SUBJECT: Class Deviation for Federal Acquisition Regulation Part 10 in Support of Executive Order on Restoring Common Sense to Federal Procurement

1. **Purpose:** To issue a class deviation to Federal Acquisition Regulation (FAR) Part 10 for purposes of implementing the FAR Council's model deviation text to FAR Part 10.

2. **Effective Date:** Immediately.

3. **Expiration Date:** Expires when incorporated into the FAR or is otherwise rescinded.

4. **Background:** On April 15, 2025, the Executive Order (E.O.) 14275 on Restoring Common Sense to Federal Procurement was signed. Section 2 of the E.O. establishes the policy that the FAR "should only contain provisions required by statute or essential to sound procurement, and any FAR provisions that do not advance these objectives should be removed."

The FAR is being updated to:

- Remove language that is not required by statute
- Remove duplicative or outdated language
- Clarify or provide more plain language
- Revise language for the new FAR framework
- Retain language necessary for governmentwide acquisition standards.

This project is referred to as the Revolutionary FAR Overhaul (RFO) initiative. This initiative will make the FAR more concise, understandable, and focused on core procurement requirements.

5. Summary of Changes. FAR Part 10, concerning Market Research, has been updated to offer acquisition teams more flexibility in their research methods:

- Greater flexibility in techniques: The FAR no longer lists specific market research considerations or techniques that must be used.
 - You have the flexibility to choose the market research method that best fits your needs. For example, you might host a reverse industry day or

- expert panel. This allows industry experts to share their perspectives, commercial practices, and experiences with the acquisition team.
 - For more information on reverse industry days, and to read about more good market research techniques, check out the “Smart Accelerators” in the Practitioner Album available at [Acquisition.gov/far-overhaul](https://www.acquisition.gov/far-overhaul).
- Competition requirements remain: Acquisition professionals must still comply with the Competition in Contracting Act (CICA) (41 U.S.C. § 3301 et seq), which may necessitate market research.
- Flexibility at all dollar values: Acquisition professionals can apply market research concepts to procurements of any size.
- While FAR clause 52.210-1 Market Research is not required by statute, across Government, it has been retained as essential to the acquisition process.

Statutory requirements retained in the RFO FAR part 10 model deviation include, but are not limited to, the following:

- 10 U.S.C. §3453, Preference for Commercial Products and Commercial Services
- 41 U.S.C. §3306, Planning and Solicitation Requirements
- 41 U.S.C. § 3307, Preference for Commercial Products and Commercial Services
- 41 U.S.C. § 1703 note, Effective Communication Between Government and Industry; inclusive of 41 U.S.C. § 3301 et seq and 41 U.S.C. § 2101 et seq.
