### Class Deviation for Federal Acquisition Regulation Part 39 in Support of Executive Order on Restoring Common Sense to Federal Procurement (2025-008)

1. **Purpose:** To issue a class deviation to Federal Acquisition Regulation (FAR) Part 39 for purposes of implementing the FAR Council's model deviation text to FAR Part 39.
2. **Effective Date:** This class deviation is effective immediately and remains in effect until rescinded or incorporated into the FAR.
3. **Expiration Date:** Expires when incorporated into the FAR or is otherwise rescinded.
4. **Background:** On April 15, 2025, the [Executive Order \(E.O.\) 14275 on Restoring Common Sense to Federal Procurement](#) was signed. Section 2 of the E.O. establishes the policy that the FAR "should only contain provisions required by statute or essential to sound procurement, and any FAR provisions that do not advance these objectives should be removed."

The FAR is being updated to:

- Remove language that is not required by statute
- Remove duplicative or outdated language
- Clarify or provide more plain language
- Revise language for the new FAR framework
- Retain language necessary for governmentwide acquisition standards.

This project is referred to as the Revolutionary FAR Overhaul (RFO) initiative. This initiative will make the FAR more concise, understandable, and focused on core procurement requirements.

5. **Summary of Changes.** FAR Part 39, concerning Acquisition of Information and Communication Technology, has been streamlined to be future forward and emphasize strategies that promote faster acquisition and secure deployment of technology that is new or emerging.

Notably, FAR Part 39 is renamed –

- From: Acquisition of Information Technology
- To: Acquisition of Information and Communication Technology

Statutory requirements retained in the RFO FAR Part 39 model deviation include, but are not limited to, the following:

- 41 U.S.C. § 2308, Modular Contracting for Information Technology
- 40 U.S.C. § 1461, Procurement Procedures
- 29 U.S.C. § 794d, Electronic and Information Technology
