conditions warrant. These audits may take place at any time during contract performance, upon

contract completion or termination, or at any time thereafter during the period the contractor is required to retain such records. The contractor shall make all such records and related correspondence available to the auditors.

## Subpart 45.6—Reporting, Redistribution, and Disposal of Contractor Inventory

### 45.600 Scope of subpart.

This subpart establishes policies and procedures for the reporting, redistribution, and disposal of Government property excess to contracts and of property that forms the basis of a claim against the Government (*e.g.*, termination inventory under fixed-price contracts). This subpart does not apply to the disposal of real property or to property for which the Government has a lien or title solely as a result of advance or progress payments that have been liquidated.

### 45.601 Definitions.

“Common item,” as used in this subpart, means material that is common to the applicable Government contract and the contractor’s other work.

“Contractor-acquired property” (see 45.101).

“Contractor inventory,” as used in this subpart, means—

(a) Any property acquired by and in the possession of a contractor or subcontractor under a contract for which title is vested in the Government and which exceeds the amounts needed to complete full performance under the entire contract;

(b) Any property that the Government is obligated or has the option to take over under any type of contract as a result either of any changes in the specifications or plans thereunder or of the termination of the contract (or subcontract thereunder), before completion of the work, for the convenience or at the option of the Government; and

(c) Government-furnished property that exceeds the amounts needed to complete full performance under the entire contract.

“Government-furnished property” (see 45.101).

“Government property” (see 45.101).

“Line item,” as used in this subpart, means a single line entry on a reporting form that indicates a quantity of property having the same description and condition code from any one contract at any one reporting location.

“Personal property,” as used in this subpart, means property of any kind or interest in it except real property, records of the Federal Government, and naval vessels of the following categories: battleships, cruisers, aircraft carriers, destroyers, and submarines.

“Plant clearance,” as used in this subpart, means all actions relating to the screening, redistribution, and disposal of contractor inventory from a contractor’s plant or work site. The term “contractor’s plant” includes a contractor-operated Government facility.

“Plant clearance officer,” as used in this subpart, means an authorized representative of the contracting officer assigned responsibility for plant clearance.

“Plant clearance period,” as used in this subpart, means the period beginning on the effective date of contract completion or termination and ending 90 days (or such longer period as may be agreed to) after receipt by the contracting officer of acceptable inventory schedules for each property classification. The final phase of the plant clearance period means that period after receipt of acceptable inventory schedules.

“Plant equipment” (see 45.101).

“Precious metals,” as used in this subpart, means uncommon and highly valuable metals characterized by their superior resistance to corrosion and oxidation. Included are silver, gold, and the platinum group metals—platinum, palladium, iridium, osmium, rhodium, and ruthenium.

“Property administrator” (see 45.501).

“Public body” means any State, Territory, or possession of the United States, any political subdivision thereof, the District of Columbia, the Commonwealth of Puerto Rico, any agency or instrumentality of any of the foregoing, any Indian tribe, or any agency of the Federal Government.

“Real property” (see 45.101).

“Reportable property,” as used in this subpart, means contractor inventory that must be reported for screening in accordance with this subpart before disposition as surplus.

“Reporting activity,” as used in this subpart, means the Government activity that initiates the Standard Form 120, Report of Excess Personal Property (or when acceptable to GSA, by data processing output).

“Salvage” (see 45.501).

“Scrap” (see 45.501).

“Screening completion date,” as used in this subpart, means the date on which all screening required by this subpart is to be completed. It includes screening within the Government and the donation screening period.

“Serviceable or usable property,” as used in this subpart, means property that has a reasonable prospect of use or sale either in its existing form or after minor repairs or alterations.

“Special test equipment” (see 45.101).

“Special tooling” (see 45.101).

“Surplus property,” as used in this subpart, means contractor inventory not required by any Federal agency.

“Surplus Release Date (SRD),” as used in this subpart, means the date on which screening of personal property for Federal use is completed and the property is not needed for any Federal use. On that date, property becomes surplus and is eligible for donation.

“Termination inventory,” as used in this subpart, means any property purchased, supplied, manufactured, furnished, or otherwise acquired for the performance of a contract subsequently terminated and properly allocable to the terminated portion of the contract. It includes Government-furnished property. It does not include any facilities, material, special test equipment, or special tooling that are subject to a separate

contract or to a special contract requirement governing their use or disposition.

“Work-in-process” (see 45.501).

#### **45.602 [Reserved]**

#### **45.603 Disposal methods.**

An agency may exercise its rights to require delivery of any contractor inventory. This includes transfers of Government property to another Government contract. If the agency does not exercise these rights, the contractor inventory shall be disposed of by one of the following methods in the priority indicated:

- (a) Purchase or retention at cost by prime contractor or subcontractor of contractor-acquired property (see 45.605-1).
- (b) Return of contractor-acquired property to suppliers (see 45.605-2).
- (c) Use within the Government through the use of prescribed screening procedures (see 45.608).
- (d) Donation to eligible donees (see 45.609).
- (e) Sale (including purchase or retention at less than cost by the prime contractor or subcontractor) (see 45.610).
- (f) Donation to public bodies in lieu of abandonment (see 45.611).
- (g) Abandonment or destruction (see 45.611).

#### **45.604 Restrictions on purchase or retention of contractor inventory.**

A contractor's or subcontractor's authority to purchase, retain, or dispose of contractor inventory is subject to any contract provisions and to applicable Government restrictions on the disposition of property that is classified for security reasons, possesses military offensive or defensive characteristics, or is dangerous to public health, safety, or welfare.

#### **45.605 Contractor-acquired property.**

##### **45.605-1 Purchase or retention at cost.**

(a) The plant clearance officer shall encourage contractors to purchase or retain contractor-acquired property at cost. However, the contractor shall not include any part of the cost of property purchased or retained in any claim for reimbursement against the Government. Under cost-reimbursement contracts, appropriate adjustments shall be made for previously reimbursed costs. When the property is for use on a continuing Government contract or commercial operation, handling and transportation charges may be considered an allowable cost (included in the contractor's settlement proposal as “other costs” in the case of a termination), provided that the charges are reasonable.

(b) If a contractor purchases or retains contractor inventory for use on a continuing Government contract that is subsequently terminated, the property shall be allocated to the con-

tinuing contract, even though its purchase would otherwise constitute undue anticipation of production schedules. If, as a result of the purchase or retention of property from a terminated contract for use on other Government contracts, the contractor terminates subcontracts under the other Government contracts, reasonable termination charges of the subcontracts may be included as an allocable cost under the contract that generated the excess property.

##### **45.605-2 Return to suppliers.**

The plant clearance officer shall encourage contractors to return allocable quantities of contractor-acquired property to suppliers for full credit less either the supplier's normal restocking charge or 25 percent of the cost, whichever is less. Contractors may be reimbursed for reasonable transportation, handling, and restocking charges, but not for the cost of the returned property. Under cost-reimbursement contracts, appropriate adjustments shall be made for costs previously reimbursed. A contractor's property control system shall include procedures to ensure property is returned to the supplier for appropriate credit whenever feasible.

##### **45.605-3 Cost-reimbursement contracts.**

Under cost-reimbursement contracts, property purchased or retained by the contractor or returned to suppliers shall not be reported on inventory schedules. The cognizant contract administration office, in coordination with the cognizant auditor, shall periodically review such transactions to protect the Government's interests.

#### **45.606 Inventory schedules.**

##### **45.606-1 Submission.**

When property is no longer needed to perform the contract, the contractor shall prepare inventory schedules in accordance with the contract and instructions from the plant clearance officer and shall promptly submit the schedules to the cognizant contract administration office. Detailed instructions and requirements governing preparing and submitting inventory schedules are contained in 45.606-5. Agencies may use special inventory schedules for intra-agency screening of particular categories of contractor inventory (*e.g.*, plant equipment of \$5,000 or more). Such schedules may also be used for screening with other Federal agencies after coordination with GSA.

##### **45.606-2 Common items.**

The contractor's inventory schedules shall not include any items that the contractor can reasonably use on other work without financial loss. However, the schedules shall include common items specified by the contracting officer for delivery to the Government or which are Government-furnished property.

**45.606-3 Acceptance.**

(a) Within 15 days after receipt of inventory schedules, the plant clearance officer shall review them, determine their acceptability, and request the contractor to correct any inadequate listings. Inventory schedules should not be rejected if the information is adequate for disposal purposes, even if complete cost data on work-in-process are not available. Rejection shall be limited, when possible, to specific items and shall not necessarily render the entire schedule unacceptable. If substantial errors are discovered that were not apparent on termination inventory schedules previously found acceptable, the final phase of a plant clearance period shall not begin until corrected schedules have been submitted, unless the plant clearance officer determines otherwise.

(b) The plant clearance officer, with the assistance of other Government personnel as necessary, shall verify that (1) the inventory is present at the location indicated, (2) the inventory is allocable to the contract, (3) the quantity and condition are correctly stated, and (4) the contractor has endeavored to divert items to other work. The verification may be recorded on SF 1423, Inventory Verification Survey. The plant clearance officer shall require the contractor to promptly correct any discrepancies on the inventory schedule or resubmit the schedule as necessary.

**45.606-4 Withdrawals.**

If, before final disposition, the contractor becomes aware that any items of contractor-acquired property listed in the inventory schedules are usable on other work without financial loss, the contractor shall purchase the items or retain them at cost and amend the inventory schedules and claim accordingly. Upon notifying the plant clearance officer, the contractor may purchase or retain at cost any other items of property included in the inventory schedules. Withdrawal of any Government-furnished property is subject to the written approval of the plant clearance officer. If withdrawal is requested after screening has started, the plant clearance officer shall notify immediately the appropriate screening activity.

**45.606-5 Instructions for preparing and submitting schedules of contractor inventory.**

(a) *Use of forms.* The contractor shall report contractor inventory on the following forms, as appropriate.

(1) *Standard Form 1426, Inventory Schedule A (Metals in Mill Product Form) and SF 1427, Inventory Schedule A—Continuation Sheet.* These forms are to be used to list metals in raw or primary form as furnished by the mill and on which there has been no subsequent fabricating operations. They are also to be used for listing nonmetallic materials, such as plastics, rubber, or lumber, in mill product form. They are not to be used for listing castings or forgings, which shall be reported on SF 1428.

(2) *Standard Form 1428, Inventory Schedule B and SF 1429, Inventory Schedule B—Continuation Sheet.* These forms are to be used to list all contractor inventory (including plant equipment) for which Standard Forms 1426, 1430, 1432, or 1434 are not appropriate. However, agencies may direct listing of particular categories of plant equipment on agency forms when standard forms are not appropriate. (See 45.505-6 and 45.606-1.)

(3) *Standard Form 1430, Inventory Schedule C (Work in Process) and SF 1431, Inventory Schedule C—Continuation Sheet.* These forms are to be used to list all work in process.

(4) *Standard Form 1432, Inventory Schedule D (Special Tooling and Special Test Equipment) and SF 1433, Inventory Schedule D—Continuation Sheet.* These forms are to be used to list such contractor inventory as dies, jigs, gauges, fixtures, special tools, and special test equipment.

(5) *Standard Form 1434, Termination Inventory Schedule E.* This is a short form to be used with SF 1438, Settlement Proposal (Short Form). Applicability is limited to termination settlement proposals under \$10,000.

(b) *Submission.* (1) Contractors shall report contractor inventory promptly after determining it to be excess, unless a later date is authorized by the contract or the plant clearance officer.

(2) Unless contract provisions or agency regulations prescribe otherwise, 12 copies of inventory schedules listing serviceable or salvable items and 6 copies of inventory schedules listing scrap items shall be presented to the plant clearance officer at the cognizant contract administration office.

(3) The standard inventory schedule forms may be electronically reproduced by contractors pursuant to 53.105, provided no change is made to the name, content or sequence of the data elements. All essential elements of data must be included and the form must be signed.

(4) The appropriate continuation sheet shall be used when more space is needed.

(5) Partial schedules may be submitted when they cover substantial portions of a particular property classification of contractor inventory. The first page of each schedule submitted shall be identified as partial or final in the title block of the schedule.

(6) The contractor should consult with the plant clearance officer when in doubt as to item descriptions or other inventory schedule requirements.

(c) *Grouping contractor inventory for reporting purposes.* All line items of contractor inventory shall be grouped into the following categories in the order indicated and reported on separate forms (line items may not be divided for the purpose of avoiding screening requirements):

(1) *Classified property.* This category includes all property bearing a security classification, regardless of acquisition cost. Classified property should be further subdivided into the same categories as unclassified property (see paragraph (c)(3) of this subsection).

(2) *Government-furnished property.* This category should be subdivided into the same categories as unclassified property (see paragraph (c)(3) of this subsection).

(3) *Unclassified property.* Unclassified property shall be subdivided as follows:

(i) Special tooling, regardless of acquisition cost.

(ii) Scrap, regardless of acquisition cost.

(iii) Salvage, regardless of acquisition cost.

(iv) Remaining property having a line item acquisition cost of less than \$1,000 (\$500 for furniture).

(v) Property having a line item acquisition cost of \$1,000 or more (\$500 for furniture), further separated into the following categories (these categories may be revised to suit agency needs):

(A) Aeronautical material and equipment.

(B) Electronic material and equipment.

(C) Special test equipment.

(D) Other serviceable or usable property.

(d) *General instructions for completing forms.* The inventory schedule forms are self-explanatory, except for the following general instructions and the specific instructions in paragraph (e) of this subsection.

(1) If the inventory applies solely to one contract modification, indicate the contract modification number in the same block as the prime contract number. If the inventory results from the termination of a contract, enter the termination docket number in the same block as the prime contract number.

(2) Provide in column b an accurate and complete commercial description for each item of serviceable contractor inventory. Where practical, show the manufacturer's name, address, and catalog number. Describe other items in sufficient detail to permit the Government to determine appropriate disposition. Include in descriptions for all line items the National Stock Number furnished to the contractor with Government-furnished property and the National Stock Number available in the contractor's property control system.

(3) Identify in column b any industrial diamonds, diamond swarf, and property containing economically recoverable quantities of precious metals by the type of metal and express the quantity of the metal in the appropriate weight unit or in the percentage of total content. In addition, hazardous material or property contaminated with hazardous material shall be identified as to the type of hazardous material.

(4) Enter in column c one of the following codes to indicate the condition of each item of material:

**Code 1, Unused—good.** Unused property that is usable without repairs and identical or interchangeable with new items from normal supply sources.

**Code 2, Unused—fair.** Unused property that is usable without repairs, but is deteriorated or damaged to the extent that utility is somewhat impaired.

**Code 3, Unused—poor.** Unused property that is usable without repairs, but is considerably deteriorated or damaged. Enough utility remains to classify the property better than salvage.

**Code 4, Used—good.** Used property that is usable without repairs and most of its useful life remains.

**Code 5, Used—fair.** Used property that is usable without repairs, but is somewhat worn or deteriorated and may soon require repairs.

**Code 6, Used—poor.** Used property that may be used without repairs, but is considerably worn or deteriorated to the degree that remaining utility is limited or major repairs will soon be required.

**Code 7, Repairs required—good.** Required repairs are minor and should not exceed 15 percent of original acquisition cost.

**Code 8, Repairs required—fair.** Required repairs are considerable and are estimated to range from 16 percent to 40 percent of original acquisition cost.

**Code 9, Repairs required—poor.** Required repairs are major because property is badly damaged, worn, or deteriorated, and are estimated to range from 41 percent to 65 percent of original acquisition cost.

**Code X, Salvage.** Property has some value in excess of its basic material content, but repair or rehabilitation to use for the originally intended purpose is clearly impractical. Repair for any use would exceed 65 percent of the original acquisition cost.

**Code S, Scrap.** Material that has no value except for its basic material content.

(5) Enter in columns e and f the standard or invoiced cost of the material being reported. If such data are not available, enter the estimated cost, identified by the symbol "(e)".

(6) Enter after the amount of the contractor's offer in column g the letter "A" if a credit for acquisition has been authorized or approved by the plant clearance officer. Enter the letter "C" if the amount represents your offer to acquire the item. In either case, enter the quantity on a second line if it is less than the full quantity shown in column d.

(e) *Instructions for completing specific forms.* The following instructions are in addition to the general instructions in paragraph (d) of this subsection and the self-explanatory blocks on the inventory forms.

(1) *Inventory Schedule A (Metals in Mill Product Form) (SF 1426)—(i) Classification.* List each type of metal (such as aluminum or carbon steel) on a separate form, with the name or alloy shown in the Property Classification block. List

like forms of the metal or alloy together in sequence. (For example, for carbon steel, group all the strip, followed by sheets, followed by the bar stock, etc.)

(ii) *Description*. Enter in column b the full commercial description and weight for all items. Identify the material specification entered in column b2 as either a Government specification or that of a particular industrial society or manufacturer. Complete columns b3, b4, and b5 to show the thickness, width, and length.

(2) *Inventory Schedule B (SF 1428)*—(i) *Classification*. Use a separate form for each classification. Enter the name of the classification in the Property Classification block. Items having no commercial value should be placed in a single classification designated “no commercial value.” The term “raw materials (other than metals)” means material in primary form. Examples are plastics, textiles, lumber, and chemicals. Arrange items in sequence under separate subheadings. For example, under the classification “chemicals,” group separately all acids, all alkalis, all resins, etc.

(ii) *Description*. In the inventory description for plant equipment (see 45.101 for definition), include the following as a minimum:

(A) Nomenclature or description of the item and Federal Supply Classification (see Cataloging Handbooks H2-1, H2-2, and H2-3).

(B) Federal Supply Code for Manufacturers (see Cataloging Handbooks H4-1 and H4-2) and, if available in the contractor’s property control system, the name and address of the equipment manufacturer.

(C) Model/part number.

(3) *Inventory Schedule C (Work-in-Process) (SF 1430)*—(i) *Classification*. No classification of items is required. Do not list finished components on this form (use SF 1428).

(ii) *Description*. Enter in column b a description in sufficient detail to permit the Government to determine the appropriate disposition. Estimate percentage of completion for each line item.

(iii) *Condition (column c)*. Generally, conditions X (salvage) or S (scrap) are applicable to work-in-process (see paragraph (d)(4) of this subsection).

(4) *Inventory Schedule D (Special Tooling and Special Test Equipment) (SF 1432)*—(i) *Classification*. Use a new form for each general classification of special tooling and special test equipment.

(ii) *Description*. Furnish a description which will enable the plant clearance officer or screener to determine the appropriate disposition, including the potential for reutilization. Include tool nomenclature, tool number, related product part number, and function which the tool performs. Designate special tooling usable for maintenance programs by placing the letter “M” in the left-hand column, “For Use of Contracting Agency Only.” Provide the end-item application and a

brief description of the test function for each unit of special test equipment.

(5) *Termination Inventory Schedule E (SF 1434)*—

(i) *Classification*. No special classification is required, but similar items should be grouped together. Several classifications may be listed on one form.

(ii) *Description*. Enter in column b the full commercial description of all items which have commercial value. For other items, furnish a description in sufficient detail to permit the Government to determine the appropriate disposition.

#### 45.607 Scrap.

##### 45.607-1 General.

(a) The contractor need not itemize scrap on inventory schedules if (1) the material is physically segregated in the contractor’s plant and (2) the contractor submits a statement describing the material, estimating its cost, and providing other information necessary for the plant clearance officer to verify whether the property is scrap. The contractor shall sort the scrap to the extent economically feasible to assure the highest sale proceeds.

(b) The plant clearance officer shall review the schedules of property reported as scrap and, if necessary, physically inspect the property involved. If the plant clearance officer determines that any of the property is serviceable, usable, or salvable, the contractor shall resubmit it on appropriate inventory schedules.

##### 45.607-2 Recovering precious metals.

(a) GSA is responsible for initiating the Government-wide precious metals recovery program (see FPMR 101-42.3 for procedures and requirements in recovering precious metals).

(b) Agencies shall assure that contractors generating contractor inventory containing precious metal-bearing scrap identify and promptly report such items. Agencies are also responsible for establishing and maintaining a program for recovering precious metals. Agencies having no recovery and disposal facility available may request information or recovery assistance from the GSA regional office serving the area or the—

Defense Logistics Agency  
ATTN: DLSC-LC  
8725 John J Kingman Road  
Fort Belvoir, VA 22060.

(c) Precious metals shall be packaged in nonporous, smooth containers in a manner to prevent loss through leakage or damage to the containers. (Glass containers shall not be used.) Grindings or sweepings shall not be packaged in paper or wooden containers, because loss occurs by adhesion

to the containers. Containers shall be marked to show the type of precious metals.

(d) The shipping document shall indicate the net weight of each item to the nearest ounce (troy or avoirdupois). Shipment shall be made by the most economical means available, consistent with adequate safeguards to prevent loss or theft.

#### 45.608 Screening of contractor inventory.

##### 45.608-1 General.

(a) Serviceable or usable property included in the contractor's inventory schedules that is not purchased or retained by the prime contractor or subcontractor or returned to suppliers shall be screened for use by Government agencies before dis-

position by donation or sale. Agencies shall assure the widespread dissemination of information concerning the availability of contractor inventory.

(b) There are four categories of screening: standard, agency, limited, and special items. The plant clearance officer shall determine the categories of screening required, initiate prescribed screening, and assure accomplishment of transfer and donation. Table 45-1 lists the type of property and screening period for each of these categories. When circumstances warrant, the plant clearance officer may extend the period for agency screening or arrange for more extensive screening than that prescribed. In the event of a conflict between Table 45-1 and a specific contract requirement, items shall be screened as provided by the contract.

**TABLE 45-1—SCREENING REQUIREMENTS BY TYPE OF PROPERTY**

<u>Screening Categories</u>	<u>Type of Property</u>	<u>Period</u>
Standard	Line items valued at \$1,000 or more (\$500 for furniture).	90 days/(see 45.608-2)
Agency	Special tooling, perishables, property bearing a classification, property dangerous to public health and safety, regardless of acquisition cost, and agency-peculiar property.	30 days/(see 45.608-3)
Limited	Special tooling, scrap and salvage, property in condition codes 3, 6, 9, X, and S, work-in-process, inventory schedules (the total acquisition cost of which is reported as \$2,500 or less), and line items of less than \$1,000 (\$500 for furniture) (except perishables, property bearing a security classification, and property dangerous to public health and safety).	30 days/(see 45.608-4)
Special Items	Special test equipment with standard components. Special test equipment without standard components. Printing equipment. Nuclear materials.	(see 45.608-5(a)) (see 45.608-5(b)) (see 45.608-5(c)) (see 45.608-5(d))

##### 45.608-2 Standard screening.

(a) Standard screening applies to serviceable property with a line item value of \$1,000 or more (\$500 for furniture) that does not meet the criteria for another screening category.

(b) Standard screening begins on the date the plant clearance officer receives acceptable contractor inventory schedules and ends 90 days thereafter. The period is broken into three phases as follows:

(1) *1st through 30th day*—screening by the contracting agency. The agency shall screen the listed items for its use. When screening is completed, the plant clearance officer shall delete the retained items from the schedules.

(2) *31st through 75th day*—screening by all Federal agencies. Not later than the 31st day, the plant clearance officer shall send four copies of the revised schedules and Standard Form (SF) 120, Report of Excess Personal Property, to the General Services Administration (GSA) regional office that serves the region in which the property is located. If the plant clearance officer receives a request for property transfer after submission of the SF 120, and before receiving a GSA property transfer order, a prompt request shall be forwarded to GSA for approval to withdraw the items from the inventory schedule. The regional GSA office will prepare and issue circulars and catalogs to all Federal agencies within the region. GSA will honor requests for transfer of property on a “first-come first-served” basis through the 75th day. The GSA regional office will transmit to the plant clearance officer the

approved orders and shipping instructions for property to be transferred. The 75th day is the surplus release date and will be shown on the SF 120. The plant clearance officer may not extend this date.

(3) *76th through 90th day*—screening by GSA for possible donation. During this period, GSA will arrange for screening of all remaining property for possible donation to eligible donees. Procedures for donation are in 45.609. The 90th day is the screening completion date and will be shown on the SF 120. The plant clearance officer shall not extend this date.

#### 45.608-3 Agency screening.

Agency screening is the procedure for screening certain types of property (see Table 45-1) only within the contracting agency. The screening period begins on the date the plant clearance officer receives acceptable inventory schedules and ends 30 days later.

#### 45.608-4 Limited screening.

(a) Items that are scrap or salvage or that otherwise have a limited potential for use (except special tooling) are not ordinarily subject to standard or agency screening. The plant clearance officer shall include listings of such property in a special file, which shall be made available to GSA for limited screening. The screening period for such property begins on the date the plant clearance officer receives acceptable inventory schedules and ends 30 days later. This period is apportioned into two phases, as follows:

(1) *1st through 15th day*—GSA selection of items for Federal utilization.

(2) *16th through 30th day*—GSA selection of items for donation.

(b) For special tooling, the screening period described in paragraph (a) of this section begins upon completion of agency screening.

#### 45.608-5 Special items screening.

Special procedures are established for the following types of property:

(a) *Special test equipment with standard components.*

(1) Contractors reporting special test equipment that contains standard, general, or multipurpose components will describe the composite unit to clearly reflect its capability. Standard components that can be economically removed and reused will be listed and described in sufficient detail to permit screening.

(2) If the contractor has a requirement for the standard components to meet other approved special test equipment or facilities requirements, the contractor shall annotate the SF 1432, Inventory Schedule D (Special Tooling and Special

Test Equipment), to reflect this requirement. Screening shall be accomplished in accordance with agency procedures for the first 30 days. If there are no agency requirements for the composite unit, and if the administrative contracting officer approves the retention, the contractor shall have priority for the standard components for which it has indicated a requirement.

(3) Standard components that have not been retained by the agency or the contractor shall be screened in accordance with standard requirements for the 31st through 75th day. Standard components shall not be removed from the composite unit until a requirement has been established. If no requirements exist, the composite units shall be donated or sold in accordance with prescribed procedures.

(b) *Special test equipment without standard components.* Special test equipment without standard components shall receive agency screening for 30 days. Items for which no requirements exist shall receive limited screening for an additional 30 days.

(c) *Printing equipment.* Agencies shall report all printing equipment excess to their requirements to the:

Public Printer  
Government Printing Office  
North Capitol and H Streets, NW  
Washington, DC 20401

after screening within the agency (see 44 U.S.C. 312). If the Public Printer indicates no requirements, the reporting activity shall submit the listing of printing equipment to the General Services Administration for further use and donation screening.

(d) *Nuclear materials.* (1) The possession, use, and transfer of certain nuclear material(s) are subject to the regulatory controls of the Nuclear Regulatory Commission (NRC). The materials are defined as follows:

(i) *By-product material*—any radioactive material (except special nuclear material) yielded in or made radioactive by exposure to the radiation incident to producing or using special nuclear material.

(ii) *Source material*—uranium or thorium, or any combination thereof, in any physical or chemical form; or ores which contain by weight one-twentieth of 1 percent (0.05 percent) or more of uranium, thorium, or any combination thereof. Source material does not include special nuclear material.

(iii) *Special nuclear material*—plutonium, uranium 233, uranium enriched in the isotope 233 or in the isotope 235, and any other material that the NRC determines to be special nuclear material (but not including source material); or any material artificially enriched by any nuclear material.

(2) Plant clearance officers shall submit listings of excess nuclear material in the categories described above for screening by the contracting activity. If there are no requirements, the ultimate method of disposal shall be dependent upon the license issued by the NRC or the respective states and pertinent Federal and agency regulations.

#### 45.608-6 Waiver of screening requirements.

Agency heads or their designees may authorize exceptions from screening requirements; provided—

(a) There are compelling circumstances clearly in the Government's interest; and

(b) The contracting agency prepares a written notice, including justification, and provides a copy to—

General Services Administration  
Office of Governmentwide Policy  
Office of Transportation and Personal Property (MT)  
1800 F Street NW  
Washington DC 20405

and the contract administration office 10 days before the effective date of the exception.

#### 45.608-7 Reimbursement of costs for transfer of contractor inventory.

The contracting agency shall not be reimbursed for the acquisition cost of any property selected by another agency or for overhead or administrative costs associated with such property. The transferee will pay any transportation costs that are not the contractor's responsibility. Costs for packing, crating, preparation for shipment, and loading of contractor inventory are chargeable to the contract for assets subject to the Government property clauses at 52.245-2, Government Property (Fixed-Price Contracts), and 52.245-5, Government Property (Cost-Reimbursement, Time-and-Material, or Labor-Hour Contracts), and such costs are ordinarily included in the contractor's settlement proposal for termination inventory. The transferee will pay such costs for property subject to 52.245-7, Government Property (Consolidated Facilities), or 52.245-10, Government Property (Facilities Acquisition), or 52.245-11, Government Property (Facilities Use), unless such costs are otherwise the contractor's responsibility. The contract administration office is responsible for obtaining packing, crating, and handling services. To accelerate plant clearance, the transferee shall include all appropriate data, including funding data, in the transfer or shipping document.

#### 45.608-8 Report of excess personal property (SF 120).

(a) This subsection provides instructions for completing SF 120, Report of Excess Personal Property, when reporting contractor inventory in accordance with 45.608-2. For reporting other agency excess personal property, see 41 CFR 101-43.4901-120-1, Instructions for Preparing SF 120.

(b) All items on the form are self-explanatory, except as follows:

**Item 1, Report number.** Enter the serial number of the report and any other identifying number or symbol required by the reporting agency. If the report is a correction or withdrawal (complete or partial) of a prior report, the original report number shall be entered, followed by the letter a, b, or c, etc., to identify the number of successive correcting or withdrawing reports.

**Item 3, Total cost.** Enter the total of all amounts shown on the inventory schedules.

**Item 4, Type of report.**

*Box b*—Check if necessary to correct an original report and complete items 1, 2, 3, 4, 5, and 7. Complete the remaining items only to the extent necessary to show the correction.

*Box c*—Check for partial withdrawals of contractor inventory previously reported and complete items 1, 2, 3, 4, 5, and 7. Re-identify in column 18(b) the line items or portions of line items withdrawn. In column 18(e), show the number of units withdrawn. In column 18(g), show the acquisition cost of the units withdrawn. In item 3, enter the total acquisition cost of all items withdrawn.

*Box d*—Check for total withdrawal of contractor inventory previously reported and complete items 1, 2, 3, 4, 5, and 7. Provide explanatory remarks in column 18(b).

**Item 5, To.** Enter the name(s) and address(es) of the screening agencies or the GSA regional office serving the geographic area in which the property is located.

**Item 6, Appropriation or fund to be reimbursed.** No entry shall be made in this item if the net proceeds are to be deposited in the Treasury as miscellaneous receipts (see 45.610-3). However, in exchange/sale transactions an appropriation number is required.

**Item 8, Report approved by.** Enter signature and title of the Federal official approving report.

**Item 12, GSA control number.** Not to be used by reporting activity.

**Item 13, FSC group number, if known.** If inventory schedules contain multiple FSC groups, insert "See Inventory Schedules."

**Item 14, Location of property.** Enter the name of contractor holding the property and the specific address where the property is located.

**Item 15, Reimbursement required.** Enter X in the block designated "No."

**Item 16, Agency control number.** Leave blank.

**Item 17, Surplus release date.** (See 45.608-2).

**Item 18, Excess property list.** Leave blank.

*Column a, Item number.* Leave blank.

*Column b, Description.* Enter the following information:

- (1) Identification of attached inventory schedules and the number of pages for each schedule.
- (2) The screening completion date (see 45.608-2).
- (3) The following notation: “It is imperative that fund appropriations for the transportation of the materials be furnished with the transfer order.” If, pursuant to 45.608-7, the transferee is responsible for funding, packing, crating, and handling, include this additional notation: “Fund appropriations for packing, crating, and handling of inventory described herein must also be provided by the transferee.”
- (4) Contract number.
- (5) When reporting motor vehicles in Federal Supply Groups 23, 24, and 38—
  - (i) In column 18(b), the estimated one-time cost of repairs (parts and labor); and
  - (ii) In column 18(c), a condition code based on the estimated cost of repairs.

(c) *Columns c through h.* Leave blank, except as they are used for paragraph (b)(5)(ii) of this subsection.

#### **45.609 Donations.**

(a) Property may be donated only after it has been determined to be surplus following appropriate utilization screening. The donation of surplus property to an authorized donee is subordinate to any need for property by a Federal agency.

(b) The GSA is responsible for making necessary arrangements for donation screening of serviceable property during the last 15 days of the 90-day screening period.

(c) Items that have been selected for donation shall not be retained longer than 42 calendar days from the surplus release date. The plant clearance officer shall authorize release to the eligible donees immediately upon receipt of GSA approval and shipping instructions. If approval and shipping instructions, including provision for payment of all costs incident to donation, are not received within the 42-day period, the property shall be otherwise disposed of as surplus. All costs incident to donation that are not the responsibility of the contractor shall be borne by the donee.

(d) Agencies having a current essential requirement may withdraw property undergoing donation screening. In all other cases, property may be withdrawn only after GSA concurrence.

#### **45.610 Sale of surplus contractor inventory.**

##### **45.610-1 Responsibility.**

(a) The Administrator, GSA, exercises general supervision and direction over the disposition of surplus personal property, including sales of surplus contractor inventory. Policy and procedures for sales of contractor inventory are contained in the Federal Property Management Regulations (FPMR) 41 CFR Part 101-45. Sales of contractor inventory under the

control of the Department of Defense are conducted in accordance with the DOD Supplement to the FAR.

(b) Reportable property submitted to GSA on SF 120 for utilization screening and not otherwise transferred or donated will automatically be programmed for sale by the GSA regional office.

(c) All other property requiring sale shall be reported to GSA on SF 126, Report of Personal Property for Sale, and in accordance with any additional instructions provided by the GSA regional office cognizant of the location where the property is physically located.

##### **45.610-2 Exemptions from sale by GSA.**

(a) Agency heads may seek exemptions from the Administrator, GSA, by submitting a letter explaining the impairment or adverse effect of sale by GSA and justifying the need for the exemption.

(b) GSA regional offices may authorize sale by the reporting activity of perishable items or small lots of limited-value property at isolated locations.

##### **45.610-3 Proceeds of sale.**

Proceeds of any sale are to be credited to the Treasury of the United States as miscellaneous receipts, except where the contract or any subcontract thereunder authorizes the proceeds to be credited to the price or cost of the work (40 U.S.C. 485(a) and (e)).

##### **45.610-4 Contractor inventory in foreign countries.**

Contractor inventory located in foreign countries shall be sold or disposed of in accordance with agency procedures (see 40 U.S.C. 511-514).

##### **45.611 Destruction or abandonment.**

(a) Surplus property may be destroyed or abandoned only after every effort has been made to dispose of it by other authorized methods. Before authorizing destruction or abandonment, the plant clearance officer shall determine in writing that—

(1) The property has no commercial value and no value to the Government;

(2) The estimated cost of care and handling is greater than the probable sale price; or

(3) Because of its nature, the property constitutes a danger to public health, safety, or welfare.

(b) Unless permitted by the contract, no contractor inventory shall be abandoned on the contractor’s premises without the contractor’s written consent.

(c) Surplus property for which a determination has been made under paragraph (a)(1) or (2) of this section may, however, be donated to public bodies in lieu of abandonment or destruction. All costs incident to donation shall be borne by the donee.

**45.612 Removal and storage.****45.612-1 General.**

Contractor inventory shall be removed from the contractor's premises as soon as possible to preclude storage expenses.

**45.612-2 Special storage at the contractor's risk.**

When the contractor finds it necessary to remove property from the premises before expiration of the plant clearance period, the contractor may, with the concurrence of the plant clearance officer, store property in a warehouse or other storage location on or off the contractor's premises. Storage shall in no way modify the contractor's responsibility for the property. The expense of storage, including any cost incident to the transportation to and from the storage area, shall normally be borne by the contractor and shall not be charged directly or indirectly to Government contracts unless the contracting officer determines that the storage is for the convenience of the Government.

**45.612-3 Special storage at the Government's expense.**

(a) Contractor inventory may be stored at the Government's expense only when the contracting officer determines that it should be retained in storage for anticipated use.

(b) When the plant clearance officer recommends that the contracting office execute a storage agreement with the contractor, the request shall be accompanied with adequate data to justify the agreement (*e.g.*, property to be stored, storage period, and cost to the Government).

(c) If the contractor will not agree to storage on its premises, the plant clearance officer shall submit adequate information to permit a decision by the contracting office for storage on a Government or commercial facility (*e.g.*, storage space required; necessary packing, crating, and shipping services; and information as to available Government or commercial storage facilities in the local area).

**45.613 Property disposal determinations.**

Written determinations supporting abandonment, destruction, or other appropriate disposition shall be made by the plant clearance officer and reviewed by an appropriate reviewing authority within the agency.

**45.614 Subcontractor inventory.**

(a) The disposal policies and procedures in this subpart are applicable to contractor inventory in the possession of subcontractors, except inventory under terminated subcontracts

for which the termination contracting officer has authorized the prime contractor to conclude settlements (see 49.108-4).

(b) Subcontractors in all tiers shall prepare inventory schedules in accordance with the requirements of this subpart. Forms prescribed for use by prime contractors may be used by subcontractors, but their use is not required if substantially equivalent information is provided. Subcontractor inventory and any disposal recommendations (including scrap recommendations) shall be reported through the next-higher-tier subcontractor to the contractor, who is responsible for reporting property to the cognizant plant clearance officer. The prime contractor and each subcontractor are responsible for review and approval of inventory schedules submitted by their respective next-lower-tier subcontractors. This includes review and, if necessary, physical survey of subcontractor inventory that is contained in a termination settlement proposal to assure that it is physically, technically, and quantitatively allocable to the contract, and cannot be reasonably diverted to other work of the subcontractor.

(c) Any rights which the prime contractor has or acquires in the inventory of first-tier or lower-tier subcontractors shall, to the extent directed by the contracting officer, be exercised for the benefit of the Government in accordance with the provisions of the prime contract.

(d) Contract administration offices shall assure that prime contractors have performed adequate allocability reviews of subcontractor inventory and have determined that materials reasonably usable on other prime or subcontractor work are not included in a termination settlement proposal. The plant clearance officer for the prime contractor plant is responsible for determining the adequacy of screening, allocability reviews, and proper crediting of proceeds for the disposal of subcontractor inventory by the prime contractor. Assistance should generally be secured from other officers for verification, determination of allocability, local screening, and plant clearance action when property is located outside the geographic area of the cognizant contract administration office.

**45.615 Accounting for contractor inventory.**

Following disposition of all contractor inventory, and after due application of proceeds, the plant clearance officer shall prepare SF 1424, Inventory Disposal Report, accounting for all property reported by the contractor and its disposition. The report shall indicate any inventory lost, damaged, destroyed, or otherwise unaccounted for, as well as any changes in quantity or value of inventory made by the contractor after submission of the initial schedules. The report shall be transmitted to the property administrator or, for termination inventory, to the termination contracting officer.

This page intentionally left blank.

**46.000 Scope of part.**

This part prescribes policies and procedures to ensure that supplies and services acquired under Government contract conform to the contract's quality and quantity requirements. Included are inspection, acceptance, warranty, and other measures associated with quality requirements.

**Subpart 46.1—General****46.101 Definitions.**

As used in this part—

“Acceptance” means the act of an authorized representative of the Government by which the Government, for itself or as agent of another, assumes ownership of existing identified supplies tendered or approves specific services rendered as partial or complete performance of the contract.

“Conditional acceptance” means acceptance of supplies or services that do not conform to contract quality requirements, or are otherwise incomplete, that the contractor is required to correct or otherwise complete by a specified date.

“Contract quality requirements” means the technical requirements in the contract relating to the quality of the product or service and those contract clauses prescribing inspection, and other quality controls incumbent on the contractor, to assure that the product or service conforms to the contractual requirements.

“Critical nonconformance” means a nonconformance that is likely to result in hazardous or unsafe conditions for individuals using, maintaining, or depending upon the supplies or services; or is likely to prevent performance of a vital agency mission.

“Government contract quality assurance” means the various functions, including inspection, performed by the Government to determine whether a contractor has fulfilled the contract obligations pertaining to quality and quantity.

“Major nonconformance” means a nonconformance, other than critical, that is likely to result in failure of the supplies or services, or to materially reduce the usability of the supplies or services for their intended purpose.

“Minor nonconformance” means a nonconformance that is not likely to materially reduce the usability of the supplies or services for their intended purpose, or is a departure from established standards having little bearing on the effective use or operation of the supplies or services.

“Off-the-shelf item” means an item produced and placed in stock by a contractor, or stocked by a distributor, before receiving orders or contracts for its sale. The item may be commercial or produced to military or Federal specifications or description.

“Patent defect” means any defect which exists at the time of acceptance and is not a latent defect.

“Subcontractor” (see 44.101).

“Testing” means that element of inspection that determines the properties or elements, including functional operation of supplies or their components, by the application of established scientific principles and procedures.

**46.102 Policy.**

Agencies shall ensure that—

(a) Contracts include inspection and other quality requirements, including warranty clauses when appropriate, that are determined necessary to protect the Government's interest;

(b) Supplies or services tendered by contractors meet contract requirements;

(c) Government contract quality assurance is conducted before acceptance (except as otherwise provided in this part), by or under the direction of Government personnel;

(d) No contract precludes the Government from performing inspection;

(e) Nonconforming supplies or services are rejected, except as otherwise provided in 46.407;

(f) Contracts for commercial items shall rely on a contractor's existing quality assurance system as a substitute for compliance with Government inspection and testing before tender for acceptance unless customary market practices for the commercial item being acquired permit in-process inspection (Section 8002 of Public Law 103-355). Any in-process inspection by the Government shall be conducted in a manner consistent with commercial practice; and

(g) The quality assurance and acceptance services of other agencies are used when this will be effective, economical, or otherwise in the Government's interest (see Subpart 42.1).

**46.103 Contracting office responsibilities.**

Contracting offices are responsible for—

(a) Receiving from the activity responsible for technical requirements any specifications for inspection, testing, and other contract quality requirements essential to ensure the integrity of the supplies or services (the activity responsible for technical requirements is responsible for prescribing contract quality requirements, such as inspection and testing requirements or, for service contracts, a quality assurance surveillance plan);

(b) Including in solicitations and contracts the appropriate requirements for the contractor's control of quality for the supplies or services to be acquired;

(c) Issuing any necessary instructions to the cognizant contract administration office and acting on recommendations submitted by that office (see 42.301 and 46.104(f));

(d) When contract administration is retained (see 42.201), verifying that the contractor fulfills the contract quality requirements; and

(e) Ensuring that nonconformances are identified, and establishing the significance of a nonconformance when con-

sidering the acceptability of supplies or services which do not meet contract requirements.

#### **46.104 Contract administration office responsibilities.**

When a contract is assigned for administration to the contract administration office cognizant of the contractor's plant, that office, unless specified otherwise, shall—

(a) Develop and apply efficient procedures for performing Government contract quality assurance actions under the contract in accordance with the written direction of the contracting office;

(b) Perform all actions necessary to verify whether the supplies or services conform to contract quality requirements;

(c) Maintain, as part of the performance records of the contract, suitable records reflecting—

(1) The nature of Government contract quality assurance actions, including, when appropriate, the number of observations made and the number and type of defects; and

(2) Decisions regarding the acceptability of the products, the processes, and the requirements, as well as action to correct defects.

(d) Implement any specific written instructions from the contracting office;

(e) Report to the contracting office any defects observed in design or technical requirements, including contract quality requirements; and

(f) Recommend any changes necessary to the contract, specifications, instructions, or other requirements that will provide more effective operations or eliminate unnecessary costs (see 46.103(c)).

#### **46.105 Contractor responsibilities.**

(a) The contractor is responsible for carrying out its obligations under the contract by—

(1) Controlling the quality of supplies or services;

(2) Tendering to the Government for acceptance only those supplies or services that conform to contract requirements;

(3) Ensuring that vendors or suppliers of raw materials, parts, components, subassemblies, etc., have an acceptable quality control system; and

(4) Maintaining substantiating evidence, when required by the contract, that the supplies or services conform to contract quality requirements, and furnishing such information to the Government as required.

(b) The contractor may be required to provide and maintain an inspection system or program for the control of quality that is acceptable to the Government (see 46.202).

(c) The control of quality by the contractor may relate to, but is not limited to—

(1) Manufacturing processes, to ensure that the product is produced to, and meets, the contract's technical requirements;

(2) Drawings, specifications, and engineering changes, to ensure that manufacturing methods and operations meet the contract's technical requirements;

(3) Testing and examination, to ensure that practices and equipment provide the means for optimum evaluation of the characteristics subject to inspection;

(4) Reliability and maintainability assessment (life, endurance, and continued readiness);

(5) Fabrication and delivery of products, to ensure that only conforming products are tendered to the Government;

(6) Technical documentation, including drawings, specifications, handbooks, manuals, and other technical publications;

(7) Preservation, packaging, packing, and marking; and

(8) Procedures and processes for services to ensure that services meet contract performance requirements.

(d) The contractor is responsible for performing all inspections and tests required by the contract except those specifically reserved for performance by the Government (see 46.201(c)).

**Subpart 46.2—Contract Quality Requirements**

**46.201 General.**

(a) The contracting officer shall include in the solicitation and contract the appropriate quality requirements. The type and extent of contract quality requirements needed depends on the particular acquisition and may range from inspection at time of acceptance to a requirement for the contractor's implementation of a comprehensive program for controlling quality.

(b) As feasible, solicitations and contracts may provide for alternative, but substantially equivalent, inspection methods to obtain wide competition and low cost. The contracting officer may also authorize contractor-recommended alternatives when in the Government's interest and approved by the activity responsible for technical requirements.

(c) Although contracts generally make contractors responsible for performing inspection before tendering supplies to the Government, there are situations in which contracts will provide for specialized inspections to be performed solely by the Government. Among situations of this kind are—

- (1) Tests that require use of specialized test equipment or facilities not ordinarily available in suppliers' plants or commercial laboratories (*e.g.*, ballistic testing of ammunition, unusual environmental tests, and simulated service tests); and
- (2) Contracts that require Government testing for first article approval (see Subpart 9.3).

(d) Except as otherwise specified by the contract, required contractor testing may be performed in the contractor's or subcontractor's laboratory or testing facility, or in any other laboratory or testing facility acceptable to the Government.

**46.202 Types of contract quality requirements.**

Contract quality requirements fall into four general categories, depending on the extent of quality assurance needed by the Government for the acquisition involved.

**46.202-1 Contracts for commercial items.**

When acquiring commercial items (see Part 12), the Government shall rely on contractors' existing quality assurance systems as a substitute for Government inspection and testing before tender for acceptance unless customary market practices for the commercial item being acquired include in-process inspection. Any in-process inspection by the Government shall be conducted in a manner consistent with commercial practice.

**46.202-2 Government reliance on inspection by contractor.**

(a) Except as specified in (b) of this section, the Government shall rely on the contractor to accomplish all inspection

and testing needed to ensure that supplies or services acquired at or below the simplified acquisition threshold conform to contract quality requirements before they are tendered to the Government (see 46.301).

(b) The Government shall not rely on inspection by the contractor if the contracting officer determines that the Government has a need to test the supplies or services in advance of their tender for acceptance, or to pass judgment upon the adequacy of the contractor's internal work processes. In making the determination, the contracting officer shall consider—

- (1) The nature of the supplies and services being purchased and their intended use;
- (2) The potential losses in the event of defects;
- (3) The likelihood of uncontested replacement or correction of defective work; and
- (4) The cost of detailed Government inspection.

**46.202-3 Standard inspection requirements.**

(a) Standard inspection requirements are contained in the clauses prescribed in 46.302 through 46.308, and 46.310, and in the product and service specifications that are included in solicitations and contracts.

(b) The clauses referred to in (a) of this section—

- (1) Require the contractor to provide and maintain an inspection system that is acceptable to the Government;
- (2) Give the Government the right to make inspections and tests while work is in process; and
- (3) Require the contractor to keep complete, and make available to the Government, records of its inspection work.

**46.202-4 Higher-level contract quality requirements.**

(a) Requiring compliance with higher-level quality standards is appropriate in solicitations and contracts for complex or critical items (see 46.203(b) and (c)) or when the technical requirements of the contract require—

- (1) Control of such things as work operations, in-process controls, and inspection; or
- (2) Attention to such factors as organization, planning, work instructions, documentation control, and advanced metrology.

(b) When the contracting officer, in consultation with technical personnel, finds it is in the Government's interest to require that higher-level quality standards be maintained, the contracting officer shall use the clause prescribed at 46.311. The contracting officer shall indicate in the clause which higher-level quality standards will satisfy the Government's requirement. Examples of higher-level quality standards are ISO 9001, 9002, or 9003; ANSI/ISO/ASQ Q9001-2000;

ANSI/ASQC Q9001, Q9002, or Q9003; QS-9000; AS-9000; ANSI/ASQC E4; and ANSI/ASME NQA-1.

#### 46.203 Criteria for use of contract quality requirements.

The extent of contract quality requirements, including contractor inspection, required under a contract shall usually be based upon the classification of the contract item (supply or service) as determined by its technical description, its complexity, and the criticality of its application.

(a) *Technical description.* Contract items may be technically classified as—

(1) Commercial (described in commercial catalogs, drawings, or industrial standards; see Part 2); or

(2) Military-Federal (described in Government drawings and specifications).

(b) *Complexity.* (1) Complex items have quality characteristics, not wholly visible in the end item, for which contractual conformance must be established progressively through precise measurements, tests, and controls applied during purchasing, manufacturing, performance, assembly, and functional operation either as an individual item or in conjunction with other items.

(2) Noncomplex items have quality characteristics for which simple measurement and test of the end item are sufficient to determine conformance to contract requirements.

(c) *Criticality.* (1) A critical application of an item is one in which the failure of the item could injure personnel or jeopardize a vital agency mission. A critical item may be either peculiar, meaning it has only one application, or common, meaning it has multiple applications.

(2) A noncritical application is any other application. Noncritical items may also be either peculiar or common.

## Subpart 46.3—Contract Clauses

### 46.301 Contractor inspection requirements.

The contracting officer shall insert the clause at 52.246-1, Contractor Inspection Requirements, in solicitations and contracts for supplies or services when the contract amount is expected to be at or below the simplified acquisition threshold and (a) inclusion of the clause is necessary to ensure an explicit understanding of the contractor's inspection responsibilities, or (b) inclusion of the clause is required under agency procedures. The clause shall not be used if the contracting officer has made the determination specified in 46.202-2(b).

### 46.302 Fixed-price supply contracts.

The contracting officer shall insert the clause at 52.246-2, Inspection of Supplies—Fixed-Price, in solicitations and contracts for supplies, or services that involve the furnishing of supplies, when a fixed-price contract is contemplated and the contract amount is expected to exceed the simplified acquisition threshold. The contracting officer may insert the clause in such solicitations and contracts when the contract amount is expected to be at or below the simplified acquisition threshold and inclusion of the clause is in the Government's interest. If a fixed-price incentive contract is contemplated, the contracting officer shall use the clause with its Alternate I. If a fixed-ceiling-price contract with retroactive price redetermination is contemplated, the contracting officer shall use the clause with its Alternate II.

### 46.303 Cost-reimbursement supply contracts.

The contracting officer shall insert the clause at 52.246-3, Inspection of Supplies—Cost-Reimbursement, in solicitations and contracts for supplies, or services that involve the furnishing of supplies, when a cost-reimbursement contract is contemplated.

### 46.304 Fixed-price service contracts.

The contracting officer shall insert the clause at 52.246-4, Inspection of Services—Fixed-Price, in solicitations and contracts for services, or supplies that involve the furnishing of services, when a fixed-price contract is contemplated and the contract amount is expected to exceed the simplified acquisition threshold. The contracting officer may insert the clause in such solicitations and contracts when the contract amount is expected to be at or below the simplified acquisition threshold and inclusion is in the Government's interest.

### 46.305 Cost-reimbursement service contracts.

The contracting officer shall insert the clause at 52.246-5, Inspection of Services—Cost Reimbursement, in solicitations and contracts for services, or supplies that involve the furnishing

of services, when a cost-reimbursement contract is contemplated.

### 46.306 Time-and-material and labor-hour contracts.

The contracting officer shall insert the clause at 52.246-6, Inspection—Time-and-Material and Labor-Hour, in solicitations and contracts when a time-and-material contract or a labor-hour contract is contemplated. If Government inspection and acceptance are to be performed at the contractor's plant, the contracting officer shall use the clause with its Alternate I.

### 46.307 Fixed-price research and development contracts.

(a) The contracting officer shall insert the clause at 52.246-7, Inspection of Research and Development—Fixed-Price, in solicitations and contracts for research and development when—

(1) The primary objective of the contract is the delivery of end items other than designs, drawings, or reports,

(2) A fixed-price contract is contemplated, and

(3) The contract amount is expected to exceed the simplified acquisition threshold; unless use of the clause is impractical and the clause prescribed in 46.309 is considered to be more appropriate.

(b) The contracting officer may insert the clause in such solicitations and contracts when the contract amount is expected to be at or below the simplified acquisition threshold, and its use is in the Government's interest.

### 46.308 Cost-reimbursement research and development contracts.

The contracting officer shall insert the clause at 52.246-8, Inspection of Research and Development—Cost-Reimbursement, in solicitations and contracts for research and development when (a) the primary objective of the contract is the delivery of end items other than designs, drawings, or reports, and (b) a cost-reimbursement contract is contemplated; unless use of the clause is impractical and the clause prescribed in 46.309 is considered to be more appropriate. If it is contemplated that the contract will be on a no-fee basis, the contracting officer shall use the clause with its Alternate I.

### 46.309 Research and development contracts (short form).

The contracting officer shall insert the clause at 52.246-9, Inspection of Research and Development (Short Form), in solicitations and contracts for research and development when the clause prescribed in 46.307 or the clause prescribed in 46.308 is not used.

### 46.310 Facilities contracts.

The contracting officer shall insert the clause at 52.246-10, Inspection of Facilities, in solicitations and contracts when a facilities contract is contemplated.

**46.311 Higher-level contract quality requirement.**

The contracting officer shall insert the clause at 52.246-11, Higher-Level Contract Quality Requirement, in solicitations and contracts when the inclusion of a higher-level contract quality requirement is appropriate (see 46.202-4).

**46.312 Construction contracts.**

The contracting officer shall insert the clause at 52.246-12, Inspection of Construction, in solicitations and contracts for construction when a fixed-price contract is contemplated and the contract amount is expected to exceed the simplified acquisition threshold. The contracting officer may insert the clause in such solicitations and contracts when the contract amount is expected to be at or below the simplified acquisition threshold, and its use is in the Government's interest.

**46.313 Contracts for dismantling, demolition, or removal of improvements.**

The contracting officer shall insert the clause at 52.246-13, Inspection—Dismantling, Demolition, or Removal of Improvements, in solicitations and contracts for dismantling, demolition, or removal of improvements.

**46.314 Transportation contracts.**

The contracting officer shall insert the clause at 52.246-14, Inspection of Transportation, in solicitations and contracts for

freight transportation services (including local drayage) by rail, motor (including bus), domestic freight forwarder, and domestic water carriers (including inland, coastwise, and intercoastal). The contracting officer shall not use the clause for the acquisition of transportation services by domestic or international air carriers or by international ocean carriers, or to freight services provided under bills of lading or to those negotiated for reduced rates under 49 U.S.C. 10721(b)(1). (See Part 47, Transportation.)

**46.315 Certificate of conformance.**

The contracting officer shall insert the clause at 52.246-15, Certificate of Conformance, in solicitations and contracts for supplies or services when the conditions in 46.504 apply.

**46.316 Responsibility for supplies.**

The contracting officer shall insert the clause at 52.246-16, Responsibility for Supplies, in solicitations and contracts for (a) supplies, (b) services involving the furnishing of supplies, or (c) research and development, when a fixed-price contract is contemplated and the contract amount is expected to exceed the simplified acquisition threshold. The contracting officer may insert the clause in such solicitations and contracts when the contract amount is not expected to exceed the simplified acquisition threshold and inclusion of the clause is authorized under agency procedures.

## Subpart 46.4—Government Contract Quality Assurance

### 46.401 General.

(a) Government contract quality assurance shall be performed at such times (including any stage of manufacture or performance of services) and places (including subcontractors' plants) as may be necessary to determine that the supplies or services conform to contract requirements. Quality assurance surveillance plans should be prepared in conjunction with the preparation of the statement of work. The plans should specify—

- (1) All work requiring surveillance; and
- (2) The method of surveillance.

(b) Each contract shall designate the place or places where the Government reserves the right to perform quality assurance.

(c) If the contract provides for performance of Government quality assurance at source, the place or places of performance may not be changed without the authorization of the contracting officer.

(d) If a contract provides for delivery and acceptance at destination and the Government inspects the supplies at a place other than destination, the supplies shall not ordinarily be reinspected at destination, but should be examined for quantity, damage in transit, and possible substitution or fraud.

(e) Government inspection shall be performed by or under the direction or supervision of Government personnel.

(f) Government inspection shall be documented on an inspection or receiving report form or commercial shipping document/packing list, under agency procedures (see Subpart 46.6).

(g) Agencies may prescribe the use of inspection approval or disapproval stamps to identify and control supplies and material that have been inspected for conformance with contract quality requirements.

### 46.402 Government contract quality assurance at source.

Agencies shall perform contract quality assurance, including inspection, at source if—

- (a) Performance at any other place would require uneconomical disassembly or destructive testing;
- (b) Considerable loss would result from the manufacture and shipment of unacceptable supplies, or from the delay in making necessary corrections;
- (c) Special required instruments, gauges, or facilities are available only at source;
- (d) Performance at any other place would destroy or require the replacement of costly special packing and packaging;

(e) Government inspection during contract performance is essential; or

(f) It is determined for other reasons to be in the Government's interest.

### 46.403 Government contract quality assurance at destination.

(a) Government contract quality assurance that can be performed at destination is normally limited to inspection of the supplies or services. Inspection shall be performed at destination under the following circumstances—

- (1) Supplies are purchased off-the-shelf and require no technical inspection;
- (2) Necessary testing equipment is located only at destination;
- (3) Perishable subsistence supplies purchased within the United States, except that those supplies destined for overseas shipment will normally be inspected for condition and quantity at points of embarkation;

(4) Brand name products purchased for authorized resale through commissaries or similar facilities (however, supplies destined for direct overseas shipment may be accepted by the contracting officer or an authorized representative on the basis of a tally sheet evidencing receipt of shipment signed by the port transportation officer or other designated official at the transshipment point);

(5) The products being purchased are processed under direct control of the National Institutes of Health or the Food and Drug Administration of the Department of Health and Human Services;

(6) The contract is for services performed at destination; or

(7) It is determined for other reasons to be in the Government's interest.

(b) Overseas inspection of supplies shipped from the United States shall not be required except in unusual circumstances, and then only when the contracting officer determines in advance that inspection can be performed or makes necessary arrangements for its performance.

### 46.404 Government contract quality assurance for acquisitions at or below the simplified acquisition threshold.

(a) In determining the type and extent of Government contract quality assurance to be required for contracts at or below the simplified acquisition threshold, the contracting officer shall consider the criticality of application of the supplies or services, the amount of possible losses, and the likelihood of uncontested replacement of defective work (see 46.202-2).

(b) When the conditions in 46.202-2(b) apply, the following policies shall govern:

(1) Unless a special situation exists, the Government shall inspect contracts at or below the simplified acquisition threshold at destination and only for type and kind; quantity; damage; operability (if readily determinable); and preservation, packaging, packing, and marking, if applicable.

(2) Special situations may require more detailed quality assurance and the use of a standard inspection or higher-level contract quality requirement. These situations include those listed in 46.402 and contracts for items having critical applications.

(3) Detailed Government inspection may be limited to those characteristics that are special or likely to cause harm to personnel or property. When repetitive purchases of the same item are made from the same manufacturer with a history of defect-free work, Government inspection may be reduced to a periodic check of occasional purchases.

#### **46.405 Subcontracts.**

(a) Government contract quality assurance on subcontracted supplies or services shall be performed only when required in the Government's interest. The primary purpose is to assist the contract administration office cognizant of the prime contractor's plant in determining the conformance of subcontracted supplies or services with contract requirements or to satisfy one or more of the factors included in (b) of this section. It does not relieve the prime contractor of any responsibilities under the contract. When appropriate, the prime contractor shall be requested to arrange for timely Government access to the subcontractor facility.

(b) The Government shall perform quality assurance at the subcontract level when—

(1) The item is to be shipped from the subcontractor's plant to the using activity and inspection at source is required;

(2) The conditions for quality assurance at source are applicable (see 46.402);

(3) The contract specifies that certain quality assurance functions, which can be performed only at the subcontractor's plant, are to be performed by the Government; or

(4) It is otherwise required by the contract or determined to be in the Government's interest.

(c) Supplies or services for which certificates, records, reports, or similar evidence of quality are available at the prime contractor's plant shall not be inspected at the subcontractor's plant, except occasionally to verify this evidence or when required under (b) of this section.

(d) All oral and written statements and contract terms and conditions relating to Government quality assurance actions at the subcontract level shall be worded so as not to—

(1) Affect the contractual relationship between the prime contractor and the Government, or between the prime contractor and the subcontractor;

(2) Establish a contractual relationship between the Government and the subcontractor; or

(3) Constitute a waiver of the Government's right to accept or reject the supplies or services.

#### **46.406 Foreign governments.**

Government contract quality assurance performed for foreign governments or international agencies shall be administered according to the foreign policy and security objectives of the United States. Such support shall be furnished only when consistent with or required by legislation, executive orders, or agency policies concerning mutual international programs.

#### **46.407 Nonconforming supplies or services.**

(a) The contracting officer should reject supplies or services not conforming in all respects to contract requirements (see 46.102). In those instances where deviation from this policy is found to be in the Government's interest, such supplies or services may be accepted only as authorized in this section.

(b) The contracting officer ordinarily must give the contractor an opportunity to correct or replace nonconforming supplies or services when this can be accomplished within the required delivery schedule. Unless the contract specifies otherwise (as may be the case in some cost-reimbursement contracts), correction or replacement must without additional cost to the Government. Paragraph (e)(2) of the clause at 52.246-2, Inspection of Supplies—Fixed-Price, reserves to the Government the right to charge the contractor the cost of Government reinspection and retests because of prior rejection.

(c)(1) In situations not covered by paragraph (b) of this section, the contracting officer ordinarily must reject supplies or services when the nonconformance is critical or major or the supplies or services are otherwise incomplete. However, there may be circumstances (*e.g.*, reasons of economy or urgency) when the contracting officer determines acceptance or conditional acceptance of supplies or services is in the best interest of the Government. The contracting officer must make this determination based upon—

(i) Advice of the technical activity that the item is safe to use and will perform its intended purpose;

(ii) Information regarding the nature and extent of the nonconformance or otherwise incomplete supplies or services;

(iii) A request from the contractor for acceptance of the nonconforming or otherwise incomplete supplies or services (if feasible);

(iv) A recommendation for acceptance, conditional acceptance, or rejection, with supporting rationale; and

(v) The contract adjustment considered appropriate, including any adjustment offered by the contractor.

(2) The cognizant contract administration office, or other Government activity directly involved, must furnish this data to the contracting officer in writing, except that in urgent cases it may be furnished orally and later confirmed in

writing. Before making a decision to accept, the contracting officer must obtain the concurrence of the activity responsible for the technical requirements of the contract and, where health factors are involved, of the responsible health official of the agency concerned.

(d) If the nonconformance is minor, the cognizant contract administration office may make the determination to accept or reject, except where this authority is withheld by the contracting office of the contracting activity. To assist in making this determination, the contract administration office may establish a joint contractor-contract administrative office review group. Acceptance of supplies and services with critical or major nonconformances is outside the scope of the review group.

(e) The contracting officer must discourage the repeated tender of nonconforming supplies or services, including those with only minor nonconformances, by appropriate action, such as rejection and documenting the contractor's performance record.

(f) When supplies or services are accepted with critical or major nonconformances as authorized in paragraph (c) of this section, the contracting officer must modify the contract to provide for an equitable price reduction or other consideration. In the case of conditional acceptance, amounts withheld from payments generally should be at least sufficient to cover the estimated cost and related profit to correct deficiencies and complete unfinished work. The contracting officer must document in the contract file the basis for the amounts withheld. For services, the contracting officer can consider identifying the value of the individual work requirements or tasks (subdivisions) that may be subject to price or fee reduction. This value may be used to determine an equitable adjustment

for nonconforming services. However, when supplies or services involving minor nonconformances are accepted, the contract need not be modified unless it appears that the savings to the contractor in fabricating the nonconforming supplies or performing the nonconforming services will exceed the cost to the Government of processing the modification.

(g) Notices of rejection must include the reasons for rejection and be furnished promptly to the contractor. Promptness in giving this notice is essential because, if timely nature of rejection is not furnished, acceptance may in certain cases be implied as a matter of law. The notice must be in writing if—

- (1) The supplies or services have been rejected at a place other than the contractor's plant;
- (2) The contractor persists in offering nonconforming supplies or services for acceptance; or
- (3) Delivery or performance was late without excusable cause.

#### **46.408 Single-agency assignments of Government contract quality assurance.**

(a) Government-wide responsibility for quality assurance support for acquisitions of certain commodities is assigned as follows:

- (1) For drugs, biologics, and other medical supplies—the Food and Drug Administration;
- (2) For food, except seafood—the Department of Agriculture.
- (3) For seafood—the National Marine Fisheries Service of the Department of Commerce.

(b) Agencies requiring quality assurance support for acquiring these supplies should request the support directly from the cognizant office.

## Subpart 46.5—Acceptance

### 46.501 General.

Acceptance constitutes acknowledgment that the supplies or services conform with applicable contract quality and quantity requirements, except as provided in this subpart and subject to other terms and conditions of the contract. Acceptance may take place before delivery, at the time of delivery, or after delivery, depending on the provisions of the terms and conditions of the contract. Supplies or services shall ordinarily not be accepted before completion of Government contract quality assurance actions (however, see 46.504). Acceptance shall ordinarily be evidenced by execution of an acceptance certificate on an inspection or receiving report form or commercial shipping document/packing list.

### 46.502 Responsibility for acceptance.

Acceptance of supplies or services is the responsibility of the contracting officer. When this responsibility is assigned to a cognizant contract administration office or to another agency (see 42.202(g)), acceptance by that office or agency is binding on the Government.

### 46.503 Place of acceptance.

Each contract shall specify the place of acceptance. Contracts that provide for Government contract quality assurance at source shall ordinarily provide for acceptance at source. Contracts that provide for Government contract quality assurance at destination shall ordinarily provide for acceptance at destination. (For transportation terms, see Subpart 47.3.) Supplies accepted at a place other than destination shall not be reinspected at destination for acceptance purposes, but should be examined at destination for quantity, damage in transit, and possible substitution or fraud.

### 46.504 Certificate of conformance.

A certificate of conformance (see 46.315) may be used in certain instances instead of source inspection (whether the contract calls for acceptance at source or destination) at the

discretion of the contracting officer if the following conditions apply:

(a) Acceptance on the basis of a contractor's certificate of conformance is in the Government's interest.

(b)(1) Small losses would be incurred in the event of a defect; or

(2) Because of the contractor's reputation or past performance, it is likely that the supplies or services furnished will be acceptable and any defective work would be replaced, corrected, or repaired without contest. In no case shall the Government's right to inspect supplies under the inspection provisions of the contract be prejudiced.

### 46.505 Transfer of title and risk of loss.

(a) Title to supplies shall pass to the Government upon formal acceptance, regardless of when or where the Government takes physical possession, unless the contract specifically provides for earlier passage of title.

(b) Unless the contract specifically provides otherwise, risk of loss of or damage to supplies shall remain with the contractor until, and shall pass to the Government upon—

(1) Delivery of the supplies to a carrier if transportation is f.o.b. origin; or

(2) Acceptance by the Government or delivery of the supplies to the Government at the destination specified in the contract, whichever is later, if transportation is f.o.b. destination.

(c) Paragraph (b) of this section shall not apply to supplies that so fail to conform to contract requirements as to give a right of rejection. The risk of loss of or damage to such non-conforming supplies remains with the contractor until cure or acceptance. After cure or acceptance, paragraph (b) of this section shall apply.

(d) Under paragraph (b) of this section, the contractor shall not be liable for loss of or damage to supplies caused by the negligence of officers, agents, or employees of the Government acting within the scope of their employment.

(e) The policy expressed in (a) through (d) of this section is specified in the clause at 52.246-16, Responsibility for Supplies, which is prescribed in 46.316.

---

**Subpart 46.6—Material Inspection and Receiving Reports**

and receiving reports and commercial shipping document/packing lists to evidence Government inspection (see 46.401) and acceptance (see 46.501).

**46.601 General.**

Agencies shall prescribe procedures and instructions for the use, preparation, and distribution of material inspection

## Subpart 46.7—Warranties

### 46.701 [Reserved]

### 46.702 General.

(a) The principal purposes of a warranty in a Government contract are—

(1) To delineate the rights and obligations of the contractor and the Government for defective items and services; and

(2) To foster quality performance.

(b) Generally, a warranty should provide—

(1) A contractual right for the correction of defects notwithstanding any other requirement of the contract pertaining to acceptance of the supplies or services by the Government; and

(2) A stated period of time or use, or the occurrence of a specified event, after acceptance by the Government to assert a contractual right for the correction of defects.

(c) The benefits to be derived from a warranty must be commensurate with the cost of the warranty to the Government.

### 46.703 Criteria for use of warranties.

The use of warranties is not mandatory. In determining whether a warranty is appropriate for a specific acquisition, the contracting officer shall consider the following factors:

(a) *Nature and use of the supplies or services.* This includes such factors as—

(1) Complexity and function;

(2) Degree of development;

(3) State of the art;

(4) End use;

(5) Difficulty in detecting defects before acceptance; and

(6) Potential harm to the Government if the item is defective.

(b) *Cost.* Warranty costs arise from—

(1) The contractor's charge for accepting the deferred liability created by the warranty; and

(2) Government administration and enforcement of the warranty (see paragraph (c) of this section).

(c) *Administration and enforcement.* The Government's ability to enforce the warranty is essential to the effectiveness of any warranty. There must be some assurance that an adequate administrative system for reporting defects exists or can be established. The adequacy of a reporting system may depend upon such factors as the—

(1) Nature and complexity of the item;

(2) Location and proposed use of the item;

(3) Storage time for the item;

(4) Distance of the using activity from the source of the item;

(5) Difficulty in establishing existence of defects; and

(6) Difficulty in tracing responsibility for defects.

(d) *Trade practice.* In many instances an item is customarily warranted in the trade, and, as a result of that practice, the cost of an item to the Government will be the same whether or not a warranty is included. In those instances, it would be in the Government's interest to include such a warranty.

(e) *Reduced requirements.* The contractor's charge for assumption of added liability may be partially or completely offset by reducing the Government's contract quality assurance requirements where the warranty provides adequate assurance of a satisfactory product.

### 46.704 Authority for use of warranties.

The use of a warranty in an acquisition shall be approved in accordance with agency procedures.

### 46.705 Limitations.

(a) Except for the warranties in the clauses at 52.246-3, Inspection of Supplies—Cost-Reimbursement, and 52.246-8, Inspection of Research and Development—Cost-Reimbursement, the contracting officer shall not include warranties in cost-reimbursement contracts, unless authorized in accordance with agency regulations (see 46.708).

(b) Warranty clauses shall not limit the Government's rights under an inspection clause (see Subpart 46.3) in relation to latent defects, fraud, or gross mistakes that amount to fraud.

(c) Except for warranty clauses in construction contracts, warranty clauses shall provide that the warranty applies notwithstanding inspection and acceptance or other clauses or terms of the contract.

### 46.706 Warranty terms and conditions.

(a) To facilitate the pricing and enforcement of warranties, the contracting officer shall ensure that warranties clearly state the—

(1) Exact nature of the item and its components and characteristics that the contractor warrants;

(2) Extent of the contractor's warranty including all of the contractor's obligations to the Government for breach of warranty;

(3) Specific remedies available to the Government; and

(4) Scope and duration of the warranty.

(b) The contracting officer shall consider the following guidelines when preparing warranty terms and conditions:

(1) *Extent of contractor obligations.* (i) Generally, the contractor's obligations under warranties extend to all defects discovered during the warranty period, but do not include damage caused by the Government. When a warranty for the entire item is not advisable, a warranty may be required for a particular aspect of the item that may require special protec-

tion (e.g., installation, components, accessories, subassemblies, preservation, packaging, and packing, etc.).

(ii) If the Government specifies the design of the end item and its measurements, tolerances, materials, tests, or inspection requirements, the contractor's obligations for correction of defects shall usually be limited to defects in material and workmanship or failure to conform to specifications. If the Government does not specify the design, the warranty extends also to the usefulness of the design.

(iii) If express warranties are included in a contract (except contracts for commercial items), all implied warranties of merchantability and fitness for a particular purpose shall be negated by the use of specific language in the clause (see clauses 52.246-17, Warranty of Supplies of a Noncomplex Nature; 52.246-18, Warranty of Supplies of a Complex Nature; and 52.246-19, Warranty of Systems and Equipment under Performance Specifications or Design Criteria).

(2) *Remedies.* (i) Normally, a warranty shall provide as a minimum that the Government may—

(A) Obtain an equitable adjustment of the contract, or

(B) Direct the contractor to repair or replace the defective items at the contractor's expense.

(ii) If it is not practical to direct the contractor to make the repair or replacement, or, because of the nature of the item, the repair or replacement does not afford an appropriate remedy to the Government, the warranty should provide alternate remedies, such as authorizing the Government to—

(A) Retain the defective item and reduce the contract price by an amount equitable under the circumstances; or

(B) Arrange for the repair or replacement of the defective item, by the Government or by another source, at the contractor's expense.

(iii) If it can be foreseen that it will not be practical to return an item to the contractor for repair, to remove it to an alternate source for repair, or to replace the defective item, the warranty should provide that the Government may repair, or require the contractor to repair, the item in place at the contractor's expense. The contract shall provide that in the circumstance where the Government is to accomplish the repair, the contractor will furnish at the place of delivery the material or parts, and the installation instructions required to successfully accomplish the repair.

(iv) Unless provided otherwise in the warranty, the contractor's obligation to repair or replace the defective item, or to agree to an equitable adjustment of the contract, shall include responsibility for the costs of furnishing all labor and material to—

(A) Reinspect items that the Government reasonably expected to be defective,

(B) Accomplish the required repair or replacement of defective items, and

(C) Test, inspect, package, pack, and mark repaired or replaced items.

(v) If repair or replacement of defective items is required, the contractor shall generally be required by the warranty to bear the expense of transportation for returning the defective item from the place of delivery specified in the contract (irrespective of the f.o.b. point or the point of acceptance) to the contractor's plant and subsequent return. When defective items are returned to the contractor from other than the place of delivery specified in the contract, or when the Government exercises alternate remedies, the contractor's liability for transportation charges incurred shall not exceed an amount equal to the cost of transportation by the usual commercial method of shipment between the place of delivery specified in the contract and the contractor's plant and subsequent return.

(3) *Duration of the warranty.* The time period or duration of the warranty must be clearly specified and shall be established after consideration of such factors as (i) the estimated useful life of the item, (ii) the nature of the item including storage or shelf-life, and (iii) trade practice. The period specified shall not extend the contractor's liability for patent defects beyond a reasonable time after acceptance by the Government.

(4) *Notice.* The warranty shall specify a reasonable time for furnishing notice to the contractor regarding the discovery of defects. This notice period, which shall apply to all defects discovered during the warranty period, shall be long enough to assure that the Government has adequate time to give notice to the contractor. The contracting officer shall consider the following factors when establishing the notice period:

(i) The time necessary for the Government to discover the defects.

(ii) The time reasonably required for the Government to take necessary administrative steps and make a timely report of discovery of the defects to the contractor.

(iii) The time required to discover and report defective replacements.

(5) *Markings.* The packaging and preservation requirements of the contract shall require the contractor to stamp or mark the supplies delivered or otherwise furnish notice with the supplies of the existence of the warranty. The purpose of the markings or notice is to inform Government personnel who store, stock, or use the supplies that the supplies are under warranty. Markings may be brief but should include (i) a brief statement that a warranty exists, (ii) the substance of the warranty, (iii) its duration, and (iv) who to notify if the supplies are found to be defective. For commercial items (see 46.709), the contractor's trade practice in warranty marking is acceptable if sufficient information is presented for supply personnel and users to identify warranted supplies.

(6) *Consistency.* Contracting officers shall ensure that the warranty clause and any other warranty conditions in the contract (*e.g.*, in the specifications or an inspection clause) are consistent. To the extent practicable, all of the warranties to be contained in the contract should be expressed in the warranty clause.

#### **46.707 Pricing aspects of fixed-price incentive contract warranties.**

If a fixed-price incentive contract contains a warranty (see 46.708), the estimated cost of the warranty to the contractor should be considered in establishing the incentive target price and the ceiling price of the contract. All costs incurred, or estimated to be incurred, by the contractor in complying with the warranty shall be considered when establishing the total final price. Contractor compliance with the warranty after the establishment of the total final price shall be at no additional cost to the Government.

#### **46.708 Warranties of data.**

Warranties of data shall be developed and used in accordance with agency regulations.

#### **46.709 Warranties of commercial items.**

The contracting officer should take advantage of commercial warranties, including extended warranties, where appropriate and in the Government's best interests, offered by the contractor for the repair and replacement of commercial items (see Part 12).

#### **46.710 Contract clauses.**

The clauses and alternates prescribed in this section may be used in solicitations and contracts in which inclusion of a warranty is appropriate (see 46.709 for warranties for commercial items). However, because of the many situations that may influence the warranty terms and conditions appropriate to a particular acquisition, the contracting officer may vary the terms and conditions of the clauses and alternates to the extent necessary. The alternates prescribed in this section address the clauses; however, the conditions pertaining to each alternate must be considered if the terms and conditions are varied to meet a particular need.

(a)(1) The contracting officer may insert a clause substantially the same as the clause at 52.246-17, Warranty of Supplies of a Noncomplex Nature, in solicitations and contracts for noncomplex items when a fixed-price supply contract is contemplated and the use of a warranty clause has been approved under agency procedures. If the contractor's design rather than the Government's design will be used, insert the word "design" before "material" in paragraph (b)(1)(i).

(2) If it is desirable to specify that necessary transportation incident to correction or replacement will be at the Government's expense (as might be the case if, for example, the cost of a warranty would otherwise be prohibitive), the contracting officer may use the clause with its Alternate II.

(3) If the supplies cannot be obtained from another source, the contracting officer may use the clause with its Alternate III.

(4) If a fixed-price incentive contract is contemplated, the contracting officer may use the clause with its Alternate IV.

(5) If it is anticipated that recovery of the warranted items will involve considerable Government expense for disassembly and/or reassembly of larger items, the contracting officer may use the clause with its Alternate V.

(b)(1) The contracting officer may insert a clause substantially the same as the clause at 52.246-18, Warranty of Supplies of a Complex Nature, in solicitations and contracts for deliverable complex items when a fixed-price supply or research and development contract is contemplated and the use of a warranty clause has been approved under agency procedures. If the contractor's design rather than the Government's design will be used, insert the word "design" before "material" in paragraph (b)(1).

(2) If it is desirable to specify that necessary transportation incident to correction or replacement will be at the Government's expense (as might be the case if, for example, the cost of a warranty would otherwise be prohibitive), the contracting officer may use the clause with its Alternate II.

(3) If a fixed-price incentive contract is contemplated, the contracting officer may use the clause with its Alternate III.

(4) If it is anticipated that recovery of the warranted item will involve considerable Government expense for disassembly and/or reassembly of larger items, the contracting officer may use the clause with its Alternate IV.

(c)(1) The contracting officer may insert a clause substantially the same as the clause at 52.246-19, Warranty of Systems and Equipment under Performance Specifications or Design Criteria, in solicitations and contracts when performance specifications or design are of major importance; a fixed-price supply, service, or research and development contract for systems and equipment is contemplated; and the use of a warranty clause has been approved under agency procedures.

(2) If it is desirable to specify that necessary transportation incident to correction or replacement will be at the Government's expense (as might be the case if, for example, the cost of a warranty would otherwise be prohibitive), the contracting officer may use the clause with its Alternate I.

(3) If a fixed-price incentive contract is contemplated, the contracting officer may use the clause with its Alternate II.

(4) If it is anticipated that recovery of the warranted item will involve considerable Government expense for disassembly and/or reassembly of larger items, the contracting officer may use the clause with its Alternate III.

(d) The contracting officer may insert a clause substantially the same as the clause at 52.246-20, Warranty of Services, in solicitations and contracts for services when a fixed-price contract for services is contemplated and the use of warranty clause has been approved under agency procedures; unless a clause substantially the same as the clause at

52.246-19, Warranty of Systems and Equipment under Performance Specifications or Design Criteria, has been used.

(e)(1) The contracting officer may insert a clause substantially the same as the clause at 52.246-21, Warranty of Construction, in solicitations and contracts when a fixed-price construction contract (see 46.705(c)) is contemplated and the use of a warranty clause has been approved under agency procedures.

(2) If the Government specifies in the contract the use of any equipment by "brand name and model," the contracting officer may use the clause with its Alternate I.

**Subpart 46.8—Contractor Liability for Loss of or Damage to Property of the Government**

**46.800 Scope of subpart.**

This subpart prescribes policies and procedures for limiting contractor liability for loss of or damage to property of the Government that—

- (a) Occurs after acceptance and
- (b) Results from defects or deficiencies in the supplies delivered or services performed.

**46.801 Applicability.**

(a) This subpart applies to contracts other than those for (1) information technology, including telecommunications, (2) construction, (3) architect-engineer services, and (4) maintenance and rehabilitation of real property. This subpart does not apply to commercial items.

(b) See Subpart 46.7, Warranties, for policies and procedures concerning contractor liability caused by nonconforming technical data.

**46.802 Definition.**

“High-value item,” as used in this subpart, means a contract end item that—

- (1) Has a high unit cost (normally exceeding \$100,000 per unit), such as an aircraft, an aircraft engine, a communication system, a computer system, a missile, or a ship, and
- (2) Is designated by the contracting officer as a high-value item.

**46.803 Policy.**

(a) *General.* The Government will generally act as a self-insurer by relieving contractors, as specified in this subpart, of liability for loss of or damage to property of the Government that (1) occurs after acceptance of supplies delivered or services performed under a contract and (2) results from defects or deficiencies in the supplies or services. However, the Government will not relieve the contractor of liability for loss of or damage to the contract end item itself, except for high-value items.

(b) *High-value items.* In contracts requiring delivery of high-value items, the Government will relieve contractors of contractual liability for loss of or damage to those items. However, this relief shall not limit the Government’s rights arising under the contract to—

- (1) Have any defective item or its components corrected, repaired, or replaced when the defect or deficiency is discovered before the loss of or damage to a high-value item occurs; or
- (2) Obtain equitable relief when the defect or deficiency is discovered after such loss or damage occurs.

(c) *Exception.* The Government will not provide contractual relief under paragraphs (a) and (b) of this section when contractor liability can be preserved without increasing the contract price.

(d) *Limitations.* Subject to the specific terms of the limitation of liability clause included in the contract, the relief provided under paragraphs (a) and (b) of this section does not apply—

- (1) To the extent that contractor liability is expressly provided under a contract clause authorized by this regulation;
- (2) When a defect or deficiency in, or Government’s acceptance of, the supplies or services results from willful misconduct or lack of good faith on the part of the contractor’s managerial personnel; or
- (3) To the extent that any contractor insurance, or self-insurance reserve, covers liability for loss or damage suffered by the Government through purchase or use of the supplies delivered or services performed under the contract.

**46.804 [Reserved]**

**46.805 Contract clauses.**

(a) *Contracts that exceed the simplified acquisition threshold.* The contracting officer shall insert the appropriate clause or combination of clauses specified in paragraphs (a)(1) through (a)(5) of this section in solicitations and contracts when the contract amount is expected to be in excess of the simplified acquisition threshold and the contract is subject to the requirements of this subpart as indicated in 46.801:

- (1) In contracts requiring delivery of end items that are not high-value items, insert the clause at 52.246-23, Limitation of Liability.
- (2) In contracts requiring delivery of high-value items, insert the clause at 52.246-24, Limitation of Liability—High Value Items.
- (3) In contracts requiring delivery of both high-value items and other end items, insert both clauses prescribed in (a)(1) and (a)(2) of this section, Alternate I of the clause at 52.246-24, and identify clearly in the contract schedule the line items designated as high-value items.
- (4) In contracts requiring the performance of services, insert the clause at 52.246-25, Limitation of Liability—Services.
- (5) In contracts requiring both the performance of services and the delivery of end items, insert the clause prescribed in paragraph (a)(4) of this section and the appropriate clause or clauses prescribed in paragraph (a)(1), (2), or (3) of this section, and identify clearly in the contract schedule any high-value line items.

(b) *Acquisitions at or below the simplified acquisition threshold.* The clauses prescribed by paragraph (a) of this section are not required for contracts at or below the simplified acquisition threshold. However, in response to a contractor's

specific request, the contracting officer may insert the clauses prescribed in paragraph (a)(1) or (a)(4) of this section in a contract at or below the simplified acquisition threshold and may obtain any price reduction that is appropriate.

  - 47.202 Presolicitation planning.
  - 47.203 Transportation term contracts.
  - 47.204 Single-movement contracts.
  - 47.205 Availability of term contracts and basic ordering agreements for transportation or for transportation-related services.
  - 47.206 Preparation of solicitations and contracts.
  - 47.207 Solicitation provisions, contract clauses, and special requirements.
    - 47.207-1 Qualifications of offerors.
    - 47.207-2 Duration of contract and time of performance.
    - 47.207-3 Description of shipment, origin, and destination.
    - 47.207-4 Determination of weights.
    - 47.207-5 Contractor responsibilities.
    - 47.207-6 Rates and charges.
    - 47.207-7 Liability and insurance.
    - 47.207-8 Government responsibilities.
    - 47.207-9 Annotation and distribution of shipping and billing documents.
- Subpart 47.3—Transportation in Supply Contracts**
- 47.300 Scope of subpart.
  - 47.301 General.
    - 47.301-1 Responsibilities of contracting officers.
    - 47.301-2 Participation of transportation officers.
    - 47.301-3 Using the Defense Transportation System (DTS).
  - 47.302 Place of delivery—f.o.b. point.
  - 47.303 Standard delivery terms and contract clauses.
    - 47.303-1 F.o.b. origin.
    - 47.303-2 F.o.b. origin, contractor's facility.
    - 47.303-3 F.o.b. origin, freight allowed.
    - 47.303-4 F.o.b. origin, freight prepaid.
    - 47.303-5 F.o.b. origin, with differentials.
    - 47.303-6 F.o.b. destination.
    - 47.303-7 F.o.b. destination, within consignee's premises.
    - 47.303-8 F.a.s. vessel, port of shipment.
    - 47.303-9 F.o.b. vessel, port of shipment.
    - 47.303-10 F.o.b. inland carrier, point of exportation.
    - 47.303-11 F.o.b. inland point, country of importation.
    - 47.303-12 Ex dock, pier, or warehouse, port of importation.
    - 47.303-13 C. & f. destination.
    - 47.303-14 C.i.f. destination.
    - 47.303-15 F.o.b. designated air carrier's terminal, point of exportation.
    - 47.303-16 F.o.b. designated air carrier's terminal, point of importation.
    - 47.303-17 Contractor-prepaid commercial bills of lading, small package shipments.
  - 47.304 Determination of delivery terms.
    - 47.304-1 General.
    - 47.304-2 Shipments within CONUS.
    - 47.304-3 Shipments from CONUS for overseas delivery.
    - 47.304-4 Shipments originating outside CONUS.
    - 47.304-5 Exceptions.
  - 47.305 Solicitation provisions, contract clauses, and transportation factors.
    - 47.305-1 Solicitation requirements.
    - 47.305-2 Solicitations f.o.b. origin and f.o.b. destination—lowest overall cost.
    - 47.305-3 F.o.b. origin solicitations.
    - 47.305-4 F.o.b. destination solicitations.
    - 47.305-5 Destination unknown.
    - 47.305-6 Shipments to ports and air terminals.
    - 47.305-7 Quantity analysis, direct delivery, and reduction of crosshauling and backhauling.
    - 47.305-8 Consolidation of small shipments and the use of stopoff privileges.
    - 47.305-9 Commodity description and freight classification.
    - 47.305-10 Packing, marking, and consignment instructions.
    - 47.305-11 Options in shipment and delivery.
    - 47.305-12 Delivery of Government-furnished property.
    - 47.305-13 Transit arrangements.
    - 47.305-14 Mode of transportation.
    - 47.305-15 Loading responsibilities of contractors.

47.403-3	Disallowance of expenditures.	47.504	Exceptions.
47.404	Air freight forwarders.	47.505	Construction contracts.
		47.506	Procedures.
		47.507	Contract clauses.

**47.000 Scope of part.**

(a) This part prescribes policies and procedures for—

(1) Applying transportation and traffic management considerations in the acquisition of supplies; and

(2) Acquiring transportation or transportation-related services by contract methods other than bills of lading, transportation requests, transportation warrants, and similar transportation forms. Even though the FAR does not regulate the acquisition of transportation or transportation-related services when the bill of lading is the contract, this contract method is widely used and, therefore, relevant guidance on the use of the bill of lading, particularly the Government bill of lading (GBL), is provided in this part.

(b) The definitions in this part have been condensed from statutory definitions. In case of inconsistency between the language of this part and the statutory requirements, the statute shall prevail.

**47.001 Definitions.**

As used in this part—

“Carrier” or “commercial carrier” means a common carrier or a contract carrier.

“Common carrier” means a person holding itself out to the general public to provide transportation for compensation.

“Contract carrier” means a person providing transportation for compensation under continuing agreements with one person or a limited number of persons.

“CONUS” or “Continental United States” means the 48 contiguous states and the District of Columbia.

**47.002 Applicability.**

(a) All Government personnel concerned with the activities listed in paragraphs (a)(1) through (a)(4) of this section shall follow the regulations in Part 47 as applicable:

(1) Acquisition of supplies.

(2) Acquisition of transportation and transportation-related services.

(3) Transportation assistance and traffic management.

(4) The making and administration of contracts under which payments are made from Government funds for—

(i) The transportation of supplies;

(ii) Transportation-related services; or

(iii) Transportation of contractor personnel and their personal belongings.

(b) Subpart 42.14, Traffic and Transportation Management, shall be used for administering transportation contracts, transportation-related contracts, and those portions of supply and other contracts that involve transportation.

**Subpart 47.1—General****47.101 Policies.**

(a) The contracting officer shall obtain traffic management advice and assistance (see 47.105) in the consideration of transportation factors required for—

(1) Solicitations and awards;

(2) Contract administration, modification, and termination; and

(3) Transportation of property by the Government to and from contractors' plants.

(b)(1) The preferred method of transporting supplies for the Government is by commercial carriers. However, Government-owned, leased, or chartered vehicles, aircraft, and vessels may be used if—

(i) They are available and not fully utilized;

(ii) Their use will result in substantial economies;

and

(iii) Their use is in accordance with all applicable statutes, agency policies and regulations.

(2) If the three circumstances listed in paragraph (b)(1) of this section apply, Government vehicles may be used for purposes such as—

(i) Local transportation of supplies between Government installations;

(ii) Pickup and delivery services that commercial carriers do not perform in connection with line-haul transportation;

(iii) Transportation of supplies to meet emergencies; and

(iv) Accomplishment of program objectives that cannot be attained by using commercial carriers.

(c) Agencies shall not accord preferential treatment to any mode of transportation or to any particular carrier either in awarding or administering contracts for the acquisition of supplies or in awarding contracts for the acquisition of transportation. (See Subparts 47.2 and 47.3 for situations in which the contracting officer is permitted to use specific modes of transportation.)

(d) Agencies shall place with small business concerns purchases and contracts for transportation and transportation-related services as prescribed in Part 19.

(e) Agencies shall comply with the Fly America Act, the Cargo Preference Act, and related statutes as prescribed in Subparts 47.4, Air Transportation by U.S.-Flag Carriers, and 47.5, Ocean Transportation by U.S.-Flag Vessels.

**47.102 Transportation insurance.**

(a) The Government generally—

(1) Retains the risk of loss of and/or damage to its property that is not the legal liability of commercial carriers and

(2) Does not buy insurance coverage for its property in the possession of commercial carriers (40 U.S.C. 726). (See Part 28, Bonds and Insurance.)

(b) Under special circumstances the Government may, if such action is considered necessary and in the Government's interest, (1) buy insurance coverage for Government property or (2) require the carrier to (i) assume full responsibility for loss of or damage to the Government property in its possession and (ii) buy insurance to cover the carrier's assumed responsibility. The cost of this insurance to the carrier shall be part of the transportation cost. (The Secretary of the Treasury prescribes regulations regarding shipments of valuables in 31 CFR 261 and 262.)

(c)(1) If special circumstances dictate the need for the Government to buy insurance coverage, the contracting officer shall ascertain that—

- (i) There is no statutory prohibition; and
- (ii) Funds for insurance are available.

(2) The contracting officer shall document the need and authorization for insurance coverage in the contract file.

#### **47.103 Transportation Documentation and Audit Regulation (TDA).**

(a) The United States Government bill of lading (GBL) generally shall be used for the transportation of property of the United States for which the Government pays the transportation charges directly to commercial carriers.

(b)(1) Regulations and procedures governing the GBL, documentation, payment, and audit of transportation services acquired by the United States Government are prescribed in 41 CFR 101-41, Transportation Documentation and Audit. Included in this regulation, among others, is the limited authority for the use of commercial forms and procedures to acquire freight or express transportation for small shipments of a recurring nature when transportation costs do not exceed \$100.

(2) For DOD shipments, corresponding guidance is in Chapter 32 of the Defense Traffic Management Regulation (DTMR).

(c) Subsection 42.1403-2 prescribes regulations and procedures for the occasional use of contractor-prepaid commercial bills of lading for the transportation of supplies weighing not more than 1,000 pounds that are acquired by the Government on f.o.b. origin terms.

#### **47.104 Government rate tenders under section 10721 of the Interstate Commerce Act.**

##### **47.104-1 Government freight.**

(a) Common carriers subject to the jurisdiction of the Interstate Commerce Commission may under the provisions of 49 U.S.C. 10721 offer to transport persons or property for the

account of the United States without charge or at reduced rates.

(b) Section 10721 rates are published in Government rate tenders and apply to shipments moving for the account of the Government; *i.e.*, on—

(1) Government bills of lading;

(2) Commercial bills of lading endorsed to show that such bills of lading are to be exchanged for, or converted to, Government bills of lading at destination after delivery to the consignees; or

(3) Commercial bills of lading endorsed to show that total transportation charges are assignable to, and will be reimbursed by, the Government (see the clause at 52.247-1, Commercial Bill of Lading Notations).

(c) Government agencies may negotiate with carriers for additional or revised section 10721 rates in appropriate situations. Only qualified transportation officers shall carry out these negotiations. (See 47.105 for transportation assistance.) The following are examples of situations in which negotiations for additional or revised section 10721 rates may be appropriate:

(1) Volume movements are expected.

(2) Shipments will be made on a recurring basis between designated places, and substantial savings in transportation costs appear possible even though a volume movement is not involved.

(3) Transit arrangements are feasible and advantageous to the Government.

##### **47.104-2 Fixed-price contracts.**

(a) *F.o.b. destination.* Section 10721 quotations do not apply to shipments under fixed-price f.o.b. destination contracts (delivered price).

(b) *F.o.b. origin.* Under fixed-price f.o.b. origin contracts, shipments normally shall be made on GBL's. However, if it is advantageous to the Government, the contracting officer may occasionally require the contractor to prepay the freight charges to a specific destination. In such cases, the contractor shall use a commercial bill of lading and be reimbursed for the direct and actual transportation cost as a separate item in the invoice. The clause at 52.247-1, Commercial Bill of Lading Notations, will ensure that the Government in this type of arrangement obtains the benefit of section 10721 rates.

##### **47.104-3 Cost-reimbursement contracts.**

(a) The Interstate Commerce Commission has ruled that section 10721 rates may be applied to shipments other than those made by the Government if the total benefit accrues to the Government; *i.e.*, the Government must pay the charges or directly and completely reimburse the party that initially bears the freight charges. Therefore, section 10721 rates may be used for shipments moving on commercial bills of lading in cost-reimbursement contracts under which the transporta-

tion costs are direct and allowable costs under the cost principles of Part 31.

(b) Section 10721 rates may be applied to the movement of household goods and personal effects of contractor employees who are relocated for the convenience and at the direction of the Government and whose total transportation costs are reimbursed by the Government.

(c) The clause at 52.247-1, Commercial Bill of Lading Notations, will ensure that the Government receives the benefit of lower section 10721 rates in cost-reimbursement contracts as described in paragraphs (a) and (b) of this section.

(d) Contracting officers shall—

(1) Include in contracts a statement requiring the contractor to use carriers that offer acceptable service at reduced rates if available; and

(2) Ensure that contractors receive the name and location of the transportation officer designated to furnish support and guidance when using Government rate tenders under 47.104-5(b).

(e) Transportation officers shall—

(1) Advise and assist contracting officers and contractors; and

(2) Make available to contractors the names of carriers that provide service under section 10721 quotations, cite applicable rate tenders, and advise contractors of the statement that must be shown on the carrier's commercial bill of lading (see the clause at 52.247-1, Commercial Bill of Lading Notations).

#### **47.104-4 Contract clauses.**

(a) The contracting officer, in order to ensure the application of section 10721 rates, shall insert the clause at 52.247-1, Commercial Bill of Lading Notations, in solicitations and contracts when the contracts will be—

(1) Cost-reimbursement contracts, including those that may involve the movement of household goods (see 47.104-3(b)); or

(2) Fixed-price f.o.b. origin contracts (other than contracts at or below the simplified acquisition threshold) (see 47.104-2(b) and 47.104-3).

(b) The contracting officer may insert the clause at 52.247-1, Commercial Bill of Lading Notations, in solicitations and contracts made at or below the simplified acquisition threshold when it is contemplated that the delivery terms will be f.o.b. origin.

(c) The contracting officer shall insert the clause at 52.247-67, Submission of Commercial Transportation Bills to the General Services Administration for Audit, in solicitations and contracts when a cost-reimbursement contract is contemplated and the contract or a first-tier cost-reimbursement subcontract thereunder will authorize reimbursement of transportation as a direct charge to the contract or subcontract.

#### **47.104-5 Citation of Government rate tenders.**

When section 10721 rates apply, transportation officers or contractors, as appropriate, shall identify the applicable Government rate tender by endorsement on bills of lading, including—

(a) GBL's or commercial bills of lading to be converted to GBL's (see 41 CFR 101-41.303, Conversion of commercial bills of lading to GBL's); and

(b) Properly endorsed commercial bills of lading when transportation charges are reimbursable (see 47.104-2(b) and 47.104-3).

#### **47.105 Transportation assistance.**

(a) Civilian Government activities that do not have transportation officers, or otherwise need assistance on transportation matters, shall obtain assistance from—

(1) The GSA Regional Federal Supply Service Bureau that provides support to the activity or

(2) The transportation element of the contract administration office designated in the contract.

(b) Military installations shall obtain transportation assistance from the transportation office of the contracting activity, unless another military activity has been designated as responsible for furnishing assistance, guidance, or data. Military transportation offices shall request needed additional aid from the appropriate area headquarters of the Military Traffic Management Command (MTMC).

## Subpart 47.2—Contracts for Transportation or for Transportation-Related Services

### 47.200 Scope of subpart.

(a) This subpart prescribes procedures for the acquisition by sealed bid or negotiated contracts of—

(1) Freight transportation (including local drayage) from rail, motor (including bus), domestic water (including inland, coastwise, and intercoastal) carriers, and from freight forwarders; and

(2) Transportation-related services including but not limited to stevedoring, storage, packing, marking, and ocean freight forwarding.

(b) Except as provided in paragraph (c) of this section, this subpart does not apply to—

(1) The acquisition of freight transportation from—

(i) Domestic or international air carriers; and

(ii) International ocean carriers (see Subparts 47.4 and 47.5);

(2) Freight transportation acquired by bills of lading;

(3) Freight transportation for which rates are negotiated under 49 U.S.C. 10721(b)(1); or

(4) Contracts at or below the simplified acquisition threshold.

(c) With appropriate modifications, the procedures in this subpart may be applied to the acquisition of freight transportation from the carriers listed in paragraph (b)(1) of this section and passenger transportation from any carrier or mode.

(d) The procedures in this subpart are applicable to the transportation of household goods and personal effects of persons being relocated at Government expense except when acquired—

(1) Under the commuted rate schedules as required in the Federal Travel Regulation (41 CFR 101-7);

(2) By U.S. Government bill of lading (GBL); or

(3) By DOD under the Personal Property Management Regulation (DOD 4500.34R).

(e) Additional guidance for DOD acquisition of freight and passenger transportation is in the Defense Traffic Management Regulation.

### 47.201 Definitions.

As used in this subpart—

“General freight” means supplies, goods, and transportable property not encompassed in the definitions of “household goods” or “office furniture.”

“Household goods” means personal property that belongs to a person and that person’s immediate family and includes, but is not limited to household furnishings, equipment and appliances, furniture, clothing, books, and similar property (see 41 CFR 101-7).

“Office furniture” means furniture, equipment, fixtures, records, and other equipment and materials used in Government offices, hospitals, and similar establishments.

### 47.202 Presolicitation planning.

Contracting officers shall inform activities that plan to acquire transportation or transportation-related services of the applicable lead-time requirements, that is—

(a) The Service Contract Act of 1965 (SCA) requirement for submission of Standard Form 98, Notice of Intention to Make a Service Contract and Response to Notice, to the Department of Labor not less than the number of days prescribed by the Department of Labor before the issuance of an invitation for bid, request for proposal, or commencement of negotiations for any contract exceeding \$2,500 that may be subject to the SCA (see Subpart 22.10);

(b) The possible requirement to provide, during the solicitation period, time for prospective offerors or contractors to inspect origin and destination locations; or

(c) The possible requirement for inspection by agency personnel of prospective contractor facilities and equipment.

### 47.203 Transportation term contracts.

(a) Transportation term contracts are indefinite delivery requirements contracts for transportation or for transportation-related services. They are particularly useful for local drayage and office relocations within a metropolitan area.

(b) Transportation term contracts shall contain descriptions of the services to be performed; rates and charges for these services; the geographical area of coverage; the term of the contract; and minimum or maximum order limitations by dollar amount, shipment size, or other criteria.

(c) If appropriate, the transportation term contract shall require the contractor to provide the services covered to any Government agency that issues an order for these services under the contract. If so—

(1) Agencies may place orders for transportation or for transportation-related services under existing term contracts without further consideration of competition, as these term contracts are awarded on a price-competitive basis; and

(2) Agency personnel shall ensure that the orders they place conform to the contract, including any minimum or maximum order limitations.

(d) Policies and procedures regarding the use of GSA term contracts for transportation or for transportation-related services by civilian executive agencies are prescribed in 41 CFR 101-40.109.

### 47.204 Single-movement contracts.

Single-movement contracts may be awarded for unique transportation services that are not otherwise available under carrier tariffs or covered by DOD or GSA contracts; *e.g.*, special requirements at origin and/or destination.

#### **47.205 Availability of term contracts and basic ordering agreements for transportation or for transportation-related services.**

(a) All Government agencies may contract for transportation or for transportation-related services and execute basic ordering agreements (BOA's) (see Subpart 16.7) unless agency regulations prescribe otherwise. However, it is generally more economical and efficient for most agencies to make use of term contracts and basic ordering agreements that have been executed by agencies that employ personnel experienced in contracting for transportation or for transportation-related services. The Department of Defense (DOD) and the General Services Administration (GSA) contract for transportation or for transportation-related services on behalf of other activities and agencies. For instance, GSA awards term contracts for services such as local drayage, office moves, and ocean-freight forwarding (see 47.105 for assistance).

(b) Agencies may obtain transportation or transportation-related services for which the cost does not exceed the simplified acquisition threshold if term contracts or basic ordering agreements are not available.

#### **47.206 Preparation of solicitations and contracts.**

(a) Contracting officers shall prepare solicitations and contracts for transportation or for transportation-related services as prescribed elsewhere in the FAR for fixed-price service contracts to the extent that those requirements are applicable and not inconsistent with the requirements in Subpart 47.2.

(b) In addition, the contracting officer shall include in solicitations and contracts for transportation or for transportation-related services provisions, clauses, and instructions as prescribed in section 47.207.

#### **47.207 Solicitation provisions, contract clauses, and special requirements.**

The contracting officer shall include provisions, clauses, and special requirements in solicitations and contracts for transportation or for transportation-related services as prescribed in 47.207-1 through 47.207-9.

##### **47.207-1 Qualifications of offerors.**

(a) *Operating authorities.* The contracting officer shall insert the clause at 52.247-2, Permits, Authorities, or Franchises, when regulated transportation is involved. The clause need not be used when a Federal office move is intrastate and the contracting officer determines that it is in the Government's interest not to apply the requirement for holding or obtaining State authority to operate within the State.

(b) *Performance capability for Federal office moving contracts.* (1) The contracting officer shall insert the clause at 52.247-3, Capability to Perform a Contract for the Relocation of a Federal Office, when a Federal office is relocated, to ensure that offerors are capable to perform interstate or intrastate moving contracts involving the relocation of Federal offices.

(2) If a Federal office move is intrastate and the contracting officer determines that it is in the Government's interest not to apply the requirements for holding or obtaining State authority to operate within the State, and to maintain a facility within the State or commercial zone, the contracting officer shall use the clause with its Alternate I.

(c) *Inspection of shipping and receiving facilities.* The contracting officer shall insert the provision at 52.247-4, Inspection of Shipping and Receiving Facilities, when it is desired for offerors to inspect the shipping, receiving, or other sites to ensure realistic bids.

(d) *Familiarization with conditions.* The contracting officer shall insert the clause at 52.247-5, Familiarization with Conditions, to ensure that offerors become familiar with conditions under which and where the services will be performed.

(e) *Financial statement.* The contracting officer shall insert the provision at 52.247-6, Financial Statement, to ensure that offerors are prepared to furnish financial statements.

##### **47.207-2 Duration of contract and time of performance.**

The contracting officer shall—

(a) Establish a specific expiration date (month, day, and year) for the contract or state the length of time that the contract will remain in effect; *e.g.*, 6 months commencing from the date of award; and

(b) Include the following items as appropriate:

(1) A statement of the time period during which the service is required when the service is a one-time job; *e.g.*, a routine office relocation.

(2) A time schedule for the performance of segments of a major job; *e.g.*, an office relocation for which the work phases must be coordinated to meet other needs of the agency.

(3) Statements of performance times for particular services; *e.g.*, pickup and delivery services. Specify—

(i) On which days of the week and during which hours of the day pickup and delivery services may be required;

(ii) The maximum time allowable to the contractor for accomplishing delivery under regular or priority service; and

(iii) How much advance notice the contractor will be given for regular pickup services and, if applicable, priority pickup services.

**47.207-3 Description of shipment, origin, and destination.**

(a) *Origin of shipments.* The contracting officer shall include in solicitations full details regarding the location from which the freight is to be shipped. For example, if a single location is shown, furnish the shipper's name, street address, city, State, and ZIP code. If several or indefinite locations are involved, as in the case of multiple shippers or drayage contracts, describe the area of origin including boundaries and ZIP codes.

(b) *Destination of shipments.* The contracting officer shall include full details regarding delivery points. For example, if a single delivery point is shown, furnish the consignee's name, street address, city, State, and ZIP code. If several or indefinite delivery points are involved, describe the delivery area, including boundaries and ZIP codes.

(c) *Description of the freight.* The contracting officer shall include in solicitations—

(1) An inventory if the freight consists of nonbulk items; and

(2) The freight classification description, which should be obtained from the transportation office. If a freight classification description is not available, use a clear nontechnical description. Include additional details necessary to ensure that the prospective offerors have complete information about the freight; *e.g.*, size, weight, hazardous material, whether packed for export, or unusual value.

(d) *Exclusion of freight.* The contracting officer shall—

(1) Clearly identify any freight or types of shipments that are subject to exclusion; *e.g.*, bulk freight, hazardous commodities, or shipments under or over specified weights; and

(2) Insert a clause substantially the same as the clause at 52.247-7, Freight Excluded, when any commodities or types of shipments have been identified for exclusion.

(e) *Quantity.* (1) The contracting officer shall state the actual weight of the freight or a reasonably accurate estimate. The following are examples:

(i) If the contract covers transportation services required over an extended period of time, include a schedule of actual or estimated tonnage or number of items to be transported per week, month, or other time period.

(ii) If the contract covers a group movement of household goods, give an estimate of the aggregate weights and the basis for determining the aggregate weight.

(2) The contracting officer shall insert the clause at 52.247-8, Estimated Weights or Quantities Not Guaranteed, when weights or quantities are estimates.

**47.207-4 Determination of weights.**

The contracting officer shall specify in the contract the method of determining the weights of shipments as appropri-

ate for the kind of freight involved and the type of service required.

(a) *Shipments of freight other than household goods and office furniture.* (1) The contracting officer shall insert the clause at 52.247-9, Agreed Weight—General Freight, when the shipping activity determines the weight of shipments of freight other than office furniture.

(2) The contracting officer shall insert the clause at 52.247-10, Net Weight—General Freight, when the weight of shipments of freight other than household goods or office furniture is not known at the time of shipment and the contractor is responsible for determining the net weight of the shipments.

(b) *Shipments of household goods or office furniture.* The contracting officer shall insert the clause at 52.247-11, Net Weight—Household Goods or Office Furniture, when movements of Government employees' household goods or relocations of Government offices are involved.

**47.207-5 Contractor responsibilities.**

Contractor responsibilities vary with the kinds of freight to be shipped and services required. The contracting officer shall specify clearly those service requirements that are not considered normal transportation or transportation-related requirements.

(a) *Type of equipment.* If appropriate, the contracting officer shall specify the type and size of equipment to be furnished by the contractor. Otherwise, state that the contractor shall furnish clean and sound closed-type equipment of sufficient size to accommodate the shipment.

(b) *Supervision, labor, or materials.* The contracting officer shall insert a clause substantially the same as the clause at 52.247-12, Supervision, Labor, or Materials, when the contractor is required to furnish supervision, labor, or materials.

(c) *Accessorial services—moving contracts.* The contracting officer shall insert a clause substantially the same as the clause at 52.247-13, Accessorial Services—Moving Contracts, in contracts for the transportation of household goods or office furniture.

(d) *Receipt of shipment.* The contracting officer shall insert the clause at 52.247-14, Contractor Responsibility for Receipt of Shipment.

(e) *Loading and unloading.* The contracting officer shall insert the clause at 52.247-15, Contractor Responsibility for Loading and Unloading, when the contractor is responsible for loading and unloading shipments.

(f) *Return of undelivered freight.* The contracting officer shall insert the clause at 52.247-16, Contractor Responsibility for Returning Undelivered Freight, when the contractor is responsible for returning undelivered freight.

**47.207-6 Rates and charges.**

(a)(1) The contracting officer shall include in the solicitation a statement that the charges in the contract shall not exceed the contractor's charges for the same service that is—

- (i) Available to the general public; or
- (ii) Otherwise tendered to the Government.

(2) The contracting officer shall insert the clause at 52.247-17, Charges.

(b) The contracting officer shall include in the solicitation a tabulation listing each required service and the basis for the rate (price); *e.g.*, “unit of weight” or “per work-hour,” leaving sufficient space for offerors to insert the rates offered for each service.

(c) The following guidelines apply to the composition of a tabulation of transportation or of transportation-related services and their rate (price) bases:

(1) *Combination of pricing bases.* If various types of services with different bases for assessing charges are required under the same contract, show each service separately and the applicable basis for that service.

(2) *Hourly rate basis.* If charges are based on an hourly rate, state the method for charging for fractions of an hour; *e.g.*—

- (i) A period of 30 minutes or less is charged at one-half the hourly rate; and
- (ii) The hourly rate applies to any portion of an hour that exceeds 30 minutes.

(3) *Shipments of varying weights.* If charges are based on weight and shipments will vary in weight, request rates on a graduated weight basis. Include a table of graduated weights for offerors to insert rates.

(4) *Multiple origins and/or destinations.* Specify whether rates are requested for each origin and/or each destination or for specific groups of origins and/or destinations.

(5) *Multiple shipments from one origin.* If multiple shipments will be tendered at one time to the contractor for delivery to two or more consignees at the same destination, request the rate applicable to the aggregate weight. If such shipments are for delivery to various destinations along the route between origin and last destination, request the rate applicable to the aggregate weight and a stopoff charge for each intermediate destination.

(i) The contracting officer shall insert the clause at 52.247-18, Multiple Shipments, when multiple shipments are tendered at one time to the contractor for transportation from one origin to two or more consignees at the same destination.

(ii) The contracting officer shall insert the clause at 52.247-19, Stopping in Transit for Partial Unloading, when multiple shipments are tendered at one time to the contractor for transportation from one origin to two or more consignees along the route between origin and last destination.

(6) *Estimated quantities or weights.* The contracting officer shall insert in solicitations the provision at 52.247-20, Estimated Quantities or Weights for Evaluation of Offers, when quantities or weights of shipments between each origin and destination are not known, stating estimated quantity or weight for each origin/destination pair.

(7) *Additional services.* If services in addition to those covered in the basic rate are anticipated; *e.g.*, inside delivery, state the conditions under which payment will be made for those services.

**47.207-7 Liability and insurance.**

(a) The contracting officer shall specify—

(1) The contractor's liability for injury to persons or damage to property other than the freight being transported;

(2) The contractor's liability for loss of and/or damage to the freight being transported; and

(3) The amount of insurance the contractor is required to maintain.

(b) When the contractor's liability for loss of and/or damage to the freight being transported is not specified, the usual measure of liability as prescribed in section 11707 of the Interstate Commerce Act (49 U.S.C. 11707) applies.

(c) The contracting officer shall insert the clause at 52.247-21, Contractor Liability for Personal Injury and/or Property Damage.

(d) The contracting officer shall insert the clause at 52.247-22, Contractor Liability for Loss of and/or Damage to Freight other than Household Goods, in solicitations and contracts for the transportation of freight other than household goods.

(e) The contracting officer shall insert the clause at 52.247-23, Contractor Liability for Loss of and/or Damage to Household Goods, in solicitations and contracts for the transportation of household goods, including the rate per pound appropriate to the situation.

(f) When freight is not shipped under rates subject to released or declared value, see 28.313(a) and the clause at 52.228-9, Cargo Insurance.

(g) When the contracting officer determines that vehicular liability and/or general public liability insurance required by law are not sufficient for a contract, see 28.313(b) and the clause at 52.228-10, Vehicular and General Public Liability Insurance.

**47.207-8 Government responsibilities.**

(a) The contracting officer shall state clearly the Government's responsibilities that have a direct bearing on the contractor's performance under the contract; *e.g.*, the Government's responsibility to notify the contractor in advance when hazardous materials are included in a shipment.

(1) *Advance notification.* The contracting officer shall insert the clause at 52.247-24, Advance Notification by the Government, when the Government is responsible for notifying the contractor of specific service times or unusual shipments.

(2) *Government equipment with or without operators.*

(i) The contracting officer shall insert the clause at 52.247-25, Government-Furnished Equipment With or Without Operators, when the Government furnishes equipment with or without operators.

(ii) Insert the kind of equipment and the locations where the equipment will be furnished.

(3) *Direction and marking.* The contracting officer shall insert the clause at 52.247-26, Government Direction and Marking, when office relocations are involved.

(b) The contracting officer shall insert the clause at 52.247-27, Contract Not Affected by Oral Agreement.

**47.207-9 Annotation and distribution of shipping and billing documents.**

(a) The contracting officer shall state in detail the responsibilities of the contractor, the contracting agency, and, if appropriate, the consignee for the annotation and distribution of shipping and billing documents. See 41 CFR 101-41, Transportation Documentation and Audit (TDA).

(b) In instances of mass movements of freight made available to the contractor at one time, it is particularly important that the contracting officer specifies that bills of lading be cross-referenced so that the Government benefits from applicable volume rates.

(c) The contracting officer shall insert the clause at 52.247-28, Contractor's Invoices, in drayage or other term contracts.

## Subpart 47.3—Transportation in Supply Contracts

### 47.300 Scope of subpart.

(a) This subpart prescribes policies and procedures for the application of transportation and traffic management considerations in the acquisition of supplies. The terms and conditions contained in this subpart are applicable to fixed-price contracts.

(b) If a special requirement exists for application of any of these terms and conditions to other types of contracts; *e.g.*, cost-reimbursement contracts, for which transportation arrangements are normally the responsibility of the contractor and transportation costs are allowable (see 31.205-45), the contracting officer shall use the terms and conditions prescribed in this subpart as a guide for—

- (1) Contract coverage of transportation; and
- (2) Instructions to the contractor to minimize the ultimate transportation costs to the Government.

### 47.301 General.

(a) Transportation and traffic management factors are important in awarding and administering contracts to ensure that (1) acquisitions are made on the basis most advantageous to the Government and (2) supplies arrive in good order and condition and on time at the required place. (See 47.104 for possible reduced transportation rates for Government shipments.)

(b) The requiring activity shall—

- (1) Consider all transportation factors including present and future requirements, positioning of supplies, and subsequent distribution to the extent known or ascertainable; and
- (2) Provide the contracting office with information and instructions reflecting transportation factors applicable to the particular acquisition.

### 47.301-1 Responsibilities of contracting officers.

(a) Contracting officers shall obtain from traffic management offices transportation factors required for—

- (1) Solicitations and awards; and
- (2) Contract administration, modification, and termination, including the movement of property by the Government to and from contractors' plants.

(b) Contracting officers shall request transportation office participation especially before making an initial acquisition of supplies that are unusually large, heavy, high, wide, or long; have sensitive or dangerous characteristics; or lend themselves to containerized movements from the source. In determining total transportation charges, contracting officers shall also consider additional costs arising from factors such as the use of special equipment, excess blocking and bracing material, or circuitous routing.

### 47.301-2 Participation of transportation officers.

Agencies' transportation officers shall participate in the solicitation and evaluation of offers to ensure that all necessary transportation factors, such as transportation costs, transit arrangements, time in transit, and port capabilities, are considered and result in solicitations and contracts advantageous to the Government. Transportation officers shall provide traffic management assistance throughout the acquisition cycle (see 47.105, Transportation assistance).

### 47.301-3 Using the Defense Transportation System (DTS).

(a) All military and civilian agencies shipping, or arranging for the acquisition and shipment by Government contractors, through the use of military-controlled transport or through military transshipment facilities shall follow Department of Defense (DOD) Regulation 4500.32-R, Military Standard Transportation and Movement Procedures (MILSTAMP). MILSTAMP establishes uniform procedures and documents for the generation, documentation, communication, and use of transportation information, thus providing the capability for control of shipments moving in the DTS. MILSTAMP has been implemented on a worldwide basis.

(b) Contracting activities are responsible for (1) ensuring that the requirements of the MILSTAMP regulation are included in appropriate contracts for all applicable shipments and (2) enforcing these requirements with regard to shipments under their control. This includes requirements relating to documentation, marking, advance notification of shipment dates, and terminal clearances.

(c) Contractual documents shall designate a contract administration office (see 42.202(a)) as the contact point to which the contractor will provide necessary information to—

(1) Effect MILSTAMP documentation and movement control, including air or water terminal shipment clearances; and

(2) Obtain data necessary for shipment marking and freight routing. Contractual documents shall specify that the contractor shall not ship directly to a military air or water port terminal without authorization from the designated contract administration office (see 47.305-6(f)).

### 47.302 Place of delivery—f.o.b. point.

(a) The policies and procedures in 47.304-1, -2, and -3 govern the transportation of supplies from sources in the Continental United States (CONUS), except when identifiable costs, nature of the supplies (security, safety, or value), delivery requirements (premium modes of transport, escorts, transit arrangements, and tentative conditions), or other advantages, limitations, or requirements dictate otherwise. The policies and procedures in 47.304-4 govern the transportation of supplies from sources outside CONUS.

(b) Generally, the contracting officer shall solicit offers, and award contracts, with delivery terms on the basis prescribed in 47.304. The contracting officer shall document the contract file (see 4.801) with justifications for solicitations that do not specify delivery on the basis prescribed in 47.304.

(c)(1) The place of performance of Government acquisition quality assurance actions and the place of acceptance shall not control the delivery term, except that if acceptance is at destination, transportation shall be f.o.b. destination (see 47.304-1(f)).

(2) The fact that transportation is f.o.b. destination does not alone necessitate changing the place of acceptance from origin to destination; and the fact that acceptance is at origin does not necessitate an f.o.b. origin delivery term. Providing for inspection and acceptance at origin (if appropriate under 46.402), in conjunction with an f.o.b. destination term, may be advantageous to both the Government and the contractor. Acceptance of title at origin by the Government permits payment of the contractor, provided the invoice is supported either by a copy of the signed commercial bill of lading (indicating the carrier's receipt of the supplies covered by the invoice for transportation to the particular destination specified in the contract) or by other appropriate evidence of shipment to the particular destination for the contractor's account.

### 47.303 Standard delivery terms and contract clauses.

Standard delivery terms are listed in 47.303-1 through 47.303-16 (but see 47.300 regarding applicability to cost reimbursement contracts).

#### 47.303-1 F.o.b. origin.

(a) *Explanation of delivery term.* "F.o.b. origin" means free of expense to the Government delivered—

(1) On board the indicated type of conveyance of the carrier (or of the Government, if specified) at a designated point in the city, county, and State from which the shipment will be made and from which line-haul transportation service (as distinguished from switching, local drayage, or other terminal service) will begin;

(2) To, and placed on, the carrier's wharf (at shipside, within reach of the ship's loading tackle, when the shipping point is within a port area having water transportation service) or the carrier's freight station;

(3) To a U.S. Postal Service facility; or

(4) If stated in the solicitation, to any Government-designated point located within the same city or commercial zone as the f.o.b. origin point specified in the contract (commercial zones are prescribed by the Interstate Commerce Commission at 49 CFR 1048).

(b) *Contractor responsibilities.* The contractor shall—

(1)(i) Pack and mark the shipment to comply with contract specifications; or

(ii) In the absence of specifications, prepare the shipment in conformance with carrier requirements to protect the goods and to ensure assessment of the lowest applicable transportation charge;

(2)(i) Order specified carrier equipment requested by the Government; or

(ii) If not specified, order appropriate carrier equipment not in excess of capacity to accommodate shipment;

(3) Deliver the shipment in good order and condition to the carrier, and load, stow, trim, block, and/or brace carload or truckload shipment (when loaded by the contractor) on or in the carrier's conveyance as required by carrier rules and regulations;

(4) Be responsible for any loss of and/or damage to the goods—

(i) Occurring before delivery to the carrier;

(ii) Resulting from improper packing and marking;

or

(iii) Resulting from improper loading, stowing, trimming, blocking, and/or bracing of the shipment, if loaded by the contractor on or in the carrier's conveyance;

(5) Complete the Government bill of lading supplied by the ordering agency or, when a Government bill of lading is not supplied, prepare a commercial bill of lading or other transportation receipt. The bill of lading shall show—

(i) A description of the shipment in terms of the governing freight classification or tariff (or Government rate tender) under which lowest freight rates are applicable;

(ii) The seals affixed to the conveyance with their serial numbers or other identification;

(iii) Lengths and capacities of cars or trucks ordered and furnished;

(iv) Other pertinent information required to effect prompt delivery to the consignee, including name, delivery address, postal address and ZIP code of consignee, routing, etc.;

(v) Special instructions or annotations requested by the ordering agency for commercial bills of lading; *e.g.*—

(A) "To be converted to a Government bill of lading," or

(B) "This shipment is the property of, and the freight charges paid to the carrier(s) will be reimbursed by, the Government"; and

(vi) The signature of the carrier's agent and the date the shipment is received by the carrier; and

(6) Distribute the copies of the bill of lading, or other transportation receipts, as directed by the ordering agency.

(c) *Contract clause.* The contracting officer shall insert in solicitations and contracts the clause at 52.247-29, F.o.b. Origin, when the delivery term is f.o.b. origin.

**47.303-2 F.o.b. origin, contractor's facility.**

(a) *Explanation of delivery term.* "F.o.b. origin, contractor's facility" means free of expense to the Government delivered on board the indicated type of conveyance of the carrier (or of the Government if specified) at the designated facility, on the named street or highway, in the city, county, and State from which the shipment will be made.

(b) *Contractor responsibilities.* The contractor's responsibilities are the same as those listed in 47.303-1(b).

(c) *Contract clause.* The contracting officer shall insert in solicitations and contracts the clause at 52.247-30, F.o.b. Origin, Contractor's Facility, when the delivery term is f.o.b. origin, contractor's facility.

**47.303-3 F.o.b. origin, freight allowed.**

(a) *Explanation of delivery term.* "F.o.b. origin, freight allowed" means—

(1) Free of expense to the Government delivered—

(i) On board the indicated type or conveyance of the carrier (or of the Government, if specified) at a designated point in the city, county, and State from which the shipments will be made and from which line-haul transportation service (as distinguished from switching, local drayage, or other terminal service) will begin;

(ii) To, and placed on, the carrier's wharf (at ship-side, within reach of the ship's loading tackle, when the shipping point is within a port area having water transportation service) or the carrier's freight station;

(iii) To a U.S. Postal Service facility; or

(iv) If stated in the solicitation, to any Government-designated point located within the same city or commercial zone as the f.o.b. origin point specified in the contract (commercial zones are prescribed by the Interstate Commerce Commission at 49 CFR 1048); and

(2) An allowance for freight, based on applicable published tariff rates (or Government rate tenders) between the points specified in the contract, is deducted from the contract price.

(b) *Contractor responsibilities.* The contractor's responsibilities are the same as those listed in 47.303-1(b).

(c) *Contract clause.* The contracting officer shall insert in solicitations and contracts the clause at 52.247-31, F.o.b. Origin, Freight Allowed, when the delivery term is f.o.b. origin, freight allowed.

**47.303-4 F.o.b. origin, freight prepaid.**

(a) *Explanation of delivery term.* "F.o.b. origin, freight prepaid" means—

(1) Free of expense to the Government delivered—

(i) On board the indicated type of conveyance of the carrier (or of the Government, if specified) at a designated point in the city, county, and State from which the shipments will be made and from which line-haul transportation service

(as distinguished from switching, local drayage, or other terminal service) will begin;

(ii) To, and placed on, the carrier's wharf (at ship-side, within reach of the ship's loading tackle, when the shipping point is within a port area having water transportation service) or the carrier's freight station;

(iii) To a U.S. Postal Service facility; or

(iv) If stated in the solicitation, to any Government-designated point located within the same city or commercial zone as the f.o.b. origin point specified in the contract (commercial zones are prescribed by the Interstate Commerce Commission at 49 CFR 1048); and

(2) The cost of transportation, ultimately the Government's obligation, is prepaid by the contractor to the point specified in the contract.

(b) *Contractor responsibilities.* The contractor's responsibilities are the same as those listed in 47.303-1(b), except that the contractor shall prepare commercial bills of lading or other transportation receipts and shall prepay all freight charges to the extent specified in the contract.

(c) *Contract clause.* The contracting officer shall insert in solicitations and contracts the clause at 52.247-32, F.o.b. Origin, Freight Prepaid, when the delivery term is f.o.b. origin, freight prepaid.

**47.303-5 F.o.b. origin, with differentials.**

(a) *Explanation of delivery term.* "F.o.b. origin, with differentials" means—

(1) Free of expense to the Government delivered—

(i) On board the indicated type of conveyance of the carrier (or of the Government, if specified) at a designated point in the city, county, and State from which the shipments will be made and from which line-haul transportation service (as distinguished from switching, local drayage, or other terminal service) will begin;

(ii) To, and placed on, the carrier's wharf (at ship-side, within reach of the ship's loading tackle, when the shipping point is within a port area having water transportation service) or the carrier's freight station;

(iii) To a U.S. Postal Service facility; or

(iv) If stated in the solicitation, to any Government-designated point located within the same city or commercial zone as the f.o.b. origin point specified in the contract (commercial zones are prescribed by the Interstate Commerce Commission at 49 CFR 1048); and

(2) Differentials for mode of transportation, type of vehicle, or place of delivery as indicated in contractor's offer may be added to the contract price.

(b) *Contractor responsibilities.* The contractor's responsibilities are the same as those listed in 47.303-1(b). (c) *Contract clause.* The contracting officer shall insert in solicitations and contracts the clause at 52.247-33, F.o.b. Origin, with Differentials, when it is likely that offerors may include in f.o.b. ori-

gin offers a contingency to compensate for unfavorable routing conditions by the Government at the time of shipment.

#### 47.303-6 F.o.b. destination.

(a) *Explanation of delivery term.* “F.o.b. destination” means—

(1) Free of expense to the Government delivered, on board the carrier’s conveyance, at a specified delivery point where the consignee’s facility (plant, warehouse, store, lot, or other location to which shipment can be made) is located; and

(2) Supplies shall be delivered to the destination consignee’s wharf (if destination is a port city and supplies are for export), warehouse unloading platform, or receiving dock, at the expense of the contractor. The Government shall not be liable for any delivery, storage, demurrage, accessorial, or other charges involved before the actual delivery (or “constructive placement” as defined in carrier tariffs) of the supplies to the destination, unless such charges are caused by an act or order of the Government acting in its contractual capacity. If rail carrier is used, supplies shall be delivered to the specified unloading platform of the consignee. If motor carrier (including “piggyback”) is used, supplies shall be delivered to truck tailgate at the unloading platform of the consignee, except when the supplies delivered meet the requirements of Item 568 of the National Motor Freight Classification for “heavy or bulky freight.” When supplies meeting the requirements of the referenced Item 568 are delivered, unloading (including movement to the tailgate) shall be performed by the consignee, with assistance from the truck driver, if requested. If the contractor uses rail carrier or freight forwarder for less than carload shipments, the contractor shall ensure that the carrier will furnish tailgate delivery when required, if transfer to truck is required to complete delivery to consignee.

(b) *Contractor responsibilities.* The contractor shall—

(1)(i) Pack and mark the shipment to comply with contract specifications; or

(ii) In the absence of specifications, prepare the shipment in conformance with carrier requirements;

(2) Prepare and distribute commercial bills of lading;

(3) Deliver the shipment in good order and condition to the point of delivery specified in the contract;

(4) Be responsible for any loss of and/or damage to the goods occurring before receipt of the shipment by the consignee at the delivery point specified in the contract;

(5) Furnish a delivery schedule and designate the mode of delivering carrier; and

(6) Pay and bear all charges to the specified point of delivery.

(c) *Contract clause.* The contracting officer shall insert in solicitations and contracts the clause at 52.247-34, F.o.b. Destination, when the delivery term is f.o.b. destination.

#### 47.303-7 F.o.b. destination, within consignee’s premises.

(a) *Explanation of delivery term.* “F.o.b. destination, within consignee’s premises” means free of expense to the Government delivered and laid down within the doors of the consignee’s premises, including delivery to specific rooms within a building if so specified.

(b) *Contractor responsibilities.* The contractor’s responsibilities are the same as those listed in 47.303-6(b).

(c) *Contract clause.* The contracting officer shall insert in solicitations and contracts the clause at 52.247-35, F.o.b. Destination, within Consignee’s Premises, when the delivery term is f.o.b. destination, within consignee’s premises.

#### 47.303-8 F.a.s. vessel, port of shipment.

(a) *Explanation of delivery term.* “F.a.s. vessel, port of shipment” means free of expense to the Government delivered alongside the ocean vessel and within reach of its loading tackle at the specified port of shipment.

(b) *Contractor responsibilities.* The contractor shall—

(1)(i) Pack and mark the shipment to comply with contract specifications; or

(ii) In the absence of specifications, prepare the shipment for ocean transportation in conformance with carrier requirements to protect the goods and to ensure assessment of the lowest applicable transportation charge;

(2)(i) Deliver the shipment in good order and condition alongside the ocean vessel and within reach of its loading tackle, at the point of delivery and on the date or within the period specified in the contract; and

(ii) Pay and bear all applicable charges, including transportation costs, wharfage, handling, and heavy lift charges, if necessary, up to this point;

(3) Provide a clean dock or ship’s receipt;

(4) Be responsible for any loss of and/or damage to the goods occurring before delivery of the shipment to the point specified in the contract; and

(5) At the Government’s request and expense, assist in obtaining the documents required for—

(i) Exportation; or

(ii) Importation at destination.

(c) *Contract clause.* The contracting officer shall insert in solicitations and contracts the clause at 52.247-36, F.a.s. Vessel, Port of Shipment, when the delivery term is f.a.s. vessel, port of shipment.

#### 47.303-9 F.o.b. vessel, port of shipment.

(a) *Explanation of delivery term.* “F.o.b. vessel, port shipment” means free of expense to the Government loaded, stowed, and trimmed on board the ocean vessel at the specified port of shipment.

(b) *Contractor responsibilities.* The contractor shall—

(1)(i) Pack and mark the shipment to comply with contract specifications; or

(ii) In the absence of specifications, prepare the shipment for ocean transportation in conformance with carrier requirements to protect the goods and to ensure assessment of the lowest applicable transportation charge;

(2)(i) Deliver the shipment on board the ocean vessel in good order and condition on the date or within the period fixed; and

(ii) Pay and bear all charges incurred in placing the shipment actually on board;

(3) Provide a clean ship's receipt or on-board ocean bill of lading;

(4) Be responsible for any loss of and/or damage to the goods occurring before delivery of the shipment on board the ocean vessel; and

(5) At the Government's request and expense, assist in obtaining the documents required for—

(i) Exportation; or

(ii) Importation at destination.

(c) *Contract clause.* The contracting officer shall insert in solicitations and contracts the clause at 52.247-37, F.o.b. Vessel, Port of Shipment, when the delivery term is f.o.b. vessel, port of shipment.

#### **47.303-10 F.o.b. inland carrier, point of exportation.**

(a) *Explanation of delivery term.* "F.o.b. inland carrier, point of exportation" means free of expense to the Government, on board the conveyance of the inland carrier, delivered to the specified point of exportation.

(b) *Contractor responsibilities.* The contractor shall—

(1)(i) Pack and mark the shipment to comply with contract specifications; or

(ii) In the absence of specifications, prepare the shipment for ocean transportation in conformance with carrier requirements to protect the goods and to ensure assessment of the lowest applicable transportation charge;

(2) Prepare and distribute commercial bills of lading;

(3)(i) Deliver the shipment in good order and condition in or on the conveyance of the carrier on the date or within the period specified; and

(ii) Pay and bear all applicable charges, including transportation costs, to the point of delivery specified in the contract;

(4) Be responsible for any loss of and/or damage to the goods occurring before delivery of the shipment to the point of delivery specified in the contract; and

(5) At the Government's request and expense, assist in obtaining the documents required for—

(i) Exportation; or

(ii) Importation at destination.

(c) *Contract clause.* The contracting officer shall insert in solicitations and contracts the clause at 52.247-38, F.o.b. Inland Carrier, Point of Exportation, when the delivery term is f.o.b. inland carrier, point of exportation.

#### **47.303-11 F.o.b. inland point, country of importation.**

(a) *Explanation of delivery term.* "F.o.b. inland point, country of importation" means free of expense to the Government, on board the indicated type of conveyance of the carrier, delivered to the specified inland point where the consignee's facility is located.

(b) *Contractor responsibilities.* The contractor shall—

(1)(i) Pack and mark the shipment to comply with contract specifications; or

(ii) In the absence of specifications, prepare the shipment for ocean transportation in conformance with carrier requirements to protect the goods;

(2)(i) Deliver, in or on the inland carrier's conveyance, the shipment in good order and condition to the specified inland point where the consignee's facility is located;

(ii) Pay and bear all applicable charges incurred up to the point of delivery, including transportation costs; export, import, or other fees or taxes; costs of landing; wharfage costs; customs duties and costs of certificates of origin; consular invoices; and other documents that may be required for importation; and

(3) Be responsible for any loss of and/or damage to the goods until their arrival on or in the carrier's conveyance at the specified inland point.

(c) *Contract clause.* The contracting officer shall insert in solicitations and contracts the clause at 52.247-39, F.o.b. Inland Point, Country of Importation, when the delivery term is f.o.b. inland point, country of importation.

#### **47.303-12 Ex dock, pier, or warehouse, port of importation.**

(a) *Explanation of delivery term.* "Ex dock, pier, or warehouse, port of importation" means free of expense to the Government delivered on the designated dock or pier or in the warehouse at the specified port of importation.

(b) *Contractor responsibilities.* The contractor shall—

(1)(i) Pack and mark the shipment to comply with contract specifications; or

(ii) In the absence of specifications, prepare the shipment for ocean transportation in conformance with carrier requirements to protect the goods;

(2)(i) Deliver shipment in good order and condition; and

(ii) Pay and bear all charges up to the point of delivery specified in the contract, including transportation costs; export, import, or other fees or taxes; costs of wharfage and landing, if any; customs duties; and costs of certificates of origin, consular invoices, or other documents that may be required for exportation or importation; and

(3) Be responsible for any loss of and/or damage to the goods occurring before delivery of the shipment to the point of delivery specified in the contract.

(c) *Contract clause.* The contracting officer shall insert in solicitations and contracts the clause at 52.247-40, Ex Dock, Pier, or Warehouse, Port of Importation, when the delivery term is ex dock, pier, or warehouse, port of importation.

#### 47.303-13 C. & f. destination.

(a) *Explanation of delivery term.* “C.&f. destination” means free of expense to the Government delivered on board the ocean vessel to the specified point of destination, with the cost of transportation paid by the contractor.

(b) *Contractor responsibilities.* The contractor shall—

(1)(i) Pack and mark the shipment to comply with contract specifications; or

(ii) In the absence of specifications, prepare the shipment for ocean transportation in conformance with carrier requirements;

(2)(i) Deliver the shipment in good order and condition; and

(ii) Pay and bear all applicable charges to the point of destination specified in the contract, including transportation costs and export taxes or other fees or charges levied because of exportation;

(3) Obtain and dispatch promptly to the Government clean on-board ocean bills of lading to the specified point of destination.

(4) Be responsible for any loss of and/or damage to the goods occurring before delivery; and

(5) At the Government’s request and expense, provide certificates of origin, consular invoices, or any other documents issued in the country of origin or of shipment, or both, that may be required for importation into the country of destination.

(c) *Contract clause.* The contracting officer shall insert in solicitations and contracts the clause at 52.247-41, C.&f. Destination, when the delivery term is c.& f. destination.

#### 47.303-14 C.i.f. destination.

(a) *Explanation of delivery term.* “C.i.f. destination” means free of expense to the Government delivered on board the ocean vessel to the specified point of destination, with the cost of transportation and marine insurance paid by the contractor.

(b) *Contractor responsibilities.* The contractor’s responsibilities are the same as those listed in 47.303-13(b), except that, in addition, the contractor shall obtain and dispatch to the Government an insurance policy or certificate providing the amount and extent of marine insurance coverage specified in the contract or agreed upon by the Government contracting officer.

(c) *Contract clause.* The contracting officer shall insert in solicitations and contracts the clause at 52.247-42, C.i.f. Destination, when the delivery term is c.i.f. destination.

#### 47.303-15 F.o.b. designated air carrier’s terminal, point of exportation.

(a) *Explanation of delivery term.* “F.o.b. designated air carrier’s terminal, point of exportation” means free of expense to the Government loaded aboard the aircraft, or delivered to the custody of the air carrier (if only the air carrier performs the loading), at the air carrier’s terminal specified in the contract.

(b) *Contractor responsibilities.* The contractor shall—

(1)(i) Pack and mark the shipment to comply with contract specifications; or

(ii) In the absence of specifications, prepare the shipment for air transportation in conformance with carrier requirements to protect the goods and to ensure assessment of the lowest applicable transportation charge;

(2)(i) Deliver the shipment in good order and condition into the conveyance of the carrier, or to the custody of the carrier (if only the carrier performs the loading), at the point of delivery and on the date or within the period specified in the contract; and

(ii) Pay and bear all applicable charges up to this point;

(3) Provide a clean Government bill of lading and/or air waybill;

(4) Be responsible for any loss of and/or damage to the goods occurring before delivery of the goods to the point specified in the contract; and

(5) At the Government’s request and expense, assist in obtaining the documents required for the purpose of exportation.

(c) *Contract clause.* The contracting officer shall insert in solicitations and contracts the clause at 52.247-43, F.o.b. Designated Air Carrier’s Terminal, Point of Exportation, when the delivery term is f.o.b. designated air carrier’s terminal, point of exportation.

#### 47.303-16 F.o.b. designated air carrier’s terminal, point of importation.

(a) *Explanation of delivery term.* “F.o.b. designated air carrier’s terminal, point of importation” means free of expense to the Government delivered to the air carrier’s terminal at the point of importation specified in the contract.

(b) *Contractor responsibilities.* The contractor shall—

(1)(i) Pack and mark the shipment to comply with contract specifications; or

(ii) In the absence of specifications, prepare the shipment for air transportation in conformance with carrier requirements to protect the goods;

(2) Prepare and distribute bills of lading or air waybills;

(3)(i) Deliver the shipment in good order and condition to the point of delivery specified in the contract; and

(ii) Pay and bear all charges incurred up to the point of delivery specified in the contract, including transportation

costs; export, import, or other fees or taxes; cost of landing, if any; customs duties; and costs of certificates of origin, consular invoices, or other documents that may be required for exportation or importation; and

(4) Be responsible for any loss of and/or damage to the goods until delivery of the goods to the Government at the designated air carrier's terminal.

(c) *Contract clause.* The contracting officer shall insert in solicitations and contracts the clause at 52.247-44, F.o.b. Designated Air Carrier's Terminal, Point of Importation, when the delivery term is f.o.b. designated air carrier's terminal, point of importation.

#### **47.303-17 Contractor-prepaid commercial bills of lading, small package shipments.**

(a) If it is advantageous to the Government, the contracting officer may authorize the contractor to ship supplies, which have been acquired f.o.b. origin, to domestic destinations, including DOD air and water terminals by common carriers on commercial bills of lading. Such shipments shall not exceed 150 pounds by commercial air or 1,000 pounds by other commercial carriers and shall not have a security classification.

(b) The contracting officer may authorize the shipments under paragraph (a) of this subsection to be consolidated with the contractor's own prepaid shipments for delivery to one or more destinations, if all appropriate f.o.b. origin shipments under one or more Government contracts have been consolidated initially. The contractor may be authorized to consolidate less-than-carload or less-than-truckload Government shipments with its own shipments so that the Government can take advantage of lower carload or truckload freight costs. The Government shall assume its pro rata share of the combined shipment cost. Agency transportation personnel shall evaluate overall transportation costs before authorizing any movement to ensure savings to the Government consistent with other contract and traffic management considerations. When consolidation is authorized, a copy of the commercial bill of lading shall be mailed promptly to each consignee.

(c) Shipments under prepaid commercial bills of lading, as authorized in paragraph (a) of this subsection, do not require a contract modification. Unless otherwise provided in the contract, the supplies move for the account of, and at the risk of, the Government. The supplies become Government property when loaded on the carrier's equipment and the contractor has obtained the carrier's receipt. The contractor pays the transportation charges and is reimbursed by the Government. Loss or damage claims shall be processed in accordance with agency regulations.

(d) The contractor's invoice for reimbursement by the Government shall show the prepaid transportation charges as agreed (see paragraph (b) of this subsection), as a separate item for each individual shipment. The contractor shall support the

transportation charges with a copy of the carrier's receipted freight bill or other evidence of receipt, except as follows:

(1) A Government agency may determine that receipted freight bills or other evidence of receipt are not required for transportation charges of \$100 or less.

(2) A Government agency may pay an invoiced but unsupported transportation charge of \$250 or less per transaction (*i.e.*, purchase, invoice, or aggregate billing or payment for multiple purchases), if—

(i) The contractor cannot reasonably provide a receipted freight bill; and

(ii) The agency has determined that the charges are reasonable. Determination of reasonableness may be based on—

(A) Past experience (authenticated transportation charges for similar shipments);

(B) Rate checks;

(C) Copies of previous freight bills submitted by the contractor; or

(D) Other information submitted by the contractor to substantiate the amount claimed.

(3) Receipted freight bills in support of invoiced transportation charges of \$100 or less are not required for reimbursement by the Government, if—

(i) The underlying contract specifies retention by the contractor of all records for at least 3 years after final payment under the contract; and

(ii) The contractor agrees to furnish evidence of payment when requested by the Government.

(e) Shipments and invoices shall not be split to reduce transportation charges to \$100 or less per transaction as a means of avoiding the required documented support for the charges. See paragraph (d)(2) of this subsection for unsupported transportation charges of \$250 or less.

(f) The contracting officer shall insert the clause at 52.247-65, F.o.b. Origin, Prepaid Freight-Small Package Shipments, in solicitations and contracts when f.o.b. origin shipments are to be made.

#### **47.304 Determination of delivery terms.**

##### **47.304-1 General.**

(a) The contracting officer shall determine f.o.b. terms generally on the basis of overall costs, giving due consideration to the criteria given in 47.304.

(b) Solicitations shall specify whether offerors must submit offers f.o.b. origin, f.o.b. destination, or both; or whether offerors may choose the basis on which they make an offer. The contracting officer shall consider the most advantageous delivery point, such as—

(1) F.o.b. origin, carrier's equipment, wharf, or specified freight station near contractor's plant; or

(2) F.o.b. destination.

(c) In determining whether f.o.b. origin or f.o.b. destination is more advantageous to the Government, the contracting officer shall consider the availability of lower freight rates (Government rate tenders) to the Government for f.o.b. origin acquisitions. F.o.b. origin contracts also present other desirable traffic management features, in that they—

- (1) Permit use of transit privileges (see 47.305-13);
  - (2) Permit diversions to new destinations without price adjustment for transportation (see 47.305-11);
  - (3) Facilitate use of special routings or types of equipment (e.g., circuitous routing or oversize shipments) (see 47.305-14);
  - (4) Facilitate, if necessary, use of premium cost transportation and permit Government-controlled transportation;
  - (5) Permit negotiations for reduced freight rates (see 47.104-1(b)); and
  - (6) Permit use of small shipment consolidation stations.
- (d) When destinations are tentative or unknown, the solicitation shall be f.o.b. origin only (see 47.305-5).
- (e) When the size or quantity of supplies with confidential or higher security classification requires commercial transportation services, the contracting officer shall generally specify f.o.b. origin acquisitions.
- (f) When acceptance must be at destination, solicitation shall be on an f.o.b. destination only basis.

(g) Following are examples of situations when solicitations shall normally be on an f.o.b. destination only basis because it is advantageous to the Government (see 47.305-4):

- (1) Bulk supplies, such as coal, that require other than Government-owned or operated handling, storage, and loading facilities, are destined for shipment outside the continental United States.
- (2) Steel or other bulk construction products are destined for shipment outside the continental United States.
- (3) Supplies consist of forest products such as lumber.
- (4) Perishable or medical supplies are subject to in-transit deterioration.
- (5) Evaluation of f.o.b. origin offers is anticipated to result in increased administrative lead time or administrative cost that would outweigh the potential advantages of an f.o.b. origin determination.

#### **47.304-2 Shipments within CONUS.**

(a) Solicitations shall provide that offers may be submitted on the basis of either or both f.o.b. origin and f.o.b. destination and that they will be evaluated on the basis of the lowest overall cost to the Government.

(b) When sufficient reasons exist not to follow this policy, the contract file shall be documented to include the reasons.

#### **47.304-3 Shipments from CONUS for overseas delivery.**

(a) When Government acquisitions involve shipments from CONUS to overseas destinations, delivery f.o.b. origin

may afford not only the economies of lower freight rates available to the Government within the United States, but also flexibility for selection of—

- (1) The port of export; and
- (2) The ocean transportation providing the lowest overall cost to the Government.

(b)(1) Unless there are valid reasons to the contrary (see 47.304-5), acquisition of supplies originating within CONUS for ultimate delivery to destinations outside CONUS shall be made on the basis of f.o.b. origin. This policy applies to supplies and equipment to be shipped either directly to a port area for export or to a storage or holding area for subsequent forwarding to a port area for export.

(2) Justification for the solicitation of offers on other than an f.o.b. origin basis shall be recorded and the contract file documented accordingly.

(c) Export cargo involves considerations of operational and cost factors from the point of origin within CONUS to the overseas port destination. The lowest cost of shipping can be determined only by evaluating and comparing the various prospective landed costs (including inland, terminal, and ocean costs). Also, agencies may have export licensing privileges for shipments to foreign destinations. The contracting officer shall obtain advice from the transportation officer to ensure full use of these privileges.

#### **47.304-4 Shipments originating outside CONUS.**

(a) Unless there are valid reasons to the contrary (see 47.304-5), acquisition of supplies originating outside CONUS for ultimate delivery to destinations within CONUS or elsewhere, regardless of the quantity of the shipments, shall be on the basis of f.o.b. origin or f.o.b. destination, whichever is more advantageous to the Government.

(b) The contracting officer shall request the advice of the transportation officer to determine the most appropriate place of delivery to be specified in acquisition documents, giving full consideration to the possible use of Government transportation facilities, reduced rates available, special licensing or custom requirements, and availability of U.S. flag shipping services between the points involved (see Subpart 47.5).

#### **47.304-5 Exceptions.**

(a) Unusual conditions or circumstances may require the use of terms other than f.o.b. origin or f.o.b. destination. Such conditions or circumstances include, but are not limited to—

- (1) Transportation disabilities at origin or destination;
- (2) Mode of transportation required;
- (3) Availability of Government or commercial loading, unloading, or transshipment facilities;
- (4) Characteristics of the supplies;
- (5) Trade customs related to certain supplies;
- (6) Origins or destinations in Alaska and Hawaii; and
- (7) Program requirements.

(b) Contracting officers shall obtain assistance from transportation officers before issuing solicitations when unusual conditions or circumstances exist that relate to f.o.b. terms.

#### **47.305 Solicitation provisions, contract clauses, and transportation factors.**

(a) The contracting officer shall coordinate transportation factors with the transportation office during the planning, solicitation, and award phases of the acquisition process (see 47.105).

(b) To the extent feasible, activities shall schedule deliveries to effect savings in transportation costs, and concomitant reductions in energy consumption by carriers (see 47.305-7 and 47.305-8 for specific possibilities).

#### **47.305-1 Solicitation requirements.**

When the acquisition of supplies is on f.o.b. origin or f.o.b. destination delivery terms, the contracting officer shall include in solicitations a requirement that the offeror furnish the Government as much of the following data as is applicable to the particular acquisition:

(a) Modes of transportation and, if rail transportation is used, names of rail carriers serving the offeror's facility.

(b) The number of railroad cars, motor trucks, or other conveyances that can be loaded per day.

(c) Type of packaging; *e.g.*, box, carton, crate, drum, bundle, skids, and when applicable, package number from the governing freight classification.

(d) Number of units packed in one container.

(e) Guaranteed maximum shipping weight; cubic measurement; and length, width, and height of each container.

(f) Minimum size of each shipment.

(g) Number of containers or units that can be loaded in a car, truck, or other conveyance of the size normally used (specify type and size) for the commodity.

(h) Description of material in terms of the governing freight classification or tariff (or Government rate tender) under which lowest freight rates are applicable.

(i) Benefits available to the Government under transit arrangements made by the offeror.

(j) Other requirements as stated under specific section headings.

#### **47.305-2 Solicitations f.o.b. origin and f.o.b. destination—lowest overall cost.**

(a) Solicitations, when appropriate, shall specify that offers may be f.o.b. origin, f.o.b. destination, or both; and that they will be evaluated on the basis of the lowest overall cost to the Government.

(b) When offers are solicited on the basis of both f.o.b. origin and f.o.b. destination, the contracting officer shall insert in solicitations the provision at 52.247-45, F.o.b. Origin and/or F.o.b. Destination Evaluation.

#### **47.305-3 F.o.b. origin solicitations.**

When preparing f.o.b. origin solicitations, the contracting officer shall refer to 47.303, where f.o.b. origin clauses relating to standard delivery terms are prescribed, and to 42.1404-2, where the use of bills of lading, parcel post, and indicia mail is prescribed. Supply solicitations that will or may result in f.o.b. origin contracts shall also contain requirements, information, provisions, and clauses concerning the following items:

(a) Delivery in carload or truckload lots f.o.b. carrier's equipment, wharf, or freight station.

(b) The requirement that the offeror furnish the following information with the offer:

(1) Location of the offeror's actual shipping point(s) (street address, city, State, and ZIP code) from which supplies will be delivered to the Government.

(2) Whether the offeror's shipping point has a private railroad siding, and the name of the rail carrier serving it.

(3) When the offeror's shipping point does not have a private siding, the names and addresses of the nearest public rail siding and of the carrier serving it. (This will enable transportation officers, when issuing routing instructions, to select the mode of transportation that will provide the required service at the lowest possible overall cost.)

(4)(i) The quantity of supplies to be shipped from each shipping point.

(ii) The contracting officer shall insert in f.o.b. origin solicitations the provision at 52.247-46, Shipping Point(s) Used in Evaluation of F.o.b. Origin Offers, when price evaluation for shipments from various shipping points is contemplated.

(c) When delivery is "f.o.b. origin, contractor's facility," and the designated facility is not covered by the line-haul transportation rate, the charges required to deliver the shipment to the point where the line-haul rate is applicable.

(d) When delivery is "f.o.b. origin, freight allowed," the basis on which transportation charges will be allowed, including the origin and destination from and to which transportation charges will be allowed.

(e) If f.o.b. origin offers only are desired, a statement that offers submitted on any other basis will be rejected as non-responsive.

(f)(1) *The methods of transportation used in evaluating offers.* The Government normally uses land transportation by regulated common carriers between points in the 48 contiguous United States and the District of Columbia.

(2) The contracting officer shall insert the provision at 52.247-47, Evaluation—F.o.b. Origin, in solicitations that require prices f.o.b. origin for the purpose of establishing the basis on which offers will be evaluated.

(g)(1) When it is believed that prospective contractors are likely to include in f.o.b. origin offers a contingency to compensate for what may be an unfavorable routing condition by

the Government at the time of shipment, the contracting officer may permit prospective contractors to state in offers a reimbursable differential that represents the cost of bringing the supplies to any f.o.b. origin place of delivery specified by the Government at the time of shipment (see the clause at 52.247-33, F.o.b. Origin, with Differentials).

(2) Following are situations that might impose on the contractor a substantial cost above “at plant” or “commercial shipping point” prices because of Government-required routings:

(i) The loading nature of the supplies; *e.g.*, wheeled vehicles.

(ii) The different methods of shipment specified by the Government; *e.g.*, towaway, driveaway, tri-level vehicle, or rail car, that may increase the contractor’s cost in varying amounts for bringing the supplies to, or loading and bracing the supplies at, the specified place of delivery.

(iii) The contractor’s f.o.b. origin shipping point is a port city served by United States inland, coastwise, or inter-coastal water transportation, and the contractor would incur additional costs to make delivery f.o.b. a wharf in that city to accommodate water routing specified by the Government.

(iv) The contractor’s plant does not have a private rail siding and in order to ship by Government-specified rail routing, the contractor would be required to deliver the supplies to a public siding or freight terminal and to load, brace, and install dunnage in rail cars.

#### **47.305-4 F.o.b. destination solicitations.**

(a) When preparing f.o.b destination solicitations, the contracting officer shall refer to 47.303 for the prescription of f.o.b. destination clauses relating to standard delivery terms.

(b) If f.o.b. destination only offers are desired, the solicitation shall state that offers submitted on a basis other than f.o.b. destination will be rejected as nonresponsive.

(c) When supplies will or may be purchased f.o.b. destination but inspection and acceptance will be at origin, the contracting officer shall insert in solicitations and contracts the clause at 52.247-48, F.o.b. Destination—Evidence of Shipment.

#### **47.305-5 Destination unknown.**

(a)(1) When destinations are unknown, solicitations shall be f.o.b. origin only.

(2) The contracting officer shall include in the contract file justifications for such solicitations.

(b)(1) When the exact destination of the supplies to be acquired is not known, but the general location of the users can be reasonably established, the acquiring activity shall designate tentative destinations for the purpose of computing transportation costs, showing estimated quantities for each tentative destination.

(2) The contracting officer shall insert in solicitations the provision at 52.247-49, Destination Unknown, when destinations are tentative and only for the purpose of evaluating offers.

(3) If it is necessary to control subsequent shipping weights, the solicitation shall state that subsequent shipments shall be made in carloads or truckloads (see the clause at 52.247-59, F.o.b. Origin—Carload and Truckload Shipments).

(c)(1) When exact destinations are not known and it is impracticable to establish tentative or general delivery places for the purpose of evaluating transportation costs, the contracting officer shall insert in solicitations the provision at 52.247-50, No Evaluation of Transportation Costs.

(2) The solicitation shall also state that the transportation costs of subsequent shipments must be controlled (see, for example, the clause at 52.247-61, F.o.b. Origin—Minimum Size of Shipments).

#### **47.305-6 Shipments to ports and air terminals.**

(a) When supplies are acquired on the basis of the delivery terms in 47.303-8 through 47.303-16, the solicitation shall include a requirement that the offeror furnish the Government the following information:

(1) When the delivery term is “f.a.s. vessel, port of shipment,” “f.o.b. vessel, port of shipment,” or “f.o.b. inland carrier, point of exportation,” the required data shall include—

(i) A delivery schedule in number of units and/or long or short tons;

(ii) Maximum quantities available per shipment;

(iii) The quantity that can be made available for loading to vessel per running day of 24 hours (if acquisition involves a commodity to be shipped in bulk);

(iv) The minimum leadtime required to make supplies available for loading to vessel; and

(v) The port and pier or other designation and, when applicable, the maximum draft of vessel (in feet) that can be accommodated.

(2) When the delivery term is: f.o.b. inland point, country of importation” or “f.o.b. designated air carrier’s terminal, point of importation,” the required data shall include—

(i) A delivery schedule in number of units and/or long or short tons;

(ii) Maximum quantities available per shipment; and

(iii) Other data appropriate to shipment by air carrier.

(3) When the delivery term is “ex dock, pier or warehouse, port of importation” or “c.&f. destination,” the required data shall include—

(i) A delivery schedule in number of units and/or long or short tons;

(ii) Maximum quantities available per shipment; and

(iii) The number of containers or units that can be loaded in a car, truck, or other conveyance of the size normally used (specify type and size) for the commodity.

(4) When the delivery term is “c.i.f. destination,” the required data shall include—

(i) The same as specified in 47.305-6(a)(3); and

(ii) The amount and type of marine insurance coverage; *e.g.*, whether the coverage is “With Average” or “Free of Particular Average” and whether it covers any special risks or excludes any of the usual risks associated with the specific commodity involved.

(5) When the delivery term is “f.o.b. designated air carrier's terminal, point of exportation,” the required data shall include—

(i) A delivery schedule number of units, type of package, and individual weight and dimensions of each package;

(ii) Minimum leadtime required to make supplies available for loading into aircraft;

(iii) Name of airport and location to which shipment will be delivered; and

(iv) Other data appropriate to shipment by air carrier.

(b) When supplies are acquired for known destinations outside CONUS and originate within CONUS, the contracting officer shall, for transportation evaluation purposes, note in the solicitation the CONUS port of loading or point of exit (aerial or water) and the water port of debarkation that serves the overseas destination.

(c) The contracting officer may also, for evaluation purposes, list in the solicitation other CONUS ports that meet the eligibility criteria compatible with the nature and quantity of the supplies, their destination, type of carrier required, and specified overseas delivery dates. This permits offerors that are geographically remote from the port that normally serves the overseas destination to be competitive as far as transportation costs are concerned.

(d) Unless logistics requirements limit the ports of loading to the ports listed in the solicitation, the solicitation shall state that—

(1) Offerors may nominate additional ports (including ports in Alaska and Hawaii) more favorably located to their shipping points; and

(2) These ports will be considered in the evaluation of offers if they possess all requisite capabilities of the listed ports in relation to the supplies being acquired.

(e) When supplies are to be exported through CONUS ports and offers are solicited on an f.o.b. origin or f.o.b. destination basis, the contracting officer shall insert in solicitations the provision at 52.247-51, Evaluation of Export Offers. The contracting officer shall use the provision with its—

(1) Alternate I, when the CONUS ports of export are DOD water terminals;

(2) Alternate II, when offers are solicited on an f.o. b. origin only basis; or

(3) Alternate III, when offers are solicited on an f.o.b. destination only basis.

(f)(1) When the supplies are to move in the Defense Transportation System (DTS) (see 47.301-3), the contract shall specify that—

(i) A Transportation Control Movement Document (TCMD) must be dispatched to the appropriate DOD air or water clearance authority in accordance with MILSTAMP procedures for all shipments consigned to DOD air or water terminal transshipment points; and

(ii) An Export Release must be obtained for supplies to be transshipped via a water port of loading to overseas destinations, except for shipments for which an Export Release is not required, generally shipments of less than 10,000 pounds, (see paragraph 202024 of the Defense Traffic Management Regulation, AR 55-355, NAVSUP 4600.70, MCO 4600.14A, AFM 75-2, DLAR 4500.3).

(2) When shipments will be consigned to DOD air or water terminal transshipment points, the contracting officer shall insert in solicitations and contracts the clause at 52.247-52, Clearance and Documentation Requirements—Shipments to DOD Air or Water Terminal Transshipment Points.

(g) When a contract will not generate any shipments that require an Export Release, only the DOD CONUS ports that serve the overseas destination shall be listed in the solicitation (see MILSTAMP at 47.301-3), except that the responsible contracting officer may limit the water ports listed when such limitation is considered necessary to meet delivery or other requirements.

(h) The award shall specify the United States ports of loading that afford the lowest overall cost to the overseas destination.

(i) When supplies will be from origins outside CONUS to destinations either within or outside CONUS, the contracting officer shall use the appropriate f.o.b. term and include evaluation-of-offers information.

(j) In furtherance of the Cargo Preference Act of 1954 (46 U.S.C. 1241(b)), to encourage and foster the American Merchant Marine, the port of delivery of supplies originating outside the United States and shipped by ocean vessel shall be based on the availability of United States-flag vessels between the ports involved, unless the acquiring activity has given other specific instructions. (See Subpart 47.5—Ocean Transportation by U.S.-Flag Vessels.)

(k) For application of the Fly America Act to the transportation of supplies and personnel when the Government is responsible for the transportation costs, see Subpart 47.4—Air Transportation by U.S.-Flag Carriers.

(1) Military and civilian agencies shall obtain assistance from transportation offices in connection with all export shipments (see 47.105).

**47.305-7 Quantity analysis, direct delivery, and reduction of crosshauling and backhauling.**

(a) *Quantity analysis.* (1) The requiring activity shall consider the acquisition of carload or truckload quantities.

(2) When additional quantities of the supplies being acquired can be transported at lower unit transportation costs or with a relatively small increase in total transportation costs, with no impairment to the program schedule, the contracting officer shall ascertain from the requiring activity whether there is a known requirement for additional quantities. This may be the case, for example, when the additional quantity could profitably be stored by the activity for future use, or could be distributed advantageously to several using activities on the same transportation route or in the same geographical area.

(b) *Direct delivery.* When it is the usual practice of a requiring activity to acquire supplies in large quantities for shipment to a central point and subsequent distribution to using activities, as needed, consideration shall be given, if sufficient quantities are involved to warrant scheduling direct delivery, to the feasibility of providing for direct delivery from the contractor to the using activity, thereby reducing the cost of transportation and handling.

(c) *Crosshauling and backhauling.* The contracting officer shall select distribution and transshipment facilities intermediate to origins and ultimate destinations to reduce crosshauling and backhauling; *i.e.*, to the transportation of personal property of the same kind in opposite directions or the return of the property to or through areas previously traversed in shipment.

**47.305-8 Consolidation of small shipments and the use of stopoff privileges.**

(a) *Consolidation of small shipments.* Consolidation of small shipments into larger lots frequently results in lower transportation costs. Therefore, the contracting officer, after consultation with the transportation office and the activity requiring the supplies, may revise the delivery schedules to provide for deliveries in larger quantities.

(b) *Stopping for partial unloading.* When feasible, schedules for delivery of supplies to multiple destinations shall be consolidated and the stopoff privileges permitted under carrier tariffs shall be used for partial unloading at one or more points directly en route between the point of origin and the last destination.

**47.305-9 Commodity description and freight classification.**

(a) Generally, the freight rate for supplies is based on the rating applicable to the freight classification description pub-

lished in tariffs filed with Federal and State regulatory bodies. Therefore, the contracting officer shall show in the solicitation a complete description of the commodity to be acquired and of packing requirements to determine proper transportation charges for the evaluation of offers. If supplies cannot be properly classified through reference to freight classification tariffs or if doubt exists, the contracting officer shall obtain the applicable freight classification from the transportation office. In some situations prospective contractors have established an official freight classification description that can be applied.

(b)(1) When the supplies being acquired are new to the supply system, nonstandard, or modifications of previously shipped items, and different freight classifications may apply, the contracting officer shall insert in solicitations the provision at 52.247-53, Freight Classification Description.

(2) The contracting officer shall alert the transportation officer to the possibility of negotiations for appropriate freight classification ratings and reasonable transportation rates.

(c) The solicitation shall contain adequate descriptions of explosives and other dangerous supplies according to—

(1) The regular freight classification; and

(2) The hazardous material description and hazard class as shown in 49 CFR 172.101.

(d) The contracting officer shall furnish the freight classification information developed in 47.305-9(a), (b), and (c) of this section to the contract administration office.

**47.305-10 Packing, marking, and consignment instructions.**

(a) Acquisition documents shall include packing and marking requirements necessary to prevent deterioration of supplies and damages due to the hazards of shipping, handling, and storage, and, when appropriate, marking in accordance with the requirements of 49 CFR 172.300.

(b) Contracts shall include complete consignment and marking instructions at the time the contract is awarded to ensure that supplies are delivered to proper destinations without delay. If complete consignment information is not initially known, the contracting officer shall issue amended delivery instructions under the Changes clause of the contract (see 43.205) as soon as the information becomes known.

(c) If necessary to meet required delivery schedules, the contracting officer may issue instructions by telephone, teletype, or telegram. The contracting officer shall confirm these instructions in writing.

(d) Marking and consignment instructions for military shipments shall conform to the current issue of MIL-STD-129 (Military Standard Marking for Shipment and Storage) and other applicable DOD regulations. Shipments for civilian agencies shall be marked as specified in Federal Standard 123, Marking for Domestic Shipment (Civil Agencies).

**47.305-11 Options in shipment and delivery.**

Although the clauses prescribed in Subpart 43.2 allow certain changes to be made in regard to shipment and delivery, it may be desirable to provide specifically for certain options in the solicitation. The Government may reserve the right to—

(a) Direct deliveries of all or part of the contract quantity to destinations or to consignees other than those specified in the solicitation and in the contract;

(b) Direct shipments in quantities that may require transportation rates different from those on which the contract price is based; and

(c) Direct shipments by a mode of transportation other than that stipulated in the solicitation and in the contract.

**47.305-12 Delivery of Government-furnished property.**

(a)(1) When Government property is furnished to a contractor and transportation costs to the Government are a factor in the evaluation of offers, the contracting officer shall include in the solicitation a clear description of the property, its location, and other information necessary for the preparation of cost estimates.

(2) The contracting officer shall insert in solicitations and contracts the clause at 52.247-55, F.o.b. Point for Delivery of Government-Furnished Property, when Government property is to be furnished under a contract and the Government will be responsible for transportation arrangements and costs.

(b) The contracting officer shall describe explosive and dangerous material according to—

(1) The regular freight classification and

(2) The hazardous material description and hazard class as shown in 49 CFR 172.101.

**47.305-13 Transit arrangements.**

(a) *Transit privileges.* (1) Transit arrangements permit the stopping of a carload or truckload shipment at a specific intermediate point en route to the final destination for storage, processing, or other purposes, as specified in carrier tariffs or rate tenders. A single through rate is charged from origin to final destination plus a transit or other related charge, rather than a more expensive combination of rates to and from the transit point.

(2) The contracting officer shall consider possible benefits available to the Government through the use of existing transit arrangements or through efforts to obtain additional transit privileges from the carriers. Solicitations incorporating transit arrangements shall be restricted to f.o.b. origin offers, as f.o.b. destination offers can only quote fixed overall delivered prices at first destination.

(3)(i) Traffic management personnel shall furnish information and analyses of situations in which transit arrangements may be beneficial. The quantity to be awarded must be of sufficient tonnage to ensure that carload/truckload ship-

ments can be made by the contractor, and there should be reasonable certainty that shipments out of the transit point will be requested in carload/truckload quantities.

(ii) The contracting officer shall insert in solicitations the provision at 52.247-56, Transit Arrangements, when benefits may accrue to the Government because transit arrangements may apply.

(b) *Transit credits.* (1) In evaluations of f.o.b. origin offers for large quantities of supplies that contractors normally have in process or storage at intermediate points, contracting officers shall make use of contractors' earned commercial transit credits, which are recorded with the carriers. A transit credit represents the transportation costs for a recorded tonnage from the initial point to an intermediate point. The remaining transportation charges from the intermediate point to the Government destination, because they are based on through rates, are frequently lower than the transportation charges that would apply for the same tonnage if the intermediate point were the initial origin point.

(2) If transit credits apply, the contract shall state that the contractor shall ship the goods on prepaid commercial bills of lading, subject to reimbursement by the Government. The contracting officer shall ensure that this does not preclude a proper change in delivery terms under the Changes clause. The shipments move for the account and at the risk of the Government, as they become Government property at origin.

(3) The contractor shall show the transportation and transit charges as separate amounts on the invoice for each individual shipment. The amount to be reimbursed by the Government shall not exceed the amount quoted in the offer. Regulations and procedures regarding contractor prepaid transportation charges are prescribed in 42.1403-2.

(4) The contracting officer shall insert in solicitations and contracts the clause at 52.247-57, Transportation Transit Privilege Credits, when supplies are of such a nature, or when it is the custom of the trade, that offerors may have potential transit credits available and the Government may reduce transportation costs through the use of transit credits.

**47.305-14 Mode of transportation.**

Generally, solicitations shall not specify a particular mode of transportation or a particular carrier. If the use of particular types of carriers is necessary to meet program requirements, the solicitation shall provide that only offers involving the specified types of carriers will be considered. The contracting officer shall obtain all specifications for mode, route, delivery, etc., from the transportation office.

**47.305-15 Loading responsibilities of contractors.**

(a)(1) Contractors are responsible for loading, blocking, and bracing carload shipments as specified in standards published by the Association of American Railroads.

(2) The contracting officer shall insert in solicitations and contracts the clause at 52.247-58, Loading, Blocking, and Bracing of Freight Car Shipments, when supplies may be shipped in carload lots by rail.

(b) If the nature of the supplies or safety, environmental, or transportability factors require special methods for securing the supplies on the carrier's equipment, or if only a special mode of transportation or type vehicle is appropriate, the contracting officer shall include in solicitations detailed specifications that have been coordinated with the transportation office.

#### **47.305-16 Shipping characteristics.**

(a) *Required shipping weights.* The contracting officer shall insert in solicitations and contracts the clause at 52.247-59, F.o.b. Origin—Carload and Truckload Shipments, when it is contemplated that they may result in f.o.b. origin contracts with shipments in carloads or truckloads. This will facilitate realistic freight cost evaluations of offers and ensure that contractors produce economical shipments of agreed size.

(b) *Guaranteed shipping characteristics.* (1) The contracting officer shall insert in solicitations and contracts, excluding those at or below the simplified acquisition threshold, the clause at 52.247-60, Guaranteed Shipping Characteristics, when shipping and other characteristics are required to evaluate offers as to transportation costs. When all of the shipping characteristics listed in paragraph (a) of the clause at 52.247-60 are not required to evaluate offers as to transportation costs, the contracting officer shall delete the characteristics not required from the clause.

(2) The award document shall show the shipping characteristics used in the evaluation.

(c) *Minimum size of shipments.* When volume rates may apply, the contracting officer shall insert in solicitations and contracts the clause at 52.247-61, F.o.b. Origin—Minimum Size of Shipments.

(d) *Specific quantities unknown.* (1) When total requirements and destinations to which shipments will be made are known, but the specific quantity to be shipped to each destination cannot be predetermined, solicitations shall state that offers are to be submitted on the basis of delivery "f.o.b. origin" and/or "f.o.b. destination" and that offers will be evaluated on both bases.

(2) The contracting officer shall insert in solicitations and contracts the clause at 52.247-62, Specific Quantities Unknown, when total requirements and destinations to which shipments will be made are known, but the specific quantity to be shipped to each destination cannot be predetermined. This clause protects the interests of both the Government and the contractor during the course of the performance of the contract.

#### **47.305-17 Returnable cylinders.**

The contracting officer shall insert the clause at 52.247-66, Returnable Cylinders, in a solicitation and contract whenever the contract involves the purchase of gas in contractor-furnished returnable cylinders and the contractor retains title to the cylinders.

#### **47.306 Transportation factors in the evaluation of offers.**

When evaluating offers, contracting officers shall consider transportation and transportation-related costs as well as the offerors' shipping and receiving facilities.

#### **47.306-1 Transportation cost determinations.**

When requesting the transportation officer to assist in evaluating offers, the contracting officer shall give the transportation officer all pertinent data, including the following information:

- (a) A complete description of the commodity being acquired including packaging instructions.
- (b) Planned date of award.
- (c) Date of initial shipment.
- (d) Total quantity to be shipped (including weight and cubic content, when appropriate).
- (e) Delivery schedule.
- (f) Contract period.
- (g) Possible use of transit privileges, including stopoffs for partial loading or unloading, or both.

#### **47.306-2 Lowest overall transportation costs.**

(a) For the evaluation of offers, the transportation officer shall give to the contracting officer, and the contracting officer shall use, the lowest available freight rates and related accessorial and incidental charges that—

- (1) Are in effect on, or become effective before, the expected date of the initial shipment; and
- (2) Are on file or published on the date of the bid opening.

(b) If rates or related charges become available after the bid opening or the due date of offers, they shall not be used in the evaluation unless they cover transportation for which no applicable rates or accessorial or incidental costs were in existence at the time of bid opening or due date of the offers.

#### **47.306-3 Adequacy of loading and unloading facilities.**

(a) When determining the transportation capabilities of an offeror, the contracting officer shall consider the type and adequacy of the offeror's shipping facilities, including the ability to consolidate and ship in carload or truckload lots.

(b) The contracting officer shall consider the type and adequacy of the consignee's receiving facilities to avoid shipping schedules that cannot be properly accommodated.

## Subpart 47.4—Air Transportation by U.S.-Flag Carriers

### 47.401 Definitions.

As used in this subpart—

“Air freight forwarder” means an indirect air carrier that is responsible for the transportation of property from the point of receipt to the point of destination, and utilizes for the whole or any part of such transportation the services of a direct air carrier or its agent, or of another air freight forwarder.

“Gateway airport abroad” means the airport from which the traveler last embarks en route to the United States or at which the traveler first debarks incident to travel from the United States.

“Gateway airport in the United States” means the last U.S. airport from which the traveler’s flight departs or the first U.S. airport at which the traveler’s flight arrives.

“International air transportation” means transportation by air between a place in the United States and a place outside the United States or between two places both of which are outside the United States.

“United States” means the 50 States, the District of Columbia, the Commonwealth of Puerto Rico, and possessions of the United States.

“U.S.-flag air carrier” means an air carrier holding a certificate under section 401 of the Federal Aviation Act of 1958 (49 U.S.C. 1371).

### 47.402 Policy.

Section 5 of the International Air Transportation Fair Competitive Practices Act of 1974 (49 U.S.C. 1517) (Fly America Act) requires that Federal employees and their dependents, consultants, contractors, grantees, and others use U.S.-flag air carriers for U.S. Government-financed international air travel and transportation of their personal effects or property, to the extent service by these carriers is available.

### 47.403 Guidelines for implementation of the Fly America Act.

This section 47.403 is based on the Guidelines for Implementation of the Fly America Act (case number B-138942), issued by the Comptroller General of the United States on March 31, 1981.

### 47.403-1 Availability and unavailability of U.S.-flag air carrier service.

(a) If a U.S.-flag air carrier cannot provide the international air transportation needed or if the use of U.S.-flag air carrier service would not accomplish an agency’s mission, foreign-flag air carrier service may be deemed necessary.

(b) U.S.-flag air carrier service is considered available even though—

(1) Comparable or a different kind of service can be provided at less cost by a foreign-flag air carrier;

(2) Foreign-flag air carrier service is preferred by, or is more convenient for, the agency or traveler; or

(3) Service by a foreign-flag air carrier can be paid for in excess foreign currency (unless U.S.-flag air carriers decline to accept excess or near excess foreign currencies for transportation payable only out of such monies).

(c) Except as provided in paragraph 47.403-1(a), U.S.-flag air carrier service shall be used for U.S. Government-financed commercial foreign air travel if service provided by U.S.-flag air carriers is available. In determining availability of a U.S.-flag air carrier, the following scheduling principles shall be followed unless their application would result in the last or first leg of travel to or from the United States being performed by a foreign-flag air carrier:

(1) U.S.-flag air carrier service available at point of origin shall be used to destination or, in the absence of direct or through service, to the farthest interchange point on a usually traveled route.

(2) When an origin or interchange point is not served by a U.S.-flag air carrier, foreign-flag air carrier service shall be used only to the nearest interchange point on a usually traveled route to connect with U.S.-flag air carrier service.

(3) When a U.S.-flag air carrier involuntarily reroutes the traveler via a foreign-flag air carrier, the foreign-flag air carrier may be used notwithstanding the availability of alternative U.S.-flag air carrier service.

(d) For travel between a gateway airport in the United States and a gateway airport abroad, passenger service by U.S.-flag air carrier shall not be considered available if—

(1) The gateway airport abroad is the traveler’s origin or destination airport and the use of U.S.-flag air carrier service would extend the time in a travel status, including delay at origin and accelerated arrival at destination, by at least 24 hours more than travel by a foreign-flag air carrier; or

(2) The gateway airport abroad is an interchange point and the use of U.S.-flag air carrier service would require the traveler to wait 6 hours or more to make connections at that point, or if delayed departure from, or accelerated arrival at, the gateway airport in the United States would extend time in a travel status by at least 6 hours more than travel by a foreign-flag air carrier.

(e) For travel between two points outside the United States, the rules in paragraphs 47.403-1(a), (b), and (c) shall be applicable, but passenger service by a U.S.-flag air carrier shall not be considered to be reasonably available if—

(1) Travel by a foreign-flag air carrier would eliminate two or more aircraft changes en route;

(2) One of the two points abroad is the gateway airport en route to or from the United States and the use of a U.S.-flag air carrier would extend the time in a travel status by at least 6 hours more than travel by a foreign-flag air carrier, including accelerated arrival at the over seas destination or delayed departure from the overseas origin, as well as delay at the gateway airport or other interchange point abroad; or

(3) The travel is not part of the trip to or from the United States and the use of a U.S.-flag air carrier would extend the time in a travel status by at least 6 hours more than travel by a foreign-flag air carrier including delay at origin, delay en route, and accelerated arrival at destination.

(f) For all short-distance travel under either paragraph (d) or paragraph (e) of 47.403-1, U.S. air carrier service shall not be considered available when the elapsed travel time on a scheduled flight from origin to destination airport by foreign-flag air carrier is 3 hours or less and service by a U.S.-flag air carrier would involve twice such travel time.

#### **47.403-2 Air transport agreements between the United States and foreign governments.**

Nothing in the guidelines of the Comptroller General (see 47.403) shall preclude, and no penalty shall attend, the use of a foreign-flag air carrier that provides transportation under an air transport agreement between the United States and a foreign government, the terms of which are consistent with the international aviation policy goals at 49 U.S.C. 1502(b) and provide reciprocal rights and benefits.

#### **47.403-3 Disallowance of expenditures.**

(a) Agencies shall disallow expenditures for U.S. Government-financed commercial international air transportation on foreign-flag air carriers unless there is attached to the appropriate voucher a memorandum adequately explaining why service by U.S.-flag air carriers was not available, or why it was necessary to use foreign-flag air carriers.

(b) When the travel is by indirect route or the traveler otherwise fails to use available U.S.-flag air carrier service, the amount to be disallowed against the traveler is based on the loss of revenues suffered by U.S.-flag air carriers as deter-

mined under the following formula, which is prescribed and more fully explained in 56 Comp. Gen. 209 (1977):

<u>Sum of U.S.-flag carrier segment mileage, authorized</u>		Fare payable
Sum of all segment mileage, authorized	x	by
<i>Minus</i>		Government
<u>Sum of U.S.-flag carrier segment mileage, traveled</u>	x	Through
Sum of all segment mileage, traveled		fare paid

(c) The justification requirement is satisfied by the contractor's use of a statement similar to the one contained in the clause at 52.247-63, Preference for U.S.-Flag Air Carriers. (See 47.405.)

#### **47.404 Air freight forwarders.**

(a) Agencies may use air freight forwarders that are engaged in international air transportation (49 U.S.C. 1301(24)(c)) for U.S. Government-financed movements of property. The rule on disallowance of expenditures in 47.403-3(a) applies also to the air carriers used by these international air freight forwarders.

(b) Agency personnel shall inform international air freight forwarders that to facilitate prompt payments of their bills, they shall submit with their bills—

(1) A copy of the airway bill or manifest showing the air carriers used; and

(2) Justification for the use of foreign-flag air carriers similar to the one shown in the clause at 52.247-63, Preference for U.S.-Flag Air Carriers.

#### **47.405 Contract clause.**

The contracting officer shall insert the clause at 52.247-63, Preference for U.S.-Flag Air Carriers, in solicitations and contracts whenever it is possible that U.S. Government-financed international air transportation of personnel (and their personal effects) or property will occur in the performance of the contract. This clause does not apply to contracts awarded using the simplified acquisition procedures in Part 13 or contracts for commercial items (see Part 12).

## Subpart 47.5—Ocean Transportation by U.S.-Flag Vessels

### 47.500 Scope of subpart.

This subpart prescribes policy and procedures for giving preference to U.S.-flag vessels when transportation of supplies by ocean vessel is required. This subpart does not apply to the Department of Defense (DoD). Policy and procedures applicable to DoD appear in DFARS subpart 247.5.

### 47.501 Definitions.

As used in this subpart—

“Dry bulk carrier” means a vessel used primarily for the carriage of shipload lots of homogeneous unmarked nonliquid cargoes such as grain, coal, cement, and lumber.

“Dry cargo liner” means a vessel used for the carriage of heterogeneous marked cargoes in parcel lots. However, any cargo may be carried in these vessels, including part cargoes of dry bulk items or, when carried in deep tanks, bulk liquids such as petroleum and vegetable oils.

“Foreign-flag vessel” means any vessel of foreign registry including vessels owned by U.S. citizens but registered in a nation other than the United States.

“Government vessel” means a vessel owned by the U.S. Government and operated directly by the Government or for the Government by an agent or contractor, including a privately owned U.S.-flag vessel under bareboat charter to the Government.

“Privately owned U.S.-flag commercial vessel” means a vessel—

- (1) Registered and operated under the laws of the United States,
- (2) Used in commercial trade of the United States,
- (3) Owned and operated by U.S. citizens, including a vessel under voyage or time charter to the Government, and
- (4) A Government-owned vessel under bareboat charter to, and operated by, U.S. citizens.

“Tanker” means a vessel used primarily for the carriage of bulk liquid cargoes such as liquid petroleum products, vegetable oils, and molasses.

“U.S.-flag vessel” when used independently means either a Government vessel or a privately owned U.S.-flag commercial vessel.

### 47.502 Policy.

(a) The policy of the United States regarding the use of U.S.-flag vessels is stated in the following acts:

(1) The Cargo Preference Act of 1904 (10 U.S.C. 2631), which requires the Department of Defense to use only U.S.-flag vessels for ocean transportation of supplies for the Army, Navy, Air Force, or Marine Corps unless those vessels are not available at fair and reasonable rates.

(2) The Merchant Marine Act of 1936 (46 U.S.C. 1101), which declares it is the policy of the United States to foster the development and encourage the maintenance of its merchant marine.

(3) The Cargo Preference Act of 1954 (46 U.S.C. 1241(b), which is Section 901(b) of the Merchant Marine Act). Under this Act, Government agencies acquiring, either within or outside the United States, supplies that may require ocean transportation shall ensure that at least 50 percent of the gross tonnage of these supplies (computed separately for dry bulk carriers, dry cargo liners, and tankers) is transported on privately owned U.S.-flag commercial vessels to the extent that such vessels are available at rates that are fair and reasonable for U.S.-flag commercial vessels. This applies when the supplies are—

- (i) Acquired for the account of the United States;
- (ii) Furnished to, or for the account of, a foreign nation without provision for reimbursement;
- (iii) Furnished for the account of a foreign nation in connection with which the United States advances funds or credits, or guarantees the convertibility of foreign currencies; or
- (iv) Acquired with advance of funds, loans, or guaranties made by or on behalf of the United States.

(b) Additional policies providing preference for the use of U.S.-flag vessels are contained in—

- (1) 10 U.S.C. 2634 for the transportation of privately-owned vehicles belonging to service members when making permanent change of station moves;
- (2) 46 U.S.C. 1241(a) for official business travel by officers and employees of the United States and for the transportation of their personal effects; and
- (3) 46 U.S.C. 1241(e) for the transportation of motor vehicles owned by Government personnel when transportation is at Government expense or otherwise authorized by law.

(c) The provisions of the Cargo Preference Act of 1954 may be temporarily waived when the Congress, the President, or the Secretary of Defense declares that an emergency justifying a temporary waiver exists and so notifies the appropriate agency or agencies.

### 47.503 Applicability.

(a) Except as stated in paragraph (b) of this section and in 47.504, the Cargo Preference Acts of 1904 and 1954 described in 47.502(a) apply to the following cargoes:

- (1) Supplies owned by the Government and in the possession of—
  - (i) The Government;
  - (ii) A contractor; or
  - (iii) A subcontractor at any tier.

(2) Supplies for use of the Government that are contracted for and require subsequent delivery to a Government activity but are not owned by the Government at the time of shipment.

(3) Supplies not owned by the Government at the time of shipment that are to be transported for distribution to foreign assistance programs, but only if these supplies are not acquired or contracted for with local currency funds (see 47.504(b)).

(b) Government-owned supplies to be shipped commercially that are—

(1) In the possession of a department, a contractor, or a subcontractor at any tier and

(2) For use of military departments shall be transported exclusively in privately owned U.S.-flag commercial vessels if such vessels are available at rates that are fair and reasonable for U.S.-flag commercial vessels.

(c) The 50-percent requirement shall not prevent the use of privately owned U.S.-flag commercial vessels for transportation of up to 100 percent of the cargo subject to the Cargo Preference Act of 1954.

#### 47.504 Exceptions.

The policy and procedures in this subpart do not apply to the following:

(a) Shipments aboard vessels of the Panama Canal Commission or as required or authorized by law or treaty.

(b) Ocean transportation between foreign countries of supplies purchased with foreign currencies made available, or derived from funds that are made available, under the Foreign Assistance Act of 1961 (22 U.S.C. 2353).

(c) Shipments of classified supplies when the classification prohibits the use of non-Government vessels.

(d) Beginning May 1, 1996, subcontracts for the acquisition of commercial items or commercial components (see 12.504(a)(11)). This exception does not apply to grants-in-aid shipments, such as agricultural and food-aid shipments, to shipments covered under Export-Import Bank loans or guarantees, and to subcontracts under Government contracts or agreements for ocean transportation services.

#### 47.505 Construction contracts.

(a) Except as stated in paragraph (b) of this section, construction contractors, including subcontractors and suppliers, engaged in overseas work shall comply with the policies and regulations in this subpart.

(b) These requirements shall not apply to military assistance, foreign aid, or similar projects under the auspices of the U.S. Government when the recipient nation furnishes, or pays for, at least 50 percent of the transportation, in which event

foreign-flag vessels may be used for a portion not to exceed 50 percent of the gross tonnage for the project.

#### 47.506 Procedures.

(a) The contracting officer shall obtain assistance from the transportation activity (see 47.105) in developing appropriate shipping instructions and delivery terms for inclusion in solicitations and contracts that may involve ocean transportation of supplies subject to the requirements of the Cargo Preference Act of 1954 (see 47.502(a)(3)).

(b) When the contractor notifies the contracting officer that a privately owned U.S.-flag commercial vessel is not available, the contracting officer shall seek assistance from the transportation activity.

(c) For purposes of determining the availability of privately owned U.S.-flag commercial vessels at fair and reasonable rates, rates filed and published in accordance with the requirements of the Federal Maritime Commission may be accepted as fair and reasonable. When applicable rates for charter cargoes are not in published tariffs, a determination as to whether the rates are fair and reasonable shall be obtained from the Maritime Administration.

(d) The Maritime Administration has issued regulations (46 CFR 381) that require agencies to submit reports regarding ocean shipments. Contracting officers shall follow agency regulations when preparing, or furnishing information for, these reports.

#### 47.507 Contract clauses.

(a) The contracting officer shall insert the clause at 52.247-64, Preference for Privately Owned U.S.-Flag Commercial Vessels, in solicitations and contracts that may involve ocean transportation of supplies subject to the Cargo Preference Act of 1954. (For application of the Cargo Preference Act of 1954, see 47.502(a)(3), 47.503(a), and 47.504.)

(b) If an applicable statute requires, or if it has been determined under agency procedures, that the supplies to be furnished under contracts shall be transported exclusively in privately owned U.S.-flag commercial vessels (see 47.502(a)(1) and 47.503(b)), use the basic clause with its Alternate I.

(c) If an applicable statute requires, or it has been determined under agency procedures, that supplies, materials, or equipment to be shipped under construction contracts shall be transported exclusively in privately owned U.S.-flag commercial vessels (see 47.505), use the basic clause with its Alternate II.

(d) The contracting officer may insert in solicitations and contracts, under agency procedures, additional appropriate clauses concerning the vessels to be used.

## PART 48—VALUE ENGINEERING

*Sec.*

48.000 Scope of part.

48.001 Definitions.

### **Subpart 48.1—Policies and Procedures**

48.101 General.

48.102 Policies.

48.103 Processing value engineering change proposals.

48.104 Sharing arrangements.

48.104-1 Determining sharing period.

48.104-2 Sharing acquisition savings.

48.104-3 Sharing collateral savings.

48.104-4 Sharing alternative—no-cost settlement method.

48.105 Relationship to other incentives.

### **Subpart 48.2—Contract Clauses**

48.201 Clauses for supply or service contracts.

48.202 Clause for construction contracts.

This page intentionally left blank.

**48.000 Scope of part.**

This part prescribes policies and procedures for using and administering value engineering techniques in contracts.

**48.001 Definitions.**

As used in this part—

“Acquisition savings” means savings resulting from the application of a value engineering change proposal (VECP) to contracts awarded by the same contracting office or its successor for essentially the same unit. Acquisition savings include—

(1) Instant contract savings, that are the net cost reductions on the contract under which the VECP is submitted and accepted, and that are equal to the instant unit cost reduction multiplied by the number of instant contract units affected by the VECP, less the contractor's allowable development and implementation costs;

(2) Concurrent contract savings, that are net reductions in the prices of other contracts that are definitized and ongoing at the time the VECP is accepted; and

(3) Future contract savings, that are the product of the future unit cost reduction multiplied by the number of future contract units in the sharing base. On an instant contract, future contract savings include savings on increases in quantities after VECP acceptance that are due to contract modifications, exercise of options, additional orders, and funding of subsequent year requirements on a multiyear contract.

“Collateral costs” means agency costs of operation, maintenance, logistic support, or Government-furnished property.

“Collateral savings” means those measurable net reductions resulting from a VECP in the agency's overall projected collateral costs, exclusive of acquisition savings, whether or not the acquisition cost changes.

“Contracting office” includes any contracting office that the acquisition is transferred to, such as another branch of the agency or another agency's office that is performing a joint acquisition action.

“Contractor's development and implementation costs” means those costs the contractor incurs on a VECP specifically in developing, testing, preparing, and submitting the VECP, as well as those costs the contractor incurs to make the contractual changes required by Government acceptance of a VECP.

“Future unit cost reduction” means the instant unit cost reduction adjusted as the contracting officer considers necessary for projected learning or changes in quantity during the sharing period. It is calculated at the time the VECP is accepted and applies either—

(1) Throughout the sharing period, unless the contracting officer decides that recalculation is necessary because conditions are significantly different from those previously anticipated, or

(2) To the calculation of a lump-sum payment, that cannot later be revised.

“Government costs” means those agency costs that result directly from developing and implementing the VECP, such as any net increases in the cost of testing, operations, maintenance, and logistics support. The term does not include the normal administrative costs of processing the VECP or any increase in instant contract cost or price resulting from negative instant contract savings, except that for use in 52.248-3, see the definition at 52.248-3(b).

“Instant contract” means the contract under which the VECP is submitted. It does not include increases in quantities after acceptance of the VECP that are due to contract modifications, exercise of options, or additional orders. If the contract is a multiyear contract, the term does not include quantities funded after VECP acceptance. In a fixed-price contract with prospective price redetermination, the term refers to the period for which firm prices have been established.

“Instant unit cost reduction” means the amount of the decrease in unit cost of performance (without deducting any contractor's development or implementation costs) resulting from using the VECP on the instant contract. In service contracts, the instant unit cost reduction is normally equal to the number of hours per line-item task saved by using the VECP on the instant contract, multiplied by the appropriate contract labor rate.

“Negative instant contract savings” means the increase in the instant contract cost or price when the acceptance of a VECP results in an excess of the contractor's allowable development and implementation costs over the product of the instant unit cost reduction multiplied by the number of instant contract units affected.

“Net acquisition savings” means total acquisition savings, including instant, concurrent, and future contract savings, less Government costs.

“Sharing base” means the number of affected end items on contracts of the contracting office accepting the VECP.

“Sharing period” means the period beginning with acceptance of the first unit incorporating the VECP and ending at a calendar date or event determined by the contracting officer for each VECP.

“Unit” means the item or task to which the contracting officer and the contractor agree the VECP applies.

“Value engineering proposal” means, in connection with an A-E contract, a change proposal developed by employees of the Federal Government or contractor value engineering personnel under contract to an agency to provide value engineering services for the contract or program.

## Subpart 48.1—Policies and Procedures

### 48.101 General.

(a) Value engineering is the formal technique by which contractors may (1) voluntarily suggest methods for performing more economically and share in any resulting savings or (2) be required to establish a program to identify and submit to the Government methods for performing more economically. Value engineering attempts to eliminate, without impairing essential functions or characteristics, anything that increases acquisition, operation, or support costs.

(b) There are two value engineering approaches:

(1) The first is an incentive approach in which contractor participation is voluntary and the contractor uses its own resources to develop and submit any value engineering change proposals (VECP's). The contract provides for sharing of savings and for payment of the contractor's allowable development and implementation costs only if a VECP is accepted. This voluntary approach should not in itself increase costs to the Government.

(2) The second approach is a mandatory program in which the Government requires and pays for a specific value engineering program effort. The contractor must perform value engineering of the scope and level of effort required by the Government's program plan and included as a separately priced item of work in the contract Schedule. No value engineering sharing is permitted in architect engineer contracts. All other contracts with a program clause share in savings on accepted VECP's, but at a lower percentage rate than under the voluntary approach. The objective of this value engineering program requirement is to ensure that the contractor's value engineering effort is applied to areas of the contract that offer opportunities for considerable savings consistent with the functional requirements of the end item of the contract.

### 48.102 Policies.

(a) As required by Section 36 of the Office of Federal Procurement Policy Act (41 U.S.C. 401, *et seq.*), agencies shall establish and maintain cost-effective value engineering procedures and processes. Agencies shall provide contractors a substantial financial incentive to develop and submit VECP's. Contracting activities will include value engineering provisions in appropriate supply, service, architect-engineer and construction contracts as prescribed by 48.201 and 48.202 except where exemptions are granted on a case-by-case basis, or for specific classes of contracts, by the agency head.

(b) Agencies shall—

- (1) Establish guidelines for processing VECP's,
- (2) Process VECP's objectively and expeditiously, and
- (3) Provide contractors a fair share of the savings on accepted VECP's.

(c) Agencies shall consider requiring incorporation of value engineering clauses in appropriate subcontracts.

(d)(1) Agencies other than the Department of Defense shall use the value engineering program requirement clause (52.248-1, Alternates I or II) in initial production contracts for major system programs (see definition of major system in 34.001) and for contracts for major systems research and development except where the contracting officer determines and documents the file to reflect that such use is not appropriate.

(2) In Department of Defense contracts, the VE program requirement clause (52.248-1, Alternates I or II), shall be placed in initial production solicitations and contracts (first and second production buys) for major system acquisition programs as defined in DoD Directive 5000.1, except as specified in subdivisions (d)(2)(i) and (ii) of this section. A program requirement clause may be included in initial production contracts for less than major systems acquisition programs if there is a potential for savings. The contracting officer is not required to include a program requirement clause in initial production contracts—

(i) Where, in the judgment of the contracting officer, the prime contractor has demonstrated an effective VE program during either earlier program phases, or during other recent comparable production contracts.

(ii) Which are awarded on the basis of competition.

(e) Value engineering incentive payments do not constitute profit or fee within the limitations imposed by 10 U.S.C. 2306(d) and 41 U.S.C. 254(b) (see 15.404-4(c)(4)(i)).

(f) Generally, profit or fee on the instant contract should not be adjusted downward as a result of acceptance of a VECP. Profit or fee shall be excluded when calculating instant or future contract savings.

(g) The contracting officer determines the sharing periods and sharing rates on a case-by-case basis using the guidelines in 48.104-1 and 48.104-2, respectively. In establishing a sharing period and sharing rate, the contracting officer must consider the following, as appropriate, and must insert supporting rationale in the contract file:

- (1) Extent of the change.
- (2) Complexity of the change.
- (3) Development risk (*e.g.*, contractor's financial risk).
- (4) Development cost.
- (5) Performance and/or reliability impact.
- (6) Production period remaining at the time of VECP acceptance.
- (7) Number of units affected.

(h) Contracts for architect-engineer services must require a mandatory value engineering program to reduce total ownership cost in accordance with 48.101(b)(2). However, there must be no sharing of value engineering savings in contracts for architect-engineer services.

(i) Agencies shall establish procedures for funding and payment of the contractor's share of collateral savings and future contract savings.

**48.103 Processing value engineering change proposals.**

(a) Instructions to the contractor for preparing a VECP and submitting it to the Government are included in paragraphs (c) and (d) of the value engineering clauses prescribed in Subpart 48.2. Upon receiving a VECP, the contracting officer or other designated official shall promptly process and objectively evaluate the VECP in accordance with agency procedures and shall document the contract file with the rationale for accepting or rejecting the VECP.

(b) The contracting officer is responsible for accepting or rejecting the VECP within 45 days from its receipt by the Government. If the Government will need more time to evaluate the VECP, the contracting officer shall notify the contractor promptly in writing, giving the reasons and the anticipated decision date. The contractor may withdraw, in whole or in part, any VECP not accepted by the Government within the period specified in the VECP. Any VECP may be approved, in whole or in part, by a contract modification incorporating the VECP. Until the effective date of the contract modification, the contractor shall perform in accordance with the existing contract. If the Government accepts the VECP, but properly rejects units subsequently delivered or does not receive units on which a savings share was paid, the contractor shall reimburse the Government for the proportionate share of these payments. If the VECP is not accepted, the contracting officer shall provide the contractor with prompt written notification, explaining the reasons for rejection.

(c) The following Government decisions are unilateral decisions made solely at the discretion of the Government:

- (1) The decision to accept or reject a VECP.
- (2) The determination of collateral costs or collateral savings.
- (3) The decision as to which of the sharing rates applies when Alternate II of the clause at 52.248-1, Value Engineering, is used.
- (4) The contracting officer's determination of the duration of the sharing period and the contractor's sharing rate.

**48.104 Sharing arrangements.****48.104-1 Determining sharing period.**

(a) Contracting officers must determine discrete sharing periods for each VECP. If more than one VECP is incorporated into a contract, the sharing period for each VECP need not be identical.

(b) The sharing period begins with acceptance of the first unit incorporating the VECP. Except as provided in paragraph (c) of this subsection, the end of the sharing period is a specific calendar date that is the later of—

(1) 36 to 60 consecutive months (set at the discretion of the contracting officer for each VECP) after the first unit affected by the VECP is accepted; or

(2) The last scheduled delivery date of an item affected by the VECP under the instant contract delivery schedule in effect at the time the VECP is accepted.

(c) For engineering-development contracts and contracts containing low-rate-initial-production or early production units, the end of the sharing period is based not on a calendar date, but on acceptance of a specified quantity of future contract units. This quantity is the number of units affected by the VECP that are scheduled to be delivered over a period of between 36 and 60 consecutive months (set at the discretion of the contracting officer for each VECP) that spans the highest planned production, based on planning and programming or production documentation at the time the VECP is accepted. The specified quantity begins with the first future contract unit affected by the VECP and continues over consecutive deliveries until the sharing period ends at acceptance of the last of the specified quantity of units.

(d) For contracts (other than those in paragraph (c) of this subsection) for items requiring a prolonged production schedule (*e.g.*, ship construction, major system acquisition), the end of the sharing period is determined according to paragraph (b) of this subsection. Agencies may prescribe sharing of future contract savings on all future contract units to be delivered under contracts awarded within the sharing period for essentially the same item, even if the scheduled delivery date is outside the sharing period.

**48.104-2 Sharing acquisition savings.**

(a) *Supply or service contracts.* (1) The sharing base for acquisition savings is the number of affected end items on contracts of the contracting office accepting the VECP. The sharing rates (Government/contractor) for net acquisition savings for supplies and services are based on the type of contract, the value engineering clause or alternate used, and the type of savings, as follows:

GOVERNMENT/CONTRACTOR SHARES OF NET ACQUISITION SAVINGS (Figures in Percent)				
CONTRACT TYPE	SHARING AGREEMENT			
	INCENTIVE (VOLUNTARY)		PROGRAM REQUIREMENT (MANDATORY)	
	Instant contract rate	Concurrent and future contract rate	Instant contract rate	Concurrent and future contract rate
Fixed-price (includes fixed-price-award-fee; excludes other fixed-price incentive contracts)	*50/50	*50/50	75/25	75/25
Incentive (fixed-price or cost) (other than award fee)	(**)	*50/50	(**)	75/25
Cost-reimbursement (includes cost-plus-award-fee; excludes other cost-type incentive contracts)	***75/25	***75/25	85/15	85/15

\* The contracting officer may increase the contractor's sharing rate to as high as 75 percent for each VECP. (See 48.102(g) (1) through (7).)

\*\* Same sharing arrangement as the contract's profit or fee adjustment formula.

\*\*\* The contracting officer may increase the contractor's sharing rate to as high as 50 percent for each VECP. (See 48.102(g) (1) through (7).)

(2) Acquisition savings may be realized on the instant contract, concurrent contracts, and future contracts. The contractor is entitled to a percentage share (see paragraph (a)(1)) of any net acquisition savings. Net acquisition savings result when the total of acquisition savings becomes greater than the total of Government costs and any negative instant contract savings. This may occur on the instant contract or it may not occur until reductions have been negotiated on concurrent contracts or until future contract savings are calculated, either through lump-sum payment or as each future contract is awarded.

(i) When the instant contract is not an incentive contract, the contractor's share of net acquisition savings is calculated and paid each time such savings are realized. This may occur once, several times, or, in rare cases, not at all.

(ii) When the instant contract is an incentive contract, the contractor shares in instant contract savings through the contract's incentive structure. In calculating acquisition savings under incentive contracts, the contracting officer shall add any negative instant contract savings to the target cost or

to the target price and ceiling price and then offset these negative instant contract savings and any Government costs against concurrent and future contract savings.

(3) The contractor shares in the savings on all affected units scheduled for delivery during the sharing period. The contractor is responsible for maintaining, for 3 years after final payment on the contract under which the VECP was accepted, records adequate to identify the first delivered unit incorporating the applicable VECP.

(4) Contractor shares of savings are paid through the contract under which the VECP was accepted. On incentive contracts, the contractor's share of concurrent and future contract savings and of collateral savings shall be paid as a separate firm-fixed-price contract line item on the instant contract.

(5) Within 3 months after concurrent contracts have been modified to reflect price reductions attributable to use of the VECP, the contracting officer shall modify the instant contract to provide the contractor's share of savings.

(6) The contractor's share of future contract savings may be paid as subsequent contracts are awarded or in a lump-sum payment at the time the VECP is accepted. The lump-sum method may be used only if the contracting officer has established that this is the best way to proceed and the contractor agrees. The contracting officer ordinarily shall make calculations as future contracts are awarded and, within 3 months after award, modify the instant contract to provide the contractor's share of the savings. For future contract savings calculated under the optional lump-sum method, the sharing base is an estimate of the number of items that the contracting officer will purchase for delivery during the sharing period. In deciding whether or not to use the more convenient lump-sum method for an individual VECP, the contracting officer shall consider—

(i) The accuracy with which the number of items to be delivered during the sharing period can be estimated and the probability of actual production of the projected quantity;

(ii) The availability of funds for a lump-sum payment; and

(iii) The administrative expense of amending the instant contract as future contracts are awarded.

(b) *Construction contracts.* Sharing on construction contracts applies only to savings on the instant contract and to collateral savings. The Government's share of savings is determined by subtracting Government costs from instant contract savings and multiplying the result by (1) 45 percent for fixed-price contracts or (2) 75 percent for cost-reimbursement contracts. Value engineering sharing does not apply to incentive construction contracts.

**48.104-3 Sharing collateral savings.**

(a) The Government shares collateral savings with the contractor, unless the head of the contracting activity has deter-

mined that the cost of calculating and tracking collateral savings will exceed the benefits to be derived (see 48.201(e)).

(b) The contractor's share of collateral savings may range from 20 to 100 percent of the estimated savings to be realized during a typical year of use but must not exceed the greater of—

(1) The contract's firm-fixed-price, target price, target cost, or estimated cost, at the time the VECP is accepted; or  
(2) \$100,000.

(c) The contracting officer must determine the sharing rate for each VECP.

(d) In determining collateral savings, the contracting officer must consider any degradation of performance, service life, or capability.

#### **48.104-4 Sharing alternative—no-cost settlement method.**

In selecting an appropriate mechanism for incorporating a VECP into a contract, the contracting officer shall analyze the different approaches available to determine which one would be in the Government's best interest. Contracting officers should balance the administrative costs of negotiating a settlement against the anticipated savings. A no-cost settlement

may be used if, in the contracting officer's judgment, reliance on other VECP approaches likely would not be more cost-effective, and the no-cost settlement would provide adequate consideration to the Government. Under this method of settlement, the contractor would keep all of the savings on the instant contract, and all savings on its concurrent contracts only. The Government would keep all savings resulting from concurrent contracts placed with other sources, savings from all future contracts, and all collateral savings. Use of this method must be by mutual agreement of both parties for individual VECPs.

#### **48.105 Relationship to other incentives.**

Contractors should be offered the fullest possible range of motivation, yet the benefits of an accepted VECP should not be rewarded both as value engineering shares and under performance, design-to-cost, or similar incentives of the contract. To that end, when performance, design-to-cost, or similar targets are set and incentivized, the targets of such incentives affected by the VECP are not to be adjusted because of the acceptance of the VECP. Only those benefits of an accepted VECP not rewardable under other incentives are rewarded under a value engineering clause.

## Subpart 48.2—Contract Clauses

### 48.201 Clauses for supply or service contracts.

(a) *General.* The contracting officer shall insert a value engineering clause in solicitations and contracts when the contract amount is expected to be \$100,000 or more, except as specified in paragraphs (a)(1) through (5) and in paragraph (f) of this section. A value engineering clause may be included in contracts of lesser value if the contracting officer sees a potential for significant savings. Unless the chief of the contracting office authorizes its inclusion, the contracting officer shall not include a value engineering clause in solicitations and contracts—

(1) For research and development other than full-scale development;

(2) For engineering services from not-for-profit or non-profit organizations;

(3) For personal services (see Subpart 37.1);

(4) Providing for product or component improvement, unless the value engineering incentive application is restricted to areas not covered by provisions for product or component improvement;

(5) For commercial products (see Part 11) that do not involve packaging specifications or other special requirements or specifications; or

(6) When the agency head has exempted the contract (or a class of contracts) from the requirements of this Part 48.

(b) *Value engineering incentive.* To provide a value engineering incentive, the contracting officer shall insert the clause at 52.248-1, Value Engineering, in solicitations and contracts except as provided in paragraph (a) of this section (but see paragraph (e)(1) of this section).

(c) *Value engineering program requirement.* (1) If a mandatory value engineering effort is appropriate (*i.e.*, if the contracting officer considers that substantial savings to the Government may result from a sustained value engineering effort of a specified level), the contracting officer shall use the clause with its Alternate I (but see paragraph (e)(2) of this section).

(2) The value engineering program requirement may be specified by the Government in the solicitation or, in the case of negotiated contracting, proposed by the contractor as part of its offer and included as a subject for negotiation. The program requirement shall be shown as a separately priced line item in the contract Schedule.

(d) *Value engineering incentive and program requirement.*

(1) If both a value engineering incentive and a mandatory program requirement are appropriate, the contracting officer shall use the clause with its Alternate II (but see paragraph (e)(3) of this section).

(2) The contract shall restrict the value engineering program requirement to well-defined areas of performance designated by line item in the contract Schedule. Alternate II applies a value engineering program to the specified areas and a value engineering incentive to the remaining areas of the contract.

(e) *Collateral savings computation not cost-effective.* If the head of the contracting activity determines for a contract or class of contracts that the cost of computing and tracking collateral savings will exceed the benefits to be derived, the contracting officer shall use the clause with its—

(1) Alternate III if a value engineering incentive is involved;

(2) Alternate III and Alternate I if a value engineering program requirement is involved; or

(3) Alternate III and Alternate II if both an incentive and a program requirement are involved.

(f) *Architect-engineer contracts.* The contracting officer shall insert the clause at 52.248-2, Value Engineering Architect-Engineer, in solicitations and contracts whenever the Government requires and pays for a specific value engineering effort in architect-engineer contracts. The clause at 52.248-1, Value Engineering, shall not be used in solicitations and contracts for architect-engineer services.

(g) *Engineering-development solicitations and contracts.* For engineering-development solicitations and contracts, and solicitations and contracts containing low-rate-initial-production or early production units, the contracting officer must modify the clause at 52.248-1, Value Engineering, by—

(1) Revising paragraph (i)(3)(i) of the clause by substituting “a number equal to the quantity required to be delivered over a period of between 36 and 60 consecutive months (set at the discretion of the Contracting Officer for each VECP) that spans the highest planned production, based on planning and programming or production documentation at the time the VECP is accepted;” for “the number of future contract units scheduled for delivery during the sharing period;” and

(2) Revising the first sentence under paragraph (3) of the definition of “acquisition savings” by substituting “a number equal to the quantity to be delivered over a period of between 36 and 60 consecutive months (set at the discretion of the Contracting Officer for each VECP) that spans the highest planned production, based on planning and programming or production documentation at the time the VECP is accepted.” for “the number of future contract units in the sharing base.”

(h) *Extended production period solicitations and contracts.* In solicitations and contracts for items requiring an extended period for production (*e.g.*, ship construction, major system acquisition), if agency procedures prescribe sharing of future contract savings on all units to be delivered under contracts awarded during the sharing period (see 48.104-1(c)), the contracting officer must modify the clause at 52.248-1,

Value Engineering, by revising paragraph (i)(3)(i) of the clause and the first sentence under paragraph (3) of the definition of “acquisition savings” by substituting “under contracts awarded during the sharing period” for “during the sharing period.”

**48.202 Clause for construction contracts.**

The contracting officer shall insert the clause at 52.248-3, Value Engineering—Construction, in construction solicitations and contracts when the contract amount is estimated to

be \$100,000 or more, unless an incentive contract is contemplated. The contracting officer may include the clause in contracts of lesser value if the contracting officer sees a potential for significant savings. The contracting officer shall not include the clause in incentive-type construction contracts. If the head of the contracting activity determines that the cost of computing and tracking collateral savings for a contract will exceed the benefits to be derived, the contracting officer shall use the clause with its Alternate I.

### **Subpart 49.4—Termination for Default**

- 49.401 General.
- 49.402 Termination of fixed-price contracts for default.
- 49.402-1 The Government's right.
- 49.402-2 Effect of termination for default.
- 49.402-3 Procedure for default.
- 49.402-4 Procedure in lieu of termination for default.
- 49.402-5 Memorandum by the contracting officer.
- 49.402-6 Repurchase against contractor's account.
- 49.402-7 Other damages.
- 49.403 Termination of cost-reimbursement contracts for default.
- 49.404 Surety-takeover agreements.
- 49.405 Completion by another contractor.
- 49.406 Liquidation of liability.

### **Subpart 49.5—Contract Termination Clauses**

- 49.501 General.
- 49.502 Termination for convenience of the Government.
- 49.503 Termination for convenience of the Government and default.
- 49.504 Termination of fixed-price contracts for default.
- 49.505 Other termination clauses.

**Subpart 49.6—Contract Termination Forms and Formats**

- 49.601 Notice of termination for convenience.
- 49.601-1 Telegraphic notice.
- 49.601-2 Letter notice.
- 49.602 Forms for settlement of terminated contracts.
- 49.602-1 Termination settlement proposal forms.
- 49.602-2 Inventory schedule forms.
- 49.602-3 Schedule of accounting information.
- 49.602-4 Partial payments.
- 49.602-5 Settlement agreement.
- 49.603 Formats for termination for convenience settlement agreements.
- 49.603-1 Fixed price contracts—complete termination.
- 49.603-2 Fixed-price contracts—partial termination.
- 49.603-3 Cost reimbursement contracts—complete termination, if settlement includes cost.
- 49.603-4 Cost-reimbursement contracts—complete termination, with settlement limited to fee.
- 49.603-5 Cost-reimbursement contracts—partial termination.
- 49.603-6 No-cost settlement agreement—complete termination.
- 49.603-7 No-cost settlement agreement—partial termination.
- 49.603-8 Fixed-price contracts—settlements with subcontractors only.
- 49.603-9 Settlement of reservations.
- 49.604 Release of excess funds under terminated contracts.
- 49.605 Request to settle subcontractor settlement proposals.
- 49.606 Granting subcontract settlement authorization.
- 49.607 Delinquency notices.

**49.000 Scope of part.**

This part establishes policies and procedures relating to the complete or partial termination of contracts for the convenience of the Government or for default. It prescribes contract clauses relating to termination and excusable delay and includes instructions for using termination and settlement forms.

**49.001 Definitions.**

As used in this part—

“Claim” means the same as the language in 33.201.

“Continued portion of the contract” means the portion of a partially terminated contract that the contractor must continue to perform.

“Other work” means any current or scheduled work of the contractor, whether Government or commercial, other than work related to the terminated contract.

“Partial termination” means the termination of a part, but not all, of the work that has not been completed and accepted under a contract.

“Settlement agreement” means a written agreement in the form of a contract modification settling all or a severable portion of a settlement proposal.

“Settlement proposal” means a proposal for effecting settlement of a contract terminated in whole or in part, submitted by a contractor or subcontractor in the form, and supported by the data, required by this part. A settlement proposal is included within the generic meaning of the word “claim” under false claims acts (see 18 U.S.C. 287 and 31 U.S.C. 3729).

“Terminated portion of the contract” means the portion of a terminated contract that relates to work or end items not completed and accepted before the effective date of termination that the contractor is not to continue to perform. For construction contracts that have been completely terminated for convenience, it means the entire contract, notwithstanding the completion of, and payment for, individual items of work before termination.

“Termination inventory” means the same as the language in 45.601.

“Unsettled contract change” means any contract change or contract term for which a definitive modification is required but has not been executed.

**49.002 Applicability.**

(a) This part applies to contracts that provide for termination for the convenience of the Government or for the default of the contractor (see also 13.302-4).

(b) Contractors shall use this part, unless inappropriate, to settle subcontracts terminated as a result of modification of prime contracts. The contracting officer shall use this part as a guide in evaluating settlements of subcontracts terminated for the convenience of a contractor whenever the settlement

will be the basis of a proposal for reimbursement from the Government under a cost-reimbursement contract.

(c) The contracting officer may use this part in determining an equitable adjustment resulting from a modification under the Changes clause of any contract, except cost-reimbursement contracts.

(d) When action to be taken or authority to be exercised under this part depends upon the “amount” of the settlement proposal, that amount shall be determined by deducting from the gross settlement proposed the amounts payable for completed articles or work at the contract price and amounts for the settlement of subcontractor settlement proposals. Credits for retention or other disposal of termination inventory and amounts for advance or partial payments shall not be deducted.

**Subpart 49.1—General Principles****49.100 Scope of subpart.**

(a) This subpart deals with—

(1) The authority and responsibility of contracting officers to terminate contracts in whole or in part for the convenience of the Government or for default;

(2) Duties of the contractor and the contracting officer after issuance of the notice of termination;

(3) General procedures for the settlement of terminated contracts; and

(4) Settlement agreements.

(b) Additional principles applicable to the termination for convenience and settlement of fixed-price and cost-reimbursement contracts are included in Subparts 49.2 and 49.3. Additional principles applicable to the termination of contracts for default are included in Subpart 49.4.

**49.101 Authorities and responsibilities.**

(a) The termination clauses or other contract clauses authorize contracting officers to terminate contracts for convenience, or for default, and to enter into settlement agreements under this regulation.

(b) The contracting officer shall terminate contracts, whether for default or convenience, only when it is in the Government’s interest. The contracting officer shall effect a no-cost settlement instead of issuing a termination notice when—

(1) It is known that the contractor will accept one,

(2) Government property was not furnished, and

(3) There are no outstanding payments, debts due the Government, or other contractor obligations.

(c) When the price of the undelivered balance of the contract is less than \$5,000, the contract should not normally be terminated for convenience but should be permitted to run to completion.

(d) After the contracting officer issues a notice of termination, the termination contracting officer (TCO) is responsible for negotiating any settlement with the contractor, including a no-cost settlement if appropriate. Auditors and TCO's shall promptly schedule and complete audit reviews and negotiations, giving particular attention to the need for timely action on all settlements involving small business concerns.

(e) If the same item is under contract with both large and small business concerns and it is necessary to terminate for convenience part of the units still to be delivered, preference shall be given to the continuing performance of small business contracts over large business contracts unless the chief of the contracting office determines that this is not in the Government's interest.

(f) The contracting officer is responsible for the release of excess funds resulting from the termination unless this responsibility is specifically delegated to the TCO.

#### **49.102 Notice of termination.**

(a) *General.* The contracting officer shall terminate contracts for convenience or default only by a written notice to the contractor (see 49.601). When the notice is mailed, it shall be sent by certified mail, return receipt requested. When the contracting office arranges for hand delivery of the notice, a written acknowledgement shall be obtained from the contractor. The notice shall state—

(1) That the contract is being terminated for the convenience of the Government (or for default) under the contract clause authorizing the termination;

(2) The effective date of termination;

(3) The extent of termination;

(4) Any special instructions; and

(5) The steps the contractor should take to minimize the impact on personnel if the termination, together with all other outstanding terminations, will result in a significant reduction in the contractor's work force (see paragraph (g) of the notice in 49.601-2). If the termination notice is by telegram, include these "steps" in the confirming letter or modification.

(b) *Distribution of copies.* The contracting officer shall simultaneously send the termination notice to the contractor, and a copy to the contract administration office and to any known assignee, guarantor, or surety of the contractor.

(c) *Amendment of termination notice.* The contracting officer may amend a termination notice to—

(1) Correct nonsubstantive mistakes in the notice;

(2) Add supplemental data or instructions; or

(3) Rescind the notice if it is determined that items terminated had been completed or shipped before the contractor's receipt of the notice.

(d) *Reinstatement of terminated contracts.* Upon written consent of the contractor, the contracting office may reinstate

the terminated portion of a contract in whole or in part by amending the notice of termination if it has been determined in writing that—

(1) Circumstances clearly indicate a requirement for the terminated items; and

(2) Reinstatement is advantageous to the Government.

#### **49.103 Methods of settlement.**

Settlement of terminated cost-reimbursement contracts and fixed-price contracts terminated for convenience may be effected by (a) negotiated agreement, (b) determination by the TCO, (c) costing-out under vouchers using SF 1034, Public Voucher for Purchases and Services Other Than Personal, for cost-reimbursement contracts (as prescribed in Subpart 49.3), or (d) a combination of these methods. When possible, the TCO should negotiate a fair and prompt settlement with the contractor. The TCO shall settle a settlement proposal by determination only when it cannot be settled by agreement.

#### **49.104 Duties of prime contractor after receipt of notice of termination.**

After receipt of the notice of termination, the contractor shall comply with the notice and the termination clause of the contract, except as otherwise directed by the TCO. The notice and clause applicable to convenience terminations generally require that the contractor—

(a) Stop work immediately on the terminated portion of the contract and stop placing subcontracts thereunder;

(b) Terminate all subcontracts related to the terminated portion of the prime contract;

(c) Immediately advise the TCO of any special circumstances precluding the stoppage of work;

(d) Perform the continued portion of the contract and submit promptly any request for an equitable adjustment of price for the continued portion, supported by evidence of any increase in the cost, if the termination is partial;

(e) Take necessary or directed action to protect and preserve property in the contractor's possession in which the Government has or may acquire an interest and, as directed by the TCO, deliver the property to the Government;

(f) Promptly notify the TCO in writing of any legal proceedings growing out of any subcontract or other commitment related to the terminated portion of the contract;

(g) Settle outstanding liabilities and proposals arising out of termination of subcontracts, obtaining any approvals or ratifications required by the TCO;

(h) Promptly submit the contractor's own settlement proposal, supported by appropriate schedules; and

(i) Dispose of termination inventory, as directed or authorized by the TCO.

**49.105 Duties of termination contracting officer after issuance of notice of termination.**

(a) Consistent with the termination clause and the notice of termination, the TCO shall—

- (1) Direct the action required of the prime contractor;
- (2) Examine the settlement proposal of the prime contractor and, when appropriate, the settlement proposals of subcontractors;
- (3) Promptly negotiate settlement with the contractor and enter into a settlement agreement; and
- (4) Promptly settle the contractor's settlement proposal by determination for the elements that cannot be agreed on, if unable to negotiate a complete settlement.

(b) To expedite settlement, the TCO may request specially qualified personnel to—

- (1) Assist in dealings with the contractor;
- (2) Advise on legal and contractual matters;
- (3) Conduct accounting reviews and advise and assist on accounting matters; and
- (4) Perform the following functions regarding termination inventory (see Subpart 45.6):
  - (i) Verify its existence.
  - (ii) Determine qualitative and quantitative allocability.
  - (iii) Make recommendations concerning serviceability.
  - (iv) Undertake necessary screening and redistribution.
  - (v) Assist the contractor in accomplishing other disposition.

(c) The TCO should promptly hold a conference with the contractor to develop a definite program for effecting the settlement. When appropriate in the judgment of the TCO, after consulting with the contractor, principal subcontractors should be requested to attend. Topics that should be discussed at the conference and documented include—

- (1) General principles relating to the settlement of any settlement proposal, including obligations of the contractor under the termination clause of the contract;
- (2) Extent of the termination, point at which work is stopped, and status of any plans, drawings, and information that would have been delivered had the contract been completed;
- (3) Status of any continuing work;
- (4) Obligation of the contractor to terminate subcontracts and general principles to be followed in settling subcontractor settlement proposals;
- (5) Names of subcontractors involved and the dates termination notices were issued to them;
- (6) Contractor personnel handling review and settlement of subcontractor settlement proposals and the methods being used;

(7) Arrangements for transfer of title and delivery to the Government of any material required by the Government;

(8) General principles and procedures to be followed in the protection, preservation, and disposition of the contractor's and subcontractors' termination inventories, including the preparation of termination inventory schedules;

(9) Contractor accounting practices and preparation of SF-1439 (Schedule of Accounting Information (49.602-3));

(10) Form in which to submit settlement proposals;

(11) Accounting review of settlement proposals;

(12) Any requirement for interim financing in the nature of partial payments;

(13) Tentative time schedule for negotiation of the settlement, including submission by the contractor and subcontractors of settlement proposals, termination inventory schedules, and accounting information schedules (see 49.206-3 and 49.303-2);

(14) Actions taken by the contractor to minimize impact upon employees affected adversely by the termination (see paragraph (g) of the letter notice in 49.601-2); and

(15) Obligation of the contractor to furnish accurate, complete, and current cost or pricing data, and to certify to that effect in accordance with 15.403-4(a)(1) when the amount of a termination settlement agreement, or a partial termination settlement agreement plus the estimate to complete the continued portion of the contract exceeds the threshold in 15.403-4.

**49.105-1 Termination status reports.**

When the TCO and contracting officer are in different activities, the TCO will furnish periodic status reports on termination actions to the contracting office upon request. The contracting office shall specify the information required.

**49.105-2 Release of excess funds.**

(a) The TCO shall estimate the funds required to settle the termination, and within 30 days after the receipt of the termination notice, recommend the release of excess funds to the contracting officer. The initial deobligation of excess funds should be accomplished in a timely manner by the contracting officer, or the TCO, if delegated the responsibility. The TCO shall not recommend the release of amounts under \$1,000, unless requested by the contracting officer.

(b) The TCO shall maintain continuous surveillance of required funds to permit timely release of any additional excess funds (a recommended format for release of excess funds is in 49.604). If previous releases of excess funds result in a shortage of the amount required for settlement, the TCO shall promptly inform the contracting officer, who shall reinstate the funds within 30 days.

**49.105-3 Termination case file.**

The TCO responsible for negotiating the final settlement shall establish a separate case file for each termination. This file will include memoranda and records of all actions relative to the settlement (see 4.801).

**49.105-4 Cleanup of construction site.**

In the case of terminated construction contracts, the contracting officer shall direct action to ensure the cleanup of the site, protection of serviceable materials, removal of hazards, and other action necessary to leave a safe and healthful site.

**49.106 Fraud or other criminal conduct.**

If the TCO suspects fraud or other criminal conduct related to the settlement of a terminated contract, the TCO shall discontinue negotiations and report the facts under agency procedures.

**49.107 Audit of prime contract settlement proposals and subcontract settlements.**

(a) The TCO shall refer each prime contractor settlement proposal of \$100,000 or more to the appropriate audit agency for review and recommendations. The TCO may submit settlement proposals of less than \$100,000 to the audit agency. Referrals shall indicate any specific information or data that the TCO desires and shall include facts and circumstances that will assist the audit agency in performing its function. The audit agency shall develop requested information and may make any further accounting reviews it considers appropriate. After its review, the audit agency shall submit written comments and recommendations to the TCO. When a formal examination of settlement proposals under \$100,000 is not warranted, the TCO will perform or have performed a desk review and include a written summary of the review in the termination case file.

(b) The TCO shall refer subcontract settlements received for approval or ratification to the appropriate audit agency for review and recommendations when (1) the amount exceeds \$100,000 or (2) the TCO wants a complete or partial accounting review. The audit agency shall submit written comments and recommendations to the TCO. The review by the audit agency does not relieve the prime contractor or higher tier subcontractor of the responsibility for performing an accounting review.

(c)(1) The responsibility of the prime contractor and of each subcontractor (see 49.108) includes performance of accounting reviews and any necessary field audits. However, the TCO should request the Government audit agency to perform the accounting review of a subcontractor's settlement proposal when—

(i) A subcontractor objects, for competitive reasons, to an accounting review of its records by an upper tier contractor;

(ii) The Government audit agency is currently performing audit work at the subcontractor's plant, or can perform the audit more economically or efficiently;

(iii) Audit by the Government is necessary for consistent audit treatment and orderly administration; or

(iv) The contractor has a substantial or controlling financial interest in the subcontractor.

(2) The audit agency should avoid duplication of accounting reviews performed by the upper tier contractor on subcontractor settlement proposals. However, this should not preclude the Government from making additional reviews when appropriate. When the contractor is performing accounting reviews according to this section, the TCO should request the audit agency to periodically examine the contractor's accounting review procedures and performance, and to make appropriate comments and recommendations to the TCO.

(d) The audit report is advisory only, and is for the TCO to use in negotiating a settlement or issuing a unilateral determination. Government personnel handling audit reports must be careful not to reveal privileged information or information that will jeopardize the negotiation position of the Government, the prime contractor, or a higher tier subcontractor. Consistent with this, and when in the Government's interest, the TCO may furnish audit reports under paragraph (c) of this section to prime and higher tier subcontractors for their use in settling subcontract settlement proposals.

**49.108 Settlement of subcontract settlement proposals.****49.108-1 Subcontractor's rights.**

A subcontractor has no contractual rights against the Government upon the termination of a prime contract. A subcontractor may have rights against the prime contractor or intermediate subcontractor with whom it has contracted. Upon termination of a prime contract, the prime contractor and each subcontractor are responsible for the prompt settlement of the settlement proposals of their immediate subcontractors.

**49.108-2 Prime contractor's rights and obligations.**

(a) Termination for convenience clauses provide that after receipt of a termination notice the prime contractor shall, unless directed otherwise by the TCO, terminate all subcontracts to the extent that they relate to the performance of prime work terminated. Therefore, prime contractors should include a termination clause in their subcontracts for their own protection. Suggestions regarding use of subcontract termination clauses are in Subpart 49.5.

(b) The failure of a prime contractor to include an appropriate termination clause in any subcontract, or to exercise the clause rights, shall not—

(1) Affect the Government's right to require the termination of the subcontract; or

(2) Increase the obligation of the Government beyond what it would have been if the subcontract had contained an appropriate clause.

(c) In any case, the reasonableness of the prime contractor's settlement with the subcontractor should normally be measured by the aggregate amount due under paragraph (f) of the subcontract termination clause suggested in 49.502(e). The TCO shall allow reimbursement in excess of that amount only in unusual cases and then only to the extent that the terms of the subcontract did not unreasonably increase the rights of the subcontractor.

#### 49.108-3 Settlement procedure.

(a) Contractors shall settle with subcontractors in general conformity with the policies and principles relating to settlement of prime contracts in this subpart and Subparts 49.2 or 49.3. However, the basis and form of the subcontractor's settlement proposal must be acceptable to the prime contractor or the next higher tier subcontractor. Each settlement must be supported by accounting data and other information sufficient for adequate review by the Government. In no event will the Government pay the prime contractor any amount for loss of anticipatory profits or consequential damages resulting from the termination of any subcontract (but see 49.108-5).

(b) Except as provided in 49.108-4, the TCO shall require that—

(1) All subcontractor termination inventory be disposed of and accounted for in accordance with Part 45; and

(2) The prime contractor submit, for approval or ratification, all termination settlements with subcontractors.

(c) The TCO shall promptly examine each subcontract settlement received to determine that the subcontract termination was made necessary by the termination of the prime contract (or by issuance of a change order—see 49.002(b)). The TCO will also determine if the settlement was arrived at in good faith, is reasonable in amount, and is allocable to the terminated portion of the contract (or, if allocable only in part, that the proposed allocation is reasonable). In considering the reasonableness of any subcontract settlement, the TCO shall generally be guided by the provisions of this part relating to the settlement of prime contracts, and shall comply with any applicable requirements of 49.107 and 49.111 relating to accounting and other reviews. After the examination, the TCO shall notify the contractor in writing of—

(1) Approval or ratification, or

(2) The reasons for disapproval.

#### 49.108-4 Authorization for subcontract settlements without approval or ratification.

(a)(1) The TCO may, upon written request, give written authorization to the prime contractor to conclude settlements

of subcontracts terminated in whole or in part without approval or ratification when the amount of settlement (see 49.002(d)) is \$100,000 or less, if—

(i) The TCO is satisfied with the adequacy of the procedures used by the contractor in settling settlement proposals, including proposals for retention, sale, or other disposal of termination inventory of the immediate and lower tier subcontractors (the TCO shall obtain the advice and recommendations of—

(A) The appropriate audit agency relating to the adequacy of the contractor's audit administration, including personnel, and

(B) The cognizant plant clearance officer relating to the adequacy of the contractor's procedures and personnel for the administration of property disposal matters);

(ii) Any termination inventory included in determining the amount of the settlement will be disposed of as directed by the prime contractor, generally using the requirements of 45.614, except that the disposition of the inventory shall not—

(A) Be subject to review by the TCO under 49.108-3(c) or 45.607, or

(B) Be subject to the screening requirements in 45.608; and

(iii) A certificate similar to the certificate in the settlement proposal form in 49.602-1(a) will accompany the settlement.

(2) Except as provided in paragraph (a)(4) of this section, authority granted to a prime contractor under paragraph (a)(1) of this section by any TCO shall apply to all Executive agencies' prime contracts that are terminated, or modified by change orders.

(3) Except as provided in paragraph (a)(4) of this section, the TCO shall accept, as part of the prime contractor's settlement proposal, settlements of terminated lower tier subcontracts concluded by any of the prime contractor's immediate or lower tier subcontractors who have been granted authority as prime contractors to settle subcontracts; provided, that the settlement is within the limit of the authority. Authorization to settle proposals of lower tier subcontractors shall not be granted directly to subcontractors. However, a prime contractor authorized to approve subcontractor settlements may also exercise this authority in its capacity as a subcontractor, with respect to its terminated subcontracts and orders. When exercising this authority as a subcontractor, the contractor shall notify the purchaser.

(4) The provisions of paragraphs (a)(1), (2), and (3) of this section shall not apply to contracts under the administration of any contracting officer if the contracting officer so notifies the prime contractor concerned. This notice shall

(i) Be in writing, and

(ii) If paragraph (a)(3) of this section is involved, specify any subcontractor affected.

(b) Section 45.614 shall apply to disposal of completed end items allocable to the terminated subcontract. However, these items may be disposed of without review by the TCO under 49.108-3 or 45.607, and without screening under 45.608, if the total amount (at the subcontract price) when added to the amount of the settlement does not exceed the amount authorized under this subsection.

(c) A TCO granting the authorization in paragraph (a)(1) of this section shall periodically (at least annually) make a selective review of settlements and settlement procedures to determine if the contractor is making adequate reviews and fair settlements, and whether the authorization should remain in effect. The TCO shall obtain the advice and recommendations of the appropriate audit agency and the cognizant plant clearance officer. When it is determined that the contractor's procedures are not adequate, or that improper settlements are being made, or when the authority has not been used in the preceding 2 years, the TCO shall revoke the authorization by written notice to the contractor, effective on the date of receipt.

(d) The contractor may make any number of separate settlements with a single subcontractor but shall not divide settlement proposals solely to bring them under an authorization limit. Separate settlement proposals that would normally be included in a single proposal, such as those based on a series of separate orders for the same item under one contract, shall be consolidated whenever possible.

(e) Upon written request of the contractor, the TCO may increase an authorization granted under paragraph (a)(1) of this subsection to authorize the contractor to conclude settlements under a particular prime contract. The TCO may limit the increased authorization to specific subcontracts or classes of subcontracts.

(f) Authorizations granted under this 49.108-4 shall not authorize the settlement of requisitions or orders placed with any unit within the contractor's corporate entity.

(g) Recommended formats for a request to settle subcontractor settlement proposals and the TCO's letter of authorization to the contractor are in 49.605 and 49.606, respectively.

#### **49.108-5 Recognition of judgments and arbitration awards.**

(a) When a subcontractor obtains a final judgment against a prime contractor, the TCO shall, for the purposes of settling the prime contract, treat the amount of the judgment as a cost of settling with the contractor, to the extent the judgment is properly allocable to the terminated portion of the prime contract, if—

(1) The prime contractor has made reasonable efforts to include in the subcontract a termination clause described in 49.502(e), 49.503(c), or a similar clause excluding payment of anticipatory profits or consequential damages;

(2) The provisions of the subcontract relating to the rights of the parties upon its termination are fair and reasonable and do not unreasonably increase the common law rights of the subcontractor;

(3) The contractor made reasonable efforts to settle the settlement proposal of the subcontractor;

(4) The contractor gave prompt notice to the contracting officer of the initiation of the proceedings in which the judgment was rendered and did not refuse to give the Government control of the defense of the proceedings; and

(5) The contractor diligently defended the suit or, if the Government assumed control of the defense of the proceedings, rendered reasonable assistance requested by the Government.

(b) If the conditions in paragraphs (a)(1) through (5) of this section are not all met, the TCO may allow the contractor the part of the judgment considered fair for settling the subcontract settlement proposal, giving due regard to the policies in this part for settlement of proposals.

(c) When a contractor and a subcontractor submit the subcontractor's settlement proposal to arbitration under any applicable law or contract provision, the TCO shall recognize the arbitration award as the cost of settling the proposal of the contractor to the same extent and under the same conditions as in paragraphs (a) and (b) of this section.

#### **49.108-6 Delay in settling subcontractor settlement proposals.**

When a prime contractor's inability to settle with a subcontractor delays the settlement of the prime contract, the TCO may settle with the prime contractor. The TCO shall except the subcontractor settlement proposal from the settlement in whole or part and reserve the rights of the Government and the prime contractor with respect to the subcontractor proposal.

#### **49.108-7 Government assistance in settling subcontracts.**

In unusual cases the TCO may determine, with the consent of the prime contractor, that it is in the Government's interest to provide assistance to the prime contractor in the settlement of a particular subcontract. In these situations, the Government, the prime contractor, and a subcontractor may enter into an agreement covering the settlement of one or more subcontracts. In these settlements, the subcontractor shall be paid through the prime contractor as part of the overall settlement with the prime contractor.

#### **49.108-8 Assignment of rights under subcontracts.**

(a) The termination for convenience clauses in 52.249, except the short-form clauses, obligate the prime contractor to assign to the Government, as directed by the TCO, all rights, titles, and interest under any subcontract terminated because of termination of the prime contract. The TCO shall

not require the assignment unless it is in the Government's interest.

(b) The termination for convenience clauses (except the short-form clauses) also provide the Government the right, in its discretion, to settle and pay any settlement proposal arising out of the termination of subcontracts. This right does not obligate the Government to settle and pay settlement proposals of subcontractors. As a general rule, the prime contractor is obligated to settle and pay these proposals. However, when the TCO determines that it is in the Government's interest, the TCO shall, after notifying the contractor, settle the subcontractor's proposal using the procedures for settlement of prime contracts. An example in which the Government's interest would be served is when a subcontractor is a sole source and it appears that a delay by the prime contractor in settlement or payment of the subcontractor's proposal will jeopardize the financial position of the subcontractor. Direct settlements with subcontractors are not encouraged.

#### **49.109 Settlement agreements.**

##### **49.109-1 General.**

When a termination settlement has been negotiated and all required reviews have been obtained, the contractor and the TCO shall execute a settlement agreement on Standard Form 30 (Amendment of Solicitation/Modification of Contract) (see 49.603). The settlement shall cover—

- (a) Any setoffs that the Government has against the contractor that may be applied against the terminated contract and
- (b) All settlement proposals of subcontractors, except proposals that are specifically excepted from the agreement and reserved for separate settlement.

##### **49.109-2 Reservations.**

- (a) The TCO shall—
  - (1) Reserve in the settlement agreement any rights or demands of the parties that are excepted from the settlement;
  - (2) Ensure that the wording of the reservation does not create any rights for the parties beyond those in existence before execution of the settlement agreement;
  - (3) Mark each applicable settlement agreement with "This settlement agreement contains a reservation" and retain the contract file until the reservation is removed;
  - (4) Ensure that sufficient funds are retained to cover complete settlement of the reserved items; and
  - (5) At the appropriate time, prepare a separate settlement of reserved items and include it in a separate settlement agreement.
- (b) A recommended format for settlement of reservations appears in 49.603-9.

##### **49.109-3 Government property.**

Before execution of a settlement agreement, the TCO shall determine the accuracy of the Government property account for the terminated contract. If an audit discloses property for which the contractor cannot account, the TCO shall reserve in the settlement agreement the rights of the Government regarding that property or make an appropriate deduction from the amount otherwise due the contractor.

##### **49.109-4 No-cost settlement.**

The TCO shall execute a no-cost settlement agreement (see 49.603-6 or 49.603-7, as applicable) if—

- (a) The contractor has not incurred costs for the terminated portion of the contract or
- (b) The contractor is willing to waive the costs incurred and
- (c) No amounts are due the Government under the contract.

##### **49.109-5 Partial settlements.**

The TCO should attempt to settle in one agreement all rights and liabilities of the parties under the contract except those arising from any continued portion of the contract. Generally, the TCO shall not attempt to make partial settlements covering particular items of the prime contractor's settlement proposal. However, when a TCO cannot promptly complete settlement under the terminated contract, a partial settlement may be entered into if—

- (a) The issues on which agreement has been reached are clearly severable from other issues and
- (b) The partial settlement will not prejudice the Government's or contractor's interests in disposing of the unsettled part of the settlement proposal.

##### **49.109-6 Joint settlement of two or more settlement proposals.**

(a) With the consent of the contractor, the TCO or TCO's concerned may negotiate jointly two or more termination settlement proposals of the same contractor under different contracts, even though the contracts are with different contracting offices or agencies. In such cases, accounting work shall be consolidated to the greatest extent practical. The resulting settlement may be evidenced by one settlement agreement covering all contracts involved or by a separate agreement for each contract involved.

- (b) When the settlement agreement covers more than one contract, it shall—
  - (1) Clearly identify the contracts involved,
  - (2) Assign an amendment modification number to each contract,
  - (3) Apportion the total amount of the settlement among the several contracts on some reasonable basis,

(4) Have attached or incorporated a schedule showing the apportionment, and

(5) Be distributed and attached to each contract involved in the same manner as other contract modifications.

#### **49.109-7 Settlement by determination.**

(a) *General.* If the contractor and TCO cannot agree on a termination settlement, or if a settlement proposal is not submitted within the period required by the termination clause, the TCO shall issue a determination of the amount due consistent with the termination clause, including any cost principles incorporated by reference. The TCO shall comply with 49.109-1 through 49.109-6 in making a settlement by determination and with 49.203 in making an adjustment for loss, if any. Copies of determinations shall receive the same distribution as other contract modifications.

(b) *Notice to contractor.* Before issuing a determination of the amount due the contractor, the TCO shall give the contractor at least 15 days notice by certified mail (return receipt requested) to submit written evidence, so as to reach the TCO on or before a stated date, substantiating the amount previously proposed.

(c) *Justification of settlement proposal.* (1) The contractor has the burden of establishing, by proof satisfactory to the TCO, the amount proposed.

(2) The contractor may submit vouchers, verified transcripts of books of account, affidavits, audit reports, and other documents as desired. The TCO may request the contractor to submit additional documents and data, and may request appropriate accountings, investigations, and audits.

(3) The TCO may accept copies of documents and records without requiring original documents unless there is a question of authenticity.

(4) The TCO may hold any conferences considered appropriate—

(i) To confer with the contractor,

(ii) To obtain additional information from Government personnel or from independent experts, or

(iii) To consult persons who have submitted affidavits or reports.

(d) *Determinations.* After reviewing the information available, the TCO shall determine the amount due and shall transmit a copy of the determination to the contractor by certified mail (return receipt requested), or by any other method that provides evidence of receipt. The transmittal letter shall advise the contractor that the determination is a final decision from which the contractor may appeal under the Disputes clause, except as shown in paragraph (f) of this section. The determination shall specify the amount due the contractor and will be supported by detailed schedules conforming generally to the forms for settlement proposals prescribed in 49.602-1 and by additional information, schedules, and analyses as

appropriate. The TCO shall explain each major item of disallowance. The TCO need not reconsider any other action relating to the terminated portion of the contract that was ratified or approved by the TCO or another contracting officer.

(e) *Preservation of evidence.* The TCO shall retain all written evidence and other data relied upon in making a determination, except that copies of original books of account need not be made. The TCO shall return books of account, together with other original papers and documents, to the contractor within a reasonable time.

(f) *Appeals.* The contractor may appeal, under the Disputes clause, any settlement by determination, except when the contractor has failed to submit the settlement proposal within the time provided in the contract and failed to request an extension of time. The pendency of an appeal shall not affect the authority of the TCO to settle the settlement proposal or any part by negotiation with the contractor at any time before the appeal is decided.

(g) *Decision on the contractor's appeal.* The TCO shall give effect to a decision of the Claims Court or a board of contract appeals, when necessary, by an appropriate modification to the contract. When appropriate, the TCO should obtain a release from the contractor. TCO's are authorized to modify the formats of settlement agreements in 49.603 to agree with this provision.

#### **49.110 Settlement negotiation memorandum.**

(a) The TCO shall, at the conclusion of negotiations, prepare a settlement negotiation memorandum describing the principal elements of the settlement for inclusion in the termination case file and for use by reviewing authorities. Pricing aspects of the settlement shall be documented in accordance with 15.406-3. The memorandum shall be distributed in accordance with 15.406-3.

(b) If the settlement was negotiated on the basis of individual items, the TCO shall specify the factors considered for each item. If the settlement was negotiated on an overall lump-sum basis, the TCO need not evaluate each item or group of items individually, but shall support the total amount of the recommended settlement in reasonable detail. The memorandum shall include explanations of matters involving differences and doubtful questions settled by agreement, and the factors considered. The TCO should include any other matters that will assist reviewing authorities in understanding the basis for the settlement.

#### **49.111 Review of proposed settlements.**

Each agency shall establish procedures, when necessary, for the administrative review of proposed termination settlements. When one agency provides termination settlement services for another agency, the agency providing the services shall also perform the settlement review function.

**49.112 Payment.****49.112-1 Partial payments.**

(a) *General.* If the contract authorizes partial payments on settlement proposals before settlement, a prime contractor may request them on the form prescribed in 49.602-4 at any time after submission of interim or final settlement proposals. The Government will process applications for partial payments promptly. A subcontractor shall submit its application through the prime contractor which shall attach its own invoice and recommendations to the subcontractor's application. Partial payments to a subcontractor shall be made only through the prime contractor and only after the prime contractor has submitted its interim or final settlement proposal. Except for undelivered acceptable finished products, partial payments shall not be made for profit or fee claimed under the terminated portion of the contract. In exercising discretion on the extent of partial payments to be made, the TCO shall consider the diligence of the contractor in settling with subcontractors and in preparing its own settlement proposal.

(b) *Amount of partial payment.* Before approving any partial payment, the TCO shall obtain any desired accounting, engineering, or other specialized reviews of the data submitted in support of the contractor's settlement proposal. If the reviews and the TCO's examination of the data indicate that the requested partial payment is proper, reasonable payments may be authorized in the discretion of the TCO up to—

(1) 100 percent of the contract price, adjusted for undelivered acceptable items completed before the termination date, or later completed with the approval of the TCO (see 49.205);

(2) 100 percent of the amount of any subcontract settlement paid by the prime contractor if the settlement was approved or ratified by the TCO under 49.108-3(c) or was authorized under 49.108-4;

(3) 90 percent of the direct cost of termination inventory, including costs of raw materials, purchased parts, supplies, and direct labor;

(4) 90 percent of other allowable costs (including settlement expense and manufacturing and administrative indirect costs) allocable to the terminated portion of the contract and not included in paragraphs (b)(1), (2), or (3) of this section; and

(5) 100 percent of partial payments made to subcontractors under this section.

(c) *Recognition of assignments.* When an assignment of claims has been made under the contract, the Government shall not make partial payments to other than the assignee unless the parties to the assignment consent in writing (see 32.805(e)).

(d) *Security for partial payments.* If any partial payment is made for completed end items or for costs of termination inventory, the TCO shall protect the Government's interest.

This shall be done by obtaining title to the completed end items or termination inventory, or by the creation of a lien in favor of the Government, paramount to all other liens, on the completed end items or termination inventory, or by other appropriate means.

(e) *Deductions in computing amount of partial payments.* The TCO shall deduct from the gross amount of any partial payment otherwise payable under 49.112-1(b)—

(1) All unliquidated balances of progress and advance payments (including interest) made to the contractor, which are allocable to the terminated portion of the contract; and

(2) The amounts of all credits arising from the purchase, retention, or sale of property, the costs of which are included in the application for payment.

(f) *Limitation on total amount.* The total amount of all partial payments shall not exceed the amount that will, in the opinion of the TCO, become due to the contractor because of the termination.

(g) *Effect of overpayment.* If the total of partial payments exceeds the amount finally determined due on the settlement proposal, the contractor shall repay the excess to the Government on demand, together with interest. The interest shall be computed at the rate established by the Secretary of the Treasury under 50 U.S.C. App. 1215(b)(2) from the date the excess payment was received by the contractor to the date of repayment. However, interest will not be charged for any—

(1) Excess payment attributable to a reduction in the settlement proposal because of retention or other disposition of termination inventory, until 10 days after the date of the retention or disposition, or a later date determined by the TCO, or

(2) Overpayment under cost-reimbursement research and development contracts without profit or fee if the overpayments are repaid to the Government within 30 days after demand.

(h) *Certification and approval of partial payments.*

(1) The contractor shall place the following certification on vouchers or invoices for partial payments:

The payment covered by this voucher is a partial payment on the Contractor's settlement proposal under contract No. \_\_\_\_\_ under Part 49 of the Federal Acquisition Regulation.

(2) The TCO shall approve the invoice or voucher by noting on it the following:

Payment of \$ \_\_\_\_\_ is approved.

**49.112-2 Final payment.**

(a) *Negotiated settlement.* After execution of a settlement agreement, the contractor shall submit a voucher or invoice showing the amount agreed upon, less any portion previously paid. The TCO shall attach a copy of the settlement agreement

to the voucher or invoice and forward the documents to the disbursing officer for payment.

(b) *Settlement by determination.* If the settlement is by determination and—

(1) There is no appeal within the allowed time, the contractor shall submit a voucher or invoice showing the amount determined due, less any portion previously paid; or

(2) There is an appeal, the contractor shall submit a voucher or invoice showing the amount finally determined due on the appeal, less any portion previously paid. Pending determination of any appeal, the contractor may submit vouchers or invoices for charges that are not directly involved with the portion being appealed, without prejudice to the rights of either party on the appeal.

(c) *Construction contracts.* In the case of construction contracts, before forwarding the final payment voucher, the contracting officer shall ascertain whether there are any outstanding labor violations. If so, the contracting officer shall determine the amount to be withheld from the final payment (see Subpart 22.4).

(d) *Interest.* The Government shall not pay interest on the amount due under a settlement agreement or a settlement by determination. The Government may, however, pay interest on a successful contractor appeal from a contracting officer's determination under the Disputes clause at 52.233-1.

#### 49.113 Cost principles.

The cost principles and procedures in the applicable subpart of Part 31 shall, subject to the general principles in 49.201—

(a) Be used in asserting, negotiating, or determining costs relevant to termination settlements under contracts with other than educational institutions, and

(b) Be a guide for the negotiation of settlements under contracts for experimental, developmental, or research work with educational institutions (but see 31.104).

#### 49.114 Unsettled contract changes.

(a) Before settlement of a completely terminated contract, the TCO shall obtain from the contracting office a list of all related unsettled contract changes. The TCO shall settle, as part of final settlement, all unsettled contract changes after obtaining the recommendations of the contracting office concerning the changes.

(b) When the contract has been partially terminated, any outstanding unsettled contract changes will usually be handled by the contracting officer. However, the contracting officer may delegate this function to the TCO.

#### 49.115 Settlement of terminated incentive contracts.

(a) *Fixed-price incentive contracts.* The TCO shall settle terminated fixed-price incentive (FPI) contracts under the provisions of paragraph (j) of the clause at 52.216-16, Incentive Price Revision—Firm Target, and 52.249-2, Termination for Convenience of the Government (Fixed-Price).

(1) *Partial termination.* Under a partially terminated contract, the TCO shall negotiate a settlement as provided in the termination clause of the contract, and paragraph (j) of the clause at 52.216-16, Incentive Price Revision—Firm Target, or paragraph (1) of the clause at 52.216-17, Incentive Price Revision—Successive Targets. The contracting officer shall apply the incentive price revision provisions to completed items accepted by the Government, including any for which the contractor may request reimbursement in the settlement proposal. The TCO shall reimburse the contractor at target price for completed articles included in the settlement proposal for which a final price has not been established. The TCO shall incorporate in the settlement agreement an appropriate reservation as to final price for these completed articles.

(2) *Complete termination.* If any items were delivered and accepted by the Government, the contracting officer shall establish prices under the incentive provisions of the contract. On the terminated portion of the contract, the provisions of the termination clause (see 52.249-2, Termination for Convenience of the Government (Fixed-Price)) shall govern and the provisions of the incentive clause shall not apply. The TCO responsible for the termination settlement will ensure, on the basis of evidence considered proper (including coordination with the contracting officer), that no portion of the costs considered in the negotiations under the incentive provisions are included in the termination settlement.

(b) *Cost-plus-incentive-fee contracts.* The TCO shall settle terminated cost-plus-incentive-fee contracts under the clause at 52.249-6, Termination (Cost-Reimbursement).

(1) *Partial termination.* Under a partial termination, the TCO shall limit the settlement to an adjustment of target fee as provided in paragraph (e) of the clause at 52.216-10, Incentive Fee. The settlement agreement shall include a reservation regarding any adjustment of target cost resulting from the partial termination. The contracting officer shall adjust the target cost, if required.

(2) *Complete termination.* The parties shall negotiate the settlement under the provisions of Subpart 49.3 and the clause at 52.249-6, Termination (Cost Reimbursement). The fee shall be adjusted on the basis of the target fee, and the incentive provisions shall not be applied or considered.

## Subpart 49.2—Additional Principles for Fixed-Price Contracts Terminated for Convenience

### 49.201 General.

(a) A settlement should compensate the contractor fairly for the work done and the preparations made for the terminated portions of the contract, including a reasonable allowance for profit. Fair compensation is a matter of judgment and cannot be measured exactly. In a given case, various methods may be equally appropriate for arriving at fair compensation. The use of business judgment, as distinguished from strict accounting principles, is the heart of a settlement.

(b) The primary objective is to negotiate a settlement by agreement. The parties may agree upon a total amount to be paid the contractor without agreeing on or segregating the particular elements of costs or profit comprising this amount.

(c) Cost and accounting data may provide guides, but are not rigid measures, for ascertaining fair compensation. In appropriate cases, costs may be estimated, differences compromised, and doubtful questions settled by agreement. Other types of data, criteria, or standards may furnish equally reliable guides to fair compensation. The amount of recordkeeping, reporting, and accounting related to the settlement of terminated contracts should be kept to a minimum compatible with the reasonable protection of the public interest.

### 49.202 Profit.

(a) The TCO shall allow profit on preparations made and work done by the contractor for the terminated portion of the contract but not on the settlement expenses. Anticipatory profits and consequential damages shall not be allowed (but see 49.108-5). Profit for the contractor's efforts in settling subcontractor proposals shall not be based on the dollar amount of the subcontract settlement agreements but the contractor's efforts will be considered in determining the overall rate of profit allowed the contractor. Profit shall not be allowed the contractor for material or services that, as of the effective date of termination, have not been delivered by a subcontractor, regardless of the percentage of completion. The TCO may use any reasonable method to arrive at a fair profit.

(b) In negotiating or determining profit, factors to be considered include—

(1) Extent and difficulty of the work done by the contractor as compared with the total work required by the contract (engineering estimates of the percentage of completion ordinarily should not be required, but if available should be considered);

(2) Engineering work, production scheduling, planning, technical study and supervision, and other necessary services;

(3) Efficiency of the contractor, with particular regard to—

(i) Attainment of quantity and quality production;

(ii) Reduction of costs;

(iii) Economic use of materials, facilities, and manpower; and

(iv) Disposition of termination inventory;

(4) Amount and source of capital and extent of risk assumed;

(5) Inventive and developmental contributions, and cooperation with the Government and other contractors in supplying technical assistance;

(6) Character of the business, including the source and nature of materials and the complexity of manufacturing techniques;

(7) The rate of profit that the contractor would have earned had the contract been completed;

(8) The rate of profit both parties contemplated at the time the contract was negotiated; and

(9) Character and difficulty of subcontracting, including selection, placement, and management of subcontracts, and effort in negotiating settlements of terminated subcontracts.

(c) When computing profit on the terminated portion of a construction contract, the contracting officer shall—

(1) Comply with paragraphs (a) and (b) of this section;

(2) Allow profit on the prime contractor's settlements with construction subcontractors for actual work in place at the job site; and

(3) Exclude profit on the prime contractor's settlements with construction subcontractors for materials on hand and for preparations made to complete the work.

### 49.203 Adjustment for loss.

(a) In the negotiation or determination of any settlement, the TCO shall not allow profit if it appears that the contractor would have incurred a loss had the entire contract been completed. The TCO shall negotiate or determine the amount of loss and make an adjustment in the amount of settlement as specified in paragraph (b) or (c) of this section. In estimating the cost to complete, the TCO shall consider expected production efficiencies and other factors affecting the cost to complete.

(b) If the settlement is on an inventory basis (see 49.206-2(a)), the contractor shall not be paid more than the total of the amounts in paragraphs (b)(1), (2), and (3) of this section, less all disposal credits and all unliquidated advance and progress payments previously made under the contract:

(1) The amount negotiated or determined for settlement expenses.

(2) The contract price, as adjusted, for acceptable completed end items (see 49.205).

(3) The remainder of the settlement amount otherwise agreed upon or determined (including the allocable portion of initial costs (see 31.205-42(c)), reduced by multiplying the remainder by the ratio of—

(i) The total contract price to

(ii) The total cost incurred before termination plus the estimated cost to complete the entire contract.

(c) If the settlement is on a total cost basis (see 49.206-2(b)), the contractor shall not be paid more than the total of the amounts in paragraphs (c)(1) and (2) of this section, less all disposal and other credits, all advance and progress payments, and all other amounts previously paid under the contract:

(1) The amount negotiated or determined for settlement expenses.

(2) The remainder of the total settlement amount otherwise agreed upon or determined (lines 7 and 14 of SF 1436, Settlement Proposal (Total Cost Basis)) reduced by multiplying the remainder by the ratio of—

(i) The total contract price to

(ii) The remainder plus the estimated cost to complete the entire contract.

#### 49.204 Deductions.

From the amount payable to the contractor under a settlement, the TCO shall deduct—

(a) The agreed price for any part of the termination inventory purchased or retained by the contractor, and the proceeds from any materials sold that have not been paid or credited to the Government;

(b) The fair value, as determined by the TCO, of any part of the termination inventory that, before transfer of title to the Government or to a buyer under Part 45, is destroyed, lost, stolen, or so damaged as to become undeliverable (normal spoilage is excepted, as is inventory for which the Government has expressly assumed the risk of loss); and

(c) Any other amounts as appropriate in the particular case.

#### 49.205 Completed end items.

(a) Promptly after the effective date of termination, the TCO shall (1) have all undelivered completed end items inspected and accepted if they comply with the contract requirements, and (2) determine which accepted end items are to be delivered under the contract. The contractor shall invoice accepted and delivered end items at the contract price in the usual manner and shall not include them in the settlement proposal. When completed end items, though accepted, are not to be delivered under the contract, the contractor shall include them in the settlement proposal at the contract price, adjusted for any saving of freight or other charges, together with any credits for their purchase, retention, or sale.

(b) Work in place accepted by the Government under a construction contract is not considered a completed item even though that work may have been paid for at unit prices specified in the contract.

#### 49.206 Settlement proposals.

##### 49.206-1 Submission of settlement proposals.

(a) Subject to the provisions of the termination clause, the contractor should promptly submit to the TCO a settlement proposal for the amount claimed because of the termination. The final settlement proposal must be submitted within one year from the effective date of the termination, unless the period is extended by the TCO. Termination charges under a single prime contract involving two or more divisions or units of the prime contractor may be consolidated and included in a single settlement proposal.

(b) The settlement proposal must cover all cost elements including settlements with subcontractors and any proposed profit. With the consent of the TCO, proposals may be filed in successive steps covering separate portions of the contractor's costs. Such interim proposals shall include all costs of a particular type, except as the TCO may authorize otherwise.

(c) Settlement proposals must be on the forms prescribed in 49.602 unless the forms are inadequate for a particular contract. Settlement proposals must be in reasonable detail supported by adequate accounting data. Actual, standard (appropriately adjusted), or average costs may be used in preparing settlement proposals if they are determined under generally recognized accounting principles consistently followed by the contractor. When actual, standard, or average costs are not reasonably available, estimated costs may be used if the method of arriving at the estimates is approved by the TCO. Contractors shall not be required to maintain unduly elaborate cost accounting systems merely because their contracts may subsequently be terminated.

(d) The contractor may use the Settlement Proposal (Short Form), SF 1438 (see 49.602-1(d) and 53.249), when the total proposal is less than \$10,000, unless otherwise instructed by the TCO. Settlement proposals that would normally be included in a single settlement proposal; *e.g.*, those based on a series of separate orders for the same item under one contract, should be consolidated whenever possible and not divided to bring them below \$10,000.

(e) The Schedule of Accounting Information, SF 1439, must be submitted for each termination under a contract for which a settlement proposal is submitted, except when the Standard Form 1438 is used. Although several interim proposals may be submitted, SF 1439 need be submitted only once unless, subsequent to filing the original form, major changes occur in the information submitted.

##### 49.206-2 Bases for settlement proposals.

(a) *Inventory basis.* (1) Use of the inventory basis for settlement proposals is preferred. Under this basis, the contractor may propose only costs allocable to the terminated portion of the contract, and the settlement proposal must itemize separately—

(i) Metals, raw materials, purchased parts, work in process, finished parts, components, dies, jigs, fixtures, and tooling, at purchase or manufacturing cost;

(ii) Charges such as engineering costs, initial costs, and general administrative costs;

(iii) Costs of settlements with subcontractors;

(iv) Settlement expenses; and

(v) Other proper charges.

(2) An allowance for profit (49.202) or adjustment for loss (49.203(b)) must be made to complete the gross settlement proposal. All unliquidated advance and progress payments and all disposal and other credits known when the proposal is submitted must then be deducted.

(3) This inventory basis is also appropriate for use under the following circumstances:

(i) The partial termination of a construction or related professional services contract.

(ii) The partial or complete termination of supply orders under any terminated construction contract.

(iii) The complete termination of a unit-price (as distinguished from a lump-sum) professional services contract.

(b) *Total cost basis.* (1) When use of the inventory basis is not practicable or will unduly delay settlement, the total-cost basis (SF 1436) may be used if approved in advance by the TCO as in the following examples:

(i) If production has not commenced and the accumulated costs represent planning and preproduction or “get ready” expenses.

(ii) If, under the contractor’s accounting system, unit costs for work in process and finished products cannot readily be established.

(iii) If the contract does not specify unit prices.

(iv) If the termination is complete and involves a letter contract.

(2) When the total-cost basis is used under a complete termination, the contractor must itemize costs incurred under the contract up to the effective date of termination. The costs of settlements with subcontractors and applicable settlement expenses must also be added. An allowance for profit (49.202) or adjustment for loss (49.203(c)) must be made. The contract price for all end items delivered or to be delivered and accepted must be deducted. All unliquidated advance and progress payments and disposal and other credits known when the proposal is submitted must also be deducted.

(3) When the total-cost basis is used under a partial termination, the settlement proposal shall not be submitted until completion of the continued portion of the contract. The settlement proposal must be prepared as in paragraph (b)(2) of this section, except that all costs incurred to the date of completion of the continued portion of the contract must be included.

(4) If a construction contract or a lump-sum professional services contract is completely terminated, the contractor shall—

(i) Use the total cost basis of settlement;

(ii) Omit Line 10 “Deduct-Finished Product Invoiced or to be Invoiced” from Section II of SF 1436 Settlement Proposal (Total Cost Basis); and

(iii) Reduce the gross amount of the settlement by the total of all progress and other payments.

(c) *Other basis.* Settlement proposals may not be submitted on any basis other than paragraph (a) or (b) of this section without the prior approval of the chief of the contracting or contract administration office.

#### 49.206-3 Submission of inventory schedules.

Subject to the terms of the termination clause and whenever termination inventory is involved, the contractor shall submit complete inventory schedules, to the TCO, reflecting inventory that is allocable to the terminated portion of the contract. The inventory schedules shall be submitted within 120 days from the effective date of termination unless otherwise extended by the TCO based on a written justification to support the extension. The inventory schedules shall be prepared on the forms prescribed in 49.602-2 and in accordance with 45.606-5.

#### 49.207 Limitation on settlements.

The total amount payable to the contractor for a settlement, before deducting disposal or other credits and exclusive of settlement costs, must not exceed the contract price less payments otherwise made or to be made under the contract.

#### 49.208 Equitable adjustment after partial termination.

Under the termination clause, after partial termination, a contractor may request an equitable adjustment in the price or prices of the continued portion of a fixed-price contract. The TCO shall forward the proposal to the contracting officer except when negotiation authority is delegated to the TCO. The contractor shall submit the proposal in the format of Table 15-2 of 15.408.

(a) When the contracting officer retains responsibility for negotiating the equitable adjustment and executing a supplemental agreement, the contracting officer shall ensure that no portion of an increase in price is included in a termination settlement made or in process.

(b) The TCO shall also ensure that no portion of the costs included in the equitable adjustment are included in the termination settlement.

## **Subpart 49.3—Additional Principles for Cost-Reimbursement Contracts Terminated for Convenience**

### **49.301 General.**

Termination clauses for cost-reimbursement contracts (see 49.503(a)) provide for the settlement of costs and fee, if any. The contract clauses governing costs shall determine what costs are allowable.

### **49.302 Discontinuance of vouchers.**

(a) When the contract has been completely terminated, the contractor shall not use Standard Form 1034 (Public Voucher for Purchases and Services Other than Personal) after the last day of the sixth month following the month in which the termination is effective. The contractor may elect to stop using vouchers at any time during the 6-month period. When the contractor has vouchered out all costs within the 6-month period, a proposal for fee, if any, may be submitted on SF 1437 (see 49.602-1) or by letter appropriately certified. The contractor must submit a substantiated proposal for fee to the TCO within 1 year from the effective date of termination, unless the period is extended by the TCO. When the use of vouchers is discontinued, the contractor shall submit all unvouchered costs and the proposed fee, if any, as specified in 49.303.

(b) When the contract is partially terminated, 49.304 shall apply.

### **49.303 Procedure after discontinuing vouchers.**

#### **49.303-1 Submission of settlement proposal.**

The contractor shall submit a final settlement proposal covering unvouchered costs and any proposed fee to within 1 year from the effective date of termination, unless the period is extended by the TCO. The contractor shall use the form prescribed in 49.602-1, unless the TCO authorizes otherwise. The proposal shall not include costs that have been—

(a) Finally disallowed by the contracting officer; or

(b) Previously vouchered and formally questioned by the Government but not yet decided as to allowability.

#### **49.303-2 Submission of inventory schedules.**

Subject to the terms of the termination clause and whenever termination inventory is involved, the contractor shall submit complete inventory schedules, to the TCO, reflecting inventory that is allocable to the terminated portion of the contract. The inventory schedules shall be submitted within 120 days from the effective date of termination unless otherwise extended by the TCO based on a written justification to support the extension. The inventory schedules shall be prepared on the forms prescribed in 49.602-2 and in accordance with 45.606-5.

#### **49.303-3 Audit of settlement proposal.**

The TCO shall submit the settlement proposal to the appropriate audit agency for review (see 49.107). However, if the settlement proposal is limited to an adjustment of fee, no referral to the audit agency is required.

#### **49.303-4 Adjustment of indirect costs.**

(a) If the contract contains the clause at 52.216-7, Allowable Cost and Payment, and it appears that adjustment of indirect costs will unduly delay final settlement, the TCO, after obtaining information from the appropriate audit agency, may agree with the contractor to—

(1) Negotiate the amount of indirect costs for the contract period for which final indirect cost rates have not been negotiated, or to use billing rates as final rates for this period if the billing rates appear reasonable; or

(2) Reserve any indirect cost adjustment in the final settlement agreement, pending establishment of negotiated rates under Subpart 42.7.

(b) When an amount of indirect cost is negotiated under paragraph (a)(1) of this section, the contractor shall eliminate the indirect cost and the related direct costs on which it was based from the total pool and base used to compute indirect costs for other contracts performed during the applicable accounting period.

#### **49.303-5 Final settlement.**

(a) The TCO shall proceed with the settlement and execution of a settlement agreement upon receipt of the audit report, if applicable, and the contract audit closing statement covering vouchered costs.

(b) The TCO shall adjust the fee as provided in 49.305.

(c) The final settlement agreement may include all demands of the Government and proposals of the contractor under the terminated contract. However, no amount shall be allowed for any item of cost disallowed by the Government, nor for any other item of cost of the same nature.

(d) If an overall settlement of costs is agreed upon, agreement on each element of cost is not necessary. If appropriate, differences may be compromised and doubtful questions settled by agreement. An overall settlement shall not include costs that are clearly not allowable under the terms of the contract.

### **49.304 Procedure for partial termination.**

#### **49.304-1 General.**

(a) In a partial termination, the TCO shall limit the settlement to an adjustment of the fee, if any, and with the concurrence of the contracting office to a reduction in the estimated cost. The TCO shall adjust the fee as provided in 49.304-2 and 49.305, unless—

(1) The terminated portion is clearly severable from the balance of the contract; or

(2) Performance of the contract is virtually complete, or performance of any continued portion is only on subsidiary items or spare parts, or is otherwise not substantial.

(b) In the case of the exceptions in paragraph (a), the procedures in 49.302 and 49.303 apply.

#### **49.304-2 Submission of settlement proposal (fee only).**

The contractor shall limit the settlement proposal to a proposed reduction in the amount of fee. The final settlement proposal shall be submitted to the TCO within one year from the effective date of termination, unless the period is extended by the TCO. The proposal may be submitted in the form prescribed in 49.602-1 or by letter appropriately certified. The contractor shall substantiate the amount of fee claimed (see 49.305).

#### **49.304-3 Submission of vouchers.**

When a partial termination settlement is limited to adjustment of fee, the contractor shall continue to submit the SF 1034, Public Voucher for Purchases and Services Other than Personal, for costs reimbursable under the contract. The contractor shall not be reimbursed for costs of settlements with subcontractors unless required approvals or ratifications have been obtained (see 49.108).

#### **49.305 Adjustment of fee.**

##### **49.305-1 General.**

(a) The TCO shall determine the adjusted fee to be paid, if any, in the manner provided by the contract. The determination is generally based on a percentage of completion of the contract or of the terminated portion. When this basis is used, factors such as the extent and difficulty of the work performed by the contractor (*e.g.*, planning, scheduling, technical study, engineering work, production and supervision, placing and supervising subcontracts, and work performed by the contractor in (1) stopping performance, (2) settling terminated sub-

contracts, and (3) disposing of termination inventory) shall be compared with the total work required by the contract or by the terminated portion. The contractor's adjusted fee shall not include an allowance for fee for subcontract effort included in subcontractors' settlement proposals.

(b) The ratio of costs incurred to the total estimated cost of performing the contract or the terminated portion is only one factor in computing the percentage of completion. This percentage may be either greater or less than that indicated by the ratio of costs incurred, depending upon the evaluation by the TCO of other pertinent factors.

##### **49.305-2 Construction contracts.**

(a) The percentage of completion basis refers to the contractor's total effort and not solely to the actual construction work. Generally, the effort of a contractor under a cost-reimbursement construction or professional services contract can be segregated into factors such as—

- (1) Mobilization including organization,
- (2) Use of finances,
- (3) Contracting for and receipt of materials,
- (4) Placement of subcontracts,
- (5) Preparation of shop drawings,
- (6) Work in place performed by own forces,
- (7) Supervision of subcontractors' work,
- (8) Job administration, and
- (9) Demobilization.

(b) Each of the applicable factors in paragraph (a) of this section shall be assigned a weighted value depending on its importance and difficulty. The total weight value of all factors should be easily divisible (*e.g.*, by 100) to determine percentages. The percentage of completion of each factor must be established based upon the specific facts of each contract. When totaled, the percentage of completion of each factor applied to the weighted value of each factor results in the overall percentage of contract completion. The percentage of completion is then applied to the total contract fee or to the fee applicable to the terminated portion of the contract to arrive at an equitable adjustment.

## Subpart 49.4—Termination for Default

### 49.401 General.

(a) Termination for default is generally the exercise of the Government's contractual right to completely or partially terminate a contract because of the contractor's actual or anticipated failure to perform its contractual obligations.

(b) If the contractor can establish, or it is otherwise determined that the contractor was not in default or that the failure to perform is excusable; *i.e.*, arose out of causes beyond the control and without the fault or negligence of the contractor, the default clauses prescribed in 49.503 and located at 52.249 provide that a termination for default will be considered to have been a termination for the convenience of the Government, and the rights and obligations of the parties governed accordingly.

(c) The Government may, in appropriate cases, exercise termination or cancellation rights in addition to those in the contract clauses (see for example, paragraph (h) of the Default clause at 52.249-8).

(d) For default terminations of orders under Federal Supply Schedule contracts, see Subpart 8.4.

(e) Notwithstanding the provisions of this 49.401, the contracting officer may, with the written consent of the contractor, reinstate the terminated contract by amending the notice of termination, after a written determination is made that the supplies or services are still required and reinstatement is advantageous to the Government.

### 49.402 Termination of fixed-price contracts for default.

#### 49.402-1 The Government's right.

Under contracts containing the Default clause at 52.249-8, the Government has the right, subject to the notice requirements of the clause, to terminate the contract completely or partially for default if the contractor fails to—

(a) Make delivery of the supplies or perform the services within the time specified in the contract,

(b) Perform any other provision of the contract, or

(c) Make progress and that failure endangers performance of the contract.

#### 49.402-2 Effect of termination for default.

(a) Under a termination for default, the Government is not liable for the contractor's costs on undelivered work and is entitled to the repayment of advance and progress payments, if any, applicable to that work. The Government may elect, under the Default clause, to require the contractor to transfer title and deliver to the Government completed supplies and manufacturing materials, as directed by the contracting officer.

(b) The contracting officer shall not use the Default clause as authority to acquire any completed supplies or manufactur-

ing materials unless it has been ascertained that the Government does not already have title under some other provision of the contract. The contracting officer shall acquire manufacturing materials under the Default clause for furnishing to another contractor only after considering the difficulties the other contractor may have in using the materials.

(c) Subject to paragraph (d) of this section, the Government shall pay the contractor the contract price for any completed supplies, and the amount agreed upon by the contracting officer and the contractor for any manufacturing materials, acquired by the Government under the Default clause.

(d) The Government must be protected from overpayment that might result from failure to provide for the Government's potential liability to laborers and material suppliers for lien rights outstanding against the completed supplies or materials after the Government has paid the contractor for them. To accomplish this, before paying for supplies or materials, the contracting officer shall take one or more of the following measures:

(1) Ascertain whether the payment bonds, if any, furnished by the contractor are adequate to satisfy all lienors' claims or whether it is feasible to obtain similar bonds to cover outstanding liens.

(2) Require the contractor to furnish appropriate statements from laborers and material suppliers disclaiming any lien rights they may have to the supplies and materials.

(3) Obtain appropriate agreement by the Government, the contractor, and lienors ensuring release of the Government from any potential liability to the contractor or lienors.

(4) Withhold from the amount due for the supplies or materials any amount the contracting officer determines necessary to protect the Government's interest, but only if the measures in paragraphs (d)(1), (2), and (3) of this section cannot be accomplished or are considered inadequate.

(5) Take other appropriate action considering the circumstances and the degree of the contractor's solvency.

(e) The contractor is liable to the Government for any excess costs incurred in acquiring supplies and services similar to those terminated for default (see 49.402-6), and for any other damages, whether or not repurchase is effected (see 49.402-7).

#### 49.402-3 Procedure for default.

(a) When a default termination is being considered, the Government shall decide which type of termination action to take (*i.e.*, default, convenience, or no-cost cancellation) only after review by contracting and technical personnel, and by counsel, to ensure the propriety of the proposed action.

(b) The administrative contracting officer shall not issue a show cause notice or cure notice without the prior approval of the contracting office, which should be obtained by the most expeditious means.

(c) Subdivision (a)(1)(i) of the Default clause covers situations when the contractor has defaulted by failure to make delivery of the supplies or to perform the services within the specified time. In these situations, no notice of failure or of the possibility of termination for default is required to be sent to the contractor before the actual notice of termination (but see paragraph (e) of this section). However, if the Government has taken any action that might be construed as a waiver of the contract delivery or performance date, the contracting officer shall send a notice to the contractor setting a new date for the contractor to make delivery or complete performance. The notice shall reserve the Government's rights under the Default clause.

(d) Subdivisions (a)(1)(ii) and (a)(1)(iii) of the Default clause cover situations when the contractor fails to perform some of the other provisions of the contract (such as not furnishing a required performance bond) or so fails to make progress as to endanger performance of the contract. If the termination is predicated upon this type of failure, the contracting officer shall give the contractor written notice specifying the failure and providing a period of 10 days (or longer period as necessary) in which to cure the failure. When appropriate, this notice may be made a part of the notice described in paragraph (e)(1) of this section. Upon expiration of the 10 days (or longer period), the contracting officer may issue a notice of termination for default unless it is determined that the failure to perform has been cured. A format for a cure notice is in 49.607.

(e)(1) If termination for default appears appropriate, the contracting officer should, if practicable, notify the contractor in writing of the possibility of the termination. This notice shall call the contractor's attention to the contractual liabilities if the contract is terminated for default, and request the contractor to show cause why the contract should not be terminated for default. The notice may further state that failure of the contractor to present an explanation may be taken as an admission that no valid explanation exists. When appropriate, the notice may invite the contractor to discuss the matter at a conference. A format for a show cause notice is in 49.607.

(2) When a termination for default appears imminent, the contracting officer shall provide a written notification to the surety. If the contractor is subsequently terminated for default, a copy of the notice of default shall be sent to the surety.

(3) If requested by the surety, and agreed to by the contractor and any assignees, arrangements may be made to have future checks mailed to the contractor in care of the surety. In this case, the contractor must forward a written request to the designated disbursing officer specifically directing a change in address for mailing checks.

(4) If the contractor is a small business firm, the contracting officer shall immediately provide a copy of any cure notice or show cause notice to the contracting officer's small business specialist and the Small Business Administration Regional Office nearest the contractor. The contracting officer should, whenever practicable, consult with the small business specialist before proceeding with a default termination (see also 49.402-4).

(f) The contracting officer shall consider the following factors in determining whether to terminate a contract for default:

(1) The terms of the contract and applicable laws and regulations.

(2) The specific failure of the contractor and the excuses for the failure.

(3) The availability of the supplies or services from other sources.

(4) The urgency of the need for the supplies or services and the period of time required to obtain them from other sources, as compared with the time delivery could be obtained from the delinquent contractor.

(5) The degree of essentiality of the contractor in the Government acquisition program and the effect of a termination for default upon the contractor's capability as a supplier under other contracts.

(6) The effect of a termination for default on the ability of the contractor to liquidate guaranteed loans, progress payments, or advance payments.

(7) Any other pertinent facts and circumstances.

(g) If, after compliance with the procedures in paragraphs (a) through (f) of this 49.402-3, the contracting officer determines that a termination for default is proper, the contracting officer shall issue a notice of termination stating—

(1) The contract number and date;

(2) The acts or omissions constituting the default;

(3) That the contractor's right to proceed further under the contract (or a specified portion of the contract) is terminated;

(4) That the supplies or services terminated may be purchased against the contractor's account, and that the contractor will be held liable for any excess costs;

(5) If the contracting officer has determined that the failure to perform is not excusable, that the notice of termination constitutes such decision, and that the contractor has the right to appeal such decision under the Disputes clause;

(6) That the Government reserves all rights and remedies provided by law or under the contract, in addition to charging excess costs; and

(7) That the notice constitutes a decision that the contractor is in default as specified and that the contractor has the right to appeal under the Disputes clause.

(h) The contracting officer shall make the same distribution of the termination notice as was made of the contract. A

copy shall also be furnished to the contractor's surety, if any, when the notice is furnished to the contractor. The surety should be requested to advise if it desires to arrange for completion of the work. In addition, the contracting officer shall notify the disbursing officer to withhold further payments under the terminated contract, pending further advice, which should be furnished at the earliest practicable time.

(i) In the case of a construction contract, promptly after issuance of the termination notice, the contracting officer shall determine the manner in which the work is to be completed and whether the materials, appliances, and plant that are on the site will be needed.

(j) If the contracting officer determines before issuing the termination notice that the failure to perform is excusable, the contract shall not be terminated for default. If termination is in the Government's interest, the contracting officer may terminate the contract for the convenience of the Government.

(k) If the contracting officer has not been able to determine, before issuance of the notice of termination whether the contractor's failure to perform is excusable, the contracting officer shall make a written decision on that point as soon as practicable after issuance of the notice of termination. The decision shall be delivered promptly to the contractor with a notification that the contractor has the right to appeal as specified in the Disputes clause.

#### **49.402-4 Procedure in lieu of termination for default.**

The following courses of action, among others, are available to the contracting officer in lieu of termination for default when in the Government's interest:

(a) Permit the contractor, the surety, or the guarantor, to continue performance of the contract under a revised delivery schedule.

(b) Permit the contractor to continue performance of the contract by means of a subcontract or other business arrangement with an acceptable third party, provided the rights of the Government are adequately preserved.

(c) If the requirement for the supplies and services in the contract no longer exists, and the contractor is not liable to the Government for damages as provided in 49.402-7, execute a no-cost termination settlement agreement using the formats in 49.603-6 and 49.603-7 as a guide.

#### **49.402-5 Memorandum by the contracting officer.**

When a contract is terminated for default or a procedure authorized by 49.402-4 is followed, the contracting officer shall prepare a memorandum for the contract file explaining the reasons for the action taken.

#### **49.402-6 Repurchase against contractor's account.**

(a) When the supplies or services are still required after termination, the contracting officer shall repurchase the same or similar supplies or services against the contractor's account as

soon as practicable. The contracting officer shall repurchase at as reasonable a price as practicable, considering the quality and delivery requirements. The contracting officer may repurchase a quantity in excess of the undelivered quantity terminated for default when the excess quantity is needed, but excess cost may not be charged against the defaulting contractor for more than the undelivered quantity terminated for default (including variations in quantity permitted by the terminated contract). Generally, the contracting officer will make a decision whether or not to repurchase before issuing the termination notice.

(b) If the repurchase is for a quantity not over the undelivered quantity terminated for default, the Default clause authorizes the contracting officer to use any terms and acquisition method deemed appropriate for the repurchase. However, the contracting officer shall obtain competition to the maximum extent practicable for the repurchase. The contracting officer shall cite the Default clause as the authority. If the repurchase is for a quantity over the undelivered quantity terminated for default, the contracting officer shall treat the entire quantity as a new acquisition.

(c) If repurchase is made at a price over the price of the supplies or services terminated, the contracting officer shall, after completion and final payment of the repurchase contract, make written demand on the contractor for the total amount of the excess, giving consideration to any increases or decreases in other costs such as transportation, discounts, etc. If the contractor fails to make payment, the contracting officer shall follow the procedures in Subpart 32.6 for collecting contract debts due the Government.

#### **49.402-7 Other damages.**

(a) If the contracting officer terminates a contract for default or follows a course of action instead of termination for default (see 49.402-4), the contracting officer promptly must assess and demand any liquidated damages to which the Government is entitled under the contract. Under the contract clause at 52.211-11, these damages are in addition to any excess repurchase costs.

(b) If the Government has suffered any other ascertainable damages, including administrative costs, as a result of the contractor's default, the contracting officer must, on the basis of legal advice, take appropriate action as prescribed in Subpart 32.6 to assert the Government's demand for the damages.

#### **49.403 Termination of cost-reimbursement contracts for default.**

(a) The right to terminate a cost-reimbursement contract for default is provided for in the Termination for Default or for Convenience of the Government clause at 52.249-6. A 10-day notice to the contractor before termination for default is required in every case by the clause.

(b) Settlement of a cost-reimbursement contract terminated for default is subject to the principles in Subparts 49.1 and 49.3 the same as when a contract is terminated for convenience, except that—

(1) The costs of preparing the contractor's settlement proposal are not allowable (see paragraph (h)(3) of the clause); and

(2) The contractor is reimbursed the allowable costs, and an appropriate reduction is made in the total fee, if any, (see paragraph (h)(4) of the clause).

(c) The contracting officer shall use the procedures in 49.402 to the extent appropriate in considering the termination for default of a cost-reimbursement contract. However, a cost-reimbursement contract does not contain any provision for recovery of excess repurchase costs after termination for default (but see paragraph (g) of the clause at 52.246-3 with respect to failure of the contractor to replace or correct defective supplies).

#### **49.404 Surety-takeover agreements.**

(a) The procedures in this section apply primarily, but not solely, to fixed-price construction contracts terminated for default.

(b) Since the surety is liable for damages resulting from the contractor's default, the surety has certain rights and interests in the completion of the contract work and application of any undisbursed funds. Therefore, the contracting officer must consider carefully the surety's proposals for completing the contract. The contracting officer must take action on the basis of the Government's interest, including the possible effect upon the Government's rights against the surety.

(c) The contracting officer should permit surety offers to complete the contract, unless the contracting officer believes that the persons or firms proposed by the surety to complete the work are not competent and qualified or the proposal is not in the best interest of the Government.

(d) There may be conflicting demands for the defaulting contractor's assets, including unpaid prior earnings (retained percentages and unpaid progress estimates). Therefore, the surety may include a "takeover" agreement in its proposal, fixing the surety's rights to payment from those funds. The contracting officer may (but not before the effective date of termination) enter into a written agreement with the surety. The contracting officer should consider using a tripartite agreement among the Government, the surety, and the defaulting contractor to resolve the defaulting contractor's residual rights, including assertions to unpaid prior earnings.

(e) Any takeover agreement must require the surety to complete the contract and the Government to pay the surety's costs and expenses up to the balance of the contract price

unpaid at the time of default, subject to the following conditions:

(1) Any unpaid earnings of the defaulting contractor, including retained percentages and progress estimates for work accomplished before termination, must be subject to debts due the Government by the contractor, except to the extent that the unpaid earnings may be used to pay the completing surety its actual costs and expenses incurred in the completion of the work, but not including its payments and obligations under the payment bond given in connection with the contract.

(2) The surety is bound by contract terms governing liquidated damages for delays in completion of the work, unless the delays are excusable under the contract.

(3) If the contract proceeds have been assigned to a financing institution, the surety must not be paid from unpaid earnings, unless the assignee provides written consent.

(4) The contracting officer must not pay the surety more than the amount it expended completing the work and discharging its liabilities under the defaulting contractor's payment bond. Payments to the surety to reimburse it for discharging its liabilities under the payment bond of the defaulting contractor must be only on authority of—

(i) Mutual agreement among the Government, the defaulting contractor, and the surety;

(ii) Determination of the Comptroller General as to payee and amount; or

(iii) Order of a court of competent jurisdiction.

#### **49.405 Completion by another contractor.**

If the surety does not arrange for completion of the contract, the contracting officer normally will arrange for completion of the work by awarding a new contract based on the same plans and specifications. The new contract may be the result of sealed bidding or any other appropriate contracting method or procedure. The contracting officer shall exercise reasonable diligence to obtain the lowest price available for completion.

#### **49.406 Liquidation of liability.**

(1) The contract provides that the contractor and the surety are liable to the Government for resultant damages. The contracting officer shall use all retained percentages of progress payments previously made to the contractor and any progress payments due for work completed before the termination to liquidate the contractor's and the surety's liability to the Government. If the retained and unpaid amounts are insufficient, the contracting officer shall take steps to recover the additional sum from the contractor and the surety.

## Subpart 49.5—Contract Termination Clauses

### 49.501 General.

This subpart prescribes the principal contract termination clauses. This subpart does not apply to contracts that use the clause at 52.213-4, Terms and Conditions—Simplified Acquisitions (Other Than Commercial Items). For contracts for the acquisition of commercial items, this part provides administrative guidance which may be followed when it is consistent with the requirements and procedures in the clause at 52.212-4, Contract Terms and Conditions—Commercial Items. In appropriate cases, agencies may authorize the use of special purpose clauses, if consistent with this chapter.

### 49.502 Termination for convenience of the Government.

(a) *Fixed-price contracts of \$100,000 or less (short form)*—(1) *General use.* The contracting officer shall insert the clause at 52.249-1, Termination for Convenience of the Government (Fixed-Price) (Short Form), in solicitations and contracts when a fixed-price contract is contemplated and the contract amount is expected to be \$100,000 or less, except—

(i) If use of the clause at 52.249-4, Termination for Convenience of the Government (Services) (Short Form) is appropriate,

(ii) In contracts for research and development work with an educational or nonprofit institution on a no-profit basis,

(iii) In contracts for architect-engineer services, or

(iv) If one of the clauses prescribed or cited at 49.505(a), (b), or (e), is appropriate.

(2) *Dismantling and demolition.* If the contract is for dismantling, demolition, or removal of improvements, the contracting officer shall use the clause with its Alternate I.

(b) *Fixed-price contracts over \$100,000*—(1)(i) *General use.* The contracting officer shall insert the clause at 52.249-2, Termination for Convenience of the Government (Fixed-Price), in solicitations and contracts when a fixed-price contract is contemplated and the contract amount is expected to be over \$100,000, except in contracts for —

(A) Dismantling and demolition,

(B) Research and development work with an educational or nonprofit institution on a no-profit basis, or

(C) Architect-engineer services; it shall not be used if the clause at 52.249-4, Termination for Convenience of the Government (Services) (Short Form), is appropriate (see 49.502(c)), or one of the clauses prescribed or cited at 49.505(a), (b), or (e), is appropriate.

(2) *Construction.* If the contract is for construction, the contracting officer shall use the clause with its Alternate I.

(i) *Partial payments.* If the contract is with an agency of the U.S. Government or with State, local, or foreign governments or their agencies, and if the contracting officer determines that the requirement to pay interest on excess par-

tial payments is inappropriate, the contracting officer shall use the clause with its Alternate II. In such contracts for construction, the contracting officer shall use the clause with its Alternate III.

(ii) *Dismantling and demolition.* The contracting officer shall insert the clause at 52.249-3, Termination for Convenience of the Government (Dismantling, Demolition, or Removal of Improvements) in solicitations and contracts for dismantling, demolition, or removal of improvements, when a fixed-price contract is contemplated and the contract amount is expected to be over \$100,000. If the contract is with an agency of the U.S. Government or with State, local, or foreign governments or their agencies, and if the contracting officer determines that the requirement to pay interest on excess partial payments is inappropriate, the contracting officer shall use the clause with its Alternate I.

(c) *Service contracts (short form).* The contracting officer shall insert the clause at 52.249-4, Termination for Convenience of the Government (Services) (Short Form), in solicitations and contracts for services, regardless of value, when a fixed-price contract is contemplated and the contracting officer determines that because of the kind of services required, the successful offeror will not incur substantial charges in preparation for and in carrying out the contract, and would, if terminated for the convenience of the Government, limit termination settlement charges to services rendered before the date of termination. Examples of services where this clause may be appropriate are contracts for rental of unreserved parking space, laundry and dry cleaning, etc.

(d) *Research and development contracts.* The contracting officer shall insert the clause at 52.249-5, Termination for the Convenience of the Government (Educational and Other Nonprofit Institutions), in solicitations and contracts when either a fixed-price or cost-reimbursement contract is contemplated for research and development work with an educational or nonprofit institution on a nonprofit or no-fee basis.

(e) *Subcontracts*—(1) *General use.* The prime contractor may find the clause at 52.249-1, Termination for Convenience of the Government (Fixed-Price) (Short Form), or at 52.249-2, Termination for Convenience of the Government (Fixed-Price), as appropriate, suitable for use in fixed-price subcontracts, except as noted in paragraph (e)(2) of this section; provided, that the relationship between the contractor and subcontractor is clearly indicated. Inapplicable conditions (e.g., paragraph (d)) in 52.249-2 should be deleted and the periods reduced for submitting the subcontractor's termination settlement proposal (e.g., 6 months), and for requesting an equitable price adjustment (e.g., 45 days).

(2) *Research and development.* The prime contractor may find the clause at 52.249-5, Termination for the Convenience of the Government (Educational and Other Nonprofit Institutions), suitable for use in subcontracts placed with educational or nonprofit institutions on a no-profit or no-fee

basis; provided, that the relationship between the contractor and subcontractor is clearly indicated. Inapplicable conditions (e.g., paragraph (h)) should be deleted, the period for submitting the subcontractor's termination settlement proposal should be reduced (e.g., 6 months), the subcontract should be placed on a no-profit or no-fee basis, and the subcontract should incorporate or be negotiated on the basis of the cost principles in Part 31 of the Federal Acquisition Regulation.

#### **49.503 Termination for convenience of the Government and default.**

(a) *Cost-reimbursement contracts*—(1) *General use*. Insert the clause at 52.249-6, Termination (Cost-Reimbursement), in solicitations and contracts when a cost-reimbursement contract is contemplated, except contracts for research and development with an educational or nonprofit institution on a no-fee basis.

(2) *Construction*. If the contract is for construction, the contracting officer shall use the clause with its Alternate I.

(3) *Partial payments*. If the contract is with an agency of the U.S. Government or with State, local, or foreign governments or their agencies, and if the contracting officer determines that the requirement to pay interest on excess partial payments is inappropriate, the contracting officer shall use the clause with its Alternate II. In such contracts for construction, the contracting officer shall use the clause with its Alternate III.

(4) *Time-and-material and labor-hour contracts*. If the contract is a time-and-material or labor-hour contract, the contracting officer shall use the clause with its Alternate IV. If the contract is with an agency of the U.S. Government or with State, local, or foreign governments or their agencies, and if the contracting officer determines that the requirement to pay interest on excess partial payments is inappropriate, the contracting officer shall use the clause with its Alternate V.

(b) Insert the clause at 52.249-7, Termination (Fixed-Price Architect-Engineer), in solicitations and contracts for architect-engineer services, when a fixed-price contract is contemplated.

(c) *Subcontracts*. The prime contractor may find the clause at 52.249-6, Termination (Cost-Reimbursement), suitable for use in cost-reimbursement subcontracts; provided, that the relationship between the contractor and subcontractor is clearly indicated. Inapplicable conditions (e.g., paragraphs (e), (j) and (n)) should be deleted and the period for submitting the subcontractor's termination settlement proposal should be reduced (e.g., 6 months).

#### **49.504 Termination of fixed-price contracts for default.**

(a)(1) *Supplies and services*. The contracting officer shall insert the clause at 52.249-8, Default (Fixed-Price Supply and Service), in solicitations and contracts when a fixed-price

contract is contemplated and the contract amount is expected to exceed the simplified acquisition threshold. The contracting officer may use the clause when the contract amount is at or below the simplified acquisition threshold, if appropriate (e.g., if the acquisition involves items with a history of unsatisfactory quality).

(2) *Transportation*. If the contract is for transportation or transportation-related services, the contracting officer shall use the clause with its Alternate I.

(b) *Research and development*. The contracting officer shall insert the clause at 52.249-9, Default (Fixed-Price Research and Development), in solicitations and contracts for research and development when a fixed-price contract is contemplated and the contract amount is expected to exceed the simplified acquisition threshold, except those with educational or nonprofit institutions on a no-profit basis. The contracting officer may use the clause when the contract amount is at or below the simplified acquisition threshold, if appropriate (e.g., if the contracting officer believes that key personnel essential to the work may be devoted to other programs).

(c)(1) *Construction*. The contracting officer shall insert the clause at 52.249-10, Default (Fixed-Price Construction), in solicitations and contracts for construction, when a fixed-price contract is contemplated and the contract amount is expected to exceed the simplified acquisition threshold. The contracting officer may use the clause when the contract amount is at or below the simplified acquisition threshold, if appropriate (e.g., if completion dates are essential).

(2) *Dismantling and demolition*. If the contract is for dismantling, demolition, or removal of improvements, the contracting officer shall use the clause with its Alternate I.

(3) *National emergencies*. If the contract is to be awarded during a period of national emergency, the contracting officer may use the clause—

(i) With its Alternate II when a fixed-price contract for construction is contemplated, or

(ii) With its Alternate III when a contract for dismantling, demolition, or removal of improvements is contemplated.

#### **49.505 Other termination clauses.**

(a) *Facilities*. The contracting officer shall insert the clause at 52.249-11, Termination of Work (Consolidated Facilities or Facilities Acquisition), in consolidated facilities contracts and facilities acquisition contracts. If the contract is with an agency of the U.S. Government or with State, local, or foreign governments or their agencies, and if the contracting officer determines that the requirement to pay interest on excess partial payments is inappropriate, the contracting officer shall use the clause with its Alternate I.

(b) *Personal service contracts*. The contracting officer shall insert the clause at 52.249-12, Termination (Personal

Services), in solicitations and contracts for personal services (see Part 37).

(c) *Failure to perform.* The contracting officer shall insert the clause at 52.249-13, Failure to Perform, in facilities contracts, except facilities use contracts with nonprofit educational institutions.

(d) *Excusable delays.* The contracting officer shall insert the clause at 52.249-14, Excusable Delays, in solicitations and contracts for supplies, services, construction, and research and development on a fee basis, when a cost-reimbursement contract is contemplated. The contracting officer

shall also insert the clause in time-and-material contracts, labor-hour contracts, consolidated facilities contracts, and facilities acquisition contracts.

(e) *Communication service contracts.* This regulation does not prescribe a clause for the cancellation or termination of orders under communication service contracts with common carriers because of special agency requirements that apply to these services. An appropriate clause, however, shall be prescribed at agency level, within those agencies contracting for these services.

## Subpart 49.6—Contract Termination Forms and Formats

### 49.601 Notice of termination for convenience.

(See 49.402-3(g) for notice of termination for default.)

#### 49.601-1 Telegraphic notice.

(a) *Complete termination.* The following telegraphic notice is suggested for use if a supply contract is being completely terminated for convenience. If appropriately modified, the notice may be used for other than supply contracts.

Date \_\_\_\_\_

XYZ Corporation  
New York, NY 12345

Contract No. \_\_\_\_\_ is completely terminated under clause \_\_\_\_\_, effective \_\_\_\_\_ [insert “immediately” or “on \_\_\_\_\_, 20\_\_\_\_,” or “as soon as you have delivered, including prior deliveries, the following items:” (list)]. Immediately stop all work, terminate subcontracts, and place no further orders except to the extent [insert if applicable “necessary to complete items not terminated or”] that you or a subcontractor wish to retain and continue for your own account any work-in-process or other materials. Telegraph similar instructions to all subcontractors and suppliers. Detailed instructions follow.

\_\_\_\_\_  
(Contracting Officer)

(b) *Partial termination.* The following telegraphic notice is suggested for use if a supply contract is being partially terminated for convenience. If appropriately modified, the notice may be used for other than supply contracts.

Date \_\_\_\_\_

XYZ Corporation  
New York, NY 12345

Contract No. \_\_\_\_\_ is partially terminated under clause \_\_\_\_\_, effective \_\_\_\_\_ [insert “immediately” or “on \_\_\_\_\_, 20\_\_\_\_”]. Reduce items to be delivered as follows: [insert instructions]. Immediately stop all work, terminate subcontracts, and place no further orders except as necessary to perform the portion not terminated or that you or a subcontractor wish to retain and continue for your account any work-in-process or other materials. Telegraph similar instructions to all subcontractors and suppliers. Detailed instructions follow.

\_\_\_\_\_  
(Contracting Officer)

#### 49.601-2 Letter notice.

The following letter notice of termination is suggested for use if a contract for supplies is being terminated for convenience.

With appropriate modifications, it may be used in terminating contracts for other than supplies and in terminating subcontracts. This notice shall be sent by certified mail, return receipt requested. If no prior telegraphic notice was issued, use the alternate notice that follows this notice.

#### NOTICE OF TERMINATION TO PRIME CONTRACTORS

[At the top of the notice, set out all special details relating to the particular termination; e.g., name and address of company, contract number of terminated contract, items, etc.]

(a) *Effective date of termination.* This confirms the Government’s telegram to you dated \_\_\_\_\_, 20\_\_\_\_, terminating \_\_\_\_\_ [insert “completely” or “in part”] Contract No. \_\_\_\_\_ (referred to as “the contract”) for the Government’s convenience under the clause entitled \_\_\_\_\_ [insert title of appropriate termination clause]. The termination is effective on the date and in the manner stated in the telegram.

(b) *Cessation of work and notification to immediate subcontractors.* You shall take the following steps:

(1) Stop all work, make no further shipments, and place no further orders relating to the contract, except for—

(i) The continued portion of the contract, if any;

(ii) Work-in-process or other materials that you may wish to retain for your own account; or

(iii) Work-in-process that the Contracting Officer authorizes you to continue (A) for safety precautions, (B) to clear or avoid damage to equipment, (C) to avoid immediate complete spoilage of work-in-process having a definite commercial value, or (D) to prevent any other undue loss to the Government. (If you believe this authorization is necessary or advisable, immediately notify the Contracting Officer by telephone or personal conference and obtain instructions.)

(2) Keep adequate records of your compliance with paragraph (b)(1) of this section showing the—

(i) Date you received the Notice of Termination;

(ii) Effective date of the termination; and

(iii) Extent of completion of performance on the effective date.

(3) Furnish notice of termination to each immediate subcontractor and supplier that will be affected by this termination. In the notice—

(i) Specify your Government contract number;

(ii) State whether the contract has been terminated completely or partially;

(iii) Provide instructions to stop all work, make no further shipments, place no further orders, and terminate all subcontracts under the contract, subject to the exceptions in paragraph (b)(1) of this section;

(iv) Provide instructions to submit any settlement proposal promptly; and

(v) Request that similar notices and instructions be given to its immediate subcontractors.

(4) Notify the Contracting Officer of all pending legal proceedings that are based on subcontracts or purchase orders under the contract, or in which a lien has been or may be placed against termination inventory to be reported to the Government. Also, promptly notify the Contracting Officer of any such proceedings that are filed after receipt of this Notice.

(5) Take any other action required by the Contracting Officer or under the Termination clause in the contract.

(c) *Termination inventory.* (1) As instructed by the Contracting Officer, transfer title and deliver to the Government all termination inventory of the following types or classes, including subcontractor termination inventory that you have the right to take: [Contracting Officer insert proper identification or "None"].

(2) To settle your proposal, it will be necessary to establish that all prime and subcontractor termination inventory has been properly accounted for. For detailed information, see Part 45.

(d) *Settlements with subcontractors.* You remain liable to your subcontractors and suppliers for proposals arising because of the termination of their subcontracts or orders. You are requested to settle these settlement proposals as promptly as possible. For purposes of reimbursement by the Government, settlements will be governed by the provisions of Part 49.

(e) *Completed end items.* (1) Notify the Contracting Officer of the number of items completed under the contract and still on hand and arrange for their delivery or other disposal (see 49.205).

(2) Invoice acceptable completed end items under the contract in the usual way and do not include them in the settlement proposal.

(f) *Patents.* If required by the contract, promptly forward the following to the Contracting Officer:

(1) Disclosure of all inventions, discoveries, and patent applications made in the performance of the contract.

(2) Instruments of license or assignment on all inventions, discoveries, and patent applications made in the performance of the contract.

(g) *Employees affected.* (1) If this termination, together with other outstanding terminations, will necessitate a significant reduction in your work force, you are urged to—

(i) Promptly inform the local State Employment Service of your reduction-in-force schedule in numbers and occupations, so that the Service can take timely action in assisting displaced workers;

(ii) Give affected employees maximum practical advance notice of the employment reduction and inform them of the facilities and services available to them through the local State Employment Service offices;

(iii) Advise affected employees to file applications with the State Employment Service to qualify for unemployment insurance, if necessary;

(iv) Inform officials of local unions having agreements with you of the impending reduction-in-force; and

(v) Inform the local Chamber of Commerce and other appropriate organizations which are prepared to offer practical assistance in finding employment for displaced workers of the impending reduction-in-force.

(2) If practicable, urge subcontractors to take similar actions to those described in paragraph (1) of this section.

(h) *Administrative.* The contract administration office named in the contract will identify the Contracting Officer who will be in charge of the settlement of this termination and who will, upon request, provide the necessary settlement forms. Matters not covered by this notice should be brought to the attention of the undersigned.

(i) Please acknowledge receipt of this notice as provided below.

\_\_\_\_\_  
(Contracting Officer)

\_\_\_\_\_  
(Name of Office)

\_\_\_\_\_  
(Address)

#### ACKNOWLEDGMENT OF NOTICE

The undersigned acknowledges receipt of a signed copy of this notice on \_\_\_\_\_, 20\_\_\_\_. Two signed copies of this notice are returned.

\_\_\_\_\_  
(Name of Contractor)

By \_\_\_\_\_  
(Name)

\_\_\_\_\_  
(Title)  
(End of notice)

*Alternate notice.* If no prior telegraphic notice was issued, substitute the following paragraph (a) for paragraph (a) of the notice above:

(a) *Effective date of termination.* You are notified that Contract No. \_\_\_\_\_ (referred to as "the contract") is terminated \_\_\_\_\_ [insert "completely" or "in part"] for the Government's convenience under the clause entitled \_\_\_\_\_ [insert title of appropriate termination clause]. The termination is effective \_\_\_\_\_ [insert either "immediately upon receipt of this Notice" or "on \_\_\_\_\_, 20\_\_\_\_," or "as soon as you have delivered, including prior deliveries, the following items:" (list)]. Reduce items to be delivered as follows: [insert instructions].

#### 49.602 Forms for settlement of terminated contracts.

The standard forms listed below shall be used for settling terminated prime contracts. The forms at 49.602-1 and 49.602-2 may also be used for settling terminated subcontracts. Standard forms are illustrated in Subpart 53.3.

**49.602-1 Termination settlement proposal forms.**

(a) Standard Form 1435, Settlement Proposal (Inventory Basis), shall be used to submit settlement proposals resulting from the termination of fixed-price contracts if the proposals are computed on an inventory basis (see 49.206-2(a)).

(b) Standard Form 1436, Settlement Proposal (Total Cost Basis), shall be used to submit settlement proposals resulting from the termination of fixed-price contracts if the proposals are computed on a total cost basis (see 49.206-2(b)).

(c) Standard Form 1437, Settlement Proposal for Cost-Reimbursement Type Contracts, shall be used to submit settlement proposals resulting from the termination of cost-reimbursement contracts (see 49.302).

(d) Standard Form 1438, Settlement Proposal (Short Form), shall be used to submit settlement proposals resulting from the termination of fixed-price contracts if the total proposal is less than \$10,000 (see 49.206-1(d)).

**49.602-2 Inventory schedule forms.**

The following forms shall be used to support settlement proposals submitted on the forms specified in 49.602-1(a), (b), and (c) (see 45.606):

(a) Standard Form 1426, Inventory Schedule A (Metals in Mill Product Form), and Standard Form 1427, Inventory Schedule A—Continuation Sheet (Metals in Mill Product Form).

(b) Standard Form 1428, Inventory Schedule B, and Standard Form 1429, Inventory Schedule B—Continuation Sheet (used for reporting raw materials, purchased parts, finished components, finished product, plant equipment, and miscellaneous inventory).

(c) Standard Form 1430, Inventory Schedule C—(Work-in-Process), and Standard Form 1431, Inventory Schedule C—Continuation Sheet (Work-in-Process).

(d) Standard Form 1432, Inventory Schedule D (Special Tooling and Special Test Equipment), and Standard Form 1433, Inventory Schedule D—Continuation Sheet (Special Tooling and Special Test Equipment).

(e) Standard Form 1434, Termination Inventory Schedule E (Short Form for use with SF 1438 only).

**49.602-3 Schedule of accounting information.**

Standard Form 1439, Schedule of Accounting Information, shall be filed in support of a settlement proposal unless the proposal is filed on Standard Form 1438, Settlement Proposal (Short Form) (see 49.206-1(e)).

**49.602-4 Partial payments.**

Standard Form 1440, Application for Partial Payment, shall be used to apply for partial payments (see 49.112-1).

**49.602-5 Settlement agreement.**

Standard Form 30 (SF 30), Amendment of Solicitation/Modification of Contract, shall be used to execute a settlement agreement (see 49.109-1).

**49.603 Formats for termination for convenience settlement agreements.**

The formats to be used for termination for convenience settlement agreements should be substantially as shown in this section (see 49.109). Termination contracting officers (TCO's) may, however, modify the contents of these agreements to conform with special termination clauses prescribed or authorized by their agencies (e.g., see 49.501 and 49.505(e)).

**49.603-1 Fixed price contracts—complete termination.**

*[Insert the following in Block 14 of SF 30 for settlements of fixed-price contracts completely terminated.]*

(a) This supplemental agreement settles the settlement proposal resulting from the Notice of Termination dated \_\_\_\_\_.

(b) The parties agree to the following:

(1) The Contractor certifies that all contract termination inventory (including scrap) has been retained or acquired by the contractor, sold to third parties, returned to suppliers, delivered to or stored for the Government, or otherwise properly accounted for, and that all proceeds and retention credits have been used in arriving at this agreement.

(2) The Contractor certifies that each immediate subcontractor, whose settlement proposal is included in the proposal settled by this agreement, has furnished the contractor a certificate stating—

(i) That all subcontract termination inventory (including scrap) has been retained or acquired by the subcontractor, sold to third parties, returned to suppliers, delivered to or stored for the government, or otherwise properly accounted for, and that all proceeds and retention credits were used in arriving at the settlement of the subcontract, and

(ii) That the subcontractor has received a similar certificate from each immediate subcontractor whose proposal was included in its proposal.

(3) The contractor certifies that all items of termination inventory, the costs of which were used in arriving at the amount of this settlement or the settlement of any subcontract settlement proposal included in this settlement, (i) are properly allocable to the terminated portion of the contract, (ii) do not exceed the reasonable quantitative requirements of the terminated portion of the contract, and (iii) do not include any items reasonably usable without loss to the Contractor on its other work. The Contractor further certifies that the Contracting Officer has been informed of any substantial change in the status of the items between the dates of the termination inventory schedules and the date of this agreement.

(4) The Contractor transfers, conveys, and assigns to the Government all the right, title, and interest, if any, that the Con-

tractor has received, or is entitled to receive, in and to subcontract termination inventory not otherwise properly accounted for.

(5) The Contractor shall, within 10 days after receipt of the payment specified in this agreement, pay to each of its immediate subcontractors (or their respective assignees) the amounts to which they are entitled, after deducting any prior payments and, if the Contractor so elects, any amounts due and payable to the Contractor by those subcontractors.

(6)(i) The Contractor has received \$\_\_\_\_\_ for work and services performed, or items delivered, under the completed portion of the contract. The Government confirms the right of the Contractor, subject to paragraph (7) of this section, to retain this sum and agrees that it constitutes a portion of the total amount to which the Contractor is entitled in complete and final settlement of the contract.

(ii) Further, the Government agrees to pay to the Contractor or its assignee, upon presentation of a proper invoice or voucher, the sum of \$\_\_\_\_\_ [*insert net amount of settlement*], arrived at by deducting from the sum of \$\_\_\_\_\_ [*for proposals on an inventory basis insert gross amount of settlement; for proposals on a total cost basis, insert gross amount of settlement less amount shown in subdivision (6)(i) of this subsection*]

(A) The amount of \$\_\_\_\_\_ for all unliquidated partial or progress payments previously made to the Contractor or its assignee and all unliquidated advance payments (with any interest),

(B) The amount of \$\_\_\_\_\_ for all applicable property disposal credits [*insert if appropriate, "and (C) the amount of \$\_\_\_\_\_ for all other amounts due the Government under this contract, except as provided in paragraph (7) of this section."*]

(iii) The net settlement of \$\_\_\_\_\_ in subdivision (ii) of this section, together with sums previously paid, constitutes payment in full and complete settlement of the amount due the Contractor for the complete termination of the contract and all other demands and liabilities of the Contractor and the Government under the contract, except as provided in paragraph (b)(7) of this section.

(7) Regardless of any other provision of this agreement, the following rights and liabilities of the parties under the contract are reserved: [*The following list of reserved or excepted rights and liabilities is intended to cover those that should most frequently be reserved and that should be scrutinized at the time a settlement agreement is negotiated (see 49.109-2). The suggested language of the excepted items on the list may be varied at the discretion of the contracting officer. If accuracy or completeness can be achieved by referencing the number of a contract clause or provision covering the matter in question, then follow that method of enumerating reserved rights and liabilities. Omit any of the following that are not applicable and add any additional exceptions or reservations required.*]

(i) All rights and liabilities, if any, of the parties, as to matters covered by any renegotiation authority.

(ii) All rights of the Government to take the benefit of agreements or judgments affecting royalties paid or payable in connection with the performance of the contract.

(iii) All rights and liabilities, if any, of the parties under those clauses inserted in the contract because of the requirements of Acts of Congress and Executive orders, including, without limitation, any applicable clauses relating to: labor law, contingent fees, domestic articles, and employment of aliens. [*If the contract contains clauses of this character inserted for reasons other than requirements of Acts of Congress or Executive orders, the suggested language should be appropriately modified.*]

(iv) All rights and liabilities of the parties arising under the contract and relating to reproduction rights, patent infringements, inventions, or applications for patents, including rights to assignments, invention reports, licenses, covenants of indemnity against patent risks, and bonds for patent indemnity obligations, together with all rights and liabilities under the bonds.

(v) All rights and liabilities of the parties, arising under the contract or otherwise, and concerning defects, guarantees, or warranties relating to any articles or component parts furnished to the Government by the Contractor under the contract or this agreement.

(vi) All rights and liabilities of the parties under the contract relating to any contract termination inventory stored for the Government.

(vii) All rights and liabilities of the parties under agreements relating to the future care and disposition by the Contractor of Government-owned property remaining in the Contractor's custody.

(viii) All rights and liabilities of the parties relating to Government property furnished to the Contractor for the performance of this contract.

(ix) All rights and liabilities of the parties under the contract relating to options (except options to continue or increase the work under the contract), covenants not to compete, and covenants of indemnity.

(x) All rights and liabilities, if any, of the parties under those clauses of the contract relating to price reductions for defective cost or pricing data.

(End of agreement)

#### 49.603-2 Fixed-price contracts—partial termination.

[*Insert the following in Block 14 of SF 30 for settlements of fixed-price contracts partially terminated.*]

(a) This supplemental agreement settles the settlement proposal resulting from the Notice of Termination dated \_\_\_\_\_.

(b) The parties agree to the following:

(1) The terminated portion of the contract is as follows: [*specify the terminated portion clearly as to—*

(i) *Item numbers,*

(ii) *Descriptions,*

(iii) *Quantity terminated,*

(iv) *Unit price of items,*

(v) *Total price of terminated items, and*

(vi) Any other explanation necessary to avoid uncertainty or misunderstanding].

(2) The Contractor certifies that all contract termination inventory (including scrap) has been retained or acquired by the Contractor, sold to third parties, returned to suppliers, delivered to or stored for the Government, or otherwise properly accounted for, and that all proceeds and retention credits have been used in arriving at this agreement.

(3) The Contractor certifies that each immediate subcontractor, whose settlement proposal is included in the proposal settled by this agreement, has furnished the Contractor a certificate stating—

(i) That all subcontract termination inventory (including scrap) has been retained or acquired by the subcontractor, sold to third parties, returned to suppliers, delivered to or stored for the Government, or otherwise properly accounted for, and that all proceeds and retention credits were used in arriving at the settlement of the subcontract, and

(ii) That the subcontractor has received a similar certificate from each immediate subcontractor whose proposal was included in its proposal.

(4) The Contractor certifies that all items of termination inventory, the costs of which were used in arriving at the amount of this settlement or the settlement of any subcontract settlement proposal included in this settlement, (i) are properly allocable to the terminated portion of the contract, (ii) do not exceed the reasonable quantitative requirements of the terminated portion of the contract, and (iii) do not include any items reasonably usable without loss to the Contractor on its other work. The Contractor further certifies that the Contracting Officer has been informed of any substantial change in the status of the items between the dates of the termination inventory schedules and the date of this agreement.

(5) The Contractor transfers, conveys, and assigns to the Government all the right, title, and interest, if any, that the Contractor has received, or is entitled to receive, in and to subcontract termination inventory not otherwise properly accounted for.

(6) The Contractor shall, within 10 days after receipt of the payment specified in this agreement, pay to each of its immediate subcontractors (or their respective assignees) the amounts to which they are entitled, after deducting any prior payments and, if the Contractor so elects, any amounts due and payable to the Contractor by those subcontractors.

(7)(i) The Government agrees to pay to the Contractor or its assignee, upon presentation of a proper invoice or voucher, the sum of \$\_\_\_\_\_ [insert net amount of settlement], arrived at by deducting from \$\_\_\_\_\_ [insert gross amount of settlement],

(A) the amount of \$\_\_\_\_\_ for all unliquidated partial or progress payments previously made to the Contractor or its assignee and all unliquidated advance payments (with any interest) applicable to the terminated portion of the contract and

(B) the amount of \$\_\_\_\_\_ for all applicable property disposal credits.

(ii) The net settlement of \$\_\_\_\_\_ in subdivision (b)(7)(i) of this section, together with sums previously paid, constitutes payment in full and complete settlement of the amount due the Contractor for the terminated portion of the contract, except as provided in paragraph (b)(8) of this section.

(iii) Upon payment of the net settlement of \$\_\_\_\_\_, all obligations of the Contractor to perform further work or services or to make further deliveries under the terminated portion of the contract and all obligations of the Government to take further payments or carry out other undertakings concerning the terminated portion of the contract shall cease; provided, that nothing in this agreement shall impair or affect any covenants, terms, or conditions of the contract relating to the completed or continued portion of this contract.

(8) Regardless of any other provision of this agreement, the following rights and liabilities of the parties under the contract are reserved: *[The following list of reserved or excepted rights and liabilities is intended to cover those that should most frequently be reserved and that should be scrutinized at the time a settlement agreement is negotiated (see 49.109-2). The suggested language of the excepted items in the list may be varied at the discretion of the contracting officer. If accuracy or completeness can be achieved by referencing the number of a contract clause or provision covering the matter in question, then follow that method of enumerating reserved rights and liabilities. Omit any of the following that are not applicable and add any additional exceptions or reservations required.]*

(i) All rights and liabilities, if any, of the parties, as to matters covered by any renegotiation authority.

(ii) All rights of the Government to take the benefit of agreements or judgments affecting royalties paid or payable in connection with the performance of the contract.

(iii) All rights and liabilities, if any, of the parties under those clauses inserted in the contract because of the requirements of Acts of Congress and Executive orders, including, without limitation, any applicable clauses relating to: labor law, contingent fees, domestic articles, and employment of aliens. *[If the contract contains clauses of this character inserted for reasons other than requirements of Acts of Congress or Executive orders, the suggested language should be appropriately modified.]*

(iv) All rights and liabilities of the parties arising under the contract and relating to reproduction rights, patent infringements, inventions, or applications for patents, including rights to assignments, invention reports, licenses, covenants of indemnity against patent risks, and bonds for patent indemnity obligations, together with all rights and liabilities under the bonds.

(v) All rights and liabilities of the parties, arising under the contract or otherwise, and concerning defects, guarantees, or warranties relating to any articles or component parts furnished to the government by the Contractor under the contract or this agreement.

(vi) All rights and liabilities of the parties under the contract relating to any contract termination inventory stored for the Government.

(vii) All rights and liabilities, if any, of the parties under those clauses of the contract relating to price reductions for defective cost or pricing data.

(End of agreement)

**49.603-3 Cost reimbursement contracts—complete termination, if settlement includes cost.**

*[Insert the following in Block 14 of SF 30 for settlement of cost-reimbursement contracts that are completely terminated, if settlement includes costs.]*

(a) This supplemental agreement settles the settlement proposal resulting from the Notice of Termination dated \_\_\_\_\_.

(b) The parties agree to the following:

(1) The Contractor certifies that all contract termination inventory (including scrap) has been retained or acquired by the Contractor, sold to third parties, returned to suppliers, delivered to or stored for the Government, or otherwise properly accounted for, and that all proceeds and retention credits have been used in arriving at this agreement.

(2) The Contractor certifies that each immediate subcontractor, whose settlement proposal is included in the proposal settled by this agreement, has furnished the Contractor a certificate stating—

(i) That all subcontract termination inventory (including scrap) has been retained or acquired by the subcontractor, sold to third parties, returned to suppliers, delivered to or stored for the Government, or otherwise properly accounted for, and that all proceeds and retention credits were used in arriving at the settlement of the subcontract; and

(ii) That the subcontractor has received a similar certificate from each immediate subcontractor whose proposal was included in its proposal.

(3) The Contractor certifies that all items of termination inventory, the costs of which were used in arriving at the amount of this settlement or he settlement of any subcontract settlement proposal included in this settlement, (i) are properly allocable to the terminated portion of the contract, (ii) do not exceed the reasonable quantitative requirements of the terminated portion of the contract, and (iii) do not include any items reasonably usable without loss to the Contractor on its other work. The Contractor further certifies that the Contracting Officer has been informed of any substantial change in the status of the items between the dates of the termination inventory schedules and the date of this agreement.

(4) The Contractor transfers, conveys, and assigns to the Government all the right, title and interest, if any, that the Contractor has received, or is entitled to receive, in and to subcontract termination inventory not otherwise properly accounted for.

(5) The Contractor shall, within 10 days after receipt of the payment specified in this agreement, pay to each of its immediate subcontractors (or their respective assignees) the amounts to which they are entitled, after deducting any prior payments and, if the Contractor so elects, any amounts due and payable to the Contractor by those subcontractors.

(6)(i) The Contractor has received \$\_\_\_\_\_ for work and services performed, or articles delivered, under the contract before the effective date of termination. The Government confirms the right of the Contractor, subject to paragraph (b)(7) of this section, to retain this sum and agrees that it constitutes a portion of the total amount to which the Contractor is entitled in complete and final settlement of the contract.

(ii) Further, the Government agrees to pay to the Contractor or its assignee, upon presentation of a proper invoice or voucher, the sum of \$\_\_\_\_\_ [insert net amount of settlement], arrived at by deducting from the sum of \$\_\_\_\_\_ [insert gross amount of settlement less amount shown in subdivision (6)(i) a of this section]—

(A) The amount of \$\_\_\_\_\_ for all unliquidated partial or progress payments previously made to the Contractor or its assignee and all unliquidated advance payments (with any interest),

(B) The amount of \$\_\_\_\_\_ for all applicable property disposal credits [insert if appropriate, “and (C) the amount of \$\_\_\_\_\_ for all other amounts due the Government under this contract, except as provided in paragraph (b)(7) of this section.”]

(iii) The net settlement of \$\_\_\_\_\_ in subdivision (b)(6)(ii) of this section, together with sums previously paid, constitutes payment in full and complete settlement of the amount due the Contractor for the complete termination of the contract and of all other demands and liabilities of the Contractor and the Government under the contract, except as provided in paragraph (b)(7) in this section.

(7) Regardless of any other provision of this agreement, the following rights and liabilities of the parties under the contract are reserved: *[The following list of reserved or excepted rights and liabilities is intended to cover those that should most frequently be reserved and that should be scrutinized at the time a settlement agreement is negotiated (see 49.109-2). The suggested language of the excepted items on the list may be varied at the discretion of the contracting officer. If accuracy or completeness can be achieved by referencing the number of a contract clause or provision covering the matter in question, then follow that method of enumerating reserved rights and liabilities. Omit any of the following that are not applicable and add any additional exceptions or reservations required.]*

(i) All rights and liabilities, if any, of the parties, as to matters covered by any renegotiation authority.

(ii) All rights of the Government to take the benefit of agreements or judgments affecting royalties paid or payable in connection with the performance of the contract.

(iii) All rights and liabilities, if any, of the parties under those clauses inserted in the contract because of the requirements of Acts of Congress and Executive orders, including, without limitation, any applicable clauses relating to: labor law, contingent fees, domestic articles, and employment of aliens. *[If the contract contains clauses of this character inserted for reasons other than requirements of Acts of Congress or Executive orders, the suggested language should be appropriately modified.]*

(iv) All rights and liabilities of the parties arising under the contract and relating to reproduction rights, patent

infringements, inventions, or applications for patents, including rights to assignments, invention reports, licenses, covenants of indemnity against patent risks, and bonds for patent indemnity obligations, together with all rights and liabilities under the bonds.

(v) All rights and liabilities of the parties, arising under the contract or otherwise, and concerning defects, guarantees, or warranties relating to any articles or component parts furnished to the Government by the Contractor under the contract or this agreement.

(vi) All rights and liabilities of the parties under the contract relating to any contract termination inventory stored for the Government.

(vii) All rights and liabilities of the parties under agreements relating to the future care and disposition by the Contractor of Government-owned property remaining in the Contractor's custody.

(viii) All rights and liabilities of the parties relating to Government property furnished to the Contractor for the performance of this contract.

(ix) All rights and liabilities of the parties under the contract relating to options (except options to continue or increase the work under the contract), covenants not to compete, and covenants of indemnity.

(x) Unresolved demands or assertions by the Contractor against the Government for costs under General Accounting Office exceptions or other costs of the same nature that are excluded from the settlement without prejudice to the rights of either party, as follows: *[Insert amount and describe charges not waived.]*

(xi) Claims by the Contractor against the Government, when the Contractor's rights of reimbursement are disputed, that are excluded without prejudice to the rights of either party are as follows: *[Insert the amounts and describe the claims on which the Contracting Officer has made findings and has disallowed and on which the Contractor has taken, or intends to take, timely appeal.]*

(xii) Unresolved demands or assertions by the Contractor against the Government that are unknown in amount and involve costs alleged to be reimbursable under the contract are as follows: *[Insert the estimated amounts and describe the charges.]*

(xiii) Unknown amounts alleged by the Contractor against the Government, based upon responsibility of the Contractor to third parties that involve costs reimbursable under the contract.

(xiv) Debts due the Government by the Contractor that are based on refunds, rebates, credits, or other amounts not now known to the Government, with interest, now due or that may become due the Contractor from third parties, if the amounts arise out of transactions for which reimbursement has been made to the Contractor under the contract. The Contractor shall pay to the Government, within 30 days after receipt, any of these amounts that become due from any third party or any other source. Interest at the rate established by the Secretary of the Treasury under 50 U.S.C. (App.) 1215(b)(2) shall accrue

and shall be paid to the Government on any amounts that remain unpaid after the 30-day period.

(xv) All rights and liabilities, if any, of the parties under those clauses of the contract relating to price reductions for defective cost or pricing data.

(End of agreement)

#### **49.603-4 Cost-reimbursement contracts—complete termination, with settlement limited to fee.**

*[Insert the following in Block 14 of SF 30 for settlement of cost-reimbursement contracts that are completely terminated, if settlement is limited to fee.]*

(a) This supplemental agreement settles the amount of fee due under the contract, terminated in its entirety by Notice of Termination dated \_\_\_\_\_.

(b) The parties agree to the following:

(1) The Contractor has received \$\_\_\_\_\_ on account of its fee under the contract before the effective date of termination.

(2) The Government agrees to pay to the Contractor or its assignee, upon presentation of a proper invoice or voucher, \$\_\_\_\_\_ *[insert net amount to be paid on account of fee]*. This sum, with sums previously paid, constitutes payment in full and complete settlement of the amount due the Contractor on account of its fee under the contract.

(3) The Contractor's allowable costs under the contract will be paid under the terms and conditions of the contract and Parts 31 and 49 of the Federal Acquisition Regulation. *[Insert paragraph (a)(3) of this subsection only if there are costs to be vouchered out (see 49.302) or if there are costs to be covered later by a separate settlement agreement.]*

(4) Regardless of any other provision of this agreement, the following rights and liabilities of the parties under the contract are reserved: *[The following list of reserved or excepted rights and liabilities is intended to cover those that should most frequently be reserved and that should be scrutinized at the time a settlement agreement is negotiated (see 49.109-2). The suggested language of the excepted items on the list may be varied at the discretion of the contracting officer. If accuracy or completeness can be achieved by referencing the number of a contract clause or provision covering the matter in question, then follow that method of enumerating reserved rights and liabilities. Omit any of the following that are not applicable and add any additional exceptions or reservations required.]*

(i) All rights and liabilities, if any, of the parties, as to matters covered by any renegotiation authority.

(ii) All rights and liabilities, if any, of the parties under those clauses inserted in the contract because of the requirements of Acts of Congress and Executive orders, including, without limitation, any applicable clauses relating to: labor law, contingent fees, domestic articles, and employment of aliens. *[If the contract contains clauses of this character inserted for reasons other than requirements of Acts of Congress or Executive orders, the suggested language should be appropriately modified.]*

(iii) All rights and liabilities of the parties arising under the contract and relating to reproduction rights, patent infringements, inventions, or applications for patents, including rights to assignments, invention reports, licenses, covenants of indemnity against patent risks, and bonds for patent indemnity obligations, together with all rights and liabilities under the bonds.

(iv) All rights and liabilities of the parties, arising under the contract or otherwise, and concerning defects, guarantees, or warranties relating to any articles or component parts furnished to the Government by the Contractor under the contract or this agreement.

(v) All rights and liabilities of the parties under agreements relating to the future care and disposition by the Contractor of Government-owned property remaining in the Contractor's custody.

(vi) All rights and liabilities of the parties relating to Government property furnished to, or acquired by, the Contractor for the performance of the contract.

(vii) All rights and liabilities of the parties under the contract relating to options (except options to continue or increase the work under the contract), covenants not to compete, and covenants of indemnity.

(viii) All rights and liabilities, if any, of the parties under those clauses of the contract relating to price reductions for defective cost or pricing data.

(End of agreement)

#### **49.603-5 Cost-reimbursement contracts—partial termination.**

*[Insert the following in Block 14 of SF 30, Amendment of Solicitation/Modification of Contract, for settlement agreements for cost-reimbursement contracts as a result of partial termination.]*

(a) This supplemental agreement settles the termination settlement proposal resulting from the Notice of Termination dated \_\_\_\_\_.

(b) The parties agree as follows:

(1) The contract is amended by deleting the terminated portion as follows: *[specify the terminated portion clearly as to—*

*(i) Item numbers,*

*(ii) Descriptions,*

*(iii) Quantity terminated,*

*(iv) Unit and total price of terminated items, and*

*(v) Any other explanation necessary to avoid uncertainty or misunderstanding].*

(2) The fee stated in the contract is decreased by \$\_\_\_\_, from \$\_\_\_\_ to \$\_\_\_\_ *[Insert, if appropriate, “(3) The estimated cost of the contract is decreased by \$\_\_\_\_, from \$\_\_\_\_ to \$\_\_\_\_”].*

(c) The Contractor's allowable costs and earned fee, if any, for the terminated portion of the contract will continue to be reimbursed on SF 1034, Public Voucher for Purchase and Services Other Than Personal, under the applicable provisions

of the contract and Part 31 of the Federal Acquisition Regulation.

(End of agreement)

#### **49.603-6 No-cost settlement agreement—complete termination.**

*[Insert the following in Block 14 of SF 30 if a no-cost settlement agreement, under a complete termination, is to be executed.]*

(a) This supplemental agreement *[insert “modifies the contract to reflect a no-cost settlement agreement with respect to the Notice of Termination dated \_\_\_\_\_” or, if not previously terminated, “terminates the contract in its entirety”].*

(b) The parties agree as follows:

The Contractor unconditionally waives any charges against the Government because of the termination of the contract and, except as set forth below, releases it from all obligations under the contract or due to its termination. The Government agrees that all obligations under the contract are concluded, except as follows: *[List reserved or excepted rights and liabilities. See 49.109-2 and 49.603-1(b)(7).]*

(End of agreement)

#### **49.603-7 No-cost settlement agreement—partial termination.**

*[Insert the following in Block 14 of SF 30 if a no-cost settlement agreement, under partial termination, is to be executed.]*

(a) This supplemental agreement modifies the contract to reflect a no-cost settlement agreement with respect to the Notice of Termination dated \_\_\_\_\_.

(b) The parties agree as follows:

(1) The terminated portion of the contract is as follows: *[Specify—*

*(i) item numbers,*

*(ii) descriptions,*

*(iii) quantity terminated,*

*(iv) unit and total price of terminated items, and*

*(v) any other explanation necessary to avoid uncertainty or misunderstanding.]*

(2) The Contractor unconditionally waives any charges against the Government arising under the terminated portion of the contract or by reason of its termination, including, without limitation, all obligations of the Government to make further payments or to carry out any further undertakings under the terminated portion of the contract. The Government acknowledges that the Contractor has no obligation to perform further work or services or to make further deliveries under the terminated portion of the contract. Nothing in this paragraph affects any other covenants, terms, or conditions of the contract. Under the terminated portion of the contract, the following rights and liabilities of the parties are reserved: *[List reserved or excepted rights and liabilities. See 49.109-2 and 49.603-1(b)(7).]*

(End of agreement)

**49.603-8 Fixed-price contracts—settlements with subcontractors only.**

*[Insert the following in Block 14 of SF 30 for settlements of fixed-price contracts covering only settlements with subcontractors.]*

(a) This agreement settles that portion of the settlement proposal of the contractor that is based upon termination of the following subcontracts entered into in performing this contract: *[Insert a list of the terminated subcontracts included in this settlement.]*

(b) The parties agree to the following:

(1) The Contractor certifies that each immediate subcontractor, whose settlement proposal is included in the proposal settled by the agreement, has furnished the Contractor a certificate stating—

(i) That all subcontract termination inventory (including scrap) has been retained or acquired by the subcontractor, sold to third parties, returned to suppliers, delivered to or stored for the Government, or otherwise properly accounted for, and that all proceeds and retention credits were used in arriving at the settlement of the subcontract, and

(ii) That the subcontractor has received a similar certificate from each immediate subcontractor whose proposal was included in its proposal.

(2) The Contractor certifies that all items of termination inventory, the costs of which were used in arriving at the amount of this settlement or the settlement of any subcontract settlement proposal included in this settlement,—

(i) Are properly allocable to the terminated portion of the contract,

(ii) Do not exceed the reasonable quantitative requirements of the terminated portion of the contract, and

(iii) Do not include any items reasonably usable without loss to the Contractor on its other work. The Contractor further certifies that the Contracting Officer has been informed of any substantial change in the status of the items between the dates of the termination inventory schedules and the date of this agreement.

(3) The Contractor transfers, conveys, and assigns to the Government all the right, title, and interest, if any, that the Contractor has received or is entitled to receive, in and to subcontract termination inventory not otherwise properly accounted for.

(4) The Contractor shall, within 10 days after receipt of the payment specified in this agreement, pay to each of its immediate subcontractors (or their respective assignees) the amounts to which they are entitled, after deducting any prior payments and, if the Contractor so elects, any amounts due and payable to the Contractor by those subcontractors.

(5) The Government agrees to pay the Contractor or its assignee, upon presentation of a proper invoice or voucher, \$\_\_\_\_ *[insert net amount of settlement]*, which, together with the amount of \$\_\_\_\_ previously paid the Contractor as partial, progress, or advance payments, constitutes payment in full and complete settlement, except as provided in paragraph (b)(6) of

this section, of the amount due the Contractor for that portion of its settlement proposal that is based upon termination of the subcontracts listed above.

(6) Regardless of any other provision of this agreement, the following rights and liabilities of the parties under the contract are reserved: *[List reserved or excepted rights and liabilities. See 49.109-2 and 49.603-1(b)(7).]*

(End of agreement)

**49.603-9 Settlement of reservations.**

*[Insert the following in Block 14 of SF 30 for settlement of reservations.]*

(a) Supplemental Agreement No. \_\_\_\_\_, dated \_\_\_\_\_, was executed to reflect the settlement of the termination of this contract. The supplemental agreement excepted from the settlement certain items described in the agreement including the items described in paragraph (b) of this section. This supplemental agreement settles those items listed in paragraph (b) of this section.

(b) The parties agree to the following:

(1) The Government agrees to pay the contractor \$\_\_\_\_\_ for the following reserved or excepted items:\* *[List items.]*

(2) The Contractor releases and forever discharges the Government from all liability and from all existing and future claims and demands that it may have under this contract, insofar as it pertains to the contract, for the items described in paragraph (1) of this section.\*

\*When payment is due the Government, reverse the words “Government” and “contractor” in paragraphs (b)(1) and (b)(2).

(End of agreement)

**49.604 Release of excess funds under terminated contracts.**

The following format shall be used to recommend the release of excess funds under terminated contracts, except if the contracting office retains responsibility for settlement of the termination:

FROM: Termination Contracting Officer \_\_\_\_\_  
[address]

To: Contracting office \_\_\_\_\_ [address]

SUBJ: Terminated Contract No \_\_\_\_\_ with \_\_\_\_\_  
[Contractor]

Refs:

(a) *[Cite termination notice and effective date.]*

(b) *[Cite prior letters releasing excess funds, if any.]*

(1) Referenced termination notice, \_\_\_\_\_ *[insert “completely” or “partially”]* terminated contract \_\_\_\_\_.

(2) Based on the best information available, it is estimated that the gross settlement cost will be \$\_\_\_\_. The amount available for release as excess to the contract is \$\_\_\_\_. Any payments previously made to the Contractor for terminated items have been considered in arriving at the above amounts.

*[If prior letters recommending release of excess funds are cited, use the following as paragraph 2:*

The estimated settlement costs previously reported by reference (b) in the amount of \$\_\_\_\_ are revised. On the best evidence now available, it is estimated that the settlement costs will be \$\_\_\_\_. The additional amount available for release is \$\_\_\_\_.]

(3) The related appropriations and amounts involved are:

Paying Office  
Accounting and Finance Office  
Other

#### **49.605 Request to settle subcontractor settlement proposals.**

Contractors requesting authority to settle subcontractor settlement proposals shall furnish applicable information from the list below and any additional information required by the contracting officer:

- (a) Name of contractor and address of principal office.
- (b) Name and location of divisions of the applicant's plant for which authorization is requested.
- (c) An explanation of the necessity and justification for the authorization requested.
- (d) A full description of the applicant's organization for handling terminations, including the names of the officials in charge of processing and settling proposals.
- (e) The number and dollar amount (estimated if necessary) of uncompleted contracts with Government agencies and the percentage applicable to each agency.
- (f) The number and dollar amount (estimated if necessary) of uncompleted subcontracts under Government contracts and the percentage applicable to each agency.
- (g) The extent of the applicant's experience in termination matters, including the handling of proposals of subcontractors.
- (h) The approximate amount and general nature of terminations of the applicant currently in process.
- (i) A statement that no other application has been made for any division of the applicant's plant covered by the application or, if one has been made, a full statement of the facts.
- (j) The limit of authorization requested.

#### **49.606 Granting subcontract settlement authorization.**

Contracting officers shall use the following format when granting subcontract settlement authorization:

##### LETTER OF AUTHORIZATION

(a) Your request of \_\_\_\_ (date) is approved, and you are authorized, subject to the limitations of subsection 49.108-4 and those stated below, to settle, without further approval of the Government, all subcontracts and purchase orders terminated by you as a result of a Government contract being terminated or modified—

- (1) For the convenience of the Government or
- (2) Under any other circumstances that may require the Government to bear the cost of their settlement.

(b) This authorization does not extend to the disposition of Government-furnished material or articles completed but undelivered under the subcontract or purchase order, as these require screening and approval of disposal actions by the Government, except that allocable completed articles may be disposed of without Government approval or screening if the total amount (at subcontract price) when added to the amount of settlement (as computed below) does not exceed \$\_\_\_\_ *[insert limit of authorization being granted]*.

(c) This authorization is subject to the following conditions and requirements:

(1) The amount of the subcontract termination settlement does not exceed \$\_\_\_\_ *[insert limit of authorization being granted]*, computed as follows:

(i) Do not deduct advance or partial payments or credits for retention or other disposal of termination inventory allocated to the settlement proposal.

(ii) Deduct amounts payable for completed articles or work at the contract price or for the settlement of termination proposals of subcontractors (except those settlements that have not been approved by the Government).

(2) Any termination inventory involved has been disposed of under subsection 49.108-4, except that screening and Government approval of scrap and salvage determinations are not required.

(3) The Contracting Officer may incorporate into each Notice of Termination specific instructions about the disposition of specific items of termination inventory, or the Contracting Officer may, at any time before final settlement, issue specific instructions. These instructions will not affect any disposal action taken by you or your subcontractors before their receipt.

(4) The settlements made by you with your subcontractors and suppliers under this authorization, including sales, retention, or other dispositions of property involved in making these settlements, are reimbursable under Part 49 and the Termination clause of the contract, and do not require approval of the Contracting Officer.

(5) Any number of separate settlements of \$\_\_\_\_ *[insert limit of authorization granted]* or less may be made with a single subcontractor. Settlement proposals that would normally be included in a single proposal; *e.g.*, those based on a

series of separate orders for the same item under one contract, should be consolidated whenever possible and shall not be divided to bring them within the authorization.

(6) This authorization does not apply if a subcontractor or supplier is affiliated with you. For this purpose, you should consider a contractor to be affiliated with you if you are under common control or if there is any common interest between you by reason of stock ownership, or otherwise, that is sufficient to create a reasonable doubt that the bargaining between you is completely at arm’s length.

(7) A representative of this office will, from time to time, review the methods used in negotiating settlements with your subcontractors and will make a selective examination of the settlements made by you. If the review indicates that you are not adequately protecting the Government’s interest, this delegation will be revoked.

(End of letter)

**49.607 Delinquency notices.**

The formats of the delinquency notices in this section may be used to satisfy the requirements of 49.402-3. All notices will be sent with proof of delivery requested. (See Subpart 42.13 for stop-work orders.)

(a) *Cure notice.* If a contract is to be terminated for default before the delivery date, a “Cure Notice” is required by the Default clause. Before using this notice, it must be ascertained that an amount of time equal to or greater than the period of “cure” remains in the contract delivery schedule or any extension to it. If the time remaining in the contract delivery schedule is not sufficient to permit a realistic “cure” period of 10 days or more, the “Cure Notice” should not be issued. The “Cure Notice” may be in the following format:

CURE NOTICE

You are notified that the Government considers your \_\_\_\_ [*specify the contractor’s failure or failures*] a condition that is endangering performance of the contract. Therefore, unless

this condition is cured within 10 days after receipt of this notice [*or insert any longer time that the Contracting Officer may consider reasonably necessary*], the Government may terminate for default under the terms and conditions of the \_\_\_\_ [*insert clause title*] clause of this contract.

(End of notice)

(b) *Show cause notice.* If the time remaining in the contract delivery schedule is not sufficient to permit a realistic “cure” period of 10 days or more, the following “Show Cause Notice” may be used. It should be sent immediately upon expiration of the delivery period.

SHOW CAUSE NOTICE

Since you have failed to \_\_\_\_ [*insert “perform Contract No. \_\_\_\_ within the time required by its terms”, or “cure the conditions endangering performance under Contract No \_\_\_\_ as described to you in the Government’s letter of \_\_\_\_ (date)”*], the Government is considering terminating the contract under the provisions for default of this contract. Pending a final decision in this matter, it will be necessary to determine whether your failure to perform arose from causes beyond your control and without fault or negligence on your part. Accordingly, you are given the opportunity to present, in writing, any facts bearing on the question to \_\_\_\_ [*insert the name and complete address of the contracting officer*], within 10 days after receipt of this notice. Your failure to present any excuses within this time may be considered as an admission that none exist. Your attention is invited to the respective rights of the Contractor and the Government and the liabilities that may be invoked if a decision is made to terminate for default.

Any assistance given to you on this contract or any acceptance by the Government of delinquent goods or services will be solely for the purpose of mitigating damages, and it is not the intention of the Government to condone any delinquency or to waive any rights the Government has under the contract.

(End of notice)

**50.000 Scope of part.**

This part prescribes policies and procedures for entering into, amending, or modifying contracts in order to facilitate the national defense under the extraordinary emergency authority granted by Public Law 85-804 (50 U.S.C. 1431–1434), referred to in this part as “the Act,” and Executive Order 10789, dated November 14, 1958, referred to in this part as “the Executive order.” It does not cover advance payments (see Subpart 32.4).

**50.001 Definitions.**

As used in this part—

“Approving authority” means an agency official or contract adjustment board authorized to approve actions under the Act and Executive order.

“Secretarial level” means a level at or above the level of a deputy assistant agency head, or a contract adjustment board.

### **Subpart 50.1—General**

**50.101 Authority.**

(a) The Act empowers the President to authorize agencies exercising functions in connection with the national defense to enter into, amend, and modify contracts, without regard to other provisions of law related to making, performing, amending, or modifying contracts, whenever the President considers that such action would facilitate the national defense.

(b) The Executive order authorizes the heads of the following agencies to exercise the authority conferred by the Act and to delegate it to other officials within the agency: the Government Printing Office; the Federal Emergency Management Agency; the Tennessee Valley Authority; the National Aeronautics and Space Administration; the General Services Administration; the Defense, Army, Navy, Air Force, Treasury, Interior, Agriculture, Commerce, and Transportation Departments; the Department of Energy for functions trans-

ferred to that Department from other authorized agencies; and any other agency that may be authorized by the President.

**50.102 Policy.**

(a) The authority conferred by the Act may not—

(1) Be used in a manner that encourages carelessness and laxity on the part of persons engaged in the defense effort or

(2) Be relied upon when other adequate legal authority exists within the agency.

(b) Actions authorized under the Act shall be accomplished as expeditiously as practicable, consistent with the care, restraint, and exercise of sound judgment appropriate to the use of such extraordinary authority.

(c) Certain kinds of relief previously available only under the Act; *e.g.*, rescission or reformation for mutual mistake, are now available under the authority of the Contract Disputes Act of 1978. In accordance with paragraph (a)(2) of this section, Part 33 must be followed in preference to Part 50 for such relief. In case of doubt as to whether Part 33 applies, the contracting officer should seek legal advice.

**50.103 [Reserved]****50.104 [Reserved]****50.105 Records.**

Agencies shall maintain complete records of all actions taken under this Part 50. For each request for relief processed, these records shall include, as a minimum—

(a) The contractor’s request;

(b) All relevant memorandums, correspondence, affidavits, and other pertinent documents;

(c) The Memorandum of Decision (see 50.306 and 50.402); and

(d) A copy of the contractual document implementing an approved request.

## Subpart 50.2—Delegation of and Limitations on Exercise of Authority

### 50.201 Delegation of authority.

An agency head may delegate in writing authority under the Act and Executive order, subject to the following limitations:

(a) Authority delegated shall be to a level high enough to ensure uniformity of action.

(b) Authority to approve requests to obligate the Government in excess of \$50,000 may not be delegated below the secretarial level.

(c) Regardless of dollar amount, authority to approve any amendment without consideration that increases the contract price or unit price may not be delegated below the secretarial level, except in extraordinary cases or classes of cases when the agency head finds that special circumstances clearly justify such delegation.

(d) Regardless of dollar amount, authority to indemnify against unusually hazardous or nuclear risks, including extension of such indemnification to subcontracts, shall be exercised only by the Secretary or Administrator of the agency concerned, the Public Printer, or the Chairman of the Board of Directors of the Tennessee Valley Authority (see 50.403).

### 50.202 Contract adjustment boards.

An agency head may establish a contract adjustment board with authority to approve, authorize, and direct appropriate action under this Part 50 and to make all appropriate determinations and findings. The decisions of the board shall not be subject to appeal; however, the board may reconsider and modify, correct, or reverse its previous decisions. The board shall determine its own procedures and have authority to take all action necessary or appropriate to conduct its functions.

### 50.203 Limitations on exercise of authority.

(a) The Act is not authority for—

(1) Using a cost-plus-a-percentage-of-cost system of contracting;

(2) Making any contract that violates existing law limiting profit or fees;

(3) Providing for other than full and open competition for award of contracts for supplies or services; or

(4) Waiving any bid bond, payment bond, performance bond, or other bond required by law.

(b) No contract, amendment, or modification shall be made under the Act's authority—

(1) Unless the approving authority finds that the action will facilitate the national defense;

(2) Unless other legal authority within the agency concerned is deemed to be lacking or inadequate;

(3) Except within the limits of the amounts appropriated and the statutory contract authorization (however, indemnification agreements authorized by an agency head (50.403) are not limited to amounts appropriated or to contract authorization); and

(4) That will obligate the Government for any amount over \$25 million, unless the Senate and House Committees on Armed Services are notified in writing of the proposed obligation and 60 days of continuous session of Congress have passed since the transmittal of such notification. However, this paragraph (b)(4) does not apply to indemnification agreements authorized under 50.403.

(c) No contract shall be amended or modified unless the contractor submits a request before all obligations (including final payment) under the contract have been discharged. No amendment or modification shall increase the contract price to an amount higher than the lowest rejected bid of any responsible bidder, if the contract was negotiated under 10 U.S.C. 2304(a)(15) or 41 U.S.C. 252(c)(14), or FAR 14.404-1(f).

(d) No informal commitment shall be formalized unless—

(1) The contractor submits a written request for payment within 6 months after furnishing, or arranging to furnish, supplies or services in reliance upon the commitment; and

(2) The approving authority finds that, at the time the commitment was made, it was impracticable to use normal contracting procedures.

(e) The exercise of authority by officials below the secretarial level is subject to the following additional limitations:

(1) The action shall not—

(i) Release a contractor from performance of an obligation over \$50,000;

(ii) Result in an increase in cost to the Government over \$50,000;

(iii) Deal with, or directly affect, any matter that has been submitted to the General Accounting Office; or

(iv) Involve disposal of Government surplus property.

(2) Mistakes shall not be corrected by an action obligating the Government for over \$1,000, unless the contracting officer receives notice of the mistake before final payment.

(3) The correction of a contract because of a mistake in its making shall not increase the original contract price to an amount higher than the next lowest responsive offer of a responsible offeror.

## Subpart 50.3—Contract Adjustments

### 50.300 Scope of subpart.

This subpart prescribes standards and procedures for processing contractors' requests for contract adjustment under the Act and Executive order.

### 50.301 General.

The fact that losses occur under a contract is not sufficient basis for exercising the authority conferred by the Act. Whether appropriate action will facilitate the national defense is a judgment to be made on the basis of all of the facts of the case. Although it is impossible to predict or enumerate all the types of cases in which action may be appropriate, examples are included in 50.302. Even if all of the factors in any of the examples are present, other considerations may warrant denying a contractor's request for contract adjustment. The examples are not intended to exclude other cases in which the approving authority determines that the circumstances warrant action.

### 50.302 Types of contract adjustment.

#### 50.302-1 Amendments without consideration.

(a) When an actual or threatened loss under a defense contract, however caused, will impair the productive ability of a contractor whose continued performance on any defense contract or whose continued operation as a source of supply is found to be essential to the national defense, the contract may be amended without consideration, but only to the extent necessary to avoid such impairment to the contractor's productive ability.

(b) When a contractor suffers a loss (not merely a decrease in anticipated profits) under a defense contract because of Government action, the character of the action will generally determine whether any adjustment in the contract will be made, and its extent. When the Government directs its action primarily at the contractor and acts in its capacity as the other contracting party, the contract may be adjusted in the interest of fairness. Thus, when Government action, while not creating any liability on the Government's part, increases performance cost and results in a loss to the contractor, fairness may make some adjustment appropriate.

#### 50.302-2 Correcting mistakes.

(a) A contract may be amended or modified to correct or mitigate the effect of a mistake. The following are examples of mistakes that may make such action appropriate:

(1) A mistake or ambiguity consisting of the failure to express, or express clearly, in a written contract, the agreement as both parties understood it.

(2) A contractor's mistake so obvious that it was or should have been apparent to the contracting officer.

(3) A mutual mistake as to a material fact.

(b) Amending contracts to correct mistakes with the least possible delay normally will facilitate the national defense by expediting the contracting program and assuring contractors that mistakes will be corrected expeditiously and fairly.

### 50.302-3 Formalizing informal commitments.

Under certain circumstances, informal commitments may be formalized to permit payment to persons who have taken action without a formal contract; for example, when a person, responding to an agency official's written or oral instructions and relying in good faith upon the official's apparent authority to issue them, has furnished or arranged to furnish supplies or services to the agency, or to a defense contractor or subcontractor, without formal contractual coverage. Formalizing commitments under such circumstances normally will facilitate the national defense by assuring such persons that they will be treated fairly and paid expeditiously.

### 50.303 Contract adjustment.

#### 50.303-1 Contractor requests.

A contractor seeking a contract adjustment shall submit a request in duplicate to the contracting officer or an authorized representative. The request, normally a letter, shall state as a minimum—

(a) The precise adjustment requested;

(b) The essential facts, summarized chronologically in narrative form;

(c) The contractor's conclusions based on these facts, showing, in terms of the considerations set forth in 50.301 and 50.302, when the contractor considers itself entitled to the adjustment; and

(d) Whether or not—

(1) All obligations under the contracts involved have been discharged;

(2) Final payment under the contracts involved has been made;

(3) Any proceeds from the request will be subject to assignment or other transfer, and to whom; and

(4) The contractor has sought the same, or a similar or related, adjustment from the General Accounting Office or any other part of the Government, or anticipates doing so.

#### 50.303-2 Contractor certification.

A contractor seeking a contract adjustment that exceeds the simplified acquisition threshold shall, at the time the request is submitted, submit a certification by a person authorized to certify the request on behalf of the contractor that—

(a) The request is made in good faith and

(b) The supporting data are accurate and complete to the best of that person's knowledge and belief.

**50.304 Facts and evidence.**

(a) *General.* When it is appropriate, the contracting officer or other agency official shall request the contractor to support any request made under 50.303-1 with any of the following information:

(1) A brief description of the contracts involved, the dates of execution and amendments, the items being acquired, the price or prices, the delivery schedules, and any special contract provisions relevant to the request.

(2) A history of performance indicating when work under the contracts or commitments began, the progress made to date, an exact statement of the contractor's remaining obligations, and the contractor's expectations regarding completion.

(3) A statement of payments received, due, and yet to be received or to become due, including advance and progress payments; amounts withheld by the Government; and information as to any obligations of the Government yet to be performed under the contracts.

(4) A detailed analysis of the request's monetary elements, including precisely how the actual or estimated dollar amount was determined and the effect of approval or denial on the contractor's profits before Federal income taxes.

(5) A statement of the contractor's understanding of why the request's subject matter cannot now, and could not at the time it arose, be disposed of under the contract terms.

(6) The best supporting evidence available to the contractor, including contemporaneous memorandums, correspondence, and affidavits.

(7) Relevant financial statements, cost analyses, or other such data, preferably certified by a certified public accountant, as necessary to support the request's monetary elements.

(8) A list of persons connected with the contracts who have factual knowledge of the subject matter, including, when possible, their names, offices or titles, addresses, and telephone numbers.

(9) A statement and evidence of steps taken to reduce losses and claims to a minimum.

(10) Any other relevant statements or evidence that may be required.

(b) *Amendments without consideration—essentiality a factor.* When a request involves possible amendment without consideration, and essentiality to the national defense is a factor (50.302-1(a)), the contractor may be asked to furnish, in addition to the facts and evidence listed in paragraph (a) of this section, any of the following information:

(1) A statement and evidence of the contractor's original breakdown of estimated costs, including contingency allowances, and profit.

(2) A statement and evidence of the contractor's present estimate of total costs under the contracts involved if it is enabled to complete them, broken down between costs accrued to date and completion costs, and between costs paid and those owed.

(3) A statement and evidence of the contractor's estimate of the final price of the contracts, taking into account all known or contemplated escalation, changes, extras, and the like.

(4) A statement of any claims known or contemplated by the contractor against the Government involving the contracts, other than those stated in response to paragraph (b)(3) of this section.

(5) An estimate of the contractor's total profit or loss under the contracts if it is enabled to complete them at the estimated final contract price, broken down between profit or loss to date and completion profit or loss.

(6) An estimate of the contractor's total profit or loss from other Government business and all other sources, from the date of the first contract involved to the estimated completion date of the last contract involved.

(7) A statement of the amount of any tax refunds to date, and an estimate of those anticipated, for the period from the date of the first contract involved to the estimated completion date of the last contract involved.

(8) A detailed statement of efforts the contractor has made to obtain funds from commercial sources to enable contract completion.

(9) A statement of the minimum amount the contractor needs as an amendment without consideration to enable contract completion, and the detailed basis for that amount.

(10) An estimate of the time required to complete each contract if the request is granted.

(11) A statement of the factors causing the loss under the contracts involved.

(12) A statement of the course of events anticipated if the request is denied.

(13) Balance sheets, preferably certified by a certified public accountant, (i) for the contractor's fiscal year immediately preceding the date of the first contract, (ii) for each subsequent fiscal year, (iii) as of the request date, and (iv) projected as of the completion date of all the contracts involved (assuming the contractor is enabled to complete them at the estimated final prices), together with income statements for annual periods subsequent to the date of the first balance sheet. Balance sheets and income statements should be both consolidated and broken down by affiliates. They should show all transactions between the contractor and its affiliates, stockholders, and partners, including loans to the contractor guaranteed by any stockholder or partner.

(14) A list of all salaries, bonuses, and other compensation paid or furnished to the principal officers or partners, and of all dividends and other withdrawals, and of all payments to stockholders in any form since the date of the first contract involved.

(c) *Amendments without consideration—essentiality not a factor.* When a request involves possible amendment without consideration because of Government action, and essentiality to the national defense is not a factor (50.302-1(b)), the contractor may be asked to furnish, in addition to the facts and evidence listed in paragraph (a) of this section, any of the following information:

(1) A clear statement of the precise Government action that the contractor considers to have caused a loss under the contract, with evidence to support each essential fact.

(2) A statement and evidence of the contractor's original breakdown of estimated costs, including contingency allowances, and profit.

(3) The estimated total loss under the contract, with detailed supporting analysis.

(4) The estimated loss resulting specifically from the Government action, with detailed supporting analysis.

(d) *Correcting mistakes.* When a request involves possible correction of a mistake (50.302-2), the contractor may be asked to furnish, in addition to the facts and evidence listed in paragraph (a) of this section, any of the following information:

(1) A statement and evidence of the precise error made, ambiguity existing, or misunderstanding arising, showing what it consists of, how it occurred, and the intention of the parties.

(2) A statement explaining when the mistake was discovered, when the contracting officer was given notice of it, and whether this notice was given before completion of work under, or the effective termination date of, the contract.

(3) An estimate of profit or loss under the contract, with detailed supporting analysis.

(4) An estimate of the increase in cost to the Government resulting from the adjustment requested, with detailed supporting analysis.

(e) *Formalizing informal commitments.* When a request involves possible formalizing of an informal commitment (50.302-3), the contractor may be asked to furnish, in addition to the facts and evidence listed in paragraph (a) of this section, any of the following information:

(1) Copies of any written instructions or assurances (or a sworn statement of any oral instructions or assurances) given the contractor, and identification of the Government official who gave them.

(2) A statement as to when the contractor furnished or arranged to furnish the supplies or services involved, and to whom.

(3) Evidence that the contractor relied upon the instructions or assurances, with a full description of the circumstances that led to this reliance.

(4) Evidence that, when performing the work, the contractor expected to be compensated directly for it by the Government and did not anticipate recovering the costs in some other way.

(5) A cost breakdown supporting the amount claimed as fair compensation for the work performed.

(6) A statement and evidence of the impracticability of providing, in an appropriate contractual instrument, for the work performed.

### 50.305 Processing cases.

(a) In response to a contractor request made in accordance with 50.303-1, the contracting officer or an authorized representative shall make a thorough investigation to establish the facts necessary to decide a given case. Facts and evidence, including signed statements of material facts within the knowledge of individuals when documentary evidence is lacking, and audits if considered necessary to establish financial or cost facts, shall be obtained from contractor and Government personnel.

(b) When a case involves matters of interest to more than one Government agency, the interested agencies should maintain liaison with each other to determine whether joint action should be taken.

(c) When additional funds are required from another agency, the contracting agency may not approve adjustment requests before receiving advice that the funds will be available. The request for this advice shall give the contractor's name, the contract number, the amount of proposed relief, a brief description of the contract, and the accounting classification or fund citation. If the other agency makes additional funds available, the agency considering the adjustment request shall be solely responsible for any action taken on the request.

(d) When essentiality to the national defense is an issue (50.302-1(a)), agencies considering requests for amendment without consideration involving another agency shall obtain advice on the issue from the other agency before making the final decision. When this advice is received, the agency considering the request for amendment without consideration shall be responsible for taking whatever action is appropriate.

### 50.306 Disposition.

When approving or denying a contractor's request made in accordance with 50.303-1, the approving authority shall sign and date a Memorandum of Decision containing—

(a) The contractor's name and address, the contract identification, and the nature of the request;

(b) A concise description of the supplies or services involved;

(c) The decision reached and the actual cost or estimated potential cost involved, if any;

(d) A statement of the circumstances justifying the decision;

(e) Identification of any of the foregoing information classified “Confidential” or higher (instead of being included in the memorandum, such information may be set forth in a separate classified document referenced in the memorandum); and

(f) If some adjustment is approved, a statement in substantially the following form: “I find that the action authorized herein will facilitate the national defense.” The case files supporting this statement will show the derivation and rationale for the dollar amount of the award. When the dollar amount exceeds the amounts supported by audit or other independent reviews, the approving authority will further document the rationale for deviating from the recommendation.

**50.307 Contract requirements.**

(a) The Act and Executive order require that every contract entered into, amended, or modified under this Part 50 shall contain—

(1) A citation of the Act and Executive order;

(2) A brief statement of the circumstances justifying the action; and

(3) A recital of the finding that the action will facilitate the national defense.

(b) The authority in 50.101(a) shall not be used to omit from contracts, when otherwise required, the clauses at 52.203-5, Covenant Against Contingent Fees; 52.215-2, Audit and Records—Negotiation; 52.222-4, Contract Work Hours and Safety Standards Act—Overtime Compensation; 52.222-6, Davis-Bacon Act; 52.222-10, Compliance With Copeland Act Requirements; 52.222-20, Walsh-Healey Public Contracts Act; 52.222-26, Equal Opportunity; and 52.232-23, Assignment of Claims.

## Subpart 50.4—Residual Powers

### 50.400 Scope of subpart.

This subpart prescribes standards and procedures for exercising residual powers under the Act. The term “residual powers” includes all authority under the Act except—

- (a) That covered by Subpart 50.3 and
- (b) The authority to make advance payments (see Subpart 32.4).

### 50.401 Standards for use.

Subject to the limitations in 50.203, residual powers may be used in accordance with the policies in 50.102 when necessary and appropriate, all circumstances considered. In authorizing the inclusion of the clause at 52.250-1, Indemnification Under Public Law 85-804, in a contract or subcontract, an agency head may require the indemnified contractor to provide and maintain financial protection of the type and amount determined appropriate. In deciding whether to approve use of the indemnification clause, and in determining the type and amount of financial protection the indemnified contractor is to provide and maintain, an agency head shall consider such factors as self-insurance, other proof of financial responsibility, workers' compensation insurance, and the availability, cost, and terms of private insurance. The approval and determination shall be final.

### 50.402 General.

(a) When approving or denying a proposal for the exercise of residual powers, the approving authority shall sign and date a Memorandum of Decision containing substantially the same information called for by 50.306.

(b) Every contract entered into, amended, or modified under residual powers shall comply with the requirements of 50.307.

### 50.403 Special procedures for unusually hazardous or nuclear risks.

#### 50.403-1 Indemnification requests.

(a) Contractor requests for the indemnification clause to cover unusually hazardous or nuclear risks should be submitted to the contracting officer and shall include the following information:

- (1) Identification of the contract for which the indemnification clause is requested.
- (2) Identification and definition of the unusually hazardous or nuclear risks for which indemnification is requested, with a statement indicating how the contractor would be exposed to them.

(3) A statement, executed by a corporate official with binding contractual authority, of all insurance coverage applicable to the risks to be defined in the contract as unusually hazardous or nuclear, including—

- (i) Names of insurance companies, policy numbers, and expiration dates;
- (ii) A description of the types of insurance provided (including the extent to which the contractor is self-insured or intends to self-insure), with emphasis on identifying the risks insured against and the coverage extended to persons or property, or both;
- (iii) Dollar limits per occurrence and annually, and any other limitation, for relevant segments of the total insurance coverage;
- (iv) Deductibles, if any, applicable to losses under the policies;
- (v) Any exclusions from coverage under such policies for unusually hazardous or nuclear risks; and
- (vi) Applicable workers' compensation insurance coverage.

(4) The controlling or limiting factors for determining the amount of financial protection the contractor is to provide and maintain, with information regarding the availability, cost, and terms of additional insurance or other forms of financial protection.

(5) Whether the contractor's insurance program has been approved or accepted by any Government agency; and whether the contractor has an indemnification agreement covering similar risks under any other Government program, and, if so, a brief description of any limitations.

(6) If the contractor is a division or subsidiary of a parent corporation,—

- (i) A statement of any insurance coverage of the parent corporation that bears on the risks for which the contractor seeks indemnification and
- (ii) A description of the precise legal relationship between parent and subsidiary or division.

(b) If the dollar value of the contractor's insurance coverage varies by 10 percent or more from that stated in an indemnification request submitted in accordance with paragraph (a) of this section, or if other significant changes in insurance coverage occur after submission and before approval, the contractor shall immediately submit to the contracting officer a brief description of the changes.

#### 50.403-2 Action on indemnification requests.

(a) The contracting officer, with assistance from legal counsel and cognizant program office personnel, shall review the indemnification request and ascertain whether it contains all required information. If the contracting officer, after considering the facts and evidence, denies the request, the contracting officer shall notify the contractor promptly of the denial and of the reasons for it. If recommending approval, the

contracting officer shall forward the request (as modified, if necessary, by negotiation) through channels to the appropriate official specified in 50.201(d). The contracting officer's submission shall include all information submitted by the contractor and—

(1) All pertinent information regarding the proposed contract or program, including the period of performance, locations, and facilities involved;

(2) A definition of the unusually hazardous or nuclear risks involved in the proposed contract or program, with a statement that the parties have agreed to it;

(3) A statement by responsible authority that the indemnification action would facilitate the national defense;

(4) A statement that the contract will involve unusually hazardous or nuclear risks that could impose liability upon the contractor in excess of financial protection reasonably available;

(5) A statement that the contractor is complying with applicable Government safety requirements;

(6) A statement of whether the indemnification should be extended to subcontractors; and

(7) A description of any significant changes in the contractor's insurance coverage (see 50.403-1(b)) occurring since submission of the indemnification request.

(b) Approval of a request to include the indemnification clause in a contract shall be by a Memorandum of Decision executed by the appropriate official specified in 50.201(d).

(c) When use of the indemnification clause is approved under paragraph (b) of this section, the definition of unusually hazardous or nuclear risks (see paragraph (a)(2) of this section) shall be incorporated into the contract, along with the clause.

(d) When approval is—

(1) Authorized in the Memorandum of Decision and

(2) Justified by the circumstances, the contracting officer may approve the contractor's written request to provide for indemnification of subcontractors, using the same procedures as those required for contractors.

**50.403-3 Contract clause.**

The contracting officer shall insert the clause at 52.250-1, Indemnification Under Public Law 85-804, in contracts whenever the approving official determines that the contractor shall be indemnified against unusually hazardous or nuclear risks (also see 50.403-2(c)). In cost-reimbursement contracts, the contracting officer shall use the clause with its Alternate I.

51.203 Means of obtaining service.

51.204 Use of interagency fleet management system  
(IFMS) vehicles and related services.

51.205 Contract clause.

This page intentionally left blank.

**51.000 Scope of part.**

This part prescribes policies and procedures for the use by contractors of Government supply sources and interagency fleet management system (IFMS) vehicles and related services.

**Subpart 51.1—Contractor Use of Government Supply Sources**

**51.100 Scope of subpart.**

This subpart prescribes policies and procedures for the use of Government supply sources (see 51.102(c)) by contractors. In this subpart, the terms “contractors” and “contracts” include “subcontractors” and “subcontracts.”

**51.101 Policy.**

(a) If it is in the Government’s interest, and if supplies or services required in the performance of a Government contract are available from Government supply sources, contracting officers may authorize contractors to use these sources in performing—

- (1) Government cost-reimbursement contracts;
- (2) Other types of negotiated contracts when the agency determines that a substantial dollar portion of the contractor’s contracts are of a Government cost-reimbursement nature; or
- (3) A contract under the Javits-Wagner-O’Day Act (41 U.S.C. 46, *et seq.*) if:
  - (i) The nonprofit agency requesting use of the supplies and services is providing a commodity or service to the Federal Government, and
  - (ii) The supplies or services received are directly used in making or providing a commodity or service, approved by the Committee for Purchase From People Who Are Blind or Severely Disabled, to the Federal Government (see Subpart 8.7).

(b) Contractors with fixed-price Government contracts that require protection of security classified information may acquire security equipment through GSA sources (see 41 CFR 101-26.507).

(c) Contracting officers shall authorize contractors purchasing supply items for Government use that are available from the Committee for Purchase from People Who Are Blind or Severely Disabled (see Subpart 8.7) to purchase such items from the Defense Logistics Agency (DLA), the General Services Administration (GSA), and the Department of Veterans Affairs (VA) if they are available from these agencies through their distribution facilities. Mandatory supplies that are not available from DLA/GSA/VA shall be ordered through the appropriate central nonprofit agency (see 52.208-9(c)).

**51.102 Authorization to use Government supply sources.**

(a) Before issuing an authorization to a contractor to use Government supply sources in accordance with 51.101(a) or

(b), the contracting officer shall place in the contract file a written finding supporting issuance of the authorization. A written finding is not required when authorizing use of Government supply sources in accordance with 51.101(c). Except for findings under 51.101(a)(3), the determination shall be based on, but not limited to, considerations of the following factors:

- (1) The administrative cost of placing orders with Government supply sources and the program impact of delay factors, if any.
- (2) The lower cost of items available through Government supply sources.
- (3) Suitability of items available through Government supply sources.
- (4) Delivery factors such as cost and time.
- (5) Recommendations of the contractor.

(b) Authorizations to subcontractors shall be issued through, and with the approval of, the contractor.

(c) Upon deciding to authorize a contractor to use Government supply sources, the contracting officer shall request, in writing, as applicable—

(1) A FEDSTRIP activity address code, through the agency’s central contact point for matters involving activity address codes, from the:

General Services Administration  
FCSI  
Washington DC 20406

(2) A MILSTRIP activity address code from the appropriate Department of Defense (DOD) service point listed in Section 1 of the Introduction to the DOD Activity Address Directory;

(3) Approval for the contractor to use Department of Veterans Affairs (VA) supply sources from the:

Deputy Assistant Secretary for Acquisition and Materiel Management (Code 90)  
Office of Acquisition and Materiel Management  
Department of Veterans Affairs  
810 Vermont Avenue NW  
Washington DC 20420

(4) Approval for the contractor to acquire helium from the:

Department of the Interior  
Bureau of Land Management  
Helium Field Operations  
801 S. Fillmore Street  
Amarillo TX 79101-3545

or

(5) Approval from the appropriate agency for the contractor to use a Government supply source other than those identified in paragraphs (c)(1) through (c)(4) of this section.

(d) Each request made under paragraph (c) of this section shall contain—

- (1) The complete address(es) to which the contractor's mail, freight, and billing documents are to be directed;
- (2) A copy of the contracting officer's letter of authorization to the contractor;
- (3) The prime contract number(s); and
- (4) The effective date and duration of each contract.

(e) In each authorization to the contractor, the contracting officer—

- (1) Shall cite the contract number(s) involved;
- (2) Shall, when practicable, limit the period of the authorization;
- (3) Shall specify, as appropriate, that—

(i) When requisitioning from GSA or DOD, the contractor shall use FEDSTRIP or MILSTRIP, as appropriate, and include the activity address code assigned by GSA or DOD;

(ii) When requisitioning from the VA, the contractor should use FEDSTRIP or MILSTRIP, as appropriate, Optional Form 347, Order for Supplies or Services (see 53.302-347), or an agency-approved form; and

(iii) When placing orders for helium with the Bureau of Land Management, the contractor shall reference the Federal contract number on the purchase order;

(4) May include any other limitations or conditions deemed necessary. For example, the contracting officer may—

- (i) Authorize purchases from Government supply sources of any overhead supplies, but no production supplies;
- (ii) Limit any authorization requirement to use Government sources to a specific dollar amount, thereby leaving the contractor free to make smaller purchases from other sources if so desired;

(iii) Restrict the authorization to certain facilities or to specific contracts; or

(iv) Provide specifically if vesting of title is to differ from other property acquired or otherwise furnished by the contractor for use under the contract; and

(5) Shall instruct the contractor to comply with the applicable policies and procedures prescribed in this subpart.

(f) After issuing the authorization, the authorizing agency shall be responsible for—

- (1) Ensuring that contractors comply with the terms of their authorizations and that supplies and services obtained from Government supply sources are properly accounted for and properly used;
- (2) Any indebtedness incurred for supplies or services and not satisfied by the contractor; and
- (3) Submitting, in writing, to the appropriate Government sources, address changes of the contractor and deletions when contracts are completed or terminated.

**51.103 Ordering from Government supply sources.**

(a) Contractors placing orders under Federal Supply Schedules shall follow the terms of the applicable schedule and authorization and include with each order—

(1) A copy of the authorization (unless a copy was previously furnished to the Federal Supply Schedule contractor); and

(2) The following statement: This order is placed under written authorization from \_\_\_\_\_ dated \_\_\_\_\_. In the event of any inconsistency between the terms and conditions of this order and those of your Federal Supply Schedule contract, the latter will govern.

(b) If a Federal Supply Schedule contractor refuses to honor an order placed by a Government contractor under an agency authorization, the contracting officer shall report the circumstances to the:

General Services Administration  
FCO  
Washington DC 20406

(c) Contractors placing orders for Government stock shall—

(1) Comply with the requirements of the contracting officer's authorization, using FEDSTRIP or MILSTRIP procedures, as appropriate;

(2) Use only the Government activity address code obtained by the contracting officer in accordance with 51.102(e) along with the contractor's assigned access code, when ordering from GSA Customer Supply Centers.

(3) Order only those items required in the performance of their contracts.

**51.104 Furnishing assistance to contractors.**

After receiving an activity address code, the contracting officer will notify the appropriate GSA regional office or military activity, which will contact the contractor and—

(a) Provide initial copies of ordering information and instructions; and

(b) When necessary, assist the contractor in preparing and submitting, as appropriate—

(1) The initial FEDSTRIP or MILSTRIP requisitions, the Optional Form 347, or the agency-approved forms;

(2) A completed GSA Form 457, FSS Publications Mailing List Application, so that the contractor will automatically receive current copies of required publications; or

(3) A completed GSA Form 3525, Application for Customer Supply Center Services and (Address Change).

**51.105 Payment for shipments.**

GSA, DOD, and VA will not forward bills to contractors for supplies ordered from Government stock until after the supplies have been shipped. Receipt of billing is sufficient evidence to establish contractor liability and to provide a basis

for payment. Contracting officers should direct their contractors to make payment promptly upon receipt of billings.

**51.106 Title.**

(a) Title to all property acquired by the contractor under the contracting officer's authorization shall vest in the parties as provided in the contract, unless specifically provided for otherwise.

(b) If contracts are with educational institutions and the Government Property clause at 52.245-2, Alternate II, or 52.245-5, Alternate I, is used, title to property having an

acquisition cost of less than \$5,000 shall vest in the contractor as provided in the clause. Agencies may provide higher thresholds, if appropriate.

**51.107 Contract clause.**

The contracting officer shall insert the clause at 52.251-1, Government Supply Sources, in solicitations and contracts when the contracting officer may authorize the contractor to acquire supplies or services from a Government supply source. If a facilities contract is contemplated, the contracting officer shall use the clause with its Alternate I.

## Subpart 51.2—Contractor Use of Interagency Fleet Management System (IFMS) Vehicles

### 51.200 Scope of subpart.

This subpart prescribes policies and procedures for the use by contractors of interagency fleet management system (IFMS) vehicles and related services. In this subpart, the terms “contractors” and “contracts” include “subcontractors” and “subcontracts” (see 45.304).

### 51.201 Policy.

(a) If it is in the Government’s interest, the contracting officer may authorize cost-reimbursement contractors to obtain, for official purposes only, interagency fleet management system (IFMS) vehicles and related services, including—

- (1) Fuel and lubricants,
- (2) Vehicle inspection, maintenance, and repair,
- (3) Vehicle storage, and
- (4) Commercially rented vehicles for short-term use.

(b) Complete rebuilding of major components of contractor-owned or -leased equipment requires the approval of the contracting officer in each instance.

(c) Government contractors shall not be authorized to obtain interagency fleet management system (IFMS) vehicles and related services for use in performance of any contract other than a cost-reimbursement contract, except as otherwise specifically approved by the Administrator of the General Services Administration at the request of the agency involved.

### 51.202 Authorization.

(a) The contracting officer may authorize a cost-reimbursement contractor to obtain interagency fleet management system (IFMS) vehicles and related services, if the contracting officer has—

- (1) Determined that the authorization will accomplish the agency’s contractual objectives and effect demonstrable economies;
- (2) Received evidence that the contractor has obtained motor vehicle liability insurance covering bodily injury and property damage, with limits of liability as required or approved by the agency, protecting the contractor and the Government against third-party claims arising from the ownership, maintenance, or use of an interagency fleet management system vehicle (IFMS);
- (3) Arranged for periodic checks to ensure that authorized contractors are using vehicles and related services exclusively under cost-reimbursement contracts;

(4) Ensured that contractors shall establish and enforce suitable penalties for their employees who use or authorize the use of Government vehicles for other than performance of Government contracts (see 41 CFR 101-38.301-1);

(5) Received a written statement that the contractor will assume, without the right of reimbursement from the Government, the cost or expense of any use of interagency fleet management vehicles (IFMS) and services not related to the performance of the contract; and

(6) Considered any recommendations of the contractor.

(b) The authorization shall—

- (1) Be in writing;
- (2) Cite the contract number;
- (3) Specify any limitations on the authority, including its duration, and any other pertinent information; and
- (4) Instruct the contractor to comply with the applicable policies and procedures provided in this subpart.

(c) Authorizations to subcontractors shall be issued through, and with the approval of, the contractor.

(d) Contracting officers authorizing contractor use of interagency fleet management system (IFMS) vehicles and related services subject their agencies to the responsibilities and liabilities provided in 41 CFR 101-39.4 regarding accidents and claims.

### 51.203 Means of obtaining service.

(a) Authorized contractors shall submit requests for interagency fleet management system (IFMS) vehicles and related services in writing to the appropriate GSA regional Federal Supply Service Bureau, Attention: Regional fleet manager, except that requests for more than five vehicles shall be submitted to:

General Services Administration  
FBF  
Washington DC 20406,

and not to the regions. Each request shall include the following:

- (1) Two copies of the agency authorization to obtain vehicles and related services from GSA.
- (2) The number of vehicles and related services required and period of use.
- (3) A list of the contractor’s employees who are authorized to request vehicles and related services.
- (4) A listing of the make, model, and serial numbers of contractor-owned or-leased equipment authorized to be serviced.
- (5) Billing instructions and address.

(b) Contractors requesting unusual quantities of vehicles should do so as far in advance as possible to facilitate availability.

**51.204 Use of interagency fleet management system (IFMS) vehicles and related services.**

Contractors authorized to use interagency fleet management system (IFMS) vehicles and related services shall comply with the requirements of 41 CFR 101-39 and 41 CFR 101-38.301-1 and the operator's packet furnished with each vehicle. See 41 CFR 101-6.4 for additional guidance for home-to-work use of Government vehicles.

**51.205 Contract clause.**

The contracting officer shall insert the clause at 52.251-2, Interagency Fleet Management System (IFMS) Vehicles and Related Services, in solicitations and contracts when a cost-reimbursement contract is contemplated and the contracting officer may authorize the contractor to use interagency fleet management system (IFMS) vehicles and related services.

VOLUME II—PARTS 52, 53, & INDEX

# FEDERAL ACQUISITION REGULATION

**ISSUED SEPTEMBER 2001 BY THE :**

**GENERAL SERVICES ADMINISTRATION**

**DEPARTMENT OF DEFENSE**

**NATIONAL AERONAUTICS AND SPACE ADMINISTRATION**

(This edition includes the consolidation of all Federal Acquisition Circulars through 97-27)

**TITLE 48—FEDERAL ACQUISITION REGULATIONS SYSTEM**

**Chapter 1**

**FEDERAL ACQUISITION REGULATION**

**Volume II**

---

## **FOREWORD**

This September 2001 edition is a complete reissue of the Federal Acquisition Regulation (FAR). It includes all Federal Acquisition Circulars through 97-27. The effective date of the overall FAR remains April 1, 1984.

The FAR is the primary regulation for use by all Federal Executive agencies in their acquisition of supplies and services with appropriated funds. It became effective on April 1, 1984, and is issued within applicable laws under the joint authorities of the Administrator of General Services, the Secretary of Defense, and the Administrator for the National Aeronautics and Space Administration, under the broad policy guidelines of the Administrator, Office of Federal Procurement Policy, Office of Management and Budget.

The FAR precludes agency acquisition regulations that unnecessarily repeat, paraphrase, or otherwise restate the FAR, limits agency acquisition regulations to those necessary to implement FAR policies and procedures within an agency, and provides for coordination, simplicity, and uniformity in the Federal acquisition process. It also provides for agency and public participation in developing the FAR and agency acquisition regulations.

**FEDERAL ACQUISITION REGULATION**

**SUBCHAPTER H—CLAUSES AND FORMS**

**PART 52—SOLICITATION PROVISIONS AND CONTRACT CLAUSES**

*Sec.*

52.000 Scope of part.

**Subpart 52.1—Instructions for Using Provisions and Clauses**

- 52.100 Scope of subpart.
- 52.101 Using Part 52.
- 52.102 Incorporating provisions and clauses.
- 52.103 Identification of provisions and clauses.
- 52.104 Procedures for modifying and completing provisions and clauses.
- 52.105 Procedures for using alternates.
- 52.106 [Reserved]
- 52.107 Provisions and clauses prescribed in Subpart 52.1.

**Subpart 52.2—Text of Provisions and Clauses**

- 52.200 Scope of subpart.
- 52.201 [Reserved]
- 52.202-1 Definitions.
- 52.203-1 [Reserved]
- 52.203-2 Certificate of Independent Price Determination.
- 52.203-3 Gratuities.
- 52.203-4 [Reserved]
- 52.203-5 Covenant Against Contingent Fees.
- 52.203-6 Restrictions on Subcontractor Sales to the Government.

52.247-51 Evaluation of Export Offers.	52.249-14 Excusable Delays.
52.247-52 Clearance and Documentation Requirements—Shipments to DOD Air or Water Terminal Transshipment Points.	52.250-1 Indemnification Under Public Law 85-804.
52.247-53 Freight Classification Description.	52.251-1 Government Supply Sources.
52.247-54 [Reserved]	52.251-2 Interagency Fleet Management System Vehicles and Related Services.
52.247-55 F.o.b. Point for Delivery of Government-Furnished Property.	52.252-1 Solicitation Provisions Incorporated by Reference.
52.247-56 Transit Arrangements.	52.252-2 Clauses Incorporated by Reference.
52.247-57 Transportation Transit Privilege Credits.	52.252-3 Alterations in Solicitation.
52.247-58 Loading, Blocking, and Bracing of Freight Car Shipments.	52.252-4 Alterations in Contract.
52.247-59 F.o.b. Origin—Carload and Truckload Shipments.	52.252-5 Authorized Deviations in Provisions.
52.247-60 Guaranteed Shipping Characteristics.	52.252-6 Authorized Deviations in Clauses.
52.247-61 F.o.b. Origin—Minimum Size of Shipments.	52.253-1 Computer Generated Forms.
52.247-62 Specific Quantities Unknown.	
52.247-63 Preference for U.S.-Flag Air Carriers.	
52.247-64 Preference for Privately Owned U.S.-Flag Commercial Vessels.	
52.247-65 F.o.b. Origin, Prepaid Freight—Small Package Shipments.	
52.247-66 Returnable Cylinders.	

**Subpart 52.3—Provision and Clause Matrix**

52.300	Scope of subpart.
52.310	Solicitation provisions and contract clauses (Matrix).

**52.000 Scope of part.**

This part—

- (a) Gives instructions for using provisions and clauses in solicitations and/or contracts;
- (b) Sets forth the solicitation provisions and contract clauses prescribed by this regulation; and
- (c) Presents a matrix listing the FAR provisions and clauses applicable to each principal contract type and/or purpose (e.g., fixed-price supply, cost-reimbursement research and development).

### Subpart 52.1—Instructions for Using Provisions and Clauses

**52.100 Scope of subpart.**

This subpart—

- (a) Gives instructions for using Part 52, including the explanation and use of provision and clause numbers, prescriptions, prefaces, and the matrix;
- (b) Prescribes procedures for incorporating, identifying, and modifying provisions and clauses in solicitations and contracts, and for using alternates; and
- (c) Describes the derivation of FAR provisions and clauses.

**52.101 Using Part 52.**

(a) *Definition.* “Modification,” as used in this subpart, means a minor change in the details of a provision or clause that is specifically authorized by the FAR and does not alter the substance of the provision or clause (see 52.104).

(b) *Numbering—(1) FAR provisions and clauses.* Subpart 52.2 sets forth the text of all FAR provisions and clauses, each in its own separate subsection. The subpart is arranged by subject matter, in the same order as, and keyed to, the parts of the FAR. Each FAR provision or clause is uniquely identified. All FAR provision and clause numbers begin with “52.2,” since the text of all FAR provisions and clauses appear in Subpart 52.2. The next two digits of the provision or clause number correspond to the number of the FAR subject part in which the provision or clause is prescribed. The FAR provision or clause number is then completed by a hyphen and a sequential number assigned within each section of Subpart 52.2. The following example illustrates the makeup of the FAR provision or clause number (see Figure 1 below).

**Figure 1**

(2)(i) *Provisions or clauses that supplement the FAR.* Provisions or clauses that supplement the FAR are—

(A) Prescribed and included in authorized agency acquisition regulations issued within an agency to satisfy the specific needs of the agency as a whole;

(B) Prescribed and included in a regulation issued by a suborganization of an agency to satisfy the needs of that particular suborganization; or

(C) Developed for use at a suborganizational level of an agency, not meant for repetitive use, but intended to meet the needs of an individual acquisition and, thus, impractical to include in either an agency or suborganization acquisition regulation. (See 1.301(c).)

(ii) Supplemental provisions or clauses published in agency acquisition regulations shall be in full text and the prescription for the use of each shall be included. Supplemental provisions or clauses published in agency acquisition regulations shall be numbered in the same manner in which FAR provisions and clauses are numbered except that—

(A) If it is included in an agency acquisition regulation that is published in the *Federal Register* and is codified in Title 48, *Code of Federal Regulations* (48 CFR), the number shall be preceded by the chapter number within 48 CFR assigned by the CFR staff; and

(B) The sequential number shall be “70” or a higher number (see 1.303).

(iii) The sequential number at the end of the number of a provision or clause that supplements the FAR, like its counterpart at the end of any FAR provision or clause number, indicates the subsection location of the provision or clause in Subpart 52.2 of the agency acquisition regulation that contains its full text. If, for example, an agency acquisition regulation contains only one provision followed by only one clause supplementing the FAR in its section 52.236 (Construction and Architect-Engineer Contracts), then the sequential numbers would be “70” for the provision and “71” for the clause.

(c) *Prescriptions.* Each provision or clause in Subpart 52.2 is prescribed at that place in the FAR text where the subject matter of the provision or clause receives its primary treat-

ment. The prescription includes all conditions, requirements, and instructions for using the provision or clause and its alternates, if any. The provision or clause may be referred to in other FAR locations.

(d) *Introductory text.* Within Subpart 52.2, the introductory text of each provision or clause includes a cross-reference to the location in the FAR subject text that prescribes its use.

(e) *Matrix.* (1) The matrix in Subpart 52.3 contains a column for each principal type and/or purpose of contract (*e.g.*, fixed-price supply, cost reimbursement research and development). The matrix lists the—

- (i) Required solicitation provisions;
- (ii) Required-when-applicable solicitation provisions;
- (iii) Optional solicitation provisions;
- (iv) Required contract clauses;
- (v) Required-when-applicable contract clauses; and
- (vi) Optional contract clauses.

(2) For each provision or clause listed, the matrix provides information on—

- (i) Whether incorporation by reference is or is not authorized (see 52.102);
- (ii) The section of the Uniform Contract Format (UCF) in which it is to be located, if it is used in an acquisition that is subject to the UCF;
- (iii) Its number;
- (iv) The citation of the FAR text that prescribes its use; and
- (v) Its title.

(3) Since the matrix does not provide sufficient information to determine the applicability of a provision or clause in the “required-when-applicable” and “optional” categories, contracting officers shall refer to the FAR text (cited in the matrix) that prescribes its use.

(4) The FAR matrix may be reproduced at agency levels, and at subordinate levels, for the purpose of supplementing it with agency-developed provisions and clauses. The resulting consolidated matrices may be included in agency acquisition regulations.

(f) *Dates.* Since they are subject to revision from time to time, all provisions, clauses, and alternates are dated; *e.g.*, (Dec 1983). To avoid questions concerning which version of any provision, clause, or alternate is operative in any given solicitation or contract, its date shall be included whether it is incorporated by reference or in full text.

### **52.102 Incorporating provisions and clauses.**

(a) Provisions and clauses should be incorporated by reference to the maximum practical extent, rather than being incorporated in full text, even if they—

- (1) Are used with one or more alternates or on an optional basis;

- (2) Are prescribed on a “substantially as follows” or “substantially the same as” basis, provided they are used verbatim;

- (3) Require modification or the insertion by the Government of fill-in material (see 52.104); or

- (4) Require completion by the offeror or prospective contractor. This instruction also applies to provisions completed as annual representations and certifications.

(b) Except for provisions and clauses prescribed in 52.107, any provision or clause that can be accessed electronically by the offeror or prospective contractor may be incorporated by reference in solicitations and/or contracts. However, the contracting officer, upon request, shall provide the full text of any provision or clause incorporated by reference.

(c) Agency approved provisions and clauses prescribed in agency acquisition regulations, and provisions and clauses not authorized by Subpart 52.3 to be incorporated by reference, need not be incorporated in full text, provided the contracting officer includes in the solicitation and contract a statement that—

- (1) Identifies all provisions and clauses that require completion by the offeror or prospective contractor;

- (2) Specifies that the provisions and clauses must be completed by the offeror or prospective contractor and must be submitted with the quotation or offer; and

- (3) Identifies to the offeror or prospective contractor at least one electronic address where the full text may be accessed.

(d) An agency may develop a group listing of provisions and clauses that apply to a specific category of contracts. An agency group listing may be incorporated by reference in solicitations and/or contracts in lieu of citing the provisions and clauses individually, provided the group listing is made available electronically to offerors and prospective contractors.

(e) A provision or clause that is not available electronically to offerors and prospective contractors shall be incorporated in solicitations and/or contracts in full text if it is—

- (1) A FAR provision or clause that otherwise is not authorized to be incorporated by reference (see Subpart 52.3); or

- (2) A provision or clause prescribed for use in an agency acquisition regulation.

(f) Provisions or clauses may not be incorporated by reference by being listed in the—

- (1) Provision at 52.252-3, Alterations in Solicitations; or

- (2) Clause at 52.252-4, Alterations in Contract.

### **52.103 Identification of provisions and clauses.**

(a) Whenever any FAR provision or clause is used without deviation in a solicitation or contract, whether it is incorporated by reference or in full text, it shall be identified by num-

ber, title, and date. This identification shall also be used if the FAR provision or clause is used with an authorized deviation, except that the contracting officer shall then insert “(DEVIATION)” after the date. Solicited firms and contractors will be advised of the meaning of this insertion through the use of the (1) provision at 52.252-5, Authorized Deviations in Provisions, or (2) clause at 52.252-6, Authorized Deviations in Clauses. The above mentioned provision and clause are prescribed in 52.107(e) and (f).

(b) Any provision or clause that supplements the FAR whether it is incorporated by reference or in full text shall be clearly identified by number, title, date, and name of the regulation. When a supplemental provision or clause is used with an authorized deviation, insert “(DEVIATION)” after the name of the regulation.

(c) A provision or clause of the type described in 52.101(b)(2)(i)(C) shall be identified by the title, date, and the name of the agency or suborganization within the agency that developed it.

(d) Except for provisions or clauses covered by 52.103(c), the following hypothetical examples illustrate how a provision or clause that supplements the FAR shall be identified when it is incorporated in solicitations and/or contracts by reference or in full text:

(1) If Part 14 (Sealed Bidding) of the X Agency Acquisition Regulation, published in the *Federal Register* and codified as Chapter 99 in 48 CFR, prescribes the use of a provision entitled “Bid Envelopes,” dated October 1983, and that provision is sequentially the first provision or clause appearing in Section 52.214 of the X Agency Acquisition Regulation, then the identification of that provision shall be “9952.214-70—Bid Envelopes (Oct 1983).”

(2) Assume that Y, a major organizational element of the X Agency, is authorized to issue the Y Acquisition Regulation, which is not published in the *Federal Register* and codified in 48 CFR. If Part 36 (Construction and Architect-Engineer Contracts) of the Y Acquisition Regulation prescribes the use of a clause entitled “Refrigerated Display Cases,” dated March 1983, pertaining to a specialized type of construction work, and that clause is sequentially the second provision or clause appearing in Section 52.236 of the Y Acquisition Regulation, then the identification of that clause shall be “52.236-71—Refrigerated Display Cases (Mar 1983)—Y Acquisition Regulation.”

#### **52.104 Procedures for modifying and completing provisions and clauses.**

(a) The contracting officer must not modify provisions and clauses unless the FAR authorizes their modification. For example—

(1) “The contracting officer may use a period shorter than 60 days (but not less than 30 days) in paragraph (x) of the clause”; or

(2) “The contracting officer may substitute the words ‘task order’ for the word ‘Schedule’ wherever that word appears in the clause.”

(b) When modifying provisions or clauses incorporated by reference, insert the changed wording directly below the title of the provision or clause identifying to the lowest level necessary (*e.g.*, paragraph, sentence, word), to clearly indicate what is being modified.

(c) When modifying provisions or clauses incorporated in full text, modify the language directly by substituting the changed wording as permitted.

(d) When completing blanks in provisions or clauses incorporated by reference, insert the fill-in information directly below the title of the provision or clause identifying to the lowest level necessary to clearly indicate the blanks being filled in.

(e) When completing blanks in provisions or clauses incorporated in full text, insert the fill-in information in the blanks of the provision or clause.

#### **52.105 Procedures for using alternates.**

(a) The FAR accommodates a major variation in a provision or clause by use of an alternate. The FAR prescribes alternates to a given provision or clause in the FAR subject text where the provision or clause is prescribed. The alternates to each provision or clause are titled “Alternate I,” “Alternate II,” “Alternate III,” etc.

(b) When an alternate is used, its date shall be cited along with the date of the basic provision or clause; *e.g.*, 52.209-3 First Article Approval—Contractor Testing (Oct 1983)—Alternate I (Dec 1983).

(c) Under certain circumstances, a provision or clause may be used with two or more alternates. In these circumstances, each of the applicable alternates shall be cited, whether incorporated by reference or in full text; *e.g.*, 52.209-3 First Article Approval—Contractor Testing (Oct 1983)—Alternate I (Dec 1983) and Alternate II (Feb 1984). However, under no circumstances may an alternate to a specific provision or clause be applied to any other provision or clause.

#### **52.106 [Reserved]**

#### **52.107 Provisions and clauses prescribed in Subpart 52.1.**

(a) The contracting officer shall insert the provision at 52.252-1, Solicitation Provisions Incorporated by Reference, in solicitations in order to incorporate provisions by reference.

(b) The contracting officer shall insert the clause at 52.252-2, Clauses Incorporated by Reference, in solicitations and contracts in order to incorporate clauses by reference.

(c) The contracting officer shall insert the provision at 52.252-3, Alterations in Solicitation, in solicitations in order to revise or supplement, as necessary, other parts of the solicitation that apply to the solicitation phase only, except for any provision authorized for use with a deviation.

(d) The contracting officer shall insert the clause at 52.252-4, Alterations in Contract, in solicitations and contracts in order to revise or supplement, as necessary, other parts of the contract, or parts of the solicitations that apply to the contract phase, except for any clause authorized for use with a deviation.

(e) The contracting officer shall insert the provision at 52.252-5, Authorized Deviations in Provisions, in solicitations that include any FAR or supplemental provision with an authorized deviation. Whenever any FAR or supplemental provision is used with an authorized deviation, the contract-

ing officer shall identify it by the same number, title, and date assigned to the provision when it is used without deviation, include regulation name for any supplemental provision, except that the contracting officer shall insert “(DEVIATION)” after the date of the provision.

(f) The contracting officer shall insert the clause at 52.252-6, Authorized Deviations in Clauses, in solicitations and contracts that include any FAR or supplemental clause with an authorized deviation. Whenever any FAR or supplemental clause is used with an authorized deviation, the contracting officer shall identify it by the same number, title, and date assigned to the clause when it is used without deviation, include regulation name for any supplemental clause, except that the contracting officer shall insert “(DEVIATION)” after the date of the clause.

**Subpart 52.2—Text of Provisions and Clauses**

**52.200 Scope of subpart.**

This subpart sets forth the text of all FAR provisions and clauses (see 52.101(b)(1)) and gives a cross-reference to the location in the FAR that prescribes the provision or clause.

**52.201 [Reserved]**

**52.202-1 Definitions.**

As prescribed in section 2.201, insert the following clause:

DEFINITIONS (DEC 2001)

(a) “Agency head” or “head of the agency” means the Secretary (Attorney General, Administrator, Governor, Chairperson, or other chief official, as appropriate) of the agency, unless otherwise indicated, including any deputy or assistant chief official of the executive agency.

(b) “Commercial component” means any component that is a commercial item.

(c) “Commercial item” means—

(1) Any item, other than real property, that is of a type customarily used by the general public or by non-governmental entities for purposes other than governmental purposes, and that—

(i) Has been sold, leased, or licensed to the general public; or

(ii) Has been offered for sale, lease, or license to the general public;

(2) Any item that evolved from an item described in paragraph (c)(1) of this clause through advances in technology or performance and that is not yet available in the commercial marketplace, but will be available in the commercial marketplace in time to satisfy the delivery requirements under a Government solicitation;

(3) Any item that would satisfy a criterion expressed in paragraphs (c)(1) or (c)(2) of this clause, but for—

(i) Modifications of a type customarily available in the commercial marketplace; or

(ii) Minor modifications of a type not customarily available in the commercial marketplace made to meet Federal Government requirements. “Minor” modifications means modifications that do not significantly alter the non-governmental function or essential physical characteristics of an item or component, or change the purpose of a process. Factors to be considered in determining whether a modification is minor include the value and size of the modification and the comparative value and size of the final product. Dollar values and percentages may be used as guideposts, but are not conclusive evidence that a modification is minor;

(4) Any combination of items meeting the requirements of paragraphs (c)(1), (2), (3), or (5) of this clause that are of a type customarily combined and sold in combination to the general public;

(5) Installation services, maintenance services, repair services, training services, and other services if—

(i) Such services are procured for support of an item referred to in paragraph (c)(1), (2), (3), or (4) of this definition, regardless of whether such services are provided by the same source or at the same time as the item; and

(ii) The source of such services provides similar services contemporaneously to the general public under terms and conditions similar to those offered to the Federal Government

(6) Services of a type offered and sold competitively in substantial quantities in the commercial marketplace based on established catalog or market prices for specific tasks performed under standard commercial terms and conditions. This does not include services that are sold based on hourly rates without an established catalog or market price for a specific service performed. For purposes of these services—

(i) “Catalog price” means a price included in a catalog, price list, schedule, or other form that is regularly maintained by the manufacturer or vendor, is either published or otherwise available for inspection by customers, and states prices at which sales are currently, or were last, made to a significant number of buyers constituting the general public; and

(ii) “Market prices” means current prices that are established in the course of ordinary trade between buyers and sellers free to bargain and that can be substantiated through competition or from sources independent of the offerors.

(7) Any item, combination of items, or service referred to in paragraphs (c)(1) through (c)(6), notwithstanding the fact that the item, combination of items, or service is transferred between or among separate divisions, subsidiaries, or affiliates of a Contractor; or

(8) A nondevelopmental item, if the procuring agency determines the item was developed exclusively at private expense and sold in substantial quantities, on a competitive basis, to multiple State and local Governments.

(d) “Component” means any item supplied to the Government as part of an end item or of another component, except that for use in 52.225-9, and 52.225-11 see the definitions in 52.225-9(a) and 52.225-11(a).

(e) “Contracting Officer” means a person with the authority to enter into, administer, and/or terminate contracts and make related determinations and findings. The term includes certain authorized representatives of the Contracting Officer acting within the limits of their authority as delegated by the Contracting Officer.

(f) “Nondevelopmental item” means—

(1) Any previously developed item of supply used exclusively for governmental purposes by a Federal agency, a State or local government, or a foreign government with which the United States has a mutual defense cooperation agreement;

(2) Any item described in paragraph (f)(1) of this definition that requires only minor modification or modifications of a type customarily available in the commercial marketplace in order to meet the requirements of the procuring department or agency; or

(3) Any item of supply being produced that does not meet the requirements of paragraph (f)(1) or (f)(2) solely because the item is not yet in use.

(g) Except as otherwise provided in this contract, the term “subcontracts” includes, but is not limited to, purchase orders and changes and modifications to purchase orders under this contract.

(End of clause)

*Alternate 1 (May 2001).* If the contract is for personal services; construction; architect-engineer services; or dismantling, demolition, or removal of improvements, delete paragraph (g) of the basic clause.

#### 52.203-1 [Reserved]

#### 52.203-2 Certificate of Independent Price Determination.

As prescribed in 3.103-1, insert the following provision. If the solicitation is a Request for Quotations, the terms “Quotation” and “Quoter” may be substituted for “Offer” and “Offeror.”

##### CERTIFICATE OF INDEPENDENT PRICE DETERMINATION (APR 1985)

(a) The offeror certifies that—

(1) The prices in this offer have been arrived at independently, without, for the purpose of restricting competition, any consultation, communication, or agreement with any other offeror or competitor relating to—

(i) Those prices;

(ii) The intention to submit an offer; or

(iii) The methods or factors used to calculate the prices offered.

(2) The prices in this offer have not been and will not be knowingly disclosed by the offeror, directly or indirectly, to any other offeror or competitor before bid opening (in the case of a sealed bid solicitation) or contract award (in the case of a negotiated solicitation) unless otherwise required by law; and

(3) No attempt has been made or will be made by the offeror to induce any other concern to submit or not to submit an offer for the purpose of restricting competition.

(b) Each signature on the offer is considered to be a certification by the signatory that the signatory—

(1) Is the person in the offeror’s organization responsible for determining the prices being offered in this bid or proposal, and that the signatory has not participated and will not participate in any action contrary to paragraphs (a)(1) through (a)(3) of this provision; or

(2)(i) Has been authorized, in writing, to act as agent for the following principals in certifying that those principals have not participated, and will not participate in any action contrary to paragraphs (a)(1) through (a)(3) of this provision  
\_\_\_\_\_ [insert full name of person(s) in the

offeror’s organization responsible for determining the prices offered in this bid or proposal, and the title of his or her position in the offeror’s organization];

(ii) As an authorized agent, does certify that the principals named in subdivision (b)(2)(i) of this provision have not participated, and will not participate, in any action contrary to paragraphs (a)(1) through (a)(3) of this provision; and

(iii) As an agent, has not personally participated, and will not participate, in any action contrary to paragraphs (a)(1) through (a)(3) of this provision.

(c) If the offeror deletes or modifies paragraph (a)(2) of this provision, the offeror must furnish with its offer a signed statement setting forth in detail the circumstances of the disclosure.

(End of provision)

#### 52.203-3 Gratuities.

As prescribed in 3.202, insert the following clause:

##### GRATUITIES (APR 1984)

(a) The right of the Contractor to proceed may be terminated by written notice if, after notice and hearing, the agency head or a designee determines that the Contractor, its agent, or another representative—

(1) Offered or gave a gratuity (*e.g.*, an entertainment or gift) to an officer, official, or employee of the Government; and

(2) Intended, by the gratuity, to obtain a contract or favorable treatment under a contract.

(b) The facts supporting this determination may be reviewed by any court having lawful jurisdiction.

(c) If this contract is terminated under paragraph (a) of this clause, the Government is entitled—

(1) To pursue the same remedies as in a breach of the contract; and

(2) In addition to any other damages provided by law, to exemplary damages of not less than 3 nor more than 10 times the cost incurred by the Contractor in giving gratuities to the person concerned, as determined by the agency head or a designee. (This paragraph (c)(2) is applicable only if this contract uses money appropriated to the Department of Defense.)

(d) The rights and remedies of the Government provided in this clause shall not be exclusive and are in addition to any other rights and remedies provided by law or under this contract.

(End of clause)

#### 52.203-4 [Reserved]

#### 52.203-5 Covenant Against Contingent Fees.

As prescribed in 3.404, insert the following clause:

## COVENANT AGAINST CONTINGENT FEES (APR 1984)

(a) The Contractor warrants that no person or agency has been employed or retained to solicit or obtain this contract upon an agreement or understanding for a contingent fee, except a bona fide employee or agency. For breach or violation of this warranty, the Government shall have the right to annul this contract without liability or, in its discretion, to deduct from the contract price or consideration, or otherwise recover, the full amount of the contingent fee.

(b) “Bona fide agency,” as used in this clause, means an established commercial or selling agency, maintained by a contractor for the purpose of securing business, that neither exerts nor proposes to exert improper influence to solicit or obtain Government contracts nor holds itself out as being able to obtain any Government contract or contracts through improper influence.

“Bona fide employee,” as used in this clause, means a person, employed by a contractor and subject to the contractor’s supervision and control as to time, place, and manner of performance, who neither exerts nor proposes to exert improper influence to solicit or obtain Government contracts nor holds out as being able to obtain any Government contract or contracts through improper influence.

“Contingent fee,” as used in this clause, means any commission, percentage, brokerage, or other fee that is contingent upon the success that a person or concern has in securing a Government contract.

“Improper influence,” as used in this clause, means any influence that induces or tends to induce a Government employee or officer to give consideration or to act regarding a Government contract on any basis other than the merits of the matter.

(End of clause)

**52.203-6 Restrictions on Subcontractor Sales to the Government.**

As prescribed in 3.503-2, insert the following clause:

## RESTRICTIONS ON SUBCONTRACTOR SALES TO THE GOVERNMENT (JUL 1995)

(a) Except as provided in (b) of this clause, the Contractor shall not enter into any agreement with an actual or prospective subcontractor, nor otherwise act in any manner, which has or may have the effect of restricting sales by such subcontractors directly to the Government of any item or process (including computer software) made or furnished by the subcontractor under this contract or under any follow-on production contract.

(b) The prohibition in (a) of this clause does not preclude the Contractor from asserting rights that are otherwise authorized by law or regulation.

(c) The Contractor agrees to incorporate the substance of this clause, including this paragraph (c), in all subcontracts under this contract which exceed \$100,000.

(End of clause)

*Alternate I (Oct 1995).* As prescribed in 3.503-2, substitute the following paragraph in place of paragraph (b) of the basic clause:

(b) The prohibition in paragraph (a) of this clause does not preclude the Contractor from asserting rights that are otherwise authorized by law or regulation. For acquisitions of commercial items, the prohibition in paragraph (a) applies only to the extent that any agreement restricting sales by subcontractors results in the Federal Government being treated differently from any other prospective purchaser for the sale of the commercial item(s).

**52.203-7 Anti-Kickback Procedures.**

As prescribed in 3.502-3, insert the following clause:

## ANTI-KICKBACK PROCEDURES (JUL 1995)

*(a) Definitions.*

“Kickback,” as used in this clause, means any money, fee, commission, credit, gift, gratuity, thing of value, or compensation of any kind which is provided, directly or indirectly, to any prime Contractor, prime Contractor employee, subcontractor, or subcontractor employee for the purpose of improperly obtaining or rewarding favorable treatment in connection with a prime contract or in connection with a subcontract relating to a prime contract.

“Person,” as used in this clause, means a corporation, partnership, business association of any kind, trust, joint-stock company, or individual.

“Prime contract,” as used in this clause, means a contract or contractual action entered into by the United States for the purpose of obtaining supplies, materials, equipment, or services of any kind.

“Prime Contractor” as used in this clause, means a person who has entered into a prime contract with the United States.

“Prime Contractor employee,” as used in this clause, means any officer, partner, employee, or agent of a prime Contractor.

“Subcontract,” as used in this clause, means a contract or contractual action entered into by a prime Contractor or subcontractor for the purpose of obtaining supplies, materials, equipment, or services of any kind under a prime contract.

“Subcontractor,” as used in this clause, (1) means any person, other than the prime Contractor, who offers to furnish or furnishes any supplies, materials, equipment, or services of any kind under a prime contract or a subcontract entered into in connection with such prime contract, and (2) includes any person who offers to furnish or furnishes general supplies to the prime Contractor or a higher tier subcontractor.

“Subcontractor employee,” as used in this clause, means any officer, partner, employee, or agent of a subcontractor.

(b) The Anti-Kickback Act of 1986 (41 U.S.C. 51-58) (the Act), prohibits any person from—

(1) Providing or attempting to provide or offering to provide any kickback;

(2) Soliciting, accepting, or attempting to accept any kickback; or

(3) Including, directly or indirectly, the amount of any kickback in the contract price charged by a prime Contractor to the United States or in the contract price charged by a subcontractor to a prime Contractor or higher tier subcontractor.

(c)(1) The Contractor shall have in place and follow reasonable procedures designed to prevent and detect possible violations described in paragraph (b) of this clause in its own operations and direct business relationships.

(2) When the Contractor has reasonable grounds to believe that a violation described in paragraph (b) of this clause may have occurred, the Contractor shall promptly report in writing the possible violation. Such reports shall be made to the inspector general of the contracting agency, the head of the contracting agency if the agency does not have an inspector general, or the Department of Justice.

(3) The Contractor shall cooperate fully with any Federal agency investigating a possible violation described in paragraph (b) of this clause.

(4) The Contracting Officer may (i) offset the amount of the kickback against any monies owed by the United States under the prime contract and/or (ii) direct that the Prime Contractor withhold from sums owed a subcontractor under the prime contract the amount of the kickback. The Contracting Officer may order that monies withheld under subdivision (c)(4)(ii) of this clause be paid over to the Government unless the Government has already offset those monies under subdivision (c)(4)(i) of this clause. In either case, the Prime Contractor shall notify the Contracting Officer when the monies are withheld.

(5) The Contractor agrees to incorporate the substance of this clause, including paragraph (c)(5) but excepting paragraph (c)(1), in all subcontracts under this contract which exceed \$100,000.

(End of clause)

#### **52.203-8 Cancellation, Rescission, and Recovery of Funds for Illegal or Improper Activity.**

As prescribed in 3.104-9(a), insert the following clause in solicitations and contracts:

##### **CANCELLATION, RESCISSION, AND RECOVERY OF FUNDS FOR ILLEGAL OR IMPROPER ACTIVITY (JAN 1997)**

(a) If the Government receives information that a contractor or a person has engaged in conduct constituting a violation of subsection (a), (b), (c), or (d) of section 27 of the Office of

Federal Procurement Policy Act (41 U.S.C. 423) (the Act), as amended by section 4304 of the National Defense Authorization Act for Fiscal Year 1996 (Pub. L. 104-106), the Government may—

(1) Cancel the solicitation, if the contract has not yet been awarded or issued; or

(2) Rescind the contract with respect to which—

(i) The Contractor or someone acting for the Contractor has been convicted for an offense where the conduct constitutes a violation of subsection 27(a) or (b) of the Act for the purpose of either—

(A) Exchanging the information covered by such subsections for anything of value; or

(B) Obtaining or giving anyone a competitive advantage in the award of a Federal agency procurement contract; or

(ii) The head of the contracting activity has determined, based upon a preponderance of the evidence, that the Contractor or someone acting for the Contractor has engaged in conduct constituting an offense punishable under subsection 27(e)(1) of the Act.

(b) If the Government rescinds the contract under paragraph (a) of this clause, the Government is entitled to recover, in addition to any penalty prescribed by law, the amount expended under the contract.

(c) The rights and remedies of the Government specified herein are not exclusive, and are in addition to any other rights and remedies provided by law, regulation, or under this contract.

(End of clause)

#### **52.203-9 [Reserved]**

#### **52.203-10 Price or Fee Adjustment for Illegal or Improper Activity.**

As prescribed in 3.104-9(b), insert the following clause:

##### **PRICE OR FEE ADJUSTMENT FOR ILLEGAL OR IMPROPER ACTIVITY (JAN 1997)**

(a) The Government, at its election, may reduce the price of a fixed-price type contract and the total cost and fee under a cost-type contract by the amount of profit or fee determined as set forth in paragraph (b) of this clause if the head of the contracting activity or designee determines that there was a violation of subsection 27(a), (b), or (c) of the Office of Federal Procurement Policy Act, as amended (41 U.S.C. 423), as implemented in section 3.104 of the Federal Acquisition Regulation.

(b) The price or fee reduction referred to in paragraph (a) of this clause shall be—

(1) For cost-plus-fixed-fee contracts, the amount of the fee specified in the contract at the time of award;

(2) For cost-plus-incentive-fee contracts, the target fee specified in the contract at the time of award, notwithstanding any minimum fee or “fee floor” specified in the contract;

(3) For cost-plus-award-fee contracts—

(i) The base fee established in the contract at the time of contract award;

(ii) If no base fee is specified in the contract, 30 percent of the amount of each award fee otherwise payable to the Contractor for each award fee evaluation period or at each award fee determination point.

(4) For fixed-price-incentive contracts, the Government may—

(i) Reduce the contract target price and contract target profit both by an amount equal to the initial target profit specified in the contract at the time of contract award; or

(ii) If an immediate adjustment to the contract target price and contract target profit would have a significant adverse impact on the incentive price revision relationship under the contract, or adversely affect the contract financing provisions, the Contracting Officer may defer such adjustment until establishment of the total final price of the contract. The total final price established in accordance with the incentive price revision provisions of the contract shall be reduced by an amount equal to the initial target profit specified in the contract at the time of contract award and such reduced price shall be the total final contract price.

(5) For firm-fixed-price contracts, by 10 percent of the initial contract price or a profit amount determined by the Contracting Officer from records or documents in existence prior to the date of the contract award.

(c) The Government may, at its election, reduce a prime contractor's price or fee in accordance with the procedures of paragraph (b) of this clause for violations of the Act by its subcontractors by an amount not to exceed the amount of profit or fee reflected in the subcontract at the time the subcontract was first definitively priced.

(d) In addition to the remedies in paragraphs (a) and (c) of this clause, the Government may terminate this contract for default. The rights and remedies of the Government specified herein are not exclusive, and are in addition to any other rights and remedies provided by law or under this contract.

(End of clause)

#### **52.203-11 Certification and Disclosure Regarding Payments to Influence Certain Federal Transactions.**

As prescribed in 3.808, insert the following provision:

CERTIFICATION AND DISCLOSURE REGARDING PAYMENTS  
TO INFLUENCE CERTAIN FEDERAL TRANSACTIONS  
(APR 1991)

(a) The definitions and prohibitions contained in the clause, at FAR 52.203-12, Limitation on Payments to Influence Certain Federal Transactions, included in this solicita-

tion, are hereby incorporated by reference in paragraph (b) of this certification.

(b) The offeror, by signing its offer, hereby certifies to the best of his or her knowledge and belief that on or after December 23, 1989—

(1) No Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress on his or her behalf in connection with the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment or modification of any Federal contract, grant, loan, or cooperative agreement;

(2) If any funds other than Federal appropriated funds (including profit or fee received under a covered Federal transaction) have been paid, or will be paid, to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress on his or her behalf in connection with this solicitation, the offeror shall complete and submit, with its offer, OMB standard form LLL, Disclosure of Lobbying Activities, to the Contracting Officer; and

(3) He or she will include the language of this certification in all subcontract awards at any tier and require that all recipients of subcontract awards in excess of \$100,000 shall certify and disclose accordingly.

(c) Submission of this certification and disclosure is a prerequisite for making or entering into this contract imposed by section 1352, title 31, United States Code. Any person who makes an expenditure prohibited under this provision or who fails to file or amend the disclosure form to be filed or amended by this provision, shall be subject to a civil penalty of not less than \$10,000, and not more than \$100,000, for each such failure.

(End of provision)

#### **52.203-12 Limitation on Payments to Influence Certain Federal Transactions.**

As prescribed in 3.808, insert the following clause:

LIMITATION ON PAYMENTS TO INFLUENCE CERTAIN  
FEDERAL TRANSACTIONS (JUN 1997)

(a) *Definitions.*

“Agency,” as used in this clause, means executive agency as defined in 2.101.

“Covered Federal action,” as used in this clause, means any of the following Federal actions:

- (1) The awarding of any Federal contract.
- (2) The making of any Federal grant.
- (3) The making of any Federal loan.

(4) The entering into of any cooperative agreement.

(5) The extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement.

“Indian tribe” and “tribal organization,” as used in this clause, have the meaning provided in section 4 of the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450B) and include Alaskan Natives.

“Influencing or attempting to influence,” as used in this clause, means making, with the intent to influence, any communication to or appearance before an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with any covered Federal action.

“Local government,” as used in this clause, means a unit of government in a State and, if chartered, established, or otherwise recognized by a State for the performance of a governmental duty, including a local public authority, a special district, an intrastate district, a council of governments, a sponsor group representative organization, and any other instrumentality of a local government.

“Officer or employee of an agency,” as used in this clause, includes the following individuals who are employed by an agency:

(1) An individual who is appointed to a position in the Government under Title 5, United States Code, including a position under a temporary appointment.

(2) A member of the uniformed services, as defined in subsection 101(3), Title 37, United States Code.

(3) A special Government employee, as defined in section 202, Title 18, United States Code.

(4) An individual who is a member of a Federal advisory committee, as defined by the Federal Advisory Committee Act, Title 5, United States Code, appendix 2.

“Person,” as used in this clause, means an individual, corporation, company, association, authority, firm, partnership, society, State, and local government, regardless of whether such entity is operated for profit, or not for profit. This term excludes an Indian tribe, tribal organization, or any other Indian organization with respect to expenditures specifically permitted by other Federal law.

“Reasonable compensation,” as used in this clause, means, with respect to a regularly employed officer or employee of any person, compensation that is consistent with the normal compensation for such officer or employee for work that is not furnished to, not funded by, or not furnished in cooperation with the Federal Government.

“Reasonable payment,” as used in this clause, means, with respect to professional and other technical services, a payment in an amount that is consistent with the amount normally paid for such services in the private sector.

“Recipient,” as used in this clause, includes the Contractor and all subcontractors. This term excludes an Indian tribe,

tribal organization, or any other Indian organization with respect to expenditures specifically permitted by other Federal law.

“Regularly employed,” as used in this clause, means, with respect to an officer or employee of a person requesting or receiving a Federal contract, an officer or employee who is employed by such person for at least 130 working days within 1 year immediately preceding the date of the submission that initiates agency consideration of such person for receipt of such contract. An officer or employee who is employed by such person for less than 130 working days within 1 year immediately preceding the date of the submission that initiates agency consideration of such person shall be considered to be regularly employed as soon as he or she is employed by such person for 130 working days.

“State,” as used in this clause, means a State of the United States, the District of Columbia, the Commonwealth of Puerto Rico, a territory or possession of the United States, an agency or instrumentality of a State, and multi-State, regional, or interstate entity having governmental duties and powers.

(b) *Prohibitions.* (1) Section 1352 of Title 31, United States Code, among other things, prohibits a recipient of a Federal contract, grant, loan, or cooperative agreement from using appropriated funds to pay any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with any of the following covered Federal actions: the awarding of any Federal contract; the making of any Federal grant; the making of any Federal loan; the entering into of any cooperative agreement; or the modification of any Federal contract, grant, loan, or cooperative agreement.

(2) The Act also requires Contractors to furnish a disclosure if any funds other than Federal appropriated funds (including profit or fee received under a covered Federal transaction) have been paid, or will be paid, to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with a Federal contract, grant, loan, or cooperative agreement.

(3) The prohibitions of the Act do not apply under the following conditions: (i) *Agency and legislative liaison by own employees.* (A) The prohibition on the use of appropriated funds, in paragraph (b)(1) of this clause, does not apply in the case of a payment of reasonable compensation made to an officer or employee of a person requesting or receiving a covered Federal action if the payment is for agency and legislative liaison activities not directly related to a covered Federal action.

(B) For purposes of subdivision (b)(3)(i)(A) of this clause, providing any information specifically requested by an agency or Congress is permitted at any time.

(C) The following agency and legislative liaison activities are permitted at any time where they are not related to a specific solicitation for any covered Federal action:

(1) Discussing with an agency the qualities and characteristics (including individual demonstrations) of the person's products or services, conditions or terms of sale, and service capabilities.

(2) Technical discussions and other activities regarding the application or adaptation of the person's products or services for an agency's use.

(D) The following agency and legislative liaison activities are permitted where they are prior to formal solicitation of any covered Federal action—

(1) Providing any information not specifically requested but necessary for an agency to make an informed decision about initiation of a covered Federal action;

(2) Technical discussions regarding the preparation of an unsolicited proposal prior to its official submission; and

(3) Capability presentations by persons seeking awards from an agency pursuant to the provisions of the Small Business Act, as amended by Pub. L. 95-507, and subsequent amendments.

(E) Only those services expressly authorized by subdivision (b)(3)(i)(A) of this clause are permitted under this clause.

(ii) *Professional and technical services.* (A) The prohibition on the use of appropriated funds, in paragraph (b)(1) of this clause, does not apply in the case of—

(1) A payment of reasonable compensation made to an officer or employee of a person requesting or receiving a covered Federal action or an extension, continuation, renewal, amendment, or modification of a covered Federal action, if payment is for professional or technical services rendered directly in the preparation, submission, or negotiation of any bid, proposal, or application for that Federal action or for meeting requirements imposed by or pursuant to law as a condition for receiving that Federal action.

(2) Any reasonable payment to a person, other than an officer or employee of a person requesting or receiving a covered Federal action or an extension, continuation, renewal, amendment, or modification of a covered Federal action if the payment is for professional or technical services rendered directly in the preparation, submission, or negotiation of any bid, proposal, or application for that Federal action or for meeting requirements imposed by or pursuant to law as a condition for receiving that Federal action. Persons other than officers or employees of a person requesting or receiving a covered Federal action include consultants and trade associations.

(B) For purposes of subdivision (b)(3)(ii)(A) of this clause, "professional and technical services" shall be limited to advice and analysis directly applying any professional or technical discipline. For example, drafting of a legal document accompanying a bid or proposal by a lawyer is allowable. Similarly, technical advice provided by an engineer on the performance or operational capability of a piece of equipment rendered directly in the negotiation of a contract is allowable. However, communications with the intent to influence made by a professional (such as a licensed lawyer) or a technical person (such as a licensed accountant) are not allowable under this section unless they provide advice and analysis directly applying their professional or technical expertise and unless the advice or analysis is rendered directly and solely in the preparation, submission or negotiation of a covered Federal action. Thus, for example, communications with the intent to influence made by a lawyer that do not provide legal advice or analysis directly and solely related to the legal aspects of his or her client's proposal, but generally advocate one proposal over another are not allowable under this section because the lawyer is not providing professional legal services. Similarly, communications with the intent to influence made by an engineer providing an engineering analysis prior to the preparation or submission of a bid or proposal are not allowable under this section since the engineer is providing technical services but not directly in the preparation, submission or negotiation of a covered Federal action.

(C) Requirements imposed by or pursuant to law as a condition for receiving a covered Federal award include those required by law or regulation and any other requirements in the actual award documents.

(D) Only those services expressly authorized by subdivisions (b)(3)(ii)(A)(1) and (2) of this clause are permitted under this clause.

(E) The reporting requirements of FAR 3.803(a) shall not apply with respect to payments of reasonable compensation made to regularly employed officers or employees of a person.

(c) *Disclosure.* (1) The Contractor who requests or receives from an agency a Federal contract shall file with that agency a disclosure form, OMB standard form LLL, Disclosure of Lobbying Activities, if such person has made or has agreed to make any payment using nonappropriated funds (to include profits from any covered Federal action), which would be prohibited under paragraph (b)(1) of this clause, if paid for with appropriated funds.

(2) The Contractor shall file a disclosure form at the end of each calendar quarter in which there occurs any event that materially affects the accuracy of the information contained in any disclosure form previously filed by such person under paragraph (c)(1) of this clause. An event that materially affects the accuracy of the information reported includes—

(i) A cumulative increase of \$25,000 or more in the amount paid or expected to be paid for influencing or attempting to influence a covered Federal action; or

(ii) A change in the person(s) or individual(s) influencing or attempting to influence a covered Federal action; or

(iii) A change in the officer(s), employee(s), or Member(s) contacted to influence or attempt to influence a covered Federal action.

(3) The Contractor shall require the submittal of a certification, and if required, a disclosure form by any person who requests or receives any subcontract exceeding \$100,000 under the Federal contract.

(4) All subcontractor disclosure forms (but not certifications) shall be forwarded from tier to tier until received by the prime Contractor. The prime Contractor shall submit all disclosures to the Contracting Officer at the end of the calendar quarter in which the disclosure form is submitted by the subcontractor. Each subcontractor certification shall be retained in the subcontract file of the awarding Contractor.

(d) *Agreement.* The Contractor agrees not to make any payment prohibited by this clause.

(e) *Penalties.* (1) Any person who makes an expenditure prohibited under paragraph (a) of this clause or who fails to file or amend the disclosure form to be filed or amended by paragraph (b) of this clause shall be subject to civil penalties as provided for by 31 U.S.C. 1352. An imposition of a civil penalty does not prevent the Government from seeking any other remedy that may be applicable.

(2) Contractors may rely without liability on the representation made by their subcontractors in the certification and disclosure form.

(f) *Cost allowability.* Nothing in this clause makes allowable or reasonable any costs which would otherwise be unallowable or unreasonable. Conversely, costs made specifically unallowable by the requirements in this clause will not be made allowable under any other provision.

(End of clause)

#### 52.204-1 Approval of Contract.

As prescribed in 4.103, insert the following clause:

##### APPROVAL OF CONTRACT (DEC 1989)

This contract is subject to the written approval of [*identify title of designated agency official here*] and shall not be binding until so approved.

(End of clause)

#### 52.204-2 Security Requirements.

As prescribed in 4.404(a), insert the following clause:

##### SECURITY REQUIREMENTS (AUG 1996)

(a) This clause applies to the extent that this contract involves access to information classified "Confidential," "Secret," or "Top Secret."

(b) The Contractor shall comply with—

(1) The Security Agreement (DD Form 441), including the *National Industrial Security Program Operating Manual* (DOD 5220.22-M); and

(2) Any revisions to that manual, notice of which has been furnished to the Contractor.

(c) If, subsequent to the date of this contract, the security classification or security requirements under this contract are changed by the Government and if the changes cause an increase or decrease in security costs or otherwise affect any other term or condition of this contract, the contract shall be subject to an equitable adjustment as if the changes were directed under the Changes clause of this contract.

(d) The Contractor agrees to insert terms that conform substantially to the language of this clause, including this paragraph (d) but excluding any reference to the Changes clause of this contract, in all subcontracts under this contract that involve access to classified information.

(End of clause)

*Alternate I (Apr 1984).* If a cost contract for research and development with an educational institution is contemplated, add the following paragraphs (e), (f), and (g) to the basic clause:

(e) If a change in security requirements, as provided in paragraphs (b) and (c), results (1) in a change in the security classification of this contract or any of its elements from an unclassified status or a lower classification to a higher classification, or (2) in more restrictive area controls than previously required, the Contractor shall exert every reasonable effort compatible with the Contractor's established policies to continue the performance of work under the contract in compliance with the change in security classification or requirements. If, despite reasonable efforts, the Contractor determines that the continuation of work under this contract is not practicable because of the change in security classification or requirements, the Contractor shall notify the Contracting Officer in writing. Until resolution of the problem is made by the Contracting Officer, the Contractor shall continue safeguarding all classified material as required by this contract.

(f) After receiving the written notification, the Contracting Officer shall explore the circumstances surrounding the proposed change in security classification or requirements, and shall endeavor to work out a mutually satisfactory method whereby the Contractor can continue performance of the work under this contract.

(g) If, 15 days after receipt by the Contracting Officer of the notification of the Contractor's stated inability to proceed, (1) the application to this contract of the change in security classification or requirements has not been withdrawn, or (2) a

mutually satisfactory method for continuing performance of work under this contract has not been agreed upon, the Contractor may request the Contracting Officer to terminate the contract in whole or in part. The Contracting Officer shall terminate the contract in whole or in part, as may be appropriate, and the termination shall be deemed a termination under the terms of the Termination for the Convenience of the Government clause.

*Alternate II (Apr 1984).* If employee identification is required for security or other reasons in a construction contract or architect-engineer contract, add the following paragraph (e) to the basic clause:

(e) The Contractor shall be responsible for furnishing to each employee and for requiring each employee engaged on the work to display such identification as may be approved and directed by the Contracting Officer. All prescribed identification shall immediately be delivered to the Contracting Officer, for cancellation upon the release of any employee. When required by the Contracting Officer, the Contractor shall obtain and submit fingerprints of all persons employed or to be employed on the project.

### 52.204-3 Taxpayer Identification.

As prescribed in 4.905, insert the following provision:

#### TAXPAYER IDENTIFICATION (OCT 1998)

##### (a) *Definitions.*

“Common parent,” as used in this provision, means that corporate entity that owns or controls an affiliated group of corporations that files its Federal income tax returns on a consolidated basis, and of which the offeror is a member.

“Taxpayer Identification Number (TIN),” as used in this provision, means the number required by the Internal Revenue Service (IRS) to be used by the offeror in reporting income tax and other returns. The TIN may be either a Social Security Number or an Employer Identification Number.

(b) All offerors must submit the information required in paragraphs (d) through (f) of this provision to comply with debt collection requirements of 31 U.S.C. 7701(c) and 3325(d), reporting requirements of 26 U.S.C. 6041, 6041A, and 6050M, and implementing regulations issued by the IRS. If the resulting contract is subject to the payment reporting requirements described in Federal Acquisition Regulation (FAR) 4.904, the failure or refusal by the offeror to furnish the information may result in a 31 percent reduction of payments otherwise due under the contract.

(c) The TIN may be used by the Government to collect and report on any delinquent amounts arising out of the offeror’s relationship with the Government (31 U.S.C. 7701(c)(3)). If the resulting contract is subject to the payment reporting requirements described in FAR 4.904, the TIN provided hereunder may be matched with IRS records to verify the accuracy of the offeror’s TIN.

##### (d) *Taxpayer Identification Number (TIN).*

TIN: \_\_\_\_\_.

- TIN has been applied for.
- TIN is not required because:
- Offeror is a nonresident alien, foreign corporation, or foreign partnership that does not have income effectively connected with the conduct of a trade or business in the United States and does not have an office or place of business or a fiscal paying agent in the United States;
- Offeror is an agency or instrumentality of a foreign government;
- Offeror is an agency or instrumentality of the Federal Government.

##### (e) *Type of organization.*

- Sole proprietorship;
- Partnership;
- Corporate entity (not tax-exempt);
- Corporate entity (tax-exempt);
- Government entity (Federal, State, or local);
- Foreign government;
- International organization per 26 CFR 1.6049-4;
- Other \_\_\_\_\_.

##### (f) *Common parent.*

- Offeror is not owned or controlled by a common parent as defined in paragraph (a) of this provision.
- Name and TIN of common parent:  
Name \_\_\_\_\_  
TIN \_\_\_\_\_

(End of provision)

### 52.204-4 Printed or Copied Double-Sided on Recycled Paper.

As prescribed in 4.303, insert the following clause:

#### PRINTED OR COPIED DOUBLE-SIDED ON RECYCLED PAPER (AUG 2000)

##### (a) *Definitions.* As used in this clause—

“Postconsumer material” means a material or finished product that has served its intended use and has been discarded for disposal or recovery, having completed its life as a consumer item. Postconsumer material is a part of the broader category of “recovered material.” For paper and paper products, postconsumer material means “postconsumer fiber” defined by the U.S. Environmental Protection Agency (EPA) as—

- (1) Paper, paperboard, and fibrous materials from retail stores, office buildings, homes, and so forth, after they have passed through their end-usage as a consumer item, including: used corrugated boxes; old newspapers; old magazines; mixed waste paper; tabulating cards; and used cordage; or
- (2) All paper, paperboard, and fibrous materials that enter and are collected from municipal solid waste; but not
- (3) Fiber derived from printers’ over-runs, converters’ scrap, and over-issue publications.

“Printed or copied double-sided” means printing or reproducing a document so that information is on both sides of a sheet of paper.

“Recovered material,” for paper and paper products, is defined by EPA in its Comprehensive Procurement Guideline as “recovered fiber” and means the following materials:

- (1) Postconsumer fiber; and
- (2) Manufacturing wastes such as—

(i) Dry paper and paperboard waste generated after completion of the papermaking process (that is, those manufacturing operations up to and including the cutting and trimming of the paper machine reel into smaller rolls or rough sheets) including: envelope cuttings, bindery trimmings, and other paper and paperboard waste resulting from printing, cutting, forming, and other converting operations; bag, box, and carton manufacturing wastes; and butt rolls, mill wrappers, and rejected unused stock; and

(ii) Repulped finished paper and paperboard from obsolete inventories of paper and paperboard manufacturers, merchants, wholesalers, dealers, printers, converters, or others.

(b) In accordance with Section 101 of Executive Order 13101 of September 14, 1998, Greening the Government through Waste Prevention, Recycling, and Federal Acquisition, the Contractor is encouraged to submit paper documents, such as offers, letters, or reports, that are printed or copied double-sided on recycled paper that meet minimum content standards specified in Section 505 of Executive Order 13101, when not using electronic commerce methods to submit information or data to the Government.

(c) If the Contractor cannot purchase high-speed copier paper, offset paper, forms bond, computer printout paper, carbonless paper, file folders, white wove envelopes, writing and office paper, book paper, cotton fiber paper, and cover stock meeting the 30 percent postconsumer material standard for use in submitting paper documents to the Government, it should use paper containing no less than 20 percent postconsumer material. This lesser standard should be used only when paper meeting the 30 percent postconsumer material standard is not obtainable at a reasonable price or does not meet reasonable performance standards.

(End of clause)

#### **52.204-5 Women-Owned Business (Other Than Small Business).**

As prescribed in 4.603(b), insert the following provision:

##### **WOMEN-OWNED BUSINESS (OTHER THAN SMALL BUSINESS) (MAY 1999)**

(a) *Definition.* “Women-owned business concern,” as used in this provision, means a concern that is at least 51 per-

cent owned by one or more women; or in the case of any publicly owned business, at least 51 percent of its stock is owned by one or more women; and whose management and daily business operations are controlled by one or more women.

(b) *Representation.* [Complete only if the offeror is a women-owned business concern and has not represented itself as a small business concern in paragraph (b)(1) of FAR 52.219-1, Small Business Program Representations, of this solicitation.] The offeror represents that it  is a women-owned business concern.

(End of provision)

#### **52.204-6 Data Universal Numbering System (DUNS) Number.**

As prescribed in 4.603(a), insert the following provision:

##### **DATA UNIVERSAL NUMBERING SYSTEM (DUNS) NUMBER (JUNE 1999)**

(a) The offeror shall enter, in the block with its name and address on the cover page of its offer, the annotation “DUNS” followed by the DUNS number that identifies the offeror’s name and address exactly as stated in the offer. The DUNS number is a nine-digit number assigned by Dun and Bradstreet Information Services.

(b) If the offeror does not have a DUNS number, it should contact Dun and Bradstreet directly to obtain one. A DUNS number will be provided immediately by telephone at no charge to the offeror. For information on obtaining a DUNS number, the offeror, if located within the United States, should call Dun and Bradstreet at 1-800-333-0505. The offeror should be prepared to provide the following information:

- (1) Company name.
- (2) Company address.
- (3) Company telephone number.
- (4) Line of business.
- (5) Chief executive officer/key manager.
- (6) Date the company was started.
- (7) Number of people employed by the company.
- (8) Company affiliation.

(c) Offerors located outside the United States may obtain the location and phone number of the local Dun and Bradstreet Information Services office from the Internet home page at <http://www.customerservice@dnb.com>. If an offeror is unable to locate a local service center, it may send an e-mail to Dun and Bradstreet at [globalinfo@mail.dnb.com](mailto:globalinfo@mail.dnb.com).

(End of provision)

#### **52.205 [Reserved]**

#### **52.206 [Reserved]**

**52.207-1 Notice of Cost Comparison (Sealed-Bid).**

As prescribed in 7.305(a), insert the following provision:

## NOTICE OF COST COMPARISON (SEALED-BID) (FEB 1993)

(a) This solicitation is part of a Government cost comparison to determine whether accomplishing the specified work under contract or by Government performance is more economical. If Government performance is determined to be more economical, this solicitation will be canceled and no contract will be awarded.

(b) The Government's cost estimate for performance by the Government will be based on the work statement in this solicitation and will be submitted by designated agency personnel to the Contracting Officer in a sealed envelope not later than the time set for bid opening. At the public bid opening, the Contracting Officer will open the bids and the envelope containing the cost estimate for Government performance and announce the result. This announcement will be based on an initial comparison of the cost of Government performance with the cost of contract performance, as indicated on the cost comparison form.

(c) The abstract of bids, completed cost comparison form, and detailed data supporting the cost estimate for Government performance will be made available to interested parties for review for a period of \_\_\_\_\_ [*insert a number from 15 to 30, depending on the complexity of the matter (see 7.306(a)(1)(iv))*] working days, beginning with the date the documents are available to interested parties. The Government will not make a final determination either for contract or Government performance during this period. During this period, directly affected parties may file with the Contracting Officer written requests, based on specific objections, for administrative review of the cost comparison result under the agency appeals procedures. The appeals procedure shall be used only to resolve questions concerning the calculation of the cost comparison and will not apply to decisions regarding selection of one bidder in preference to another. Agency determinations under the appeals procedure shall be final.

(d) After evaluation of bids and resolution of any requests under the appeals procedure, the Contracting Officer will either award a contract or cancel this solicitation. The completed cost comparison analysis will be made available to interested parties.

(e) A cost estimate for Government performance is considered a bid for purposes of this solicitation's Late Modifications of Bids or Withdrawal of Bids provision, and a late modification that displaces an otherwise low cost estimate for Government performance shall not be considered.

(End of provision)

**52.207-2 Notice of Cost Comparison (Negotiated).**

As prescribed in 7.305(b), insert the following provision:

## NOTICE OF COST COMPARISON (NEGOTIATED) (FEB 1993)

(a) This solicitation is part of a Government cost comparison to determine whether accomplishing the specified work under contract or by Government performance is more economical. If Government performance is determined to be more economical, this solicitation will be canceled and no contract will be awarded.

(b) The Government's cost estimate for performance by the Government will be based on the work statement in this solicitation and will be submitted by designated agency personnel to the Contracting Officer in a sealed envelope not later than the time set for receipt of initial proposals.

(c) After completion of proposal evaluation, negotiation, and selection of the most advantageous proposal, the Contracting Officer, in the presence of the preparer of the cost estimate for Government performance, will open the sealed cost estimate envelope. These officials will make a cost comparison before public announcement. Depending on whether the cost comparison result favors performance under contract or Government performance, the procedure in either paragraph (1) or (2) following applies:

(1) If the result of the cost comparison favors performance under contract and administrative approval is obtained, the Contracting Officer will award a contract and publicly reveal the completed cost comparison form showing the cost estimate for Government performance, its detailed supporting data, and the Contractor's name. However, this award is conditioned on the offer remaining the more economical alternative after (i) completion of a public review period of \_\_\_\_\_ [*insert a numeral from 15 to 30, depending upon the complexity of the matter (see 7.306(b)(3))*] working days beginning with the date this information is available to interested parties and (ii) resolution of any requests for review under the agency appeals procedure (see paragraph (d) of this section). The Government assumes no liability for costs incurred during the periods specified in (i) and (ii). The Contracting Officer will then either notify the Contractor in writing that it may proceed with performance of the contract or will cancel the contract at no cost to the Government.

(2) If the result of the cost comparison favors Government performance, the Contracting Officer will publicly disclose this result, the completed cost comparison form and its detailed supporting data, and the price of the offer most advantageous to the Government. After (i) completion of a public review period of \_\_\_\_\_ [*insert a numeral from 15 to 30, depending upon the complexity of the matter (see 7.306(b)(3))*] working days beginning with the date this information is available to interested parties and (ii) resolution of any requests for review under the agency appeals procedure (see paragraph (d) of this section), the Contracting Officer will either cancel this solicitation or award a contract, as appropriate.

(d) During the public review period, directly affected parties may file with the Contracting Officer written requests, based on specific objections, for administrative review of the cost comparison result under the agency appeals procedure. The appeals procedure shall be used only to resolve questions concerning the calculation of the cost comparison and will not apply to questions concerning award to one offeror in preference to another. Agency determinations under the appeals procedure shall be final.

(e) A cost estimate for Government performance is considered a proposal for purposes of this solicitation's Late Submissions, Modifications, and Withdrawal of Proposals or Quotations provision, and a late modification that displaces an otherwise low cost estimate for Government performance shall not be considered.

(End of provision)

**52.207-3 Right of First Refusal of Employment.**

As prescribed in 7.305(c), insert the following clause:

**RIGHT OF FIRST REFUSAL OF EMPLOYMENT (NOV 1991)**

(a) The Contractor shall give Government employees who have been or will be adversely affected or separated as a result of award of this contract the right of first refusal for employment openings under the contract in positions for which they are qualified, if that employment is consistent with post-Government employment conflict of interest standards.

(b) Within 10 days after contract award, the Contracting Officer will provide to the Contractor a list of all Government employees who have been or will be adversely affected or separated as a result of award of this contract.

(c) The Contractor shall report to the Contracting Officer the names of individuals identified on the list who are hired within 90 days after contract performance begins. This report shall be forwarded within 120 days after contract performance begins.

(End of clause)

**52.207-4 Economic Purchase Quantity—Supplies.**

As prescribed in 7.203, insert the following provision:

**ECONOMIC PURCHASE QUANTITY—SUPPLIES (AUG 1987)**

(a) Offerors are invited to state an opinion on whether the quantity(ies) of supplies on which bids, proposals or quotes are requested in this solicitation is (are) economically advantageous to the Government

\_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_

(b) Each offeror who believes that acquisitions in different quantities would be more advantageous is invited to recom-

mend an economic purchase quantity. If different quantities are recommended, a total and a unit price must be quoted for applicable items. An economic purchase quantity is that quantity at which a significant price break occurs. If there are significant price breaks at different quantity points, this information is desired as well.

OFFEROR RECOMMENDATIONS			
Item	Quantity	Price Quotation	Total

(c) The information requested in this provision is being solicited to avoid acquisitions in disadvantageous quantities and to assist the Government in developing a data base for future acquisitions of these items. However, the Government reserves the right to amend or cancel the solicitation and resolicit with respect to any individual item in the event quotations received and the Government's requirements indicate that different quantities should be acquired.

(End of provision)

**52.207-5 Option to Purchase Equipment.**

As prescribed in 7.404, insert a clause substantially the same as the following:

**OPTION TO PURCHASE EQUIPMENT (FEB 1995)**

(a) The Government may purchase the equipment provided on a lease or rental basis under this contract. The Contracting Officer may exercise this option only by providing a unilateral modification to the Contractor. The effective date of the purchase will be specified in the unilateral modification and may be any time during the period of the contract, including any extensions thereto.

(b) Except for final payment and transfer of title to the Government, the lease or rental portion of the contract becomes complete and lease or rental charges shall be discontinued on the day immediately preceding the effective date of purchase specified in the unilateral modification required in paragraph (a) of this clause.

(c) The purchase conversion cost of the equipment shall be computed as of the effective date specified in the unilateral modification required in paragraph (a) of this clause, on the basis of the purchase price set forth in the contract, minus the total purchase option credits accumulated during the period of lease or rental, calculated by the formula contained elsewhere in this contract.

(d) The accumulated purchase option credits available to determine the purchase conversion cost will also include any

credits accrued during a period of lease or rental of the equipment under any previous Government contract if the equipment has been on continuous lease or rental. The movement of equipment from one site to another site shall be “continuous rental.”

**52.208-1 [Reserved]**

**52.208-2 [Reserved]**

**52.208-3 [Reserved]**

**52.208-4 Vehicle Lease Payments.**

As prescribed in 8.1104(a), insert the following clause in solicitations and contracts for leasing motor vehicles, unless the motor vehicles are leased in foreign countries:

VEHICLE LEASE PAYMENTS (APR 1984)

(a) Upon the submission of proper invoices or vouchers, the Government shall pay rent for each vehicle at the rate(s) specified in this contract.

(b) Rent shall accrue from the beginning of this contract, or from the date each vehicle is delivered to the Government, whichever is later, and shall continue until the expiration of the contract term or the termination of this contract. However, rent shall accrue only for the period that each vehicle is in the possession of the Government.

(c) Rent shall not accrue for any vehicle that the Contracting Officer determines does not comply with the Condition of Leased Vehicles clause of this contract or otherwise does not comply with the requirements of this contract, until the vehicle is replaced or the defects are corrected.

(d) Rent shall not accrue for any vehicle during any period when the vehicle is unavailable or unusable as a result of the Contractor’s failure to render services for the operation and maintenance of the vehicle as prescribed by this contract.

(e) Rent stated in monthly terms shall be prorated on the basis of 1/30th of the monthly rate for each day the vehicle is in the Government’s possession. If this contract contains a mileage provision, the Government shall pay rent as provided in the Schedule.

(End of clause)

**52.208-5 Condition of Leased Vehicles.**

As prescribed in 8.1104(b), insert the following clause in solicitations and contracts for leasing motor vehicles, unless the motor vehicles are leased in foreign countries:

CONDITION OF LEASED VEHICLES (APR 1984)

Each vehicle furnished under this contract shall be of good quality and in safe operating condition, and shall comply with the Federal Motor Vehicle Safety Standards (49 CFR 571) and

State safety regulations applicable to the vehicle. The Government shall accept or reject the vehicles promptly after receipt. If the Contracting Officer determines that any vehicle furnished is not in compliance with this contract, the Contracting Officer shall promptly inform the Contractor in writing. If the Contractor fails to replace the vehicle or correct the defects as required by the Contracting Officer, the Government may—

(a) By contract or otherwise, correct the defect or arrange for the lease of a similar vehicle and shall charge or set off against the Contractor any excess costs occasioned thereby; or

(b) Terminate the contract under the Default clause of this contract.

(End of clause)

**52.208-6 Marking of Leased Vehicles.**

As prescribed in 8.1104(c), insert the following clause in solicitations and contracts for leasing motor vehicles, unless the motor vehicles are leased in foreign countries:

MARKING OF LEASED VEHICLES (APR 1984)

(a) The Government may place nonpermanent markings or decals, identifying the using agency, on each side, and on the front and rear bumpers, of any motor vehicle leased under this contract. The Government shall use markings or decals that are removable without damage to the vehicle.

(b) The Contractor may use placards for temporary identification of vehicles except that the placards may not contain any references to the Contractor that may be construed as advertising or endorsement by the Government of the Contractor.

(End of clause)

**52.208-7 Tagging of Leased Vehicles.**

As prescribed in 8.1104(d), insert a clause substantially as follows:

TAGGING OF LEASED VEHICLES (MAY 1986)

While it is the intent that vehicles leased under this contract will operate on Federal tags, the Government reserves the right to utilize State tags if necessary to accomplish its mission. Should State tags be required, the Contractor shall furnish the Government documentation necessary to allow acquisition of such tags. Federal tags are the responsibility of the Government.

(End of clause)

**52.208-8 Helium Requirement Forecast and Required Sources for Helium.**

As prescribed in 8.505, insert the following clause:

HELIUM REQUIREMENT FORECAST AND REQUIRED SOURCES FOR HELIUM (JUNE 1997)

(a) *Definitions.*

“Bureau helium distributor” means a private helium distributor which has established and maintains eligibility to distribute helium purchased from the Bureau of Land Management, as specified in 30 CFR 602.

“Bureau of Land Management,” as used in this clause, means the Department of the Interior, Bureau of Land Management, Helium Field Operations, located at 801 South Fillmore Street, Amarillo, TX 79101-3545.

“Helium requirement forecast” means an estimate by the Contractor or subcontractor of the amount of helium required for performance of the contract or subcontract.

“Major helium requirement” means a helium requirement during a calendar month of 5,000 or more standard cubic feet (measured at 14.7 pounds per square inch absolute pressure and 70 degrees Fahrenheit temperature), including liquid helium gaseous equivalent. In any month in which the major requirement threshold is met, all helium purchased during that month is considered part of the major helium requirement.

(b) *Requirements*—(1) *Helium Requirement Forecast.* The Contractor shall provide to the Contracting Officer a helium requirement forecast, point of contact, and telephone number within ten days of award.

(2) *Sources of Helium.* Except for helium acquired by the Contractor before the award of this contract, and to the extent that supplies are readily available, the Contractor shall purchase all major requirements of helium from—

(i) The Department of the Interior’s Bureau of Land Management;

(ii) A Bureau helium distributor (a copy of the “List by Shipping Points of Private Distributors Eligible to Sell Helium to Federal Agencies,” may be obtained from the Bureau of Land Management); or

(iii) A General Services Administration Federal Supply Schedule contract, if use is authorized by the Contracting Officer (see Subpart 51.1);

(3) Promptly upon award of any subcontract or order that involves a major helium requirement, the Contractor shall provide to the Bureau of Land Management, and to the Contracting Officer, written notification that includes—

(i) The prime contract number;

(ii) The name, address and telephone number of the subcontractor, including a point of contact; and

(iii) A copy of the subcontractor’s helium requirement forecast.

(c) *Subcontracts*—(1) The Contractor shall insert this clause, including this paragraph (c), in any subcontract or order that involves furnishing of a major helium requirement.

(2) When a subcontract involves a major helium requirement, the following statement shall be included: Helium furnished under this contract or order shall be helium that has been purchased from the Bureau of Land Management, or a listed Bureau helium distributor.

(End of clause)

**52.208-9 Contractor Use of Mandatory Sources of Supply or Services.**

As prescribed in 8.003, insert the following clause:

CONTRACTOR USE OF MANDATORY SOURCES OF SUPPLY OR SERVICES (FEB 2002)

(a) Certain supplies or services to be provided under this contract for use by the Government are required by law to be obtained from the Committee for Purchase From People Who Are Blind or Severely Disabled (the Committee) under the Javits-Wagner-O’Day Act (JWOD) (41 U.S. C. 48). Additionally, certain of these supplies are available from the Defense Logistics Agency (DLA), the General Services Administration (GSA), or the Department of Veterans Affairs (VA). The Contractor shall obtain mandatory supplies or services to be provided for Government use under this contract from the specific sources indicated in the contract schedule.

(b) The Contractor shall immediately notify the Contracting Officer if a mandatory source is unable to provide the supplies or services by the time required, or if the quality of supplies or services provided by the mandatory source is unsatisfactory. The Contractor shall not purchase the supplies or services from other sources until the Contracting Officer has notified the Contractor that the Committee or a JWOD central nonprofit agency has authorized purchase from other sources.

(c) Price and delivery information for the mandatory supplies is available from the Contracting Officer for the supplies obtained through the DLA/GSA/VA distribution facilities. For mandatory supplies or services that are not available from DLA/GSA/VA, price and delivery information is available from the appropriate central nonprofit agency. Payments shall be made directly to the source making delivery. Points of contact for JWOD central nonprofit agencies are:

(1) National Industries for the Blind (NIB)  
1901 North Beauregard Street, Suite 200  
Alexandria, VA 22311-1705  
(703) 998-0770

(2) NISH  
2235 Cedar Lane  
Vienna, VA 22182-5200  
(703) 560-6800

(End of clause)

**52.209-1 Qualification Requirements.**

As prescribed in 9.206-2, insert the following clause:

## QUALIFICATION REQUIREMENTS (FEB 1995)

(a) *Definition.* “Qualification requirement,” as used in this clause, means a Government requirement for testing or other quality assurance demonstration that must be completed before award.

(b) One or more qualification requirements apply to the supplies or services covered by this contract. For those supplies or services requiring qualification, whether the covered product or service is an end item under this contract or simply a component of an end item, the product, manufacturer, or source must have demonstrated that it meets the standards prescribed for qualification before award of this contract. The product, manufacturer, or source must be qualified at the time of award whether or not the name of the product, manufacturer, or source is actually included on a qualified products list, qualified manufacturers list, or qualified bidders list. Offerors should contact the agency activity designated below to obtain all requirements that they or their products or services, or their subcontractors or their products or services, must satisfy to become qualified and to arrange for an opportunity to demonstrate their abilities to meet the standards specified for qualification.

(Name) \_\_\_\_\_

(Address) \_\_\_\_\_

(c) If an offeror, manufacturer, source, product or service covered by a qualification requirement has already met the standards specified, the relevant information noted below should be provided.

Offeror's Name \_\_\_\_\_

Manufacturer's Name \_\_\_\_\_

Source's Name \_\_\_\_\_

Item Name \_\_\_\_\_

Service Identification \_\_\_\_\_

Test Number \_\_\_\_\_ (to the extent known)

(d) Even though a product or service subject to a qualification requirement is not itself an end item under this contract, the product, manufacturer, or source must nevertheless be qualified at the time of award of this contract. This is necessary whether the Contractor or a subcontractor will ultimately provide the product or service in question. If, after award, the Contracting Officer discovers that an applicable qualification requirement was not in fact met at the time of award, the Contracting Officer may either terminate this contract for default or allow performance to continue if adequate consideration is offered and the action is determined to be otherwise in the Government's best interests.

(e) If an offeror, manufacturer, source, product or service has met the qualification requirement but is not yet on a qualified products list, qualified manufacturers list, or qualified bidders list, the offeror must submit evidence of qualification prior to award of this contract. Unless determined to be in the Government's interest, award of this contract shall not be delayed to permit an offeror to submit evidence of qualification.

(f) Any change in location or ownership of the plant where a previously qualified product or service was manufactured or performed requires reevaluation of the qualification. Similarly, any change in location or ownership of a previously qualified manufacturer or source requires reevaluation of the qualification. The reevaluation must be accomplished before the date of award.

(End of clause)

**52.209-2 [Reserved]****52.209-3 First Article Approval—Contractor Testing.**

As prescribed in 9.308-1(a) and (b), insert the following clause:

FIRST ARTICLE APPROVAL—CONTRACTOR TESTING  
(SEPT 1989)

*[Contracting Officer shall insert details]*

(a) The Contractor shall test \_\_\_\_\_ unit(s) of Lot/Item \_\_\_\_\_ as specified in this contract. At least \_\_\_\_\_ calendar days before the beginning of first article tests, the Contractor shall notify the Contracting Officer, in writing, of the time and location of the testing so that the Government may witness the tests.

(b) The Contractor shall submit the first article test report within \_\_\_\_\_ calendar days from the date of this contract to \_\_\_\_\_ *[insert address of the Government activity to receive the report]* marked “FIRST ARTICLE TEST REPORT: Contract No. \_\_\_\_\_, Lot/Item No. \_\_\_\_\_” Within \_\_\_\_\_ calendar days after the Government receives the test report, the Contracting Officer shall notify the Contractor, in writing, of the conditional approval, approval, or disapproval of the first article. The notice of conditional approval or approval shall not relieve the Contractor from complying with all requirements of the specifications and all other terms and conditions of this contract. A notice of conditional approval shall state any further action required of the Contractor. A notice of disapproval shall cite reasons for the disapproval.

(c) If the first article is disapproved, the Contractor, upon Government request, shall repeat any or all first article tests. After each request for additional tests, the Contractor shall make any necessary changes, modifications, or repairs to the first article or select another first article for testing. All costs related to these tests are to be borne by the Contractor, includ-

ing any and all costs for additional tests following a disapproval. The Contractor shall then conduct the tests and deliver another report to the Government under the terms and conditions and within the time specified by the Government. The Government shall take action on this report within the time specified in paragraph (b) of this subsection. The Government reserves the right to require an equitable adjustment of the contract price for any extension of the delivery schedule, or for any additional costs to the Government related to these tests.

(d) If the Contractor fails to deliver any first article report on time, or the Contracting Officer disapproves any first article, the Contractor shall be deemed to have failed to make delivery within the meaning of the Default clause of this contract.

(e) Unless otherwise provided in the contract, and if the approved first article is not consumed or destroyed in testing, the Contractor may deliver the approved first article as part of the contract quantity if it meets all contract requirements for acceptance.

(f) If the Government does not act within the time specified in paragraph (b) or (c) of this subsection, the Contracting Officer shall, upon timely written request from the Contractor, equitably adjust under the changes clause of this contract the delivery or performance dates and/or the contract price, and any other contractual term affected by the delay.

(g) Before first article approval, the acquisition of materials or components for, or the commencement of production of, the balance of the contract quantity is at the sole risk of the Contractor. Before first article approval, the costs thereof shall not be allocable to this contract for (1) progress payments, or (2) termination settlements if the contract is terminated for the convenience of the Government.

(h) The Government may waive the requirement for first article approval test where supplies identical or similar to those called for in the schedule have been previously furnished by the offeror/contractor and have been accepted by the Government. The offeror/contractor may request a waiver.

(End of clause)

*Alternate I (Jan 1997).* As prescribed in 9.308-1(a)(2) and (b)(2), add the following paragraph (i) to the basic clause:

(i) The Contractor shall produce both the first article and the production quantity at the same facility.

*Alternate II (Sept 1989).* As prescribed in 9.308-1(a)(3) and (b)(3), substitute the following paragraph (g) for paragraph (g) of the basic clause:

(g) Before first article approval, the Contracting Officer may, by written authorization, authorize the Contractor to acquire specific materials or components or to commence production to the extent essential to meet the delivery schedules. Until first article approval is granted, only costs for the first article and costs incurred under this authorization are allocable to

this contract for (1) progress payments, or (2) termination settlements if the contract is terminated for the convenience of the Government. If first article tests reveal deviations from contract requirements, the Contractor shall, at the location designated by the Government, make the required changes or replace all items produced under this contract at no change in the contract price.

#### **52.209-4 First Article Approval—Government Testing.**

As prescribed in 9.308-2(a) and (b), insert the following clause:

##### FIRST ARTICLE APPROVAL—GOVERNMENT TESTING (SEPT 1989)

*[Contracting Officer shall insert details]*

(a) The Contractor shall deliver \_\_\_ unit(s) of Lot/Item \_\_\_ within \_\_\_ calendar days from the date of this contract to the Government at \_\_\_\_\_ *[insert name and address of the testing facility]* for first article tests. The shipping documentation shall contain this contract number and the Lot/Item identification. The characteristics that the first article must meet and the testing requirements are specified elsewhere in this contract.

(b) Within \_\_\_ calendar days after the Government receives the first article, the Contracting Officer shall notify the Contractor, in writing, of the conditional approval, approval, or disapproval of the first article. The notice of conditional approval or approval shall not relieve the Contractor from complying with all requirements of the specifications and all other terms and conditions of this contract. A notice of conditional approval shall state any further action required of the Contractor. A notice of disapproval shall cite reasons for the disapproval.

(c) If the first article is disapproved, the Contractor, upon Government request, shall submit an additional first article for testing. After each request, the Contractor shall make any necessary changes, modifications, or repairs to the first article or select another first article for testing. All costs related to these tests are to be borne by the Contractor, including any and all costs for additional tests following a disapproval. The Contractor shall furnish any additional first article to the Government under the terms and conditions and within the time specified by the Government. The Government shall act on this first article within the time limit specified in paragraph (b) of this clause. The Government reserves the right to require an equitable adjustment of the contract price for any extension of the delivery schedule or for any additional costs to the Government related to these tests.

(d) If the Contractor fails to deliver any first article on time, or the Contracting Officer disapproves any first article, the Contractor shall be deemed to have failed to make delivery within the meaning of the Default clause of this contract.

(e) Unless otherwise provided in the contract, the Contractor—

(1) May deliver the approved first article as a part of the contract quantity, provided it meets all contract requirements for acceptance and was not consumed or destroyed in testing; and

(2) Shall remove and dispose of any first article from the Government test facility at the Contractor's expense.

(f) If the Government does not act within the time specified in paragraph (b) or (c) of this clause, the Contracting Officer shall, upon timely written request from the Contractor, equitably adjust under the Changes clause of this contract the delivery or performance dates and/or the contract price, and any other contractual term affected by the delay.

(g) The Contractor is responsible for providing operating and maintenance instructions, spare parts support, and repair of the first article during any first article test.

(h) Before first article approval, the acquisition of materials or components for, or the commencement of production of, the balance of the contract quantity is at the sole risk of the Contractor. Before first article approval, the costs thereof shall not be allocable to this contract for (1) progress payments, or (2) termination settlements if the contract is terminated for the convenience of the Government.

(i) The Government may waive the requirement for first article approval test where supplies identical or similar to those called for in the schedule have been previously furnished by the Offeror/Contractor and have been accepted by the Government. The Offeror/Contractor may request a waiver.

(End of clause)

*Alternate I (Jan 1997).* As prescribed in 9.308-2(a)(2) and (b)(2), add the following paragraph (j) to the basic clause:

(j) The Contractor shall produce both the first article and the production quantity at the same facility.

*Alternate II (Sept 1989).* As prescribed in 9.308-2(a)(3) and (b)(3), substitute the following paragraph (h) for paragraph (h) of the basic clause:

(h) Before first article approval, the Contracting Officer may, by written authorization, authorize the Contractor to acquire specific materials or components or to commence production to the extent essential to meet the delivery schedules. Until first article approval is granted, only costs for the first article and costs incurred under this authorization are allocable to this contract for (1) progress payments, or (2) termination settlements if the contract is terminated for the convenience of the Government. If first article tests reveal deviations from contract requirements, the Contractor shall, at the location designated by the Government, make the required changes or replace all items produced under this contract at no change in the contract price.

**52.209-5 Certification Regarding Debarment, Suspension, Proposed Debarment, and Other Responsibility Matters.**

As prescribed in 9.409(a), insert the following provision:

**CERTIFICATION REGARDING DEBARMENT, SUSPENSION, PROPOSED DEBARMENT, AND OTHER RESPONSIBILITY MATTERS (DEC 2001)**

(a)(1) The Offeror certifies, to the best of its knowledge and belief, that—

(i) The Offeror and/or any of its Principals—

(A) Are  are not  presently debarred, suspended, proposed for debarment, or declared ineligible for the award of contracts by any Federal agency;

(B) Have  have not , within a three-year period preceding this offer, been convicted of or had a civil judgment rendered against them for: commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (Federal, state, or local) contract or subcontract; violation of Federal or state antitrust statutes relating to the submission of offers; or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, tax evasion, or receiving stolen property; and

(C) Are  are not  presently indicted for, or otherwise criminally or civilly charged by a governmental entity with, commission of any of the offenses enumerated in paragraph (a)(1)(i)(B) of this provision.

(ii) The Offeror has  has not , within a three-year period preceding this offer, had one or more contracts terminated for default by any Federal agency.

(2) "Principals," for the purposes of this certification, means officers; directors; owners; partners; and, persons having primary management or supervisory responsibilities within a business entity (e.g., general manager; plant manager; head of a subsidiary, division, or business segment, and similar positions).

This Certification Concerns a Matter Within the Jurisdiction of an Agency of the United States and the Making of a False, Fictitious, or Fraudulent Certification May Render the Maker Subject to Prosecution Under Section 1001, Title 18, United States Code.

(b) The Offeror shall provide immediate written notice to the Contracting Officer if, at any time prior to contract award, the Offeror learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

(c) A certification that any of the items in paragraph (a) of this provision exists will not necessarily result in withholding of an award under this solicitation. However, the certification will be considered in connection with a determination of the Offeror's responsibility. Failure of the Offeror to furnish a certification or provide such additional information as requested by the Contracting Officer may render the Offeror nonresponsible.

(d) Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to ren-

der, in good faith, the certification required by paragraph (a) of this provision. The knowledge and information of an Offeror is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

(e) The certification in paragraph (a) of this provision is a material representation of fact upon which reliance was placed when making award. If it is later determined that the Offeror knowingly rendered an erroneous certification, in addition to other remedies available to the Government, the Contracting Officer may terminate the contract resulting from this solicitation for default.

(End of provision)

**52.209-6 Protecting the Government's Interest When Subcontracting with Contractors Debarred, Suspended, or Proposed for Debarment.**

As prescribed in 9.409(b), insert the following clause:

PROTECTING THE GOVERNMENT'S INTEREST WHEN  
SUBCONTRACTING WITH CONTRACTORS DEBARRED,  
SUSPENDED, OR PROPOSED FOR DEBARMENT (JULY 1995)

(a) The Government suspends or debar Contractors to protect the Government's interests. The Contractor shall not enter into any subcontract in excess of \$25,000 with a Contractor that is debarred, suspended, or proposed for debarment unless there is a compelling reason to do so.

(b) The Contractor shall require each proposed first-tier subcontractor, whose subcontract will exceed \$25,000, to disclose to the Contractor, in writing, whether as of the time of award of the subcontract, the subcontractor, or its principals, is or is not debarred, suspended, or proposed for debarment by the Federal Government.

(c) A corporate officer or a designee of the Contractor shall notify the Contracting Officer, in writing, before entering into a subcontract with a party that is debarred, suspended, or proposed for debarment (see FAR 9.404 for information on the List of Parties Excluded from Federal Procurement and Nonprocurement Programs). The notice must include the following:

(1) The name of the subcontractor.

(2) The Contractor's knowledge of the reasons for the subcontractor being on the List of Parties Excluded from Federal Procurement and Nonprocurement Programs.

(3) The compelling reason(s) for doing business with the subcontractor notwithstanding its inclusion on the List of Parties Excluded From Federal Procurement and Nonprocurement Programs.

(4) The systems and procedures the Contractor has established to ensure that it is fully protecting the Government's interests when dealing with such subcontractor in view of the specific basis for the party's debarment, suspension, or proposed debarment.

(End of clause)

**52.210 [Reserved]**

**52.211-1 Availability of Specifications Listed in the GSA Index of Federal Specifications, Standards and Commercial Item Descriptions, FPMR Part 101-29.**

As prescribed in 11.204(a), insert the following provision:

AVAILABILITY OF SPECIFICATIONS LISTED IN THE GSA  
INDEX OF FEDERAL SPECIFICATIONS, STANDARDS AND  
COMMERCIAL ITEM DESCRIPTIONS, FPMR PART 101-29  
(AUG 1998)

(a) The GSA Index of Federal Specifications, Standards and Commercial Item Descriptions, FPMR Part 101-29, and copies of specifications, standards, and commercial item descriptions cited in this solicitation may be obtained for a fee by submitting a request to—

GSA Federal Supply Service  
Specifications Section, Suite 8100  
470 East L'Enfant Plaza, SW  
Washington, DC 20407

Telephone (202) 619-8925  
Facsimile (202) 619-8978.

(b) If the General Services Administration, Department of Agriculture, or Department of Veterans Affairs issued this solicitation, a single copy of specifications, standards, and commercial item descriptions cited in this solicitation may be obtained free of charge by submitting a request to the addressee in paragraph (a) of this provision. Additional copies will be issued for a fee.

(End of provision)

**52.211-2 Availability of Specifications Listed in the DoD Index of Specifications and Standards (DoDISS) and Descriptions Listed in the Acquisition Management Systems and Data Requirements Control List, DoD 5010.12-L.**

As prescribed in 11.204(b), insert the following provision:

AVAILABILITY OF SPECIFICATIONS LISTED IN THE DoD INDEX OF SPECIFICATIONS AND STANDARDS (DoDISS) AND DESCRIPTIONS LISTED IN THE ACQUISITION MANAGEMENT SYSTEMS AND DATA REQUIREMENTS CONTROL LIST, DoD 5010.12-L (DEC 1999)

Copies of specifications, standards, and data item descriptions cited in this solicitation may be obtained—

(a) From the ASSIST database via the Internet at <http://assist.daps.mil>; or

(b) By submitting a request to the—

Department of Defense Single Stock Point (DoDSSP)  
Building 4, Section D  
700 Robbins Avenue  
Philadelphia, PA 19111-5094

Telephone (215) 697-2667/2179  
Facsimile (215) 697-1462.

(End of provision)

**52.211-3 Availability of Specifications Not Listed in the GSA Index of Federal Specifications, Standards and Commercial Item Descriptions.**

As prescribed in 11.204(c), insert a provision substantially the same as the following:

AVAILABILITY OF SPECIFICATIONS NOT LISTED IN THE GSA INDEX OF FEDERAL SPECIFICATIONS, STANDARDS AND COMMERCIAL ITEM DESCRIPTIONS (JUNE 1988)

The specifications cited in this solicitation may be obtained from:

(Activity) \_\_\_\_\_

(Complete address) \_\_\_\_\_  
\_\_\_\_\_

(Telephone number) \_\_\_\_\_

(Person to be contacted) \_\_\_\_\_

The request should identify the solicitation number and the specification requested by date, title, and number, as cited in the solicitation.

(End of provision)

**52.211-4 Availability for Examination of Specifications Not Listed in the GSA Index of Federal Specifications, Standards and Commercial Item Descriptions.**

As prescribed in 11.204(d), insert a provision substantially the same as the following:

AVAILABILITY FOR EXAMINATION OF SPECIFICATIONS NOT LISTED IN THE GSA INDEX OF FEDERAL SPECIFICATIONS, STANDARDS AND COMMERCIAL ITEM DESCRIPTIONS (JUNE 1988)

(Activity) \_\_\_\_\_

(Complete address) \_\_\_\_\_  
\_\_\_\_\_

(Telephone number) \_\_\_\_\_

(Person to be contacted) \_\_\_\_\_

(Time(s) for viewing) \_\_\_\_\_

(End of provision)

**52.211-5 Material Requirements.**

As prescribed in 11.304, insert the following clause:

MATERIAL REQUIREMENTS (AUG 2000)

(a) *Definitions.*

As used in this clause—

“New” means composed of previously unused components, whether manufactured from virgin material, recovered material in the form of raw material, or materials and by-products generated from, and reused within, an original manufacturing process; *provided* that the supplies meet contract requirements, including but not limited to, performance, reliability, and life expectancy.

“Reconditioned” means restored to the original normal operating condition by readjustments and material replacement.

“Recovered material” means waste materials and by-products recovered or diverted from solid waste, but the term does not include those materials and by-products generated from, and commonly reused within, an original manufacturing process.

“Remanufactured” means factory rebuilt to original specifications.

“Virgin material” means—

(1) Previously unused raw material, including previously unused copper, aluminum, lead, zinc, iron, other metal or metal ore; or

(2) Any undeveloped resource that is, or with new technology will become, a source of raw materials.

(b) Unless this contract otherwise requires virgin material or supplies composed of or manufactured from virgin material, the Contractor shall provide supplies that are new, reconditioned, or remanufactured, as defined in this clause.

(c) A proposal to provide unused former Government surplus property shall include a complete description of the material, the quantity, the name of the Government agency from which acquired, and the date of acquisition.

(d) A proposal to provide used, reconditioned, or remanufactured supplies shall include a detailed description of such supplies and shall be submitted to the Contracting Officer for approval.

(e) Used, reconditioned, or remanufactured supplies, or unused former Government surplus property, may be used in contract performance if the Contractor has proposed the use of such supplies, and the Contracting Officer has authorized their use.

(End of clause)

#### **52.211-6 Brand Name or Equal.**

As prescribed in 11.107(a), insert the following provision:

##### **BRAND NAME OR EQUAL (AUG 1999)**

(a) If an item in this solicitation is identified as “brand name or equal,” the purchase description reflects the characteristics and level of quality that will satisfy the Government’s needs. The salient physical, functional, or performance characteristics that “equal” products must meet are specified in the solicitation.

(b) To be considered for award, offers of “equal” products, including “equal” products of the brand name manufacturer, must—

(1) Meet the salient physical, functional, or performance characteristic specified in this solicitation;

(2) Clearly identify the item by—

(i) Brand name, if any; and

(ii) Make or model number;

(3) Include descriptive literature such as illustrations, drawings, or a clear reference to previously furnished descriptive data or information available to the Contracting Officer; and

(4) Clearly describe any modifications the offeror plans to make in a product to make it conform to the solicitation requirements. Mark any descriptive material to clearly show the modifications.

(c) The Contracting Officer will evaluate “equal” products on the basis of information furnished by the offeror or identified in the offer and reasonably available to the Contracting Officer. The Contracting Officer is not responsible for locating or obtaining any information not identified in the offer.

(d) Unless the offeror clearly indicates in its offer that the product being offered is an “equal” product, the offeror shall provide the brand name product referenced in the solicitation.

(End of provision)

#### **52.211-7 Alternatives to Government-Unique Standards.**

As prescribed in 11.107(b), insert the following provision:

##### **ALTERNATIVES TO GOVERNMENT-UNIQUE STANDARDS (NOV 1999)**

(a) This solicitation includes Government-unique standards. The offeror may propose voluntary consensus standards that meet the Government’s requirements as alternatives to the Government-unique standards. The Government will accept use of the voluntary consensus standard instead of the Government-unique standard if it meets the Government’s requirements unless inconsistent with law or otherwise impractical.

(b) If an alternative standard is proposed, the offeror must furnish data and/or information regarding the alternative in sufficient detail for the Government to determine if it meets the Government’s requirements. Acceptance of the alternative standard is a unilateral decision made solely at the discretion of the Government.

(c) Offers that do not comply with the Government-unique standards specified in this solicitation may be determined to be nonresponsive or unacceptable. The offeror may submit an offer that complies with the Government-unique standards specified in this solicitation, in addition to any proposed alternative standard(s).

(End of provision)

#### **52.211-8 Time of Delivery.**

As prescribed in 11.404(a)(2), insert the following clause:

TIME OF DELIVERY (JUNE 1997)

(a) The Government requires delivery to be made according to the following schedule:

REQUIRED DELIVERY SCHEDULE		
<i>[Contracting Officer insert specific details]</i>		
ITEM NO.	QUANTITY	WITHIN DAYS AFTER DATE OF CONTRACT

The Government will evaluate equally, as regards time of delivery, offers that propose delivery of each quantity within the applicable delivery period specified above. Offers that propose delivery that will not clearly fall within the applicable required delivery period specified above, will be considered nonresponsive and rejected. The Government reserves the right to award under either the required delivery schedule or the proposed delivery schedule, when an offeror offers an earlier delivery schedule than required above. If the offeror proposes no other delivery schedule, the required delivery schedule above will apply.

OFFEROR'S PROPOSED DELIVERY SCHEDULE		
ITEM NO.	QUANTITY	WITHIN DAYS AFTER DATE OF CONTRACT

(b) Attention is directed to the Contract Award provision of the solicitation that provides that a written award or acceptance of offer mailed, or otherwise furnished to the successful offeror, results in a binding contract. The Government will mail or otherwise furnish to the offeror an award or notice of award not later than the day award is dated. Therefore, the offeror should compute the time available for performance beginning with the actual date of award, rather than the date the written notice of award is received from the Contracting Officer through the ordinary mails. However, the Government will evaluate an offer that proposes delivery based on the Contractor's date of receipt of the contract or notice of award by adding (1) five calendar days for delivery of the award through the ordinary mails, or (2) one working day if the solicitation states that the contract or notice of award will be transmitted electronically. (The term "working day" excludes weekends and U.S. Federal holidays.) If, as so computed, the offered delivery date is later than the required deliv-

ery date, the offer will be considered nonresponsive and rejected.

(End of clause)

*Alternate I (Apr 1984).* If the delivery schedule is expressed in terms of specific calendar dates or specific periods and is based on an assumed date of award, the contracting officer may substitute the following paragraph (b) for paragraph (b) of the basic clause. The time may be expressed by substituting "on or before"; "during the months \_\_\_\_\_"; or "not sooner than \_\_\_\_\_ or later than \_\_\_\_\_" as headings for the third column of paragraph (a) the basic clause.

(b) The delivery dates or specific periods above are based on the assumption that the Government will make award by \_\_\_\_\_ *[Contracting Officer insert date]*. Each delivery date in the delivery schedule above will be extended by the number of calendar days after the above date that the contract is in fact awarded. Attention is directed to the Contract Award provision of the solicitation that provides that a written award or acceptance of offer mailed or otherwise furnished to the successful offeror results in a binding contract. Therefore, the offeror should compute the time available for performance beginning with the actual date of award, rather than the date the written notice of award is received from the Contracting Officer through the ordinary mails.

*Alternate II (Apr 1984).* If the delivery schedule is expressed in terms of specific calendar dates or specific periods and is based on an assumed date the contractor will receive notice of award, the contracting officer may substitute the following paragraph (b) for paragraph (b) of the basic clause. The time may be expressed by substituting "within days after the date of receipt of a written notice of award" as the heading for the third column of paragraph (a) of the basic clause.

(b) The delivery dates or specific periods above are based on the assumption that the successful offeror will receive notice of award by \_\_\_\_\_ *[Contracting Officer insert date]*. Each delivery date in the delivery schedule above will be extended by the number of calendar days after the above date that the Contractor receives notice of award; provided, that the Contractor promptly acknowledges receipt of notice of award.

*Alternate III (Apr 1984).* If the delivery schedule is to be based on the actual date the contractor receives a written notice of award, the contracting officer may delete paragraph (b) of the basic clause. The time may be expressed by substituting "within days after the date of receipt of a written notice of award" as the heading for the third column of paragraph (a) of the basic clause.

**52.211-9 Desired and Required Time of Delivery.**

As prescribed in 11.404(a)(3), insert the following clause:

## DESIRED AND REQUIRED TIME OF DELIVERY (JUNE 1997)

(a) The Government desires delivery to be made according to the following schedule:

DESIRED DELIVERY SCHEDULE		
<i>[Contracting Officer insert specific details]</i>		
ITEM NO.	QUANTITY	WITHIN DAYS AFTER DATE OF CONTRACT

If the offeror is unable to meet the desired delivery schedule, it may, without prejudicing evaluation of its offer, propose a delivery schedule below. However, the offeror's proposed delivery schedule must not extend the delivery period beyond the time for delivery in the Government's required delivery schedule as follows:

REQUIRED DELIVERY SCHEDULE		
<i>[Contracting Officer insert specific details]</i>		
ITEM NO.	QUANTITY	WITHIN DAYS AFTER DATE OF CONTRACT

Offers that propose delivery of a quantity under such terms or conditions that delivery will not clearly fall within the applicable required delivery period specified above, will be considered nonresponsive and rejected. If the offeror proposes no other delivery schedule, the desired delivery schedule above will apply.

OFFEROR'S PROPOSED DELIVERY SCHEDULE		
<i>[Contracting Officer insert specific details]</i>		
ITEM NO.	QUANTITY	WITHIN DAYS AFTER DATE OF CONTRACT

(b) Attention is directed to the Contract Award provision of the solicitation that provides that a written award or acceptance of offer mailed or otherwise furnished to the successful offeror results in a binding contract. The Government will mail or otherwise furnish to the offeror an award or notice of award not later than the day the award is dated. Therefore, the offeror shall compute the time available for performance

beginning with the actual date of award, rather than the date the written notice of award is received from the Contracting Officer through the ordinary mails. However, the Government will evaluate an offer that proposes delivery based on the Contractor's date of receipt of the contract or notice of award by adding (1) five calendar days for delivery of the award through the ordinary mails, or (2) one working day if the solicitation states that the contract or notice of award will be transmitted electronically. (The term "working day" excludes weekends and U.S. Federal holidays.) If, as so computed, the offered delivery date is later than the required delivery date, the offer will be considered nonresponsive and rejected.

(End of clause)

*Alternate I (Apr 1984).* If the delivery schedule is expressed in terms of specific calendar dates or specific periods and is based on an assumed date of award, the contracting officer may substitute the following paragraph (b) for paragraph (b) of the basic clause. The time may be expressed by substituting "on or before"; "during the months \_\_\_\_\_"; or "not sooner than \_\_\_\_\_, or later than \_\_\_\_\_" as headings for the third column of paragraph (a) of the basic clause.

(b) The delivery dates or specific periods above are based on the assumption that the Government will make award by \_\_\_\_\_ *[Contracting Officer insert date]*. Each delivery date in the delivery schedule above will be extended by the number of calendar days after the above date that the contract is in fact awarded. Attention is directed to the Contract Award provision of the solicitation that provides that a written award or acceptance of offer mailed or otherwise furnished to the successful offeror results in a binding contract. Therefore, the offeror shall compute the time available for performance beginning with the actual date of award, rather than the date the written notice of award is received from the Contracting Officer through the ordinary mails.

*Alternate II (Apr 1984).* If the delivery schedule is expressed in terms of specific calendar dates or specific periods and is based on an assumed date the contractor receives notice of award, the contracting officer may substitute the following paragraph (b) for paragraph (b) of the basic clause. The time may be expressed by substituting "within days after the date of receipt of a written notice of award" as the heading of the third column of paragraph (a) of the basic clause.

(b) The delivery dates or specific periods above are based on the assumption that the successful offeror will receive notice of award by \_\_\_\_\_ *[Contracting Officer insert date]*. Each delivery date in the delivery schedule above will be extended by the number of calendar days after the above date that the Contractor receives notice of award; provided, that the Contractor promptly acknowledges receipt of notice of award.

*Alternate III (Apr 1984).* If the delivery schedule is to be based on the actual date the contractor receives a written notice of award, the contracting officer may delete paragraph

(b) of the basic clause. The time may be expressed by substituting “within days after the date of receipt of a written notice of award” as the heading of the third column of paragraph (a) of the basic clause.

#### **52.211-10 Commencement, Prosecution, and Completion of Work.**

As prescribed in 11.404(b), insert the following clause in solicitations and contracts when a fixed-price construction contract is contemplated. The clause may be changed to accommodate the issuance of orders under indefinite-delivery contracts for construction.

##### COMMENCEMENT, PROSECUTION, AND COMPLETION OF WORK (APR 1984)

The Contractor shall be required to (a) commence work under this contract within \_\_\_\_\_ [*Contracting Officer insert number*] calendar days after the date the Contractor receives the notice to proceed, (b) prosecute the work diligently, and (c) complete the entire work ready for use not later than \_\_\_\_\_.\* The time stated for completion shall include final cleanup of the premises.

(End of clause)

\* The Contracting Officer shall specify either a number of days after the date the contractor receives the notice to proceed, or a calendar date.

*Alternate 1 (Apr 1984).* If the completion date is expressed as a specific calendar date, computed on the basis of the contractor receiving the notice to proceed by a certain day, add the following paragraph to the basic clause:

The completion date is based on the assumption that the successful offeror will receive the notice to proceed by \_\_\_\_\_ [*Contracting Officer insert date*]. The completion date will be extended by the number of calendar days after the above date that the Contractor receives the notice to proceed, except to the extent that the delay in issuance of the notice to proceed results from the failure of the Contractor to execute the contract and give the required performance and payment bonds within the time specified in the offer.

#### **52.211-11 Liquidated Damages—Supplies, Services, or Research and Development.**

As prescribed in 11.503(a), insert the following clause in solicitations and contracts:

##### LIQUIDATED DAMAGES—SUPPLIES, SERVICES, OR RESEARCH AND DEVELOPMENT (SEPT 2000)

(a) If the Contractor fails to deliver the supplies or perform the services within the time specified in this contract, the Contractor shall, in place of actual damages, pay to the Govern-

ment liquidated damages of \$\_\_\_\_\_ per calendar day of delay [*Contracting Officer insert amount*].

(b) If the Government terminates this contract in whole or in part under the Default—Fixed-Price Supply and Service clause, the Contractor is liable for liquidated damages accruing until the Government reasonably obtains delivery or performance of similar supplies or services. These liquidated damages are in addition to excess costs of repurchase under the Termination clause.

(c) The Contractor will not be charged with liquidated damages when the delay in delivery or performance is beyond the control and without the fault or negligence of the Contractor as defined in the Default—Fixed-Price Supply and Service clause in this contract.

(End of clause)

#### **52.211-12 Liquidated Damages—Construction.**

As prescribed in 11.503(b), insert the following clause in solicitations and contracts:

##### LIQUIDATED DAMAGES—CONSTRUCTION (SEPT 2000)

(a) If the Contractor fails to complete the work within the time specified in the contract, the Contractor shall pay liquidated damages to the Government in the amount of \_\_\_\_\_ [*Contracting Officer insert amount*] for each calendar day of delay until the work is completed or accepted.

(b) If the Government terminates the Contractor’s right to proceed, liquidated damages will continue to accrue until the work is completed. These liquidated damages are in addition to excess costs of repurchase under the Termination clause.

(End of clause)

#### **52.211-13 Time Extensions.**

As prescribed in 11.503(c), insert the following clause:

##### TIME EXTENSIONS (SEPT 2000)

Time extensions for contract changes will depend upon the extent, if any, by which the changes cause delay in the completion of the various elements of construction. The change order granting the time extension may provide that the contract completion date will be extended only for those specific elements related to the changed work and that the remaining contract completion dates for all other portions of the work will not be altered. The change order also may provide an equitable readjustment of liquidated damages under the new completion schedule.

(End of clause)

#### **52.211-14 Notice of Priority Rating for National Defense Use.**

As prescribed in 11.604(a), insert the following provision:

NOTICE OF PRIORITY RATING FOR NATIONAL DEFENSE  
USE (SEPT 1990)

Any contract awarded as a result of this solicitation will be  
 DX rated order;  DO rated order certified for national  
defense use under the Defense Priorities and Allocations Sys-  
tem (DPAS) (15 CFR 700), and the Contractor will be  
required to follow all of the requirements of this regulation.  
[Contracting Officer check appropriate box.]

(End of provision)

**52.211-15 Defense Priority and Allocation Requirements.**

As prescribed in 11.604(b), insert the following clause:

DEFENSE PRIORITY AND ALLOCATION REQUIREMENT  
(SEPT 1990)

This is a rated order certified for national defense use, and  
the Contractor shall follow all the requirements of the  
Defense Priorities and Allocations System regulation  
(15 CFR 700).

(End of clause)

**52.211-16 Variation in Quantity.**

As prescribed in 11.703(a), insert the following clause:

VARIATION IN QUANTITY (APR 1984)

(a) A variation in the quantity of any item called for by this  
contract will not be accepted unless the variation has been  
caused by conditions of loading, shipping, or packing, or  
allowances in manufacturing processes, and then only to the  
extent, if any, specified in paragraph (b) of this clause.

(b) The permissible variation shall be limited to:

\_\_\_ Percent increase [Contracting Officer insert percentage]

\_\_\_ Percent decrease [Contracting Officer insert percentage]

This increase or decrease shall apply to \_\_\_\_\_.\*

(End of clause)

\* Contracting Officer shall insert in the blank the designa-  
tion(s) to which the percentages apply, such as—

- (1) The total contract quantity;
- (2) Item 1 only;
- (3) Each quantity specified in the delivery schedule;
- (4) The total item quantity for each destination; or
- (5) The total quantity of each item without regard to destina-  
tion.

(End of clause)

**52.211-17 Delivery of Excess Quantities.**

As prescribed in 11.703(b), insert the following clause:

DELIVERY OF EXCESS QUANTITIES (SEPT 1989)

The Contractor is responsible for the delivery of each item  
quantity within allowable variations, if any. If the Contractor  
delivers and the Government receives quantities of any item  
in excess of the quantity called for (after considering any  
allowable variation in quantity), such excess quantities will  
be treated as being delivered for the convenience of the Con-  
tractor. The Government may retain such excess quantities up  
to \$250 in value without compensating the Contractor there-  
for, and the Contractor waives all right, title, or interests  
therein. Quantities in excess of \$250 will, at the option of the  
Government, either be returned at the Contractor's expense or  
retained and paid for by the Government at the contract unit  
price.

(End of clause)

**52.211-18 Variation in Estimated Quantity.**

As prescribed in 11.703(c), insert the following clause in  
solicitations and contracts when a fixed-price construction  
contract is contemplated that authorizes a variation in the esti-  
mated quantity of unit-priced items:

VARIATION IN ESTIMATED QUANTITY (APR 1984)

If the quantity of a unit-priced item in this contract is an  
estimated quantity and the actual quantity of the unit-priced  
item varies more than 15 percent above or below the esti-  
mated quantity, an equitable adjustment in the contract price  
shall be made upon demand of either party. The equitable  
adjustment shall be based upon any increase or decrease in  
costs due solely to the variation above 115 percent or below  
85 percent of the estimated quantity. If the quantity variation  
is such as to cause an increase in the time necessary for com-  
pletion, the Contractor may request, in writing, an extension  
of time, to be received by the Contracting Officer within 10  
days from the beginning of the delay, or within such further  
period as may be granted by the Contracting Officer before  
the date of final settlement of the contract. Upon the receipt  
of a written request for an extension, the Contracting Officer  
shall ascertain the facts and make an adjustment for extending  
the completion date as, in the judgement of the Contracting  
Officer, is justified.

(End of clause)

**52.212-1 Instructions to Offerors—Commercial Items.**

As prescribed in 12.301(b)(1), insert the following provision:

INSTRUCTIONS TO OFFERORS—COMMERCIAL ITEMS  
(OCT 2000)

(a) *North American Industry Classification System (NAICS) code and small business size standard.* The NAICS code and small business size standard for this acquisition appear in Block 10 of the solicitation cover sheet (SF 1449). However, the small business size standard for a concern which submits an offer in its own name, but which proposes to furnish an item which it did not itself manufacture, is 500 employees.

(b) *Submission of offers.* Submit signed and dated offers to the office specified in this solicitation at or before the exact time specified in this solicitation. Offers may be submitted on the SF 1449, letterhead stationery, or as otherwise specified in the solicitation. As a minimum, offers must show—

- (1) The solicitation number;
- (2) The time specified in the solicitation for receipt of offers;
- (3) The name, address, and telephone number of the offeror;
- (4) A technical description of the items being offered in sufficient detail to evaluate compliance with the requirements in the solicitation. This may include product literature, or other documents, if necessary;
- (5) Terms of any express warranty;
- (6) Price and any discount terms;
- (7) “Remit to” address, if different than mailing address;
- (8) A completed copy of the representations and certifications at FAR 52.212-3;
- (9) Acknowledgment of Solicitation Amendments;
- (10) Past performance information, when included as an evaluation factor, to include recent and relevant contracts for the same or similar items and other references (including contract numbers, points of contact with telephone numbers and other relevant information); and
- (11) If the offer is not submitted on the SF 1449, include a statement specifying the extent of agreement with all terms, conditions, and provisions included in the solicitation. Offers that fail to furnish required representations or information, or reject the terms and conditions of the solicitation may be excluded from consideration.

(c) *Period for acceptance of offers.* The offeror agrees to hold the prices in its offer firm for 30 calendar days from the date specified for receipt of offers, unless another time period is specified in an addendum to the solicitation.

(d) *Product samples.* When required by the solicitation, product samples shall be submitted at or prior to the time specified for receipt of offers. Unless otherwise specified in

this solicitation, these samples shall be submitted at no expense to the Government, and returned at the sender's request and expense, unless they are destroyed during preaward testing.

(e) *Multiple offers.* Offerors are encouraged to submit multiple offers presenting alternative terms and conditions or commercial items for satisfying the requirements of this solicitation. Each offer submitted will be evaluated separately.

(f) *Late submissions, modifications, revisions, and withdrawals of offers.* (1) Offerors are responsible for submitting offers, and any modifications, revisions, or withdrawals, so as to reach the Government office designated in the solicitation by the time specified in the solicitation. If no time is specified in the solicitation, the time for receipt is 4:30 p.m., local time, for the designated Government office on the date that offers or revisions are due.

(2)(i) Any offer, modification, revision, or withdrawal of an offer received at the Government office designated in the solicitation after the exact time specified for receipt of offers is “late” and will not be considered unless it is received before award is made, the Contracting Officer determines that accepting the late offer would not unduly delay the acquisition; and—

(A) If it was transmitted through an electronic commerce method authorized by the solicitation, it was received at the initial point of entry to the Government infrastructure not later than 5:00 p.m. one working day prior to the date specified for receipt of offers; or

(B) There is acceptable evidence to establish that it was received at the Government installation designated for receipt of offers and was under the Government's control prior to the time set for receipt of offers; or

(C) If this solicitation is a request for proposals, it was the only proposal received.

(ii) However, a late modification of an otherwise successful offer, that makes its terms more favorable to the Government, will be considered at any time it is received and may be accepted.

(3) Acceptable evidence to establish the time of receipt at the Government installation includes the time/date stamp of that installation on the offer wrapper, other documentary evidence of receipt maintained by the installation, or oral testimony or statements of Government personnel.

(4) If an emergency or unanticipated event interrupts normal Government processes so that offers cannot be received at the Government office designated for receipt of offers by the exact time specified in the solicitation, and urgent Government requirements preclude amendment of the solicitation or other notice of an extension of the closing date, the time specified for receipt of offers will be deemed to be extended to the same time of day specified in the solicitation on the first work day on which normal Government processes resume.

(5) Offers may be withdrawn by written notice received at any time before the exact time set for receipt of offers. Oral offers in response to oral solicitations may be withdrawn orally. If the solicitation authorizes facsimile offers, offers may be withdrawn via facsimile received at any time before the exact time set for receipt of offers, subject to the conditions specified in the solicitation concerning facsimile offers. An offer may be withdrawn in person by an offeror or its authorized representative if, before the exact time set for receipt of offers, the identity of the person requesting withdrawal is established and the person signs a receipt for the offer.

(g) *Contract award (not applicable to Invitation for Bids)*. The Government intends to evaluate offers and award a contract without discussions with offerors. Therefore, the offeror's initial offer should contain the offeror's best terms from a price and technical standpoint. However, the Government reserves the right to conduct discussions if later determined by the Contracting Officer to be necessary. The Government may reject any or all offers if such action is in the public interest; accept other than the lowest offer; and waive informalities and minor irregularities in offers received.

(h) *Multiple awards*. The Government may accept any item or group of items of an offer, unless the offeror qualifies the offer by specific limitations. Unless otherwise provided in the Schedule, offers may not be submitted for quantities less than those specified. The Government reserves the right to make an award on any item for a quantity less than the quantity offered, at the unit prices offered, unless the offeror specifies otherwise in the offer.

(i) *Availability of requirements documents cited in the solicitation*. (1)(i) The GSA Index of Federal Specifications, Standards and Commercial Item Descriptions, FPMR Part 101-29, and copies of specifications, standards, and commercial item descriptions cited in this solicitation may be obtained for a fee by submitting a request to—

GSA Federal Supply Service Specifications Section  
Suite 8100  
470 East L'Enfant Plaza, SW  
Washington, DC 20407

Telephone (202) 619-8925  
Facsimile (202) 619-8978.

(ii) If the General Services Administration, Department of Agriculture, or Department of Veterans Affairs issued this solicitation, a single copy of specifications, standards, and commercial item descriptions cited in this solicitation may be obtained free of charge by submitting a request to the addressee in paragraph (i)(1)(i) of this provision. Additional copies will be issued for a fee.

(2) The DoD Index of Specifications and Standards (DoDISS) and documents listed in it may be obtained from the—

Department of Defense Single Stock Point (DoDSSP)  
Building 4, Section D  
700 Robbins Avenue  
Philadelphia, PA 19111-5094

Telephone (215) 697-2667/2179  
Facsimile (215) 697-1462.

(i) Automatic distribution may be obtained on a subscription basis.

(ii) Order forms, pricing information, and customer support information may be obtained—

(A) By telephone at (215) 697-2667/2179; or

(B) Through the DoDSSP Internet site at <http://assist.daps.mil>.

(3) Nongovernment (voluntary) standards must be obtained from the organization responsible for their preparation, publication, or maintenance.

(j) *Data Universal Numbering System (DUNS) Number*. (Applies to offers exceeding \$25,000.) The offeror shall enter, in the block with its name and address on the cover page of its offer, the annotation "DUNS" followed by the DUNS number that identifies the offeror's name and address. If the offeror does not have a DUNS number, it should contact Dun and Bradstreet to obtain one at no charge. An offeror within the United States may call 1-800-333-0505. The offeror may obtain more information regarding the DUNS number, including locations of local Dun and Bradstreet Information Services offices for offerors located outside the United States, from the Internet home page at <http://www.customerservice@dnb.com>. If an offeror is unable to locate a local service center, it may send an e-mail to Dun and Bradstreet at [globalinfo@mail.dnb.com](mailto:globalinfo@mail.dnb.com).

(End of provision)

### 52.212-2 Evaluation—Commercial Items.

As prescribed in 12.301(c), the Contracting Officer may insert a provision substantially as follows:

#### EVALUATION—COMMERCIAL ITEMS (JAN 1999)

(a) The Government will award a contract resulting from this solicitation to the responsible offeror whose offer conforming to the solicitation will be most advantageous to the Government, price and other factors considered. The following factors shall be used to evaluate offers:

---

---

---

[Contracting Officer shall insert the significant evaluation factors, such as (i) technical capability of the item offered to meet the Government requirement; (ii) price; (iii) past performance (see FAR 15.304); (iv) small disadvantaged business participation; and include them in the relative order of impor-

tance of the evaluation factors, such as in descending order of importance.]

Technical and past performance, when combined, are \_\_\_\_\_ [Contracting Officer state, in accordance with FAR 15.304, the relative importance of all other evaluation factors, when combined, when compared to price.]

(b) *Options.* The Government will evaluate offers for award purposes by adding the total price for all options to the total price for the basic requirement. The Government may determine that an offer is unacceptable if the option prices are significantly unbalanced. Evaluation of options shall not obligate the Government to exercise the option(s).

(c) A written notice of award or acceptance of an offer, mailed or otherwise furnished to the successful offeror within the time for acceptance specified in the offer, shall result in a binding contract without further action by either party. Before the offer's specified expiration time, the Government may accept an offer (or part of an offer), whether or not there are negotiations after its receipt, unless a written notice of withdrawal is received before award.

(End of provision)

**52.212-3 Offeror Representations and Certifications—Commercial Items.**

As prescribed in 12.301(b)(2), insert the following provision:

OFFEROR REPRESENTATIONS AND CERTIFICATIONS—  
COMMERCIAL ITEMS (FEB 2002)

(a) *Definitions.* As used in this provision:

“Emerging small business” means a small business concern whose size is no greater than 50 percent of the numerical size standard for the NAICS code designated.

“Forced or indentured child labor” means all work or service—

(1) Exacted from any person under the age of 18 under the menace of any penalty for its nonperformance and for which the worker does not offer himself voluntarily; or

(2) Performed by any person under the age of 18 pursuant to a contract the enforcement of which can be accomplished by process or penalties.

“Service-disabled veteran-owned small business concern”—

(1) Means a small business concern—

(i) Not less than 51 percent of which is owned by one or more service-disabled veterans or, in the case of any publicly owned business, not less than 51 percent of the stock of which is owned by one or more service-disabled veterans; and

(ii) The management and daily business operations of which are controlled by one or more service-disabled veterans or, in the case of a veteran with permanent and severe disability, the spouse or permanent caregiver of such veteran.

(2) Service-disabled veteran means a veteran, as defined in 38 U.S.C. 101(2), with a disability that is service-connected, as defined in 38 U.S.C. 101(16).

“Small business concern” means a concern, including its affiliates, that is independently owned and operated, not dominant in the field of operation in which it is bidding on Government contracts, and qualified as a small business under the criteria in 13 CFR part 121 and size standards in this solicitation.

“Veteran-owned small business concern”—

(1) Not less than 51 percent of which is owned by one or more veterans (as defined at 38 U.S.C. 101(2)) or, in the case of any publicly owned business, not less than 51 percent of the stock of which is owned by one or more veterans; and

(2) The management and daily business operations of which are controlled by one or more veterans.

“Women-owned business concern” means a concern which is at least 51 percent owned by one or more women; or in the case of any publicly owned business, at least 51 percent of its stock is owned by one or more women; and whose management and daily business operations are controlled by one or more women.

“Women-owned small business concern” means a small business concern—

(1) That is at least 51 percent owned by one or more women; or, in the case of any publicly owned business, at least 51 percent of the stock of which is owned by one or more women; and

(2) Whose management and daily business operations are controlled by one or more women.

(b) *Taxpayer Identification Number (TIN)* (26 U.S.C. 6109, 31 U.S.C. 7701). (Not applicable if the offeror is required to provide this information to a central contractor registration database to be eligible for award.)

(1) All offerors must submit the information required in paragraphs (b)(3) through (b)(5) of this provision to comply with debt collection requirements of 31 U.S.C. 7701(c) and 3325(d), reporting requirements of 26 U.S.C. 6041, 6041A, and 6050M, and implementing regulations issued by the Internal Revenue Service (IRS).

(2) The TIN may be used by the Government to collect and report on any delinquent amounts arising out of the offeror's relationship with the Government (31 U.S.C. 7701(c)(3)). If the resulting contract is subject to the payment reporting requirements described in FAR 4.904, the TIN provided hereunder may be matched with IRS records to verify the accuracy of the offeror's TIN.

(3) *Taxpayer Identification Number (TIN).*

TIN: \_\_\_\_\_.

TIN has been applied for.

TIN is not required because:

- Offeror is a nonresident alien, foreign corporation, or foreign partnership that does not have income effectively connected with the conduct of a trade or business in the United States and does not have an office or place of business or a fiscal paying agent in the United States;
- Offeror is an agency or instrumentality of a foreign government;
- Offeror is an agency or instrumentality of the Federal Government.

(4) *Type of organization.*

- Sole proprietorship;
- Partnership;
- Corporate entity (not tax-exempt);
- Corporate entity (tax-exempt);
- Government entity (Federal, State, or local);
- Foreign government;
- International organization per 26 CFR 1.6049-4;
- Other \_\_\_\_\_.

(5) *Common parent.*

- Offeror is not owned or controlled by a common parent;
- Name and TIN of common parent:  
Name \_\_\_\_\_  
TIN \_\_\_\_\_.

(c) Offerors must complete the following representations when the resulting contract is to be performed inside the United States, its territories or possessions, Puerto Rico, the Trust Territory of the Pacific Islands, or the District of Columbia. Check all that apply.

(1) *Small business concern.* The offeror represents as part of its offer that it  is,  is not a small business concern.

(2) *Veteran-owned small business concern.* [Complete only if the offeror represented itself as a small business concern in paragraph (c)(1) of this provision.] The offeror represents as part of its offer that it  is,  is not a veteran-owned small business concern.

(3) *Service-disabled veteran-owned small business concern.* [Complete only if the offeror represented itself as a veteran-owned small business concern in paragraph (c)(2) of this provision.] The offeror represents as part of its offer that it  is,  is not a service-disabled veteran-owned small business concern.

(4) *Small disadvantaged business concern.* [Complete only if the offeror represented itself as a small business concern in paragraph (c)(1) of this provision.] The offeror represents, for general statistical purposes, that it  is,  is not a small disadvantaged business concern as defined in 13 CFR 124.1002.

(5) *Women-owned small business concern.* [Complete only if the offeror represented itself as a small business concern in paragraph (c)(1) of this provision.] The offeror represents that it  is,  is not a women-owned small business concern.

**NOTE:** Complete paragraphs (c)(6) and (c)(7) only if this solicitation is expected to exceed the simplified acquisition threshold.

(6) *Women-owned business concern (other than small business concern).* [Complete only if the offeror is a women-owned business concern and did not represent itself as a small business concern in paragraph (c)(1) of this provision.] The offeror represents that it  is a women-owned business concern.

(7) *Tie bid priority for labor surplus area concerns.* If this is an invitation for bid, small business offerors may identify the labor surplus areas in which costs to be incurred on account of manufacturing or production (by offeror or first-tier subcontractors) amount to more than 50 percent of the contract price:

(8) Small Business Size for the Small Business Competitiveness Demonstration Program and for the Targeted Industry Categories under the Small Business Competitiveness Demonstration Program. [Complete only if the offeror has represented itself to be a small business concern under the size standards for this solicitation.]

(i) [Complete only for solicitations indicated in an addendum as being set-aside for emerging small businesses in one of the four designated industry groups (DIGs).] The offeror represents as part of its offer that it  is,  is not an emerging small business.

(ii) [Complete only for solicitations indicated in an addendum as being for one of the targeted industry categories (TICs) or four designated industry groups (DIGs).] Offeror represents as follows:

(A) Offeror's number of employees for the past 12 months (check the Employees column if size standard stated in the solicitation is expressed in terms of number of employees); or

(B) Offeror's average annual gross revenue for the last 3 fiscal years (check the Average Annual Gross Number of Revenues column if size standard stated in the solicitation is expressed in terms of annual receipts).

(Check one of the following):

Number of Employees	Average Annual Gross Revenues
<input type="checkbox"/> 50 or fewer	<input type="checkbox"/> \$1 million or less
<input type="checkbox"/> 51—100	<input type="checkbox"/> \$1,000,001—\$2 million
<input type="checkbox"/> 101—250	<input type="checkbox"/> \$2,000,001—\$3.5 million
<input type="checkbox"/> 251—500	<input type="checkbox"/> \$3,500,001—\$5 million

- \_\_\_ 501—750                      \_\_\_ \$5,000,001—\$10 million
- \_\_\_ 751—1,000                 \_\_\_ \$10,000,001—\$17 million
- \_\_\_ Over 1,000                \_\_\_ Over \$17 million

(9) [Complete only if the solicitation contains the clause at FAR 52.219-23, Notice of Price Evaluation Adjustment for Small Disadvantaged Business Concerns, or FAR 52.219-25, Small Disadvantaged Business Participation Program—Disadvantaged Status and Reporting, and the offeror desires a benefit based on its disadvantaged status.]

(i) General. The offeror represents that either—

(A) It  is,  is not certified by the Small Business Administration as a small disadvantaged business concern and identified, on the date of this representation, as a certified small disadvantaged business concern in the database maintained by the Small Business Administration (PRO-Net), and that no material change in disadvantaged ownership and control has occurred since its certification, and, where the concern is owned by one or more individuals claiming disadvantaged status, the net worth of each individual upon whom the certification is based does not exceed \$750,000 after taking into account the applicable exclusions set forth at 13 CFR 124.104(c)(2); or

(B) It  has,  has not submitted a completed application to the Small Business Administration or a Private Certifier to be certified as a small disadvantaged business concern in accordance with 13 CFR 124, Subpart B, and a decision on that application is pending, and that no material change in disadvantaged ownership and control has occurred since its application was submitted.

(ii)  Joint Ventures under the Price Evaluation Adjustment for Small Disadvantaged Business Concerns. The offeror represents, as part of its offer, that it is a joint venture that complies with the requirements in 13 CFR 124.1002(f) and that the representation in paragraph (c)(9)(i) of this provision is accurate for the small disadvantaged business concern that is participating in the joint venture. [The offeror shall enter the name of the small disadvantaged business concern that is participating in the joint venture: \_\_\_\_\_.]

(d) Representations required to implement provisions of Executive Order 11246—(1) Previous contracts and compliance. The offeror represents that—

(i) It  has,  has not participated in a previous contract or subcontract subject to the Equal Opportunity clause of this solicitation; and

(ii) It  has,  has not filed all required compliance reports.

(2) Affirmative Action Compliance. The offeror represents that—

(i) It  has developed and has on file,  has not developed and does not have on file, at each establishment,

affirmative action programs required by rules and regulations of the Secretary of Labor (41 CFR parts 60-1 and 60-2), or

(ii) It  has not previously had contracts subject to the written affirmative action programs requirement of the rules and regulations of the Secretary of Labor.

(e) Certification Regarding Payments to Influence Federal Transactions (31 U.S.C. 1352). (Applies only if the contract is expected to exceed \$100,000.) By submission of its offer, the offeror certifies to the best of its knowledge and belief that no Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress or an employee of a Member of Congress on his or her behalf in connection with the award of any resultant contract.

(f) Buy American Act—Balance of Payments Program Certificate. (Applies only if the clause at Federal Acquisition Regulation (FAR) 52.225-1, Buy American Act—Balance of Payments Program—Supplies, is included in this solicitation.)

(1) The offeror certifies that each end product, except those listed in paragraph (f)(2) of this provision, is a domestic end product as defined in the clause of this solicitation entitled “Buy American Act—Balance of Payments Program—Supplies” and that the offeror has considered components of unknown origin to have been mined, produced, or manufactured outside the United States. The offeror shall list as foreign end products those end products manufactured in the United States that do not qualify as domestic end products.

(2) Foreign End Products:

Line Item No.	Country of Origin
_____	_____
_____	_____
_____	_____

[List as necessary]

(3) The Government will evaluate offers in accordance with the policies and procedures of FAR Part 25.

(g)(1) Buy American Act—North American Free Trade Agreement—Israeli Trade Act—Balance of Payments Program Certificate. (Applies only if the clause at FAR 52.225-3, Buy American Act—North American Free Trade Agreement—Israeli Trade Act—Balance of Payments Program, is included in this solicitation.)

(i) The offeror certifies that each end product, except those listed in paragraph (g)(1)(ii) or (g)(1)(iii) of this provision, is a domestic end product as defined in the clause of this solicitation entitled “Buy American Act—North American Free Trade Agreement—Israeli Trade Act—Balance of Payments Program” and that the offeror has considered components of unknown origin to have been mined, produced, or manufactured outside the United States.

(ii) The offeror certifies that the following supplies are NAFTA country end products or Israeli end products as defined in the clause of this solicitation entitled “Buy American Act—North American Free Trade Agreement—Israeli Trade Act—Balance of Payments Program”:

NAFTA Country or Israeli End Products:

Line Item No.	Country of Origin
_____	_____
_____	_____
_____	_____

[List as necessary]

(iii) The offeror shall list those supplies that are foreign end products (other than those listed in paragraph (g)(1)(ii) of this provision) as defined in the clause of this solicitation entitled “Buy American Act—North American Free Trade Agreement—Israeli Trade Act—Balance of Payments Program.” The offeror shall list as other foreign end products those end products manufactured in the United States that do not qualify as domestic end products.

Other Foreign End Products:

Line Item No.	Country of Origin
_____	_____
_____	_____
_____	_____

[List as necessary]

(iv) The Government will evaluate offers in accordance with the policies and procedures of FAR Part 25.

(2) *Buy American Act—North American Free Trade Agreements—Israeli Trade Act—Balance of Payments Program Certificate, Alternate I (Feb 2000)*. If Alternate I to the clause at FAR 52.225-3 is included in this solicitation, substitute the following paragraph (g)(1)(ii) for paragraph (g)(1)(ii) of the basic provision:

(g)(1)(ii) The offeror certifies that the following supplies are Canadian end products as defined in the clause of this solicitation entitled “Buy American Act—North American Free Trade Agreement—Israeli Trade Act—Balance of Payments Program”:

Canadian End Products:

Line Item No.
_____
_____
_____

[List as necessary]

(3) *Buy American Act—North American Free Trade Agreements—Israeli Trade Act—Balance of Payments Program Certificate, Alternate II (Feb 2000)*. If Alternate II to the clause at FAR 52.225-3 is included in this solicitation, substitute the following paragraph (g)(1)(ii) for paragraph (g)(1)(ii) of the basic provision:

(g)(1)(ii) The offeror certifies that the following supplies are Canadian end products or Israeli end products as defined in the clause of this solicitation entitled “Buy American Act—North American Free Trade Agreement—Israeli Trade Act—Balance of Payments Program”:

Canadian or Israeli End Products:

Line Item No.	Country of Origin
_____	_____
_____	_____
_____	_____

[List as necessary]

(4) *Trade Agreements Certificate*. (Applies only if the clause at FAR 52.225-5, Trade Agreements, is included in this solicitation.)

(i) The offeror certifies that each end product, except those listed in paragraph (g)(4)(ii) of this provision, is a U.S.-made, designated country, Caribbean Basin country, or NAFTA country end product, as defined in the clause of this solicitation entitled “Trade Agreements.”

(ii) The offeror shall list as other end products those end products that are not U.S.-made, designated country, Caribbean Basin country, or NAFTA country end products.

Other End Products:

Line Item No.	Country of Origin
_____	_____
_____	_____
_____	_____

[List as necessary]

(iii) The Government will evaluate offers in accordance with the policies and procedures of FAR Part 25. For line items subject to the Trade Agreements Act, the Government will evaluate offers of U.S.-made, designated country, Caribbean Basin country, or NAFTA country end products without regard to the restrictions of the Buy American Act or the Balance of Payments Program. The Government will consider for award only offers of U.S.-made, designated country, Caribbean Basin country, or NAFTA country end products unless the Contracting Officer determines that there are no offers for such products or that the offers for such products are insufficient to fulfill the requirements of the solicitation.

(h) *Certification Regarding Debarment, Suspension or Ineligibility for Award (Executive Order 12549)*. (Applies only if the contract value is expected to exceed the simplified acquisition threshold.) The offeror certifies, to the best of its knowledge and belief, that the offeror and/or any of its principals—

(1)  Are,  are not presently debarred, suspended, proposed for debarment, or declared ineligible for the award of contracts by any Federal agency; and

(2)  Have,  have not, within a three-year period preceding this offer, been convicted of or had a civil judgment rendered against them for: commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a Federal, state or local government contract or subcontract; violation of Federal or state antitrust statutes relating to the submission of offers; or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, tax evasion, or receiving stolen property; and

(3)  Are,  are not presently indicted for, or otherwise criminally or civilly charged by a Government entity with, commission of any of these offenses.

(i) *Certification Regarding Knowledge of Child Labor for Listed End Products (Executive Order 13126)*. [The Contracting Officer must list in paragraph (i)(1) any end products being acquired under this solicitation that are included in the List of Products Requiring Contractor Certification as to Forced or Indentured Child Labor, unless excluded at 22.1503(b).]

(1) *Listed end products.*

Listed End Product	Listed Countries of Origin
_____	_____
_____	_____

(2) *Certification*. [If the Contracting Officer has identified end products and countries of origin in paragraph (i)(1) of this provision, then the offeror must certify to either (i)(2)(i) or (i)(2)(ii) by checking the appropriate block.]

[  ] (i) The offeror will not supply any end product listed in paragraph (i)(1) of this provision that was mined, produced, or manufactured in the corresponding country as listed for that product.

[  ] (ii) The offeror may supply an end product listed in paragraph (i)(1) of this provision that was mined, produced, or manufactured in the corresponding country as listed for that product. The offeror certifies that it has made a good faith effort to determine whether forced or indentured child labor was used to mine, produce, or manufacture any such end product furnished under this contract. On the basis of those

efforts, the offeror certifies that it is not aware of any such use of child labor.

(End of provision)

*Alternate I (Feb 2002)*. As prescribed in 12.301(b)(2), add the following paragraph (c)(10) to the basic provision:

(10) (Complete if the offeror has represented itself as disadvantaged in paragraph (c)(4) or (c)(9) of this provision.)

[The offeror shall check the category in which its ownership falls]:

\_\_\_\_\_ Black American.

\_\_\_\_\_ Hispanic American.

\_\_\_\_\_ Native American (American Indians, Eskimos, Aleuts, or Native Hawaiians).

\_\_\_\_\_ Asian-Pacific American (persons with origins from Burma, Thailand, Malaysia, Indonesia, Singapore, Brunei, Japan, China, Taiwan, Laos, Cambodia (Kampuchea), Vietnam, Korea, The Philippines, U.S. Trust Territory of the Pacific Islands (Republic of Palau), Republic of the Marshall Islands, Federated States of Micronesia, the Commonwealth of the Northern Mariana Islands, Guam, Samoa, Macao, Hong Kong, Fiji, Tonga, Kiribati, Tuvalu, or Nauru).

\_\_\_\_\_ Subcontinent Asian (Asian-Indian) American (persons with origins from India, Pakistan, Bangladesh, Sri Lanka, Bhutan, the Maldives Islands, or Nepal).

\_\_\_\_\_ Individual/concern, other than one of the preceding.

*Alternate II (Oct 2000)*. As prescribed in 12.301(b)(2), add the following paragraph (c)(9)(iii) to the basic provision:

(iii) *Address*. The offeror represents that its address  is,  is not in a region for which a small disadvantaged business procurement mechanism is authorized and its address has not changed since its certification as a small disadvantaged business concern or submission of its application for certification. The list of authorized small disadvantaged business procurement mechanisms and regions is posted at <http://www.arnet.gov/References/sdbadjustments.htm>. The offeror shall use the list in effect on the date of this solicitation. "Address," as used in this provision, means the address of the offeror as listed on the Small Business Administration's register of small disadvantaged business concerns or the address on the completed application that the concern has submitted to the Small Business Administration or a Private Certifier in accordance with 13 CFR part 124, subpart B. For joint ventures, "address" refers to the address of the small disadvantaged business concern that is participating in the joint venture.

*Alternate III (Oct 2000)*. As prescribed in 12.301(b)(2), add the following paragraph (c)(11) to the basic provision:

(11) *HUBZone small business concern*. [Complete only if the offeror represented itself as a small business concern in paragraph (c)(1) of this provision.] The offeror represents as part of its offer that—

(i) It  is,  is not a HUBZone small business concern listed, on the date of this representation, on the List of Qualified

HUBZone Small Business Concerns maintained by the Small Business Administration, and no material change in ownership and control, principal place of ownership, or HUBZone employee percentage has occurred since it was certified by the Small Business Administration in accordance with 13 CFR part 126; and

(ii) It  is,  is not a joint venture that complies with the requirements of 13 CFR part 126, and the representation in paragraph (c)(11)(i) of this provision is accurate for the HUBZone small business concern or concerns that are participating in the joint venture. [The offeror shall enter the name or names of the HUBZone small business concern or concerns that are participating in the joint venture: \_\_\_\_\_.] Each HUBZone small business concern participating in the joint venture shall submit a separate signed copy of the HUBZone representation.

#### 52.212-4 Contract Terms and Conditions—Commercial Items.

As prescribed in 12.301(b)(3), insert the following clause:

##### CONTRACT TERMS AND CONDITIONS—COMMERCIAL ITEMS (FEB 2002)

(a) *Inspection/Acceptance.* The Contractor shall only tender for acceptance those items that conform to the requirements of this contract. The Government reserves the right to inspect or test any supplies or services that have been tendered for acceptance. The Government may require repair or replacement of nonconforming supplies or reperformance of nonconforming services at no increase in contract price. The Government must exercise its post-acceptance rights—

(1) Within a reasonable time after the defect was discovered or should have been discovered; and

(2) Before any substantial change occurs in the condition of the item, unless the change is due to the defect in the item.

(b) *Assignment.* The Contractor or its assignee may assign its rights to receive payment due as a result of performance of this contract to a bank, trust company, or other financing institution, including any Federal lending agency in accordance with the Assignment of Claims Act (31 U.S.C. 3727). However, when a third party makes payment (e.g., use of the Governmentwide commercial purchase card), the Contractor may not assign its rights to receive payment under this contract.

(c) *Changes.* Changes in the terms and conditions of this contract may be made only by written agreement of the parties.

(d) *Disputes.* This contract is subject to the Contract Disputes Act of 1978, as amended (41 U.S.C. 601-613). Failure of the parties to this contract to reach agreement on any request for equitable adjustment, claim, appeal or action arising under or relating to this contract shall be a dispute to be resolved in accordance with the clause at FAR 52.233-1, Disputes, which is incorporated herein by reference. The Con-

tractor shall proceed diligently with performance of this contract, pending final resolution of any dispute arising under the contract.

(e) *Definitions.* The clause at FAR 52.202-1, Definitions, is incorporated herein by reference.

(f) *Excusable delays.* The Contractor shall be liable for default unless nonperformance is caused by an occurrence beyond the reasonable control of the Contractor and without its fault or negligence such as, acts of God or the public enemy, acts of the Government in either its sovereign or contractual capacity, fires, floods, epidemics, quarantine restrictions, strikes, unusually severe weather, and delays of common carriers. The Contractor shall notify the Contracting Officer in writing as soon as it is reasonably possible after the commencement of any excusable delay, setting forth the full particulars in connection therewith, shall remedy such occurrence with all reasonable dispatch, and shall promptly give written notice to the Contracting Officer of the cessation of such occurrence.

(g) *Invoice.* (1) The Contractor shall submit an original invoice and three copies (or electronic invoice, if authorized) to the address designated in the contract to receive invoices. An invoice must include—

(i) Name and address of the Contractor;

(ii) Invoice date and number;

(iii) Contract number, contract line item number and, if applicable, the order number;

(iv) Description, quantity, unit of measure, unit price and extended price of the items delivered;

(v) Shipping number and date of shipment, including the bill of lading number and weight of shipment if shipped on Government bill of lading;

(vi) Terms of any discount for prompt payment offered;

(vii) Name and address of official to whom payment is to be sent;

(viii) Name, title, and phone number of person to notify in event of defective invoice; and

(ix) Taxpayer Identification Number (TIN). The Contractor shall include its TIN on the invoice only if required elsewhere in this contract.

(x) Electronic funds transfer (EFT) banking information.

(A) The Contractor shall include EFT banking information on the invoice only if required elsewhere in this contract.

(B) If EFT banking information is not required to be on the invoice, in order for the invoice to be a proper invoice, the Contractor shall have submitted correct EFT banking information in accordance with the applicable solicitation provision, contract clause (e.g., 52.232-33, Payment by Electronic Funds Transfer—Central Contractor Registration, or 52.232-34, Payment by Electronic Funds Transfer—

Other Than Central Contractor Registration), or applicable agency procedures.

(C) EFT banking information is not required if the Government waived the requirement to pay by EFT.

(2) Invoices will be handled in accordance with the Prompt Payment Act (31 U.S.C. 3903) and Office of Management and Budget (OMB) prompt payment regulations at 5 CFR part 1315.

(h) *Patent indemnity.* The Contractor shall indemnify the Government and its officers, employees and agents against liability, including costs, for actual or alleged direct or contributory infringement of, or inducement to infringe, any United States or foreign patent, trademark or copyright, arising out of the performance of this contract, provided the Contractor is reasonably notified of such claims and proceedings.

(i) *Payment.* Payment shall be made for items accepted by the Government that have been delivered to the delivery destinations set forth in this contract. The Government will make payment in accordance with the Prompt Payment Act (31 U.S.C. 3903) and OMB prompt payment regulations at 5 CFR part 1315. In connection with any discount offered for early payment, time shall be computed from the date of the invoice. For the purpose of computing the discount earned, payment shall be considered to have been made on the date which appears on the payment check or the specified payment date if an electronic funds transfer payment is made.

(j) *Risk of loss.* Unless the contract specifically provides otherwise, risk of loss or damage to the supplies provided under this contract shall remain with the Contractor until, and shall pass to the Government upon:

(1) Delivery of the supplies to a carrier, if transportation is f.o.b. origin; or

(2) Delivery of the supplies to the Government at the destination specified in the contract, if transportation is f.o.b. destination.

(k) *Taxes.* The contract price includes all applicable Federal, State, and local taxes and duties.

(l) *Termination for the Government's convenience.* The Government reserves the right to terminate this contract, or any part hereof, for its sole convenience. In the event of such termination, the Contractor shall immediately stop all work hereunder and shall immediately cause any and all of its suppliers and subcontractors to cease work. Subject to the terms of this contract, the Contractor shall be paid a percentage of the contract price reflecting the percentage of the work performed prior to the notice of termination, plus reasonable charges the Contractor can demonstrate to the satisfaction of the Government using its standard record keeping system, have resulted from the termination. The Contractor shall not be required to comply with the cost accounting standards or contract cost principles for this purpose. This paragraph does not give the Government any right to audit the Contractor's records. The Contractor shall not be paid for any work per-

formed or costs incurred which reasonably could have been avoided.

(m) *Termination for cause.* The Government may terminate this contract, or any part hereof, for cause in the event of any default by the Contractor, or if the Contractor fails to comply with any contract terms and conditions, or fails to provide the Government, upon request, with adequate assurances of future performance. In the event of termination for cause, the Government shall not be liable to the Contractor for any amount for supplies or services not accepted, and the Contractor shall be liable to the Government for any and all rights and remedies provided by law. If it is determined that the Government improperly terminated this contract for default, such termination shall be deemed a termination for convenience.

(n) *Title.* Unless specified elsewhere in this contract, title to items furnished under this contract shall pass to the Government upon acceptance, regardless of when or where the Government takes physical possession.

(o) *Warranty.* The Contractor warrants and implies that the items delivered hereunder are merchantable and fit for use for the particular purpose described in this contract.

(p) *Limitation of liability.* Except as otherwise provided by an express warranty, the Contractor will not be liable to the Government for consequential damages resulting from any defect or deficiencies in accepted items.

(q) *Other compliances.* The Contractor shall comply with all applicable Federal, State and local laws, executive orders, rules and regulations applicable to its performance under this contract.

(r) *Compliance with laws unique to Government contracts.* The Contractor agrees to comply with 31 U.S.C. 1352 relating to limitations on the use of appropriated funds to influence certain Federal contracts; 18 U.S.C. 431 relating to officials not to benefit; 40 U.S.C. 327, *et seq.*, Contract Work Hours and Safety Standards Act; 41 U.S.C. 51-58, Anti-Kickback Act of 1986; 41 U.S.C. 265 and 10 U.S.C. 2409 relating to whistleblower protections; 49 U.S.C. 40118, Fly American; and 41 U.S.C. 423 relating to procurement integrity.

(s) *Order of precedence.* Any inconsistencies in this solicitation or contract shall be resolved by giving precedence in the following order:

- (1) The schedule of supplies/services.
- (2) The Assignments, Disputes, Payments, Invoice, Other Compliances, and Compliance with Laws Unique to Government Contracts paragraphs of this clause.
- (3) The clause at 52.212-5.
- (4) Addenda to this solicitation or contract, including any license agreements for computer software.
- (5) Solicitation provisions if this is a solicitation.
- (6) Other paragraphs of this clause.
- (7) The Standard Form 1449.
- (8) Other documents, exhibits, and attachments.

(9) The specification.

(End of clause)

**52.212-5 Contract Terms and Conditions Required to Implement Statutes or Executive Orders—Commercial Items.**

As prescribed in 12.301(b)(4), insert the following clause:

CONTRACT TERMS AND CONDITIONS REQUIRED TO  
IMPLEMENT STATUTES OR EXECUTIVE ORDERS—  
COMMERCIAL ITEMS (DEC 2001)

(a) The Contractor shall comply with the following FAR clauses, which are incorporated in this contract by reference, to implement provisions of law or executive orders applicable to acquisitions of commercial items:

(1) 52.222-3, Convict Labor (E.O. 11755).

(2) 52.233-3, Protest after Award (31 U.S.C. 3553).

(b) The Contractor shall comply with the FAR clauses in this paragraph (b) that the Contracting Officer has indicated as being incorporated in this contract by reference to implement provisions of law or Executive orders applicable to acquisitions of commercial items or components:

[Contracting Officer must check as appropriate.]

\_\_ (1) 52.203-6, Restrictions on Subcontractor Sales to the Government, with Alternate I (41 U.S.C. 253g and 10 U.S.C. 2402).

\_\_ (2) 52.219-3, Notice of Total HUBZone Small Business Set-Aside (Jan 1999).

\_\_ (3) 52.219-4, Notice of Price Evaluation Preference for HUBZone Small Business Concerns (Jan 1999) (if the offeror elects to waive the preference, it shall so indicate in its offer).

\_\_ (4)(i) 52.219-5, Very Small Business Set-Aside (Pub. L. 103-403, section 304, Small Business Reauthorization and Amendments Act of 1994).

\_\_ (ii) Alternate I to 52.219-5.

\_\_ (iii) Alternate II to 52.219-5.

\_\_ (5) 52.219-8, Utilization of Small Business Concerns (15 U.S.C. 637 (d)(2) and (3)).

\_\_ (6) 52.219-9, Small Business Subcontracting Plan (15 U.S.C. 637(d)(4)).

\_\_ (7) 52.219-14, Limitations on Subcontracting (15 U.S.C. 637(a)(14)).

\_\_ (8)(i) 52.219-23, Notice of Price Evaluation Adjustment for Small Disadvantaged Business Concerns (Pub. L. 103-355, section 7102, and 10 U.S.C. 2323) (if the offeror elects to waive the adjustment, it shall so indicate in its offer).

\_\_ (ii) Alternate I of 52.219-23.

\_\_ (9) 52.219-25, Small Disadvantaged Business Participation Program—Disadvantaged Status and Reporting (Pub. L. 103-355, section 7102, and 10 U.S.C. 2323).

\_\_ (10) 52.219-26, Small Disadvantaged Business Participation Program—Incentive Subcontracting (Pub. L. 103-355, section 7102, and 10 U.S.C. 2323).

\_\_ (11) 52.222-21, Prohibition of Segregated Facilities (Feb 1999)

\_\_ (12) 52.222-26, Equal Opportunity (E.O. 11246).

\_\_ (13) 52.222-35, Equal Opportunity for Special Disabled Veterans, Veterans of the Vietnam Era, and Other Eligible Veterans (38 U.S.C. 4212)

\_\_ (14) 52.222-36, Affirmative Action for Workers with Disabilities (29 U.S.C. 793).

\_\_ (15) 52.222-37, Employment Reports on Special Disabled Veterans, Veterans of the Vietnam Era, and Other Eligible Veterans (38 U.S.C. 4212).

\_\_ (16) 52.222-19, Child Labor—Cooperation with Authorities and Remedies (E.O. 13126).

\_\_ (17)(i) 52.223-9, Estimate of Percentage of Recovered Material Content for EPA-Designated Products (42 U.S.C. 6962(c)(3)(A)(ii)).

\_\_ (ii) Alternate I of 52.223-9 (42 U.S.C. 6962(i)(2)(C)).

\_\_ (18) 52.225-1, Buy American Act—Balance of Payments Program—Supplies (41 U.S.C. 10a - 10d).

\_\_ (19)(i) 52.225-3, Buy American Act—North American Free Trade Agreement—Israeli Trade Act—Balance of Payments Program (41 U.S.C. 10a - 10d, 19 U.S.C. 3301 note, 19 U.S.C. 2112 note).

\_\_ (ii) Alternate I of 52.225-3.

\_\_ (iii) Alternate II of 52.225-3.

\_\_ (20) 52.225-5, Trade Agreements (19 U.S.C. 2501, *et seq.*, 19 U.S.C. 3301 note).

\_\_ (21) 52.225-13, Restriction on Certain Foreign Purchases (E.O. 12722, 12724, 13059, 13067, 13121, and 13129).

\_\_ (22) 52.225-15, Sanctioned European Union Country End Products (E.O. 12849).

\_\_ (23) 52.225-16, Sanctioned European Union Country Services (E.O. 12849).

\_\_ (24) 52.232-33, Payment by Electronic Funds Transfer—Central Contractor Registration (31 U.S.C. 3332).

\_\_ (25) 52.232-34, Payment by Electronic Funds Transfer—Other than Central Contractor Registration (31 U.S.C. 3332).

\_\_ (26) 52.232-36, Payment by Third Party (31 U.S.C. 3332).

\_\_ (27) 52.239-1, Privacy or Security Safeguards (5 U.S.C. 552a).

\_\_ (28)(i) 52.247-64, Preference for Privately Owned U.S.-Flag Commercial Vessels (46 U.S.C. 1241).

\_\_ (ii) Alternate I of 52.247-64.

(c) The Contractor shall comply with the FAR clauses in this paragraph (c), applicable to commercial services, which the Contracting Officer has indicated as being incorporated in

this contract by reference to implement provisions of law or executive orders applicable to acquisitions of commercial items or components:

[Contracting Officer check as appropriate.]

— (1) 52.222-41, Service Contract Act of 1965, As Amended (41 U.S.C. 351, *et seq.*).

— (2) 52.222-42, Statement of Equivalent Rates for Federal Hires (29 U.S.C. 206 and 41 U.S.C. 351, *et seq.*).

— (3) 52.222-43, Fair Labor Standards Act and Service Contract Act—Price Adjustment (Multiple Year and Option Contracts) (29 U.S.C. 206 and 41 U.S.C. 351, *et seq.*).

— (4) 52.222-44, Fair Labor Standards Act and Service Contract Act—Price Adjustment (29 U.S.C. 206 and 41 U.S.C. 351, *et seq.*).

— (5) 52.222-47, SCA Minimum Wages and Fringe Benefits Applicable to Successor Contract Pursuant to Predecessor Contractor Collective Bargaining Agreement (CBA) (41 U.S.C. 351, *et seq.*).

(d) *Comptroller General Examination of Record.* The Contractor shall comply with the provisions of this paragraph (d) if this contract was awarded using other than sealed bid, is in excess of the simplified acquisition threshold, and does not contain the clause at 52.215-2, Audit and Records—Negotiation.

(1) The Comptroller General of the United States, or an authorized representative of the Comptroller General, shall have access to and right to examine any of the Contractor's directly pertinent records involving transactions related to this contract.

(2) The Contractor shall make available at its offices at all reasonable times the records, materials, and other evidence for examination, audit, or reproduction, until 3 years after final payment under this contract or for any shorter period specified in FAR Subpart 4.7, Contractor Records Retention, of the other clauses of this contract. If this contract is completely or partially terminated, the records relating to the work terminated shall be made available for 3 years after any resulting final termination settlement. Records relating to appeals under the disputes clause or to litigation or the settlement of claims arising under or relating to this contract shall be made available until such appeals, litigation, or claims are finally resolved.

(3) As used in this clause, records include books, documents, accounting procedures and practices, and other data, regardless of type and regardless of form. This does not require the Contractor to create or maintain any record that the Contractor does not maintain in the ordinary course of business or pursuant to a provision of law.

(e) Notwithstanding the requirements of the clauses in paragraphs (a), (b), (c) or (d) of this clause, the Contractor is not required to include any FAR clause, other than those listed below (and as may be required by an addenda to this paragraph to establish the reasonableness of prices under Part 15),

in a subcontract for commercial items or commercial components—

(1) 52.222-26, Equal Opportunity (E.O. 11246);

(2) 52.222-35, Equal Opportunity for Special Disabled Veterans, Veterans of the Vietnam Era, and Other Eligible Veterans (38 U.S.C. 4212);

(3) 52.222-36, Affirmative Action for Workers with Disabilities (29 U.S.C. 793);

(4) 52.247-64, Preference for Privately-Owned U.S. Flag Commercial Vessels (46 U.S.C. 1241) (flow down not required for subcontracts awarded beginning May 1, 1996); and

(5) 52.222-41, Service Contract Act of 1965, As Amended (41 U.S.C. 351, *et seq.*).

(End of clause)

*Alternate I (Feb 2000).* As prescribed in 12.301(b)(4), delete paragraph (d) from the basic clause, redesignate paragraph (e) as paragraph (d), and revise the reference to “paragraphs (a), (b), (c), or (d) of this clause” in the redesignated paragraph (d) to read “paragraphs (a), (b), and (c) of this clause”.

#### 52.213-1 Fast Payment Procedure.

As prescribed in 13.404, insert the following clause:

##### FAST PAYMENT PROCEDURE (FEB 1998)

(a) *General.* The Government will pay invoices based on the Contractor's delivery to a post office or common carrier (or, if shipped by other means, to the point of first receipt by the Government).

(b) *Responsibility for supplies.* (1) Title to the supplies passes to the Government upon delivery to—

(i) A post office or common carrier for shipment to the specific destination; or

(ii) The point of first receipt by the Government, if shipment is by means other than Postal Service or common carrier.

(2) Notwithstanding any other provision of the contract, order, or blanket purchase agreement, the Contractor shall—

(i) Assume all responsibility and risk of loss for supplies not received at destination, damaged in transit, or not conforming to purchase requirements; and

(ii) Replace, repair, or correct those supplies promptly at the Contractor's expense, if instructed to do so by the Contracting Officer within 180 days from the date title to the supplies vests in the Government.

(c) *Preparation of invoice.* (1) Upon delivery to a post office or common carrier (or, if shipped by other means, the point of first receipt by the Government), the Contractor shall—

(i) Prepare an invoice as provided in this contract, order, or blanket purchase agreement; and

(ii) Display prominently on the invoice "FAST PAY."

(2) If the purchase price excludes the cost of transportation, the Contractor shall enter the prepaid shipping cost on the invoice as a separate item. The Contractor shall not include the cost of parcel post insurance. If transportation charges are stated separately on the invoice, the Contractor shall retain related paid freight bills or other transportation billings paid separately for a period of 3 years and shall furnish the bills to the Government upon request.

(3) If this contract, order, or blanket purchase agreement requires the preparation of a receiving report, the Contractor shall prepare the receiving report on the prescribed form or, alternatively, shall include the following information on the invoice, in addition to that required in paragraph (c)(1) of this clause:

(i) A statement in prominent letters "NO RECEIVING REPORT PREPARED."

(ii) Shipment number.

(iii) Mode of shipment.

(iv) At line item level—

(A) National stock number and/or manufacturer's part number;

(B) Unit of measure;

(C) Ship-To Point;

(D) Mark-For Point, if in the contract; and

(E) FEDSTRIP/MILSTRIP document number, if in the contract.

(4) If this contract, order, or blanket purchase agreement does not require preparation of a receiving report on a prescribed form, the Contractor shall include on the invoice the following information at the line item level, in addition to that required in paragraph (c)(1) of this clause:

(i) Ship-To Point.

(ii) Mark-For Point.

(iii) FEDSTRIP/MILSTRIP document number, if in the contract.

(5) Where a receiving report is not required, the Contractor shall include a copy of the invoice in each shipment.

(d) *Certification of invoice.* The Contractor certifies by submitting an invoice to the Government that the supplies being billed to the Government have been shipped or delivered in accordance with shipping instructions issued by the ordering officer, in the quantities shown on the invoice, and that the supplies are in the quantity and of the quality designated by the contract, order, or blanket purchase agreement.

(e) *Fast pay container identification.* The Contractor shall mark all outer shipping containers "FAST PAY."

(End of clause)

**52.213-2 Invoices.**

As prescribed in 13.302-5(b), insert the following clause:

INVOICES (APR 1984)

The Contractor's invoices must be submitted before payment can be made. The Contractor will be paid on the basis of the invoice, which must state—

(a) The starting and ending dates of the subscription delivery; and

(b) Either that orders have been placed in effect for the addressees required, or that the orders will be placed in effect upon receipt of payment.

(End of clause)

**52.213-3 Notice to Supplier.**

As prescribed in 13.302-5(c), insert the following clause:

NOTICE TO SUPPLIER (APR 1984)

This is a firm order ONLY if your price does not exceed the maximum line item or total price in the Schedule. Submit invoices to the Contracting Officer. If you cannot perform in exact accordance with this order, WITHHOLD PERFORMANCE, and notify the Contracting Officer immediately, giving your quotation.

(End of clause)

**52.213-4 Terms and Conditions—Simplified Acquisitions (Other Than Commercial Items).**

As prescribed in 13.302-5(d), insert the following clause:

TERMS AND CONDITIONS—SIMPLIFIED ACQUISITIONS (OTHER THAN COMMERCIAL ITEMS) (FEB 2002)

(a) The Contractor shall comply with the following Federal Acquisition Regulation (FAR) clauses that are incorporated by reference:

(1) The clauses listed below implement provisions of law or Executive order:

(i) 52.222-3, Convict Labor (AUG 1996) (E.O. 11755).

(ii) 52.225-13, Restrictions on Certain Foreign Purchases (July 2000) (E.O.'s 12722, 12724, 13059, 13067, 13121, and 13129).

(iii) 52.233-3, Protest After Award (AUG 1996) (31 U.S.C. 3553).

(2) Listed below are additional clauses that apply:

(i) 52.232-1, Payments (APR 1984).

(ii) 52.232-8, Discounts for Prompt Payment (FEB 2002).

(iii) 52.232-11, Extras (APR 1984).

(iv) 52.232-25, Prompt Payment (FEB 2002).

(v) 52.233-1, Disputes (DEC 1998).

(vi) 52.244-6, Subcontracts for Commercial Items (DEC 2001).

(vii) 52.253-1, Computer Generated Forms (JAN 1991).

(b) The Contractor shall comply with the following FAR clauses, incorporated by reference, unless the circumstances do not apply:

(1) The clauses listed below implement provisions of law or Executive order:

(i) 52.222-20, Walsh-Healey Public Contracts Act (DEC 1996) (41 U.S.C. 35-45) (Applies to supply contracts over \$10,000 in the United States).

(ii) 52.222-21, Prohibition of Segregated Facilities (FEB 1999) (E.O. 11246) (Applies to contracts over \$10,000).

(iii) 52.222-26, Equal Opportunity (FEB 1999) (E.O. 11246) (Applies to contracts over \$10,000).

(iv) 52.222-35, Equal Opportunity for Special Disabled Veterans, Veterans of the Vietnam Era, and Other Eligible Veterans (DEC 2001) (38 U.S.C. 4212) (Applies to contracts of \$25,000 or more).

(v) 52.222-36, Affirmative Action for Workers with Disabilities (JUNE 1998) (29 U.S.C. 793) (Applies to contracts over \$10,000).

(vi) 52.222-37, Employment Reports on Special Disabled Veterans, Veterans of the Vietnam Era, and Other Eligible Veterans (DEC 2001) (38 U.S.C. 4212) (Applies to contracts of \$25,000 or more).

(vii) 52.222-41, Service Contract Act of 1965, As Amended (MAY 1989) (41 U.S.C. 351, *et seq.*) (Applies to service contracts over \$2,500).

(viii) 52.222-19, Child Labor—Cooperation with Authorities and Remedies (DEC 2001) (E.O. 13126). (Applies to contracts for supplies exceeding the micro-purchase threshold.)

(ix) 52.223-5, Pollution Prevention and Right-to-Know Information (APR 1998) (E.O. 12856) (Applies to services performed on Federal facilities).

(x) 52.225-1, Buy American Act—Balance of Payments Program—Supplies (FEB 2000) (41 U.S.C. 10a - 10d) (Applies to contracts for supplies, and to contracts for services involving the furnishing of supplies, for use within the United States if the value of the supply contract or supply portion of a service contract exceeds the micro-purchase threshold and the acquisition—

(A) Is set aside for small business concerns; or

(B) Cannot be set aside for small business concerns (see 19.502-2), and does not exceed \$25,000).

(xi) 52.232-33, Payment by Electronic Funds Transfer—Central Contractor Registration (May 1999). (Applies when the payment will be made by electronic funds transfer (EFT) and the payment office uses the Central Contractor Registration (CCR) database as its source of EFT information.)

(xii) 52.232-34, Payment by Electronic Funds Transfer—Other than Central Contractor Registration (May 1999). (Applies when the payment will be made by EFT and the payment office does not use the CCR database as its source of EFT information.)

(xiii) 52.247-64, Preference for Privately Owned U.S.-Flag Commercial Vessels (June 2000) (46 U.S.C. 1241). (Applies to supplies transported by ocean vessels.)

(2) Listed below are additional clauses that may apply:

(i) 52.209-6, Protecting the Government's Interest When Subcontracting with Contractors Debarred, Suspended, or Proposed for Debarment (JULY 1995) (Applies to contracts over \$25,000).

(ii) 52.211-17, Delivery of Excess Quantities (SEPT 1989) (Applies to fixed-price supplies).

(iii) 52.247-29, F.o.b. Origin (JUNE 1988) (Applies to supplies if delivery is f.o.b. origin).

(iv) 52.247-34, F.o.b. Destination (NOV 1991) (Applies to supplies if delivery is f.o.b. destination).

(c) FAR 52.252-2, *Clauses Incorporated by Reference* (FEB 1998). This contract incorporates one or more clauses by reference, with the same force and effect as if they were given in full text. Upon request, the Contracting Officer will make their full text available. Also, the full text of a clause may be accessed electronically at this/these address(es):

---

---

[Insert one or more Internet addresses]

(d) *Inspection/Acceptance*. The Contractor shall tender for acceptance only those items that conform to the requirements of this contract. The Government reserves the right to inspect or test any supplies or services that have been tendered for acceptance. The Government may require repair or replacement of nonconforming supplies or reperformance of nonconforming services at no increase in contract price. The Government must exercise its postacceptance rights—

(1) Within a reasonable period of time after the defect was discovered or should have been discovered; and

(2) Before any substantial change occurs in the condition of the item, unless the change is due to the defect in the item.

(e) *Excusable delays*. The Contractor shall be liable for default unless nonperformance is caused by an occurrence beyond the reasonable control of the Contractor and without its fault or negligence, such as acts of God or the public enemy, acts of the Government in either its sovereign or contractual capacity, fires, floods, epidemics, quarantine restrictions, strikes, unusually severe weather, and delays of common carriers. The Contractor shall notify the Contracting Officer in writing as soon as it is reasonably possible after the commencement of any excusable delay, setting forth the full particulars in connection therewith, shall remedy such occurrence with all reasonable dispatch, and shall promptly give written notice to the Contracting Officer of the cessation of such occurrence.

(f) *Termination for the Government's convenience*. The Government reserves the right to terminate this contract, or any part hereof, for its sole convenience. In the event of such

termination, the Contractor shall immediately stop all work hereunder and shall immediately cause any and all of its suppliers and subcontractors to cease work. Subject to the terms of this contract, the Contractor shall be paid a percentage of the contract price reflecting the percentage of the work performed prior to the notice of termination, plus reasonable charges that the Contractor can demonstrate to the satisfaction of the Government, using its standard record keeping system, have resulted from the termination. The Contractor shall not be required to comply with the cost accounting standards or contract cost principles for this purpose. This paragraph does not give the Government any right to audit the Contractor's records. The Contractor shall not be paid for any work performed or costs incurred that reasonably could have been avoided.

(g) *Termination for cause.* The Government may terminate this contract, or any part hereof, for cause in the event of any default by the Contractor, or if the Contractor fails to comply with any contract terms and conditions, or fails to provide the Government, upon request, with adequate assurances of future performance. In the event of termination for cause, the Government shall not be liable to the Contractor for any amount for supplies or services not accepted, and the Contractor shall be liable to the Government for any and all rights and remedies provided by law. If it is determined that the Government improperly terminated this contract for default, such termination shall be deemed a termination for convenience.

(h) *Warranty.* The Contractor warrants and implies that the items delivered hereunder are merchantable and fit for use for the particular purpose described in this contract.

(End of clause)

**52.214-1 Solicitation Definitions—Sealed Bidding.**

As prescribed in 14.201-6(b)(1), insert the following provision:

SOLICITATION DEFINITIONS—SEALED BIDDING  
(JULY 1987)

“Government” means United States Government.

“Offer” means “bid” in sealed bidding.

“Solicitation” means an invitation for bids in sealed bidding.

(End of provision)

**52.214-2 [Reserved]****52.214-3 Amendments to Invitations for Bids.**

As prescribed in 14.201-6(b)(3), insert the following provision:

AMENDMENTS TO INVITATIONS FOR BIDS (DEC 1989)

(a) If this solicitation is amended, then all terms and conditions which are not modified remain unchanged.

(b) Bidders shall acknowledge receipt of any amendment to this solicitation (1) by signing and returning the amendment, (2) by identifying the amendment number and date in the space provided for this purpose on the form for submitting a bid, (3) by letter or telegram, or (4) by facsimile, if facsimile bids are authorized in the solicitation. The Government must receive the acknowledgment by the time and at the place specified for receipt of bids.

(End of provision)

**52.214-4 False Statements in Bids.**

As prescribed in 14.201-6(b)(4), insert the following provision in all invitations for bids:

FALSE STATEMENTS IN BIDS (APR 1984)

Bidders must provide full, accurate, and complete information as required by this solicitation and its attachments. The penalty for making false statements in bids is prescribed in 18 U.S.C. 1001.

(End of provision)

**52.214-5 Submission of Bids.**

As prescribed in 14.201-6(c)(1), insert the following provision:

SUBMISSION OF BIDS (MAR 1997)

(a) Bids and bid modifications shall be submitted in sealed envelopes or packages (unless submitted by electronic means)—

(1) Addressed to the office specified in the solicitation; and

(2) Showing the time and date specified for receipt, the solicitation number, and the name and address of the bidder.

(b) Bidders using commercial carrier services shall ensure that the bid is addressed and marked on the outermost envelope or wrapper as prescribed in paragraphs (a)(1) and (2) of this provision when delivered to the office specified in the solicitation.

(c) Telegraphic bids will not be considered unless authorized by the solicitation; however, bids may be modified or withdrawn by written or telegraphic notice.

(d) Facsimile bids, modifications, or withdrawals, will not be considered unless authorized by the solicitation.

(e) Bids submitted by electronic commerce shall be considered only if the electronic commerce method was specifically stipulated or permitted by the solicitation.

(End of provision)

**52.214-6 Explanation to Prospective Bidders.**

As prescribed in 14.201-6(c)(2), insert the following provision:

EXPLANATION TO PROSPECTIVE BIDDERS (APR 1984)

Any prospective bidder desiring an explanation or interpretation of the solicitation, drawings, specifications, etc., must request it in writing soon enough to allow a reply to reach all prospective bidders before the submission of their bids. Oral explanations or instructions given before the award of a contract will not be binding. Any information given a prospective bidder concerning a solicitation will be furnished promptly to all other prospective bidders as an amendment to the solicitation, if that information is necessary in submitting bids or if the lack of it would be prejudicial to other prospective bidders.

(End of provision)

**52.214-7 Late Submissions, Modifications, and Withdrawals of Bids.**

As prescribed in 14.201-6(c)(3), insert the following provision:

LATE SUBMISSIONS, MODIFICATIONS, AND  
WITHDRAWALS OF BIDS (NOV 1999)

(a) Bidders are responsible for submitting bids, and any modifications or withdrawals, so as to reach the Government office designated in the invitation for bids (IFB) by the time specified in the IFB. If no time is specified in the IFB, the time for receipt is 4:30 p.m., local time, for the designated Government office on the date that bids are due.

(b)(1) Any bid, modification, or withdrawal received at the Government office designated in the IFB after the exact time specified for receipt of bids is “late” and will not be considered unless it is received before award is made, the Contract-

ing Officer determines that accepting the late bid would not unduly delay the acquisition; and—

(i) If it was transmitted through an electronic commerce method authorized by the IFB, it was received at the initial point of entry to the Government infrastructure not later than 5:00 p.m. one working day prior to the date specified for receipt of bids; or

(ii) There is acceptable evidence to establish that it was received at the Government installation designated for receipt of bids and was under the Government's control prior to the time set for receipt of bids.

(2) However, a late modification of an otherwise successful bid that makes its terms more favorable to the Government, will be considered at any time it is received and may be accepted.

(c) Acceptable evidence to establish the time of receipt at the Government installation includes the time/date stamp of that installation on the bid wrapper, other documentary evidence of receipt maintained by the installation, or oral testimony or statements of Government personnel.

(d) If an emergency or unanticipated event interrupts normal Government processes so that bids cannot be received at the Government office designated for receipt of bids by the exact time specified in the IFB and urgent Government requirements preclude amendment of the IFB, the time specified for receipt of bids will be deemed to be extended to the same time of day specified in the solicitation on the first work day on which normal Government processes resume.

(e) Bids may be withdrawn by written notice received at any time before the exact time set for receipt of bids. If the IFB authorizes facsimile bids, bids may be withdrawn via facsimile received at any time before the exact time set for receipt of bids, subject to the conditions specified in the provision at 52.214-31, Facsimile Bids. A bid may be withdrawn in person by a bidder or its authorized representative if, before the exact time set for receipt of bids, the identity of the person requesting withdrawal is established and the person signs a receipt for the bid.

(End of provision)

#### 52.214-8 [Reserved]

#### 52.214-9 Failure to Submit Bid.

As prescribed in 14.201-6(e)(1), insert the following provision in invitations for bids:

##### FAILURE TO SUBMIT BID (JULY 1995)

Recipients of this solicitation not responding with a bid should not return this solicitation, unless it specifies otherwise. Instead, they should advise the issuing office by letter, postcard, or established electronic commerce methods,

whether they want to receive future solicitations for similar requirements. If a recipient does not submit a bid and does not notify the issuing office that future solicitations are desired, the recipient's name may be removed from the applicable mailing list.

(End of provision)

#### 52.214-10 Contract Award—Sealed Bidding.

As prescribed in 14.201-6(e)(2), insert the following provision:

##### CONTRACT AWARD—SEALED BIDDING (JULY 1990)

(a) The Government will evaluate bids in response to this solicitation without discussions and will award a contract to the responsible bidder whose bid, conforming to the solicitation, will be most advantageous to the Government considering only price and the price-related factors specified elsewhere in the solicitation.

(b) The Government may—

(1) Reject any or all bids;

(2) Accept other than the lowest bid; and

(3) Waive informalities or minor irregularities in bids received.

(c) The Government may accept any item or group of items of a bid, unless the bidder qualifies the bid by specific limitations. Unless otherwise provided in the Schedule, bids may be submitted for quantities less than those specified. The Government reserves the right to make an award on any item for a quantity less than the quantity offered, at the unit prices offered, unless the bidder specifies otherwise in the bid.

(d) A written award or acceptance of a bid mailed or otherwise furnished to the successful bidder within the time for acceptance specified in the bid shall result in a binding contract without further action by either party.

(e) The Government may reject a bid as nonresponsive if the prices bid are materially unbalanced between line items or subline items. A bid is materially unbalanced when it is based on prices significantly less than cost for some work and prices which are significantly overstated in relation to cost for other work, and if there is a reasonable doubt that the bid will result in the lowest overall cost to the Government even though it may be the low evaluated bid, or if it is so unbalanced as to be tantamount to allowing an advance payment.

(End of provision)

#### 52.214-11 [Reserved]

#### 52.214-12 Preparation of Bids.

As prescribed in 14.201-6(f), insert the following provision:

PREPARATION OF BIDS (APR 1984)

(a) Bidders are expected to examine the drawings, specifications, Schedule, and all instructions. Failure to do so will be at the bidder’s risk.

(b) Each bidder shall furnish the information required by the solicitation. The bidder shall sign the bid and print or type its name on the Schedule and each continuation sheet on which it makes an entry. Erasures or other changes must be initialed by the person signing the bid. Bids signed by an agent shall be accompanied by evidence of that agent’s authority, unless that evidence has been previously furnished to the issuing office.

(c) For each item offered, bidders shall (1) show the unit price, including, unless otherwise specified, packaging, packing, and preservation and (2) enter the extended price for the quantity of each item offered in the “Amount” column of the Schedule. In case of discrepancy between a unit price and an extended price, the unit price will be presumed to be correct, subject, however, to correction to the same extent and in the same manner as any other mistake.

(d) Bids for supplies or services other than those specified will not be considered unless authorized by the solicitation.

(e) Bidders must state a definite time for delivery of supplies or for performance of services, unless otherwise specified in the solicitation.

(f) Time, if stated as a number of days, will include Saturdays, Sundays, and holidays.

(End of provision)

**52.214-13 Telegraphic Bids.**

As prescribed in 14.201-6(g)(1), insert the following provision:

TELEGRAPHIC BIDS (APR 1984)

(a) Bidders may submit telegraphic bids as responses to this solicitation. These responses must arrive at the place, and by the time, specified in the solicitation.

(b) Telegraphic bids shall refer to this solicitation and include the items or subitems, quantities, unit prices, time and place of delivery, all representations and other information required by this solicitation, and a statement of agreement with all the terms, conditions, and provisions of the invitation for bids.

(c) Telegraphic bids that fail to furnish required representations or information, or that reject any of the terms, conditions, and provisions of the solicitation, may be excluded from consideration.

(d) Bidders must promptly sign and submit complete copies of the bids in confirmation of their telegraphic bids.

(e) The term “telegraphic bids,” as used in this provision, includes mailgrams.

(End of provision)

*Alternate I (Nov 1988).* As prescribed in 14.201-6(g)(2), substitute the following for paragraph (d) of the basic clause:

(d) Written confirmation of telegraphic bids is not required.

**52.214-14 Place of Performance—Sealed Bidding.**

As prescribed in 14.201-6(h), insert the following provision:

PLACE OF PERFORMANCE—SEALED BIDDING (APR 1985)

(a) The bidder, in the performance of any contract resulting from this solicitation,  intends,  does not intend [*check applicable box*] to use one or more plants or facilities located at a different address from the address of the bidder as indicated in this bid.

(b) If the bidder checks “intends” in paragraph (a) of this provision, it shall insert in the spaces provided below the required information:

PLACE OF PERFORMANCE (STREET, ADDRESS, CITY COUNTY, STATE, ZIP CODE)	NAME AND ADDRESS OF OWNER AND OPERATOR OF THE PLANT OR FACILITY IF OTHER THAN BIDDER

(End of provision)

**52.214-15 Period for Acceptance of Bids.**

As prescribed in 14.201-6(i), insert the following provision:

PERIOD FOR ACCEPTANCE OF BIDS (APR 1984)

In compliance with the solicitation, the bidder agrees, if this bid is accepted within \_\_\_\_\_ calendar days (60 calendar days unless a different period is inserted by the bidder) from the date specified in the solicitation for receipt of bids, to furnish any or all items upon which prices are bid at the price set opposite each item, delivered at the designated point(s), within the time specified in the Schedule.

(End of provision)

**52.214-16 Minimum Bid Acceptance Period.**

As prescribed in 14.201-6(j), insert the following provision in invitations for bids, except for construction, if the contracting officer determines that a minimum acceptance period must be specified:

MINIMUM BID ACCEPTANCE PERIOD (APR 1984)

(a) “Acceptance period,” as used in this provision, means the number of calendar days available to the Government for

awarding a contract from the date specified in this solicitation for receipt of bids.

(b) This provision supersedes any language pertaining to the acceptance period that may appear elsewhere in this solicitation.

(c) The Government requires a minimum acceptance period of \_\_\_\_\_ calendar days [*the Contracting Officer shall insert the number of days*].

(d) In the space provided immediately below, bidders may specify a longer acceptance period than the Government's minimum requirement.

The bidder allows the following acceptance period:  
\_\_\_\_\_ calendar days.

(e) A bid allowing less than the Government's minimum acceptance period will be rejected.

(f) The bidder agrees to execute all that it has undertaken to do, in compliance with its bid, if that bid is accepted in writing within—

(1) The acceptance period stated in paragraph (c) of this clause; or

(2) Any longer acceptance period stated in paragraph (d) of this clause.

(End of provision)

#### 52.214-17 [Reserved]

#### 52.214-18 Preparation of Bids—Construction.

As prescribed in 14.201-6(l), insert the following provision:

PREPARATION OF BIDS—CONSTRUCTION (APR 1984)

(a) Bids must be—

(1) Submitted on the forms furnished by the Government or on copies of those forms, and

(2) *Manually signed*. The person signing a bid must initial each erasure or change appearing on any bid form.

(b) The bid form may require bidders to submit bid prices for one or more items on various bases, including—

(1) Lump sum bidding;

(2) Alternate prices;

(3) Units of construction; or

(4) Any combination of paragraphs (b)(1) through (b)(3) of this provision.

(c) If the solicitation requires bidding on all items, failure to do so will disqualify the bid. If bidding on all items is not required, bidders should insert the words "no bid" in the space provided for any item on which no price is submitted.

(d) Alternate bids will not be considered unless this solicitation authorizes their submission.

(End of provision)

#### 52.214-19 Contract Award—Sealed Bidding—Construction.

As prescribed in 14.201-6(m), insert the following provision:

CONTRACT AWARD—SEALED BIDDING—CONSTRUCTION  
(AUG 1996)

(a) The Government will evaluate bids in response to this solicitation without discussions and will award a contract to the responsible bidder whose bid, conforming to the solicitation, will be most advantageous to the Government, considering only price and the price-related factors specified elsewhere in the solicitation.

(b) The Government may reject any or all bids, and waive informalities or minor irregularities in bids received.

(c) The Government may accept any item or combination of items, unless doing so is precluded by a restrictive limitation in the solicitation or the bid.

(d) The Government may reject a bid as nonresponsive if the prices bid are materially unbalanced between line items or subline items. A bid is materially unbalanced when it is based on prices significantly less than cost for some work and prices which are significantly overstated in relation to cost for other work, and if there is a reasonable doubt that the bid will result in the lowest overall cost to the Government even though it may be the low evaluated bid, or if it is so unbalanced as to be tantamount to allowing an advance payment.

(End of provision)

#### 52.214-20 Bid Samples.

As prescribed in 14.201-6(o)(1), insert the following provision in invitations for bids if bid samples are required:

BID SAMPLES (APR 1984)

(a) "Bid samples" are item sample submissions required of bidders to show those characteristics of the offered products that cannot adequately be described by specifications or purchase descriptions (*e.g.*, balance, facility of use, or pattern).

(b) Bid samples, required elsewhere in this solicitation, must be furnished as part of the bid and must be received by the time specified for receipt of bids. Failure to furnish samples on time will require rejection of the bid, except that a late sample sent by mail may be considered under the Late Submissions, Modifications, and Withdrawals of Bids provision of this solicitation.

(c) Bid samples will be tested or evaluated to determine compliance with all the characteristics listed for examination in this solicitation. Failure of these samples to conform to the required characteristics will require rejection of the bid. Products delivered under any resulting contract must conform to—

(1) The approved sample for the characteristics listed for test or evaluation; and

(2) The specifications for all other characteristics.

(d) Unless otherwise specified in the solicitation, bid samples shall be—

- (1) Submitted at no expense to the Government; and
- (2) Returned at the bidder's request and expense, unless they are destroyed during preaward testing.

(End of provision)

*Alternate I (Apr 1984).* If it appears that the conditions in 14.202-4(f)(1) will apply and the Contracting Officer anticipates granting waivers thereunder, and if the nature of the required product *does not* necessitate limiting the grant of a waiver to a product produced at the same plant in which the product previously acquired or tested was produced, add the following paragraph (e) to the basic provision:

(e) At the discretion of the Contracting Officer, the requirement for furnishing bid samples may be waived for a bidder if—

- (1) The bid states that the offered product is the same as a product offered by the bidder to the \_\_\_\_\_ [as appropriate, the Contracting Officer shall designate the contracting office or an alternate activity or office]; and
- (2) The Contracting Officer determines that the previously offered product was accepted or tested and found to comply with specification and other requirements for technical acceptability conforming in every material respect with those in this solicitation.

*Alternate II (Apr 1984).* If it appears that the conditions in 14.202-4(f)(1) will apply and the contracting officer anticipates granting waivers thereunder, and if the nature of the required product necessitates limiting the grant of a waiver to a product produced at the same plant in which the product previously acquired or tested was produced, add the following paragraph (e) to the basic provision:

(e) At the discretion of the Contracting Officer, the requirements for furnishing bid samples may be waived for a bidder if—

- (1) The bid states that the offered product is the same as a product offered by the bidder to the \_\_\_\_\_ [as appropriate, the Contracting Officer shall designate the contracting office or an alternate activity or office] on a previous acquisition;
- (2) The Contracting Officer determines that the previously offered product was accepted or tested and found to comply with specification and other requirements for technical acceptability conforming in every material respect with those of this solicitation; and
- (3) The product offered under this solicitation will be produced under a resulting contract at the same plant in which the previously acquired or tested product was produced.

### 52.214-21 Descriptive Literature.

As prescribed in 14.201-6(p)(1), insert the following provision:

#### DESCRIPTIVE LITERATURE (MAY 2001)

(a) "Descriptive literature," as used in this provision, means information (*e.g.*, cuts, illustrations, drawings, and brochures) that is submitted as part of a bid. Descriptive literature is required to establish, for the purpose of evaluation and award, details of the product offered that are specified elsewhere in the solicitation and pertain to significant elements such as (1) design; (2) materials; (3) components; (4) performance characteristics; and (5) methods of manufacture, assembly, construction, or operation. The term includes only information required to determine the technical acceptability of the offered product. It does not include other information such as that used in determining the responsibility of a prospective Contractor or for operating or maintaining equipment.

(b) Descriptive literature, required elsewhere in this solicitation, must be (1) identified to show the item(s) of the offer to which it applies and (2) received by the time specified in this solicitation for receipt of bids. Failure to submit descriptive literature on time will require rejection of the bid, except that late descriptive literature sent by mail may be considered under the Late Submissions, Modifications, and Withdrawals of Bids provision of this solicitation.

(c) The failure of descriptive literature to show that the product offered conforms to the requirements of this solicitation will require rejection of the bid.

(End of provision)

*Alternate I (May 1999).* As prescribed in 14.201-6(p)(2), add the following paragraphs (d) and (e) to the basic provision.

(d) The Contracting Officer may waive the requirement for furnishing descriptive literature if the bidder has supplied a product the same as that required by this solicitation under a prior contract. A bidder that requests a waiver of this requirement shall provide the following information:

Prior contract number \_\_\_\_\_

Date of prior contract \_\_\_\_\_

Contract line item number of product supplied \_\_\_\_

Name and address of government activity to which delivery was made \_\_\_\_\_

Date of final delivery of product supplied \_\_\_\_\_

(e) Bidders must submit bids on the basis of required descriptive literature or on the basis of a previously supplied product under paragraph (d) of this provision. A bidder submitting a bid on one of these two bases may not elect to have its bid considered on the alternative basis after the time specified for receipt of bids. A bidder's request for a waiver under paragraph (d) of this provision will be disregarded if that bidder has submitted the descriptive literature required under this solicitation.

**52.214-22 Evaluation of Bids for Multiple Awards.**

As prescribed in 14.201-6(q), insert the following provision:

EVALUATION OF BIDS FOR MULTIPLE AWARDS  
(MAR 1990)

In addition to other factors, bids will be evaluated on the basis of advantages and disadvantages to the Government that might result from making more than one award (multiple awards). It is assumed, for the purpose of evaluating bids, that \$500 would be the administrative cost to the Government for issuing and administering each contract awarded under this solicitation, and individual awards will be for the items or combinations of items that result in the lowest aggregate cost to the Government, including the assumed administrative costs.

(End of provision)

**52.214-23 Late Submissions, Modifications, Revisions, and Withdrawals of Technical Proposals under Two-Step Sealed Bidding.**

As prescribed in 14.201-6(r), insert the following provision:

LATE SUBMISSIONS, MODIFICATIONS, REVISIONS, AND  
WITHDRAWALS OF TECHNICAL PROPOSALS UNDER TWO-  
STEP SEALED BIDDING (NOV 1999)

(a) Bidders are responsible for submitting technical proposals, and any modifications or revisions, so as to reach the Government office designated in the request for technical proposals by the time specified in the invitation for bids (IFB). If no time is specified in the IFB, the time for receipt is 4:30 p.m., local time, for the designated Government office on the date that bids or revisions are due.

(b)(1) Any technical proposal under step one of two-step sealed bidding, modification, revision, or withdrawal of such proposal received at the Government office designated in the request for technical proposals after the exact time specified for receipt will not be considered unless the Contracting Officer determines that accepting the late technical proposal would not unduly delay the acquisition; and—

(i) If it was transmitted through an electronic commerce method authorized by the request for technical proposals, it was received at the initial point of entry to the Government infrastructure not later than 5:00 p.m. one working day prior to the date specified for receipt of proposals; or

(ii) There is acceptable evidence to establish that it was received at the Government installation designated for receipt of offers and was under the Government's control prior to the time set for receipt; or

(iii) It is the only proposal received and it is negotiated under Part 15 of the Federal Acquisition Regulation.

(2) However, a late modification of an otherwise successful proposal that makes its terms more favorable to the Government will be considered at any time it is received and may be accepted.

(c) Acceptable evidence to establish the time of receipt at the Government installation includes the time/date stamp of that installation on the technical proposal wrapper, other documentary evidence of receipt maintained by the installation, or oral testimony or statements of Government personnel.

(d) If an emergency or unanticipated event interrupts normal Government processes so that technical proposals cannot be received at the Government office designated for receipt of technical proposals by the exact time specified in the request for technical proposals, and urgent Government requirements preclude amendment of the request for technical proposals, the time specified for receipt of technical proposals will be deemed to be extended to the same time of day specified in the request for technical proposals on the first work day on which normal Government processes resume.

(e) Technical proposals may be withdrawn by written notice received at any time before the exact time set for receipt of technical proposals. If the request for technical proposals authorizes facsimile technical proposals, they may be withdrawn via facsimile received at any time before the exact time set for receipt of proposals, subject to the conditions specified in the provision at 52.214-31, Facsimile Bids. A technical proposal may be withdrawn in person by a bidder or its authorized representative if, before the exact time set for receipt of technical proposals, the identity of the person requesting withdrawal is established and the person signs a receipt for the technical proposal.

(End of provision)

**52.214-24 Multiple Technical Proposals.**

As prescribed in 14.201-6(s), insert the following provision:

MULTIPLE TECHNICAL PROPOSALS (APR 1984)

In the first step of this two-step acquisition, solicited sources are encouraged to submit multiple technical proposals presenting different basic approaches. Each technical proposal submitted will be separately evaluated and the submitter will be notified as to its acceptability.

(End of provision)

**52.214-25 Step Two of Two-Step Sealed Bidding.**

As prescribed in 14.201-6(t), insert the following provision:

STEP TWO OF TWO-STEP SEALED BIDDING (APR 1985)

(a) This invitation for bids is issued to initiate step two of two-step sealed bidding under Subpart 14.5 of the Federal Acquisition Regulation.

(b) The only bids that the Contracting Officer may consider for award of a contract are those received from bidders that have submitted acceptable technical proposals in step one of this acquisition under \_\_\_\_\_ [the Contracting Officer shall insert the identification of the step-one request for technical proposals].

(c) Any bidder that has submitted multiple technical proposals in step one of this acquisition may submit a separate bid on each technical proposal that was determined to be acceptable to the Government.

(End of provision)

#### 52.214-26 Audit and Records—Sealed Bidding.

As prescribed in 14.201-7(a), insert the following clause:

##### AUDIT AND RECORDS—SEALED BIDDING (OCT 1997)

(a) As used in this clause, “records” includes books, documents, accounting procedures and practices, and other data, regardless of type and regardless of whether such items are in written form, in the form of computer data, or in any other form.

(b) *Cost or pricing data.* If the Contractor has been required to submit cost or pricing data in connection with the pricing of any modification to this contract, the Contracting Officer, or an authorized representative of the Contracting Officer, in order to evaluate the accuracy, completeness, and currency of the cost or pricing data, shall have the right to examine and audit all of the Contractor's records, including computations and projections, related to—

- (1) The proposal for the modification;
- (2) The discussions conducted on the proposal(s), including those related to negotiating;
- (3) Pricing of the modification; or
- (4) Performance of the modification.

(c) *Comptroller General.* In the case of pricing any modification, the Comptroller General of the United States, or an authorized representative, shall have the same rights as specified in paragraph (b) of this clause.

(d) *Availability.* The Contractor shall make available at its office at all reasonable times the materials described in paragraph (b) of this clause, for examination, audit, or reproduction, until 3 years after final payment under this contract, or for any other period specified in Subpart 4.7 of the Federal Acquisition Regulation (FAR). FAR Subpart 4.7, Contractor Records Retention, in effect on the date of this contract, is incorporated by reference in its entirety and made a part of this contract.

(1) If this contract is completely or partially terminated, the records relating to the work terminated shall be made available for 3 years after any resulting final termination settlement.

(2) Records pertaining to appeals under the Disputes clause or to litigation or the settlement of claims arising under or relating to the performance of this contract shall be made available until disposition of such appeals, litigation, or claims.

(e) The Contractor shall insert a clause containing all the provisions of this clause, including this paragraph (e), in all subcontracts expected to exceed the threshold in FAR 15.403-4(a)(1) for submission of cost or pricing data.

(End of clause)

#### 52.214-27 Price Reduction for Defective Cost or Pricing Data—Modifications—Sealed Bidding.

As prescribed in 14.201-7(b), insert the following clause:

##### PRICE REDUCTION FOR DEFECTIVE COST OR PRICING DATA—MODIFICATIONS—SEALED BIDDING (OCT 1997)

(a) This clause shall become operative only for any modification to this contract involving aggregate increases and/or decreases in costs, plus applicable profits, expected to exceed the threshold for the submission of cost or pricing data at FAR 15.403-4(a)(1), except that this clause does not apply to a modification if an exception under FAR 15.403-1(b) applies.

(b) If any price, including profit, negotiated in connection with any modification under this clause, was increased by any significant amount because (1) the Contractor or a subcontractor furnished cost or pricing data that were not complete, accurate, and current as certified in its Certificate of Current Cost or Pricing Data, (2) a subcontractor or prospective subcontractor furnished the Contractor cost or pricing data that were not complete, accurate, and current as certified in the Contractor's Certificate of Current Cost or Pricing Data, or (3) any of these parties furnished data of any description that were not accurate, the price shall be reduced accordingly and the contract shall be modified to reflect the reduction. This right to a price reduction is limited to that resulting from defects in data relating to modifications for which this clause becomes operative under paragraph (a) of this clause.

(c) Any reduction in the contract price under paragraph (b) of this clause due to defective data from a prospective subcontractor that was not subsequently awarded the subcontract shall be limited to the amount, plus applicable overhead and profit markup, by which (1) the actual subcontract or (2) the actual cost to the Contractor, if there was no subcontract, was less than the prospective subcontract cost estimate submitted by the Contractor; provided, that the actual subcontract price was not itself affected by defective cost or pricing data.

(d)(1) If the Contracting Officer determines under paragraph (b) of this clause that a price or cost reduction should

be made, the Contractor agrees not to raise the following matters as a defense:

(i) The Contractor or subcontractor was a sole source supplier or otherwise was in a superior bargaining position and thus the price of the contract would not have been modified even if accurate, complete, and current cost or pricing data had been submitted.

(ii) The Contracting Officer should have known that the cost or pricing data in issue were defective even though the Contractor or subcontractor took no affirmative action to bring the character of the data to the attention of the Contracting Officer.

(iii) The contract was based on an agreement about the total cost of the contract and there was no agreement about the cost of each item procured under the contract.

(iv) The Contractor or subcontractor did not submit a Certificate of Current Cost or Pricing Data.

(2)(i) Except as prohibited by subdivision (d)(2)(ii) of this clause, an offset in an amount determined appropriate by the Contracting Officer based upon the facts shall be allowed against the amount of a contract price reduction if—

(A) The Contractor certifies to the Contracting Officer that, to the best of the Contractor's knowledge and belief, the Contractor is entitled to the offset in the amount requested; and

(B) The Contractor proves that the cost or pricing data were available before the date of agreement on the price of the contract (or price of the modification) and that the data were not submitted before such date.

(ii) An offset shall not be allowed if—

(A) The understated data was known by the Contractor to be understated when the Certificate of Current Cost or Pricing Data was signed; or

(B) The Government proves that the facts demonstrate that the contract price would not have increased in the amount to be offset even if the available data had been submitted before the date of agreement on price.

(e) If any reduction in the contract price under this clause reduces the price of items for which payment was made prior to the date of the modification reflecting the price reduction, the Contractor shall be liable to and shall pay the United States at the time such overpayment is repaid—

(1) Simple interest on the amount of such overpayment to be computed from the date(s) of overpayment to the Contractor to the date the Government is repaid by the Contractor at the applicable underpayment rate effective for each quarter prescribed by the Secretary of the Treasury under 26 U.S.C. 6621(a)(2); and

(2) A penalty equal to the amount of the overpayment, if the Contractor or subcontractor knowingly submitted cost or pricing data which were incomplete, inaccurate, or noncurrent.

(End of clause)

**52.214-28 Subcontractor Cost or Pricing Data—Modifications—Sealed Bidding.**

As prescribed in 14.201-7(c), insert the following clause in solicitations and contracts:

**SUBCONTRACTOR COST OR PRICING DATA—  
MODIFICATIONS—SEALED BIDDING (OCT 1997)**

(a) The requirements of paragraphs (b) and (c) of this clause shall—

(1) Become operative only for any modification to this contract involving aggregate increases and/or decreases in costs, plus applicable profits, expected to exceed the threshold for submission of cost or pricing data at FAR 15.403-4(a)(1); and

(2) Be limited to such modifications.

(b) Before awarding any subcontract expected to exceed the threshold for submission of cost or pricing data at FAR 15.403-4(a)(1), on the date of agreement on price or the date of award, whichever is later; or before pricing any subcontract modifications involving aggregate increases and/or decreases in costs, plus applicable profits, expected to exceed the threshold for submission of cost or pricing data at FAR 15.403-4(a)(1), the Contractor shall require the subcontractor to submit cost or pricing data (actually or by specific identification in writing), unless an exception under FAR 15.403-1(b) applies.

(c) The Contractor shall require the subcontractor to certify in substantially the form prescribed in FAR subsection 15.406-2 that, to the best of its knowledge and belief, the data submitted under paragraph (b) of this clause were accurate, complete, and current as of the date of agreement on the negotiated price of the subcontract or subcontract modification.

(d) The Contractor shall insert the substance of this clause, including this paragraph (d), in each subcontract that, when entered into, exceeds the threshold for submission of cost or pricing data at FAR 15.403-4(a)(1).

(End of clause)

**52.214-29 Order of Precedence—Sealed Bidding.**

As prescribed in 14.201-7(d), insert the following clause:

**ORDER OF PRECEDENCE—SEALED BIDDING (JAN 1986)**

Any inconsistency in this solicitation or contract shall be resolved by giving precedence in the following order:

(a) The Schedule (excluding the specifications);

(b) Representations and other instructions;

- (c) Contract clauses;
- (d) Other documents, exhibits, and attachments; and
- (e) The specifications.

(End of clause)

### 52.214-30 Annual Representations and Certifications— Sealed Bidding.

As prescribed in 14.201-6(u), insert the following provision:

#### ANNUAL REPRESENTATIONS AND CERTIFICATIONS— SEALED BIDDING (JAN 1997)

The bidder has (check the appropriate block):

(a) Submitted to the contracting office issuing this solicitation, annual representations and certifications dated \_\_\_\_\_ [*insert date of signature on submission*], which are incorporated herein by reference, and are current, accurate, and complete as of the date of this bid, except as follows [*insert changes that affect only this solicitation; if "none," so state*]: \_\_\_\_\_

(b) Enclosed its annual representations and certifications.

(End of provision)

### 52.214-31 Facsimile Bids.

As prescribed in 14.201-6(v), insert the following provision:

#### FACSIMILE BIDS (DEC 1989)

(a) *Definition.* "Facsimile bid," as used in this solicitation, means a bid, modification of a bid, or withdrawal of a bid that is transmitted to and received by the Government via electronic equipment that communicates and reproduces both printed and handwritten material.

(b) Bidders may submit facsimile bids as responses to this solicitation. These responses must arrive at the place and by the time, specified in the solicitation.

(c) Facsimile bids that fail to furnish required representations or information or that reject any of the terms, conditions, and provisions of the solicitation may be excluded from consideration.

(d) Facsimile bids must contain the required signatures.

(e) The Government reserves the right to make award solely on the facsimile bid. However, if requested to do so by the Contracting Officer, the apparently successful bidder agrees to promptly submit the complete original signed bid.

(f) Facsimile receiving data and compatibility characteristics are as follows:

(1) Telephone number of receiving facsimile equipment: \_\_\_\_\_

(2) Compatibility characteristics of receiving facsimile equipment (*e.g.*, make and model number, receiving speed, communications protocol): \_\_\_\_\_

(g) If the bidder chooses to transmit a facsimile bid, the Government will not be responsible for any failure attributable to the transmission or receipt of the facsimile bid including, but not limited to, the following:

(1) Receipt of garbled or incomplete bid.

(2) Availability or condition of the receiving facsimile equipment.

(3) Incompatibility between the sending and receiving equipment.

(4) Delay in transmission or receipt of bid.

(5) Failure of the bidder to properly identify the bid.

(6) Illegibility of bid.

(7) Security of bid data.

(End of provision)

### 52.214-32 [Reserved]

### 52.214-33 [Reserved]

### 52.214-34 Submission of Offers in the English Language.

As prescribed in 14.201-6(w), insert the following provision:

#### SUBMISSION OF OFFERS IN THE ENGLISH LANGUAGE (APR 1991)

Offers submitted in response to this solicitation shall be in the English language. Offers received in other than English shall be rejected.

(End of provision)

### 52.214-35 Submission of Offers in U.S. Currency.

As prescribed in 14.201-6(x), insert the following provision:

#### SUBMISSION OF OFFERS IN U.S. CURRENCY (APR 1991)

Offers submitted in response to this solicitation shall be in terms of U.S. dollars. Offers received in other than U.S. dollars shall be rejected.

(End of provision)

**52.215-1 Instructions to Offerors—Competitive Acquisition.**

As prescribed in 15.209(a), insert the following provision:

INSTRUCTIONS TO OFFERORS—COMPETITIVE  
ACQUISITION (MAY 2001)

(a) *Definitions.* As used in this provision—

“Discussions” are negotiations that occur after establishment of the competitive range that may, at the Contracting Officer’s discretion, result in the offeror being allowed to revise its proposal.

“In writing,” “writing,” or “written” means any worded or numbered expression that can be read, reproduced, and later communicated, and includes electronically transmitted and stored information.

“Proposal modification” is a change made to a proposal before the solicitation’s closing date and time, or made in response to an amendment, or made to correct a mistake at any time before award.

“Proposal revision” is a change to a proposal made after the solicitation closing date, at the request of or as allowed by a Contracting Officer as the result of negotiations.

“Time,” if stated as a number of days, is calculated using calendar days, unless otherwise specified, and will include Saturdays, Sundays, and legal holidays. However, if the last day falls on a Saturday, Sunday, or legal holiday, then the period shall include the next working day.

(b) *Amendments to solicitations.* If this solicitation is amended, all terms and conditions that are not amended remain unchanged. Offerors shall acknowledge receipt of any amendment to this solicitation by the date and time specified in the amendment(s).

(c) *Submission, modification, revision, and withdrawal of proposals.* (1) Unless other methods (*e.g.*, electronic commerce or facsimile) are permitted in the solicitation, proposals and modifications to proposals shall be submitted in paper media in sealed envelopes or packages (i) addressed to the office specified in the solicitation, and (ii) showing the time and date specified for receipt, the solicitation number, and the name and address of the offeror. Offerors using commercial carriers should ensure that the proposal is marked on the outermost wrapper with the information in paragraphs (c)(1)(i) and (c)(1)(ii) of this provision.

(2) The first page of the proposal must show—

- (i) The solicitation number;
- (ii) The name, address, and telephone and facsimile numbers of the offeror (and electronic address if available);
- (iii) A statement specifying the extent of agreement with all terms, conditions, and provisions included in the solicitation and agreement to furnish any or all items upon which prices are offered at the price set opposite each item;
- (iv) Names, titles, and telephone and facsimile numbers (and electronic addresses if available) of persons autho-

rized to negotiate on the offeror’s behalf with the Government in connection with this solicitation; and

(v) Name, title, and signature of person authorized to sign the proposal. Proposals signed by an agent shall be accompanied by evidence of that agent’s authority, unless that evidence has been previously furnished to the issuing office.

(3) *Submission, modification, revision, and withdrawal of proposals.* (i) Offerors are responsible for submitting proposals, and any modifications or revisions, so as to reach the Government office designated in the solicitation by the time specified in the solicitation. If no time is specified in the solicitation, the time for receipt is 4:30 p.m., local time, for the designated Government office on the date that proposal or revision is due.

(ii)(A) Any proposal, modification, or revision received at the Government office designated in the solicitation after the exact time specified for receipt of offers is “late” and will not be considered unless it is received before award is made, the Contracting Officer determines that accepting the late offer would not unduly delay the acquisition; and—

(1) If it was transmitted through an electronic commerce method authorized by the solicitation, it was received at the initial point of entry to the Government infrastructure not later than 5:00 p.m. one working day prior to the date specified for receipt of proposals; or

(2) There is acceptable evidence to establish that it was received at the Government installation designated for receipt of offers and was under the Government’s control prior to the time set for receipt of offers; or

(3) It is the only proposal received.

(B) However, a late modification of an otherwise successful proposal that makes its terms more favorable to the Government, will be considered at any time it is received and may be accepted.

(iii) Acceptable evidence to establish the time of receipt at the Government installation includes the time/date stamp of that installation on the proposal wrapper, other documentary evidence of receipt maintained by the installation, or oral testimony or statements of Government personnel.

(iv) If an emergency or unanticipated event interrupts normal Government processes so that proposals cannot be received at the office designated for receipt of proposals by the exact time specified in the solicitation, and urgent Government requirements preclude amendment of the solicitation, the time specified for receipt of proposals will be deemed to be extended to the same time of day specified in the solicitation on the first work day on which normal Government processes resume.

(v) Proposals may be withdrawn by written notice received at any time before award. Oral proposals in response to oral solicitations may be withdrawn orally. If the solicitation authorizes facsimile proposals, proposals may be withdrawn via facsimile received at any time before award,

subject to the conditions specified in the provision at 52.215-5, Facsimile Proposals. Proposals may be withdrawn in person by an offeror or an authorized representative, if the identity of the person requesting withdrawal is established and the person signs a receipt for the proposal before award.

(4) Unless otherwise specified in the solicitation, the offeror may propose to provide any item or combination of items.

(5) Offerors shall submit proposals in response to this solicitation in English, unless otherwise permitted by the solicitation, and in U.S. dollars, unless the provision at FAR 52.225-17, Evaluation of Foreign Currency Offers, is included in the solicitation.

(6) Offerors may submit modifications to their proposals at any time before the solicitation closing date and time, and may submit modifications in response to an amendment, or to correct a mistake at any time before award.

(7) Offerors may submit revised proposals only if requested or allowed by the Contracting Officer.

(8) Proposals may be withdrawn at any time before award. Withdrawals are effective upon receipt of notice by the Contracting Officer.

(d) *Offer expiration date.* Proposals in response to this solicitation will be valid for the number of days specified on the solicitation cover sheet (unless a different period is proposed by the offeror).

(e) *Restriction on disclosure and use of data.* Offerors that include in their proposals data that they do not want disclosed to the public for any purpose, or used by the Government except for evaluation purposes, shall—

(1) Mark the title page with the following legend:

This proposal includes data that shall not be disclosed outside the Government and shall not be duplicated, used, or disclosed—in whole or in part—for any purpose other than to evaluate this proposal. If, however, a contract is awarded to this offeror as a result of—or in connection with—the submission of this data, the Government shall have the right to duplicate, use, or disclose the data to the extent provided in the resulting contract. This restriction does not limit the Government's right to use information contained in this data if it is obtained from another source without restriction. The data subject to this restriction are contained in sheets [*insert numbers or other identification of sheets*]; and

(2) Mark each sheet of data it wishes to restrict with the following legend:

Use or disclosure of data contained on this sheet is subject to the restriction on the title page of this proposal.

(f) *Contract award.* (1) The Government intends to award a contract or contracts resulting from this solicitation to the responsible offeror(s) whose proposal(s) represents the best value after evaluation in accordance with the factors and sub-factors in the solicitation.

(2) The Government may reject any or all proposals if such action is in the Government's interest.

(3) The Government may waive informalities and minor irregularities in proposals received.

(4) The Government intends to evaluate proposals and award a contract without discussions with offerors (except clarifications as described in FAR 15.306(a)). Therefore, the offeror's initial proposal should contain the offeror's best terms from a cost or price and technical standpoint. The Government reserves the right to conduct discussions if the Contracting Officer later determines them to be necessary. If the Contracting Officer determines that the number of proposals that would otherwise be in the competitive range exceeds the number at which an efficient competition can be conducted, the Contracting Officer may limit the number of proposals in the competitive range to the greatest number that will permit an efficient competition among the most highly rated proposals.

(5) The Government reserves the right to make an award on any item for a quantity less than the quantity offered, at the unit cost or prices offered, unless the offeror specifies otherwise in the proposal.

(6) The Government reserves the right to make multiple awards if, after considering the additional administrative costs, it is in the Government's best interest to do so.

(7) Exchanges with offerors after receipt of a proposal do not constitute a rejection or counteroffer by the Government.

(8) The Government may determine that a proposal is unacceptable if the prices proposed are materially unbalanced between line items or subline items. Unbalanced pricing exists when, despite an acceptable total evaluated price, the price of one or more contract line items is significantly overstated or understated as indicated by the application of cost or price analysis techniques. A proposal may be rejected if the Contracting Officer determines that the lack of balance poses an unacceptable risk to the Government.

(9) If a cost realism analysis is performed, cost realism may be considered by the source selection authority in evaluating performance or schedule risk.

(10) A written award or acceptance of proposal mailed or otherwise furnished to the successful offeror within the time specified in the proposal shall result in a binding contract without further action by either party.

(11) The Government may disclose the following information in postaward debriefings to other offerors:

(i) The overall evaluated cost or price and technical rating of the successful offeror;

(ii) The overall ranking of all offerors, when any ranking was developed by the agency during source selection;

(iii) A summary of the rationale for award; and

(iv) For acquisitions of commercial items, the make and model of the item to be delivered by the successful offeror.

(End of provision)

*Alternate I (Oct 1997).* As prescribed in 15.209(a)(1), substitute the following paragraph (f)(4) for paragraph (f)(4) of the basic provision:

(f)(4) The Government intends to evaluate proposals and award a contract after conducting discussions with offerors whose proposals have been determined to be within the competitive range. If the Contracting Officer determines that the number of proposals that would otherwise be in the competitive range exceeds the number at which an efficient competition can be conducted, the Contracting Officer may limit the number of proposals in the competitive range to the greatest number that will permit an efficient competition among the most highly rated proposals. Therefore, the offeror's initial proposal should contain the offeror's best terms from a price and technical standpoint.

*Alternate II (Oct 1997).* As prescribed in 15.209(a)(2), add a paragraph (c)(9) substantially the same as the following to the basic clause:

(c)(9) Offerors may submit proposals that depart from stated requirements. Such proposals shall clearly identify why the acceptance of the proposal would be advantageous to the Government. Any deviations from the terms and conditions of the solicitation, as well as the comparative advantage to the Government, shall be clearly identified and explicitly defined. The Government reserves the right to amend the solicitation to allow all offerors an opportunity to submit revised proposals based on the revised requirements.

#### **52.215-2 Audit and Records—Negotiation.**

As prescribed in 15.209(b), insert the following clause:

##### AUDIT AND RECORDS—NEGOTIATION (JUNE 1999)

(a) As used in this clause, “records” includes books, documents, accounting procedures and practices, and other data, regardless of type and regardless of whether such items are in written form, in the form of computer data, or in any other form.

(b) *Examination of costs.* If this is a cost-reimbursement, incentive, time-and-materials, labor-hour, or price redeterminable contract, or any combination of these, the Contractor shall maintain and the Contracting Officer, or an authorized representative of the Contracting Officer, shall have the right to examine and audit all records and other evidence sufficient to reflect properly all costs claimed to have been incurred or anticipated to be incurred directly or indirectly in performance of this contract. This right of examination shall include inspection at all reasonable times of the Contractor's plants, or parts of them, engaged in performing the contract.

(c) *Cost or pricing data.* If the Contractor has been required to submit cost or pricing data in connection with any pricing action relating to this contract, the Contracting Officer, or an authorized representative of the Contracting Officer, in order to evaluate the accuracy, completeness, and currency of the cost or pricing data, shall have the right to examine and audit all of the Contractor's records, including computations and projections, related to—

(1) The proposal for the contract, subcontract, or modification;

(2) The discussions conducted on the proposal(s), including those related to negotiating;

(3) Pricing of the contract, subcontract, or modification;

or  
(4) Performance of the contract, subcontract or modification.

(d) *Comptroller General*—(1) The Comptroller General of the United States, or an authorized representative, shall have access to and the right to examine any of the Contractor's directly pertinent records involving transactions related to this contract or a subcontract hereunder.

(2) This paragraph may not be construed to require the Contractor or subcontractor to create or maintain any record that the Contractor or subcontractor does not maintain in the ordinary course of business or pursuant to a provision of law.

(e) *Reports.* If the Contractor is required to furnish cost, funding, or performance reports, the Contracting Officer or an authorized representative of the Contracting Officer shall have the right to examine and audit the supporting records and materials, for the purpose of evaluating—

(1) The effectiveness of the Contractor's policies and procedures to produce data compatible with the objectives of these reports; and

(2) The data reported.

(f) *Availability.* The Contractor shall make available at its office at all reasonable times the records, materials, and other evidence described in paragraphs (a), (b), (c), (d), and (e) of this clause, for examination, audit, or reproduction, until 3 years after final payment under this contract or for any shorter period specified in Subpart 4.7, Contractor Records Retention, of the Federal Acquisition Regulation (FAR), or for any longer period required by statute or by other clauses of this contract. In addition—

(1) If this contract is completely or partially terminated, the Contractor shall make available the records relating to the work terminated until 3 years after any resulting final termination settlement; and

(2) The Contractor shall make available records relating to appeals under the Disputes clause or to litigation or the settlement of claims arising under or relating to this contract until such appeals, litigation, or claims are finally resolved.

(g) The Contractor shall insert a clause containing all the terms of this clause, including this paragraph (g), in all sub-

contracts under this contract that exceed the simplified acquisition threshold, and—

(1) That are cost-reimbursement, incentive, time-and-materials, labor-hour, or price-redeterminable type or any combination of these;

(2) For which cost or pricing data are required; or

(3) That require the subcontractor to furnish reports as discussed in paragraph (e) of this clause.

The clause may be altered only as necessary to identify properly the contracting parties and the Contracting Officer under the Government prime contract.

(End of clause)

*Alternate I (Jan 1997).* As prescribed in 15.209(b)(2), in facilities contracts, add the following sentence at the end of paragraph (b) of the basic clause:

The obligations and rights specified in this paragraph shall extend to the use of, and charges for the use of, the facilities under this contract.

*Alternate II (Apr 1998).* As prescribed in 15.209(b)(3), add the following paragraph (h) to the basic clause:

(h) The provisions of OMB Circular No. A-133, “Audits of States, Local Governments, and Nonprofit Organizations,” apply to this contract.

*Alternate III (June 1999).* As prescribed in 15.209(b)(4), delete paragraph (d) of the basic clause and redesignate the remaining paragraphs accordingly, and substitute the following paragraph (e) for the redesignated paragraph (e) of the basic clause:

(e) *Availability.* The Contractor shall make available at its office at all reasonable times the records, materials, and other evidence described in paragraphs (a), (b), (c), and (d) of this clause, for examination, audit, or reproduction, until 3 years after final payment under this contract or for any shorter period specified in Subpart 4.7, Contractor Records Retention, of the Federal Acquisition Regulation (FAR), or for any longer period required by statute or by other clauses of this contract. In addition—

(1) If this contract is completely or partially terminated, the Contractor shall make available the records relating to the work terminated until 3 years after any resulting final termination settlement; and

(2) The Contractor shall make available records relating to appeals under the Disputes clause or to litigation or the settlement of claims arising under or relating to this contract until such appeals, litigation, or claims are finally resolved.

### 52.215-3 Request for Information or Solicitation for Planning Purposes.

As prescribed in 15.209(c), insert the following provision:

#### REQUEST FOR INFORMATION OR SOLICITATION FOR PLANNING PURPOSES (OCT 1997)

(a) The Government does not intend to award a contract on the basis of this solicitation or to otherwise pay for the information solicited except as an allowable cost under other contracts as provided in subsection 31.205-18, Bid and proposal costs, of the Federal Acquisition Regulation.

(b) Although “proposal” and “offeror” are used in this Request for Information, your response will be treated as information only. It shall not be used as a proposal.

(c) This solicitation is issued for the purpose of: [*state purpose*].

(End of provision)

### 52.215-4 [Reserved]

### 52.215-5 Facsimile Proposals.

As prescribed in 15.209(e), insert the following provision:

#### FACSIMILE PROPOSALS (OCT 1997)

(a) *Definition.* “Facsimile proposal,” as used in this provision, means a proposal, revision or modification of a proposal, or withdrawal of a proposal that is transmitted to and received by the Government via facsimile machine.

(b) Offerors may submit facsimile proposals as responses to this solicitation. Facsimile proposals are subject to the same rules as paper proposals.

(c) The telephone number of receiving facsimile equipment is: [*insert telephone number*].

(d) If any portion of a facsimile proposal received by the Contracting Officer is unreadable to the degree that conformance to the essential requirements of the solicitation cannot be ascertained from the document—

(1) The Contracting Officer immediately shall notify the offeror and permit the offeror to resubmit the proposal;

(2) The method and time for resubmission shall be prescribed by the Contracting Officer after consultation with the offeror; and

(3) The resubmission shall be considered as if it were received at the date and time of the original unreadable submission for the purpose of determining timeliness, provided the offeror complies with the time and format requirements for resubmission prescribed by the Contracting Officer.

(e) The Government reserves the right to make award solely on the facsimile proposal. However, if requested to do so by the Contracting Officer, the apparently successful offeror promptly shall submit the complete original signed proposal.

(End of provision)

### 52.215-6 Place of Performance.

As prescribed in 15.209(f), insert the following provision:

## PLACE OF PERFORMANCE (OCT 1997)

(a) The offeror or respondent, in the performance of any contract resulting from this solicitation,  intends,  does not intend [*check applicable block*] to use one or more plants or facilities located at a different address from the address of the offeror or respondent as indicated in this proposal or response to request for information.

(b) If the offeror or respondent checks “intends” in paragraph (a) of this provision, it shall insert in the following spaces the required information:

PLACE OF PERFORMANCE (STREET ADDRESS, CITY, STATE, COUNTY, ZIP CODE)	NAME AND ADDRESS OF OWNER AND OPERATOR OF THE PLANT OR FACILITY IF OTHER THAN OFFEROR OR RESPONDENT
_____	_____
_____	_____

(End of provision)

**52.215-7 Annual Representations and Certifications—Negotiation.**

As prescribed in 15.209(g), insert the following provision:

ANNUAL REPRESENTATIONS AND CERTIFICATIONS—  
NEGOTIATION (OCT 1997)

The offeror has [*check the appropriate block*]:

[ ] (a) Submitted to the contracting office issuing this solicitation, annual representations and certifications dated \_\_\_\_\_ [*insert date of signature on submission*] that are incorporated herein by reference, and are current, accurate, and complete as of the date of this proposal, except as follows [*insert changes that affect only this proposal; if “none,” so state*]:

[ ] (b) Enclosed its annual representations and certifications.

(End of provision)

**52.215-8 Order of Precedence—Uniform Contract Format.**

As prescribed in 15.209(h), insert the following clause:

ORDER OF PRECEDENCE—UNIFORM CONTRACT FORMAT  
(OCT 1997)

Any inconsistency in this solicitation or contract shall be resolved by giving precedence in the following order:

- (a) The Schedule (excluding the specifications).
- (b) Representations and other instructions.
- (c) Contract clauses.
- (d) Other documents, exhibits, and attachments.
- (e) The specifications.

(End of clause)

**52.215-9 Changes or Additions to Make-or-Buy Program.**

As prescribed in 15.408(a), insert the following clause:

CHANGES OR ADDITIONS TO MAKE-OR-BUY PROGRAM  
(OCT 1997)

(a) The Contractor shall perform in accordance with the make-or-buy program incorporated in this contract. If the Contractor proposes to change the program, the Contractor shall, reasonably in advance of the proposed change, (1) notify the Contracting Officer in writing, and (2) submit justification in sufficient detail to permit evaluation. Changes in the place of performance of any “make” items in the program are subject to this requirement.

(b) For items deferred at the time of negotiation of this contract for later addition to the program, the Contractor shall, at the earliest possible time—

(1) Notify the Contracting Officer of each proposed addition; and

(2) Provide justification in sufficient detail to permit evaluation.

(c) Modification of the make-or-buy program to incorporate proposed changes or additions shall be effective upon the Contractor's receipt of the Contracting Officer's written approval.

(End of clause)

*Alternate I (Oct 1997).* As prescribed in 15.408(a)(1) add the following paragraph (d) to the basic clause:

(d) If the Contractor desires to reverse the categorization of “make” or “buy” for any item or items designated in the contract as subject to this paragraph, it shall—

(1) Support its proposal with cost or pricing data when permitted and necessary to support evaluation; and

(2) After approval is granted, promptly negotiate with the Contracting Officer an equitable reduction in the contract price in accordance with paragraph (k) of the Incentive Price Revision—Firm Target clause or paragraph (m) of the Incentive Price Revision—Successive Targets clause of this contract.

*Alternate II (Oct 1997).* As prescribed in 15.408(a)(2), add the following paragraph (d) to the basic clause:

(d) If the Contractor desires to reverse the categorization of “make” or “buy” for any item or items designated in the contract as subject to this paragraph, it shall—

(1) Support its proposal with cost or pricing data to permit evaluation; and

(2) After approval is granted, promptly negotiate with the Contracting Officer an equitable reduction in the contract's total estimated cost and fee in accordance with paragraph (e) of the Incentive Fee clause of this contract.

**52.215-10 Price Reduction for Defective Cost or Pricing Data.**

As prescribed in 15.408(b), insert the following clause:

PRICE REDUCTION FOR DEFECTIVE COST OR PRICING  
DATA (OCT 1997)

(a) If any price, including profit or fee, negotiated in connection with this contract, or any cost reimbursable under this contract, was increased by any significant amount because—

(1) The Contractor or a subcontractor furnished cost or pricing data that were not complete, accurate, and current as certified in its Certificate of Current Cost or Pricing Data;

(2) A subcontractor or prospective subcontractor furnished the Contractor cost or pricing data that were not complete, accurate, and current as certified in the Contractor's Certificate of Current Cost or Pricing Data; or

(3) Any of these parties furnished data of any description that were not accurate, the price or cost shall be reduced accordingly and the contract shall be modified to reflect the reduction.

(b) Any reduction in the contract price under paragraph (a) of this clause due to defective data from a prospective subcontractor that was not subsequently awarded the subcontract shall be limited to the amount, plus applicable overhead and profit markup, by which—

(1) The actual subcontract; or

(2) The actual cost to the Contractor, if there was no subcontract, was less than the prospective subcontract cost estimate submitted by the Contractor; provided, that the actual subcontract price was not itself affected by defective cost or pricing data.

(c)(1) If the Contracting Officer determines under paragraph (a) of this clause that a price or cost reduction should be made, the Contractor agrees not to raise the following matters as a defense:

(i) The Contractor or subcontractor was a sole source supplier or otherwise was in a superior bargaining position and thus the price of the contract would not have been modified even if accurate, complete, and current cost or pricing data had been submitted.

(ii) The Contracting Officer should have known that the cost or pricing data in issue were defective even though the Contractor or subcontractor took no affirmative action to bring the character of the data to the attention of the Contracting Officer.

(iii) The contract was based on an agreement about the total cost of the contract and there was no agreement about the cost of each item procured under the contract.

(iv) The Contractor or subcontractor did not submit a Certificate of Current Cost or Pricing Data.

(2)(i) Except as prohibited by subdivision (c)(2)(ii) of this clause, an offset in an amount determined appropriate by the Contracting Officer based upon the facts shall be allowed against the amount of a contract price reduction if—

(A) The Contractor certifies to the Contracting Officer that, to the best of the Contractor's knowledge and

belief, the Contractor is entitled to the offset in the amount requested; and

(B) The Contractor proves that the cost or pricing data were available before the "as of" date specified on its Certificate of Current Cost or Pricing Data, and that the data were not submitted before such date.

(ii) An offset shall not be allowed if—

(A) The understated data were known by the Contractor to be understated before the "as of" date specified on its Certificate of Current Cost or Pricing Data; or

(B) The Government proves that the facts demonstrate that the contract price would not have increased in the amount to be offset even if the available data had been submitted before the "as of" date specified on its Certificate of Current Cost or Pricing Data.

(d) If any reduction in the contract price under this clause reduces the price of items for which payment was made prior to the date of the modification reflecting the price reduction, the Contractor shall be liable to and shall pay the United States at the time such overpayment is repaid—

(1) Simple interest on the amount of such overpayment to be computed from the date(s) of overpayment to the Contractor to the date the Government is repaid by the Contractor at the applicable underpayment rate effective for each quarter prescribed by the Secretary of the Treasury under 26 U.S.C. 6621(a)(2); and

(2) A penalty equal to the amount of the overpayment, if the Contractor or subcontractor knowingly submitted cost or pricing data that were incomplete, inaccurate, or noncurrent.

(End of clause)

**52.215-11 Price Reduction for Defective Cost or Pricing Data—Modifications.**

As prescribed in 15.408(c), insert the following clause:

PRICE REDUCTION FOR DEFECTIVE COST OR PRICING  
DATA—MODIFICATIONS (OCT 1997)

(a) This clause shall become operative only for any modification to this contract involving a pricing adjustment expected to exceed the threshold for submission of cost or pricing data at FAR 15.403-4, except that this clause does not apply to any modification if an exception under FAR 15.403-1 applies.

(b) If any price, including profit or fee, negotiated in connection with any modification under this clause, or any cost reimbursable under this contract, was increased by any significant amount because (1) the Contractor or a subcontractor furnished cost or pricing data that were not complete, accurate, and current as certified in its Certificate of Current Cost or Pricing Data, (2) a subcontractor or prospective subcontractor furnished the Contractor cost or pricing data that were not complete, accurate, and current as certified in the Contract-

tor's Certificate of Current Cost or Pricing Data, or (3) any of these parties furnished data of any description that were not accurate, the price or cost shall be reduced accordingly and the contract shall be modified to reflect the reduction. This right to a price reduction is limited to that resulting from defects in data relating to modifications for which this clause becomes operative under paragraph (a) of this clause.

(c) Any reduction in the contract price under paragraph (b) of this clause due to defective data from a prospective subcontractor that was not subsequently awarded the subcontract shall be limited to the amount, plus applicable overhead and profit markup, by which—

(1) The actual subcontract; or

(2) The actual cost to the Contractor, if there was no subcontract, was less than the prospective subcontract cost estimate submitted by the Contractor; provided, that the actual subcontract price was not itself affected by defective cost or pricing data.

(d)(1) If the Contracting Officer determines under paragraph (b) of this clause that a price or cost reduction should be made, the Contractor agrees not to raise the following matters as a defense:

(i) The Contractor or subcontractor was a sole source supplier or otherwise was in a superior bargaining position and thus the price of the contract would not have been modified even if accurate, complete, and current cost or pricing data had been submitted.

(ii) The Contracting Officer should have known that the cost or pricing data in issue were defective even though the Contractor or subcontractor took no affirmative action to bring the character of the data to the attention of the Contracting Officer.

(iii) The contract was based on an agreement about the total cost of the contract and there was no agreement about the cost of each item procured under the contract.

(iv) The Contractor or subcontractor did not submit a Certificate of Current Cost or Pricing Data.

(2)(i) Except as prohibited by paragraph (d)(2)(ii) of this clause, an offset in an amount determined appropriate by the Contracting Officer based upon the facts shall be allowed against the amount of a contract price reduction if—

(A) The Contractor certifies to the Contracting Officer that, to the best of the Contractor's knowledge and belief, the Contractor is entitled to the offset in the amount requested; and

(B) The Contractor proves that the cost or pricing data were available before the "as of" date specified on its Certificate of Current Cost or Pricing Data, and that the data were not submitted before such date.

(ii) An offset shall not be allowed if—

(A) The understated data were known by the Contractor to be understated before the "as of" date specified on its Certificate of Current Cost or Pricing Data; or

(B) The Government proves that the facts demonstrate that the contract price would not have increased in the amount to be offset even if the available data had been submitted before the "as of" date specified on its Certificate of Current Cost or Pricing Data.

(e) If any reduction in the contract price under this clause reduces the price of items for which payment was made prior to the date of the modification reflecting the price reduction, the Contractor shall be liable to and shall pay the United States at the time such overpayment is repaid—

(1) Simple interest on the amount of such overpayment to be computed from the date(s) of overpayment to the Contractor to the date the Government is repaid by the Contractor at the applicable underpayment rate effective for each quarter prescribed by the Secretary of the Treasury under 26 U.S.C. 6621(a)(2); and

(2) A penalty equal to the amount of the overpayment, if the Contractor or subcontractor knowingly submitted cost or pricing data that were incomplete, inaccurate, or noncurrent.

(End of clause)

#### **52.215-12 Subcontractor Cost or Pricing Data.**

As prescribed in 15.408(d), insert the following clause:

##### **SUBCONTRACTOR COST OR PRICING DATA (OCT 1997)**

(a) Before awarding any subcontract expected to exceed the threshold for submission of cost or pricing data at FAR 15.403-4, on the date of agreement on price or the date of award, whichever is later; or before pricing any subcontract modification involving a pricing adjustment expected to exceed the threshold for submission of cost or pricing data at FAR 15.403-4, the Contractor shall require the subcontractor to submit cost or pricing data (actually or by specific identification in writing), unless an exception under FAR 15.403-1 applies.

(b) The Contractor shall require the subcontractor to certify in substantially the form prescribed in FAR 15.406-2 that, to the best of its knowledge and belief, the data submitted under paragraph (a) of this clause were accurate, complete, and current as of the date of agreement on the negotiated price of the subcontract or subcontract modification.

(c) In each subcontract that exceeds the threshold for submission of cost or pricing data at FAR 15.403-4, when entered into, the Contractor shall insert either—

(1) The substance of this clause, including this paragraph (c), if paragraph (a) of this clause requires submission of cost or pricing data for the subcontract; or

(2) The substance of the clause at FAR 52.215-13, Subcontractor Cost or Pricing Data—Modifications.

(End of clause)

**52.215-13 Subcontractor Cost or Pricing Data—Modifications.**

As prescribed in 15.408(e), insert the following clause:

SUBCONTRACTOR COST OR PRICING DATA—  
MODIFICATIONS (OCT 1997)

(a) The requirements of paragraphs (b) and (c) of this clause shall—

(1) Become operative only for any modification to this contract involving a pricing adjustment expected to exceed the threshold for submission of cost or pricing data at FAR 15.403-4; and

(2) Be limited to such modifications.

(b) Before awarding any subcontract expected to exceed the threshold for submission of cost or pricing data at FAR 15.403-4, on the date of agreement on price or the date of award, whichever is later; or before pricing any subcontract modification involving a pricing adjustment expected to exceed the threshold for submission of cost or pricing data at FAR 15.403-4, the Contractor shall require the subcontractor to submit cost or pricing data (actually or by specific identification in writing), unless an exception under FAR 15.403-1 applies.

(c) The Contractor shall require the subcontractor to certify in substantially the form prescribed in FAR 15.406-2 that, to the best of its knowledge and belief, the data submitted under paragraph (b) of this clause were accurate, complete, and current as of the date of agreement on the negotiated price of the subcontract or subcontract modification.

(d) The Contractor shall insert the substance of this clause, including this paragraph (d), in each subcontract that exceeds the threshold for submission of cost or pricing data at FAR 15.403-4 on the date of agreement on price or the date of award, whichever is later.

(End of clause)

**52.215-14 Integrity of Unit Prices.**

As prescribed in 15.408(f)(1), insert the following clause:

INTEGRITY OF UNIT PRICES (OCT 1997)

(a) Any proposal submitted for the negotiation of prices for items of supplies shall distribute costs within contracts on a basis that ensures that unit prices are in proportion to the items' base cost (*e.g.*, manufacturing or acquisition costs). Any method of distributing costs to line items that distorts unit prices shall not be used. For example, distributing costs equally among line items is not acceptable except when there is little or no variation in base cost. Nothing in this paragraph requires submission of cost or pricing data not otherwise required by law or regulation.

(b) When requested by the Contracting Officer, the Offeror/Contractor shall also identify those supplies that it will not manufacture or to which it will not contribute significant value.

(c) The Contractor shall insert the substance of this clause, less paragraph (b), in all subcontracts for other than: acquisitions at or below the simplified acquisition threshold in FAR Part 2; construction or architect-engineer services under FAR Part 36; utility services under FAR Part 41; services where supplies are not required; commercial items; and petroleum products.

(End of clause)

*Alternate I (Oct 1997).* As prescribed in 15.408(f)(2), substitute the following paragraph (b) for paragraph (b) of the basic clause:

(b) The Offeror/Contractor shall also identify those supplies that it will not manufacture or to which it will not contribute significant value.

**52.215-15 Pension Adjustments and Asset Reversions.**

As prescribed in 15.408(g), insert the following clause:

PENSION ADJUSTMENTS AND ASSET REVERSIONS  
(DEC 1998)

(a) The Contractor shall promptly notify the Contracting Officer in writing when it determines that it will terminate a defined-benefit pension plan or otherwise recapture such pension fund assets.

(b) For segment closings, pension plan terminations, or curtailment of benefits, the adjustment amount shall be the amount measured, assigned, and allocated in accordance with 48 CFR 9904.413-50(c)(12) for contracts and subcontracts that are subject to Cost Accounting Standards (CAS) Board rules and regulations (48 CFR Chapter 99). For contracts and subcontracts that are not subject to CAS, the adjustment amount shall be the amount measured, assigned, and allocated in accordance with 48 CFR 9904.413-50(c)(12), except the numerator of the fraction at 48 CFR 9904.413-50(c)(12)(vi) shall be the sum of the pension plan costs allocated to all non-CAS-covered contracts and subcontracts that are subject to Federal Acquisition Regulation (FAR) Subpart 31.2 or for which cost or pricing data were submitted.

(c) For all other situations where assets revert to the Contractor, or such assets are constructively received by it for any reason, the Contractor shall, at the Government's option, make a refund or give a credit to the Government for its equitable share of the gross amount withdrawn. The Government's equitable share shall reflect the Government's participation in pension costs through those contracts for which cost or pricing data were submitted or that are subject to FAR Subpart 31.2.

(d) The Contractor shall include the substance of this clause in all subcontracts under this contract that meet the applicability requirement of FAR 15.408(g).

(End of clause)

#### **52.215-16 Facilities Capital Cost of Money.**

As prescribed in 15.408(h), insert the following provision:

##### FACILITIES CAPITAL COST OF MONEY (OCT 1997)

(a) Facilities capital cost of money will be an allowable cost under the contemplated contract, if the criteria for allowability in subparagraph 31.205-10(a)(2) of the Federal Acquisition Regulation are met. One of the allowability criteria requires the prospective contractor to propose facilities capital cost of money in its offer.

(b) If the prospective Contractor does not propose this cost, the resulting contract will include the clause Waiver of Facilities Capital Cost of Money.

(End of provision)

#### **52.215-17 Waiver of Facilities Capital Cost of Money.**

As prescribed in 15.408(i), insert the following clause:

##### WAIVER OF FACILITIES CAPITAL COST OF MONEY (OCT 1997)

The Contractor did not include facilities capital cost of money as a proposed cost of this contract. Therefore, it is an unallowable cost under this contract.

(End of clause)

#### **52.215-18 Reversion or Adjustment of Plans for Postretirement Benefits (PRB) Other Than Pensions.**

As prescribed in 15.408(j), insert the following clause:

##### REVERSION OR ADJUSTMENT OF PLANS FOR POSTRETIREMENT BENEFITS (PRB) OTHER THAN PENSIONS (OCT 1997)

The Contractor shall promptly notify the Contracting Officer in writing when it determines that it will terminate or reduce a PRB plan. If PRB fund assets revert, or inure, to the Contractor or are constructively received by it under a plan termination or otherwise, the Contractor shall make a refund or give a credit to the Government for its equitable share as required by FAR 31.205-6(o)(6). The Contractor shall include the substance of this clause in all subcontracts under this contract that meet the applicability requirements of FAR 15.408(j).

(End of clause)

#### **52.215-19 Notification of Ownership Changes.**

As prescribed in 15.408(k), insert the following clause:

##### NOTIFICATION OF OWNERSHIP CHANGES (OCT 1997)

(a) The Contractor shall make the following notifications in writing:

(1) When the Contractor becomes aware that a change in its ownership has occurred, or is certain to occur, that could result in changes in the valuation of its capitalized assets in the accounting records, the Contractor shall notify the Administrative Contracting Officer (ACO) within 30 days.

(2) The Contractor shall also notify the ACO within 30 days whenever changes to asset valuations or any other cost changes have occurred or are certain to occur as a result of a change in ownership.

(b) The Contractor shall—

(1) Maintain current, accurate, and complete inventory records of assets and their costs;

(2) Provide the ACO or designated representative ready access to the records upon request;

(3) Ensure that all individual and grouped assets, their capitalized values, accumulated depreciation or amortization, and remaining useful lives are identified accurately before and after each of the Contractor's ownership changes; and

(4) Retain and continue to maintain depreciation and amortization schedules based on the asset records maintained before each Contractor ownership change.

(c) The Contractor shall include the substance of this clause in all subcontracts under this contract that meet the applicability requirement of FAR 15.408(k).

(End of clause)

#### **52.215-20 Requirements for Cost or Pricing Data or Information Other Than Cost or Pricing Data.**

As prescribed in 15.408(l), insert the following provision:

##### REQUIREMENTS FOR COST OR PRICING DATA OR INFORMATION OTHER THAN COST OR PRICING DATA (OCT 1997)

(a) *Exceptions from cost or pricing data.* (1) In lieu of submitting cost or pricing data, offerors may submit a written request for exception by submitting the information described in the following paragraphs. The Contracting Officer may require additional supporting information, but only to the extent necessary to determine whether an exception should be granted, and whether the price is fair and reasonable.

(i) *Identification of the law or regulation establishing the price offered.* If the price is controlled under law by periodic rulings, reviews, or similar actions of a governmental body, attach a copy of the controlling document, unless it was previously submitted to the contracting office.

(ii) *Commercial item exception.* For a commercial item exception, the offeror shall submit, at a minimum, information on prices at which the same item or similar items have previously been sold in the commercial market that is ade-

quate for evaluating the reasonableness of the price for this acquisition. Such information may include—

(A) For catalog items, a copy of or identification of the catalog and its date, or the appropriate pages for the offered items, or a statement that the catalog is on file in the buying office to which the proposal is being submitted. Provide a copy or describe current discount policies and price lists (published or unpublished), *e.g.*, wholesale, original equipment manufacturer, or reseller. Also explain the basis of each offered price and its relationship to the established catalog price, including how the proposed price relates to the price of recent sales in quantities similar to the proposed quantities;

(B) For market-priced items, the source and date or period of the market quotation or other basis for market price, the base amount, and applicable discounts. In addition, describe the nature of the market;

(C) For items included on an active Federal Supply Service Multiple Award Schedule contract, proof that an exception has been granted for the schedule item.

(2) The offeror grants the Contracting Officer or an authorized representative the right to examine, at any time before award, books, records, documents, or other directly pertinent records to verify any request for an exception under this provision, and the reasonableness of price. For items priced using catalog or market prices, or law or regulation, access does not extend to cost or profit information or other data relevant solely to the offeror's determination of the prices to be offered in the catalog or marketplace.

(b) *Requirements for cost or pricing data.* If the offeror is not granted an exception from the requirement to submit cost or pricing data, the following applies:

(1) The offeror shall prepare and submit cost or pricing data and supporting attachments in accordance with Table 15-2 of FAR 15.408.

(2) As soon as practicable after agreement on price, but before contract award (except for unpriced actions such as letter contracts), the offeror shall submit a Certificate of Current Cost or Pricing Data, as prescribed by FAR 15.406-2.

(End of provision)

*Alternate I (Oct 1997).* As prescribed in 15.408(l), substitute the following paragraph (b)(1) for paragraph (b)(1) of the basic provision:

(b)(1) The offeror shall submit cost or pricing data and supporting attachments in the following format:

*Alternate II (Oct 1997).* As prescribed in 15.408(l), add the following paragraph (c) to the basic provision:

(c) When the proposal is submitted, also submit one copy each to: (1) the Administrative Contracting Officer, and (2) the Contract Auditor.

*Alternate III (Oct 1997).* As prescribed in 15.408(l), add the following paragraph (c) to the basic provision (if Alternate II is also used, redesignate the following paragraph as paragraph (d)).

(c) Submit the cost portion of the proposal via the following electronic media: [*Insert media format, e.g., electronic spreadsheet format, electronic mail, etc.*]

*Alternate IV (Oct 1997).* As prescribed in 15.408(l), replace the text of the basic provision with the following:

(a) Submission of cost or pricing data is not required.

(b) Provide information described below: [*Insert description of the information and the format that are required, including access to records necessary to permit an adequate evaluation of the proposed price in accordance with 15.403-3.*]

### **52.215-21 Requirements for Cost or Pricing Data or Information Other Than Cost or Pricing Data—Modifications.**

As prescribed in 15.408(m), insert the following clause:

#### **REQUIREMENTS FOR COST OR PRICING DATA OR INFORMATION OTHER THAN COST OR PRICING DATA—MODIFICATIONS (OCT 1997)**

(a) *Exceptions from cost or pricing data.* (1) In lieu of submitting cost or pricing data for modifications under this contract, for price adjustments expected to exceed the threshold set forth at FAR 15.403-4 on the date of the agreement on price or the date of the award, whichever is later, the Contractor may submit a written request for exception by submitting the information described in the following paragraphs. The Contracting Officer may require additional supporting information, but only to the extent necessary to determine whether an exception should be granted, and whether the price is fair and reasonable—

(i) *Identification of the law or regulation establishing the price offered.* If the price is controlled under law by periodic rulings, reviews, or similar actions of a governmental body, attach a copy of the controlling document, unless it was previously submitted to the contracting office.

(ii) *Information on modifications of contracts or subcontracts for commercial items.* (A) If—

(1) The original contract or subcontract was granted an exception from cost or pricing data requirements because the price agreed upon was based on adequate price competition or prices set by law or regulation, or was a contract or subcontract for the acquisition of a commercial item; and

(2) The modification (to the contract or subcontract) is not exempted based on one of these exceptions, then the Contractor may provide information to establish that the modification would not change the contract or subcontract from a contract or subcontract for the acquisition of a com-

mercial item to a contract or subcontract for the acquisition of an item other than a commercial item.
