Subj: Class Deviation for FAR Part 39 in Support of Executive Order on Restoring Common Sense to Federal Procurement

To: Heads of the Contracting Activities

**1. Purpose.** Deviate from Federal Acquisition Regulation (FAR) part 39 to implement the Federal Acquisition Regulatory Council's model deviation text to FAR part 39.

**2. Background.** [Executive Order \(E.O.\) 14275, Restoring Common Sense to Federal Procurement](#), signed April 15, 2025, mandates a comprehensive review and simplification of the Federal Acquisition Regulation (FAR).

The FAR is being updated to:

- Eliminate non-statutory language
- Remove redundant or obsolete language
- Enhance clarity through plain language
- Align with the new FAR framework
- Preserve essential governmentwide acquisition standards

This project is referred to as the Revolutionary FAR Overhaul (RFO) initiative. This initiative will make the FAR more concise, understandable, and focused on core procurement requirements.

### **3. Summary of Changes.**

FAR part 39, concerning Acquisition of Information and Communication Technology, has been streamlined to be future forward and emphasize strategies that promote faster acquisition and secure deployment of technology that is new or emerging.

Notably, FAR part 39 is renamed from "Acquisition of Information Technology," to "Acquisition of Information and Communication Technology."

Statutory requirements retained in the RFO FAR part 39 model deviation include, but are not limited to:

- 41 U.S.C. § 2308, Modular Contracting for Information Technology
- 40 U.S.C. § 1461, Procurement Procedures
